About the User Guide

In the User Guide, most operation descriptions are based on the handset at time of purchase.
Unless noted otherwise, descriptions are for Home Screen (AQUOS Home). Some operation descriptions may be omitted.
The information in the User Guide is subject to change without prior notice.

Before Using This Product

Read "Safety Precautions" thoroughly beforehand for proper usage.
Accessible services may be limited by subscription contract conditions.

Data Communication

- Handset is designed to be always connected to the Internet. Communication is initiated automatically for some functions such as data syncing.
- Large-volume data communication, such as downloading applications and viewing videos, incurs expensive transmission fees. Subscription to a flat-rate plan is strongly recommended.
- Even if connected by Wi-Fi, some applications and services incur transmission fees.

Screenshots & Key Labels

Screenshots in the User Guide may differ in appearance with actual Display. Key labels in the User Guide are simplified for description purposes and differ with actual Display.

Other Notations

In the User Guide, the product is referred to as "handset."
microSD™/microSDHC™/microSDXC™ Card is referred to as "SD Card."
"A208SH" here refers to this mobile phone "AQUOS sense7 plus."

Getting Started

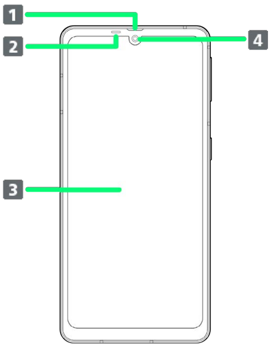
Package Contents

Package Contents

- Handset (AQUOS sense7 plus)
  - Battery is built into handset.
  - Handset back cover is not removable.
- Quick Switch Adapter (Complimentary sample)
- クイックスタート (Japanese)
- お願いとご注意 (Japanese)

Parts & Functions

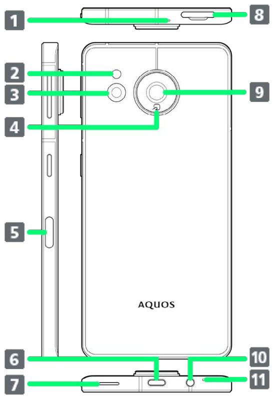
Handset (Front)



Name	Description
1 Earpiece/Speaker	Hear the other party's voice here.
2 Proximity/Light Sensor[1]	Proximity Sensor prevents Touchscreen misoperation during calls. Light Sensor adjusts Display brightness according to ambient light.
3 Display	Touchscreen-type display; operate with your fingers on Display.
4 Front Camera	Use to shoot photos or videos of yourself.

[1] Do not apply stickers or other coverings over the sensors.

Handset (Back and Sides)

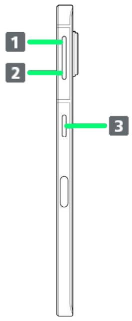


Name	Description
1 Mic	Use while recording videos or when talking through Speakerphone. Make sure not to cover Mic.
2 Mobile Light	Use as a camera flash, flashlight, etc.
3 Wide-Angle Back Camera	Capture photos and videos.
4 FeliCa mark	Hold up to reader/writer to use NFC/Osaifu-Keitai®.
5 Fingerprint Sensor[1]	Use fingerprint authentication to unlock screen.
6 External Connection Jack	Connect USB Type-C® plug such as AC adapter.
7 Speaker	Listen to music, video sound, etc.
8 Card Tray	Insert/remove SD Card and SIM Card.
9 Standard Camera	Capture photos and videos.
10 Earphones-Microphone Jack	Connect stereo earphones with mic (commercially available) here.
11 Mic/Recorder Mic	Use during calls while handset is held up to ear. Use as Mic while recording videos, on speech recognition, or when talking to emopa. Make sure not to cover Mic/Recorder Mic.

---

[1] Do not apply stickers or other coverings over the sensors.

Handset Keys



Name	Description
1 Volume Up Key	Increase volume.
2 Volume Down Key	Decrease volume.
3 Power Key	Turn Display off/on. Long Press to power on or activate Google Pay™.[1]

---

[1] Other applications can also be set up to activate. Also set whether to activate Camera by pressing Power Key twice. See "Quick Operation Settings" for details.

eSIM

eSIM is a type of SIM that is embedded in a device. If your device supports an eSIM, you only need to set up a service plan that you purchased with eSIM and start using it. You don't need a USIM card.

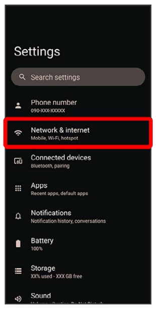
Handling eSIM

To learn about setting up your service plan with eSIM, see the following website.
https://www.softbank.jp/mobile/support/product/sim/esim/ (Japanese)

Download your service plan with eSIM

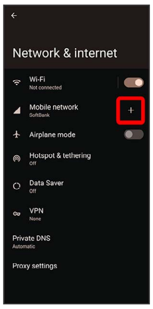
1

In Home Screen, ⚙ (Settings) ➔ Network & internet



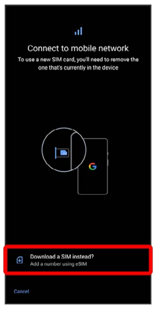
2

+



3

Download a SIM instead?

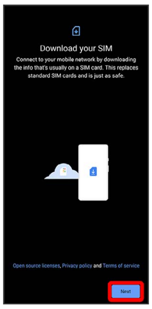


Connect to mobile network

To use a new SIM card, you'll need to remove the one that's currently in the device

4

Next

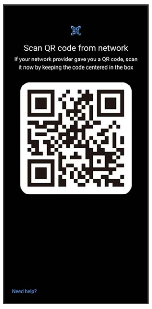


Download your SIM

Connect to your mobile network by downloading the info that's usually on a SIM card. This replaces standard SIM cards and is just as safe.

5

Scan a QR code



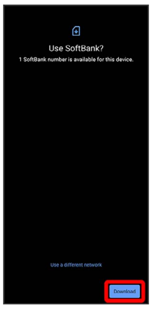
Scan QR code from network

If your network provider gave you a QR code, scan it now by keeping the code centered in the box

- Depending on the situation, the above step may not be displayed and skip to the next step.

6

Download

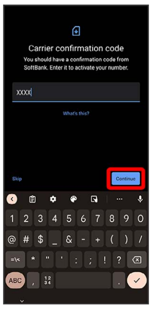


Use SoftBank?

1 SoftBank number is available for this device.

7

Enter verification code ➔ Continue



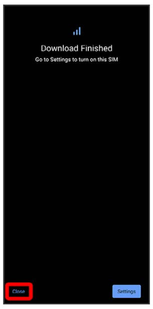
Carrier confirmation code

You should have a confirmation code from SoftBank. Enter it to activate your number.

xxxx

8

Close

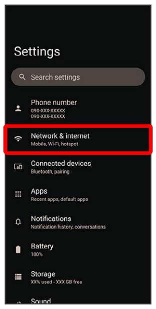


Your service plan with eSIM is downloaded.

Enable or disable eSIM

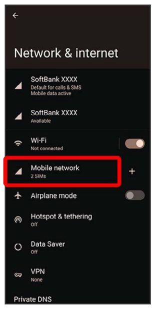
1

In Home Screen, ⚙ (Settings) ➔ Network & internet



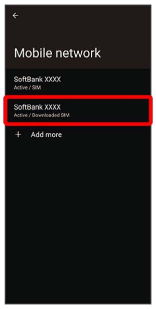
2

Mobile network



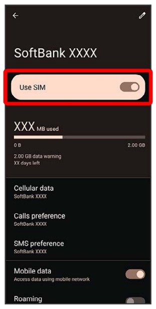
3

SoftBank XXXX for "Downloaded SIM"



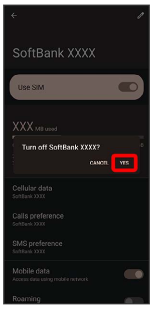
4

Use SIM ●



5

YES



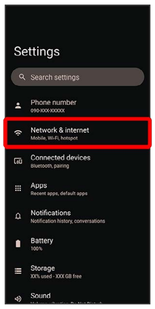
🏁 You can set enabling or disabling eSIM.

- Tap Use SIM ⬤ to enable eSIM.

Erase your service plan with eSIM

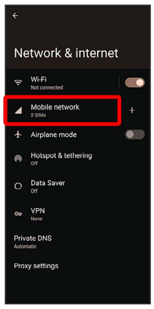
1

In Home Screen, ⚙ (Settings) ➔ Network & internet



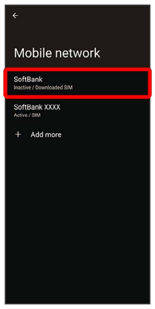
2

Mobile network



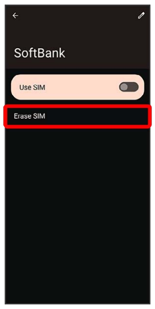
3

SoftBank for "Downloaded SIM"



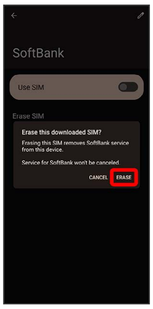
4

Erase SIM



5

ERASE



Erase this downloaded SIM?

Erasing this SIM removes SoftBank service from this device.

Service for SoftBank won't be canceled.

Your service plan with eSIM is erased.

Restart your service plan with eSIM after erasing it

Your service plan with eSIM is not terminated by erasing it. To restart it, you need a new QR code to download the plan again.

SIM Card

SIM Card is an IC card containing phone number and other customer information.

Handling SIM Card

Check the following regarding SIM Card handling.

1 IC (gold) chip

- For SIM Card handling, see SoftBank Website.
  https://www.softbank.jp/mobile/support/protect/usim/
  (Japanese)
- Avoid applying labels. May damage SIM Card.
- SIM is replaceable (at cost) in case of loss/damage.
- Wipe clean with a dry, soft cloth.
- Always keep the IC (gold) chip clean.

SIM Card Cautions

Observe the following when using SIM Card.

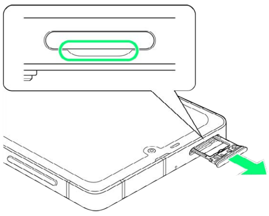
- Within Japan, SIM Card must be installed to make emergency calls (110, 119, 118).
- Always follow emergency procedures to suspend service if your SIM Card or handset (SIM Card inserted) is lost/stolen. For details, contact Customer Service.
- Customer is responsible for any damage caused by inserting SIM Card in an other-brand IC card reader, etc. SoftBank Corp. is not responsible in such case.
- It is recommended that you back up information that is saved on SIM Card. SoftBank Corp. is not responsible for damages from saved information that is lost.
- Note that SIM Card specifications and performance may change without notice.
- Return SIM Card to SoftBank Corp. when canceling subscription.
- SIM Card is the property of SoftBank Corp.
- Returned SIM Cards are recycled for environmental purposes.
- Some services, functions, etc. may have restrictions when an other-carrier SIM card is used. SoftBank Corp. does not guarantee operation whatsoever.

Inserting SIM Card

- Set SIM Card in Card Tray beforehand. Do not insert SIM Card without setting it in Card Tray.

1

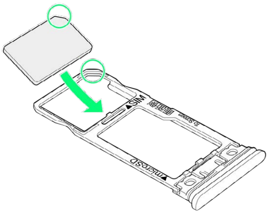
With Display upward, pull out Card Tray by hooking a finger on groove (○)



- With Display upward, pull out Card Tray. Pulling out Card Tray with Display downward or handset held upright can allow SIM Card Card to fall from Card Tray and become misplaced.
- Do not pull Card Tray forcefully or at an angle; damage may result. Gently pull Card Tray out horizontally.

2

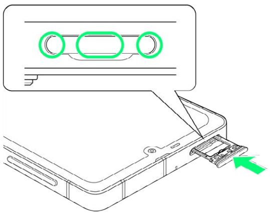
Set SIM Card in Card Tray



- Place gently, noting orientation of SIM Card (notch/IC (gold) chip facing down).
- Make sure SIM Card is in Card Tray. Inserting Card Tray with SIM Card on its edge may cause damage.

3

Insert Card Tray in SIM/SD Card Slot



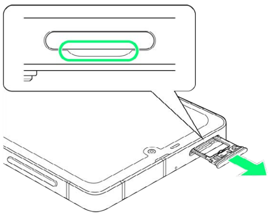
🏁 SIM Card is inserted.

- Do not insert Card Tray upside down.
- Insert gently all the way horizontally in direction shown.
- Push Card Tray firmly where circled (○) so that there is no gap between handset and Card Tray.
- To maintain water and dust resistance, use handset with Card Tray completely closed.

Removing SIM Card

1

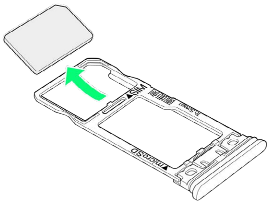
With Display upward, pull out Card Tray by hooking a finger on groove (○)



- With Display upward, pull out Card Tray. Pulling out Card Tray with Display downward or handset held upright can allow SIM Card and SD Card to fall from Card Tray and become misplaced.
- Do not pull Card Tray forcefully or at an angle; damage may result. Gently pull Card Tray out horizontally.

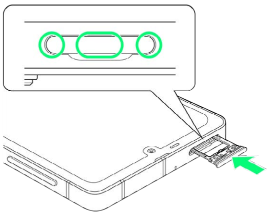
2

Remove SIM Card



3

Insert Card Tray in SIM/SD Card Slot



🏁 SIM Card is removed.

- Do not insert Card Tray upside down.
- Insert gently all the way horizontally in direction shown.
- Push Card Tray firmly where circled (○) so that there is no gap between handset and Card Tray.
- To maintain water and dust resistance, use handset with Card Tray completely closed.

Internal Storage and SD Card

Handset supports SD Card up to 1 TB. Some SD Cards may not operate properly.
Internal storage can be used for saving data including system data, applications, and video and photos taken with Camera.

Internal Storage/SD Card Cautions

Data on Internal Storage/SD Card

Data on internal storage/SD Card may be lost/altered due to accidents, malfunctions, repairs, handset upgrade/replacement, mishandling, etc. Back up important data regularly. SoftBank Corp. is not liable for any damages resulting from loss/alteration of data.

- Do not insert or remove SD Card forcefully.
- Do not touch terminals or expose them to metal objects.
- Never power off while reading or writing data.
- Make sure not to erase or overwrite data accidentally.

microSDXC Card

Handset supports microSDXC Cards (SDXC-compatible SD Cards). microSDXC Cards are supported by SDXC-compatible devices only.

Exchanging Data with Non-SDXC-Compatible Devices

To exchange data between handset and non-SDXC-compatible devices, use SD Cards (microSD/microSDHC Cards) supported by handset and those devices. Inserting a microSDXC Card used on handset in a non-SDXC-compatible device may corrupt card data. In such cases, do not format the microSDXC Card on that device even if prompted to do so.
Formatting deletes all microSDXC Card data and changes the file system. The original storage capacity may be unavailable after formatting. To use a corrupted microSDXC Card, format it on an SDXC-compatible device.

Save Location

By default, data, including photos and videos taken with handset, is saved in internal storage. Even with downloaded commercially-available applications described as saving data on SD Card, data is saved in internal storage.

- To save photos and videos taken with handset on SD Card, insert SD Card before using Camera, then change save location as follows.
  In Home Screen, (Camera) → ⚙ → **Common** → **Save To** → **SD card**

SD Card Caution

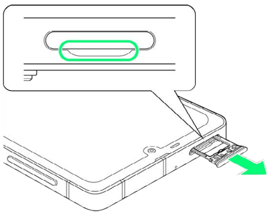
Keep SD Card away from infants; may cause choking if swallowed.

Inserting SD Card

- Set SD Card in Card Tray beforehand. Do not insert SD Card without setting it in Card Tray.

1

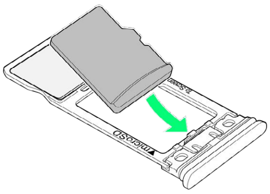
With Display upward, pull out Card Tray by hooking a finger on groove (○)



- With Display upward, pull out Card Tray. Pulling out Card Tray with Display downward or handset held upright can allow SIM Card and SD Card to fall from Card Tray and become misplaced.
- Do not pull Card Tray forcefully or at an angle; damage may result. Gently pull Card Tray out horizontally.

2

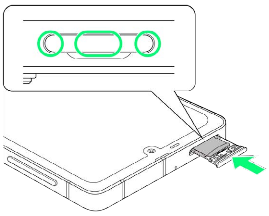
Set SD Card in Card Tray



- Place gently, noting orientation of SD Card (terminal side facing down).
- Make sure SD Card is in Card Tray. Inserting Card Tray with SD Card on its edge may cause damage.

3

Insert Card Tray in SIM/SD Card Slot



SD Card is inserted.

- Do not insert Card Tray upside down.
- Insert gently all the way horizontally in direction shown.
- Push Card Tray firmly where circled (○) so that there is no gap between handset and Card Tray.
- To maintain water and dust resistance, use handset with Card Tray completely closed.

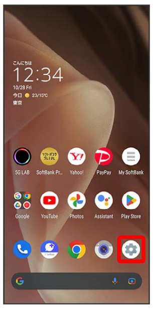
Formatting SD Card

When using a new SD Card for the first time, always format it on handset.

- Formatting erases all data on SD Card. Format SD Card with caution.
- When formatting, keep handset charged or charge it adequately beforehand.
- Insert SD Card beforehand. See "Inserting SD Card" for details.

1

In Home Screen, ⚙ (Settings)



2

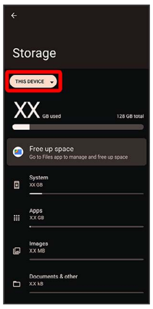
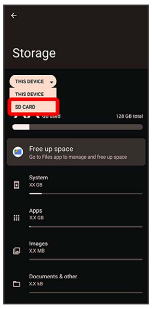
3

THIS DEVICE



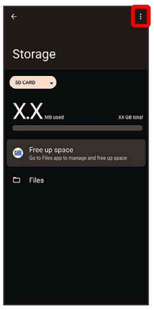
4

SD CARD



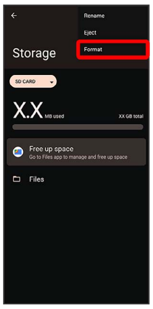
5

⋮



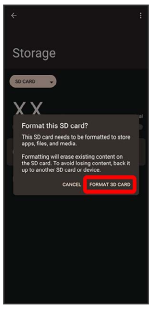
6

Format



7

FORMAT SD CARD



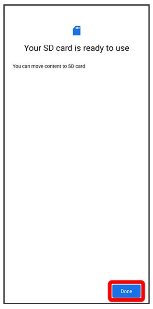
Format this SD card?

This SD card needs to be formatted to store apps, files, and media.

Formatting will erase existing content on the SD card. To avoid losing content, back it up to another SD card or device.

8

Done



Your SD card is ready to use

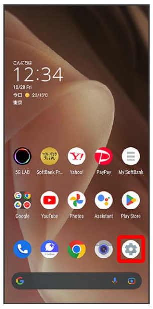
You can move content to SD card

All data on SD Card is erased.

Unmounting SD Card

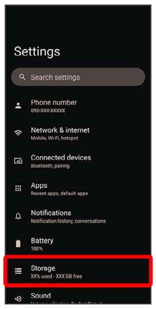
1

In Home Screen, ⚙ (Settings)



2

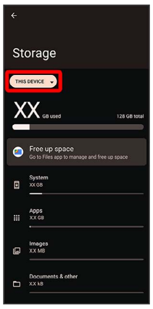
Storage



Storage menu opens.

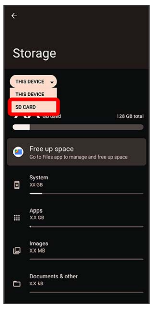
3

THIS DEVICE



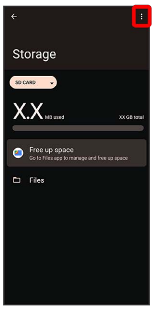
4

SD CARD



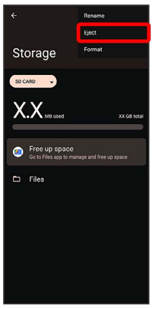
5

⋮



6

Eject



SD Card is unmounted.

