# About the User Guide

In the User Guide, most operation descriptions are based on handset at time of purchase.

Unless noted otherwise, descriptions are for Home Screen. Some operation descriptions may be simplified.

Screens and operation may differ depending on your environment (updates, etc.).

#### Before Using This Product

- Data Communication
- Screenshots & Key Labels
- Other Notations

### **Before Using This Product**

- Read "Quick Start" and "Safety Precautions" thoroughly for proper usage.
  - \* Use within temperatures of 5°C to 35°C and humidity 45% to 85%. See "Safety Precautions" for use in a bath room.
- Accessible services may be limited by subscription contract conditions.

### **Data Communication**

- Since constant Internet connection is possible with the product, data communication may be performed automatically.
- If you transmit a large amount of data, such as when downloading applications or watching video, data communication charges become high. Therfore, subscription to the flat-rate service for data communication charfes is recommended.
- Depending on the applications or service you use, data communication charge may be applied even in Wi-Fi communication.

### **Screenshots & Key Labels**

Screenshots in the User Guide may differ in appearance with actual Display. Key labels in the User

Guide are simplified for description purposes and differ with actual Display.

## **Other Notations**

In the User Guide, the product is referred to as "handset." microSD<sup>™</sup>/microSDHC<sup>™</sup>/microSDXC<sup>™</sup> Card is referred to as "SD Card."

eSIM is an integrated SIM that is pre-embedded in handset. An eSIM-capable handset enables use of a phone line only with your subscription contract and settings, and does not require replacing a SIM card in handset as with a USIM card.

| V | Download your service plan with eSIM |
|---|--------------------------------------|
| V | Enable or disable eSIM               |
| ¥ | Erase your service plan with eSIM    |

### Handling eSIM

To learn about setting up your service plan with eSIM, see the following website. https://www.softbank.jp/mobile/support/product/sim/esim/ (Japanese)

### Download your service plan with eSIM

In Home Screen, 3 Network & internet

### 2

+ for "Mobile network"

#### Download a SIM instead?

Scan a QR code

#### 00

#### Scan QR code from network

If your network provider gave you a QR code, scan it now by keeping the code centered in the box

Need help?

Activate

Enter verification code assigned from SoftBank at time of subscription SoftBank at time of subscription

Done

Your service plan with eSIM is downloaded.

■ Once eSIM is enabled, notification arrives by SMS.

In Home Screen, 3 Network & internet

#### Mobile network

Use SIM

■ To enable eSIM, Tap Off No further operation required.

🏁 You can set enabling or disabling eSIM.

### Erase your service plan with eSIM

In Home Screen, 🐵 ƏNetwork & internet

#### Mobile network

#### 3

Advanced<mark></mark> ∈rase SIM

Your service plan with eSIM is erased.

### After eSIM Is Erased

To use eSIM again after it has been erased, first have a QR code for downloading eSIM reissued.

Even if eSIM has been erased, your subscription contract remains valid.

# SIM Card

SIM Card is an IC card containing phone number and other customer information.

- Inserting SIM Card
- Removing SIM Card

#### **Handling SIM Card**

For SIM card handling, see following items.

#### (1) IC chip

For SIM card handling, see SoftBank Website. https://www.softbank.jp/mobile/support/protect/usim/ (Japanese)

- Always keep the IC chip clean.
- Wipe clean with a dry, soft cloth.
- Avoid applying labels. May damage SIM Card.

#### Н SIM Card Cautions

Observe the following when using SIM Card.

- Customer is responsible for any damage caused by inserting SIM Card in an other-brand IC card reader, etc. The company is not responsible in such case.
- SIM Card is the property of the company.
- SIM is replaceable (at cost) in case of loss/damage.
- Return SIM Card to the company when cancelling subscription.
- Returned SIM Cards are recycled for environmental purposes.
- Note that SIM Card specifications and performance may change without notice.
- It is recommended that you keep a separate copy of information that is stored on SIM Card. The company is not responsible for damages from stored information that is lost.
- Always follow emergency procedures to suspend service if your SIM Card or handset (SIM Card inserted) is lost/stolen. For details, contact Customer Service.
- Always power off handset before inserting/removing SIM Card.
- Some services, functions, etc. may have restrictions when an other-carrier SIM card is used. SoftBank Corp. does not guarantee operation whatsoever.

### **Inserting SIM Card**

Always power off beforehand.

### 1

With handset Display upward, use groove to open Slot Cap, and pull out straight without bending in direction shown

■ Slot Cap detaches from handset.

### 2

Set SIM Card in Tray in Slot Cap with IC chip facing down

■ Note orientation by notch.

22/89 Getting Started ■ Make sure SIM Card is in Tray securely.

### 3

#### With Display upward, insert Slot Cap

SIM Card is inserted.

- Insert straight without bending in direction shown, and press firmly where circled O.
- Make sure there is no gap between handset and Slot Cap.

### **Removing SIM Card**

Always power off beforehand.

### 1

With handset Display upward, use groove to open Slot Cap, and pull out straight without bending in direction shown

Slot Cap detaches from handset.

### 2

#### Remove SIM Card

#### 3

#### With Display upward, insert Slot Cap

SIM Card is removed.

- Insert straight without bending in direction shown, and press firmly where circled O.
- Make sure there is no gap between handset and Slot Cap.

# SD Card

Handset supports SD Cards up to 1 TB. Some SD Cards may not operate properly. When using a new SD card for the first time, always format it on handset.

| ↓ | Inserting SD Card  |
|---|--------------------|
| ↓ | Formatting SD Card |
| ↓ | Unmounting SD Card |
| ↓ | Removing SD Card   |

### SD Card Cautions

#### Data

Information stored on SD Card can become lost or changed accidently or as a result of damage. It is recommended that you keep a separate copy of important data. The company is not responsible for damages from data that is lost or changed.

Reading/Writing Data

Never power off while reading or writing data.

#### **Battery Level**

A low battery charge may prevent reading/writing to SD Card.

#### Using Applications That Handle Large Amounts of Data

Use a high-speed SD card (class 10 or faster recommended).

#### Handling SD Card

Use/store SD Cards away from the reach of infants. May cause choking if swallowed.

### **Inserting SD Card**

Always power off beforehand.

# 1

With handset Display upward, use groove to open Slot Cap, and pull out straight without bending in direction shown

■ Slot Cap detaches from handset.

# 2

Set SD Card in Tray in Slot Cap with metal terminals facing down

- Be sure to place SD Card in correct Tray.
- Make sure SD Card is placed in Tray securely.

### 3

With Display upward, insert Slot Cap

27/89 Getting Started

SD Card is inserted.

- Insert straight without bending in direction shown, and press firmly where circled O.
- Make sure there is no gap between handset and Slot Cap.

#### FORMAT SD CARD

Done

🏁 All data on SD Card is erased.

#### Formatting SD Card Cautions

Observe the following when formatting SD Card.

- Formatting erases all data on SD Card. Carefully check any SD Card that was used on another device before formatting.
- Charge Battery while formatting, or format with adequate battery charge.

## **Unmounting SD Card**

Always unmount SD Card before removing.

In Home Screen, 🥹

SD Card is removed.

- Insert straight without bending in direction shown, and press firmly where circled O.
- Make sure there is no gap between handset and Slot Cap.

# **Charging Battery**

Internal Battery

Charging with AC Charger

### Charging Cautions

Never connect USB Type-C plug while handset or peripheral equipment is wet.

## **Internal Battery**

Battery is built into handset.

Handset Battery is the following type.

| Displayed Battery Type |        | Battery Type |
|------------------------|--------|--------------|
| Li-ion 00              | Lithiu | n-ion        |

#### Recycling

This is the recycling mark for lithium-ion batteries.

## **Charging with AC Charger**

AC Charger is an optional accessory. Be sure to use an AC Charger specified by SoftBank. For information on AC Charger and other peripheral devices, see SoftBank Website. Operation using AC Charger (USB Type-C<sup>™</sup> quick charge AC Charger for USB PD-PPS [ZSDBAV] (SB-AC22-TCPD)) is explained here.

Insert USB Type-C plug of AC Adaptor into USB Type-C Port

2

Raise plug on AC Charger and plug into household AC outlet

3

Remove AC Charger from handset, unplug from outlet, and lower plug

🏁 Charging ends.

understand how our services are used. We also have partners that measure how our services are used. Learn more about these specific advertising and measurement partners.

#### Combining data

We also combine this data among our services and across your devices for these purposes. For example, depending on your account settings, we show you ads based on information about your interests, which we can derive from your use of Search and YouTube, and we use data from trillions of search queries to build spell-correction models that we use across all of our services.

#### You're in control

Depending on your account settings, some of this data may be associated with your Google Account and we treat this data as personal information. You can control how we collect and use this data now by clicking "More Options" below. You can always adjust your controls later or withdraw your consent for the future by visiting My Account (myaccount, google.com).

|---|------------------|
| ↓ | Unlocking Screen |

### Screen Lock

After a period of inactivity, Display turns off to save battery power (screen lock active). Screen lock prevents accidental Touchscreen operation.

■ To activate screen lock manually, Press Power Key when Display is turned on.

#### If Screen Lock Activates while Playing Music

Music continues to play. For operation, Press Power Key to open lock screen and use operation panel (operations may vary depending on application).

# **Unlocking Screen**

# 1

When screen is locked, Power Key

Flick screen up

- Screen is unlocked.
  - The method for unlocking the screen can be changed. See "Security Settings" for the unlock method.

# **Basic Operation**

- Selecting Options and Navigating Screens
- Menu Operations

#### **Selecting Options and Navigating Screens**

Tap items, icons, onscreen keys, etc. to open assigned items.

