About the User Guide

Most operation descriptions are based on default settings.

Unless noted otherwise, descriptions are for Home Screen. Some operation descriptions may be omitted.

⬇ Before You Begin

⬇ Data Communication

⬇ Screenshots & Key Labels

⬇ Other Notations

Before You Begin

- Read "Safety Precautions" and this guide thoroughly beforehand for proper usage.
- Accessible services may be limited by contract conditions.
- Unauthorized copying of any part of this guide is prohibited.
- Guide content subject to change without prior notice.

Data Communication

- Handset is designed to be always connected to the Internet. Some functionality, such as data syncing, initiate transmission automatically.
- Large-volume data communication (application downloads, video viewing, etc.) incur expensive transmission fees. Subscription to a flat-rate data plan is strongly recommended.
- Depending on applications and services used, transmission fees may be incurred even while connected by Wi-Fi®.

Screenshots & Key Labels

Screenshots and Key labels are provided for reference only. Actual handset windows, menus, etc. may differ in appearance.

Other Notations

- Xperia 1 III is referred to as "handset" in this guide.
- In this guide, microSD™/microSDHC™/microSDXC™ Card is referred to as "SD Card."
- In this guide and on handset, "abroad" means "outside Japan" with regard to handset/service usage.
Parts & Functions

Handset (Front)

Part	Description
1 Front Camera	Use to shoot still images, videos of yourself, etc.
2 Earpiece/Speaker	Hear the other party's voice here.
3 Proximity/Light Sensor	Detects surrounding brightness to automatically adjust Display or backlight and prevent Touchscreen misoperation during a call.
4 Notification Lamp	Flashes for notifications while Display is off. Lights while charging.
5 Display	Touchscreen-type display, operate with your fingers on Display.
6 Speaker	Listen to music as well as video, etc. audio.

Handset (Back/Side)
Part	Description
1 Second Mic	Reduces noise for calling. Also picks up audio when capturing videos.
2 Headphone Port	Connect commercially available headphones. This port supports tetrapolar headset that conforms to the CTIA standard.
3 RGBC-IR Sensor	Detects surrounding light sources when shooting.
4 Flash/Photo Light	Use as camera flash when taking photos, etc.
5 Main Camera	Capture still images and videos.
6 5G/4G Antenna Area	Internal Antenna for calls and data communication.
7 5G/4G Antenna/Wi-Fi Antenna Area	Internal Antennas for calls, data communication, and Wi-Fi.
8 5G Antenna Area	Internal Antenna for data communication.
9 5G/4G Antenna/Wi-Fi/GPS/Bluetooth® Antenna Area	Internal Antennas for calls, data communication, and Wi-Fi, GPS, and Bluetooth features.
10 Wi-Fi/Bluetooth Antenna Area	Internal Antennas for Wi-Fi and Bluetooth features.
11 NFC/Osaifu-	Hold up to a

Keitai® Detection Area		reader/writer to use NFC/Osaifu-Keitai®.
12	**Laser AF Sensor**	Autofocuses for shooting based on subject distance.
13	**Wireless Charging Position**	Position wireless charger.
14	**SIM Card/SD Card Slot**	Insert SIM Card/SD Card.
15	**USB Type-C™ Port**	Connect USB Type-C cable (commercially available), etc.
16	**Mic**	Speak here.

Using USB Type-C Port

Connect DisplayPort-compatible USB Type-C cable (commercially available) and show handset screen on a TV or computer monitor. Also, use a USB-LAN adapter (commercially available) and connect to the Internet with a wired LAN cable. Your USB Type-C cable, USB-LAN adapter, or access point device might not work in some instances.

Handset Keys

Part	Description
1 Volume/Zoom Up/Down Key	Adjust Volume. Adjust Zoom while using Photo Pro.
2 Power Key/Fingerprint Sensor	Long Press for power on/off. Turn Display on/off. Or, use Fingerprint authentication.
3 Google Assistant Key	Launch the Google Assistant.
4 Camera Key	Use as Camera shutter. Long Press to launch Photo Pro.

FCC ID

To view the regulatory compliance mark

- Find and tap Settings ➔ About phone ➔ Certificates

  Regulatory compliance mark such as FCC ID is displayed on the screen.

SIM Card

SIM Card is an IC card containing phone number and other customer information.

    ⬇ Inserting SIM Card

    ⬇ Removing SIM Card

   ⬇ SIM-Unlocking Handset

💡 Handling SIM Card

For SIM Card handling, see following items.

① IC chip

For SIM Card handling, see SoftBank Website.

https://www.softbank.jp/mobile/support/protect/usim/ (Japanese)

- Always keep the IC chip clean.
- Wipe clean with a dry, soft cloth.
- Avoid applying labels. May damage SIM Card.

⚠ SIM Card Cautions

Observe the following when using SIM Card.

- Customer is responsible for any damage caused by inserting SIM Card in an other-brand IC card reader, etc. SoftBank Corp. is not responsible in such case.
- SIM Card is the property of SoftBank Corp.
- SIM is replaceable (at cost) in case of loss/damage.
- Return SIM Card to SoftBank Corp. when cancelling subscription.
- Returned SIM Cards are recycled for environmental purposes.
- Note that SIM Card specifications and performance may change without notice.
- It is recommended that you keep a separate copy of information that is stored on SIM Card. SoftBank Corp. is not responsible for damages from stored information that is lost.
- Always follow emergency procedures to suspend service if your SIM Card or handset (SIM Card inserted) is lost/stolen. For details, contact Customer Service.
Inserting SIM Card

Always unmount SD Card beforehand. For details, see "Unmounting SD Card."

1

Pull Tray out from handset

- Pull SIM Card/SD Card Slot Cover out straight using fingernail in groove.

2

Set SIM Card into Tray with IC chip (metal) facing down

- Check SIM Card orientation by notch.
- Make sure SIM Card is in Tray securely.

3

Holding handset held level, press Tray in straight

🏁 SIM Card is inserted.

- Check Tray orientation.
- Press firmly where circled ○, and make sure there is no gap between handset and SIM Card/SD Card Slot Cover.

Removing SIM Card

Always unmount SD Card beforehand. For details, see "Unmounting SD Card."

1

Pull Tray out from handset

- Pull SIM Card/SD Card Slot Cover out straight using fingernail in groove.

2

Remove SIM Card from Tray

3

Holding handset held level, press Tray in straight

SIM Card is removed.

- Check Tray orientation.
- Press firmly where circled ○, and make sure there is no gap between handset and SIM Card/SD Card Slot Cover.

SIM-Unlocking Handset

Handset can be SIM-unlocked. SIM-unlocking handset allows other-carrier SIM cards to be used with it.

- Some services, functions, etc. may have restrictions when an other-carrier SIM card is used. SoftBank Corp. does not guarantee operation whatsoever.
- For details, see SoftBank Website.

Getting Started

SD Card

Handset supports SD Cards up to 1 TB. Some SD Cards may not operate properly. When using a new SD Card for the first time, always format it on handset.

⬇ Inserting SD Card

⬇ Formatting SD Card

⬇ Unmounting SD Card

⬇ Removing SD Card

⚠️ SD Card Cautions

Data

Information stored on SD Card can become lost or changed accidentally or as a result of damage. It is recommended that you keep a separate copy of important data. SoftBank Corp. is not responsible for damages from data that is lost or changed.

Reading/Writing Data

Never power off while reading or writing data.

Battery Level

A low battery charge may prevent reading/writing to SD Card.

🚫 Handling SD Card

Use/store SD Cards away from the reach of infants. May cause choking if swallowed.

Inserting SD Card

1

Pull Tray out from handset
- Pull SIM Card/SD Card Slot Cover out straight using fingernail in groove.

2

Set SD Card into Tray with metal terminals facing down
- Make sure SD Card is in Tray securely.

3

Holding handset held level, press Tray in straight
🏁 SD Card is inserted.

- Check Tray orientation.
- Press firmly where circled ○, and make sure there is no gap between handset and SIM Card/SD Card Slot Cover.
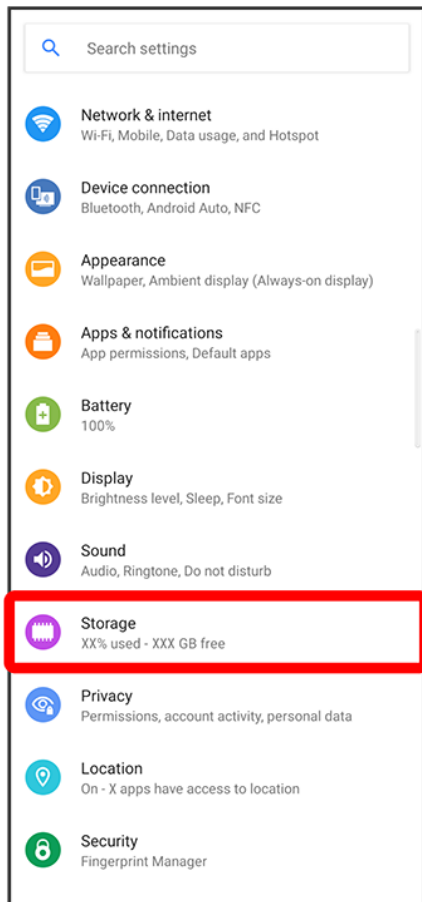

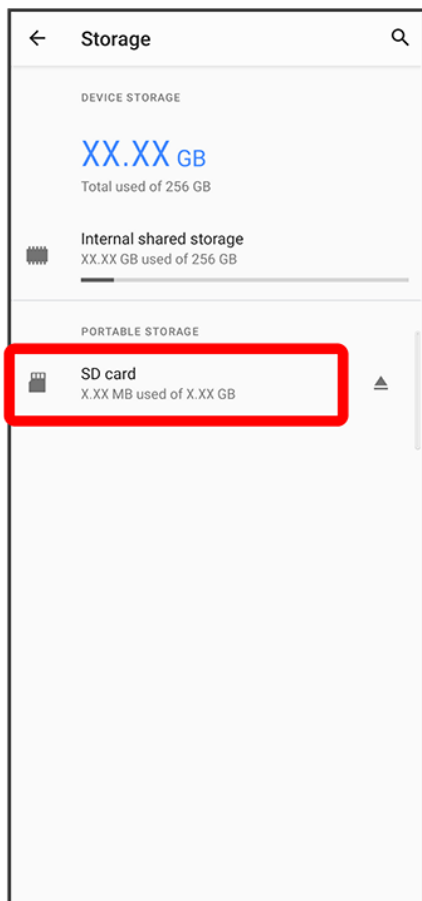

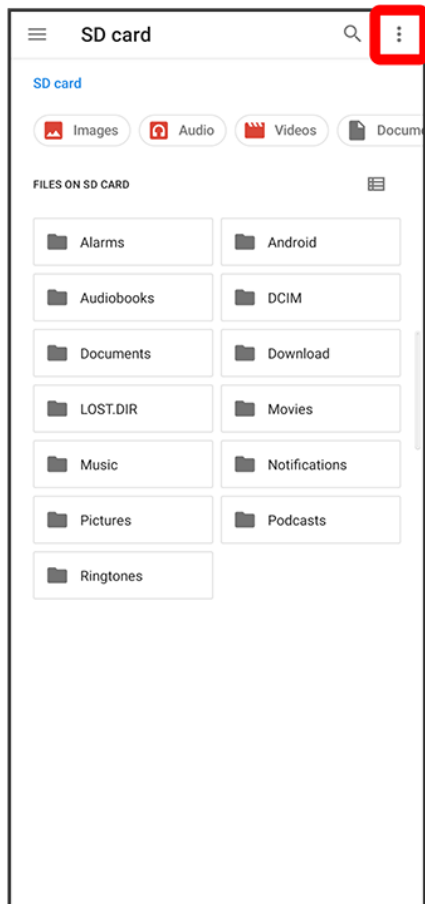

Formatting SD Card

In Home Screen, ⚙ (Settings)

Storage

SD card

■ If confirmation appears, follow onscreen instructions.

Storage settings
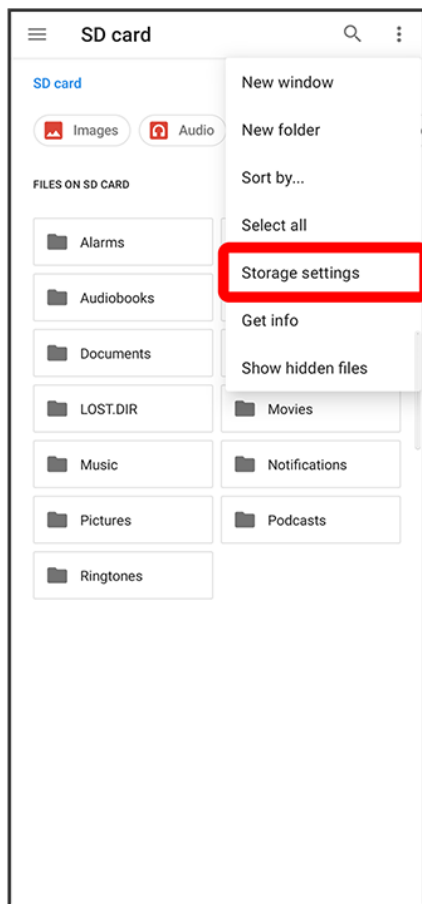

![6]

Format

7

FORMAT SD CARD
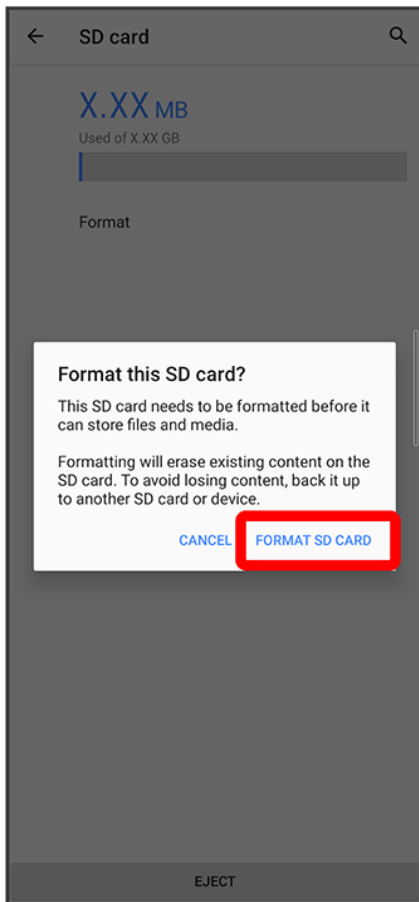

Done

 All data on SD Card is erased.

⚠️ Cautions when Formatting SD Card

Observe the following when formatting SD Card.

- Formatting erases all data on SD Card. Carefully check any SD Card that was used on another device before formatting.
- Charge Internal Battery while formatting, or format with adequate battery charge.

Unmounting SD Card
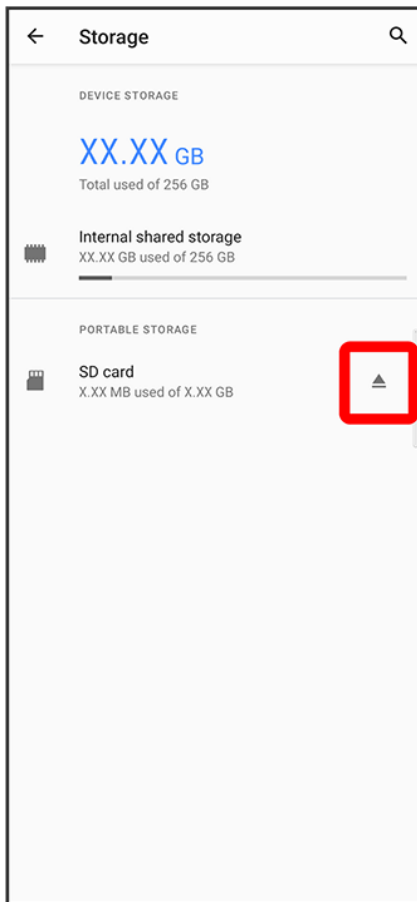

Always unmount SD Card before removing.

1

In Home Screen, ⚙ (Settings)

2

Storage
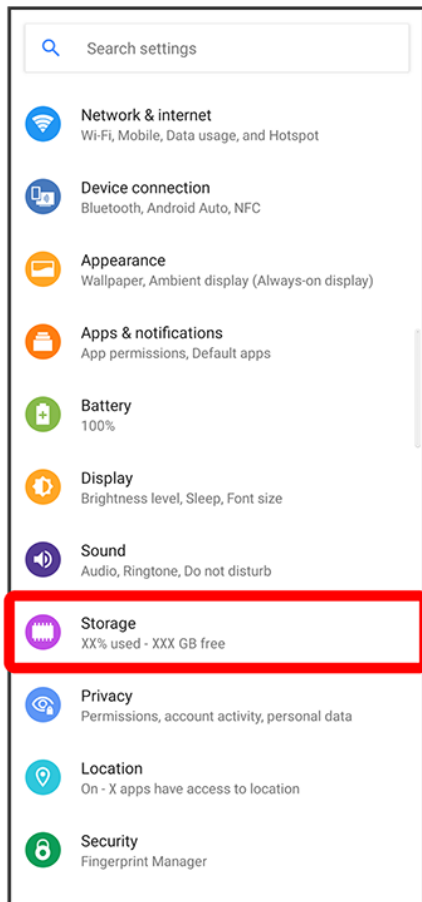

⏏ for "SD card"

🏁 "Ejected" appears. SD Card is unmounted.