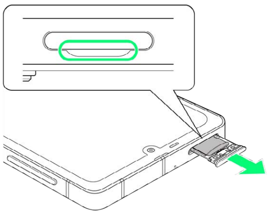
Mounting SD Card

In Storage menu, THIS DEVICE → SD CARD → ⋮ → Mount

Removing SD Card

1

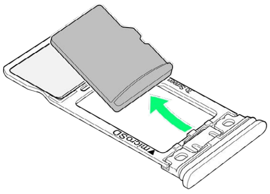
With Display upward, pull out Card Tray by hooking a finger on groove (〇)



- With Display upward, pull out Card Tray. Pulling out Card Tray with Display downward or handset held upright can allow SIM Card and SD Card to fall from Card Tray and become misplaced.
- Do not pull Card Tray forcefully or at an angle; damage may result. Gently pull Card Tray out horizontally.

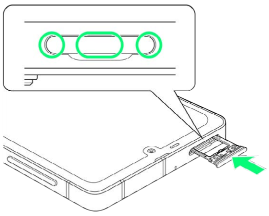
2

Remove SD Card



3

Insert Card Tray in SIM/SD Card Slot



SD Card is removed.

- Do not insert Card Tray upside down.
- Insert gently all the way horizontally in direction shown.
- Push Card Tray firmly where circled (〇) so that there is no gap between handset and Card Tray.
- To maintain water and dust resistance, use handset with Card Tray completely closed.

Charging Handset

Battery is built into handset.

Internal Battery

A lithium-ion battery is built into handset; it is not removable.

Recycling

This product requires a lithium-ion battery. Lithium-ion batteries are recyclable. To recycle a used lithium-ion battery, take it to any shop displaying the recycling symbol.

モバイル・リサイクル・ネットワーク
携帯電話・PHSのリサイクルにご協力を。

Battery Cautions

Storage

To help maintain performance and life of Internal Battery, do not store in the following conditions (battery level should be at approximately 40% for optimal storage).

- Full (immediately after charging is complete)
- Exhausted (too low to power on handset)

Bulges of Internal Battery

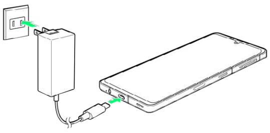
Depending on use, bulges may appear near end of battery life; this does not affect safety.

Internal Battery Replacement

Internal Battery is a consumable item; may need to be replaced if operating time shortens noticeably. Internal Battery is not user replaceable; its replacement incurs fees and requires handset submission to a SoftBank Shop or other appropriate servicer. For details, contact a SoftBank Shop or Customer Service.

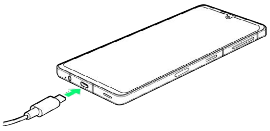
Charging with AC Adaptor

Use an AC Adaptor (USB Type-C® quick charge AC Adaptor for USB PD-PPS [ZSDBAV] (SBAC22-TCPD)) (optional accessory). For information on other peripheral devices, see SoftBank Website.



1

Insert USB Type-C plug of AC Adaptor into External Connection Jack



2

Raise plug on AC Adaptor and plug into outlet

Charging starts.

3

After charging, unplug AC Adaptor from outlet and disconnect from handset

Charging ends.

Lock Screen while Charging

Charging progress, time until charging completes (approximate), etc. appear in lock screen.

- "Charging": normal charging
- "Charging rapidly": rapid charging
- "Charging slowly": low-speed charging; handset begins low-speed charging depending on the conditions, such as when nearly charged.
- "In direct charging": direct charging. See "Battery Settings" for details.

Charging Cautions

Water Resistance

AC Adaptor is not waterproof. Never connect a USB Type-C plug while handset or charger is wet.
Handset is water resistant; however, if a USB Type-C plug is inserted while it is wet, liquid (tap water, beverage, sea water, pet urine, etc.) or a foreign object adhered to handset or a USB Type-C plug may cause overheating, burnout, fire, malfunction, burns, etc. due to electric shock, short-circuiting, etc.

Handling Cords

Do not pull, bend, or twist cord; may damage the cord.

About Charging Abroad

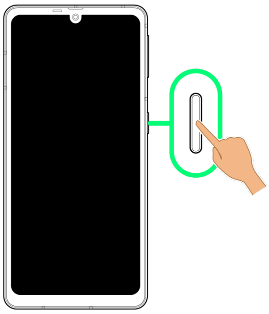
SoftBank Corp. is not liable for problems resulting from charging handset abroad.

Power On/Off

Powering On

1

Long Press Power Key until SHARP logo appears

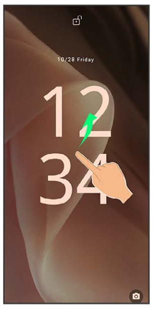


🏁 Handset powers on, and lock screen appears after a while.

- An initial settings wizard may appear the first time handset is powered on. For details on initial settings, see "Making Initial Settings."

2

Flick lock screen up



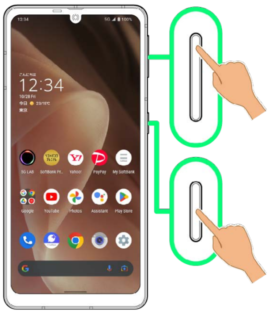
🏁 Home Screen appears.

- After Flicking screen up when 🔒 is displayed, enter pattern / lock no. (PIN) / password to unlock.

Powering Off

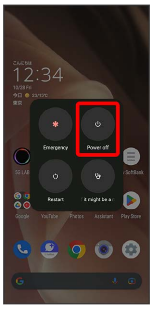
1

Power Key + Volume Up Key



2

Power off



Handset powers off.

Making Initial Settings

When powering on the first time, an initial settings wizard appears for optionally making Wi-Fi, Google™ account, and other settings. Follow onscreen instructions to set items.
You can also easily transfer data from a previously used smartphone, by connecting the included Quick Switch Adapter to handset External Connection Jack and then connecting the smartphone using a cable.
Insert SIM Card before powering on handset.

Transferring Data

Before Transferring Data

The following are required for transferring data.

- Handset
- Quick Switch Adapter
- The previously used smartphone
- Cable used with the previous smartphone

How to Transfer Data

Data transfer is performed from the initial settings screen that appears the first time handset is powered on. From "Copy apps & data" in the initial settings screen, follow onscreen prompts to connect the smartphones and transfer data.

- For details on transferring data using the Quick Switch Adapter, see the following website.
  http://k-tai.sharp.co.jp/support/datacopy/pdf/easy_data_copy.pdf (Japanese)
- Charge handset and previously used smartphone adequately beforehand.
- Connect to Wi-Fi or mobile network beforehand.
- If transferring data from an iPhone®, set iMessage® and FaceTime® off beforehand.
- If iPhone data is encrypted, iTunes® password is required.

To Transfer Data after Initial Settings Have Been Completed

For details on transferring data after initial settings have been completed, see the following website.
http://k-tai.sharp.co.jp/support/datacopy/pdf/easy_data_copy.pdf (Japanese)

eSIM Cautions

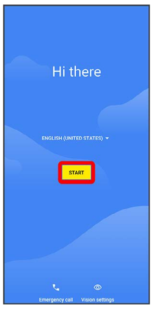
When using eSIM, confirm the following before powering on.

- Remove SIM Card from handset.
- Make sure that handset can connect to the Wi-Fi network.
- Have the QR code ready for eSIM registration.

Making Initial Settings

1

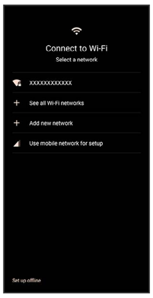
Select language then START



- To place an emergency call, Tap Emergency call .
- To set visual assistance, Tap Vision settings . See "Accessibility" for details.

2

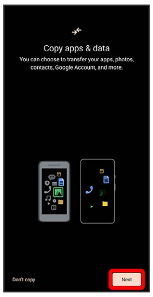
Set Wi-Fi items



- Follow onscreen prompts.
- To complete initial settings via mobile network, select Use mobile network for setup . Continue by following onscreen prompts.
- When using eSIM, Tap Download a SIM instead? and follow onscreen prompts.

3

Next



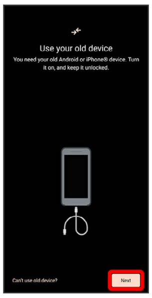
Copy apps & data

You can choose to transfer your apps, photos, contacts, Google Account, and more.

- To not copy data from another mobile, etc., Tap Don't copy .

4

Power on previous smartphone and unlock it ➔ Next



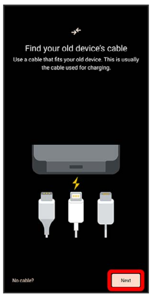
Use your old device

You need your old Android or iPhone® device. Turn it on, and keep it unlocked.

- If previous smartphone is unusable, Tap Can't use old device? and follow onscreen prompts.

5

Prepare cable from previous smartphone ➔ Next



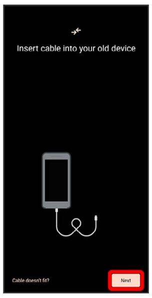
Find your old device's cable

Use a cable that fits your old device. This is usually the cable used for charging.

- If cable from previous smartphone is unavailable, Tap No cable? and follow onscreen prompts.

6

Connect the cable to previous smartphone ➔ Next

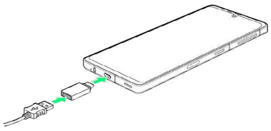


Insert cable into your old device

- If the cable is unusable, Tap Cable doesn't fit? and follow onscreen prompts.

7

Insert USB plug on cable into Type-A jack on Quick Switch Adapter, and insert USB Type-C plug on Quick Switch Adapter into External Connection Jack



- If Quick Switch Adapter is unavailable, Tap Cable doesn't fit? ➔ No adapter? .

8

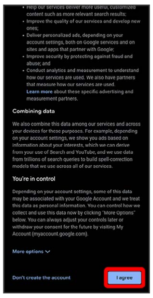
Next

- See "Google Account" for details on a Google Account.
- After setting a Google account, a list of transferable data appears.

9

I agree



- Help our services deliver more useful, customized content such as more relevant search results;
- Improve the quality of our services and develop new ones;
- Deliver personalized ads, depending on your account settings, both on Google services and on sites and apps that partner with Google;
- Improve security by protecting against fraud and abuse; and
- Conduct analytics and measurement to understand how our services are used. We also have partners that measure how our services are used.
  Learn more about these specific advertising and measurement partners.

Combining data

We also combine this data among our services and across your devices for these purposes. For example, depending on your account settings, we show you ads based on information about your interests, which we can derive from your use of Search and YouTube, and we use data from trillions of search queries to build spell-correction models that we use across all of our services.

You're in control

Depending on your account settings, some of this data may be associated with your Google Account and we treat this data as personal information. You can control how we collect and use this data now by clicking "More Options" below. You can always adjust your controls later or withdraw your consent for the future by visiting My Account (myaccount.google.com).

- To activate screen lock manually, Press Power Key when Display is turned on.

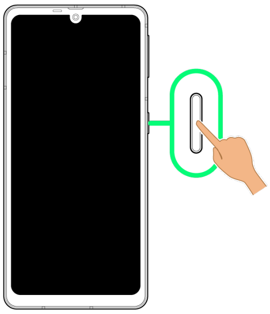
If Screen Lock Activates while Playing Music

Music continues to play. For operation, Press Power Key to open lock screen and use operation panel (operations may vary depending on application).

Unlocking Screen

1

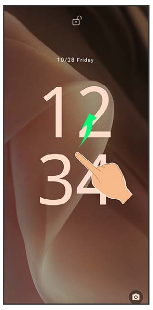
When Display is turned off (screen lock active), Power Key



Lock screen appears.

2

Flick lock screen up



Screen is unlocked.

- To change the unlock method for enhanced security, set handset to require pattern drawing or lock no. (PIN)/ password entry for unlocking screen or set screen to be unlocked with your fingerprint/face as needed. See "Using Fingerprint Authentication Function," "Setting Screen to Unlock by Tracing Pattern," "Requiring Lock No. (PIN) Entry for Unlocking Screen," "Setting Screen to Unlock with Password," and "Using Face Authentication" for details.
- After Flicking screen up when 🔒 is displayed, enter pattern / lock no. (PIN) / password to unlock.

Another Way to Turn On Display

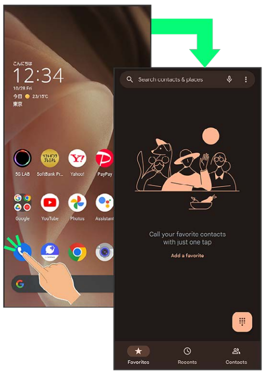
Set Display to turn on when handset is picked up and held still (Turn screen on by holding). See "Bright Keep Settings" for details.

Basic Operations

Basic Operations

Selecting Options and Navigating Screens

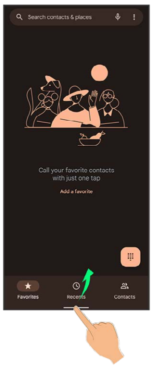
Tap items, icons, onscreen keys, etc. to open assigned items.



- To return to the previous screen, Flick the edge of screen to the left/right.

Moving to Home Screen

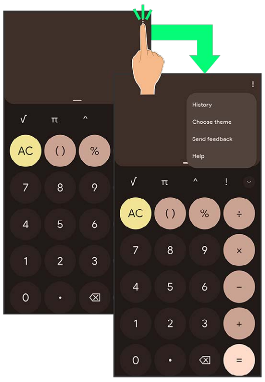
The area at the bottom of the screen where — is displayed is called "Navigation Bar." Flick Navigation Bar up to move to Home Screen.



Menu Operations

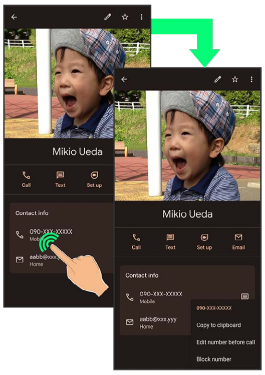
1

Tap ⋮ at Display top for available settings and items.



2

Screens may also have settings and items that are available by Touching & Holding Display.



Using Touchscreen

Handset uses a touchscreen-type Display. Operate with your fingers on Display.

About Touchscreen

In Case of Unintended Operation

If handset initiates operation without Touchscreen (Display) being operated or does not respond after Touchscreen being operated, Press Power Key to turn off Display, Press Power Key again to turn on Display and then operate handset.

Touchscreen Usage Notes

Touchscreen may not respond in these situations:

- Use with gloves/long fingernails
  When using handset with gloves on, enable glove mode.
- Use of pens, pencils or sharp objects
- Use with objects on/against Display
- Use while wet

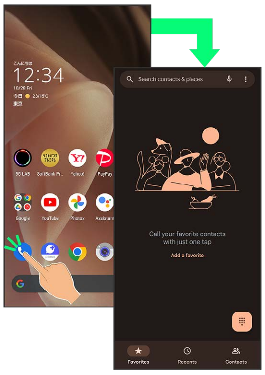
Touchscreen Usage Cautions

To prevent malfunctions, do not:

- Touch Display with wet fingers
- Use if Display is wet
  If Display is wet, wipe it with a soft cloth.
- Subject Display to force/pressure
- Place a sticker or shield (commercially-available protective film, privacy protector shield, etc.) on Display

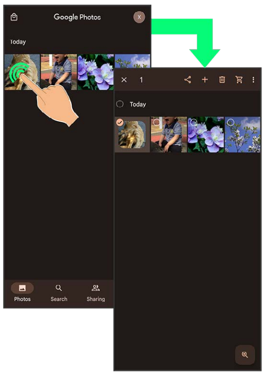
Tap

Contact Display lightly and briefly.



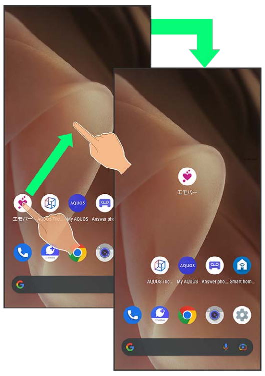
Touch & Hold

Contact Display lightly; release finger when screen changes.



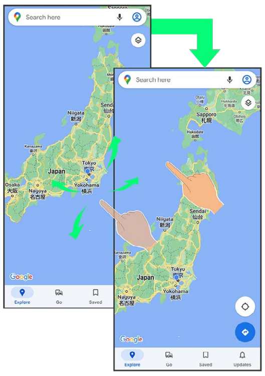
Drag

Touch icon or other item lightly, move it where desired, and release finger.



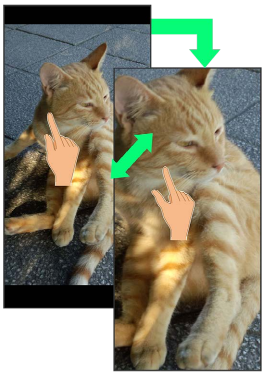
Flick (Swipe)

Contact Display lightly, then brush screen up/down or left/right.



Pinch/Spread

Contact Display lightly, then move fingers toward each other (Pinch) or away from each other (Spread).



Using Manner Mode

Mute ringtones and other handset sounds to avoid disturbing others around you.

Manner mode setting is also accessible from Quick Settings Window.

Manner Mode Options

Settable items are the following.

- Vibe
  Ringtones and other handset sounds are muted; handset vibrates for incoming calls/messages, etc.
- Mute
  Ringtones and other handset sounds are muted; handset does not vibrate for incoming calls/messages, etc.

Manner Mode Cautions

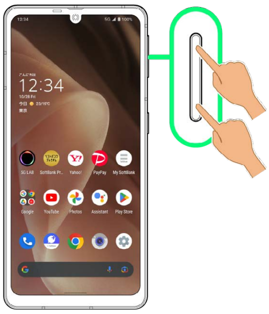
Camera shutter sound, video recording tones, alarms, media sound, etc. still play even in Manner mode.

- Alternatively, to mute alarms and media sound, use "Do Not Disturb." See "Sound Settings" for details.

Activating Manner Mode (Vibe)

1

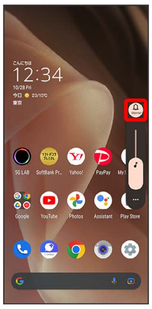
Press Volume Up/Down Key



Volume bar appears.

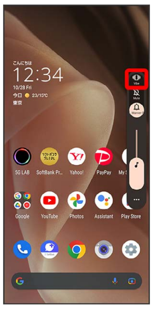
2

(Manner OFF)



3

(Vibe)



Handset enters Manner mode (Vibe).

Manner Mode (Vibe) Operations

Setting from Quick Settings

Manner mode (Vibe) setting is also accessible from Quick Settings Window.

Flick Status Bar down → Manner mode OFF

Icon changes to , and handset enters Manner mode (Vibe).

Canceling Manner Mode (Vibe)

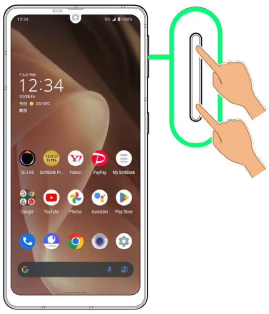
Press Volume Up/Down Key for volume bar, (Vibe) → (Manner OFF)

Handset exits Manner mode.

Activating Manner Mode (Mute)

1

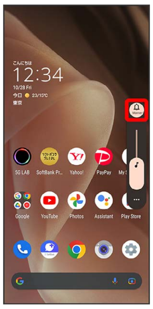
Press Volume Up/Down Key



Volume bar appears.

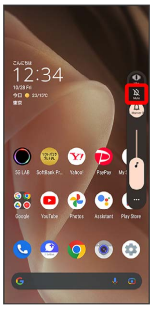
2

(Manner OFF)



3

(Mute)



Handset enters Manner mode (Mute).

Manner Mode (Mute) Operations

Setting from Quick Settings

Manner mode (Mute) setting is also accessible from Quick Settings Window.