■ Tap **I** to go back to previous screen.

# **Menu Operations**

Tap **‡** for available settings and items.

# 2

Screens may also have settings and items that are available by Touching & Holding Display.

# **Using Touchscreen**

Handset uses a touchscreen-type Display. Operate with your fingers on Display.

| Тар          |
|--------------|
| Touch & Hold |
| Drag         |
| Swipe/Flick  |
| Pinch/Spread |
|              |

# Тар

Contact Display lightly and briefly.

# Touch & Hold

Contact Display lightly; release finger when screen changes.

# Drag

Touch icon or other item lightly, move it where desired, and release finger.

# Swipe/Flick

Contact Display lightly, then brush screen up/down or left/right.

# Pinch/Spread

Contact Display lightly, then close/widen fingers.

# Manner Mode

Mute ringtones and other handset sounds to avoid disturbing others around you.

| ↓ | Activating Manner Mode (Vibrate) |
|---|----------------------------------|
| ↓ | Activating Manner Mode (Muted)   |

#### Manner Mode Cautions

Shutter sound when shooting still images, video recording tones, media sound, alarms, etc. still play even in Manner mode.

Use "Do Not Disturb" to mute media and alarms. See "Sound Settings" for details.

# Activating Manner Mode (Vibrate)

# 1

#### Press Volume Up/Volume Down Key

🟁 Icon changes to 🛄, and handset vibrates for arriving calls, new mail, etc.

• To exit Manner mode, Press Volume Up/Volume Down Key for volume bar, then 0

# Setting from Quick Settings Manner mode (vibrate) setting is also accessible from Quick Settings. Flick Status Bar down ((1))

# Activating Manner Mode (Muted)

Press Volume Up/Volume Down Key

🏁 Volume bar appears.

Ļ

9/21 Basic Operations

 $\bowtie$  lcon changes to 1, and handset vibrates for arriving calls, new mail, etc.

### 3

While volume bar is shown, 🕛

 $\bowtie$  lcon changes to 1, and handset is silent for arriving calls, new mail, etc.

■ To exit Manner mode, Press Volume Up/Volume Down Key for volume bar, then Tap

#### Setting from Quick Settings

Manner mode (muted) setting is also accessible from Quick Settings. Flick Status Bar down <a> ( <a< ( <a> ( <a> ( <a> ( <a< ( <a> ( <a< ( <a> ( <a> ( <a> ( <a< ( <a> ( <a< ( <a< ( <a< ( <a> ( <a< ( <a< ( <a< ( <a< ( <a< ( <a ( <a< ( <a< ( <a< ( <a< ( <a\ ( <a< ( <

# **Airplane Mode**

Disable all functions that emit signals. Handset remains powered on.

↓ Using Airplane Mode

# **Using Airplane Mode**

#### Flick Status Bar down

Notifications Window opens.

# Keyboards

Use onscreen keyboards for text entry.

- Tap Text entry field for keyboard. To hide it, Tap
- Text entry descriptions are for Google Keyboard (default input method).

#### Enabling One-Handed Mode

Shrink onscreen keyboard for easier one-handed operation; switch between Lefthanded mode and Right-handed mode as needed.

When keyboard is open, Touch & Hold 🕖 / 🖻 and slide finger over 😰 / 🗣

- **Tap**  $\sum_{i=1}^{N}$  to switch between Right-handed mode and Left-handed mode.
- Tap 🚺 to disable One-handed mode.

#### **Keyboard Layout**

### Switching Keyboards

In a text entry window, <sup>2123</sup>/<sup>(2)</sup>

Entry mode is switched.

Tap <sup>1123</sup>/<sup>(i)</sup>/<sup>ABC</sup> to toggle between alphabet entry mode and number/symbol/emoji/emoticon entry mode.

# **Updating Software**

Check whether updates are required via the Internet, and update as required. Checking and performing available software update is free.

#### Updating Software

#### Before Updating Software

Saved data may be lost depending on condition of handset (malfunctioning, damaged, water seepage, etc.). It is recommended that you back up important data before updating software. The company is not responsible for damages from loss of data.

#### Software Update Cautions

#### **During Update**

It may take time to update software.

When a device is running software update, don't remove a SIM card from the device or turn its power off. Doing so can cause failure of the update and result in the device that may be inoperable or malfunction. If the device is inoperable or malfunctions, contact Customer Service.

#### Signal during Update

Operate handset where signal reception is good and without changing location. Also operate with adequate battery charge. Signal becoming weak or Battery becoming low during an update may cause an update failure. An update failure may disable handset.

#### **If Using Other Functions**

Other functions cannot be operated during a software update.

### **Updating Software**

- In-Call Screen Layout/In-Call Operations

#### Phone Function

#### **Emergency Location Report**

Making emergency calls (110, 119 or 118) automatically reports handset location to corresponding agency (police, etc.). This system is referred to as Emergency Location Report, and notifies location based on positioning from base stations.

- Location Report does not incur registration/transmission fees.
- Location/signal conditions affect positioning accuracy. Always provide location and call purpose.
- Hiding Caller ID (using 184, etc.) cancels Location Report. However, corresponding agency may obtain location information in life threatening situations.
- Location Report is not sent for calls made while outside Japan.

#### VoLTE and HD Voice

Handset supports VoLTE and HD Voice for higher voice call quality.

#### Hints

- **Q** Difficulty during call
- A It may not be possible to make a call properly in a noisy location.
- A When calling using Speaker, check the call volume. Raising the call volume may make calling difficult.
- **Q** Sound pops momentarily during a call
- A Are you changing location while calling? Sound pops when signal is weak and handset switches to a different area.

#### Areas Where Usable

Emergency calls from handset can be made only in SoftBank service areas.

#### Airplane Mode

Note that emergency calls cannot be made in Airplane mode.

🟁 Call Barring is set.

## **Phone Number**

Checking Your Phone Number

## **Checking Your Phone Number**

In Home Screen, 🕺 About phone

🏁 "Handset number is shown below "Phone number (sim slot 1)" / "Phone number (sim slot 2)."

# **Using Contacts**

Save phone numbers, mail addresses, etc. to Contacts.

✤ Adding New Contacts

#### Contacts Cautions

Information saved in Contacts may be lost or changed if Battery is left uncharged. Accident or malfunction may also cause loss or change to information. It is recommended that you keep a separate copy of contacts and other important information. The company is not responsible for any damages from lost or changed contacts.

### **Adding New Contacts**

### 1

Flick Home Screen up

#### (Contacts)

🏁 Contacts appear.

+

■ If confirmation appears, follow onscreen instructions.

### 🖗 TLS

TLS (Transport Layer Security) is a protocol for encrypting sent/received data. While in a screen connected by TLS, data is encrypted to safely send/receive private information, credit card numbers, corporate secrets, etc., and provide protection against online threats (eavesdropping, falsification, impersonation, etc.).

### ILS Cautions

When opening a secured page, users must decide as their responsibility whether or not to open the page with use of TLS. SoftBank Corp. and the Certification Authorities Symantec Website Security G.K. and Cybertrust make no guarantees whatsoever to users regarding security of TLS.

## Using Chrome

### 1

In Home Screen, 🣀

#### 🏁 Chrome opens.

■ If confirmation appears, follow onscreen instructions.

Tap entry box at top

■ If confirmation appears, follow onscreen instructions.

#### 3

Enter words to search and URLs

# **Capturing Still Images/Videos**

#### Capturing Still Images

Capturing Videos

#### Capturing Still Images/Videos

File Format for Still Images

File format for still images is JPEG.

#### **File Format for Videos**

File format for videos is MP4.

#### Camera Cautions

#### If Lens Becomes Dirty

Fingerprints/smudges on lens prevent capturing of clear still images/videos. Wipe lens with a soft cloth beforehand.

#### Avoid Exposure to Direct Sunlight

Be careful not to expose lens to direct sunlight for long periods. May discolor color filter and affect color of images.

#### **Battery Level while Shooting**

Using Camera consumes much Battery power. Shooting with a low Battery level may cause screen to be dark or Viewfinder to appear snowy.

#### Using Camera while Handset Warm

Continuing to use Camera while handset is warm causes warning to appear, and handset may power off.

#### Mobile Light Warning

Do not shine Mobile Light close to eyes. Do not look directly at Mobile Light when shining. Do not shine Mobile Light at other people's eyes. May affect eyesight, etc.

# **Capturing Still Images**

#### 1

#### In Home Screen, 🧕

🏁 Photo Viewfinder appears.

■ If confirmation appears, follow onscreen instructions.

#### 2

Aim handset Camera(Back Camera) at subject

- When using main camera, Pinch/Spread to zoom out/in.
   Also drag zoom adjustment bar shown during Pinch/Spread up or down to zoom out/in.
- When using main camera, Tap subject for focus lock.

#### 3

◯/Volume Down Key

Shutter clicks and still image is saved.

If Long Press RapidPic is enabled, Touch & Hold O or Press Volume Down Key for 1+ seconds to capture continuously.

# **Capturing Videos**

#### 1

In Home Screen, 🧕

🏁 Still Image/Video Viewfinder appears.

■ If confirmation appears, follow onscreen instructions.

#### 2

0

🏁 Video Viewfinder appears.

#### 3

Aim handset Camera(Back Camera) at subject

- Pinch/Spread to zoom out/in.
   Also drag zoom adjustment bar shown during Pinch/Spread up or down to zoom out/in.
- Tap subject for focus lock.

#### 4

Volume Down Key

🏁 Video recording starts.