Removing SD Card

Always unmount SD Card beforehand. For details, see "Unmounting SD Card."

Pull Tray out from handset

■ Pull SIM Card/SD Card Slot Cover out straight using fingernail in groove.
2

Remove SD Card from Tray

3

Holding handset held level, press Tray in straight

🏁 SD Card is removed.

- Check Tray orientation.
- Press firmly where circled ○, and make sure there is no gap between handset and SIM Card/SD Card Slot Cover.

Charging Internal Battery

⬇ Charging with AC Charger

⚠ Charging Cautions

Never connect USB Type-C plug while handset or peripheral equipment is wet.

Charging with AC Charger

Be sure to use an AC Charger specified by SoftBank. For information on AC Charger and other peripheral devices, see SoftBank Website.
Charging with AC Charger (USB Type-C™ rapid charging AC Charger with USB PD capability [ZSDBAS] (SB-AC20-TCPD)) is described as an example.
1

Insert USB Type-C connector of AC Charger straight into USB Type-C Port
2

Unfold power plug of AC Charger and plug into household AC

🏁 Charging start sound sounds and Notification Lamp on handset lights up when charging starts.

3

When charging is complete, unplug AC Charger and remove USB Type-C connector of AC Charger straight from handset

🏁 Charging ends.

Power On/Off
Powering On

1

Long Press Power Key until handset vibrates

🏁 Lock Screen appears.

- For details on unlocking screen, see "Unlocking Screen."
- Startup wizard appears for the first time handset is powered on. For details on initial settings, see "Making Initial Settings."
- Battery level is not sufficient if low battery indicator appears when Power Key is Pressed with handset powered off. Charge Internal Battery.

Powering Off

1

Long Press Power Key
2

Power off

🏁 Handset powers off.

Making Initial Settings

When powering on the first time, an initial settings wizard appears for optionally making Wi-Fi, Google™ account, and other settings. Follow onscreen instructions to set items.

Why we process it

We process this data for the purposes described in our policy, including to:

- Help our services deliver more useful, customized content such as more relevant search results;
- Improve the quality of our services and develop new ones;
- Deliver personalized ads, depending on your account settings, both on Google services and on sites and apps that partner with Google;
- Improve security by protecting against fraud and abuse; and
- Conduct analytics and measurement to understand how our services are used. We also have partners that measure how our services are used. Learn more about these specific advertising and measurement partners.

Combining data

We also combine this data among our services and across your devices for these purposes. For example, depending on your account settings, we show you ads based on information about your interests, which we can derive from your use of Search and YouTube, and we use data from trillions of search queries to build spell-correction models that we use across all of our services.

You're in control

Depending on your account settings, some of this data may be associated with your Google Account and we treat this data as personal information. You can control how we collect and use this data now by clicking "More Options" below. You can always adjust your controls later or withdraw your consent for the future by visiting My Account (myaccount.google.com).

Locking Screen

⬇ Screen Lock

⬇ Unlocking Screen

Screen Lock

Display goes out after a set period of inactivity to save battery power (screen lock).

This also prevents accidental Touchscreen operation.

While Display is off (screen is locked), Press Power Key for Lock Screen.
■ To activate Screen lock manually, Press Power Key when Display is turned on.

> 💡 **When Screen Locks during Music Playback**
>
> Music playback continues. While Display is off (screen is locked), Press Power Key for music panel in Lock Screen. Use pause, next song, etc. (operation may differ with application).

Unlocking Screen

1

While Display is off (screen is locked), Press Power Key
🏁 Lock Screen appears.

- Alternatively, if Ambient display is enabled, Double-Tap Ambient screen or Press Power Key. For details on Ambient display, see "Appearance Settings."

2

Flick screen up
🏁 Screen is unlocked.

- The method for unlocking the screen can be changed.
- For fingerprint authentication, Touch Fingerprint Sensor with authentication finger to unlock screen.

Basic Operation

⬇ Selecting Options and Navigating Screens

⬇ Menu Operations

Selecting Options and Navigating Screens

Tap items, icons, onscreen keys, etc. to open assigned items.
- Tap [◁] to go back to previous screen.
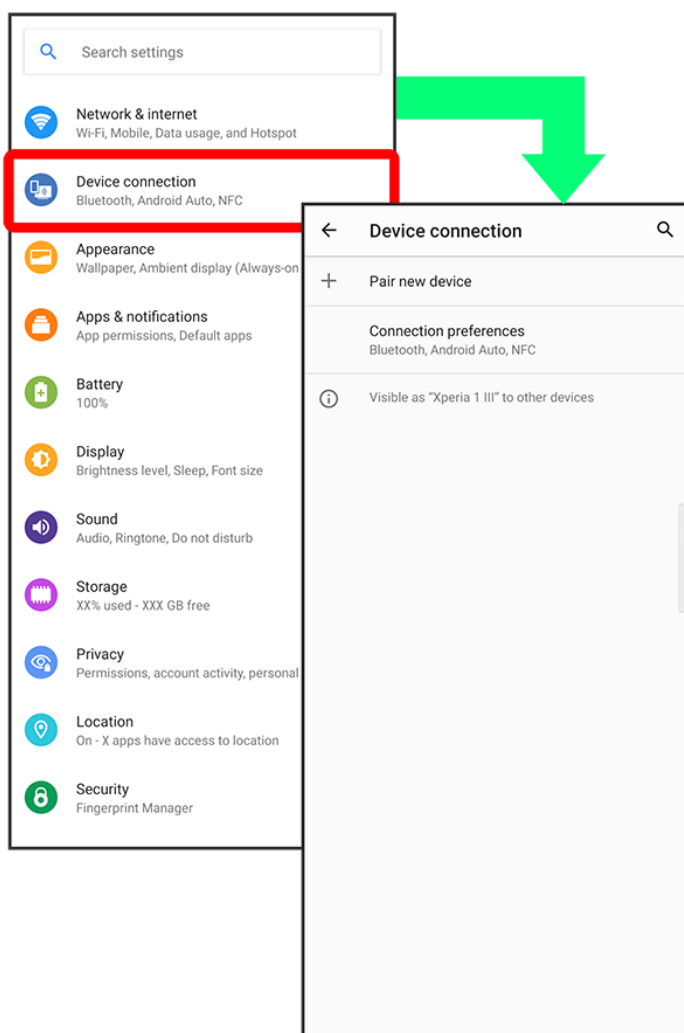

Menu Operations

1

Tap ⋮ for available settings and items.
2

Screens may also have settings and items that are available by Touching & Holding Display.

Basic Operations
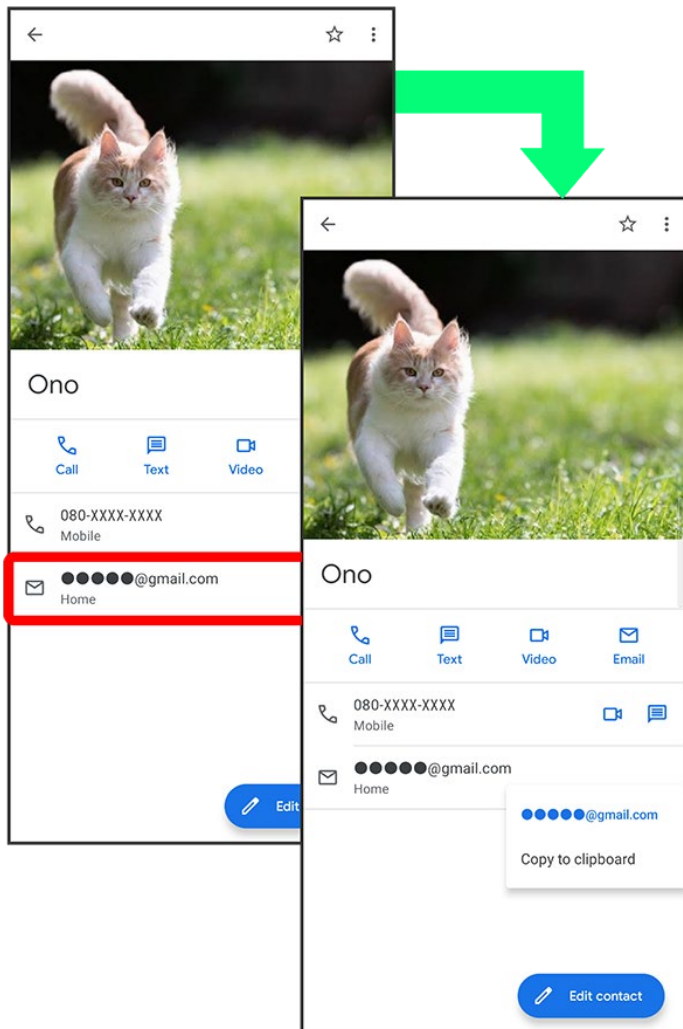

Using Touchscreen

Handset uses a touchscreen-type Display. Operate with your fingers on Display.

⬇ Tap

⬇ Touch & Hold

⬇ Drag

⬇ Swipe/Flick

⬇ Pinch/Spread

Tap

Contact Display lightly and briefly.
Touch & Hold

Touch screen lightly and hold it for a while. When the screen changes, release finger.
Drag

Touch icon or other item lightly, move it where desired, and release finger.
Swipe/Flick

Contact Display lightly, then brush screen up/down or left/right.
Pinch/Spread

Contact Display lightly, then close/widen fingers.
Silent Mode

Set ringtone, operation sounds, etc. not to sound to avoid disturbing others around you.

⬇ Entering Silent Mode (Vibrate)

⬇ Entering Silent Mode (No Vibrate)

⚠ Silent Mode Cautions

Camera shutter, video start/stop tones, Alarm, etc. sound even in Silent mode.

Entering Silent Mode (Vibrate)

1

Press Volume Up or Down Key

2

🔔

🏁 Icon changes to ᶷᵂᵘ, and handset enters Silent mode (vibrate).

- Tap Silent mode icon to toggle between ᶷᵂᵘ, 🔕, and 🔔.

    ➕ **Entering from Quick Settings**
    Also use Quick Settings to enter Silent mode (vibrate).
    Flick Status Bar down ➡ 🔔 (ᶷᵂᵘ)

Entering Silent Mode (No Vibrate)

1

Press Volume Up or Down Key

2

🔔

🏁 Icon changes to ⵊ▯ⵊ, and handset enters Silent mode (vibrate).

3

While volume adjustment bar is shown, ⵊ▯ⵊ
 Icon changes to , and handset enters Silent mode (no vibrate).

- Tap Silent mode icon to toggle between , , and .

◼ Entering from Quick Settings

Also use Quick Settings to enter Silent mode (no vibrate).
Flick Status Bar down   ( )

Airplane Mode

Disable all functions that emit signals. Handset stays powered on.

⬇ Using Airplane Mode

Using Airplane Mode

1

Flick Status Bar down

✈
🏁 Handset is in Airplane mode.

- Use same operation again while in Airplane mode to cancel.

Text Entry

⬇ Keyboards

⬇ QWERTY Keyboard Layout

⬇ Switching Character Types (Entry Modes)

Keyboards

Enter text with onscreen QWERTY keyboard by Tapping each character individually, or by using Glide typing feature and sliding finger from character to character (on by default). Touch & Hold each character for extended characters.

- Tap ▼ to hide keyboard.

➕ Keyboard Operations

Setting Keyboard to Use

In a text entry window, ⚙➡ Languages ➡ English (US) ➡ Select keyboard ➡ Done

- Set several keyboards.

Switching Keyboards

Set several keyboards to switch between.

In a text entry window, ⊕

- Alternatively, Long Press ⊕➡ Tap keyboard to switch to.

QWERTY Keyboard Layout
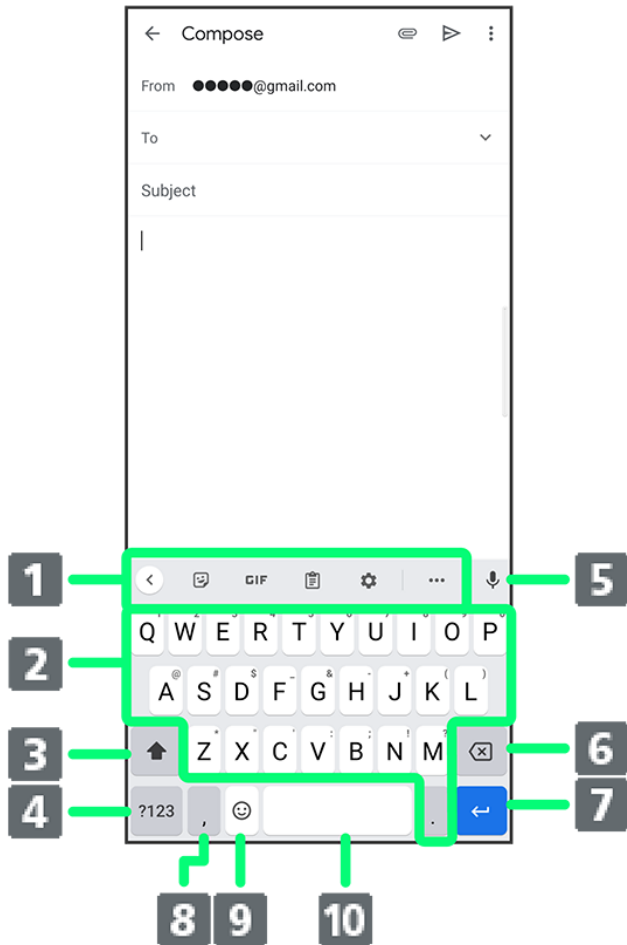

① **Use the keyboard option menu.**
② **Enter a character.**
③ **Switch between all lower case and sentence case. Double-Tap for all upper case.**
④ **Toggle entry modes.**
⑤ **Use voice input.**
⑥ **Delete a character before cursor.**
⑦ **Confirm text input or enter line break.** 🔍, →|, →, or ✓ **appears depending on application.**
⑧ **Enter a comma. Touch & Hold for text entry settings or to set one-handed mode. With several set keyboards, Touch & Hold ⦂ for emoji, emoticons, etc.**
⑨ **Show emoji, emoticons, etc. With several set keyboards, ⊕ to switch between keyboards.**
⑩ **Enter a space.**

Switching Character Types (Entry Modes)

In QWERTY keyboard, Tap ?123
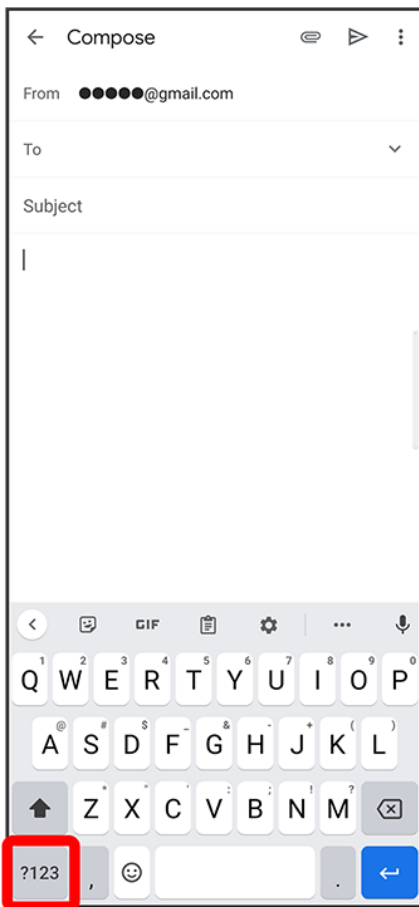

🏁 Entry mode is changed to number and symbol mode.

- To enter more symbols, Tap =\< .
- Tap ABC to back to alphabet mode.

Updating Software

Steps to update software depend on what is being updated in the software.
Checking/updating does not incur transmission fees.

⬇ Updating Software Automatically

⬇ Updating Software Manually

⚠ Software Update Cautions

Signal Reception

Operate handset where signal reception is good and without changing location. Also operate with adequate battery charge. Signal becoming weak or Internal Battery becoming low during an update may cause an update failure. An update failure may disable handset.

Saved Data/Settings

Saved data may be lost depending on condition of handset (malfunctioning, damaged, water exposure, etc.). SoftBank Corp. is not responsible for damages from loss of data.
Updating software may revert some settings to their defaults.

SIM PIN

If SIM PIN is enabled, a SIM PIN entry window appears after software is updated. Enter SIM PIN.