Flick Status Bar down → Manner mode OFF → Manner mode (Vibe)

Icon changes to , and handset enters Manner mode (Mute).

Canceling Manner Mode (Mute)

Press Volume Up/Down Key for volume bar, (Mute) → (Manner OFF)

Handset exits Manner mode.

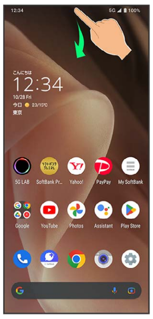
Using Airplane Mode

Leaving power on, suspend signal-transmitting functions.

Activating Airplane Mode

1

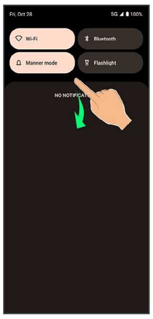
Flick Status Bar down



Notifications Window opens.

2

Flick Notifications Window down

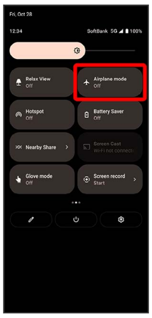


Quick Settings Window opens.

- Alternatively, to open Quick Settings Window, Flick Status Bar down with two fingers with Notifications Window closed.

3

Airplane mode Off (On)



Airplane mode activates.

Canceling Airplane Mode

In Quick Settings Window, Airplane mode On (Off)

Airplane Mode Caution

Wi-Fi and Bluetooth® functions can be enabled after placing handset in Airplane mode.
While connected to another device with handset Bluetooth® function, placing handset in Airplane mode does not disable Bluetooth® function.

Text Entry

Keyboards

Use onscreen keyboards for text entry.

- Tap Text entry field for keyboard. To hide it, Tap ∨ .
- Text entry descriptions are for Google Keyboard (default input method).

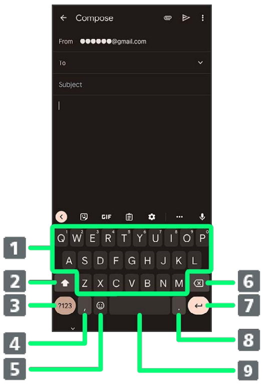
Enabling One-Handed Mode

Shrink onscreen keyboard for easier one-handed operation; switch between Left-handed mode and Right-handed mode as needed.

When keyboard is open, Touch & Hold , / ↵ and slide finger over ⇱ / ⇲

- Tap > / < to switch between Right-handed mode and Left-handed mode.
- Tap ⛶ to disable One-handed mode.

Keyboard Layout



1 Enter characters.

2 Toggle case.

3 Switch to number/symbol keyboard.

4 Enter comma. Touch & Hold to specify settings or enable One-handed mode.

5 Switch to emoji/emoticon keyboard.

6 Delete characters.

7 Insert line break. Touch & Hold for options; enable One-handed mode, or move to other entry fields.

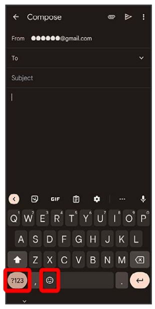
8 Enter period. Touch & Hold for a set of other punctuation marks and symbols.

9 Enter space.

Switching Keyboards

1

In a text entry window, ?123 / ☺



Entry mode is switched.

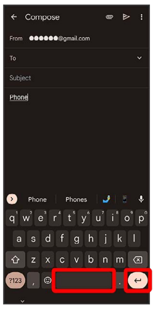
- Tap ?123 / ☺ / ABC to toggle between alphabet entry mode and number/symbol/emoji/emoticon entry mode.

Entering Letters

To enter Phone:

1

In a text entry window, P ➔ h ➔ o ➔ n ➔ e ➔ / ↩



Phone is entered.

- To toggle case, Tap ⇧ / ⬆ before typing a letter. Tap ⇧ / ⬆ twice to type in all capitals(⬆). By default, the first word of each sentence is capitalized automatically.

Using Fingerprint Authentication Function

Fingerprint Authentication Function

Hold finger to sensor to authenticate and use handset.
Use this function to unlock screen.

! Fingerprint Authentication Function Cautions

Observe the following when using the fingerprint authentication function.

- Authentication is based on fingerprint characteristics. This function may be unusable if your fingerprint characteristics are not prominent.
- Ability to authenticate (assuming finger is held to sensor correctly) depends on conditions of use. Saving your fingerprint may be difficult if finger is in any of the following conditions. Washing/wiping hands, using different finger, saving a wider area, etc. may improve capability.
  - Wrinkled with moisture (e.g., after a bath)
  - Wet with water, sweat, etc.
  - Dry
  - Covered with handcream, etc.
  - Stained with mud or oil
  - Rough or damaged (cut, sore, etc.)
  - Fingerprint is faint (finger surface is worn)
  - Fingerprint is deformed due to weight gain or loss
  - Finger surface condition at the time of authentication is extremely different than when fingerprint was saved
- Fingerprint authentication technology does not guarantee successful personal authentication/verification. SoftBank Corp. is not liable for any damages resulting from use of handset by third party or lost opportunities to use handset.

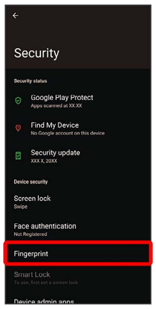
3

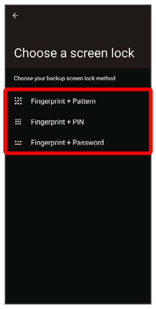
Fingerprint



Fingerprint settings open.

4

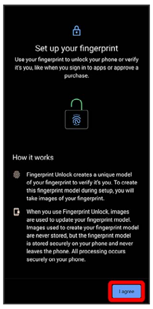
Follow onscreen prompts and set pattern / lock no. (PIN) / password for unlocking screen



- This is a backup method for unlocking the screen if unable to authenticate with your fingerprint.
- If method for unlocking screen is setting other than None or Swipe , first unlock screen.
- See "Setting Screen to Unlock by Tracing Pattern," "Requiring Lock No. (PIN) Entry for Unlocking Screen," and "Setting Screen to Unlock with Password" for details on setting a method for unlocking screen.

5

I agree



Set up your fingerprint

Use your fingerprint to unlock your phone or verify it's you, like when you sign in to apps or approve a purchase.

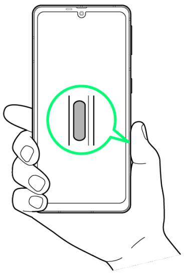
How it works

Fingerprint Unlock creates a unique model of your fingerprint to verify it's you. To create this fingerprint model during setup, you will take images of your fingerprint.

When you use Fingerprint Unlock, images are used to update your fingerprint model. Images used to create your fingerprint model are never stored, but the fingerprint model is stored securely on your phone and never leaves the phone. All processing occurs securely on your phone.

6

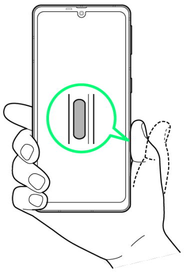
Hold finger to Fingerprint Sensor



- Or, Tap Next to go to step **7** .

7

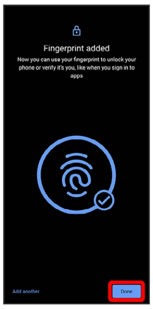
Hold finger to sensor until handset vibrates



- Move finger a little at a time and hold it to sensor.
- Repeat until screen appears indicating fingerprint is saved.
- If finger is already saved, use another finger.

8

Done



Fingerprint added

Now you can use your fingerprint to unlock your phone or verify it's you, like when you sign in to apps

Fingerprint is saved.

- To save other fingerprints, Tap Add another .

Saving Fingerprints

Savable Number of Fingerprints

Save up to 5 fingerprints.

Backup Screen Unlock Methods

Make sure not to forget pattern / lock no. (PIN) / password set as backup for unlocking screen.

Fingerprint Saving Operations

Checking Saved Fingerprints

In fingerprint settings, Hold saved finger to Fingerprint Sensor

Saved fingerprint is highlighted.

Setting/Changing Names of Saved Fingerprints

In fingerprint settings, Tap saved fingerprint → Enter name → OK

Deleting Fingerprints

In fingerprint settings, 🗑 for saved fingerprint → YES, REMOVE

Troubleshooting

Q. Failure to save fingerprint

A. Keep your finger pressed on the sensor slightly harder. Using a different finger may also improve authentication performance.

Fingerprint Sensor Cautions

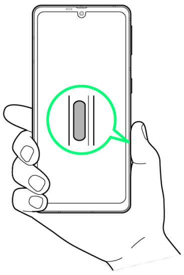
Observe the following when using Fingerprint Sensor.

- Do not hit or subject handset to excessive shock. Do not hit or subject handset to excessive shock. Do not scratch sensor surface or poke with a pen, pin, or other pointed object.
- Do not place stickers on sensor surface or mark with ink.
- Dust, smudges, or other soiling on sensor may affect authentication. Clean the Fingerprint Sensor surface from time to time.
- Holding finger to sensor for too short/long a time may affect authentication. Hold finger straight on sensor so that spiral of fingerprint is in center of sensor.
- Fingerprint Sensor may not activate if you start saving your fingerprint or performing authentication with your finger on the sensor. Release it and retry.
- To save or authenticate your fingerprint, press Fingerprint Sensor firmly.

Performing Fingerprint Authentication

1

In authentication window, hold finger to sensor



🏁 Fingerprint is authenticated.

- Hold finger to Fingerprint Sensor while Display is off (screen lock) to unlock screen. See "Display Settings" for details.

Troubleshooting

Q. Fingerprint is not authenticated

A. Remove finger then try authenticating again.
Or, Flick lock screen up and unlock screen using backup unlock method set when saving fingerprint.

Updating the System

Check whether system updates are required via the network, and update manually as required. Checking/updating does not incur transmission fees.

Software Update Cautions

Applications

Applications may be updated or newly added, or names, icons, operations and user interfaces of applications may be changed.

System Update Cautions

Observe the following before a system update.

- It may take time to update the system.
- Operate handset where signal reception is good and without changing location. Also operate with adequate battery charge. Signal becoming weak or Battery becoming low during a system update may cause an update failure (an update failure may disable handset).
- Never remove SIM Card or power off handset during a system update. Doing so may cause the update to fail. An update failure may disable handset. If handset becomes disabled, contact Customer Service.

Data Backup

Saved data may be lost depending on condition of handset (malfunctioning, damaged, water seepage, etc.). It is recommended that you back up important data before updating the system. SoftBank Corp. is not responsible for damages from loss of data.

Updating the System

Notification appears when a system update is required. Tap the notification and follow onscreen prompts. If notification does not appear, check whether a system update is required as follows and update the system.

1

In Home Screen, ⚙ (Settings) ➔ System

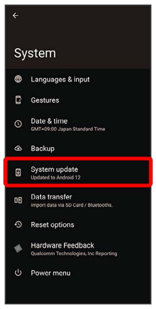
2

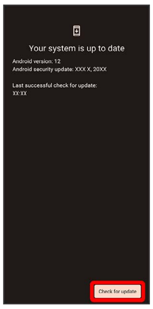
System update



System update window appears.

3

Check for update



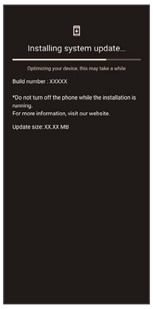
Your system is up to date

Android version: 12
Android security update: XXX X, 20XX

Last successful check for update:
XX:XX

4

Continue by following onscreen prompts



Installing system update...

Optimizing your device, this may take a while

Build number : XXXXX

*Do not turn off the phone while the installation is running.
For more information, visit our website.

Update size: XX.XX MB

System update begins.

- Use other functions during a system update. However, for 10 days after a system update notification, update installation pauses while using other functions. Tap Resume to restart the installation and also use other functions.
- After the system update proceeds, Restart now appears at the end. Tap and complete the system update.

If Handset Does Not Restart after Tapping "Restart now"

An update failure may disable handset. If handset is disabled, contact your contracted SoftBank Customer Service.

Using ROBOQUL

When charging using ROBOQUL and handset is powered on, ROBOQUL swivels when Display lights up, at start of charging, for incoming calls, alarms, etc. If emopa is enabled, ROBOQUL makes an audio notification as it swivels.

ROBOQUL Firmware Updates

ROBOQUL firmware is updatable. When an update is required, "Updating ROBOQUL" appears on handset when connected to ROBOQUL. Follow onscreen prompts to update firmware.

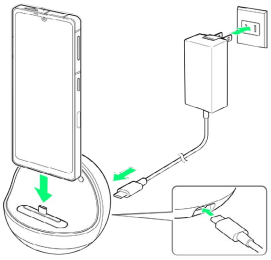
- To update firmware, the following conditions are required.
  - ROBOQUL is connected to an AC Adaptor
  - Handset is placed in ROBOQUL
  - Handset is connected to the network
  - At least 30% battery is remaining
- The firmware update will be interrupted if the battery becomes too low or handset/AC Adaptor is removed from ROBOQUL. ROBOQUL will become unusable if a firmware update is interrupted. Make sure that the required conditions are met, and then connect handset to ROBOQUL again and complete a firmware update.
- Handset checks for firmware updates via the network once a week when placed in ROBOQUL. Firmware is also updated via the network. Transmission fees are incurred when using the network.

Before Using ROBOQUL

You must set permissions for ROBOQUL to use functions beforehand.

1

Power on handset and charge with ROBOQUL



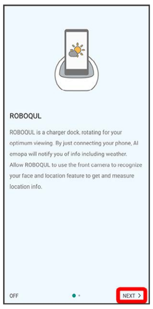
2

Unlock screen with handset placed in ROBOQUL

Description of ROBOQUL appears.

3

NEXT

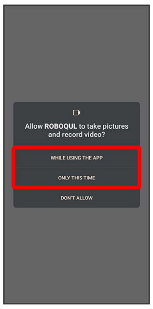


ROBOQUL

ROBOQUL is a charger dock, rotating for your optimum viewing. By just connecting your phone, AI emopa will notify you of info including weather. Allow ROBOQUL to use the front camera to recognize your face and location feature to get and measure location info.

4

WHILE USING THE APP / ONLY THIS TIME

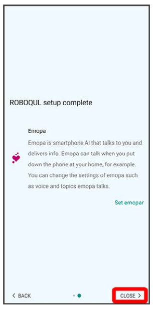


Allow **ROBOQUL** to take pictures and record video?

- For several functions, continue in the same way.

5

CLOSE



ROBOQUL setup complete

Emopa

Emopa is smartphone AI that talks to you and delivers info. Emopa can talk when you put down the phone at your home, for example. You can change the settings of emopa such as voice and topics emopa talks.

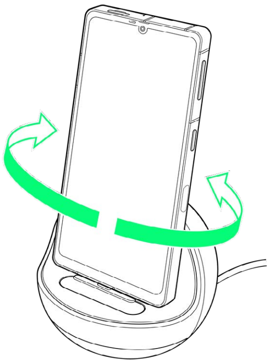
ROBOQUL setting is complete.

- To make emopa settings, Tap Set emopar , then follow onscreen prompts.

Setting ROBOQUL

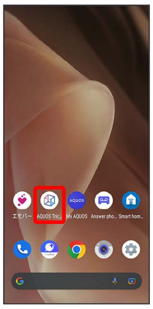
Set whether ROBOQUL swivels while charging with ROBOQUL.

- When enabled while charging using ROBOQUL and handset is powered on, ROBOQUL swivels when Display lights up, at start of charging, for incoming calls, alarms, etc.



1

In Home Screen, (AQUOS Tricks)



AQUOS Tricks menu opens.

Handset Interface

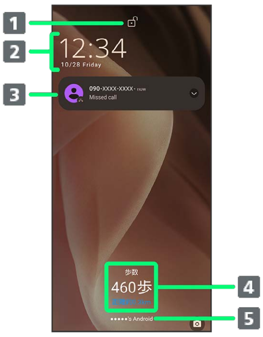
Handset Screens

Lock Screen Layout

Lock screen appears at power on or when Power Key is Pressed while Display is turned off (screen lock active).

From lock screen, unlock screen, or (Camera) (Flick screen from bottom right up to the left).

By default, Wallpaper changes randomly each time lock screen appears (Lock Photo Shuffle). Change Wallpaper for lock screen as needed. See "Changing Wallpaper" for details.



1 Display screen lock status.

2 Time and date appear here.

3 Notifications of incoming calls/messages or from applications, etc. appear here.[1]

4 Messages and news from emopa appear here (emopa area).[2]

5 Show message set for lock screen.[3]

[1] If Organize notifications on the lock screen is enabled, a notification viewed the first time does not appear the second and subsequent times. See "Display Settings" and "Notifications" for details.

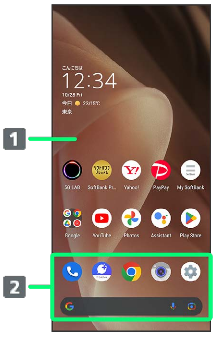
[2] Appear when emopa is configured. See "エモパーを利用する (https://www.softbank.jp/mobile/support/manual/smartphone/aquos-sense7-plus/menu/22455/)" (Japanese) for details.

[3] Appears when Add text on lock screen is set. See "Display Settings" for details.

Home Screen & App List

Most handset operations start in Home Screen or in app list. Flick Home Screen up to display app list and activate applications or change handset settings (To change Home Screen, switch to another home screen app.)

Home Screen Layout



1 Desktop sheet

Place application shortcuts, folders, widgets freely. Flick left/right to toggle sheets.

2 Favorites Tray

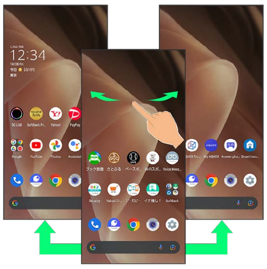
Place application shortcuts and folders freely. Activate applications quickly from any Home Screen sheet or use Google™ Search Bar.

Toggling Home Screen Sheets

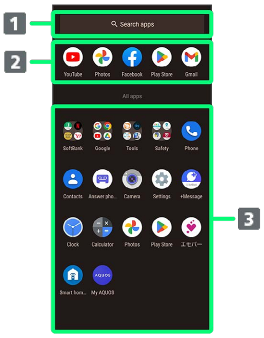
Home Screen consists of several sheets.

Flick left/right to toggle Home Screen sheets.

- Adding widgets and function shortcuts in Home Screen adds more Home Screen sheets. See "Adding Shortcuts" and "Adding Widgets" for details.



App List Layout



1 Search for application

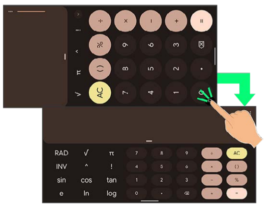
2 View predicted applications

3 App list
Tap to activate applications. See "Activating Applications" for details.

Portrait Orientation & Landscape Orientation

⟳ appears in Navigation Bar when handset is rotated horizontally. Tap ⟳ to switch current screen to landscape orientation. To switch screen to portrait orientation, rotate handset vertically and Tap ⟳ .

Enable Auto-rotate screen to allow current screen to switch to landscape orientation when handset is rotated sideways. See "Quick Settings Window Layout," "Display Settings," and "Accessibility" for details.



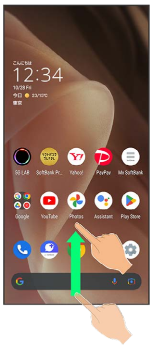
Multi-Window

Split screen to view and operate two applications.

- Viewing in Multi-Window is not available for some applications.

1

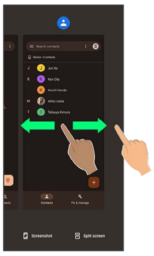
Drag bottom of Display up



🏁 Recent apps window opens.

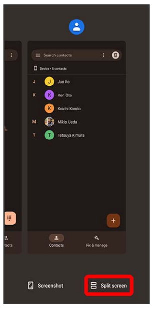
2

Drag recently used applications to the left or right and Tap application to use in history



3

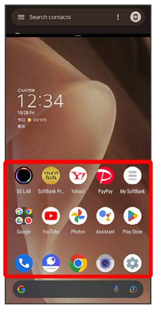
Split screen



🏁 Multi-Window opens, and selected application opens at top of Display.