- Tap <sup>(ii)</sup> to pause video recording. Tap <sup>(ii)</sup> to resume recording.
  During capture, Tap <sup>(iii)</sup> to capture a still image.

#### 5

To stop recording, O/Volume Down Key

🏁 Tone sounds and video is saved.

9/12 Camera

# Viewing Captured Still Images/Videos (Photos)

View still images/videos saved to internal storage, SD Card, and Google online storage. Viewing while logged in to your Google account is explained here.

#### Showing Still Images/Videos

# **Showing Still Images/Videos**

Show captured or downloaded still images and videos. Supported file formats are as follows. Some files may not display properly.

| Type File Format |                                       |
|------------------|---------------------------------------|
| Still image      | JPEG, GIF, PNG, BMP, WebP, HEIF, HEIC |
| Video            | 3GPP, MPEG-4, Matroska, MPEG-TS, WebM |

1

In Home Screen, 📌 (Photos)

#### 🏁 Photos opens.

■ If confirmation appears, follow onscreen instructions.

#### 2

Tap still image/video

🟁 Still image/video list opens.

Zooming In/Out on Still Images
In still image window, Tap Display twice or Pinch/Spread

# Applications

#### Setting Required Permissions for Applications

# **Setting Required Permissions for Applications**

Set the operation of applications when activating for the first time.

The type and content of a confirmation differs with the application. Activating 😢 (Easy data

transfer support) for the first time is described as an example.

An application may not function correctly if permission to use it was not set.

#### Flick Home Screen up

Launcher opens.

#### (Easy data transfer support)

Settings are complete.

■ For several functions, continue in the same way.

# **Adding/Deleting Application**

Download a variety of applications (free/paid) from Google Play. Change the setting of downloaded applications to enable manual or automatic updates. Log in to your Google account beforehand.

# How to Use Google Play

In Google Play,♥∋ Help & feedback

#### Installing Applications

Many different kinds of applications can be installed on handset from Google Play (provided by Google LLC). The company is not responsible in any way for user-installed applications (quality, reliability, legality, fitness for a purpose, credibility, accuracy, etc.) or resulting malfunctions (viruses, etc.).

# **Installing Free Applications**

In Home Screen, 🖻 (Play Store)

🏁 Google Play appears.

■ If confirmation appears, follow onscreen instructions.

# 2

Tap free application

Install

## 3

### SIM card lock

### PIN Cautions

Entering incorrect PIN three consecutive times activates PIN Lock. To cancel, Personal Unblocking Key (PUK) is required; contact "Customer Service". Entering incorrect PUK ten consecutive times locks SIM Card/eSIM, disabling handset. For recovery, SIM Card/eSIM must be reissued at a SoftBank (fees apply).

## **Changing SIM PIN**

First enable SIM PIN to change PIN.

### **Connected Devices**

Make Bluetooth<sup>®</sup> connection and other settings. Settable items are the following.

| Item                   | Description                                                |
|------------------------|------------------------------------------------------------|
| Pair new device        | Search for and pair nearby Bluetooth <sup>®</sup> devices. |
| Connection preferences | Make settings for Bluetooth <sup>®</sup> connection,       |
|                        | NFC/Osaifu-Keitai <sup>®</sup> operation, etc.             |
|                        | See "Using Bluetooth <sup>®</sup> Function" for details on |
|                        | Bluetooth <sup>®</sup> .                                   |

### Apps & Notifications

Make application and notification settings. Settable items are the following.

| Item            | Description                                      |
|-----------------|--------------------------------------------------|
| SEE ALL XX APPS | Check and make settings for installed            |
|                 | applications.                                    |
| Conversations   | Check conversations set as high priority or with |
|                 | their settings changed.                          |
| Notifications   | Make notification settings.                      |
| Screen time     | Check history of total handset usage time. Limit |
|                 | usage time per application.                      |

|          | For details, see "Digital Wellbeing & parental    |
|----------|---------------------------------------------------|
|          | controls."                                        |
| Advanced | •Default apps                                     |
|          | Make settings for default applications.           |
|          | <ul> <li>Permission manager</li> </ul>            |
|          | Set permissions required by applications.         |
|          | See "Setting Required Permissions for             |
|          | Applications" for details.                        |
|          | <ul> <li>Wireless emergency alerts</li> </ul>     |
|          | Make settings for Emergency alerts.               |
|          | <ul> <li>Special app access</li> </ul>            |
|          | Make settings for access of Special applications. |

### Setting Applications to Block Notifications from

Block all notifications from specified application.

### Storage

Check memory space of internal storage, USB drive, and SD Card, mount or unmount SD Card, erase data on SD Card, etc. Settable items are the following.

Available items vary depending on SD Card and USB drive status.

| Item                    | Description                                 |
|-------------------------|---------------------------------------------|
| Internal shared storage | View information on internal storage usage. |
| USB drive <sup>1</sup>  | Check data saved on USB drive.              |
| SD Card <sup>2</sup>    | Check data saved on SD Card.                |
|                         | Also perform SD Card operations such as     |
|                         | formatting and mounting/unmounting.         |
|                         | For details on formatting and unmounting SD |
|                         | Card, see "SD Card."                        |

1 Appears when the USB host function is in use.

2 Appears when SD Card is installed.

### Privacy

Set privacy options such as apps' permissions and passwords. Settable items are the following.

| Item                         | Description                                    |
|------------------------------|------------------------------------------------|
| Permission manager           | Set permissions required by applications. For  |
|                              | details, see "Setting Required Permissions for |
|                              | Applications."                                 |
| Show passwords               | Mask or unmask characters briefly as you type  |
|                              | your passwords.                                |
| Notifications on lock screen | Control how notifications show on lock screen. |

### Warranty & After-Sales Service

#### 🔶 Warranty

After-Sales Service

### Warranty

- The warranty period is 1 year from the date of newly purchase.
- Repairs will be done based on terms of repair service. Terms of repair service is referred to SoftBank website.

https://cdn.softbank.jp/mobile/set/common/pdf/legal/spguide/common/warranty.pdf (Japanese)

 Warranty covers only handset. Accessories such as cables are not covered by terms of repair service.

#### Cautions

#### Damages

SoftBank Corp. is not responsible for any damages for user or third party resulting from lost opportunities to make a call, etc. due to breakage, malfunction, or trouble of product.

#### Accidents/Repair

Files and settings may be lost or altered due to accidents or repairs. Keep a copy of important files, etc. SoftBank Corp. is not liable for damages resulting from loss or alteration of files (contacts/images/sound etc.) or settings due to accident or repair.

#### **Disassembly/Modification**

Disassembly/modification of handset is prohibited under the Radio Law. Note that handset cannot be accepted for repairs if modified.

### **After-Sales Service**

To request repairs, contact Customer Service or a nearby SoftBank Shop. Have details of symptoms ready.

- During the warranty period, repairs are made under the terms of repair service.
- After the warranty period, if handset can be repaired, repairs will be made at cost. The functional parts necessary to repair the handset will be available for 4 years generally after the manufacture

is discontinued. Repair may not be possible because of a shortage of repair parts even during the warranty period.

### Further inquiries

For more information on after-sales service, contact a nearby SoftBank Shop or Customer Service.

|                         | 4G (AXGP): Approx. 690 hours                   |
| Charging Time           | AC Charger (USB Type-C™ quick charge AC        |
|                         | Charger for USB PD-PPS [ZSDBAV] (SB-AC22-      |
|                         | TCPD)): Approx. 190 minutes                    |
| Maximum Output          | 4G (AXGP): 0.2 W                               |
|                         | 4G (FDD-LTE): 0.2 W                            |
|                         | 5G (n77): 0.2 W                                |
| Communication Speed     | 4G: Up to 525 Mbps in downlink, up to 46 Mbps  |
|                         | in uplink                                      |
|                         | 5G: Up to 1.7 Gbps in downlink, up to 159 Mbps |
|                         | in uplink                                      |

# **Customer Service**

If you encounter any difficulties or are unsure of anything, contact customer service.

- SoftBank Customer Support
- Smartphone Technical Support Center

### SoftBank Customer Support

- From a SoftBank handset, dial toll free at 157
- From a landline/IP phone, dial toll free at 0800-919-0157
- Business hours : Call 10:00am 7:00pm / Chat 9:00am 8:00pm

### **Smartphone Technical Support Center**

- From a SoftBank handset, dial toll free at 151
- From a landline/IP phone, dial toll free at 0800-1700-151
- Business hours : Mon. Fri. 9:00am 7:00pm/Sat., Sun., and Holiday 9:00am 5:00pm/9:00am -8:00pm (for general information)

# **Safety Precautions**

Read Safety Precautions before using handset.

Observe precautions to avoid injury to self or others, or damage to property.

### **Safety Precautions**

These indications show degree of risk from improper use.

| Mark | Descriptions                                                      |
|------|-------------------------------------------------------------------|
|      | Great risk of death or serious injury <sup>1</sup>                |
|      | Risk of death or serious injury <sup>1</sup>                      |
|      | Risk of minor injury <sup>2</sup> or property damage <sup>3</sup> |

- 1 Serious injury: This refers to loss of sight, injury, burns (high- and low-temperature), electric shock, broken bones, poisoning, etc. with remaining aftereffects, and injuries requiring hospital admission or long-term hospital visitation.
- 2 Minor injury: This refers to injuries, burns (high- and low-temperature), electric shock, etc. that do not require hospital admission or long-term hospital visitation.
- 3 Property damage: This refers to extended damage to buildings, furniture, livestock, pets, etc.