Updating Software Automatically

Update software automatically.
When the update is complete, Tap the notification in the Notifications Window and restart handset.

Updating Software Manually

Tap the software update notification in the Notifications Window and follow onscreen instructions.
Alternatively:

1

In Home Screen, ⚙ (Settings)➡ System➡ Advanced
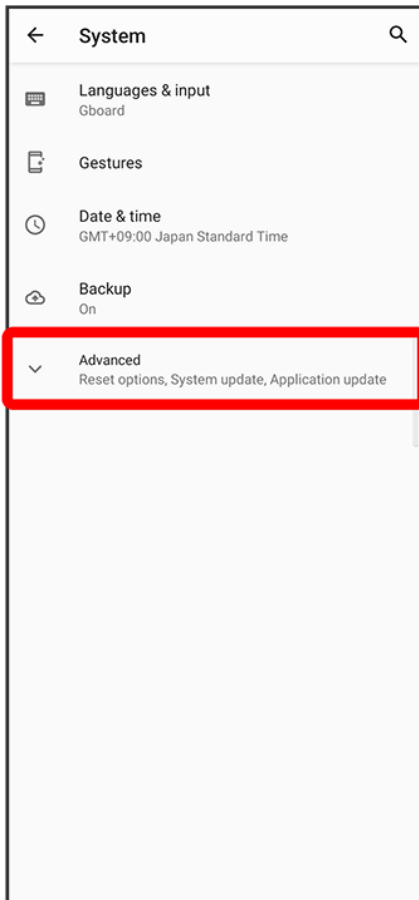

![2]

System update
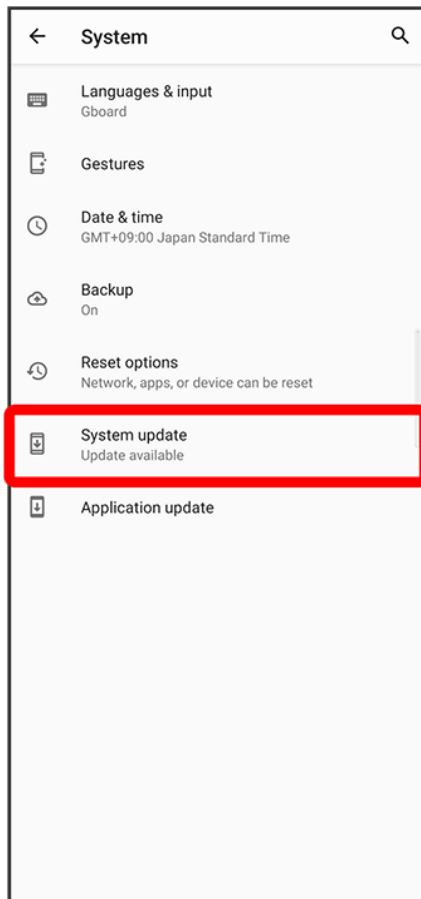

In Home Screen, ⚙ (Settings)➡ System➡ Advanced

Follow onscreen instructions

Basic Operations

🏁 Software update starts.

Handset Screens

Layout

Item	Description
1 Status Bar	Flick down for Notifications Window. Continue and Flick screen down for Quick Settings.
2 Customize Area	Place application shortcuts, folders, widgets freely.
3 Dock	Place shortcuts (applications), folders, etc. Appears even when Home Screen sheets toggled.
4 Navigation Bar	Tap icons to access functions. For Navigation Bar, see "Navigation Bar."

5 **Side Sense Bar**	Open Side Sense menu, return, open Multi Window menu, etc.	
6 **Quick Search Box**	Search for applications or search (Google) with entered words and phrases.	

Toggling Home Screen Sheets

Customize each Home Screen sheet with application shortcuts, widgets, etc. to make handset more convenient. Flick Home Screen left/right to toggle sheets.

■ In any Home Screen sheet, Tap ⬜ to return to Home Screen top sheet.
Navigation Bar

Tap icons on Navigation Bar (Display bottom) for the following functions/operations.

Also use gesture action. For details, see "System Settings."
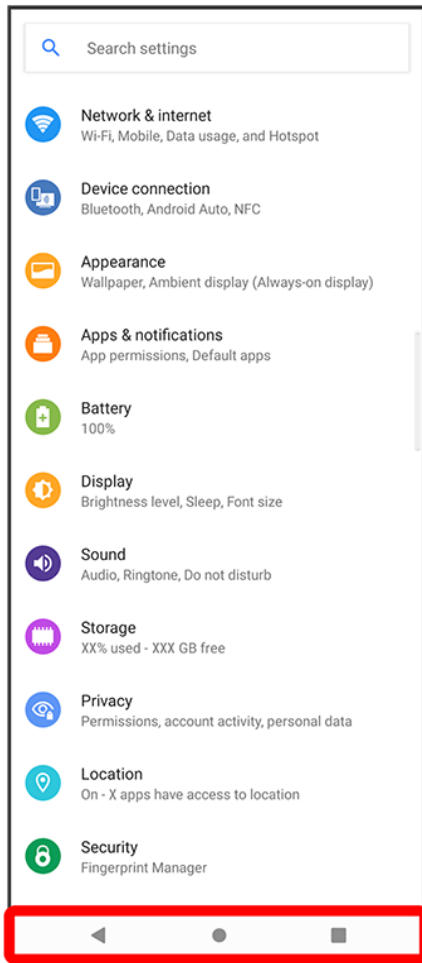

Item	Description
◀ (Back)	Return to previous screen. Appears as ▼ for onscreen keyboard; Tap to close keyboard.
⬤ (Home)	Tap for Home Screen. Touch & Hold for Google Assistant.
⬜ (History)	Show history of used applications to activate/exit them. Also capture screenshot of shown application, view in a pop-up window, or activate multi-window switch.
⟲ (To landscape orientation) / ↻ (to portrait orientation)	Appears when handset and screen orientations are different. Tap ⟲ for horizontal orientation, and ↻ for vertical orientation.

Portrait Orientation & Landscape Orientation

⟲ appears on Navigation Bar when handset is rotated sideways. Tap ⟲ to change screen to landscape orientation. To change to portrait orientation, rotate handset vertically and Tap ↻ .
Set "Auto-rotate screen" to on to change screen to landscape orientation automatically when

Handset Interface

handset is rotated horizontally. For details on Auto-rotate screen, see "Display Settings."

■ Depending on the current screen, the orientation may not change even by changing handset orientation.
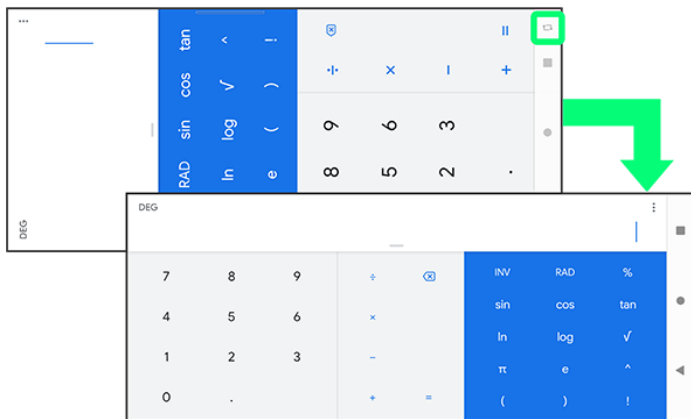

Status Bar

Status Bar appears at the top of Display. Notification Indicators for new mail, etc. and Status Indicators for handset appear here.

Status Bar Layout

① **Notification Indicators**
② **Status Indicators**

Main Notification Indicators

Notification Indicators appearing in Status Bar include the following.

Indicator	Description

☎	Missed Call

Placing/Answering Calls

⬇ Placing Calls

⬇ Answering Calls

⬇ In-Call Screen Layout/In-Call Operations

💡 Phone Function

Emergency Location Report

Making emergency calls (110, 119 or 118) automatically reports handset location to corresponding agency (police, etc.). This system is referred to as Emergency Location Report, and notifies location based on positioning from base stations.

- Location Report does not incur registration/transmission fees.
- Location/signal conditions affect positioning accuracy. Always provide location and call purpose.
- Hiding Caller ID (using 184, etc.) cancels Location Report. However, corresponding agency may obtain location information in life threatening situations.
- Location Report is not sent for calls made while outside Japan.

VoLTE/VoLTE (HD+) and HD Voice

Handset supports VoLTE/VoLTE (HD+) and HD Voice for higher voice call quality.

❓ Hints

Q Difficulty during call

A It may not be possible to make a call properly in a noisy location.

A When calling using Speaker, check the call volume. Raising the call volume may make calling difficult.

Q Sound pops momentarily during a call

A Are you changing location while calling? Sound pops when signal is weak and handset switches to a different area.

⚠️ Emergency Call Cautions

Emergency calls from handset can be made only in SoftBank service areas.

Placing Calls

1

In Home Screen, 📞 (Phone)

🏁 Phone opens.

2

📱
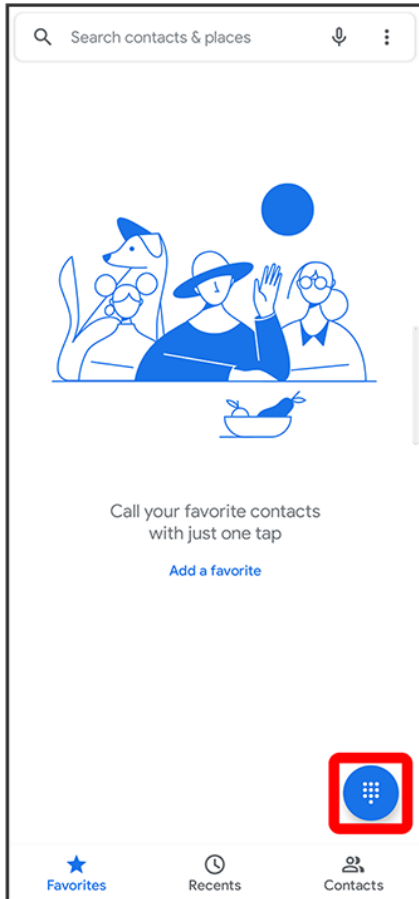

🏁 Dialing screen opens.

3

Tap dialpad to enter the other party's number
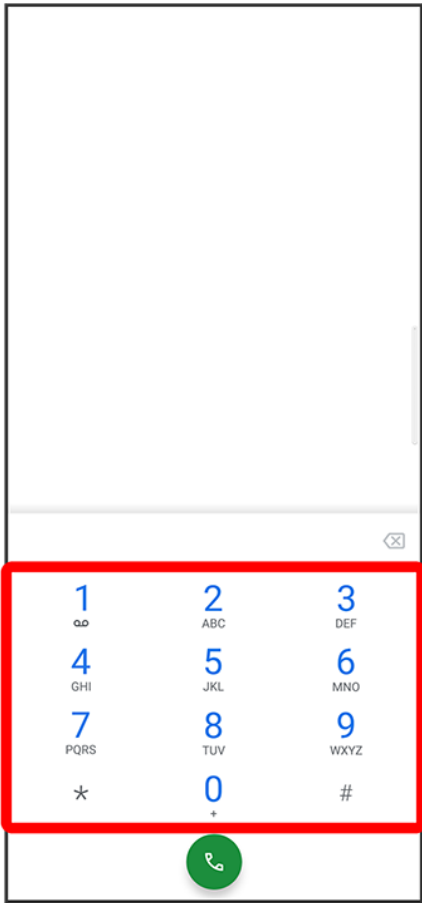

■ Enter area code first for calling landline numbers.
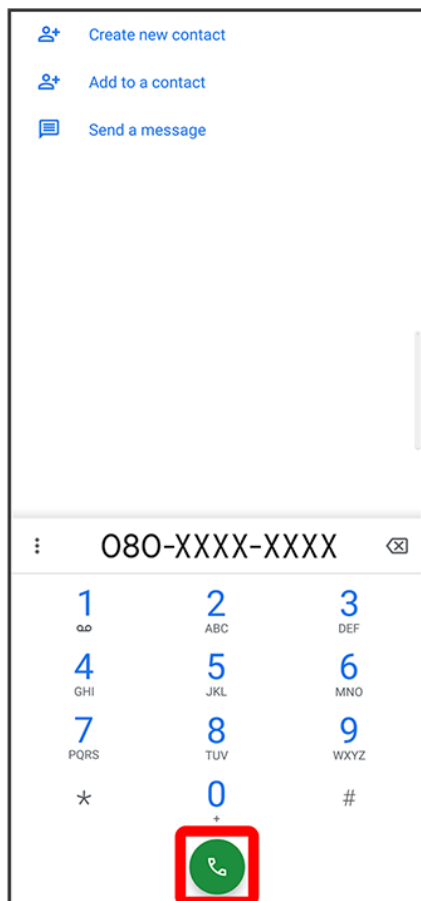

🏁 Handset dials number. Call begins when other party answers.

To end the call,
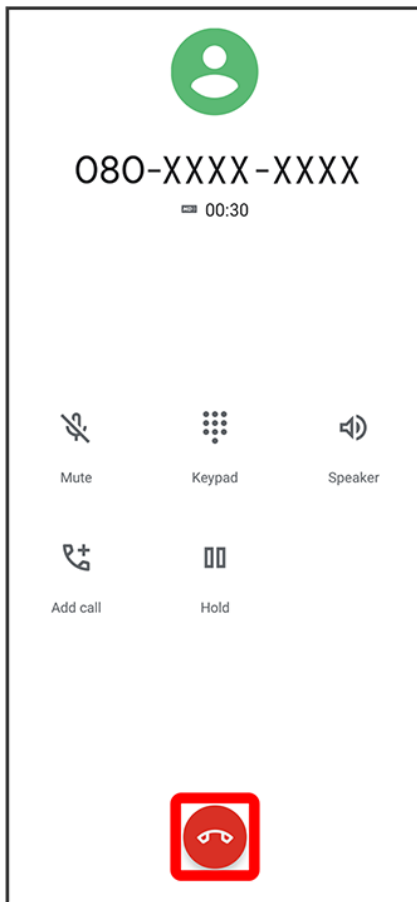

🏁 Call ends.

➕ Calling the Emergency Number When the Phone's Screen is Locked

Flick Lock Screen up ➡ EMERGENCY ➡ Enter number for emergency service ➡ 📞

■ Available only when screen lock is set to "Pattern," "PIN," or "Password."

❓ Hints

Q Call does not connect

A Was the number dialed using the area code? Dial the number starting with "0."
A Are conditions for calling poor? Call again after moving where signal is good.

Answering Calls

1️⃣

💡 TLS

TLS (Transport Layer Security) is a protocol for encrypting sent/received data. While in a screen connected by TLS, data is encrypted to safely send/receive private information, credit card numbers, corporate secrets, etc., and provide protection against online threats (eavesdropping, falsification, impersonation, etc.).

⚠️ TLS Cautions

When opening a secured page, users must decide as their responsibility whether or not to open the page with use of TLS. SoftBank Corp. and the Certification Authorities Symantec Website Security G.K. and Cybertrust make no guarantees whatsoever to users regarding security of TLS.

Using Chrome

1️⃣

Capturing Still Images/Videos

Photo Pro (Photography Pro) has a BASIC mode for easily capturing still images and videos as your smartphone's camera, as well as AUTO／P／S／M modes that can be used as on a real camera. How to capture using BASIC mode is described as an example.

⬇ Capturing Still Images

⬇ Capturing Videos

💡 Capturing Still Images/Videos

File Format for Still Images

File formats for still images are JPEG/RAW (AUTO / P / S / M modes only).

File Format for Videos

File format for videos is MPEG-4.

⚠️ Camera Cautions

If Lens Becomes Dirty

Fingerprints/smudges on lens prevent capturing of clear still images/videos. Wipe lens with a soft cloth beforehand.

Avoid Exposure to Direct Sunlight

Be careful not to expose lens to direct sunlight for long periods. May discolor color filter and affect color of images.

🚫 Flash/Photo Light Warning

Do not shine Flash/Photo Light close to eyes. Do not look at Flash/Photo Light directly while in use. Do not shine Mobile Light at other people's eyes. May affect eyesight, etc.

Capturing Still Images

1

In Home Screen, 📷 (Photo Pro)
🏁 Viewfinder appears.

- If confirmation appears, follow onscreen instructions.
- Alternatively, Long Press Camera Key for one second or more, or Press Power Key twice, or in Lock Screen, Swipe (Flick) ⬜ upward to the left to quick-activate Photo Pro.
- If there is no operation on Viewfinder, Photo Pro operation ends.

2

Tap ![icon] to switch to "Photo" Viewfinder (![icon])

3

Aim Camera at subject ![arrow] Check Viewfinder, then ○

 Shutter clicks and still image is saved.

Capturing Videos
In Home Screen, (Photo Pro)

🏁 Viewfinder appears.