4

In Home Screen/app list, Tap application to use



Tapped application opens at bottom of Multi-Window.

- Alternatively, in recent apps window, Tap icon of application in list → Split screen to split the screen.

Multi-Window Operations

Changing Top/Bottom Areas of Multi-Window

Drag pane bar (▬) up or down

Switching between Applications

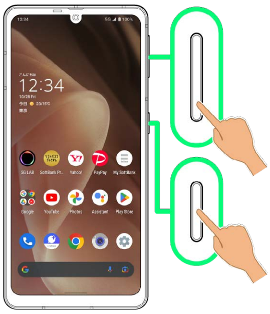
Flick ▬ up → Tap application

Exiting Multi-Window

Flick pane bar (▬) up/down

Capturing Screenshots

Press Power Key and Volume Down Key at the same time to capture a screenshot of the current screen.

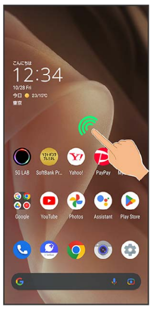


- May be unavailable for some applications.
- View captured screenshots in (Photos), etc.
- After capturing a screenshot, tap Capture more to zoom in/out to an area not shown in the screenshot, and save. Follow onscreen prompts. Some screens may not be supported.
- Alternatively, use Clip Now and drag Display from corner to center to capture a screenshot. See "Capturing Screenshots (Clip Now)" for details.

Changing Wallpaper

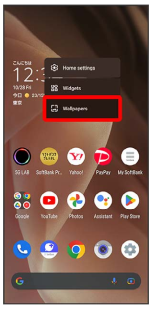
1

Touch & Hold open area of Home Screen



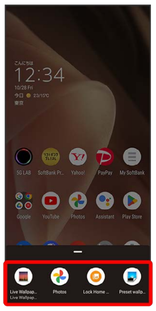
2

Wallpapers



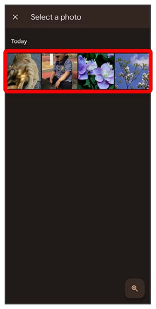
3

Tap application ((Photos) etc.)



4

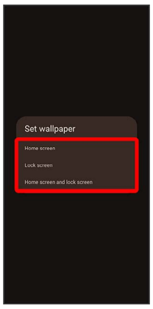
Select image



- Operations may vary depending on selected item. Follow onscreen prompts.

5

Home screen / Lock screen / Home screen and lock screen



Setting is complete.

- Operations may vary depending on selected item. Follow onscreen prompts.
- Tap Home screen to set the image as Wallpaper for Home Screen only.
- Tap Lock screen to set the image as Wallpaper for lock screen only.
- Tap Home screen and lock screen to set the image as Wallpaper for both Home Screen and lock screen.

Wallpaper Change Operations

Using Lock Photo Shuffle/Home Photo Shuffle

Change Wallpaper randomly each time lock screen/Home screen appears.

Touch & Hold open area of Home Screen → Wallpapers → Lock Home Photo Shuffle → Lock Photo Shuffle / Home Photo Shuffle (●) → Select folder → Select images to show with Lock Photo Shuffle/Home Photo Shuffle (☑)

- Selected images appear randomly.
- Tap Shuffle interval setting to select the interval at which images are randomly switched.
- Tap Check selected images to check selected images.
- Alternatively, in Home Screen, ⚙ (Settings) → AQUOS Tricks → Lock Home Photo Shuffle to use Lock Photo Shuffle/Home Photo Shuffle.

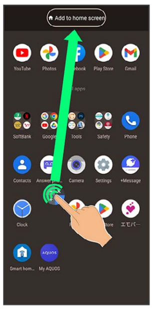
Using My AQUOS

Touch & Hold open area of Home Screen → Wallpapers → My AQUOS My AQUOSからダウンロード → Follow onscreen prompts

Adding Shortcuts

1

In app list, Touch & Hold application and Drag to "Add to home screen"

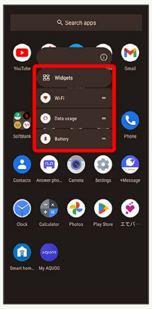


Shortcut is added automatically.

Function Shortcuts

With some applications, Touch & Hold for shortcuts to functions. Touch & Hold function shortcut then release finger at location in Home Screen to add function shortcut.

- Drag to sheet visible at edge of Display to toggle sheets and add function shortcut. Drag to rightmost sheet to add one more sheet and add.



Deleting Shortcuts

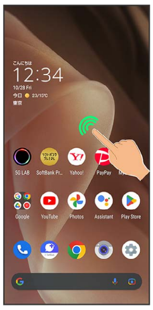
In Home Screen, Touch & Hold icon → Drag to "Remove"

Adding Widgets

Add Chrome™ bookmarks, Analog clock, etc. as follows.

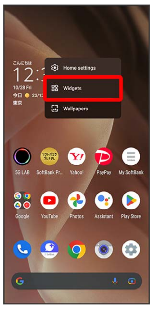
1

Touch & Hold open area of Home Screen



2

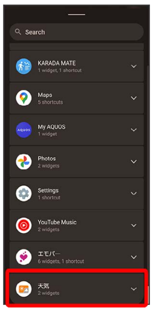
Widgets



A list of widgets opens.

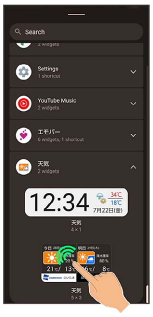
3

Tap application name of widget to add



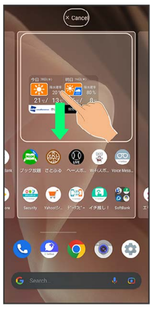
4

Touch & Hold widget



5

Drag to location to add widget



Widget is added.

- Drag to sheet visible at edge of Display to toggle sheets and add. Drag to rightmost sheet to add one more sheet and add.

Removing Widgets

In Home Screen, Touch & Hold widget → Drag to "Remove"

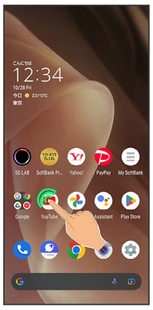
Adding Folders

Add folders to collect icons.

- Folders can also be created in Favorites Tray and app list.

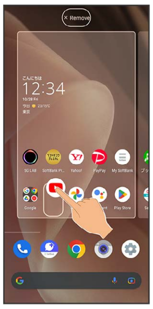
1

In Home Screen, Touch & Hold icon to place in folder



2

Drag to another icon to group with



🏁 Folder is added, and two icons are saved in the folder.

Folder Operations

Changing Folder Names

In Home Screen, Tap folder → Tap area to enter folder name at bottom of window → Enter folder name → ✓

- Change folder names the same way in Favorites Tray and app list.

Placing Icons in Folder

In Home Screen, Touch & Hold icon → Drag to folder

- Place icons the same way in Favorites Tray and app list.

Moving Icons Out of Folder

In Home Screen, Tap folder → Touch & Hold icon → Drag it out of folder

- Move icons the same way in Favorites Tray and app list.

Deleting Folders

In Home Screen, Touch & Hold folder → Drag to "Remove"

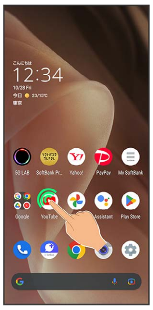
- Delete folders the same way in Favorites Tray.
- Applications in folder are also deleted.

Moving Icons/Widgets

Icons can also be rearranged in Favorites Tray and app list.

1

In Home Screen, Touch & Hold icon/widget



2

Drag to target location

🏁 Icon/widget is moved.

- To a folder:Drag icon to target folder.

Making Home Screen Settings

Settable items are the following.

Item	Description

Setting is complete.

Gaming Menu Settings Operations

Setting Applications that Have Gaming Menu Applied

In Gaming Menu settings, App list → Tap application

- Tap application name to toggle on (●)/off (○).
- Applications with gaming menu applied are displayed below "Individual Game Settings."

Setting Whether to Disable "Return" (Back) Action in Gesture Navigation, Automatic Brightness Adjustment, or Clip Now, etc.

Tap the application icon below "Individual Game Settings" in the Gaming Menu settings screen → ○ / ● for "Behavior block"

- Set the applications to which gaming menu will be applied in App list beforehand.
- Tap ○ to toggle on (●), ● to toggle off (○).
- Behavior block → Tap function to block to toggle option on (☑)/off (■).

Setting Whether to Block Notifications while Games are Running

Tap the application icon below "Individual Game Settings" in the Gaming Menu settings screen → Block notifications while games are running

- Set applications to which gaming menu will be applied in App list beforehand.
- Tap Block notifications while games are running to toggle on (●)/off (○).

Setting Whether to Block Incoming Calls while Games are Running

Tap the application icon below "Individual Game Settings" in the Gaming Menu settings screen → Block incoming phone calls while game is running

- Set applications to which gaming menu will be applied in App list beforehand.
- Tap Block incoming phone calls while game is running to toggle on (●)/off (○).

Setting Whether There Are Sensor-Disabled Areas at Top, Bottom, Left, and Right Edges of Display

Tap the application icon below "Individual Game Settings" in the Gaming Menu settings screen → Edge control

- Set applications to which gaming menu will be applied in App list beforehand.
- Tap Edge control to toggle on (●)/off (○).

Setting Whether to Smoothly Display Screen While Games are Running

Tap the application icon below "Individual Game Settings" in the Gaming Menu settings screen → High-speed display

- Set applications to which gaming menu will be applied in App list beforehand.
- Tap High-speed display to toggle on (●)/off (○).
- See "High-Speed Display Settings" for details on High-speed display.

Setting Whether to Optimize Image Quality of Games

In Gaming Menu settings, Game image quality

- Tap Game image quality to toggle on (●)/off (○).

Setting Display Resolution of Games with Gaming Menu Applied

In Gaming Menu settings, Performance → Prioritize high-definition display / Give priority to light action → QUIT GAME AND APPLY.

- Applying the settings may cause an active game to close automatically.

Setting Whether to Display Gaming Menu Floating Icon while Games Are Running

In Gaming Menu settings, View Menu

- Tap View Menu to toggle on (●)/off (○).

Checking How to Use Gaming Menu

In Gaming Menu settings, How to use → Follow onscreen prompts

Setting Search Strings to Search on Web Site or within YouTube from Gaming Menu

In Gaming Menu settings, Search settings → Tap keyword settings field → Input search string → ✓

- Search by "game name keyword."

Setting Whether Tapping G or ▶ in Gaming Menu Shows 🎮

Tap 🎮 to switch easily between game screen and website or YouTube.

In Gaming Menu settings, Search settings → Display / Do not display

Setting Whether to Display Notifications to Activate "App list" When Application is Installed

In Gaming Menu settings, Notify when installing.

- Tap Notify when installing. to toggle on (●)/off (○).

Checking FAQ on Sharp Website

In Gaming Menu settings, FAQ

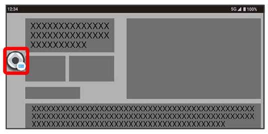
Checking Information on Elite Gaming

In Gaming Menu settings, Elite Gaming

Opening Gaming Menu

1

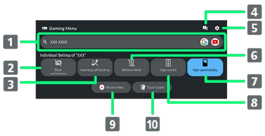
Tap the game application floating icon while the target application is running.



🏁 Gaming Menu opens.

- If the bubble function is disabled, the floating icon will not display even when running a game with the gaming menu applied. Set Allow apps to show bubbles to enable. See "Notifications" for details.

Gaming Menu Layout



1 Set keywords in Search settings to search on website, within YouTube, etc.

2 Toggle Block notifications on/off.

3 Toggle Incoming call blocking on/off.

4 Search for any issues with a currently running application.
Go to the Sharp Website and search with keywords " (game name) + bug" in FAQ.

5 Activate Gaming Menu setting screen

6 Toggle Behavior block on/off.

7 Toggle High-speed display on/off.

8 Toggle Edge control on/off.
Change the Sensor-Disabled Areas as needed.

9 Record screens while games are running.

10 Activate touch guard.

Phone

Placing/Answering Calls

How to dial directly to make a call and answer a call, as well as options when a call is arriving/during a call are described.

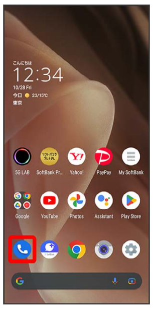
Support for VoLTE/VoLTE (HD+) and HD Voice

Handset supports VoLTE/VoLTE (HD+) and HD Voice for high-quality call sound. See "Using VoLTE/VoLTE (HD+)" and "HD Voice" for details.

Placing Calls

1

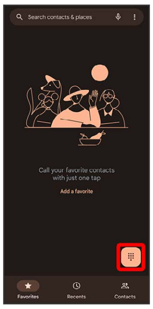
In Home Screen, ☎ (Phone)



Phone opens.

2

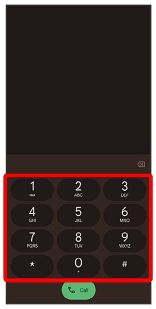
⠿



Dialpad window opens.

3

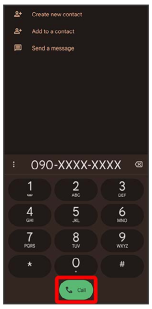
Use onscreen dialpad to enter number



- Include area code for landline numbers.
- To correct number, Tap ⌫ to delete digit(s), then enter correct number.

4

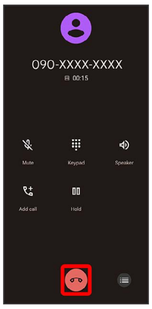
Call



Handset dials number. Call begins when other party answers.

5

To end call, ☎



Call ends.

Emergency Calls

Emergency Location Report

Making emergency calls (110, 119 or 118) automatically reports handset location to corresponding agency (police, etc.). This system is referred to as Emergency Location Report, and notifies location based on positioning from base stations.

- Location Report does not incur registration/transmission fees.
- Location/signal conditions affect positioning accuracy. Always provide location and call purpose.
- Hiding Caller ID (using 184, etc.) cancels Location Report. However, corresponding agency may obtain location information in life threatening situations.
- Location Report is not sent for calls made while outside Japan.

After Making an Emergency Call with Reject Call Enabled

Reject call is disabled for about two hours to receive calls from corresponding agency. To manually enable Reject call again after making an emergency call:

In Home Screen, ☎ (Phone) → ⋮ → Settings → Blocked numbers → Re-enable now

Calling Emergency Number When Handset Screen is Locked

In lock screen, Flick up → Emergency call → Enter number for emergency service → ☎

- Use if method for unlocking screen is setting other than None or Swipe . See "Setting Screen to Unlock by Tracing Pattern," "Requiring Lock No. (PIN) Entry for Unlocking Screen," and "Setting Screen to Unlock with Password" for details on screen lock methods.

Troubleshooting

Q. Call does not connect

A. Did you dial all digits for the number? Dial all digits for numbers starting with a "0" area code, etc.

A. Is the signal weak? Change locations and call again.

Emergency Call Cautions

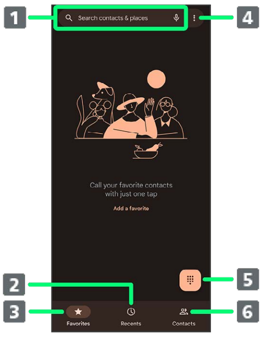
Areas Where Usable

Emergency calls from handset can be made only in SoftBank service areas.

Airplane Mode

Note that emergency calls cannot be made in Airplane mode. Use Quick Settings to exit Airplane mode.

Phone Window Layout



1 Search field.
Search contacts and locations. Tap 🎙 to voice search.

2 Show call history.

3 Show favorites.

4 Open menu.

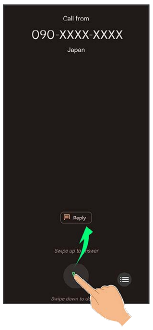
5 Show dialpad.

6 Show contacts.

Answering Calls (Display Off)

1

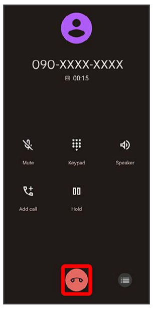
Flick 📞 up when call is arriving



Call connects.

2

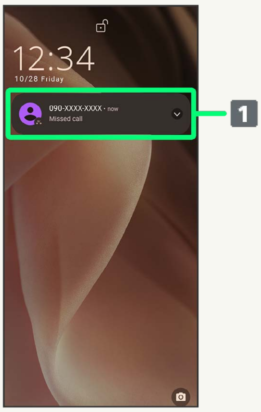
To end call, 📞



Call ends.

Missed Calls

For unanswered calls, notification appears in lock screen.



1 Notification

- Tap notification twice to check missed call records and call back as needed.
- When screen is unlocked, 📵 appears on Status Bar. Flick Status Bar down for Notifications Window, then Tap notification. When CALL BACK / MESSAGE appear below notification, Tap to call back or send SMS.

Arriving Call/Answer Phone Operations

Answering with Answer Phone

During call, ≡ → Absence Memo

- When screen is unlocked, Incoming call → ≡ → Absence Memo .

Playing Back Answer Phone Messages

In lock screen, Tap notification twice → Tap message

- When screen is unlocked, Flick Status Bar down for Notifications Window, then Tap notification → Tap message.
- To stop playback, Tap ⏸ .

Editing Subjects of Answer Phone Messages

In Home Screen, 📼 (Answer phone) → Touch & Hold message → Edit Subject → Tap Subject field → Enter subject name → OK

Copying Answer Phone Messages to Internal Storage/SD Card

In Home Screen, 📼 (Answer phone) → Touch & Hold message → Export → ≡ → AQUOS sense7 plus / SD card → Select where message is saved → USE THIS FOLDER → ALLOW → OK

Rejecting Arriving Calls

As call is arriving, Flick 📞 down

- When screen is unlocked, Tap DECLINE .

Not Answering Call and Sending SMS

As call is arriving, Reply → Tap message to send

- When screen is unlocked, Incoming call → Reply → Tap message to send.
- Tap Write your own... to create and send message.

Forwarding Arriving Calls

During call, ≡ → Forwarding

- When screen is unlocked, Incoming call → ≡ → Forwarding .
- Set a phone number to forward calls to beforehand. See "Call Forwarding" for details.

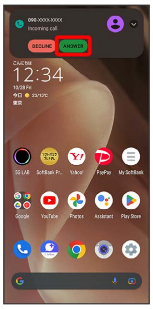
Stopping Ringtone and Vibration

As call is arriving, Volume Up/Volume Down Key

Answering Calls (Display On)

1

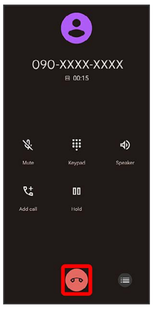
When call is arriving, ANSWER



Call connects.

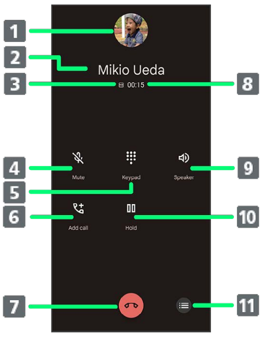
2

To end call, ☎



Call ends.

Call Window Layout/In-Call Operation



1 Other party photo.
2 Other party name/number.
3 HD Voice (HD)/HD+ Voice (HD+) call in progress.
4 Mute own voice.
5 Show dialpad.
6 Add call.
7 End call.
8 Call time.
9 Use Speakerphone.
10 Place call on hold.
11 Open menu.

In-Call/Voice Memo Operations

Adjusting Call Volume

During call, Volume Up/Down Key

Recording Call (Voice Memo)

During call, ≡ → Voice Memo

- To end recording, Tap Stop .

Dialing Tone Referencing Contacts

During call, ≡ → Address Book

Playing Back Voice Memos

In Home Screen, (Answer phone) → Voice Memo → Tap Voice Memo

- To stop playback, Tap ⏸ .