These symbols indicate prohibited or compulsory actions. Make sure you thoroughly understand their meanings before reading on.

| Prohibited                   | Prohibited actions             |
|------------------------------|--------------------------------|
| Do Not<br>Disassemble        | Disassembly prohibited         |

| Do Not Use<br>Wet Hands      | Use with wet hands prohibited  |
| Compulsory                   | Compulsory actions             |
| Disconnect<br>Power Source   | Unplug Charger from outlet     |

### Handset, Charger, SIM Card (Common)

Do not use, store, or leave where heat reaches a high temperature or accumulates (e.g. near fire or heater, under/in a kotatsu or bedding, in direct sunlight, inside a car in the hot sun, etc.).

May cause fire, burns, injury, electric shock, etc.

Do not put in or place nearby a cooking appliance such as a microwave oven, or IH cooktop, or high-pressure container such as a pressure cooker.

May cause fire, burns, injury, electric shock, etc.

Do not get dirty with or place directly on sand, soil, or mud. Do not touch with soiled hands.

May cause fire, burns, injury, electric shock, etc.

See "Water, Dust, and Shock Resistance" for details on water/dust resistance.

Do not charge when wet with water or other liquid (drinking water, sweat, sea water, pet urine, etc.).

#### Do not charge where exposed to water (bathroom, etc.).

May cause fire, burns, injury, electric shock, etc.

See "Water, Dust, and Shock Resistance" for details on water resistance.

# Do not apply excessive force to or break handset. Particularly when carrying handset in your clothes pocket, do not bump it or place it between objects.

Internal Battery breakage may cause fire, burns, injury, etc.

\* Examples of where to be careful

- Sitting or squatting with handset in your pants or skirt pocket
- Handset becoming caught in a sliding door or vehicle door when in a jacket pocket
- Stepping on handset when it is on something soft such as a sofa, bed, or futon or on the floor
- ·Handset becoming caught in a seat on a train or bus

#### Do not disassemble or modify.

May cause fire, burns, injury, electric shock, etc.

#### Do not try to remove Internal Battery.

May cause fire, burns, injury, etc.

#### Handset Back Cover cannot be removed. Do not try to remove.

May cause fire, burns, injury, etc.

#### Do not get wet with water or other liquid (drinking water, sweat, sea water, pet urine, etc.).

May cause fire, burns, injury, electric shock, etc.

See "Water, Dust, and Shock Resistance" for details on water resistance.

Do not allow water or other liquid (drinking water, sweat, seawater, pet urine) in charging terminal or external device port.

3/44 Safety Precautions May cause fire, burns, injury, electric shock, etc. See "Water, Dust, and Shock Resistance" for details on water resistance.

#### Use optional accessories specified by SoftBank.

Using unspecified accessories may cause fire, burns, injury, electric shock, etc.

Do not drop, step on, throw, or otherwise subject to strong force, impact, or vibration.

May cause fire, burns, injury, electric shock, etc.

Do not allow anything conductive (metal, pencil lead, etc.) to come in contact with charging terminals or external device port , or dust to enter equipment.

May cause fire, burns, injury, electric shock, etc.

**Do not cover or wrap with bedding or other blanketing during use or while charging.** May cause fire, burns, etc.

When caring for equipment, ensure that no disinfectant or water enters the charging terminal, external device port, mic, or speaker.

Handset breakage may cause electric shock, etc.

Stop charging if charging does not complete within a prescribed charging time.

Overcharging may cause fire, burns, injury, etc.

Always power off handset or stop charging before entering anywhere flammable gas or dust may be generated.

Ignition of flammable gas, etc. may cause explosion, fire, etc.

#### For use at a gas station or similar location, follow the instructions of the facility.

Do not charge at a gas station or similar location.

If using at a gas station or similar location, be careful not to drop, and in particular, do not use while filling.

Ignition of flammable gas, etc. may cause explosion, fire, etc.

# Do the following while exercising caution if there is unusual odor/sound, smoke, overheating, discoloration, distortion, or anything else unusual during use, charging, or storage.

·Unplug from outlet or accessory socket.

·Power off handset.

Continued use may cause fire, burns, injury, electric shock, etc.

Do not use damaged equipment.

May cause fire, burns, injury, etc.

Do not place on unstable surface (wobbling table, uneven surface, etc.). In particular, be careful while handset is set to vibrate.

Handset may fall and cause injury, etc.

#### Do not use or store in a humid, dusty, or high-temperature place.

May cause fire, burns, electric shock, etc.

See "Water, Dust, and Shock Resistance" for details on water/dust resistance.

Do not allow children to use equipment in wrong way. A guardian should provide instruction.

5/44 Safety Precautions Failure to do so may result in accidental swallowing, injuries, electric shock, etc.

Do not place within reach of infants. In particular, take care with where Slot Cap Tray, etc. are stored. May cause accidental swallowing, injury, electric shock, etc.

Handset temperature may become high when used continuously or while charging. Avoid unintentional continued contact with handset for a long time such as by placing handset in clothes pocket, falling asleep, etc.

Handset or Charger may become hot after continued use of applications, call functions, data communication, video viewing functions, etc. or while charging. Continued and direct contact with hot portions of handset may cause skin redness, itchiness, skin irritation, low-temperature burns, etc. depending on your physical condition.

### Handset

**Do not throw handset into a fire or apply heat.** May cause fire, burns, injury, etc.

Do not pierce with a sharp object (nail, etc.), hit with a hard object (hammer, etc.), step on, or otherwise subject to excessive force.

May cause fire, burns, injury, etc.

If substance in handset gets in eyes, mouth, etc., rinse with clean water and consult a doctor immediately.

Substance in handset may cause loss of sight or other physical harm.

Do not light up or flash the Mobile Light with the light-emitting part close to other people's eyes. In particular, keep adequate distance from infants.

May cause vision impairment. May temporarily blind or startle, and cause injury or other accident.

**Do not light up or flash the Mobile Light toward a driver of a car.** May hinder driving and cause an accident, etc.

Do not look at a repeatedly blinking screen for a long time.

May cause convulsions, loss of consciousness, etc.

Do not let water or other liquids (drinking water, sweat, sea water, pet urine, etc.) or a foreign object (metal strip, flammable material, etc.) enter Slot Cap.

Be sure to insert SIM Card and SD Card in correct positions and orientations.

May cause fire, burns, injury, electric shock, etc.

**Do not expose camera lens to direct sunlight, etc. for a long time.** Concentrated light may cause fire, burns, injury, etc.

**Do not sound emergency buzzer close to ears.** May cause hearing impairment or other difficulty.

Power off handset or place in Airplane mode before boarding an aircraft.

Use of handset on board an aircraft is restricted. Follow instructions of the airline.

Radio waves may adversely affect an aircraft's electronic devices.

Prohibited use aboard an aircraft may be subject to penalty by law.

#### For use at a hospital, follow the instructions of the institution.

Power off handset where its use is prohibited.

Handset radio waves may affect electronic devices or other electronic medical equipment.

Always keep handset away from your ear when calling hands free, ringing loudly for incoming calls, or during standby.

Adjust to an adequate volume when using earphones with microphone or similar accessory to play games or play back videos/music.

Handset sound is loud when calling hands free.

Even in standby, ringtone or alarm may ring suddenly.

Listening to loud sound continuously for a long time may cause hearing impairment or other difficulty. Too loud volume may make surroundings inaudible and may cause an accident.

#### Users with a heart condition should adjust vibration and ringtone volume as needed.

Handset suddenly vibrating and ringing for an arriving call may startle you, which can affect your heart.

# If wearing an electric medical device or similar apparatus, check with the manufacturer or vendor regarding any effect that radio waves may have on it.

Radio waves may adversely affect electronic medical devices, etc.

# Power off handset near electronic devices or equipment operating on high precision control or weak signals.

Radio waves may cause electronic devices to malfunction or may adversely affect operation.

\* Take additional care near these devices:

Hearing aids, implanted cardiac pacemakers, implanted cardioverter defibrillators, other electronic medical equipment, and other automatically controlled devices or equipment. If you are using an implanted pacemaker, implanted defibrillator, or other electronic medical device, check with the manufacturer or vendor regarding any effect that radio waves may have on it.

#### If Display or Camera lens breaks, be careful with broken parts and exposed handset parts.

Touching broken or exposed parts may cause burns, injury, electric shock, etc.

#### If Internal Battery leaks or has an unusual smell, immediately cease using handset, and keep away from fire.

Leaking fluid may ignite, causing fire, rupture, etc.

#### Do not allow pets, etc. to bite handset.

Battery may ignite, rupture, overheat, or leak, causing fire, burns, injury, etc.

# Before using the motion sensor, ensure your safety around you, hold handset firmly, and do not wave more than necessary.

Not doing so may cause injury or other accident.

# If Display is broken, do not allow leaking internal substance to come in contact with your skin (face, hands, etc.), clothes, etc.

May harm sight, skin, etc.

If any internal substance gets in your eyes, mouth, etc., or gets on your skin or clothes, immediately rinse with clean water.

If it gets in your eyes, mouth, etc., rinse and immediately consult a doctor.

#### Do not dispose of handset together with ordinary trash.

May cause fire, burns, injury, etc. May also adversely affect the environment. Bring old handset where accepted such as a SoftBank Shop, or follow municipal instructions for recycling.

Do not allow leaking internal substance from Internal Battery to come in contact with your skin (face, hands, etc.), clothes, etc.

9/44 Safety Precautions May harm sight, skin, etc.

If any internal substance gets in your eyes, mouth, etc., or gets on your skin or clothes, immediately rinse with clean water.