- Alternatively, Long Press Camera Key for one second or more, or Press Power Key twice, or in Lock Screen, Swipe (Flick) 📷 upward to the left to quick-activate Photo Pro.
- If there is no operation on Viewfinder, Photo Pro operation ends.

2

Tap 📷/🎥 to switch to "Video" Viewfinder (📷/🎥)

5/11
Camera

3
Aim Camera at subject➔ Check Viewfinder, then 🔴
Video capturing starts.

- To pause, Tap ⏸ or to resume, Tap ⏺.

4

To stop recording, ⏹
Video capturing stops and video is saved.

Viewing Still Images/Videos (Photos)

↓ Showing Still Images/Videos

Showing Still Images/Videos

Show captured or downloaded still images/videos. Supported file formats with Photos are as follows.

Type	File Format
Still image	BMP, GIF, HEIC, ICO, JPG, PNG, TIFF, WEBP, some Raw files
Video	3GP, 3G2, ASF, AVI, DIVX, M2T, M2TS, M4V, MKV, MMV, MOD, MOV, MP4, MPG, MTS, TOD, WMV

1

In Home Screen, 📷 (Photos)
🏁 Still image/video list opens.

2

Tap still image/video

 Still image/video window opens.

- Tap still image/video window to show/hide menu and other icons.
- Flick still image/video window up to show captured date & time.
- To select other files, in still image/video window, select file again or Flick still image/video window left or right.

Zooming In or Out Still Image

In still image window, Tap Display twice or Pinch

Applications

Setting Required Permissions for Applications

Set the operation of applications when activating for the first time.

The type and content of a confirmation differs with the application. Activating 🎵 (Music) for the first time is described as an example.

■ An application may not function correctly if permission to use it was not set.

1

In Home Screen, 🎵 (Music)

Application Basics
ALLOW
 Settings are complete.

- Shown setting items depend on the function having permission set.
- For several functions, continue in the same way.

 Other Ways to Set Required Permissions for Applications

Setting Functions to Use for Each Application

In Home Screen, ⚙ (Settings) ➔ Apps & notifications ➔ SEE ALL XX APPS ➔ Tap application ➔ Permissions ➔ Tap function ➔ Tap required permission

Setting Applications with Permitted Usage for Each Function

In Home Screen, ⚙ (Settings) ➔ Apps & notifications ➔ Advanced ➔ Permission manager ➔ Tap function ➔ Tap application ➔ Tap required permission

Adding Applications

Download a variety of applications (free/paid) from Google Play™. Change the setting of downloaded applications to enable manual or automatic updates. Log in to your Google account beforehand.

⬇ Installing Free Applications

⬇ Purchasing Paid Applications

⬇ Updating Applications

⚠ Installing Applications

Many different kinds of applications can be installed on handset from Google Play (provided by Google LLC). SoftBank Corp. is not responsible in any way for user-installed applications (quality, reliability, legality, fitness for a purpose, credibility, accuracy, etc.) or resulting malfunctions (viruses, etc.).
Installing Free Applications

1

In Home Screen, ▶ (Play Store)

🏁 Google Play appears.

- If confirmation appears, follow onscreen instructions.

Tap free application
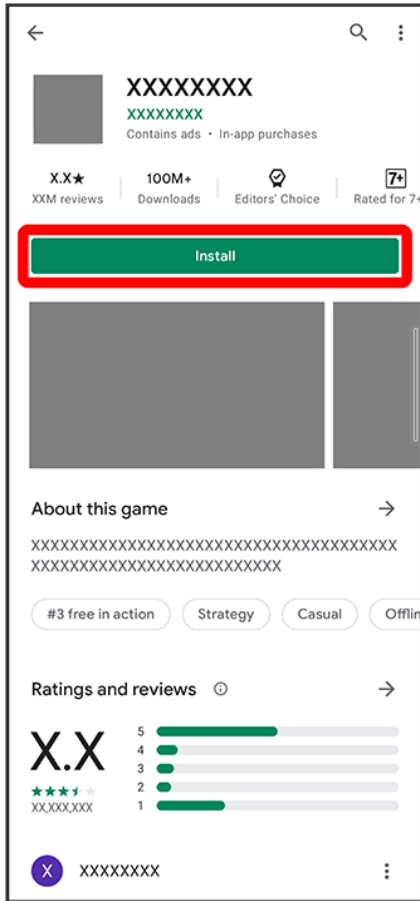

Install

🏁 Application is downloaded and installed.

■ If confirmation appears, follow onscreen instructions.

Battery Settings

Check Battery usage, make settings to save battery power, etc.

⬇ Battery Settings

Battery Settings

Items that can be checked/set are the following.

Item	Description
Battery level and estimated time until depletion[1]	Check Battery and time remaining based on current usage.
Apps are running normally[1]	Battery usage, etc appear.
STAMINA mode	Save Battery by limiting heavy-consumption functions such as background communication and some visual effects.
Battery Care	Keep Battery better and longer performing. Set handset to learn charging habits (long time periods where connected to charging equipment) and adjust charging speed.
Battery share function	Charge a Qi-compatible device from handset.
Adaptive Battery	Limit Battery usage of seldom-used applications.
Battery percentage	Enable battery level to be shown in Status Bar.
Last full charge	Check time elapsed since last full charge.
Screen usage since full charge	Check Battery usage by screen since a full charge.

1   Screen view may differ depending on usage.

Display Settings

Set screen brightness, font size, etc.

⬇ Display Settings

Display Settings

Settings can be made for the following items.

Item	Description
Image quality settings	Make settings for color gamut, contrast, and high-quality processing when playing back videos.
White balance	Set white balance.
High refresh rate	Enable smooth screen rendering.
Brightness level	Set brightness of Display.
Adaptive brightness	Enable adjustment of brightness for surroundings.
Screen timeout	Set a period of inactivity after which Display turns off automatically.
Font size	Set size of font for Display.
Display size	Set the size of images, icons, etc. in Display.
Dark theme	Make settings for using a dark theme.
Auto-rotate screen	Enable Display to rotate with handset orientation automatically.
Lock screen	Make settings for ambient display, clock design in Lock Screen, messages in Lock Screen, etc.
Side sense[1]	Set Side sense.
One-handed mode[1]	Double-Tap ⬜ then set smaller screen area.
Smart backlight control[1]	Set backlight to remain on even without any Tap operation while holding handset.
Night Light[1]	Set a night light.
Prevent accidental operations with screen off[1]	Enable handset to prevent misoperation (unintended keypress, screen operation) when in a pocket or bag.
Screen saver[1]	Set screensaver.

1　Appears after Tapping "Advanced."

Sound Settings

Set ringtone, touch sounds, etc.

⬇ Sound Settings

Sound Settings

Settings can be made for the following items.

Item	Description
Audio settings	Set for sound. ・Dolby Atmos Assign specific sounds to any position, including above your head, as well as reposition them. ・360 Spatial Sound A unique sound technology from Sony that takes normal stereo sound and puts you in an immersive sound space. ・DSEE Ultimate Enable accurate, scaled-up replay of compressed sound files and CD-level sound using AI technology. Use high-resolution audio headphones for sound quality that approximates high resolution. ・Intelligent wind filter Enable filtering of wind noise on the mic when recording.
Media volume	Adjust media volume.
Dynamic Vibration	Add vibration when playing back movies, videos, and music for an enhanced experience. During playback with a supporting application, Press Volume Key for volume adjust bar to adjust vibration. Muting media volume also turns Dynamic Vibration off.
In-call volume	Adjust call volume.
Ring and notification volume	Adjust ring volume and notification sound.
Alarm volume	Adjust alarm volume.
Vibrate for calls	Enable vibration for ringtone.
Do Not Disturb	Enable/disable Do Not Disturb. Also make Do Not Disturb settings.
Media	Enable the player in Quick Settings to no longer appear once media playback has ended.

Phone ringtone	Set phone ringtone.
Notification sound	Set notification sound.
Default alarm ringtone	Set alarm ringtone.
Dial pad tones[1]	Enable confirmation tones when Dialpad Tapped.
Screen locking sound[1]	Enable tone when locking or unlocking screen.
Charging sounds and vibration[1]	Enable tone when charging starts.
Touch sounds[1]	Enable tones for Tap operation.
Touch vibration[1]	Enable vibration for ⬜ (home), keyboard operation, etc.

1　Appears after Tapping "Advanced."

⚙ Audio Settings

Even if Dolby Atmos is set on when 360 Spatial Sound or DSEE Ultimate become are on, only either one of them may be enabled depending on the application. If using a music application, 360 Spatial Sound or DSEE Ultimate are enabled with priority.

Security Settings

Set security functions such as screen lock, PIN, etc.

⬇ Security Settings

⬇ Enabling SIM PIN

⬇ Changing SIM PIN

⊞ Setting Screen Not to Lock

In Home Screen, ⚙ (Settings)➡ Security ➡ Screen lock ➡ None

- If method for unlocking screen is setting other than None or Swipe before changing setting, first Tap Screen lock and unlock screen, or None then YES, REMOVE.

Security Settings

Settings can be made for the following items.

Item	Description
Google Play Protect[1]	Enable regular scanning of handset to check for security threats.
Security update[1]	Check for system updates.
Find My Device[1]	Set Find My Device on/off and check method for finding handset.
Google Play system update[1]	Check for Google Play system updates.
Screen lock	Set method for unlocking screen.
Fingerprint Manager	Set fingerprints.
Smart Lock	Set conditions for automatically unlocking screen when method for unlocking screen is "Pattern" / "PIN" / "Password."
Device admin apps	Enable/disable handset management applications.
SIM card lock	Make settings for SIM Card lock.
Encryption & credentials[2]	Make settings for encryption and credentials.
Trust agents[2]	Enable/disable Trust agents.
App pinning[2]	Set to keep only screen of specified application in view. When set to ON, pinned screen cannot be moved.

1 Screen view may differ depending on usage.

2 Appears after Tapping "Advanced."

Enabling SIM PIN

When PIN is enabled, a window for entering PIN appears to allow handset use each time handset is powered on with SIM Card installed.

1

In Home Screen, ⚙ (Settings)➡ Security
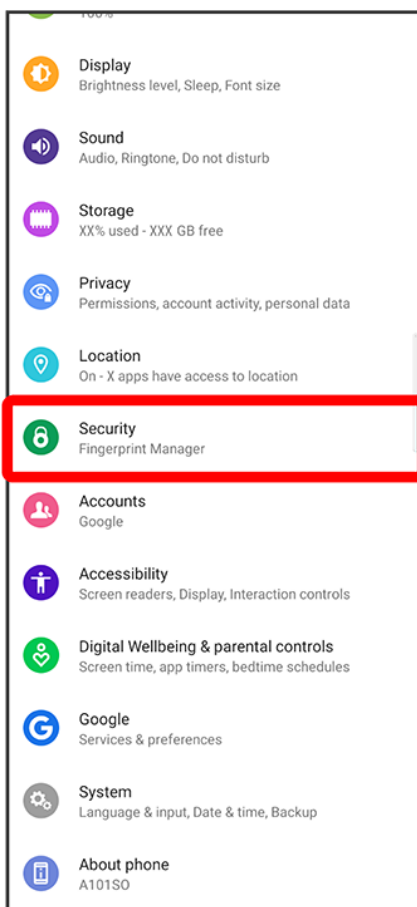

2

SIM card lock➡ Lock SIM card➡ Enter PIN➡ OK (🔵)
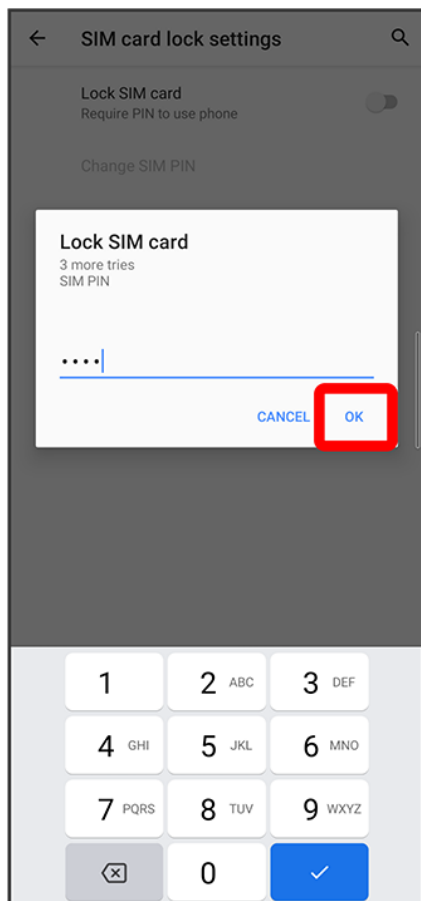

🏁 PIN is enabled.

> ### ⚠️ PIN Cautions
> Entering incorrect PIN three consecutive times activates PIN Lock. To cancel, Personal Unblocking Key (PUK) is required; contact Customer Service. Entering incorrect PUK ten consecutive times locks SIM Card, disabling handset. For recovery, SIM Card must be reissued at a SoftBank Shop (fees apply).

Changing SIM PIN

First enable SIM PIN to change PIN.

1️⃣

In Home Screen, ⚙ (Settings)➡ Security
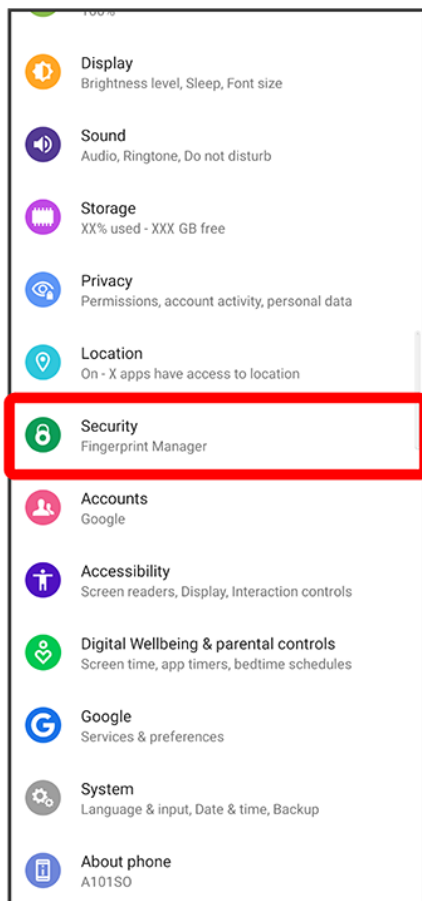

![2]

SIM card lock➡️ Change SIM PIN➡️ Enter current PIN➡️ OK➡️ Enter new PIN➡️ OK➡️

Re-enter new PIN➡️ OK
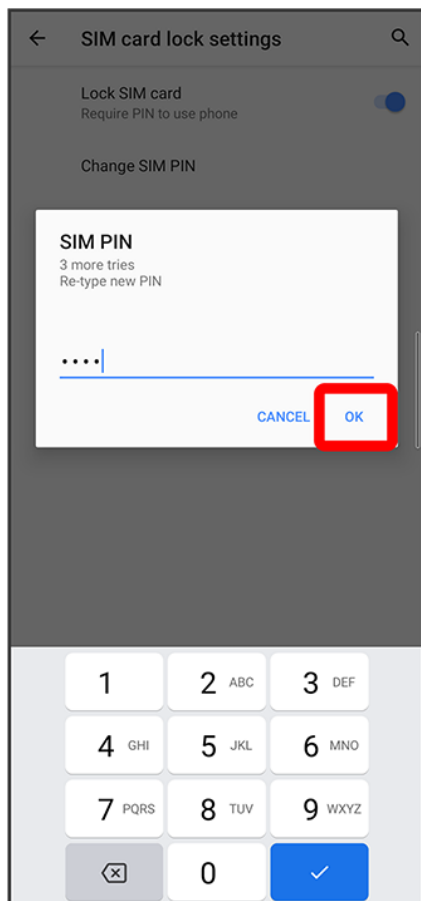

🏁 PIN is changed.

System Settings

Check and make settings for languages & input, gestures, date & time, backup, reset, system update, etc.

Setting Keyboard/Voice Input

In Home Screen, ⚙ (Settings)➡ System➡ Languages & input➡ On-screen keyboard➡ Tap keyboard/voice input method➡ Tap item➡ Follow onscreen instructions

System Settings

Settings can be made for the following items.

Item	Description
Languages & input	Make settings for handset language and text entry.
Gestures	Make handset operation settings, such as Side sense and System navigation.
Date & time	Make settings for date and time.
Backup	Make settings for data backup functions.
Reset options[1]	Reset settings and initialize data.
System update[1]	Check for updates. For details, see "Updating Software."
Application update[1]	Make settings for updating applications, automatic updates, etc.

1 Appears after Tapping "Advanced."

Other Settings

Network & Internet Settings

Make network and Internet settings for Wi-Fi, mobile networks, etc. Settings can be made for the following items.