Editing Subjects of Voice Memos

In Home Screen, (Answer phone) → Voice Memo → Touch & Hold message → Edit Subject → Tap Subject field → Enter subject name → OK

Copying Voice Memos to Internal Storage/SD Card

In Home Screen, (Answer phone) → Voice Memo → Touch & Hold message → Export → ≡ → AQUOS sense7 plus / SD card → Select where message is saved → USE THIS FOLDER → ALLOW → OK

Troubleshooting

Q.	Difficulty with call
A.	It may be difficult to make a call in a location with noise.
A.	Check the call volume when using Speakerphone. It may be difficult to make a call with a raised call volume.

Q.	The other party cannot hear me
A.	Are you covering Mic/Recorder Mic on the bottom surface of handset with your finger, etc.? Make sure not to cover Mic/Recorder Mic.
A.	Have you muted handset? The other party cannot hear you if handset is muted.

Q.	Sound experiences popping during a call
A.	Are you moving location during a call? Popping may occur when switching areas for a better signal. This is not a malfunction.

Using VoLTE/VoLTE (HD+)

VoLTE (Voice over LTE) is a system enabling voice calls over LTE networks. Compared to voice calls over conventional 3G connections, high-sound quality calls and reduced time until ringtones sound are possible. VoLTE (HD+) provides a clearer and more natural quality call than conventional VoLTE.

- VoLTE/VoLTE (HD+) are available when the counterpart model is respectively a VoLTE- or VoLTE (HD+)-compatible model from SoftBank/Y!mobile. In addition, it is necessary for both handset and the counterpart model to be within the SoftBank 4G LTE (FDD LTE) service area, with "Preferred network type" set to "5G (recommended)" or "4G".
- See "Service web page (https://www.softbank.jp/mobile/service/global/overseas/volte/)" (Japanese) for information on countries and regions where VoLTE international roaming is supported.

VoLTE/VoLTE (HD+) Cautions

VoLTE/VoLTE (HD+) use 4G network service, and are unavailable when 4G network service is disabled on handset. If VoLTE/VoLTE (HD+) are unavailable, follow the steps below to check whether 4G network service is enabled (○).

In Home Screen, (Settings) → Network & internet → Mobile network → Preferred network type

- If disabled (●), Tap 5G (recommended) / 4G to enable it (○).

HD Voice

HD Voice supports a wide range of audio tones for clearer, more natural-quality voice calls.

- Available when the counterpart model is an HD Voice-compatible model from SoftBank/Y!mobile.
- HD Voice is compatible with VoLTE and 3G network. Use HD Voice with VoLTE for voice calls of even higher quality.

Optional Services

Use these optional services for voice calls:

Optional Services

The following optional services are available.

Service	Description
Call Forwarding	Divert all/unanswered calls to a preset number.
Voicemail	Divert all/unanswered calls to Voicemail Center; access messages via handset/ touchtone phones.
Call Waiting[1]	Answer calls during a call.
Group Calling[1]	Merge multiple calls.
Notify Caller ID	Send or hide your number when placing calls.
Call Barring	Restrict incoming/outgoing calls by conditions.

1 Requires separate subscription.

5

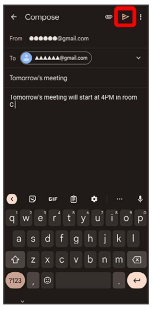
▷



Tomorrow's meeting

Tomorrow's meeting will start at 4PM in room C

Message is sent.

Operations when Creating Message

Adding Cc/Bcc Recipients

In message composition window, ⌄ in Recipient field → Enter recipient

---

Attaching Files

In message composition window, 📎 → Attach file → Select where file is saved → Select file

- To attach files saved in Google Drive™, select Insert from Drive .

Setting Date/Time to Send

In message composition window, ⋮ → Schedule send → Select date/time to send

- To set date/time to send in detail, select Pick date & time .

Selecting Recipients from Address Book

In message composition window, ⋮ → Add from Contacts → Select recipient

---

Setting Confidential Mode

In message composition window, ⋮ → Confidential mode → Set each item → SAVE

Saving Current Message as Draft

While creating message, ⋮ → Save draft

Discarding Current Message

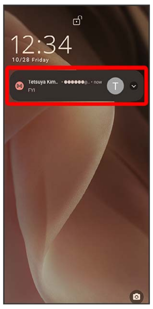
In message composition window, ⋮ → Discard → Discard

Opening New Gmail

When message arrives, new message notification appears in lock screen.

1

In lock screen, Tap new message notification twice



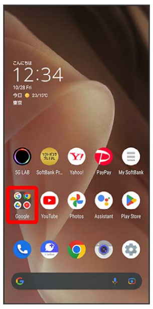
Message window opens.

- For two or more new messages, message list opens; Tap one.
- When screen is unlocked, M appears on Status Bar. Flick Status Bar down, then Tap notification.

Opening Gmail

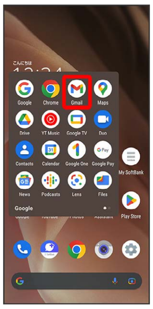
1

In Home Screen, (Google)



2

(Gmail)



Message list opens.

Message window opens.

Operations when Opening Messages

Replying to Messages

In message window, ↰ for message to reply to ➔ Create message ➔ ▷

- To reply to all, in message window, ⋮ for message to reply to ➔ Reply all .
- Alternatively, at bottom of message window, Tap Reply / Reply all .

Forwarding Messages

In message window, ⋮ for message to forward → **Forward** → Create message → ▷

- Alternatively, at bottom of message window, Tap **Forward** .

Resetting Messages as Unread

In message window, ✉

- Alternatively, in message list, Tap icon for message to reset as unread (✓) → ✉ → ← .

Deleting Messages

In message window, 🗑

- Alternatively, in message list, Tap icon for message to delete (✓) → 🗑 .

Archiving Messages

In message window, ⊡

- Alternatively, in message list, Tap icon for message to archive (✓) → ⊡ .

Syncing Accounts Manually

In message list, Flick down

- Sync sent and received messages manually at any time regardless of the automatic sync settings.

Internet

Using the Internet (Chrome)

Use Chrome simply by entering words to search for or URLs.

TLS

TLS (Transport Layer Security) is a protocol for encrypting sent/received data. While in a screen connected by TLS, data is encrypted to safely send/receive private information, credit card numbers, corporate secrets, etc., and provide protection against online threats (eavesdropping, falsification, impersonation, etc.).

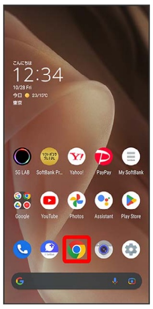
TLS Caution

When opening a secured page, users must decide as their responsibility whether or not to open the page with use of TLS. SoftBank Corp. and the Certification Authorities Symantec Website Security G.K. and Cybertrust make no guarantees whatsoever to users regarding security of TLS.

Using Chrome

1

In Home Screen, (Chrome)

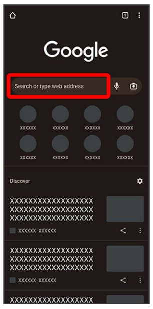


Chrome activates.

- If confirmation appears, follow onscreen prompts.

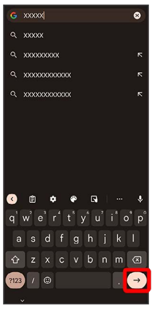
2

Tap Text entry field



3

Enter search string or URL → →



Search results appear or a Website opens.

Chrome Operations

Opening New Tabs

Open multiple Websites in different tabs to switch between them easily.

In Chrome, ⋮ → New tab

- To switch tabs, Tap ② and then target tab.
- Number in ② changes with number of tabs.

Viewing Websites without Leaving Browsing History, Cookies, Etc.

In Chrome, ⋮ → New incognito tab → Follow onscreen prompts

Opening Recent Tabs

In Chrome, ⋮ → Recent tabs → Tap tab

Closing Tabs

In Chrome, ② → ☒ for tab

- Alternatively, Flick tab left/right to close.
- Number in ② changes with number of tabs.

Searching within Website

In Chrome, ⋮ → Find in page → Enter search text

Search results are highlighted.

Saving (Downloading) Images

In Chrome, Touch & Hold image → Download image

- If confirmation appears, follow onscreen prompts.
- ☑ appears on Status Bar when image is saved (downloaded). To open the image, Tap download complete notification in Notifications Window.
- Open saved (downloaded) image from (Files), (Photos), etc.

Opening Saved (Downloaded) Image, Etc.

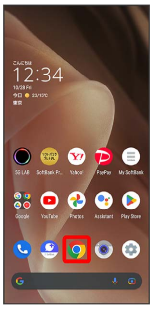
In Home Screen, (Google) → (Files) → Browse → Downloads → Tap image, etc.

- If confirmation appears, follow onscreen prompts.

Adding Bookmarks

1

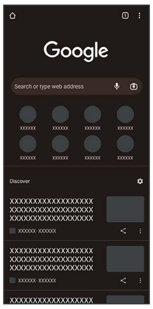
In Home Screen, (Chrome)



Chrome activates.

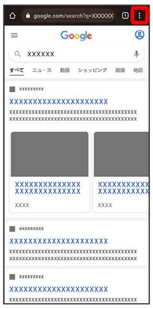
2

Show Website to add



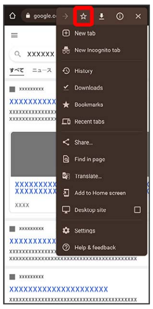
3

⋮



4

☆ (★)



Current Website is added to Bookmarks.

Bookmark Operations

Editing Bookmarks

In Chrome, ⋮ ➔ Bookmarks ➔ ⋮ for bookmark to edit ➔ Edit ➔ Edit each item ➔ ←

Moving Bookmarks

In Chrome, ⋮ ➔ Bookmarks ➔ ⋮ for bookmark to move ➔ Move to... ➔ Select location

- SoftBank folder and bookmarks in SoftBank folder cannot be moved.

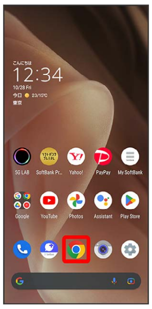
Deleting Bookmarks

In Chrome, ⋮ ➔ Bookmarks ➔ ⋮ for bookmark to delete ➔ Delete

Checking Browsing History

1

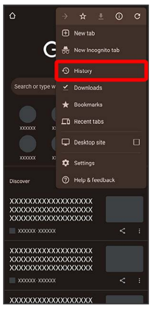
In Home Screen, (Chrome)



Chrome activates.

2

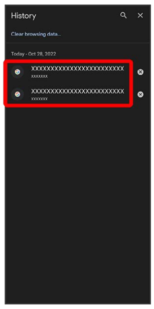
⋮ ➔ History



History window opens.

3

Tap record



Website opens.

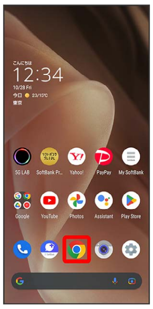
Setting Chrome

Make Chrome settings. Settable items are the following.

Item	Description
Turn on sync	Sign in to your Google Account and make settings for bookmarks, history, etc. View account information.
Google services	Set whether to use Google services.
Search engine	Select a search engine.
Passwords	Set whether to save user names and passwords by websites, confirm/delete websites that have saved passwords, etc.
Payment methods	Set whether to automatically enter payment information in forms, and edit credit card information.
Addresses and more	Set whether to automatically enter information such as residence addresses, phone numbers and mail addresses in forms, and edit residence addresses and other information.
Privacy and security	Set whether to allow sites to access your payment methods, clear browsing history, etc.
Safety check	Check whether handset is protected from unauthorized access to data and unsafe websites.
Notifications	Make notification settings.
Theme	Set a screen theme when using Chrome.
Homepage	Set a homepage.
Accessibility	Set text size, etc.
Site settings	Set whether to allow cookies, enable JavaScript, etc.
Languages	Make language settings.
Downloads	Set save destination, etc. for downloaded data.
About Chrome	View version information, etc. about Chrome.

1

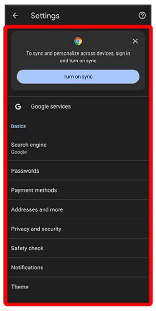
In Home Screen, (Chrome)



Chrome activates.

2

⋮ → Settings → Set items



To sync and personalize across devices, sign in and turn on sync

Settings are complete.

- For some items, additional settings may appear when Tapping the item.

Camera

Capturing Photos/Videos

Photos and videos taken with handset are saved to handset (internal storage).
To save them on SD Card, insert SD Card before using Camera, then change save location as follows.
In Home Screen, (Camera) → ⚙ → Common → Save To → SD card

Camera Cautions

General Use

Mind etiquette when using Camera.
Test Camera before shooting special moments.
Do not use Camera in places where shooting is prohibited.
Shot images may not be used/transferred without copyright holder (photographer) permission, except for personal use.

If Lens Becomes Dirty

Fingerprints/smudges on lens prevent capturing of clear images. Wipe lens with a soft cloth beforehand.

Avoid Exposure to Direct Sunlight

Be careful not to expose lens to direct sunlight for long periods. May discolor color filter and affect color of images.

Temperature of Handset During Shooting

Please note that the temperature of handset may increase due to processing when shooting for a long period of time.

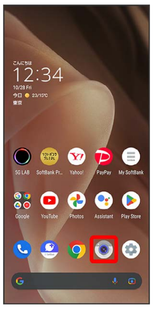
Mobile Light Warning

Do not turn on Mobile Light close to eyes, look directly at Mobile Light when on, or shine Mobile Light in eyes; may affect eyesight or cause other problems.

Capturing Photos

1

In Home Screen, (Camera)



- If confirmation appears, follow onscreen prompts.

2

Drag shooting mode at bottom to left/right and select Photo

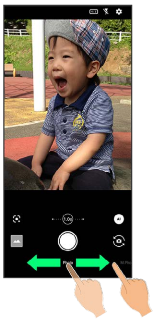


Photo Viewfinder appears.

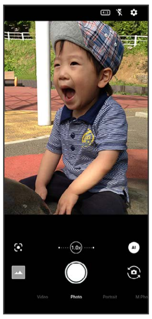
- Drag shooting modes at bottom to left/right to select Portrait , M.Photo , or Night See "写真撮影画面（マニュアル写真）の見かた (https://www.softbank.jp/mobile/support/manual/smartphone/aquos-sense7-plus/detail/64118/)" (Japanese) for manual photography, and "撮影モードを切り替える (https://www.softbank.jp/mobile/support/manual/smartphone/aquos-sense7-plus/detail/64117/)" (Japanese) for other shooting modes.

3

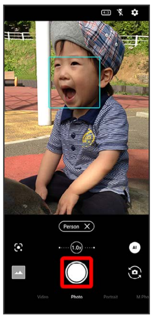
Aim Back Camera at subject



- Tap Display → Drag brightness adjustment bar up/down to adjust brightness.
- Tap subject to focus at location Tapped. Touch & Hold subject for focus lock. To cancel, Tap area outside the focus mark.
- See "Photo Viewfinder (Back Camera/Front Camera) Layout" for details on operation in Photo Viewfinder.

4

○ / Volume Up/Down Key



Shutter clicks and photo is saved.

- To capture continuously, Touch & Hold ○ or Press Volume Up/Down Key for 1+ seconds. Continuously captured photos are saved to internal storage.

Troubleshooting

Q. Camera exits suddenly

A. Continuing to use Camera while handset is warm causes warning to appear, and Camera exits.

A. Camera exits automatically after a period of inactivity.

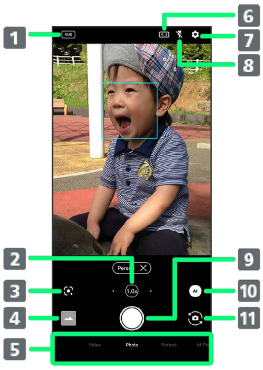
Q. Images are dark/grainy

A. Is there a strong light near the subject, or a strong light source in the screen? Avoid letting a strong light source (the sun, light, etc.) in the screen. Leaving handset in a warm place for a long time or where Camera is in direct sunlight for a long time may affect image quality.

Q. Images captured with Mobile Light appear whitish

A. A finger or cover near the lens can reflect light from Mobile Light and cause captured images to appear whitish.

Photo Viewfinder (Back Camera/Front Camera) Layout



1 HDR indicator[1]
Appears when HDR function activates for capture.

2 Camera switch[2]
Tap to toggle between Standard Camera and Wide-Angle Camera.
Pinch/Spread for zoom magnification adjustment bar.
Drag left/right to adjust[3] zoom magnification.
Standard Camera and Wide-Angle Camera change automatically according to zoom magnification.

3 Google Lens™[4]
Use Google Lens to copy text captured with Camera and to search for products.

4 Photos™/thumbnail
Open (Photos), or view immediately captured photo/video.

5 Shooting mode
Drag left/right to change shooting modes (Video / Photo / Portrait / M.Photo / Night [5] / Others).

6 Screen size
Change screen size.

7 Settings
Access various Camera settings.

8 Mobile Light[6]
Change Mobile Light setting.

9 Capture photo

10 Recognition icon[4, 7]
Tap to toggle AI recognition on (AI)/off (AI).
When AI recognition is enabled, scene and subject type (Person , Animals , Food , Whiteboard , Night Views (night mode)[5]) recognized by AI will be displayed.

11 Front/Back Camera switch
Switch between Front Camera and Back Camera.

---

1 Displayed when Auto HDR is enabled.
2 Available angles of view are limited with some shooting modes.
3 Alternatively, in Photo Viewfinder, Pinch/Spread.
4 Not displayed for Front Camera.
5 Capture pleasing night scenes. Avoid moving handset while capturing scene.

6 For Front Camera, the entire screen lights up as a flash when enabled, allowing for bright pictures of people even when taking selfies at night (selfie flash).

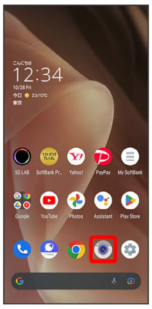
7 Shot is captured with recognized scene or optimal quality or shutter speed for subject. After capturing subject recognized as a whiteboard/blackboard, confirmation appears. Tap Yes to correct shot to appear viewed from in front.

- Indicators shown in Viewfinder and available zoom magnification/functions/settings vary depending on Camera type and shooting mode.

Recording Videos

1

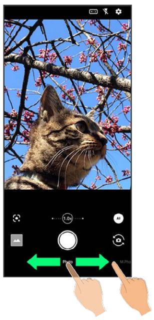
In Home Screen, (Camera)



- If confirmation appears, follow onscreen prompts.

2

Drag shooting mode at bottom to left/right and select Video

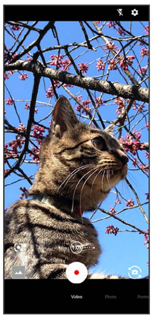


Video Viewfinder appears.

- Drag shooting modes at bottom to left/right to Others to select from Time Lapse , Slow Video , or M.Video . See "スロービデオモードで撮る (https://www.softbank.jp/mobile/support/manual/smartphone/aquos-sense7-plus/detail/64124/)" (Japanese) for slow video, "動画撮影画面（マニュアルビデオ）の見かた (https://www.softbank.jp/mobile/support/manual/smartphone/aquos-sense7-plus/detail/64119/)" (Japanese) for manual video, and "撮影モードを切り替える (https://www.softbank.jp/mobile/support/manual/smartphone/aquos-sense7-plus/detail/64117/)" (Japanese) for other shooting modes.

3

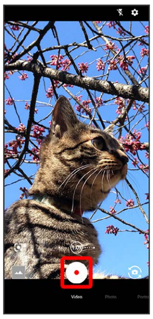
Aim Back Camera at subject



- Tap Display → Drag brightness adjustment bar up/down to adjust brightness.
- Tap subject to focus at location Tapped. Touch & Hold subject for focus lock. To cancel, Tap area outside the focus mark.
- See "Video Viewfinder Layout" for details on operation in Video Viewfinder.

4

⦿

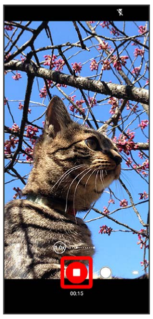


🏁 Video recording starts (window while capturing).