If it gets in your eyes, mouth, etc., rinse and immediately consult a doctor.

Before using handset in a car, check with the car manufacturer or dealer regarding any effect that radio waves may have on it.

In rare cases, radio waves may adversely affect operation of on-vehicle electronic devices, depending on the type of vehicle. If this occurs, discontinue use immediately.

If skin abnormalities develop during use, immediately cease using handset and consult a doctor.

Continuing use may cause itching, rash, eczema, or other symptoms depending on your physical condition.

See "Materials" for materials used in each component.

Earpiece, Speaker, and Back Camera use magnetic parts; check that nothing metal (cutter blades, staples, etc.) is adhering.

Anything adhering may cause injury, etc.

**View Display in a well-lit place at an adequate distance.** Viewing in a dark place or too closely may affect vision, etc.

# Charger

#### Do not use Charger if cord is damaged.

May cause fire, burns, electric shock, etc.

DC Chargers are only for use with minus-earth vehicles. Do not use with plus-earth vehicles.

May cause fire, burns, electric shock, etc.

If thunder is audible, do not touch Charger.

May cause electric shock, etc.

Do not short-circuit charging terminal when it is connected to an outlet or accessory socket. Do not allow any part of yourself (hands, fingers, etc.) to come in contact with charging terminal.

May cause fire, burns, electric shock, etc.

#### Do not put anything heavy on the cord of Charger or pull it forcefully.

May cause fire, burns, electric shock, etc.

#### When plugging/unplugging AC Charger, keep metal objects away.

May cause fire, burns, electric shock, etc.

# Do not use a voltage converter (travel converter for overseas use, etc.) when charging with AC Charger.

May ignite, overheat, cause electric shock, etc.

#### Do not apply excessive force to where handset and Charger are connected.

May cause fire, burns, injury, electric shock, etc.

#### Do not touch Charger cord, charging terminal, or power plug with wet hands.

May cause fire, burns, electric shock, etc.

#### Use with specified power supply and voltage.

#### Also, use AC Charger for global use when charging abroad.

Incorrect power supply and voltage may cause fire, burns, electric shock, etc.

AC Charger: 100 V AC (household AC power outlet only)

AC Charger for global use: 100 V to 240 V AC (household AC power outlet only)

DC Charger: 12 V/24 V DC (only for use with minus-earth vehicle)

#### Always use a specified fuse when replacing a fuse in a DC Charger.

Using unspecified fuses may cause fire, burns, electric shock, etc. See individual instructions regarding specified fuses.

#### Wipe off any dust on power plug.

Using while dusty may cause fire, burns, electric shock, etc.

#### Insert the power plug of Charger in outlet or accessory socket firmly.

Failure to do so may cause fire, burns, electric shock, etc.

# When unplugging from an outlet or accessory socket, grasp Charger body and do not pull cord or otherwise subject to excessive force.

Pulling cord of Charger may damage it and cause fire, burns, electric shock, etc.

Insert or remove the connector of Charger without bending or applying force such as pulling cord.

Incorrect insertion or removal may cause fire, burns, injury, electric shock, etc.

Cease using handset immediately if charging terminal is bend or otherwise deformed. Also, do not repair charging terminal to use Charger.

Short-circuiting of charging terminal may cause fire, burns, injury, electric shock, etc.

#### If not using handset, unplug from outlet or accessory socket.

Leaving handset plugged in may cause fire, burns, electric shock, etc.

# If splashed with water or other liquid (drinking water, sweat, sea water, pet urine, etc.), immediately unplug from outlet or accessory socket.

Splashed water can cause short-circuiting, causing fire, burns, electric shock, etc.

#### Before caring for equipment, unplug from outlet or accessory socket.

Failure to do so may cause fire, burns, electric shock, etc.

# 

**Do not prolong touching Charger when it is connected to an outlet or accessory socket.** May cause burns, etc.

# SIM Card

When handling SIM Card, be careful not to hurt yourself (fingers, etc.) on cut edges. Cut edges may be sharp and cause injury.

# Handset Use & Electronic Medical Equipment

Persons with an implanted pacemaker or defibrillator should carry handset at least 15 cm away from the implant.

Radio waves may adversely affect operation of electronic medical devices.

When using electronic medical equipment (other than implanted cardiac pacemakers/defibrillators) outside medical facilities, check with the equipment manufacturer, etc. regarding any effect that radio waves may have on it.

Radio waves may adversely affect operation of electronic medical devices.

Disable handset transmissions (e.g. Airplane mode) or power off handset when it is difficult to keep a distance of at least 15 cm away from others such as in a crowd.

There may be someone who is wearing an implanted pacemaker, defibrillator, or other medical device. Radio waves may adversely affect operation of electronic medical devices.

For use at a medical facility, follow the instructions of the facility.

Radio waves may adversely affect operation of electronic medical devices.

# **Materials**

# Handset, SIM Card, AC Charger (Sold Separately), Optional Accessories (Common)

- Use handset with Slot Cap firmly closed to ensure water resistance (IPX5, IPX8 equivalent). However, this is not guaranteed for all conditions of usage. Do not allow water to enter handset and do not splash water on AC Charger (sold separately)/optional accessories. AC Charger (sold separately)/optional accessories are not water resistant. Do not open/close Slot Cap in rain or while water is on handset. May allow water to enter handset and cause corrosion. Handset will not covered by warranty if malfunction is determined to be due to such water exposure.
- Excessive force on handset may break it and cause it to malfunction. Do not sit down with handset in a back pocket, and do not place heavy objects in a bag with handset inside. Such malfunction is not covered by warranty even if handset exterior appears undamaged.
- Display and Back Camera Panel are made of hardened glass, however, they may be broken if subjected to excessive force or strong impact. If broken, cease use and do not touch fragments.
- Avoid extreme temperatures.
   Use within temperatures of 5°C to 35°C and humidity 45% to 85%.
   See "What water resistance allows it to do" for use in a bath room.
- Do not use in a dusty place or where there is much vibration.
- Clean with a dry, soft cloth. Using benzine, thinner, alcohol, detergent, etc. may fade color/print.
- Handset use near TVs, speakers, etc. may cause interference.

- Handset normally may become warm while calling, using applications, charging, etc.
- A guardian should instruct children and ensure safe use, and should also supervise use. Failure to do so may result in injuries.
- Do not place near corrosive chemicals or where corrosive gases are generated. May cause malfunction or loss of internal data.
- Insert/remove connector on external device in/from USB Type-C Port or Stereo Earphones Port without bending. Insert/remove in correct direction. Failure to do so may cause breakage or malfunction.
- Do not bring cash cards, floppy disks, credit cards, telephone cards, or other magnetic media near handset. May cause recorded data to be erased.
- Do not subject SD Card to vibration or shock or power off handset while it is being accessed.
   May cause data to be erased or may cause malfunction.
- Do not scratch, bend, twist, or place heavy objects on equipment. Do not drop or subject to impact. May cause internal data to be erased or may cause malfunction.

# Handset

- Handset is certified as conforming to technical standards for specified wireless equipment based on the Radio Law. To show the mark of technical conformity: In Home Screen, 
   About phone
   Regulatory labels
- Contacts, mail, bookmarks, and other data saved on handset may be altered or lost due to accident, malfunction/repair, or other handling. Be sure to back up important data. SoftBank is not responsible for any damages or loss of profit from alteration/loss of data.
- Display is manufactured with high precision technology, however, some pixels may not illuminate or may always be illuminated, and is normal.
- Do not intentionally apply strong force to Display (pressing hard, hitting, etc.). May cause scratching or breakage.
- Do not press fingernails, sharp objects, or hard objects against Keys or Display. May cause scratching or breakage.

Touch panel is designed to be touched lightly. Do not press strongly with fingers or pointed objects (fingernails, ball pen, pin, etc.).

To prevent malfunction of Display, do not:

- •Operate with gloved hands
- Operate with fingernails
- ·Operate with an object on Display
- Attach protective sheet or sticker
- ·Operate Display while wet or dewed
- •Operate with wet or sweaty fingers
- Operate under water

- In a public place, use handset without disturbing others.
- Repeated and continuous video shooting or using applications for a long time may make handset warm, and prolonged contact may cause low-temperature burns.
- Handset may become warm during use or charging. Handset may stop charging or dim Display as a safety precaution, but is normal.
  - If handset is used under such conditions, alert may appear and handset may power off.
- Continuing to use Camera while handset is warm causes warning to appear, and handset may power off.
- If handset becomes extremely hot during use, cease use immediately.
- If the same screen is viewed for a long while, afterimages may remain. It is recommended to set a short delay time for handset to turn Display off to prevent afterimages and save power.
- Clean Display with a dry, soft cloth. Using a wet cloth or glass cleaner may cause it to malfunction.
- Do not cover Light Sensor with your finger or a sticker.
- Do not cover Proximity Sensor with a sticker. Display may remain off and inoperable when calls arrive or during calls.
- If your hair covers your ear during a call, proximity sensor may not work properly or may brush Display and end call.
- Covering internal antenna area with fingers or metal objects may affect sensitivity.
- Being brought in from cold outdoors to warm indoors, cold air from air conditioning, etc. may cause condensation in handset. Condensation may result in malfunction.
- Place your ear on center of Speaker for best reception. Ears can block Speaker and make sound inaudible.
- Handset is designed not to easily be disassembled. Modifying handset is prohibited by the Radio Law.
- Keep away from objects with a magnetic field such as magnets, speakers, and TVs. May cause malfunction.
- Using handset while charging may cause charging time to take longer or prevent charging from being completed.
- Use a disinfectant alcohol sheet or spray and wipe handset to disinfect and provide a certain level of virus protection.\*1

When disinfecting handset, first turn off Display to prevent misoperation.