Item	Description
Wi-Fi	Make Wi-Fi connection settings. For details, see "Connecting by Wi-Fi."
Mobile network	Make mobile network settings. For details on automatically selecting a network or roaming, see "Global Roaming."
Internet settings	Download settings for internet and MMS.
Airplane mode	Disable all functions that emit signals. Handset stays powered on.
Hotspot & tethering	Use handset as Wi-Fi router to access Internet from a PC, game console, etc.
Data Saver[1]	Stop background data communication for some applications.
VPN[1]	Add a VPN.
Private DNS[1]	Make private DNS settings.

Smart connectivity[1]	Enable automatic connection to the optimal network when both Wi-Fi and mobile networks are available.

1 Appears after Tapping "Advanced."

Device Connection Settings

Make connection settings to other devices, such as Bluetooth connection and NFC/Osaifu-Keitai® settings. For details on Bluetooth connection, see "Enabling Bluetooth Function." Settings can be made for the following items.

Item	Description
Connected device display[1]	Any devices connected by Bluetooth and USB appear. Tap to make Bluetooth device settings and USB connection settings.
Pair new device	Search for and pair nearby Bluetooth devices.
PREVIOUSLY CONNECTED DEVICES	Paired devices appear. Tap See all for all paired Bluetooth devices.
Connection preferences	・Bluetooth Make Bluetooth connection settings. ・Files received via Bluetooth View history of files received by Bluetooth connection. ・Chromebook Make Chromebook settings. ・Nearby Share Share files with nearby devices. ・Android Auto Connect to a vehicle display that supports Android Auto to use Google Maps, voice operation, etc. ・Cast View handset screen on Google Cast™-capable device. ・Screen mirroring View handset screen on Screen mirroring-capable device. ・NFC/Osaifu-Keitai Make settings for NFC/Osaifu-Keitai®. ・USB Connectivity Enable software install wizard to appear when connected to a computer. ・External monitor Connect to a camera such as the Sony α (alpha) or an external device such as a computer and use handset as a monitor. After

	setting this option on, 📷 (External monitor) appears in app list. ・DUALSHOCK™ 4 Set handset to be controllable by wireless controller (DUALSHOCK™ 4). ・Printing Set printing from handset to be possible with a printer.

1   Shown screen depends on connected device.

Appearance Settings

Set wallpaper, ambient display, clock design, etc. Settings can be made for the following items.

Item	Description
Wallpaper	Set wallpaper.
Ambient display (Always-on display)	Make ambient display settings to allow checking of time, notifications, details of playing music, etc. while screen locked.
Clocks	Change type of clock in Lock Screen.
Multitasking usage guides	Check useful functions such as Side Sense, multi-window, and pop-up window.

Apps & notifications Settings

Make application and notification settings. Settings can be made for the following items.

Item	Description
Recently opened apps	Recently opened applications appear.
SEE ALL XX APPS	Check and make settings for installed applications.
Conversations	Appears for notifications from applications supporting talk functions, and when set to be shown in talk section. Check priority and make notification settings.
Configure notifications	Make notification settings.
Screen time	Check Screen time, Notifications received, and Times opened for handset and each application.
Default apps[1]	Set applications that launch as standard applications.
Permission manager[1]	Check/change application permissions. For details, see "Setting Required Permissions for Applications."
Wireless emergency alerts[1]	Make settings for emergency alerts.
Special app access[1]	Make settings for special application access.

1 Appears after Tapping "Advanced."

Storage Settings

Check internal and SD Card storage, mount SD Card, and delete SD Card data. Settings can be made for the following items.

Item	Description
DEVICE STORAGE	Check used space/total space on handset.
Internal shared storage	Check used space/total space in internal storage.
PORTABLE STORAGE	Check used space/total space on SD Card/USB storage.

Privacy Settings

Make privacy settings such as application permissions and showing passwords. Settings can be made for the following items.

Item	Description
Permission manager	Check/change application permissions. For details, see "Setting Required Permissions for Applications."
Show passwords	Enable entered characters to be visible briefly before changing to "●" in text entry window for SIM PIN / screen lock PIN / password.
Show notifications	Make settings for showing notification details.
Autofill service from Google	Set information saved to your Google account, such as passwords, to be entered by Tapping only once.
Google location history[1]	Enable handset to save locations of visited places.
Activity controls[1]	Select activities and information that are savable to Google.
Ads[1]	Make settings for advertisements that appear.
Usage & diagnostics[1]	Enable diagnostic data as well as data on handset and application usage to be sent to Google for Android improvement purposes.

1 Appears after Tapping "Advanced."

Location Settings

Make Location settings. Settings can be made for the following items.

Item	Description
Use location	Enable use of wireless networks and GPS so as to obtain information on current location.

RECENT LOCATION REQUESTS	Show applications recently using location. Tap See all to show all applications recently using location.
App access to location	Permit use of location information per individual application.
Wi-Fi and Bluetooth scanning	Permit Wi-Fi and Bluetooth scanning for improvement of functions and services that use location information.
Emergency Location Service[1]	Enable use of emergency location information.
Google Location Accuracy[1]	Enable improved accuracy of location information, using Wi-Fi, mobile networks, and sensors.
Google Location History[1]	Enable handset to save locations of visited places.
Google Location Sharing[1]	Share current location with other users.

1　Appears after Tapping "Advanced."

Accounts Settings

Create accounts as well as add, sync, etc. Settings can be made for the following items.

Item	Description
ACCOUNTS FOR OWNER	Added account appears on handset.
Add account	Create and add accounts.
Automatically sync app data	Enable automatic updating of data for applications.

Accessibility Settings

Set captions, magnification gestures, and other useful accessibility functions. Settings can be made for the following items.

Item	Description
Smart Security	Enable use of Smart Security.
詐欺ウォール (SagiWall)	Enable Internet SagiWall.
Select to Speak[1]	Enable Tapped items on Display to be read out.
TalkBack[1]	Set TalkBack to read out screen information.
Text-to-speech output	Set engine for text readout, as well as change readout speed and play sample.
Font size	Set the size of text appearing in Display.
Display size	Set the size of images and icons, etc. appearing in Display.
Dark theme	Enable a dark theme.
Magnification	Set screen to be enlargeable.

Color correction	Compensate colors when red and green are hard to distinguish.
Color inversion	Enable inverted screen colors.
Large mouse pointer	Enable a large pointer when using a mouse.
Remove animations	Remove animation effect when Tapping on ( )/off ( ) icon and when screen changes.
Accessibility Menu	Enable use of large menu by Tapping 🧍 in Navigation Bar.
Switch Access	Enable handset functions to be assigned to keys.
Click after mouse pointer stops moving	Set handset to click screen where pointer stops moving when using a mouse.
Power button ends call[2]	Enable end of call by Pressing Power Key during call.
Auto-rotate screen	Enable Display to rotate with handset orientation automatically.
Touch & hold delay	Set detection time for Touch & Hold on Display.
Time to take action (Accessibility timeout)	Set how long messages appear that appear only briefly.
Vibration & haptic strength	Set handset to vibrate for ringtone, notifications, and tap operation.
System navigation	Make settings for using gesture action or an icon at Display bottom to move to Home Screen, switch between applications, and go back.
Mono audio	Enable monaural audio playback.
Audio balance	Set audio left-right balance.
Hearing aids	Pair handset with a Bluetooth-capable hearing aid.
Caption preferences	Enable captions, as well as caption language, size, etc.
High contrast text[3]	Make text easier to see by adding outline, etc.
Shortcut from lock screen[4]	Enable user accessibility functions to activate by Pressing Volume Up and Down at the same time in Lock Screen.

1   Readout is in "Language" set in "Text-to-speech output."

2   When enabled and Display has gone out during a call, first Press Power Key to turn Display on, then Press Power Key to end call.

3   Experimental feature; may not work optimally.

4   Appears after Tapping "Advanced."

Digital Wellbeing & parental controls Settings

Manage time that handset is used, set parental limitations on use, etc. Settings can be made for the following items.

Item	Description
Dashboard[1]	Check Screen time, Notifications received, and Times opened for handset and each application.

Bedtime mode[1]	Change Display to monochrome or enable Do Not Disturb at preset time.
Focus mode[1]	Pause applications that might be a distraction.
Manage notifications[1]	Set notifications on/off for apps that have recently sent notifications.
Do Not Disturb[1]	Enable/disable Do Not Disturb. Also make Do Not Disturb settings.
Show icon in the app list[1]	Enable ⊕ (Digital Wellbeing) to be shown in app list.
Set up parental controls	Use family link for parents and remotely manage handset and limit handset use time.

1 When setting for the first time, Tap "Show your data" first.

Google Settings

Make settings for Google services. Settings can be made for the following items.

Item	Description
Manage your Google Account	Make Google account settings.
Account services	Make service settings for your Google account.
Ads	Make settings for advertisements that appear.
Autofill	Set auto-filling of forms and confirmation codes.
Backup	Make backup settings.
Chromebook	Connect handset to Chromebook.
Data & messaging	・Data management Make file update settings for applications compatible with Google Drive. ・Device phone number Make settings for use of phone number set to be recognized by Google.
Device connections	・Cast media controls Enable control directly from Cast media control notifications when playing media on TV or speaker with Chromecast on same Wi-Fi network. ・Devices Make notification settings for a device near handset. ・Nearby Share Share files with nearby devices.
On-device sharing	Let Google applications use on-device data shared by these applications.

Parental Controls	Use family link for parents and remotely manage handset and limit handset use time.
Security	Make security settings in case of handset loss.
Set up & restore	・Restore contacts Restore backed up contacts. ・Set up nearby device Make settings for a device near handset. ・Set up your work profile Make work profile settings.

About phone Settings

Check device name and own phone number, save emergency information, etc.

Items that can be checked/set are the following.

Item	Description
Device name	Check/change handset name.
Phone number	Check own phone number.
Emergency information	Set information on any medical treatment and emergency contact information.
Legal information	Show legal information.
Certificates	Check credentials.
Detailed Diagnostics	Enable detailed handset diagnostic data to be sent for improving Xperia™ quality.
SIM status	Check SIM information.
Model	Check handset's model name, serial number, and hardware version.
IMEI	Check IMEI.
Android version	Check the Android version.
Battery life	Check Battery performance.
IP address	Check IP address.
Wi-Fi MAC address	Select and check saved networks.
Device Wi-Fi MAC address	Check Wi-Fi MAC address.
Bluetooth address	Check Bluetooth address.
Up time	Check up time.
Build number	Check build number.

Global Roaming

Handset is Global Roaming Service eligible. Use the same handset number outside Japan.

Handset connects to an appropriate cellular provider automatically by default. A specific carrier can also be selected manually.

Change communications method and roaming settings as needed.

⬇ Setting the Carrier

⬇ Changing Roaming Setting

Setting the Carrier

1

In Home Screen, ⚙ (Settings)➡ Network & internet
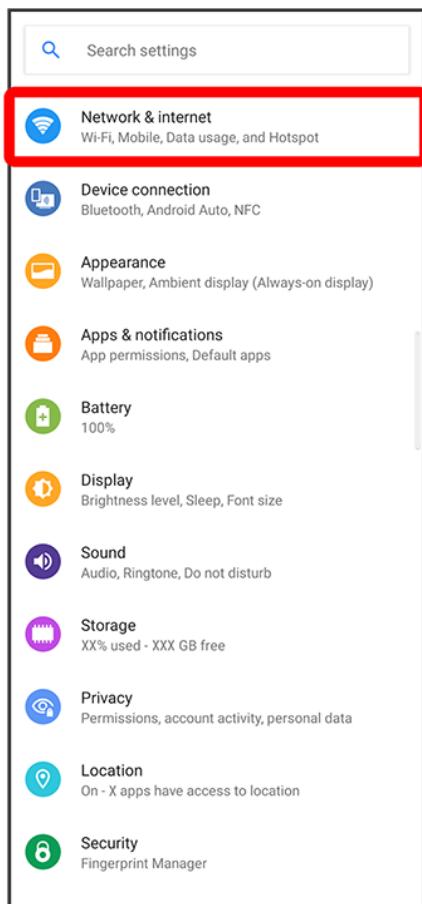

2

Mobile network ➔ Advanced
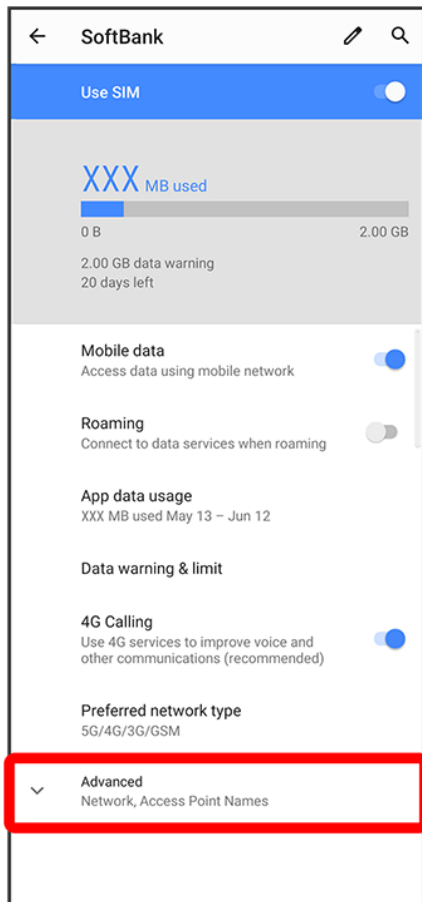

3

<mark>Automatically select network</mark> (⬭)
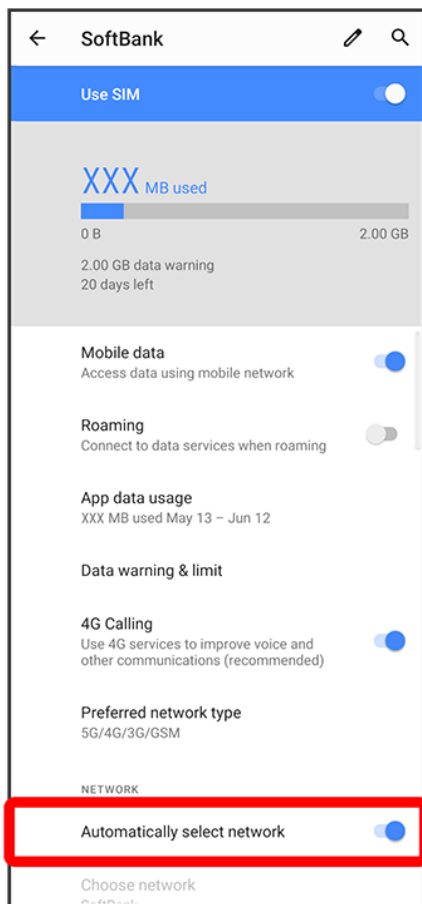

- Disable ( ) to search for available networks.

Tap network to connect to
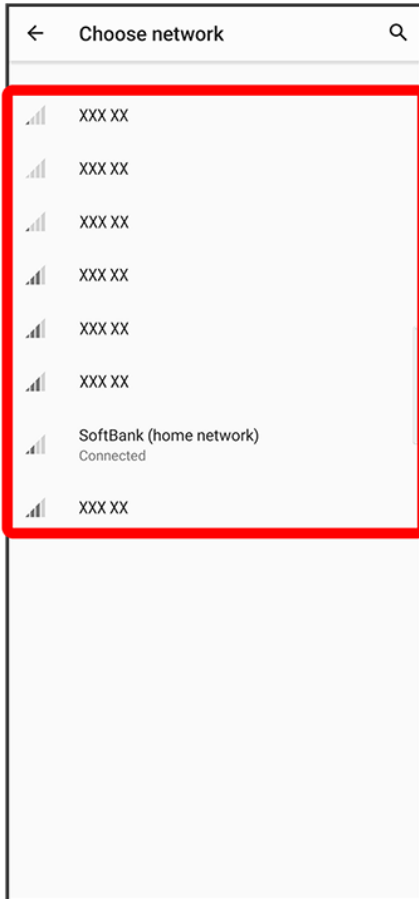

🏁 The selected carrier is set.