- During video capture, Tap ○ or Press Volume Up/Down Key to capture a photo. If **AI Live Shutter** is enabled during video shooting, the AI identifies smiling faces or the faces of dogs/cats, decides on the best image composition and automatically takes the shot.

5

■



🏁 Tone sounds and video is saved.

Troubleshooting

Q. Camera exits suddenly

A. Continuing to use Camera while handset is warm causes warning to appear, and Camera exits.

A. Camera exits automatically after a period of inactivity.

A. Stop recording when battery level is low. Charge handset adequately before using Camera.

Q. Images are dark/grainy

A. Is there a strong light near the subject, or a strong light source in the screen? Avoid letting a strong light source (the sun, light, etc.) in the screen. Leaving handset in a warm place for a long time or where Camera is in direct sunlight for a long time may affect image quality.

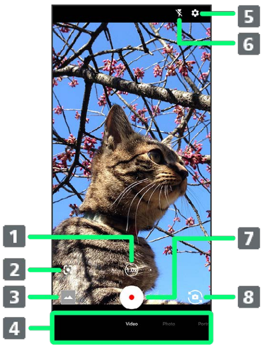
Q. Images captured with Mobile Light appear whitish

A. A finger or cover near the lens can reflect light from Mobile Light and cause captured images to appear whitish.

Caution for Temperature of Handset When Shooting

Please note that the temperature of handset may increase due to processing when shooting for a long period of time.

Video Viewfinder Layout



1 Camera switch[1]
Tap to toggle between Standard Camera and Wide-Angle Camera.
Pinch/Spread for zoom magnification adjustment bar.
Tap for zoom magnification adjustment bar. Drag left/right to adjust[2] zoom magnification.
Standard Camera and Wide-Angle Camera change automatically according to zoom magnification.

2 Google Lens
Use Google Lens to copy text captured with Camera and to search for products.

3 Photos/thumbnail
Open (Photos), or view immediately captured photo/video.

4 Shooting mode
Drag left/right to change shooting modes (Video / Photo / Portrait / M.Photo / Night / Others).

5 Settings
Access various Camera settings.

6 Mobile Light
Change Mobile Light setting.

7 Capture video

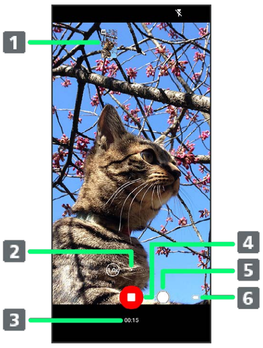
8 Front/Back Camera switch
Switch between Front Camera and Back Camera.

---

[1] Zoom magnification is not available in some shooting modes.
[2] Alternatively, in Video Viewfinder, Pinch/Spread.

- Indicators shown in Viewfinder and available zoom magnification/functions/settings vary depending on Camera type and shooting mode.

Video Viewfinder Layout While Capturing



1 Captured photo
Displayed when a still image is captured during video shooting. When AI Live Shutter automatically shoots a photo[1], AI appears at the top of the thumbnail.

2 Zoom magnification
Tap for adjustment bar. Drag left/right to adjust[2] zoom magnification.

3 Shooting time

4 Stop capturing

5 Photo capture

6 Battery level

---

[1] Operates when AI Live Shutter is enabled.
[2] Alternatively, in window while capturing, Pinch/Spread.

- Indicators shown in Viewfinder and available zoom magnification/functions/settings vary depending on Camera type and shooting mode.

Music & Images

Listening to Music (YT Music)

Enjoy a broad range of music contents including official albums and music videos. Playing back music saved to internal storage/SD Card is described as an example.

Sign in to a Google Account first, and in YT Music, X → Settings → Library & downloads and enable Show device files .

Play Music

Playing High-Resolution Audio

Handset supports high-resolution audio playback. To play high-resolution audio, a headset or speaker (commercially available) compatible to high-resolution is required.

Handset also supports Qualcomm® aptX™ HD audio, Qualcomm aptX Adaptive Audio and LDAC™.

File Formats

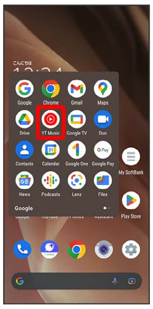
Supported file formats:

- 3GPP, MPEG-4, ADTS raw AAC, MPEG-TS, FLAC, GSM, MIDI, RTTTL/RTX, iMelody, MP3, MKV, WAVE, OGG

Playing Music

1

In Home Screen, (Google) → (YT Music)

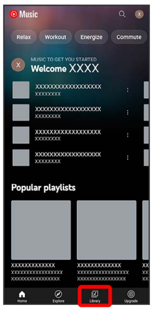


YT Music opens.

- If confirmation appears, follow onscreen prompts.

2

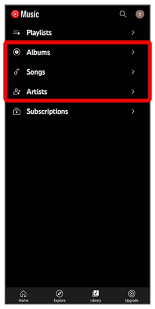
Library



Library opens.

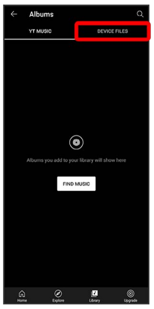
3

Albums / Songs / Artists



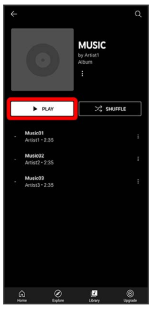
4

DEVICE FILES



5

Tap item → PLAY /Tap song



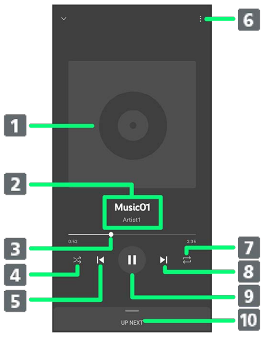
Song plays.

- For Songs (in 3), Tap song directly.

Opening Music Playback Screen

While playing song, Tap playback bar at Display bottom

Music Playback Screen Layout

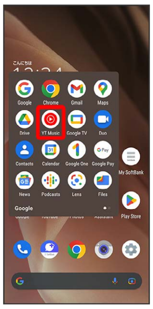


- **1** Song image.
- **2** Song title/artist.
- **3** Drag slider to adjust playback position.
- **4** Toggle shuffle playback on/off.
- **5** Play previous song/play current song from beginning.
- **6** Add to playlist, add to queue, etc.
- **7** Toggle repeat all songs, repeat current song, normal playback.
- **8** Play next song.
- **9** Pause/play.
- **10** Show list of songs.

Creating Playlists

1

In Home Screen, (Google) → (YT Music)

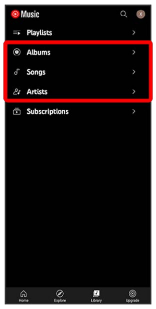


YT Music opens.

- If confirmation appears, follow onscreen prompts.

2

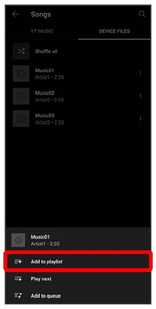
Library → Albums / Songs / Artists



- If selecting Albums / Artists , Tap album name/artist name.

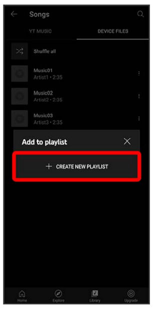
3

⋮ → Add to playlist



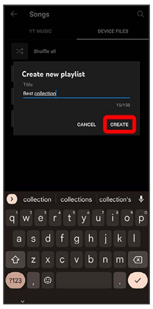
4

CREATE NEW PLAYLIST



5

Tap Title field → Enter title → CREATE



Playlist is created.

Adding Currently Playing Song to a Playlist

In Music Playback screen, ⋮ → Add to playlist → Tap playlist name

Song is added to playlist.

Viewing & Managing Photos/Videos (Photos)

View photos/videos saved in internal storage, on SD Card and in Google online storage. Viewing after logging in to a Google account is described.

Photos Cautions

If no photos or videos are saved on handset or SD Card, operations such as Focus playback in file view window may be unavailable. In file view window, Tap ⋮ → Download to save files to handset.

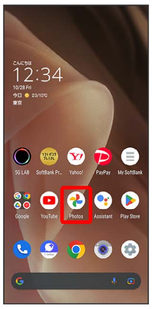
Viewing Photos/Videos

View captured/downloaded photos and videos.

Image	File format
Photo	JPEG, PNG, GIF, BMP, WebP, HEIF
Video	3GPP, MPEG-4, MPEG-TS, WebM, Matroska

1

In Home Screen, (Photos)

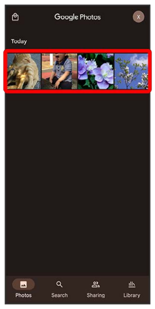


Photos opens.

- If confirmation appears, follow onscreen prompts.

2

Tap photo/video



Photo/video is played back (file view window).

Icons in Photos

Icons below appear according to shooting mode, settings, etc. used.

- ▦ appears for photos captured with Intelligent Framing. Tap photo for original image (captured photo) and a recommended image (intelligently framed photo) to appear at bottom of Display. Flick left/right in thumbnails to toggle original and recommended images. ▦ may not appear immediately after activating handset. Wait a while and then re-open photo.

Photo/Video Viewing Operations

Selecting Multiple Files

In Photos, Touch & Hold photo/video (✓) → Tap another photo/video

- Tap photo/video to toggle selected (✓)/unselected (○).

Changing Photos Window Layout

In Photos, Pinch/Spread

- View changes between large view, day view, and month view.

Creating Album or Shared Album

In Photos, Library → Create album / New album → Follow onscreen prompts

Creating Animation, Collage, or Movie

In Photos, Library → Utilities → Animation / Collage / Movie → Follow onscreen prompts

Checking Photo or Video Details

In file view window, ⋮

- If ⋮ is hidden, Tap Display first.
- Also displayed when Flicking Display up.

Adding Photos/Videos to Album

In file view window, ⋮ → Add to album → Follow onscreen prompts

- If ⋮ is hidden, Tap Display first.

Archiving Photos/Videos

In file view window, ⋮ → Move to Archive

🏁 Shown image is moved to Archive.

- In Photos, Library → Archive to view archived photo/videos.
- If confirmation appears, follow onscreen prompts.
- If ⋮ is hidden, Tap Display first.

Saving Photos/Videos on Handset

In file view window, ⋮ → Download

- If ⋮ is hidden, Tap Display first.

Deleting Photos/Videos from Handset

In file view window, ⋮ → Delete from device → Delete from device

- Backup data in Google online storage is not deleted.
- If ⋮ is hidden, Tap Display first.

Moving Photos/Videos to Locked Folder

In file view window, ⋮ → Move to Locked Folder → Move

- Set pattern / lock no. (PIN) / password for unlocking screen beforehand.
- In Photos, Library → Utilities → Locked Folder → Enter pattern / lock no. (PIN) / password to view moved photos/videos.

Using Slideshow

In file view window, ⋮ → Slideshow

- To stop slideshow, Tap image.
- If ⋮ is hidden, Tap Display first.

Checking How to Use ✿ (Photos)

In file view window, ⋮ → Help & feedback

- If ⋮ is hidden, Tap Display first.

Ordering Photo Print

In file view window for photo, ⋮ → Order photo → Photo print → Follow onscreen prompts

- If ⋮ is hidden, Tap Display first.

Saving Images as Wallpapers or in Address Book Contact Photos

In file view window for photo, ⋮ → Use as → Follow onscreen prompts

- If ⋮ is hidden, Tap Display first.

Printing Photos

In file view window for photo, ⋮ → **Print** → Follow onscreen prompts

- Also use to save images to internal storage or SD Card in PDF format.
- If ⋮ is hidden, Tap Display first.

Setting Whether to Play Back Videos in Loop

In file view window for video, ⋮ → **Loop video off** / **Loop video on**

- If ⋮ is hidden, Tap Display first.

Saving Frame from Video as Photo (Atokara Capture)

In file view window for video, ⋮ → **Edit in Atokara Capture** → Drag ● left/right to view frame to capture → ⊛

🏁 Shown frame is saved to internal storage/SD Card.

- If ⋮ is hidden, Tap Display first.
- To move backward/forward frame by frame, Tap ◁‖ / ‖▷ or Drag frame left/right. Frame may not be shown depending on the video size.
- To save the current image as a photo and share it, Tap <. Follow onscreen prompts.
- Install additional application capable of image editing to change shown content.

Selecting Video Playback Application

In file view window for video, ⋮ → **View in** → Tap application

- Select application for video playback from multiple applications.
- If ⋮ is hidden, Tap Display first.

Zooming In/Out on Photos

In file view window for photo, Tap Display twice or Pinch/Spread

Playing Back Video Focused In

AI recognizes people and pets and zooms in automatically during playback (enlarged view).

In file view window for video, **Focus playback**

🏁 Video plays with main window and subwindow.

- Tap subwindow to toggle full view/enlarged view.
- Automatically zoomed subject and zoom magnification depend on playback timing.
- To change the zoomed subject, Tap the subject to zoom in on in full view twice. AI may be unable to detect the subject (subject size, distance, speed, etc.); in this instance, subject remains the same.
- Playback may zoom even when a subject is not present.
- The optimal zoom magnification is set according to capture size, distance to subject, etc. Zooming and zoom magnification are completely automatic.
- Unavailable with videos captured with Front Camera.

Application Basics

Confirmation when First Activating Applications

Set the operation of applications when activating for the first time.
The type and content of a confirmation differ with the application. The following explains confirmation: First things first.

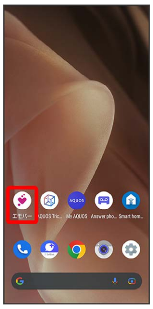
Setting Required Permissions for Applications

Permit applications to use data on handset, Camera, etc.
Initial setting of エモパー is described as an example.

- Permission may also be required for applications running in the background.
- An application may not function correctly if permission to use it is not set.
- If the permission is not set twice in a row for the same privilege, confirmation will not appear.

1

In Home Screen, 💗 (エモパー)

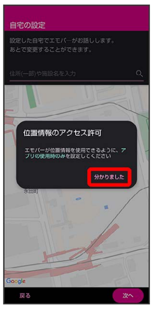


🏁 An initial setting screen appears.

- Continue by following onscreen prompts.

2

When access permission screen for location information appears, **分かりました**



自宅の設定

設定した自宅でエモパーがお話しします。
あとで変更することができます。

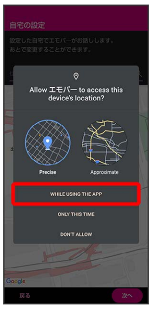
住所(一部)や施設名を入力

位置情報のアクセス許可

エモパーが位置情報を使用できるように、アプリの使用時のみを設定してください

3

WHILE USING THE APP

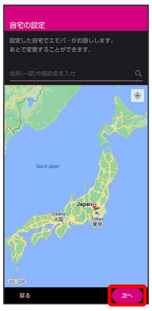


Allow エモパー to access this device's location?

- Select **Precise** to allow the use of precise location information or **Approximate** to allow the use of approximate location information.

4

Set home and **次へ**



自宅の設定

設定した自宅でエモパーがお話しします。
あとで変更することができます。

住所(一部)や施設名を入力

Other Ways to Set Required Permissions for Applications

Setting Functions to Use by Application

In Home Screen, ⚙ (Settings) ➔ **Apps** ➔ **See all XX apps** ➔ Tap application name ➔ **Permissions** ➔ Tap function ➔ **Allow** / **Don't allow**

- **Allow all the time** / **Allow only while using the app** / **Ask every time** / **Allow management of all files** / **Allow access to media only** appear for some functions.
- If confirmation appears, follow onscreen prompts.

Setting Whether to Prevent System from Resetting Application Permission

In Home Screen, ⚙ (Settings) → **Apps** → **See all XX apps** → Tap application name → **Permissions** → **Remove permissions and free up space**

- Tap **Remove permissions and free up space** to toggle on (●)/off (○).
- May not be usable with some applications.

Setting Applications with Permitted Usage by Function

In Home Screen, ⚙ (Settings) → **Privacy** → **Permission manager** → Tap function → Tap application name → **Allow** / **Don't allow**

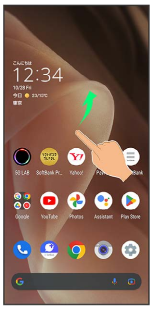
- **Allow all the time** / **Allow only while using the app** / **Ask every time** / **Allow management of all files** / **Allow access to media only** appear for some functions.
- If confirmation appears, follow onscreen prompts.

Applications

Activating Applications

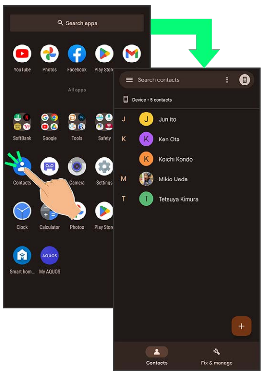
1

Flick Home Screen up



2

Tap application



🏁 Application activates.

- If confirmation appears, follow onscreen prompts.
- Some applications can be activated from Home Screen.

Using Applications

Setting Required Privileges for Using Applications

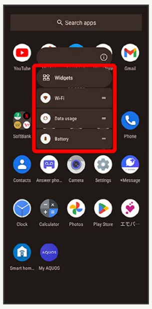
Some applications first require permission to access handset data or privileges to access important functions such as photographing.

Confirmation appears for applications requiring permission when first activated. Follow onscreen prompts.

- See "Confirmation when First Activating Applications" for details.

Function Shortcuts

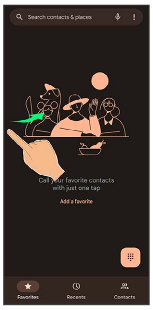
With some applications, Touch & Hold for shortcuts to functions. Tap function shortcut to launch function directly.



Exiting Applications

1

Flick the edge of screen to the left or right again and again while applications are running



Home Screen returns and application exits.

- Home Screen also returns when Flicking bottom of Display up, but application does not exit. Exit it from recent apps window. See "Opening Recent Apps Window" for details.

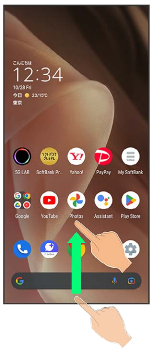
Where to Obtain Applications & Updates

Use Google Play™ to obtain new applications or update installed ones. See "Adding/Deleting Applications" for details.

Opening Recent Apps Window

1

Drag bottom of Display up



Recent apps window opens.

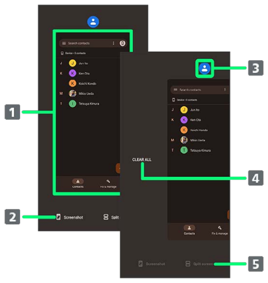
- In app list, recent apps window does not open by Dragging bottom of Display up.
- When 3-button navigation is enabled, Tap ☐ on Navigation Bar for recent apps window. See "Quick Operation Settings" and "System Settings" for details.

Opening Most Recently Activated Application

Flick bottom of Display to the right

- When 3-button navigation is enabled, Tap ☐ in recent apps window.

Recent Apps Window Layout



1 Activate recently used applications.[1]

2 Capture Screenshots.

3 Show application menu.

4 Remove all applications from the list.[2]

5 Split screen (Multi-Window).

[1] Flick up to remove from the application list.

[2] Appears when Flicking application list to the right.

Application Menu Operations

Checking Application Information

In recent apps window, Tap icon of application in list → App info

- May not be usable with some applications.

Capturing Screenshot of Application in Recent Apps Window

In recent apps window, Screenshot

- May not be usable with some applications.

Splitting Screen (Multi-Window)

In recent apps window, Split screen → Follow onscreen prompts

- In recent apps window, Tap icon of application in list → Split screen to split window.
- See "Multi-Window" for details.
- May not be usable with some applications.

Pinning Screen

In recent apps window, Tap icon of application in list → Pin → GOT IT

- Appears when "App pinning" is enabled. See "Security Settings" for details.