If using a spray, hold spray bottle about 5 cm from handset, spray a mist and wipe. Then wipe with a water-dampened cloth to remove any alcohol or cleaning fluid. If using a disinfectant alcohol sheet or paper towel dampened with cleaning fluid, wipe handset then wipe with a water-dampened cloth to remove any alcohol or cleaning fluid.

·Usable chemicals are the following.

Alcohol\*<sup>2</sup>, sodium hypochlorite solution, surfactants (kitchen detergent), surfactants (household cleaner). However, be sure to use a solution containing no more than 0.05 w/v% of chlorine or chlorine-based additives.

\*1 Verified using FCNT LIMITED testing based on disinfection methods as released by the Ministry of Health, Labour and Welfare of Japan, the Ministry of Economy, Trade and Industry [National Institute of Technology and Evaluation (NITE)], and the Consumer Affairs Agency (handset performance is verified under test conditions, and ability to clean with all disinfectant products/cleaners is not guaranteed).

\*2 Commercially available alcohol (ethanol) disinfectant and alcohol-type (ethanol) wet tissue.

### Touch Panel

- Lock screen before putting handset in a pocket or bag to avoid misoperation.
- Use finger to Tap Display. Do not use a sharp object such as a ball point pen or pencil. Display may not operate correctly, and may also scratch or damage Display.
- Do not adhere stickers or any sheet (commercially-available protective film, privacy screen, etc.) on touch panel. Touch panel may not operate correctly.
- Do not Tap with fingernails. Fingernails may crack and cause injury.

### **Internal Battery**

- Under extreme temperatures such as in a car with closed windows in summer, Battery capacity lowers and shortens Battery time. Service life is also shortened. Use in normal temperatures as much as possible.
- Internal Battery may bulge near the end of its service life depending on usage, but does not affect safety.
- Internal Battery is consumable. Replace if operating time shortens noticeably even after charging. Internal Battery is not user replaceable; submit to a SoftBank Shop, etc. for replacement at a fee. Contact "Customer Service" or a SoftBank Shop.

To check Battery performance:

In Home Screen, 🗵 Dattery Battery performance

- Charge handset before use when using for the first time or after it has not been used for a long time.
- If handset does not complete charging for a long time, disconnect handset from AC Charger and charge again.
- When Battery is low, alert appears and handset powers off after a while. Handset may not be able to start up on empty Battery even while charging. Charge for a while first.

# AC Charger (Sold Separately)

- Unplug from outlet when not using.
- Grasp AC Charger body to unplug. Do not forcefully pull cable out.
- Do not wrap AC Charger cable around AC Charger. May cause electric shock, overheating, or fire.
- Do not bend blades of AC Charger plug or connector of cable. May cause electric shock, overheating, or fire.
- AC Charger is for indoor use only.

### Camera

- Mind etiquette when using Camera.
- Do not expose Camera Lens to direct sunlight. Concentrated sunlight through Lens may discolor or burn imaging element.
- SoftBank is not responsible for restoring altered or erased data or for damages or loss of profit whatsoever from altered or erased data if image data taken with Camera was altered or erased through malfunction, repair, or other handling of handset.
- Test Camera before recording important events (wedding, etc.).
- Be considerate of privacy of others when taking or distributing/posting still images or videos. May infringe on right of portrait.
- Do not take pictures of books on sale or text of which picture-taking is prohibited.

# Copyrights

- The rights of copyright holders to music, video, computer programs, databases, etc. are protected by copyright laws. You may copy these materials for private use only. Copying for purposes other than the above (including data format conversion), modifying, transferring copies, and distributing on networks may be subject to compensation for loss or prosecution of "copyright infringement" or "infringement of moral rights of author." If copying using handset, observe copyright laws. Observe copyright laws when shooting with Camera.
- Software contained in handset is copyrighted work including copyrights and moral rights of author and is protected by copyright laws. Do not reproduce, modify, alter, separate from hardware, reverse-assemble, reverse-compile or reverse-engineer all or part of the software. Do not allow a third party to do same.
- Except where exempted by copyright laws, forwarding copyrighted images is prohibited.
- Images taken with Camera may not be used/transferred without copyright holder (photographer)

permission, except for personal use. When publishing taken pictures of others to Internet websites, etc., take care with copyrights or portrait rights. Note that taking pictures or videos at demonstrations, performances or exhibitions may be prohibited even if only for personal use.

# **Portrait Rights**

Portrait rights protect individuals' right to refuse to be photographed or to refuse unauthorized publication/use of their photographs. Portrait rights consist of the right to privacy, and right of publicity which protects the interests of celebrities. Therefore, photographing others, including celebrities, and publishing/distributing their photographs without permission is illegal; use Camera responsibly.

# SIM Card

- Note that SIM Card is replaced at cost in case of loss or if damaged. Bring old SIM Card (after canceling contract, etc.) to a SoftBank Shop.
- If SIM Card seems to be malfunctioning, or has been stolen, lost, or damaged, contact a SoftBank Shop or "Customer Service".
- Customer is responsible for malfunction caused by inserting SIM Card in an other-brand IC card reader, etc.
- Do not touch IC (metal) portion of SIM Card or let metal, etc. come in contact with it and shortcircuit it. Static electricity, etc. may alter or erase data or cause malfunction.
- Do not scratch IC (metal) portion of SIM Card. May cause malfunction.
- Always keep the IC (metal) portion of SIM Card clean. Clean with a dry, soft cloth.
- Do not place stickers on SIM Card.

# **Bluetooth<sup>®</sup> Function**

Handset is equipped with Bluetooth<sup>®</sup>-compliant security features for communication via Bluetooth<sup>®</sup>. However, these may be inadequate depending on settings. Be aware when using Bluetooth<sup>®</sup>.

SoftBank is not responsible for any information which may be leaked during communication via Bluetooth<sup>®</sup>.

# **Frequency Bands**

Frequency bands used by handset Bluetooth®function are as below.

#### 2.4FH/XX1

Frequency band is 2.4 GHz. FH-SS or other-method modulation, with a maximum interference range of 10 m.

| I | I |
|---|---|
|   |   |
|   |   |

Utilizes 2,400 MHz to 2,483.5 MHz band without mobile device bandwidth differentiation.

Usable channels depend on the country.

Before using aboard an aircraft, check with the airline beforehand.

# When Using Bluetooth®

- Handset Bluetooth<sup>®</sup> function is certified as conforming with Japanese domestic standards, FCC standards, and EC directives. Use of handset Bluetooth<sup>®</sup> function is restricted in some countries/regions. Be sure to check laws and other conditions of the country/region.
- 2.4 GHz band used by Bluetooth<sup>®</sup> devices is shared by many other different devices. As a result, Bluetooth<sup>®</sup> devices use technology to minimize interference from devices using the same

frequency band, however, communication speed and distance may be reduced or communication may be interrupted in some instances.

 Communication speed and distance depends on distance between devices, obstacles, and the Bluetooth<sup>®</sup>devices.

# **Usage Precautions**

Handset Bluetooth<sup>®</sup> function uses 2.4 GHz frequency band. This is the same frequency band used by household appliances such as microwave ovens and industrial, scientific, and medical equipment, other same-type radio stations, (licensed) premises radio stations used to identify mobile units used in manufacturing lines, (unlicensed) specified low-power radio stations, and (licensed) amateur radio stations (below, "other radio stations").

1. Before using handset, check that other radio stations are not in use nearby.

2. If interference should occur with other radio stations, change handset location, or stop operation of the device (stop emission of radio waves).

3. If unsure how to proceed, contact a SoftBank Shop or "Customer Service".

# Wi-Fi (Wireless LAN)

A wireless LAN (WLAN) exchanges information using radio waves, and allows you to freely establish a LAN connection if you are within an area where radio waves reach. However, communication without appropriate security settings may allow communication to be intercepted by malicious parties. It is recommended to make security settings, and is at your discretion.

SoftBank is not responsible for any information which may be leaked during communication via wireless LAN.

✔ Frequency Bands
 ✔ When Using Wi-Fi (Wireless LAN)
 ✔ Usage Precautions 2.4 GHz Devices
 ✔ Usage Precautions for 5 GHz Devices

# **Frequency Bands**

Frequency bands used by handset wireless LAN function are as below.

#### 2.4DS/OF4

Frequency band is 2.4 GHz. DS-SS and OFDM modulation. Maximum interference range of 40 m.

Utilizes 2,400 MHz to 2,483.5 MHz band with mobile device bandwidth differentiation.

Usable channels depend on the country.

Before using aboard an aircraft, check with the airline beforehand.

Locations where usable while abroad may be restricted depending on the country. Be sure to check laws and other conditions of the country/region regarding frequencies usable there.

If out of service area, channels 12 and 13 in the 2.4 GHz band cannot be used regardless of use domestically or abroad.

# When Using Wi-Fi (Wireless LAN)

- Handset Wi-Fi (wireless LAN) function is certified as conforming with Japanese domestic standards, FCC standards, and EC directives. Use of handset Wi-Fi (wireless LAN) function is restricted in some countries/regions. Be sure to check laws and other conditions of the country/region.
- Do not use Wi-Fi where there is an electromagnetic field such as near electrical appliances or AV/OA devices.
- Magnetic fields and electrical noise may affect communication (especially when using a microwave oven).
- It may interfere with reception if near a TV, radio, etc., and the TV screen may become unviewable.
- If multiple Wi-Fi (wireless LAN) access points are nearby using neighboring channels, handset may not search for access points correctly.
- Handset cannot be used even aboard an aircraft that supports Wi-Fi (wireless LAN). Place handset in Airplane mode and power off. Note that it may be usable with some airlines. Contact your airline for information.