Changing Roaming Setting

In Home Screen, ⚙ (Settings)➔ Network & internet

2
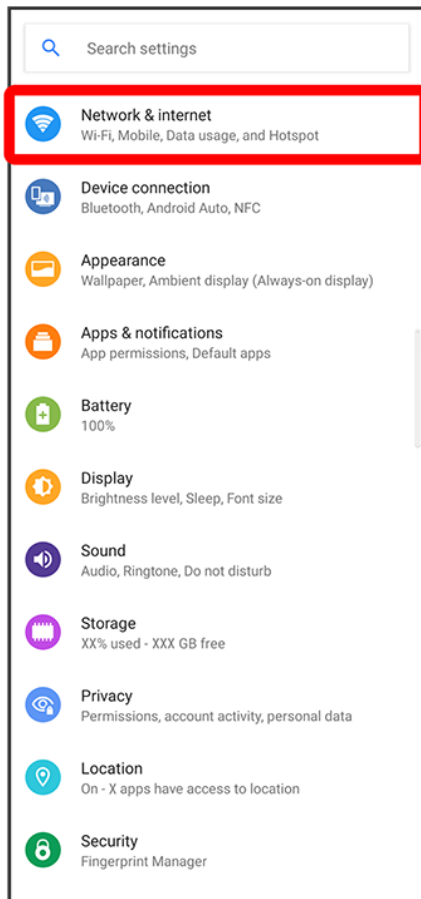

Mobile network
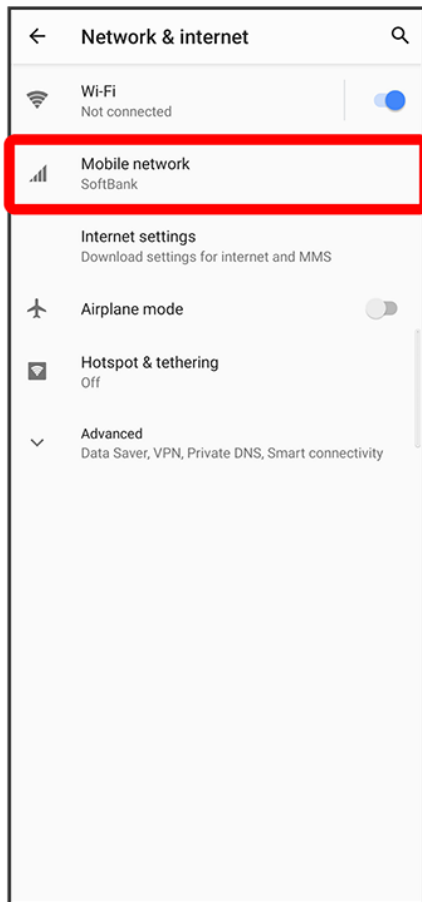

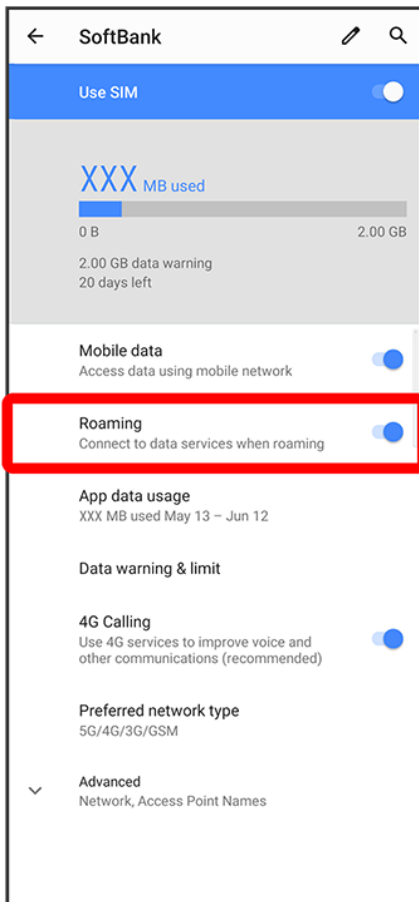

Roaming ( )

🏁 Roaming setting is changed.

- Tap Roaming to toggle on (🔵)/off (⚪).
- If confirmation appears, follow onscreen instructions.

Making Calls while Abroad

📞
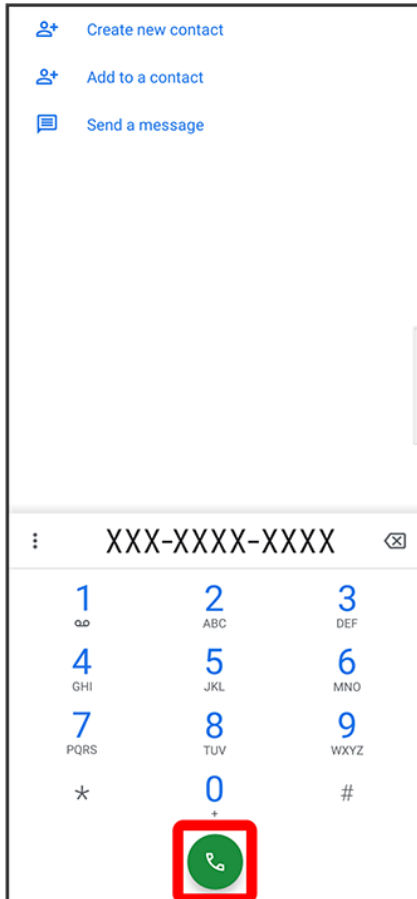

🏁 Handset dials number. Call begins when other party answers.

Warranty & After-Sales Service

⬇ Warranty

⬇ After-Sales Service

Warranty

- The warranty period is 1 year from the date of newly purchase.
- Repairs will be done based on terms of free repair service. Terms of free repair service is referred to SoftBank website.
  https://cdn.softbank.jp/mobile/set/common/pdf/legal/spguide/common/warranty.pdf (Japanese)
- Warranty covers only handset. Accessories such as cables are not covered by terms of free repair service.

⚠ Cautions

Damages
SoftBank Corp. is not responsible for any damages for user or third party resulting from lost opportunities to make a call, etc. due to breakage, malfunction, or trouble of product.

Accidents/Repair
Files and settings may be lost or altered due to accidents or repairs. Keep a copy of important files, etc. SoftBank Corp. is not liable for damages resulting from loss or alteration of files (contacts/images/sound etc.) or settings due to accident or repair.

Disassembly/Modification
Disassembly/modification of handset is prohibited under the Radio Law. Note that handset cannot be accepted for repairs if modified.

After-Sales Service

To request repairs, contact Customer Service or a nearby SoftBank Shop. Have details of symptoms ready.
- During the warranty period, repairs are made under the terms of free repair service.
- After the warranty period, if handset can be repaired, repairs will be made at cost. The functional parts necessary to repair the handset will be available for 3 years generally after the manufacture

Warranty／Specifications／Customer Service

is discontinued. Repair may not be possible because of a shortage of repair parts even during the warranty period.

💡 Further inquiries

For more information on after-sales service, contact a nearby SoftBank Shop or Customer Service.

Specifications

Handset

Item	Description
Dimensions (W x H x D)	Approx. 71 × 165 × 8.2 mm
Weight	Approx. 188 g
Continuous Talk Time[1]	4G (LTE): Approx. 1,900 minutes
Continuous Standby Time[1]	4G (FDD-LTE): Approx. 550 hours
Charging Time	Approx. 130 minutes AC Charger (USB Type-C™ rapid charging AC Charger with USB PD capability [ZSDBAS] (SB-AC20-TCPD))[2]

1   May become shorter depending on battery charge, surrounding conditions such as temperature, signal conditions where used, and function settings.

2   For details on compatible chargers, see SoftBank Website.

Safety Precautions

Read safety precautions before using handset.

Observe precautions to avoid injury to self or others, or damage to property.

Safety Precautions

These labels indicate the degree of risk from improper use. Make sure you thoroughly understand their meanings before reading on.

Mark	Descriptions
⚠ **DANGER**	Great risk of death or serious injury[1] from improper use
⚠ **WARNING**	Risk of death or serious injury[1] from improper use
⚠ **CAUTION**	Risk of minor injury[2] or damage to property[3] from improper use

1   Serious injury includes: Loss of eyesight, physical injury, high temperature burns, low temperature burns, electric shock, fractures, poisoning and other conditions having side effects or requiring hospitalization or long term treatment.

2   Minor injury includes: Physical burns (high-temperature and low-temperature), electric shock, and other conditions not requiring hospitalization or long-term treatment.

3   Damage to property includes: Incidental damage to structures and household property and/or to

pets and livestock.

These symbols indicate prohibited or compulsory actions. Make sure you thoroughly understand their meanings before reading on.

Mark	Descriptions
Prohibited	Prohibited actions
Do Not Disassemble	Disassembly prohibited
Avoid Liquids Or Moisture	Exposure to liquids prohibited
Do Not Use Wet Hands	Use with wet hands prohibited
Compulsory	Compulsory actions
Disconnect Power Source	Unplug AC Charger from outlet

Handset, AC Charger (Optional Accessory), Wireless Charger (Commercially Available) (Common)

⚠ DANGER

Prohibited

Do not use, store, leave in a high temperature or heat accumulating place (e.g. near fire or heater appliances, under kotatsu or bedding, in direct sunlight, inside a sun-heated car, etc.)
May cause fire, burns, injury, electric shock, etc.

Prohibited

Do not put in or place nearby cooking appliances such as a microwave oven, or IH cooking heater, or high-pressure container such as pressure cooker.
May cause fire, burns, injury, electric shock, etc.

Prohibited

Do not allow sand, soil, or mud to contact, or do not place directly on sand, soil, or mud. Do not touch with soiled hands.

May cause fire, burns, injury, electric shock, etc.

For water resistance/dustproofing, see "Water Resistance/Dustproofing."

Prohibited

Do not charge when handset or related accessory is wet with liquids such as water (drinking water, sweat, sea water, urine of pets, etc.) Do not charge where handset can come in contact with water.

May cause fire, burns, injury, electric shock, etc.

For water resistance, see "Water Resistance/Dustproofing."

Prohibited

Do not subject handset to excessive force or break it. Especially when carrying it in your pocket, do not hit it or press it between other objects.

Internal Battery breakage may cause fire, burns, injury, etc.

* Take additional care in instances such as the following:

・Sitting or squatting with the product in your pants or skirt pocket

・The product becoming caught in a sliding door or vehicle door when in a jacket pocket

・Stepping on the product when it is on something soft such as a sofa, bed, or futon or on the floor

・Getting the product caught in the seat on a train or bus

Do Not Disassemble

Do not disassemble, modify, or solder.

May cause fire, burns, injury, electric shock, etc.

Prohibited

Do not try to remove Internal Battery.

May cause fire, burns, injury, etc.

Prohibited

Back Cover on handset is not removable. Do not try to remove.

May cause fire, burns, injury, etc.

Avoid Liquids Or Moisture

Do not allow handset or related accessory to get wet with liquids such as water (drinking water, sweat, sea water, urine of pets, etc.)

May cause fire, burns, injury, electric shock, etc.

For water resistance, see "Water Resistance/Dustproofing."

Avoid Liquids Or Moisture

Do not allow liquids such as water (drinking water, seat, seawater, urine of pets) to come into Charging Terminals or USB Type-C Port/Headphone Port.

May cause fire, burns, injury, electric shock, etc.

For water resistance, see "Water Resistance/Dustproofing."

Compulsory

Use optional accessories specified by SoftBank.

Using unspecified accessories may cause fire, burns, injury, electric shock, etc.

⚠ WARNING

Prohibited

Do not drop, stomp, throw, or otherwise subject to strong force, impact, or vibration.

May cause fire, burns, injury, electric shock, etc.

Prohibited

Do not allow Charging Terminals or USB Type-C Port/Headphone Port to contact conductive materials (metal parts, pencil leads, etc.), or do not allow dust to enter inside.

May cause fire, burns, injury, electric shock, etc.

Prohibited

Do not cover or wrap with bedding or other cloths while using or charging.

May cause fire, burns, etc.

Prohibited

Do not adhere anything metal (stickers containing metal material, etc.) to a wireless charger (commercially available) or handset.

May cause fire, burns, injury, etc.

Safety Precautions

⊘
Prohibited

Do not place anything metal (straps or clips containing metal material, etc.) between a wireless charger (commercially available) and handset.
May cause fire, burns, injury, etc.

❗
Compulsory

Remove any covers from handset before charging with a wireless charger (commercially available).
Cover material/thickness or any dirt lodged between handset and the cover may prevent handset from charging properly, and may result in fire, burns, injury, etc.

❗
Compulsory

Power off handset near electronic devices or equipment operating on high precision control or weak signals.
Handset radio waves may cause electronic malfunctions, etc.
* Take additional care near these devices:
Hearing aids, implanted cardiac pacemakers, implanted cardioverter defibrillators, other electronic medical equipment, and other automatically controlled devices or equipment. For users of implanted cardiac pacemakers, implanted cardioverter defibrillators, other electric medical equipment, check with the equipment vendor or distributor for information about the effects of radio waves.

❗
Compulsory

Stop charging if not complete when the prescribed charging time has passed.
Overcharge may occur resulting in fire, burns, injury, etc.

❗
Compulsory

Always turn off handset before entering a place where flammable gas may be present, or a place where dusts are generated. Stop charging handset if charging it.
Ignition of flammable gas may cause explosion, fire, etc.

❗
Compulsory

Follow the instructions of a gas station or other such location before using handset there. Do not charge handset at a gas station, etc.
Take care not to drop handset at a gas station, etc.; in particular, do not use handset while filling.

Ignition of flammable gas may cause explosion, fire, etc.

Compulsory

Take the following actions, exercising caution, in case of abnormal smell, noise, smoke, heat generation, discoloring or deformation while using, charging, or storing.
-Disconnect the power plug from an outlet
-Power off handset
Continued use may cause fire, burns, injury, electric shock, etc.

⚠ CAUTION

Prohibited

Do not use damaged handsets or related accessories.
May cause fire, burns, injury, etc.

Prohibited

Do not place handset on unstable/uneven surfaces. Be extra careful while the vibrator is set.
Handset may drop and cause injury.

Prohibited

Do not use or store handset and related accessories in humid, dusty, or high-temperature places.
May cause fire, burns, electric shock, etc.
For water resistance, see "Water Resistance/Dustproofing."

Prohibited

Do not allow children to use handset or related accessories in the wrong way. Guardians should supervise use by children.
May cause accidental swallowing, injury, electric shock, etc.

Prohibited

Do not place handset and related accessories within an infant's reach.
In particular, be careful where small parts are stored, such as SIM Card/SD Card Tray.
May cause accidental swallowing, injury, electric shock, etc.

Compulsory

Handset temperature may become high when used continuously or while charging. Avoid continued contact with handset for a long time involuntarily such as by placing handset in clothes pocket, falling asleep, etc.

While using apps, calling, transmitting data, watching TV or videos, or charging Internal Battery, the temperature of handset or AC Charger (optional accessory) may become high. Continued contact with a high-temperature area may cause redness, itching, rash of skin, or low-temperature burns depending on the user's physical condition.

Handset

⚠ DANGER

Prohibited

Do not throw handset into a fire or apply heat.

May cause fire, burns, injury, etc.

Prohibited

Do not penetrate with a sharp object (nail), hit with a hard objects (hammer), stomp, or otherwise subject handset to strong force.

May cause fire, burns, injury, etc.

Compulsory

If the internal substance of handset gets into your eyes, mouth, etc., immediately rinse with clean water and consult a doctor.

May cause loss of sight, medical problem, etc.

⚠ WARNING

Prohibited

Do not light up or flash the light with the light-emitting part close to other people's eyes. Keep away from infants.

May harm eyesight. Flash may impair vision or frighten others causing accidents such as injury.

⊘ Prohibited

Do not light up or flash the light toward a driver of a car.

May hinder driving and cause accidents, etc.

⊘ Prohibited

Do not look at a repeatedly blinking screen for a long time.

May cause twitches, loss of consciousness, etc.

⊘ Prohibited

Do not put liquid such as water (drinking water, sweat, sea water, urine of pets, etc.), metal, or flammable object into SIM Card/SD Card Slot.
Do not insert SIM Card or SD Card in the wrong position or orientation.

May cause fire, burns, injury, electric shock, etc.

⊘ Prohibited

Do not expose the camera lens to direct sunlight, etc. for a long time.

May cause fire, burns, injury, etc. due to light-condensing of lens.

⊘ Prohibited

Do not look into laser AF sensor.

May affect eyesight or lead to an accident.

❗ Compulsory

Power off handset or set to Airplane mode before boarding an aircraft.

Use of handset on board an airline is restricted. Follow the airline's instructions.

Handset radio waves may affect electronic devices of the aircraft.

Prohibited use aboard an aircraft may be subject to penalty by law.

❗ Compulsory

For use in hospitals, follow the medical facility's instructions.

Power off handset in a place where its use is prohibited.

Handset radio waves may affect electronic devices or other electronic medical equipment.

❗ Compulsory

Always keep handset away from your ear when calling hands free, ringing loudly for incoming

Safety Precautions

calls, or during standby.

Adjust the sound volume adequately when playing games or playing back videos or music with an earphone/microphone, etc. connected to handset.

Handset sound is loud when calling hands free.

Even in standby, the ringtone or alarm may ring suddenly.

Listening to loud sound continuously for a long time may cause hearing impairment or other difficulty.

Too loud volume may cause inability to hear ambient sound and may also cause an accident.

Compulsory

Users with heart conditions should adjust vibration and ringtone volume as needed.

Handset suddenly vibrating and ringing for a new call may startle and affect persons with heart conditions.

Compulsory

When using electric medical equipment, etc., check with the equipment vendor or distributor for information about the effects of radio waves.