Adding/Deleting Applications

Download a variety of applications (free/paid) from Google Play. Change the setting of downloaded applications to enable manual or automatic updates. Sign in to a Google Account beforehand.

Getting Help with Google Play

In Google Play, X → Help & feedback

🏁 Google Play Help window opens.

Google Play Cautions

Application Installation Disclaimer

Many different kinds of applications can be installed on handset from Google Play (provided by Google LLC). SoftBank Corp. is not responsible in any way for user-installed applications (quality, reliability, legality, fitness for a purpose, credibility, accuracy, etc.) or resulting malfunctions (viruses, etc.).

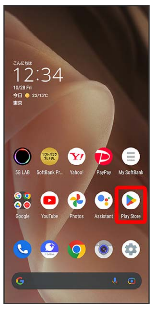
Google Play Operations & User Interface

Operations and user interface are subject to change due to automatic application updates or other reasons.

Installing Free Applications

1

In Home Screen, (Play Store)

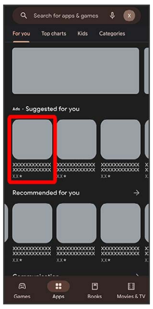


🏁 Google Play opens.

- If confirmation appears, follow onscreen prompts.

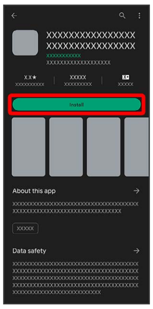
2

Tap free application



3

Install



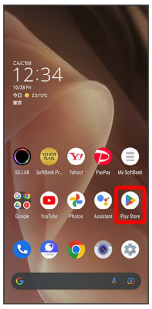
Application downloads and installs.

- If confirmation appears, follow onscreen prompts.

Purchasing Applications

1

In Home Screen, (Play Store)

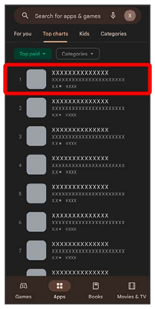


Google Play opens.

- If confirmation appears, follow onscreen prompts.

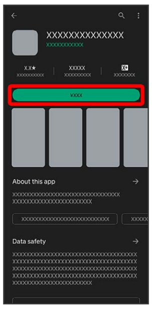
2

Tap paid application



3

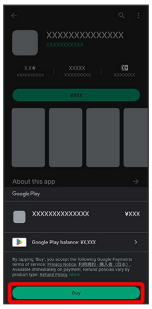
Tap price



- If payment confirmation appears, follow onscreen prompts.

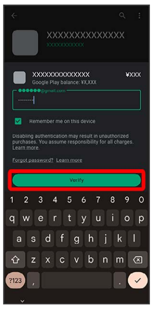
4

Buy



5

Enter password for Google account ➔ Verify



Application downloads and installs.

- If confirmation appears, follow onscreen prompts.

Purchased Applications

Payment

Pay once. Re-downloads of uninstalled applications are free of charge.

Use on Other Android™ Devices

Install same application on other Android devices under same Google Account at no added cost.

Refund Requests

Request refunds within designated period. Returned applications are deleted from handset; no payment is required. One refund request per application.

In Google Play, X ➔ Manage apps & device ➔ Manage ➔ Tap application ➔ Refund ➔ Request refund

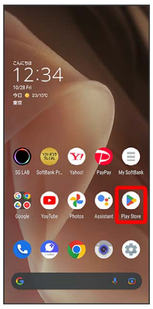
Application Purchase Disclaimer

Purchase applications at your own risk. SoftBank Corp. is not responsible for any disadvantage resulting for user or third parties.

Updating Installed Applications

1

In Home Screen, ▶ (Play Store)

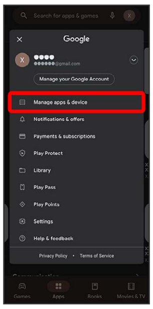


Google Play opens.

- If confirmation appears, follow onscreen prompts.

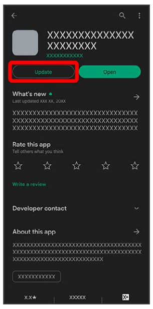
2

X ➔ Manage apps & device



3

Manage ➔ Updates available ➔ Tap application ➔ Update



Application Updates.

- If confirmation appears, follow onscreen prompts.

Making Application Update Settings

Setting Automatic Update Options

In Google Play, X ➔ Settings ➔ Network preferences ➔ Auto-update apps ➔ Select update item ➔ DONE

Setting Automatic Update by Application

In Google Play, X → Manage apps & device → Manage → Tap application → ⋮ → Enable auto update

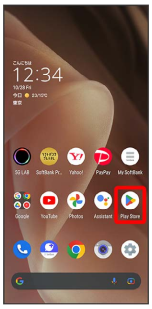
- If confirmation appears, follow onscreen prompts.
- Tap Enable auto update to toggle on (☑)/off (☐).
- Automatic update is not available for some applications.

Uninstalling Applications

Applications installed via Google Play can be deleted (uninstalled).

1

In Home Screen, (Play Store)

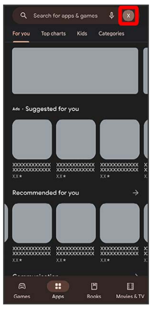


Google Play opens.

- If confirmation appears, follow onscreen prompts.

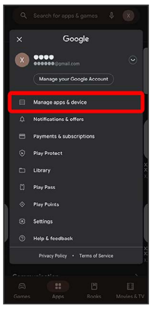
2

Tap account icon on right of search bar



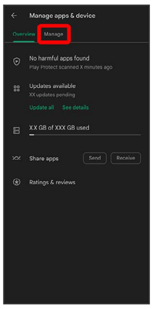
3

Manage apps & device



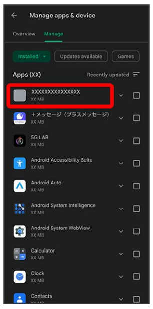
4

Manage



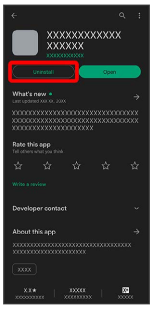
5

Tap application



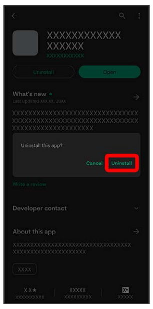
6

Uninstall



7

Uninstall



Application is deleted.

Managing Data

File Storage

File Save Location

Save data to internal storage or SD Card.
Default save location is internal storage; save location when creating data may be changed depending on application.
Main file types and save locations are the following.

File Type	Description
Contacts, Bookmark, Calendar, Mail	Created files are saved to internal storage. Save locations cannot be changed.
Photos, videos	Created files are saved to internal storage.

- See "Internal Storage and SD Card" for more about SD Cards including insertion/removal procedure.

Backup & Restore

Backup/Restore Options

Backup and restore options are the following.

Option	Description
Corresponding applications	Depending on application, backup/restore settings can be changed.
Data transfer	Use Data Transfer to import data saved on SD Card with another device. See "Importing Contacts via Bluetooth® (Data Transfer)" and "Importing Data from SD Card (Data Transfer)" for details.
Transfer to other devices (e.g., PCs)	Connect handset to a PC or other device using a commercially available USB Type-C cable to exchange data.

Importing Data from Other Mobiles

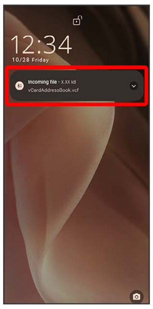
Import data from other mobiles, etc. using Bluetooth® or SD Card.

Receiving Data via Bluetooth® (e.g., Address Book)

When data reception request arrives, notification appears in lock screen. To receive data:
Enable Bluetooth® beforehand.

1

Tap Bluetooth® share notification

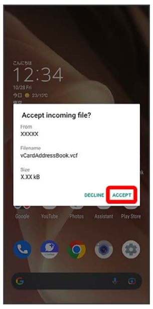


Incoming file · X.XX kB
vCardAddressBook.vcf

- In Home Screen, ✱ appears on Status Bar. Flick Status Bar down, then Tap Bluetooth® share notification.

2

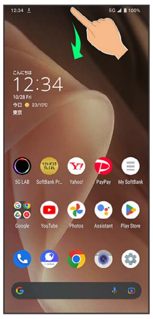
ACCEPT



Accept incoming file?
From
XXXXX
Filename
vCardAddressBook.vcf
Size
X.XX kB
DECLINE ACCEPT

3

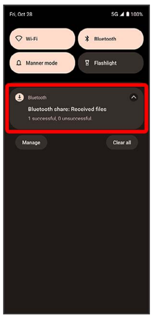
After data reception, Flick Status Bar down



🏁 Notifications Window opens.

4

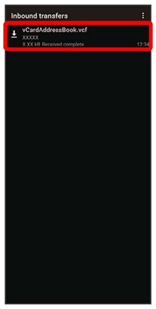
Tap Bluetooth® share notification



Bluetooth
Bluetooth share: Received files
1 successful, 0 unsuccessful.

5

Tap file



Inbound transfers
vCardAddressBook.vcf
XXXXX
X.XX kB Received complete. 12:34

🏁 Data is saved.

- If confirmation appears, follow onscreen prompts.

Opening Files Received by Bluetooth® Transfer

In Home Screen, ⚙ (Settings) ➔ Connected devices ➔ Connection preferences ➔ Files received via Bluetooth ➔ Tap file ➔ Follow onscreen prompts

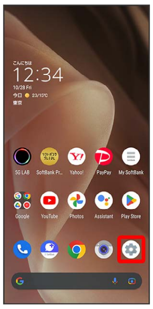
Importing Contacts via Bluetooth® (Data Transfer)

Import contacts from other mobiles using Bluetooth®.

・Enable Bluetooth® beforehand.

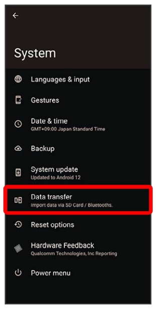
1

In Home Screen, ⚙ (Settings)



2

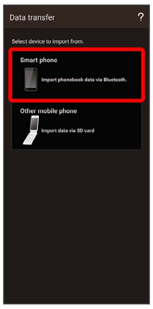
System → Data transfer



Data transfer window opens.

3

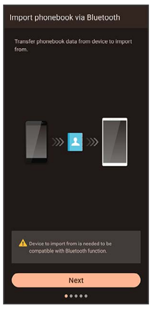
Data import → Smart phone



Select device to import from.

4

Follow onscreen prompts



Transfer phonebook data from device to import from.

Device to import from is needed to be compatible with Bluetooth function.

Import of contacts is complete.

Caution for Importing Data

Import is not available if there is only a little free space in internal storage. Process stops if Battery runs low. Operate with adequate battery charge whenever possible.

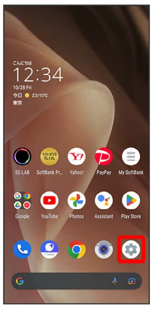
Importing Data from SD Card (Data Transfer)

Import data (Address Book, Schedule (Calendar), User dictionary, emopa) saved to SD Card on other mobiles to handset.

- Insert SD Card containing a backup file beforehand. See "Inserting SD Card" for details.
- Address Book data (contacts) may not be imported correctly depending on the device used for saving them.

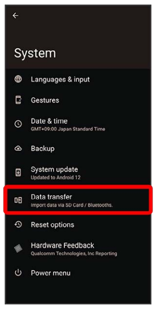
1

In Home Screen, ⚙ (Settings)



2

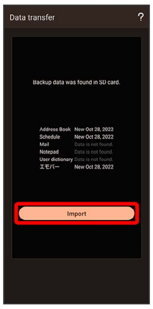
System → Data transfer



Data transfer window opens.

3

Data import → Other mobile phone → Import

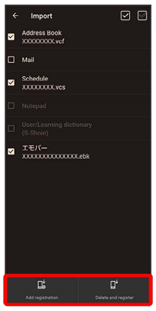


Backup data was found in SD card.

Address Book New Oct 28, 2022
Schedule New Oct 28, 2022
Mail Data is not found.
Notepad Data is not found.
User dictionary Data is not found.
エモパー New Oct 28, 2022

4

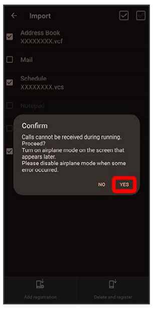
Tap item to import → Tap file to import → Add registration / Delete and register



- If confirmation appears, follow onscreen prompts.

5

YES



Confirm

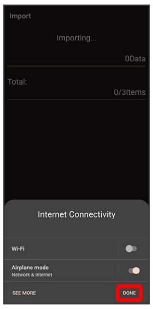
Calls cannot be received during running. Proceed?
Turn on airplane mode on the screen that appears later.
Please disable airplane mode when some error occurred.

Import starts.

- If confirmation appears, follow onscreen prompts.

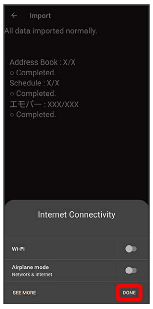
6

○ for "Airplane mode" (●) → DONE



7

OK → ● for "Airplane mode" (○) → DONE



All data imported normally.

Address Book : X/X
○ Completed.
Schedule : X/X
○ Completed.
エモパー : XXX/XXX
○ Completed.

8

Complete

🏁 Import is complete.

❗ Cautions for Importing Data

Import is not available if there is only a little free space in internal storage. Process stops if Battery runs low. Operate with adequate battery charge whenever possible. When importing User dictionary, existing User dictionary data in internal storage is deleted.

Wi-Fi/Bluetooth®

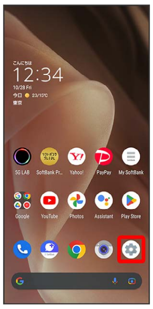
Connecting by Wi-Fi

Handset supports Wi-Fi (wireless LAN). Access the Internet via household Wi-Fi networks.

Connecting Selected Access Points

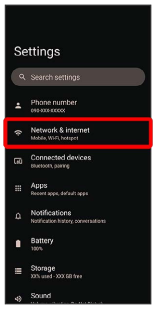
1

In Home Screen, ⚙ (Settings)



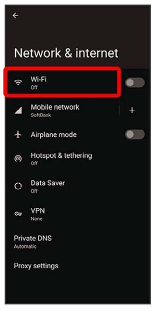
2

Network & internet



3

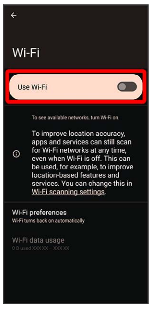
Wi-Fi



Wi-Fi menu opens.

4

Use Wi-Fi (●)



To see available networks, turn Wi-Fi on.

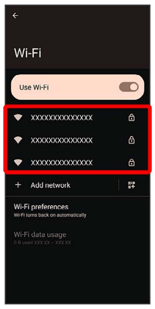
To improve location accuracy, apps and services can still scan for Wi-Fi networks at any time, even when Wi-Fi is off. This can be used, for example, to improve location-based features and services. You can change this in Wi-Fi scanning settings.

Wi-Fi is enabled.

- Access point search starts; available access points appear upon completion.
- Tap **Use Wi-Fi** to toggle on (●)/off (○).

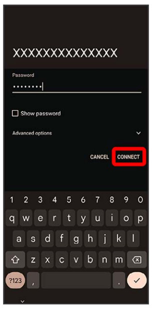
5

Tap access point



6

Enter password ➔ **CONNECT**



Handset connects to the access point.

- Password (indicated by WEP, WPA, KEY, etc.) may be found on a label on your Wi-Fi router. For details, contact the vendor of the router. For public wireless LAN services, check the password with your ISP.
- Depending on access point, password entry may not be required.

Wi-Fi Operations

Enabling/Disabling Automatic Use of Wi-Fi when High-Quality Network Is Saved (Home Network, Etc.)

In Wi-Fi menu, Wi-Fi preferences → Turn on Wi-Fi automatically

- Tap Turn on Wi-Fi automatically to toggle on (●)/ off (●).

Enabling/Disabling Available Network Notifications

In Wi-Fi menu, Wi-Fi preferences → Notify for public networks

- Tap Notify for public networks to toggle on (●)/ off (●).

Installing Certificates

In Wi-Fi menu, Wi-Fi preferences → Install certificates → Follow onscreen prompts

Viewing Data Usage with Wi-Fi

In Wi-Fi menu, Wi-Fi data usage

Checking Access Point Activity while Connected

In Wi-Fi menu, Tap connected access point

- Connection activity, signal strength, frequency, security, etc. appear.

Share Wi-Fi Password with Other Device

Scan QR code on Display with other device to share.

In Wi-Fi menu, Tap connected access point → SHARE

🏁 QR code appears.

Disconnecting Connected Access Point

In Wi-Fi menu, Tap connected access point → DISCONNECT

- Tap CONNECT to connect to disconnected access point.

Disconnecting Saved Access Points

In Wi-Fi menu, Saved networks → Tap access point to disconnect → DISCONNECT

- Tap CONNECT to connect to disconnected access point.

Troubleshooting

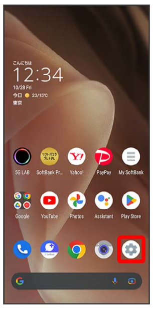
Q. Cannot detect access points

A. There may be multiple access points using neighboring channels. In this instance, handset may not detect access points correctly.

Entering Details Manually to Connect

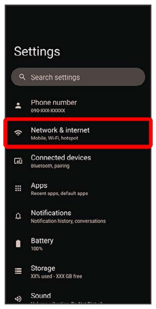
1

In Home Screen, ⚙ (Settings)



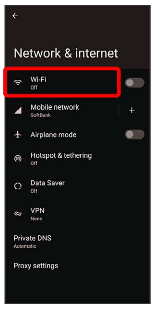
2

Network & internet



3

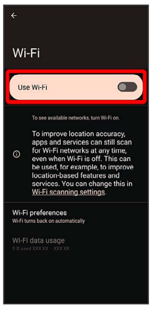
Wi-Fi



🏁 Wi-Fi menu opens.

4

Use Wi-Fi ( )



To see available networks, turn Wi-Fi on.

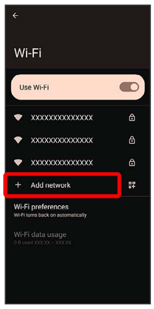
To improve location accuracy, apps and services can still scan for Wi-Fi networks at any time, even when Wi-Fi is off. This can be used, for example, to improve location-based features and services. You can change this in Wi-Fi scanning settings.

🏁 Wi-Fi is enabled.

- Tap Use Wi-Fi to toggle on ( )/off ( ).

5

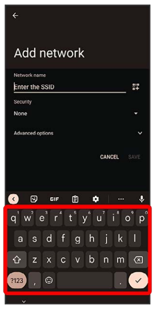
Add network



- Tap for Add network to open QR code scan window. After scanning QR code, password is shared and Wi-Fi connection is possible.

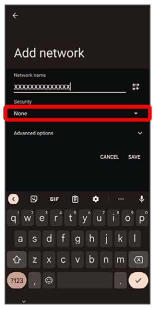
6

Enter network name



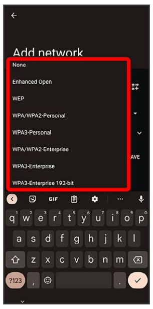
7

Tap Security field



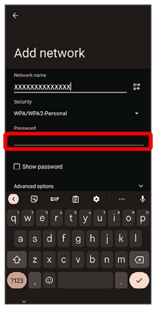
8

Select security



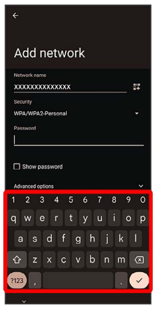
9

Tap Password field



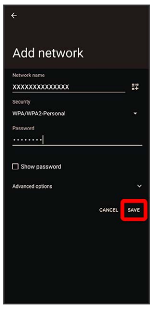
10

Enter password



11

SAVE



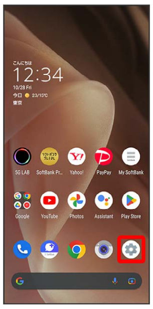
Handset is connected.