### **Usage Precautions 2.4 GHz Devices**

WLAN devices use the same frequency band used by household appliances such as microwave ovens and industrial, scientific, and medical equipment, other same-type radio stations, (licensed) premises radio stations used to identify mobile units used in manufacturing lines, (unlicensed) specified low-power radio stations, and (licensed) amateur radio stations (below, "other radio stations").

- 1. Before using handset, check that other radio stations are not in use nearby.
- 2. If interference should occur with other radio stations, change handset location, or stop operation of the device (stop emission of radio waves).
- 3. If unsure how to proceed, contact a SoftBank Shop or "Customer Service".

### **Usage Precautions for 5 GHz Devices**

Using a 5.2/5.3-GHz-band wireless LAN outdoors is prohibited by law (this does not apply to communication with access points/relay stations of high-output data communications systems operating in the 5.2 GHz band).

Frequency bands and channel numbers available in Japan are as follows.

■ 5.2 GHz band: 5,180 to 5,240 MHz (36, 38, 40, 42, 44, 46, 48 ch)

- 5.3 GHz band: 5,260 to 5,320 MHz (52, 54, 56, 58, 60, 62, 64 ch)
- 5.6 GHz band: 5,500 to 5,720 MHz (100, 102, 104, 106, 108, 110, 112, 116, 118, 120, 122, 124, 126, 128, 132, 134, 136, 140, 144 ch)

# Water, Dust, and Shock Resistance

Handset has water resistance equivalent to IPX5<sup>\*1</sup> and IPX8<sup>\*2</sup>, as well as dust resistance equivalent to IP6X<sup>\*3</sup> on the condition that Slot Cap is securely attached. Also, handset comprises a shock-resistant structure that has passed testing<sup>\*4</sup> in accordance with US MIL standards.

\*1 IPX5 means that handset continues to function as a communication device after applying a jet flow of 12.5 L/min. from every direction from a distance of approximately 3 m for at least 3 minutes using water nozzle in 6.3 mm inner diameter.

\*2 IPX8 means that a mobile phone continues to function as a communication device after being slowly submerged to depth of 1.5 m in still tap water at room temperature, left there for 30 minutes and then taken out.

\*3 IP6X indicates the level of protection and means that a mobile phone is able to prevent intrusion of dust after being agitated in a test device with 75  $\mu$ m or smaller particles for 8 hours.

\*4 Original drop testing conducted in accordance with MIL-STD-810H Method 516.8 Procedure IV defined by the U.S. Department of Defense.

| What water resistance allows it to do |
|---------------------------------------|
| Usage Precautions                     |
| Maintaining Water/Dust Resistance     |
| Washing                               |
| Draining Water                        |
| When Charging                         |
|                                       |

# What water resistance allows it to do

- You can use handset to talk without using an umbrella in the rain (rainfall of about 20 mm per hour).
  - •When your hands or handset are wet, avoid opening/closing Slot Cap.
- Handset can be hand-washed with tap water at room temperature.
  - -Hold Slot Cap down to keep it from opening, and wash without rubbing forcefully.
  - Do not apply water flow stronger than allowed.

• Do not use a brush, sponge, or any soap other than that specified ( $\rightarrow P.\underline{30}$ ).

• If mud or dirt is on handset, swish it several times in a bowl of tap water and then rinse it with running water.

•After washing, drain water as prescribed.

Handset can be washed using domestic-brand household foam-type handsoap or domesticbrand household liquid dish detergent (FCNT LIMITED testing). Do not use items other than those above (soap bars, powder soap, etc.).

·For details on how to wash, see "Washing."

\*Handset performance is verified under test conditions, and ability to clean with all foam-type handsoaps or liquid dish detergents is not guaranteed.

- Wash any soap bubbles from handset well, with low-pressure water flow (6 L/min or less tap water at normal temperature). After washing, drain water with a dry, clean cloth.
- Attach Slot Cap securely before washing handset.
- Handset can be used in a bath room.
  - •After using in a bath room, drain water as prescribed.

•Do not immerse in a bathtub. Do not use in hot water. May cause malfunction. If accidentally dropped in a bathtub, immediately remove from tub and drain water as prescribed.

•Never immerse in hot spring water or water containing soap other than that specified ( $\rightarrow$ P.<u>30</u>) or bath powder. In case handset gets wet with water other than tap water, rinse it. For details on how to wash, see "Washing."

•In a bathroom, use within temperatures of 5°C to 45°C and humidity 45% to 99% (temperature more than 36°C or humidity more than 86% is limited to temporary use). Continuous operation is not guaranteed for every function.

• Do not put under running hot water from a faucet or shower.

• If handset is brought from a cold place to a warm place, dew may condense on Display or case due to a sudden change of temperature. If Display is hard to view or touch operation is difficult, wait a while for handset temperature to return to normal.

# **Usage Precautions**

Avoid doing the following.

<Examples>

- ·Applying soap other than that specified/bath powder
- •Washing with a brush / sponge
- ·Washing in a washing machine
- · Exposing to too strong waterflow
- Immersing in seawater
- Using at a hot spring

Observe the following precautions for correct use.

- AC Charger/optional accessories are not water/dust resistant. Do not use where exposed to water (bath room, shower, kitchen, sink) while AC Charger is connected to handset USB Type-C Port.
- Do not apply water flow stronger than allowed. Although handset is resistant to IPX5, water may enter from a damaged portion and cause trouble such as electric shock or corrosion of Battery.
- If handset gets wet with salt water, seawater, refreshment beverage, etc. or soiled with mud or dirt, rinse immediately. If anything adhering dries, it will be hard to remove may cause damage or malfunction.
- Do not put in hot water, use in a sauna, or subject to hot airflow (from a hair dryer etc.).
- Do not move handset around in water or slap it against the surface of water.
- If using at a swimming pool, observe the rules of the facility.
- Handset does not float.
- Do not leave wet. In a cold region, may freeze and result in malfunction.
- Do not allow water to remain in Stereo Earphones Port, Mic/Recorder Mic, Earpiece, Speaker, or Second Mic. May affect call quality.
- Do not allow water to remain in USB Type-C Port.
- Wash handset using domestic-brand household foam-type handsoap or domestic-brand household liquid dish detergent. Do not use items other than those above (soap bars, powder soap, etc.).
- Do not use: business, non-additive, or alkaline foam-type handsoap, or business, non-additive, or alkaline dish detergent. Doing so may discolor handset.
- Do not wash with soap other than specified (→P.<u>30</u>), bath powder, shampoo, rinse, facial cleanser, makeup remover, toothpaste, etc.

If on handset, immediately rinse with water.

- Hold Slot Cap down to keep it from opening, and handwash without using a brush or sponge.
- Do not wash in a washing machine, sonic washer, dishwasher, etc.
- If handset is exposed to liquid with Slot Cap open, it may enter handset and cause electric shock or malfunction. Cease use, power off handset, and contact a SoftBank Shop or "Customer Service".
- If Slot Cap seal is scratched or d eformed, contact a SoftBank Shop or "Customer Service".
- Operation is not guaranteed for all conditions of actual use. Handset will not covered by warranty if malfunction is determined to be due to incorrect customer handling.

### **Maintaining Water/Dust Resistance**

To prevent water or dust intrusion, be sure to observe the following.

When installing/removing SIM Card or SD Card, with handset Display upward, use groove to open Slot Cap, and pull out straight without bending in direction shown.

\*After opening Slot Cap, do not push down on ejected Slot Cap. May damage Slot Cap.

■ After use, insert Slot Cap straight without bending in direction shown, and press firmly where circled ○. Make sure there is no gap between handset and Slot Cap.

- Close firmly. Anything tiny (a single hair, grain of sand, minute fiber, etc.) trapped between seal and contacting surface may allow ingress of water/dust.
- Do not poke Stereo Earphones Port, USB Type-C Port, Mic/Recorder Mic, Earpiece, Speaker, Second Mic, Slot Cap, etc. with anything pointed.
- Do not drop. Scratches, etc. can deteriorate water/dust resistance.
- Slot Cap rubber seal is crucial for continued water and dust resistance. Do not remove or scratch rubber seal. Do not allow dirt to get on seal.
- To maintain water and dust resistance, it is recommended to replace parts every 2 years regardless of their condition. Submit handset for parts replacement at a fee. Contact a SoftBank Shop or "Customer Service".

### Washing

When washing handset, check precautions and follow these steps.

- Be sure to remove any store-bought accessories (handset covers, cases, etc.). Check precautions given for store-bought accessories.
- Wash handset using domestic-brand household foam-type handsoap or domestic-brand

household liquid dish detergent. Do not use items other than those above (soap bars, powder soap, etc.).

- Be sure to use a solution containing no more than 0.05 w/v% of chlorine or chlorine-based additives.
- If using dish detergent, read the precautions for each product, and be sure to always use the indicated amount.
- Do not apply the dish detergent itself directly on handset. If on handset, immediately rinse with water.
- When washing handset, remove wrist watches, rings, applique nails, etc. May damage handset.
- When washing handset, first power off.
- Close Slot Cap securely.

# 1

Dispense foam-type handsoap or dish detergent onto your hand, then place handset in your hand and rub soap onto front and back of handset

■ Hold Slot Cap down to keep it from opening, and wash handset

# 2

Rinse until all soap on handset front, back, each key, etc. is completely removed

- Wash handset with low-pressure water flow (6 L/min or less tap water at normal temperature), holding it approximately 10 cm below the faucet or shower head.
- Do not open/close Slot Cap.
- Do not run water directly on Slot Cap.