Handset radio waves may affect electronic medical equipment.

Compulsory

If Display, Back Cover, or Camera lens is broken, do not touch the broken components or exposed inside of handset.

Touching the broken or exposed part may cause burns, injury, electric shock, etc.

Compulsory

If Internal Battery leaks or has an unusual smell, immediately stop using, and keep away from fire.

The leaked fluid may catch on fire causing ignition, explosion, etc.

Compulsory

Do not allow a pet, etc. to bite handset.

Internal Battery may ignite, explode, overheat, or leak causing fire, burns, injury, etc.

⚠ CAUTION

Prohibited

When using the motion sensor, ensure the safety of the surroundings and hold handset firmly,

not swinging around more than necessary.

Failure to do so may cause accidents such as injury.

Prohibited

If Display is broken, do not allow the leaked internal substance to contact the skin of your face or hands, or clothes.

May cause injury to eyes, skin, etc.

If the internal substance gets into your eyes, mouth, etc., or contacts your skin or clothes, immediately rinse with clean water.

Also, in case it gets into your eyes, mouth, etc., immediately consult a doctor after rinsing.

Prohibited

Do not dispose handset together with ordinary trash.

May cause fire, burns, injury, etc. Also, may cause environmental destruction. Bring unnecessary handset into a sales outlet such as a SoftBank Shop or follow the municipality instructions for recycling.

Prohibited

If the internal fluid is leaked from Internal Battery, do not allow it to contact the skin of your face or hands, or clothes.

May cause injury to eyes, skin, etc.

If the internal substance gets into your eyes, mouth, etc., or contacts your skin or clothes, immediately rinse with clean water.

Also, in case it gets into your eyes, mouth, etc., immediately consult a doctor after rinsing.

Compulsory

Before using handset in a car, check with the car manufacturer or dealer for information about the effects of radio waves.

Handset radio waves may affect the vehicle's electronic equipment in some car models. In that case, stop using handset immediately.

Compulsory

If skin abnormalities develop during use, immediately stop using handset and consult a doctor.

Continuing its use may cause itching, rashes, eczema, or other symptoms depending on the user's physical condition.

For the material of each parts, see "Material List."

(!) Compulsory

Make sure that metallic pieces (cutter blade, staples, etc.) are not adhered to Earpiece/Speaker (middle top), Speaker (rear bottom left), vibrator area (bottom right, back) since magnetic parts are included.

Adhered objects may cause injury, etc.

(!) Compulsory

Do not leave handset in reach of children or persons requiring supervision.

Handset uses magnets. If swallowed, there is a risk of choking or serious harm to internal organs. If the magnet has been swallowed, immediately consult a doctor.

(!) Compulsory

Do not bring handset near medical devices.

Handset uses magnets; they may affect pacemakers, variable-pressure hydrocephalus shunts, and other medical devices. Do not bring handset near persons using these devices. If you use such a device, consult your doctor before using the product.

(!) Compulsory

Watch Display in a well-lit place with enough distance kept.

Watching in a dark place or getting too close to Display may reduce visual acuity, etc.

AC Charger (Optional Accessory), Wireless Charger (Commercially Available)

⚠ WARNING

⊘ Prohibited

Do not use AC Charger (optional accessory) or wireless charger (commercially available) if the cord is damaged.

May cause fire, burns, electric shock, etc.

⊘ Prohibited

If thunder is audible, do not touch AC Charger (optional accessory) or wireless charger (commercially available).

May cause electric shock, etc.

🚫
Prohibited

Do not short circuit Charging Terminals when it is connected to a power outlet. Also, do not allow body parts such as your hands or fingers to contact Charging Terminals.

May cause fire, burns, electric shock, etc.

🚫
Prohibited

Do not put heavy objects on the cord of AC Charger (optional accessory) or wireless charger (commercially available) or pull it strongly.

May cause fire, burns, electric shock, etc.

🚫
Prohibited

When plugging or unplugging AC Charger (optional accessory) to or from a power outlet, do not allow metals to come in contact.

May cause fire, burns, electric shock, etc.

🚫
Prohibited

Do not use a voltage converter (such as a travel converter for overseas use) when charging with AC Charger (optional accessory).

May ignite, overheat, cause electric shock, etc.

🚫
Prohibited

Do not apply unnecessary force to the connection part when handset and AC Charger (optional accessory) are connected.

May cause fire, burns, injury, electric shock, etc.

🚫
Prohibited

Do not charge anything that is wet with liquids such as water (drinking water, sweat, sea water, urine of pets, etc.) using a wireless charger (commercially available).

May cause fire, burns, injury, electric shock, etc.

🚫
Do Not Use
Wet Hands

Do not touch the cord of AC Charger (optional accessory), charging terminals, power plug, or

wireless charger (commercially available) with wet hands.

May cause fire, burns, electric shock, etc.

Compulsory

Use with specified power supply and voltage.
Also, use AC Charger for global use (optional accessory) when charging overseas.

Using the incorrect power supply and voltage may cause fire, burns, electric shock, etc.

AC Charger:100V AC (Household AC power outlet only)

AC Charger for global use:100V to 240V AC (Household AC power outlet only)

Compulsory

Wipe off dust on the power plug.

Using with dust adhered may cause fire, burns, electric shock, etc.

Compulsory

Firmly insert the power plug of AC Charger (optional accessory) to an outlet.

Failure to do so may cause fire, burns, electric shock, etc.

Compulsory

When unplugging from an outlet, grasp AC Charger (optional accessory) main unit without applying force such as pulling the cord.

The cord of AC Charger may be damaged if it is pulled out and it may cause fire, burns, electric shock, etc.

Compulsory

Persons with an implanted pacemaker, defibrillator, or other electronic medical equipment should consult carefully with a doctor before using a wireless charger (commercially available).

Handset radio waves may affect electronic medical equipment.

Compulsory

Insert or remove the connector of AC Charger (optional accessory) straight against the port without applying force such as pulling the cord.

Incorrect insertion or removal may cause fire, burns, injury, electric shock, etc.

Compulsory

13/38
Safety Precautions

Stop using handset immediately if Charging Terminals are deformed or bent.

Or, do not use AC Charger even with the deformation fixed.

Charging Terminals may short-circuit causing fire, burns, injury, electric shock, etc.

Disconnect
Power Source

Unplug power plug of AC Charger when not using it.

Keeping the power plug connected may cause fire, burns, electric shock, etc.

Disconnect
Power Source

If liquid such as water (drinking water, sweat, seawater, urine of pets, etc.) gets on equipment, immediately disconnect the power plug from an outlet.

Liquid on equipment may result in short-circuit causing fire, burns, electric shock, etc.

Disconnect
Power Source

When cleaning, disconnect the power plug from an outlet.

Failure to do so may cause fire, burns, electric shock, etc.

⚠ CAUTION

Prohibited

Do not touch AC Charger (optional accessory) that is connected to an outlet continuously.

May cause burns, etc.

SIM Card

⚠ CAUTION

Compulsory

When handling SIM Cards, be careful of the cut surface so as not to hurt your body parts such as fingers.

Cut surface may be sharp and may cause injury, etc.

Handset Use & Electronic Medical Equipment

⚠ WARNING

❗ Compulsory

Persons with an implanted pacemaker or defibrillator should keep handset at least 15 cm away from the device.

Handset radio waves may affect implanted pacemakers or defibrillators.

❗ Compulsory

When using electronic medical equipment (other than implanted cardiac pacemakers/defibrillators) outside medical facilities, check with the equipment vendor or distributor for information about the effects of radio waves.

Handset radio waves may affect electronic medical equipment.

❗ Compulsory

Disable handset transmissions (e.g. airplane mode) or power off handset when it is difficult to keep a distance of at least 15 cm away from others such as in a crowd.

There may be someone who is wearing an implanted pacemaker or defibrillator.

Handset radio waves may interfere with implanted pacemakers or defibrillators causing such devices to malfunction.

❗ Compulsory

Observe each medical facility's instruction when using handset.

Handset radio waves may affect electronic medical equipment.

Material List

■ Xperia 1 III Main Unit

Part	Material/Surface Treatment
Exterior case (top, bottom, side)	Aluminum alloy/Anodized + Coating
Exterior case (Volume/Zoom Up/Down Key, Google Assistant Key, Camera Key, Camera ring (around main camera))	Aluminum alloy/Anodized

Exterior case (SIM Card/SD Card Slot Cover)	PC resin/Coating
Exterior case (antenna slit, USB Type-C Port, Headphone Port)	PBT resin (with glass fiber)/-
Transparent plate (Display, Back Cover)	Strengthened glass/AFP processing
Transparent plate (Camera lens)	Strengthened glass/AFP processing + AR processing
Power Key/Fingerprint Sensor	Epoxy resin/Coating
Earpiece/Speaker (top) mesh	Polyester resin/dyed
Rubber gasket of SIM Card/SD Card Slot Cover	Silicone rubber/-
SIM Card/SD Card Slot Cover inside	PC resin + elastomer resin/-
SIM Card/SD Card Tray	Polyacetal resin/-

Safety Precautions

Important Product Information

Handset, SIM Card, AC Charger (Optional Accessory) (Common)

- Do not get wet. AC Charger (optional accessory) is not water resistant. Avoid using in humid places such as a bathroom and exposing it to rain. Contact to dampness from sweat by wearing on your body may cause corrosion inside resulting in malfunction. If malfunction is determined to be caused by above water exposures, warranty will not apply to repair. In the case that repair is possible, repair charge is incurred.
- External abnormalities such as damage or deformation may degrade the water resistance/dustproof performance.
- Use handset, SIM Card (inserted in handset) within temperatures of 5°C to 35°C and humidity 35% to 85%. Avoid extreme temperatures, humidity, direct sunlight (temporary use at 36°C to 40°C and humidity 86% to 90%).
- Charge Internal Battery within temperatures of 5°C to 35°C.
- Do not use in a dusty place, where there is much vibration, or near landline phone, TV, radio, etc.
- For using power outlet with drop-off prevention structure, see the user's manual.
- Handset exterior case is not removable. Trying to remove case may cause breakage or malfunction.
- Battery is built in and is not removable.
- Internal Battery is a lithium-ion battery.

Li-ion 00

- Lithium-ion batteries are precious, recyclable resources. Do not discard of old handsets, batteries, or chargers with ordinary waste, and instead bring them to the nearest shop with the Mobile Recycle Network mark.
- Storing handset with full-charged or insufficient battery level deteriorates battery performance. It is recommended to store handset with 40% battery level.
- Turning off by pressing Power Key does not shut off handset from power source completely. Unplug AC Charger power plug to completely turn it off. Use AC Charger (optional accessory) near a power outlet for easy unplugging in case that malfunction is detected.
- Display may become dim when handset temperature rises. It is not abnormal.
- Do not subject handset to excessive shock. Do not deform USB Type-C Port/Headphone Port. May cause malfunction.
- Occasionally clean Charging Terminals with a dry, cotton swab etc. Dirt on Charging Terminals may cause power shut-off or insufficient charging. Take care not to damage Charging Terminals when cleaning.
- Clean with a dry, soft cloth. Rubbing hard with a dry cloth etc. may scratch them. Wiping off with wet dustcloth may cause malfunction. Using benzine, thinner, alcohol, detergent, etc. may fade color/print.
- Do not leave Camera in direct sunlight. Concentrated sunlight through Lens may cause handset to malfunction.
- Do not bring magnetic data or magnetic objects close to handset. Magnetic data on cash card, credit card, etc. may be erased or may cause handset malfunction.

Charging

- AC Charger (optional accessory) may become warm while charging. It is not abnormal.
- If charging is started, although handset is unavailable for operation, screen indicating that handset is charging appears. For this reason, do not charge where handset is required to be powered off.
- Check battery level with Status Indicator at the top of screen.
- Operation time of Internal Battery varies by usage environment or the battery condition.
- Internal Battery is consumable item. Operation time per charge decreases by charging repeatedly. When operation time with full-charged is extremely shortened, it is time to replace. Internal Battery is not customer-replaceable. Bring handset to a SoftBank Shop etc. to replace Internal Battery. Fee is incurred for the replacement. Contact a SoftBank Shop or Customer

Service.

- Using application while charging may shorten Internal Battery life.

Display (Touchscreen)

- Handset uses a touchscreen Display. Operate with your fingers on Display.
- Touch with your fingers lightly. Do not press forcibly with fingers or push with a sharp-pointed object (nail, ball-point pen, pins, etc.)
- Touchscreen may not work or malfunction in the following cases:
    - Operation with gloves on
    - Operation with fingernail
    - Foreign object on Display
    - Protection sheet or sticker applied on Display
    - Waterdrop or dew condensation on Display
    - Operation with fingers wet or sweaty
    - Operation under water
- Although Display is made with hardened and shatterproof glass, touching scattered or exposed parts accidentally may cause injuries.
- Handset uses an OEL display; ghost images may appear. The same image on Display for a long time, a higher-than-necessary brightness setting, or extremely long use may cause brightness to partially dim, color to change, or may burn images into Display. Depending on viewing angle, uneven color or brightness or change in colors may be visible. This is normal for OEL displays.

Volume

- Caution: Listening at a loud volume hard on the ears for a long time can affect hearing.

Rising Handset Temperature

The mark below may appear if the surface temperature of handset rises while in use. Avoid continued contact with handset for a long time if the mark appears.
May cause burns, etc.

Earpiece/Speaker

Handset earpiece is also used as a speaker. Loud sound may be heard from the speaker when playing sound, for arriving incoming calls, etc.
Subjecting your ears to loud sound may affect your hearing ability. Use Earpiece/Speaker with care to prevent your ears from being subject to loud sound. For example, remove Earpiece/Speaker from your ears as soon as a call is ended.

Technical Conformity

Handset is certified as wireless equipment for low power electric data communication based on the Radio Law. No license is required for using handset as the wireless radio station. However, disassembling/modifying handset may be subject to penalty by law.

- Disassembling/modifying handset
- Never use modified handset. Using modified handset is a violation of the Radio Law.
  Handset is compliant with the technical standard conformance of specified wireless equipment based on the Radio Law, and as a proof of it, the "Technical Compliance Mark 🏵 " appears on the electronic nameplate of handset.
  Electronic nameplate can be viewed in the following way.
  To view: in Home Screen, 🔅 (Settings) ➲ About phone ➲ Certificates
  The technical standard conformance certification etc. is invalidated by removing the screws and altering the inside of handset. Using handset with invalid technical standard conformance certification etc. is a violation of the Radio Law.
- Do not alter the basic software illegally. May be regarded as software modification and repairs may be refused.

Fingerprint Authentication

- Fingerprint authentication uses the characteristics of your fingerprint. If your fingerprint image has few characteristics, fingerprint authentication may not be available.
- Authentication performance (authenticating fingerprint when using Fingerprint Sensor) depends on usage condition. If your finger is under any of the following conditions, registration of

fingerprint may be difficult or authentication performance may degrade. Washing/wiping hands, using different finger, etc. may improve capability.

- Wrinkled after taking a bath, etc.

- Wet with water, sweat, etc.

- Dried

- Covered with grease (e.g. hand cream)

- Dirty with mud or grease

- Rough or injured (cut, inflammation, etc.)

- Abraded and faded

- The shape of fingerprint has changed due to weight loss or weight gain

- The surface condition of finger is extremely different from when you registered fingerprint

■ Personal authentication and identification are not completely guaranteed by fingerprint authentication technology. Note that SoftBank Corp. is not liable for any damage incurred due to misuse by a third party or due to handset being unable to be used.

⚠ Precautions on Fingerprint Sensor

- Do not hit or apply strong impact. This may cause a malfunction or damage. Also, do not scratch the surface or poke it with a sharp object such as a ballpoint pen or pin tip.
- Do not attach stickers or do not daub with ink, etc.
- If dirt such as dust or sebum is attached to Fingerprint Sensor, reading fingerprints may be difficult or the authentication performance may be degraded. Occasionally clean the surface of Fingerprint Sensor.
- If the time of touching is too short or too long, authentication may fail. Touch the center of Fingerprint Sensor straight with the vortex of your fingerprint.
- Activating Fingerprint Sensor may fail if a finger is placed on it before starting registration or authentication. Release your finger once and try again.

Forcibly Powering Off

If Display stops responding or handset cannot be powered off, Long Press both Power Key and Volume Up Key at the same time for about 8 seconds. After handset vibrates three times in a row, release Keys and handset powers off.

Bluetooth/Wi-Fi (WLAN)

Frequencies

Frequency band used by handset Bluetooth/Wi-Fi (WLAN) functions are as follows:

2.4FH4/XX8/DS4/OF4

2.4:Frequency band is 2400 MHz

FH/XX/DS/OF: Modulations are FH-SS, other modulation, DS-SS, OFDM

4:Estimated range of radio frequency interference is up to 40 m

8:Estimated range of radio frequency interference is up to 80 m

:Utilizes 2,400 MHz to 2,483.5 MHz band without mobile device bandwidth differentiation

- Available channels may vary by country/region.
- For use in an airplane, contact your airline.