# 3

Rinse Fingerprint Sensor, Earpiece, Second Mic, Stereo Earphones Port, Mic/Recorder Mic, USB Type-C Port, and Speaker

**Fingerprint Sensor** 

Earpiece

Second-Mic Stereo Earphones Port

Mic/Recorder Mic USB Type-C™ Port Speaker

 Foam-type handsoap and dish detergent constituents remaining in Second Mic, Earpiece, Mic/Recorder Mic, or Speaker can cause clogging and affect sound quality of ringtone and calls. USB Type-C Port may cause poor charging. Be sure to wash soap away completely.

### 4

#### **Draining Water**

- For details on draining water, see "Draining Water."
- Dry adequately, and check that no moisture is remaining.

# **Draining Water**

If handset has gotten wet, water may still seep out later after wiping off; drain water as follows.

Hold handset firmly and wipe off moisture on front and back with a dry, clean cloth

### 2

Hold handset firmly and shake approximately 20 times until no more water splatters (Change location of Earpiece and Mobile Light, and Fingerprint Sensor and shake in the same way)

■ Hold firmly so as not to drop it.

# 3

Press handset 10 times against a dry, clean cloth to completely wipe away water remaining in Fingerprint Sensor, Stereo Earphones Port, USB Type-C Port, Mic/Recorder Mic, Earpiece, Speaker, Second Mic, Keys, etc.

### 4

Wipe off any water draining from handset with a dry, clean cloth and let dry Water is drained.

- Water remaining in handset may seep out after wiping off.
- Do not wipe away remaining water in gaps directly with a cotton swab.

# When Charging

Always check the following when and after charging.

- Never charge while handset is wet.
- Before charging wet handset, first drain well and then wipe away moisture with a dry, clean cloth.
- Check that no moisture or dirt remains in USB Type-C Port before use.
- Do not use AC Charger where exposed to water (bath room, shower, kitchen, sink). May cause fire or electric shock.
- Do not touch AC Charger with wet hands. May cause electric shock.

# **Export Control Regulations**

#### Export Control Regulations

# **Export Control Regulations**

This product and its accessories may be subject to Japanese export control regulations ("Foreign Exchange and Foreign Trade Control Act" and related laws and regulations). They may also be subject to Export Administration Regulations of the US. Before exporting or reexporting this product and its accessories, necessary procedures must be followed at your responsibility and expense. For details, contact the Ministry of Economy, Trade and Industry of Japan or the US Department of Commerce.

- ↓ Federal Communications Commission (FCC) Notice
- ✤ FCC RF Exposure Information

# Specific Absorption Rate (SAR) for This Product (for Japan)

This mobile phone [arrows We] is compliant with the Japanese technical regulations\* and international guidelines for exposure to radio waves.

The Japanese technical regulations on human exposure to radio frequency energy have established permitted levels of radio frequency energy, based on the standards developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The regulations employ a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit is 2 watts/kilogram (W/kg) averaged over ten grams of tissue.

The limit includes a substantial safety margin designed to assure the safety of all persons regardless of age and health.

The value of the limit is equal to the value stipulated in the international guideline recommended by ICNIRP\*\*, which is in collaboration with the World Health Organization (WHO).

The highest SAR value for this mobile phone is 1.686 W/kg\*\*\* when tested for use at the ear, and 0.426 W/kg\*\*\* when worn on the body in the below manner\*\*\*\*.

While there may be differences between the SAR levels of various phones and at various positions, all phones meet the Japanese technical regulations.

Although the SAR is determined at the highest certified power level, the actual SAR of the phone during operation can be well below the maximum value.

\* The technical regulations are provided in the Article 14-2 of the Ministry Ordinance Regulating Radio Equipment.

\*\* International Commission on Non-Ionizing Radiation Protection

\*\*\* The value is under simultaneous transmission use conditions.

\*\*\*\* Use at positions other than at the ear

This mobile phone may be used at positions other than at the ear. By using an accessory such as a belt clip holster that maintains a 1.5 cm separation with no metal (parts) between it and the body and the mobile phone, this mobile phone will comply with international guidelines for radio wave protection.

The WHO has announced that "A large number of studies have been performed over the last two decades to assess whether mobile phones pose a potential health risk. To date, no adverse health effects have been established as being caused by mobile phone use."

For more information about SAR, see the following websites:

Ministry of Internal Affairs and Communications (MIC)

https://www.tele.soumu.go.jp/e/sys/ele/body/index.htm

·Association of Radio Industries and Businesses (ARIB)

https://www.arib-emf.org/01denpa/denpa02-02.html\_(Japanese)

·World Health Organization

https://www.who.int/news-room/fact-sheets/detail/electromagnetic-fields-and-public-health-mobile-phones

•List of Specific Absorption Rates (SAR) for radio waves by smartphone/3G model https://www.softbank.jp/mobile/support/sar/\_(Japanese)

### **European RF Exposure Information**

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health. The guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2.0 W/kg and the highest SAR value for this device when tested at the ear is 0.43 W/kg\*. As mobile devices offer a range of functions, they can be used in other positions, such as on the body. In this case, the highest tested SAR value is 0.92 W/kg\* at the separation distance of 0.5 cm from the body. For electronic safety, maintain the separation distance with accessories containing no metal, that position handset a minimum of the above distance. Use of other accessories may not ensure compliance with RF exposure guidelines.

\* The tests are carried out in accordance with international guidelines for testing.

Simplified Declaration of Conformity for [arrows We]

Trade Mark : arrows

Model Name : A101FC

Hereby, FCNT LIMITED declares that the radio equipment type [arrows We] is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: http://www.fmworld.net/product/phone/softbank/doc/.

# **CE RF Power Table**

| Radio type (Description)   | Transmitter Frequency / Maximum Output Power |
|----------------------------|----------------------------------------------|
| GSM (GSM900)               | 880-915MHz / 32.6dBm                         |
| GSM (DCS1800)              | 1710-1785MHz / 29.7dBm                       |
| UMTS (FDD I)               | 1920-1980MHz / 24.2dBm                       |
| UMTS (FDD VIII)            | 880-915MHz / 23.7dBm                         |
| LTE (FDD 1)                | 1920-1980MHz / 23.7dBm                       |
| LTE (FDD 3)                | 1710-1785MHz / 23.5dBm                       |
| LTE (FDD 8)                | 880-915MHz / 23.8dBm                         |
| LTE (TDD 42)               | 3400-3600MHz / 24.0dBm                       |
| WLAN 2.4GHz (IEEE 802.11b) | 2400-2483.5MHz / 13.8dBm                     |
| WLAN 2.4GHz (IEEE802.11g)  | 2400-2483.5MHz / 12.9dBm                     |
| WLAN 2.4GHz (IEEE 802.11n) | 2400-2483.5MHz / 12.80dBm                    |
| WLAN 5GHz (IEEE 802.11a)   | 5150-5350MHz / 13.6dBm                       |
| WLAN 5GHz (IEEE 802.11a)   | 5470-5725MHz / 13.9dBm                       |
| WLAN 5GHz (IEEE 802.11n)   | 5150-5350MHz / 13.6dBm                       |
| WLAN 5GHz (IEEE 802.11n)   | 5470-5725MHz / 13.9dBm                       |
| WLAN 5GHz (IEEE 802.11ac)  | 5150-5350MHz / 13.3dBm                       |
| WLAN 5GHz (IEEE 802.11ac)  | 5470-5725MHz / 13.9dBm                       |
| Bluetooth (Bluetooth)      | 2400-2483.5MHz / 11.1dBm                     |
| RFID (NFC)                 | 13.56MHz / -19.1dB                           |

The manufacturer of this product is FCNT LIMITED with its registered place of business at 7-10-1 Chuorinkan, Yamato-shi, Kanagawa 242-0007, Japan.

# **Federal Communications Commission (FCC) Notice**

• This device complies with part 15 of the FCC rules.

Operation is subject to the following two conditions :

1 this device may not cause harmful interference, and

(2) this device must accept any interference received, including interference that may cause

undesired operation.

• Changes or modifications made in or to the radio phone, not expressly approved by the manufacturer, will void the user's authority to operate the equipment.

• The device complies with 15.205 of the FCC Rules.

# FCC RF Exposure Information

Your handset is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.

The guidelines are based on standards that were developed by independent scientific organization through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The exposure standard for wireless handsets employs a unit of measurement known as the Specific Absorption Rate, or SAR.

The SAR limit set by the FCC is 1.6 W/kg. The tests are performed in positions and locations (e.g. at the ear and worn on the body) as required by the FCC for each model.

The highest SAR value for this model handset as reported to the FCC when tested for use at the ear is 1.14 W/kg, and when worn on the body in a holder or carry case, is 1.39 W/kg.

Body-worn Operation; This device was tested for typical body-worn operations with the handset kept 1 cm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 1 cm separation distance between the user's body and the handset. The use of beltclips, holsters and similar accessories should not contain metallic components in its assembly.

The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided. The FCC has granted an Equipment Authorization for this model handset with all reported SAR levels evaluated as in compliance with the FCC RF emission guidelines. SAR information on this model handset is on file with the FCC and can be found under the Display Grant section of http://www.fcc.gov/oet/ea/ after searching on FCC ID 2AYY9FMP185.

Additional information on Specific Absorption Rates (SAR) can be found on the FCC website at https://www.fcc.gov/general/radio-frequency-safety-0.