Notes on Using Bluetooth Devices

Handset operates on the same frequency band used by home electric appliances such as microwave ovens, industrial, scientific and medical equipment, premises radio stations for identifying mobile units used in the manufacturing lines of plants (radio stations requiring a license),

specified low power radio stations (radio stations requiring no license) and amateur radio stations (hereinafter referred to as "another station.")

- Before using handset Bluetooth function, confirm that premises radio stations, specified low power radios and amateur radios are not in use nearby.
- In the event of handset causing harmful radio wave interference with "another station," promptly change the operating frequency or stop radio wave emission by turning off the power, etc.
- For further questions, contact a SoftBank Shop or Customer Service.

Reception Interference Caused by Wi-Fi (WLAN) Devices

Handset Bluetooth function uses the same frequency band (2.4 GHz) as Wi-Fi (WLAN) devices. Using near Wi-Fi (WLAN) devices may cause radio interference, low-communication speed, noise or connection failure. In that case, take the following measures.

- Provide distance between Bluetooth device and Wi-Fi (WLAN) device. Required distance varies by device.
- If the problem persists, power off Bluetooth device or Wi-Fi (WLAN) device.

Wi-Fi (WLAN)

- Wi-Fi (WLAN) uses radio waves to exchange information and LAN connection is freely established within an area where the radio wave reaches. Meanwhile, if no security is set, Wi-Fi communications may be intercepted or hacked by malicious parties. It is recommended to make necessary security settings on your responsibility.
- Use handset WLAN function only in Japan.
- Do not use Wi-Fi near magnetic devices such as electrical appliances or AV/OA devices. Magnetic/radio waves may hinder or disable communication. Avoid microwave ovens especially. Using near a TV or radio, etc. may cause interference; may affect TV reception. If there are multiple Wi-Fi access points using the same channel, search may fail.
- Enable Wi-Fi to search available Wi-Fi networks and then establish connection.
- Connect to Wi-Fi network before accessing Internet via Wi-Fi (WLAN).
- Take care with radio signal strength for Wi-Fi (WLAN). Radio signal strength for Wi-Fi network differs depending on the access point location. Moving close to a Wi-Fi router may improve radio signal strength.
- To save battery power, disable Wi-Fi (WLAN) when not used.

Notes on Using 2.4 GHz Devices

WLAN devices operate on the same frequency band used by home electric appliances such as microwave ovens, industrial, scientific and medical equipment, premises radio stations for identifying mobile units used in the manufacturing lines of plants (radio stations requiring a license), specified low power radio stations (radio stations requiring no license) and amateur radio stations.

- Before using handset, confirm that premises radio stations, specified low power radios, and amateur radio stations are not in use nearby.
- In the event of handset causing harmful radio wave interference with premises radio stations for identifying mobile units, promptly change the operating frequency or stop radio wave emission by turning off the power, etc. and then contact a SoftBank Shop or Customer Service for measurement against the cross talk (e.g. installing partition.)
- Also, in the event of handset causing radio wave interference with specified low power radios and amateur radio stations, contact a SoftBank Shop or Customer Service.

Notes on Using 5 GHz Devices

In 5 GHz frequency bandwidth, handset can use following bands:

- 5.2 GHz band (W52/36, 40, 44, 48 ch)
- 5.3 GHz band (W53/52, 56, 60, 64 ch)
- 5.6 GHz band (W56/100, 104, 108, 112, 116, 120, 124, 128, 132, 136, 140, 144 ch)

Using a 5.2/5.3-GHz-band wireless LAN outdoors is prohibited by law (this does not apply to communication with access points/relay stations of high-output data communications systems operating in the 5.2 GHz band).

Reception Interference Caused by Bluetooth Devices

Bluetooth and WLAN (IEEE802.11b/g/n/ax) use the same frequency band. Using near Wi-Fi (WLAN) devices may cause radio interference, low-communication speed, noise or connection fault. Or may cause communication interruption or sound distortion when streaming data is played. In that case, take the following measures.

- Provide distance between Wi-Fi (WLAN) device and Bluetooth device. Required distance varies by device.
- If the problem persists, power off Bluetooth device.

Water Resistance/Dustproofing

Handset complies with IPX5[1], IPX8[2] water resistance standards and IP6X[3] dustproof standard with SIM Card/SD Card Slot Cover firmly closed.

1 Protection against water jet (at 12.5 L/minute from every direction from a distance of approximately 3 m for over 3 minutes through 6.3 mm nozzle)

2 Protection against seepage when slowly submerged in still tap water at room temperature to depth of 1.5 m for 30 minutes

3 Protection against dust ingress when being placed in an apparatus with grit and dust of diameters of 75 μm or less and shaken for 8 hours

⬇ Handset Water Resistance/Dustproofing

⬇ Maintaining Water Resistance/Dustproof Performance

⬇ Precautions

⬇ Draining

⬇ Charging

Handset Water Resistance/Dustproofing

Handset water resistance/dustproofing provides the following:

Calling in the rain without umbrella (approximately 20 mm rainfall per hour)

■ Do not open or close SIM Card/SD Card Slot Cover with wet hands or when handset gets wet.

Washing handset when it gets dirty or stained with liquid other than tap water

■ Wash with tap water at normal temperature (5°C - 35°C) with weak water flow (less than 6 L/minute) at distance of approximately 10 cm away from the tap or shower.

■ When washing handset, make sure to securely close SIM Card/SD Card Slot Cover. Do not use a brush or sponge. Drain and the use handset after washing.

Using handset at a poolside

■ Do not get water from a pool on handset or soak it in pool water.

Maintaining Water Resistance/Dustproof Performance

Observe the following to avoid water or dust ingress.

- Do not get any liquid other than room temperature tap water on handset, or soak it in such liquid.
- Firmly close SIM Card/SD Card Slot Cover. Even a fine particle (one hair, one grain of sand, tiny fiber, etc.) put between the port contact surfaces may allow water or dust to ingress.
- Do not push Earpiece/Speaker, Mic, Speaker, Second Mic, USB Type-C Port, or Headphone Port with a sharp-pointed object.
- Do not let handset fall. Scratch on handset may degrade water resistance/dustproof performance.
- Rubber gaskets on inner side of SIM Card/SD Card Slot Cover play important roles for water resistance/dustproofing. Do not remove or damage them. Also, prevent dust from adhering onto them.

Precautions

Do not perform the following actions.

-Washing with Soap/Detergent/Bath powder

-Washing using brush/sponge

-Machine-washing

-Applying strong water flow

-Soaking in ocean water

-Using in hot spring

-Exposing to sand/mud

Observe the following precautions to use handset properly.

- Do not apply water flow stronger than allowed directly from a tap or shower. Handset provides IPX5 water resistance, but doing so may cause malfunction.
- If handset gets wet with salt water, sea water, beverage, or mud or sand adheres, wash it immediately. If they dry, they become hard to remove and may cause damage or malfunction.
- Do not put in hot water, use in a sauna or apply hot airflow (from a hair dryer etc.).
- Do not move handset in water or slam handset against surface of water.
- Soaking handset in tap water should be no more than 30 minutes.
- For using handset at a swimming pool, obey rules of the facility.
- Handset does not float on water.
- Do not let water remain on handset. In cold region, water freezes up and may cause malfunction.
- Do not allow water to remain in the Earpiece/Speaker, Mic, Speaker, Second Mic, USB Type-C Port, or Headphone Port. Such water may interfere with calls or get clothes or bag wet.
- If handset gets splashed with water or other liquid while SIM Card/SD Card Slot Cover is opened, seepage may occur resulting in electric shock or malfunction. In that case, stop using and power off handset, then contact a SoftBank Shop or Customer Service.
- If rubber gasket on back of SIM Card/SD Card Slot Cover becomes scratched or deformed, contact a SoftBank Shop or Customer Service for part replacement.
- Do not connect earphones, etc. to handset that is wet with water. May cause malfunction.

- Do not use USB Type-C Port or Headphone Port if wet or dirty/dusty. May lose water resistance, cause electric shock or short circuit, resulting in malfunction, fire, or burns.
- Do not leave handset in a humid place for a long time. Take handset out from bathroom after using.
- Avoid moving handset from cold place to warm place suddenly. Wait until handset temperature gets warm and before bringing it to bathroom etc.
- Complete protection is not guaranteed under all conditions. Malfunctions due to improper handling by the user are not covered by Warranty.

Draining

When handset gets wet, remaining water may flow out after wiping it off. Drain as shown.

1

Wipe off moisture on handset surface and back side with dry, clean cloth etc.
2

Shake handset approximately 20 times until there is no more water splattering (Left), then turn upside down and shake it approximately 20 times again (Right)

3
Wipe off water drained from handset with clean cloth etc.
- ■ Turn Earpiece/Speaker, Mic, Speaker, USB Type-C Port, Second Mic, Headphone Port, Power Key/Fingerprint Sensor, Volume/Zoom Up/Down Key, Google Assistant Key, Camera Key and SIM Card/SD Card Slot Cover, Camera ring (around main camera) face down onto cloth etc. to drain water.
- ■ Turn upside down and wipe off.

4

Place handset on dry, clean cloth etc., and dry naturally at room temperature for a couple of hours

Water is drained.

Charging

Check the following while and after charging.
- ■ While charging, check that handset is not wet. Never charge while handset is wet.
- ■ Never connect USB Type-C connector when handset or AC Charger is wet. Handset provides water resistance, but liquids (tap water, beverages, sea water, pet urine, etc.) adhered to USB

Type-C connector may cause electric shock or short circuit, resulting in fire, burns, or malfunctions.

- Do not use AC Charger (optional accessory), USB Type-C cable (commercially available) in a bathroom, shower room, kitchen, lavatory or other highly humid area. Doing so may cause fire or electric shock.
- Do not touch AC Charger (optional accessory) or USB Type-C cable (commercially available) with wet hand. Doing so may cause electric shock.

Safety Precautions

Export Controls and Regulations

Export Controls and Regulations

The products may be subject to the application of the Foreign Exchange and Foreign Trade Act and other related laws and regulations in Japan.
In addition, the Export Administration Regulations (EAR) of the United States may be applicable.
In cases of exporting or reexporting the products, customers are requested to follow the necessary procedures at their own responsibility and cost. Please contact the Ministry of Economy, Trade and Industry of Japan or the Department of Commerce of the United States for details about procedures.

Safety Precautions

RF Exposure Information of This Product

"A101SO" here refers to this mobile phone "Xperia 1 III."

RF Exposure Information of This Product (for Japan)

This mobile phone A101SO is compliant with the Japanese technical regulations[1] on human exposure to radio frequency (RF) electromagnetic energy.

This mobile phone is designed to comply with the Japanese technical regulations on human exposure to RF electromagnetic energy. The regulations establish the permissive limits of the energy, that are consistent with the restrictions set by ICNIRP[2] which is in collaboration with the World Health Organization (WHO) and ICES[3] of IEEE and include substantial safety margins designed to assure the safety of all persons regardless of age and health.

The permissive limits are defined as SAR (Specific Absorption Rate) for the frequencies under 6 GHz and PD (Power Density) for the frequencies over 6 GHz in the regulation. For mobile phones, the stipulated permissive levels are: SAR 2.0 W/kg, PD: 2 mW/cm^2. The regulations also stipulate the indication of Combined Radiation Ratio (CRR), which summarizes the compliance with the limits, on condition that mobile phone supports simultaneous transmission of the frequency bands that should be evaluated by each corresponding limit. Mobile phones which CRR is less or equal than 1 qualifies the permissive limits.

The CRR values for this mobile phone are: 0.738[4], [5] when tested for use at the ear, and 0.837[4], [5] when worn on the body. The actual SAR and PD of mobile phones while operating can be well below that indicated above. This is due to automatic changes to the power level of the device to ensure it only uses the minimum required to access the mobile network(s). There may be slight differences in SAR and PD levels for each product, but they all satisfy the permissive limits.

This mobile phone can be used at positions other than at the ear. By using accessories such as a belt clip holster that maintains a 1.5 cm separation with no metal (parts) between it and the body, this mobile phone is certified the compliance with the Japanese technical regulations.

Safety Precautions

*1 The technical regulations are provided in the Article 14-2 of the Ministry Ordinance Regulating Radio Equipment.

*2 International Commission on Non-Ionizing Radiation Protection

*3 ICES: International Committee on Electromagnetic Safety

*4 The value is under simultaneous transmission use conditions.

*5 The values of SAR and PD that the CRR values are calculated are as follows: For temporal region (near ear), SAR: 1.091 W/kg, PD: 0.385 mW/cm^2; For body-worn, SAR: 1.028 W/kg, PD: 0.645 mW/cm^2.

WHO has announced that "A large number of studies have been performed over the last two decades to assess whether mobile phones pose a potential health risk. To date, no adverse health effects have been established as being caused by mobile phone use."

For more information about RF exposure information, see the following websites:

・Ministry of Internal Affairs and Communications (MIC)

https://www.tele.soumu.go.jp/e/sys/ele/body/index.htm

・Association of Radio Industries and Businesses (ARIB)

https://www.arib-emf.org/01denpa/denpa02-02.html (Japanese)

・World Health Organization

https://www.who.int/news-room/fact-sheets/detail/electromagnetic-fields-and-public-health-mobile-phones

・List of Specific Absorption Rates (SAR) for radio waves by smartphone/3G model

https://www.softbank.jp/mobile/support/sar/ (Japanese)

European RF Exposure Information

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health. The guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2.0 W/kg and the highest SAR value for this device when tested at the ear is 0.16 W/kg*. As mobile devices offer a range of functions, they can be used in other positions, such as on the body. In this case, the highest tested SAR value is 1.42 W/kg* at the separation distance of 0.5 cm from the body. For electronic safety, maintain the separation distance with accessories containing no metal, that position handset a minimum of the above distance. Use of other accessories may not ensure compliance with RF exposure guidelines.

* The tests are carried out in accordance with international guidelines for testing.

FCC RF Exposure Information

Your handset is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.

The guidelines are based on standards that were developed by independent scientific organization through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.

The exposure standard for wireless handsets employs a unit of measurement known as the Specific Absorption Rate, or SAR.

The SAR limit set by the FCC is 1.6 W/kg. The tests are performed in positions and locations (e.g. at the ear and worn on the body) as required by the FCC for each model.

The highest SAR value as reported to the authorities for this phone model when tested for use by the ear is 0.26 W/kg, when worn on the body is 0.72 W/kg and when WiFi hotspot mode is 1.13 W/kg. For body-worn operation, this phone has been tested and meets the FCC RF exposure guidelines. Please use an accessory designated for this product or an accessory which contains no metal and which positions the handset a minimum of 1.0 cm from the body. For devices which include "WiFi hotspot" functionality, SAR measurements for the device operating in WiFi hotspot mode were taken using a separation distance of 1.0 cm. When using the device as charger, you need to put the phone on a flat surface and 20 cm separation distance from user during the charging mode.

The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided. The FCC has granted an Equipment Authorization for this model handset with all reported SAR levels evaluated as in compliance with the FCC RF emission guidelines. SAR information on this model handset is on file with the FCC and can be found under the Display Grant section of https://www.fcc.gov/oet/ea/ after searching on FCC ID PY7-73876N.

Additional information on Specific Absorption Rates (SAR) can be found on the FCC website at https://www.fcc.gov/general/radio-frequency-safety-0.

FCC Statement for the USA

⬇ FCC Statement for the USA

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference.

(2) This device must accept any interference received, including interference that may cause undesired operation.

Any change or modification not expressly approved by Sony may void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

- Consult the dealer or an experienced radio/TV technician for help.

Safety Precautions

End User Licence Agreement

End User Licence Agreement

Software delivered with this device and its media is owned by Sony Corporation, and/or its affiliated companies and its suppliers and licensors.

Sony grants you a non-exclusive limited licence to use the software solely in conjunction with the device on which it is installed or delivered. Ownership of the software is not sold, transferred or otherwise conveyed.

Do not use any means to discover the source code or any component of the software, reproduce and distribute the software, or modify the software. You are entitled to transfer rights and obligations to the software to a third party, solely together with the device with which you received the software, provided the third party agrees in writing to be bound by the terms of this licence.

This licence exists throughout the useful life of this device. It can be terminated by transferring your rights to the device to a third party in writing.

Failure to comply with any of these terms and conditions will terminate the licence immediately.

Sony and its third party suppliers and licensors retain all rights, title and interest in and to the software. To the extent that the software contains material or code of a third party, such third parties shall be beneficiaries of these terms.

This licence is governed by the laws of Japan. When applicable, the foregoing applies to statutory consumer rights.

In the event that software accompanying or provided in conjunction with your device is provided with additional terms and conditions, such provisions shall also govern your possession and usage of the software.