- Entering a password is not required if an access point is not security protected.
- If SAVE is hidden, tap ✓ on the keyboard to display it.

Deleting Connected Access Points

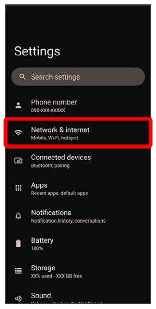
1

In Home Screen, ⚙ (Settings)



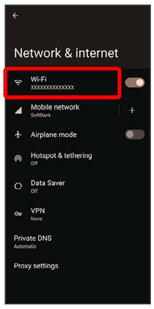
2

Network & internet



3

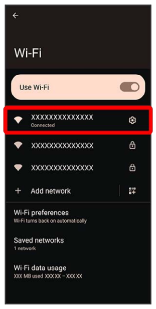
Wi-Fi



Wi-Fi menu opens.

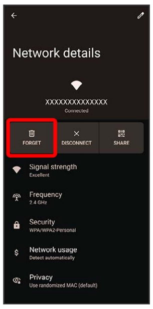
4

Tap connected access point



5

FORGET



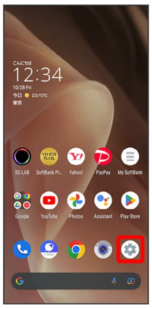
Handset disconnects from the access point.

- After disconnecting from an access point connection, the password may need to be entered again to reconnect.

Deleting Saved Access Points

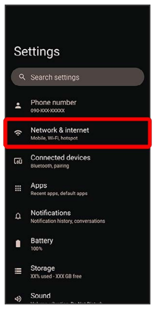
1

In Home Screen, ⚙ (Settings)



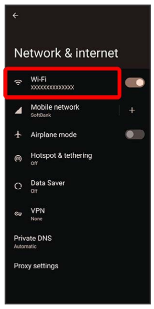
2

Network & internet



3

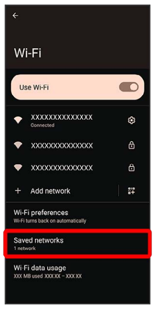
Wi-Fi



Wi-Fi menu opens.

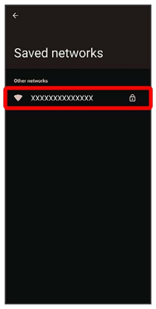
4

Saved networks



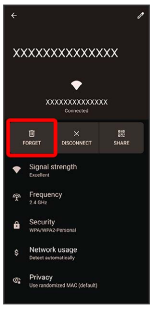
5

Tap access point



6

FORGET



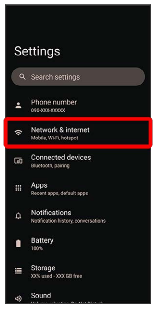
🏁 The access point is deleted.

Using Wi-Fi Direct

Use Wi-Fi Direct to establish a Wi-Fi connection with other Wi-Fi Direct compatible devices with no need for an access point or Internet connection.

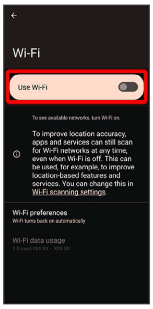
1

In Home Screen, ⚙ (Settings) ➔ Network & internet



2

Wi-Fi ➔ Use Wi-Fi (●)



To see available networks, turn Wi-Fi on.

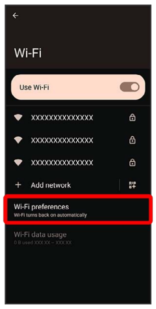
To improve location accuracy, apps and services can still scan for Wi-Fi networks at any time, even when Wi-Fi is off. This can be used, for example, to improve location-based features and services. You can change this in Wi-Fi scanning settings.

🏁 Wi-Fi is enabled.

- Tap Use Wi-Fi to toggle on (●)/off (○).

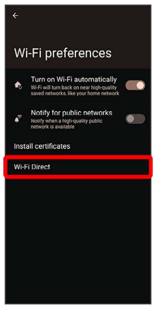
3

Wi-Fi preferences



4

Wi-Fi Direct



Wi-Fi preferences

Turn on Wi-Fi automatically
Wi-Fi will turn back on near high-quality saved networks, like your home network

Notify for public networks
Notify when a high-quality public network is available

Install certificates

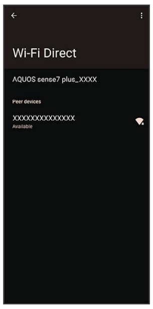
Wi-Fi Direct

Found Wi-Fi Direct compatible devices appear in Peer devices field.

- If target device does not appear, Tap ⋮ → Search for devices and search again.

5

Tap target device → Follow onscreen prompts for authentication



Wi-Fi Direct

AQUOS sense7 plus_XXXX

Peer devices

XXXXXXXXXXXXXX
Available

Handset connects to the device.

- If connection is not accepted after a certain period, the connection request is canceled.
- To stop the connection, Tap the connected device → OK .

Using Bluetooth® Function

Connect handset to other Bluetooth® devices (e.g., headset) for handsfree conversations, or connect to other Bluetooth®-capable mobile phones, etc. to exchange data.

Bluetooth® Connectivity

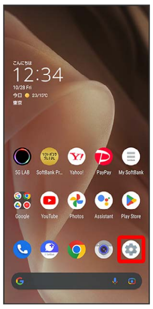
The Bluetooth® function is a technology that enables wireless connection with PCs, Bluetooth® devices with handsfree functionality, etc. such as the following.

Function	Description
Sound output	Listen to music, audio, etc. wirelessly.
Handsfree conversation	Use Bluetooth® devices (e.g., headsets) for handsfree conversations.
Data exchange	Exchange data with Bluetooth® devices.

Enabling Bluetooth® Function

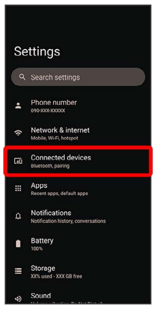
1

In Home Screen, ⚙ (Settings)



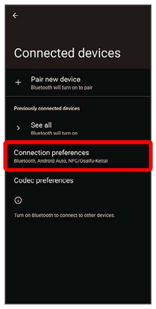
2

Connected devices



3

Connection preferences

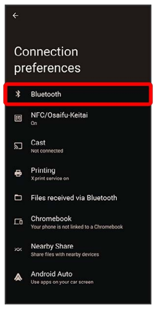


Connected devices
Pair new device
Bluetooth will turn on to pair
Previously connected devices
See all
Bluetooth will turn on
Connection preferences
Bluetooth, Android Auto, NFC/Osaifu-Keitai
Codec preferences

Turn on Bluetooth to connect to other devices.

4

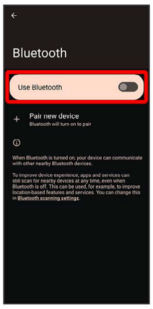
Bluetooth



🏁 Bluetooth® menu opens.

5

Use Bluetooth (●)



When Bluetooth is turned on, your device can communicate with other nearby Bluetooth devices.

To improve device experience, apps and services can still scan for nearby devices at any time, even when Bluetooth is off. This can be used, for example, to improve location-based features and services. You can change this in Bluetooth scanning settings.

🏁 Bluetooth® is enabled.

- Tap Use Bluetooth to toggle on (●)/off (○).

Renaming Handset Name that Appears on Other Devices

In Bluetooth® menu, Device name ➔ Enter name ➔ RENAME

- Available when Use Bluetooth is enabled.

Troubleshooting

Q. Cannot use Bluetooth®

A. Handset may be in Airplane mode. If in Airplane mode, Bluetooth® function is disabled. Bluetooth® function can be enabled again after placing handset in Airplane mode.

Bluetooth® Cautions

Connection

Bluetooth® connection may not be possible with some Bluetooth® devices. In addition, noise may interfere with wireless or handsfree conversations.

File Transfer

Files may not appear correctly on recipient devices.

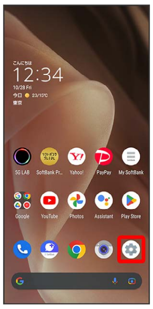
Pairing Bluetooth® Devices

Search for and pair nearby Bluetooth® devices. Paired Bluetooth® devices can be connected easily.

- Set Bluetooth® devices pair to be discoverable on handset first.

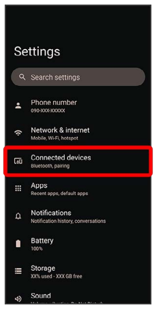
1

In Home Screen, ⚙ (Settings)



2

Connected devices



3

Pair new device

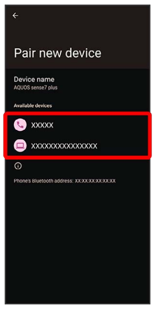
Turn on Bluetooth to connect to other devices.

Found Bluetooth® devices appear in Available devices field.

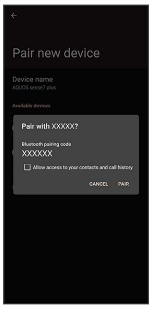
4

Tap target device



5

Continue by following onscreen prompts to authenticate



Pairing completes; handset connects to some devices (e.g., handsfree devices) automatically.

- Authentication procedure varies by device. Passkey entry may be required.
- Passkey is a 1 to 16-digit number or a set of characters/symbols required for authentication between handset and other devices.

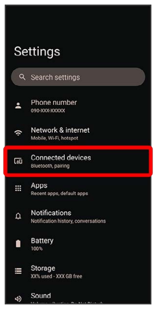
Connecting to Paired Bluetooth® Devices

Connect handset and paired Bluetooth® device.

- Enable the Bluetooth® function on handset and the paired Bluetooth® device beforehand.

1

In Home Screen, ⚙ (Settings) → Connected devices



Connected devices menu opens.

2

Tap target device

Visible as "AQUOS sense7 plus" to other devices

Handset connects to the device.

Connection by Accepting Connection Requests

Handset automatically accepts connection requests from paired devices. For unpaired devices, set handset to be discoverable, then perform pairing operation on other devices. When connection request arrives, follow onscreen prompts.

- If confirmation appears, follow onscreen prompts.

Paired Bluetooth® Device Operations

Renaming Paired Devices

In Connected devices menu, ⚙ for paired device → ✎ → Enter name → RENAME

Unpairing Devices

In Connected devices menu, ⚙ for device to unpair → FORGET → FORGET DEVICE

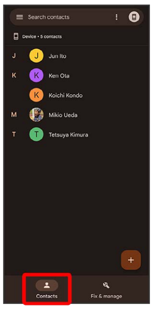
Receiving Data via Bluetooth®

See "Receiving Data via Bluetooth® (e.g., Address Book)" and "Importing Contacts via Bluetooth® (Data Transfer)" for details.

Sending Data via Bluetooth® (e.g., Address Book)

1

In Home Screen, (Google) → (Contacts) → Contacts

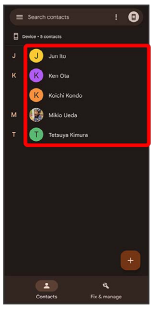


🏁 Contacts opens.

- If confirmation appears, follow onscreen prompts.

2

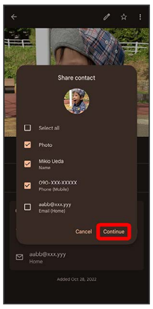
Tap contact



🏁 Contact opens.

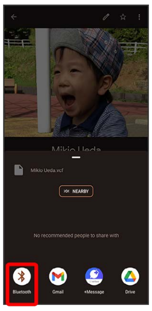
3

⋮ → Share → Tap items to share → Continue



4

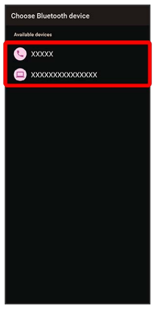
Bluetooth



- If confirmation appears, follow onscreen prompts.
- If Bluetooth is hidden, Flick share menu up first.

5

Tap target device



🏁 Data is sent.

Sending to Several Contacts

In Contacts, Touch & Hold contact → Tap another contact (✓) → ⋖ → Bluetooth → Tap target device

- If Bluetooth is hidden, Flick share menu up first.

Using Tethering

About Tethering

Tethering makes handset act as an external modem (like a Wi-Fi router).
Use tethering to connect a PC or game device to the Internet through handset.

- Requires separate subscription.
- Use after confirming that handset is updated to the latest system.

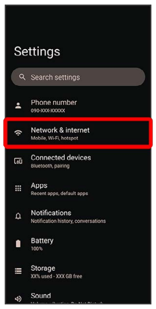
Setting Tethering

When using tethering, several methods are available for connecting handset with other devices.
Make settings according to connection method and status of target device beforehand.
Settable items are the following.

Item	Description
Wi-Fi hotspot	Set whether to enable tethering via Wi-Fi, and make Wi-Fi hotspot tethering settings for network name, security, password, etc.
USB tethering	Set whether to enable tethering via a commercially available USB Type-C cable. Although data transfer is faster with USB 3.1, it may affect call and data transfer quality.
Bluetooth tethering	Set whether to enable tethering via Bluetooth®.
Ethernet tethering	Set whether to enable tethering with a connection using a commercially available USB wired LAN adapter and LAN cable.

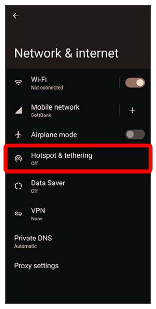
1

In Home Screen, ⚙ (Settings) ➔ **Network & internet**



2

Hotspot & tethering



🏁 Hotspot & tethering menu opens.

3

Set each item

🏁 Setting is complete.

- If confirmation appears, follow onscreen prompts.

Handset Settings

About Settings

The User Guide describes main setting options.

About Settings

Customize operation of handset functions.
Tap search bar at top of Display to search for items in settings menu.

Item	Description
Phone number	Check own phone number.
Network & internet	Make network and Internet settings for Wi-Fi, mobile network, hotspot tethering, etc.
Connected devices	Make Bluetooth® and other device connection settings.
Apps	Make application settings.
Notifications	Make notification settings.
Battery	Check battery usage and save battery power by restricting some handset features.
Storage	Check memory space of internal storage, SD Card, and USB drive mount or unmount SD Card, erase data on SD Card, etc.
Sound	Set ringtone, notification sound, etc.
Display	Set Display brightness, font size, etc.
Wallpaper	Set Wallpaper.
AQUOS Tricks	Set useful functions such as ScrollAuto, Simple mode, and Clip Now.
Home applications	Change the home application.
Accessibility	Set captions, magnification gestures, and other useful accessibility functions.
Security	Make security settings including Screen lock and face authentication.
Privacy	Make settings for Google activity, application feature access history and permissions.
Location	Make settings for location information.
Safety & emergency	Make settings for emergency information and emergency calls.
Passwords & accounts	Make settings for password management and Google Autofill. Make settings to create/add accounts, sync accounts.
Digital Wellbeing & parental controls	Prevent excessive handset use by setting timers for each application or showing number of notifications received and frequency of screen unlocking, etc.
Google	Make settings for Google services.
System	Make settings for language, input, date and time, backup, reset, etc.
About phone	Check and make settings for handset information.
Troubleshooting	Check FAQ on Sharp Website and do a self-check.

🏁 Settings open.

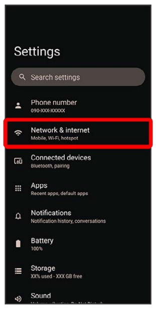
Data Usage Settings

Check the amount of your mobile data usage (per month) and restrict usage.
Data usage is only as tracked by handset, and may differ from actual data usage statement.

Checking Application Data Usage

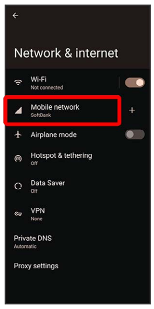
1

In Home Screen, ⚙ (Settings) → **Network & internet**



2

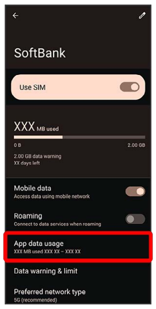
Mobile network



🏁 Mobile network window opens.

3

App data usage



🏁 Check application data usage in Mobile data usage window.

Mobile Data Usage Operations

Setting Whether to Permit Restriction on Use of Data when Data Saver Set

In Mobile data usage window, Tap application name → **Unrestricted data usage**

- Tap **Unrestricted data usage** to toggle on (●)/off (○).
- See "Network & Internet" for details on Data Saver.

Setting Whether to Alert User when Mobile Data Usage Reaches Alert Amount

In Mobile network window, **Data warning & limit** → **Set data warning**

- Tap **Set data warning** to toggle on (●)/off (○).
- When data usage reaches the alert amount, ⚠ appears on Status Bar.

Setting Whether to Use Restriction on Use of Mobile Data

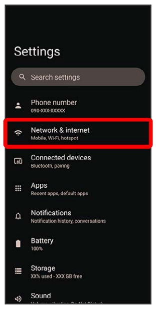
In Mobile network window, **Data warning & limit** → **Set data limit**

- Tap **Set data limit** to toggle on (●)/off (○).
- If confirmation appears, follow onscreen prompts.
- When data usage reaches the upper limit, ⊘ appears on Status Bar, and notification indicating that mobile data is disabled appears. Follow onscreen prompts.

Setting Reset Date for Data Usage

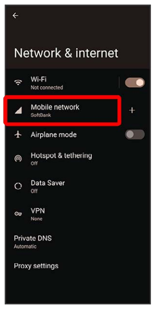
1

In Home Screen, (Settings) → Network & internet



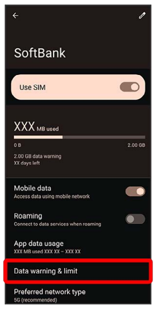
2

Mobile network



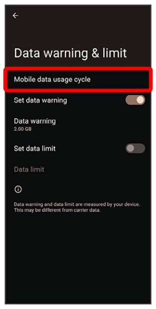
3

Data warning & limit



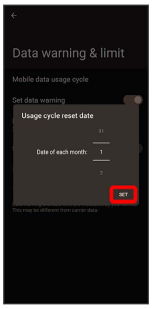
4

Mobile data usage cycle



5

Flick date up/down to set reset date → SET

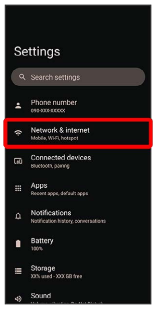


Reset date is set.

Setting an Alert Amount for Increased Data Usage

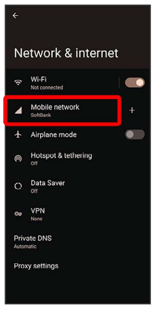
1

In Home Screen, ⚙ (Settings) → Network & internet



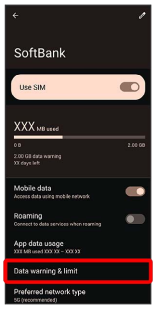
2

Mobile network



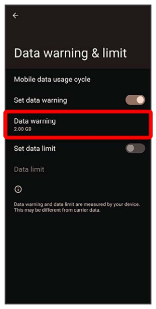
3

Data warning & limit



4

Data warning

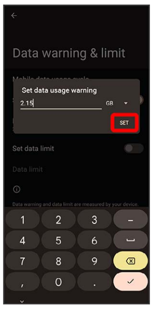


Data warning and data limit are measured by your device. This may be different from carrier data.

- Available when Set data warning is enabled.

5

Enter amount for alert → SET



Set data usage warning: 2.15 GB

🏁 Amount for data alert is set.

- Tap ▼ to change the unit (MB or GB).
- Data usages are approximate, and may differ from the actual data usage.

Changing Automatic Data Communication & Sync Settings

Customize settings to automatically lower amount of data communication.

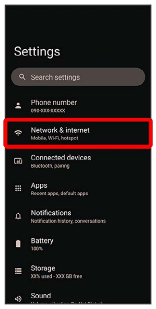
Change settings in the following ways.

Item	Description
Location	Disable location information. See "Location Settings" for details.
Automatic syncing	Disable automatic syncing of applications and data set in your account. See "Passwords & Accounts" for details.
Background data communication	Restrict background data. See "Restrict Background Mobile Data" for details.
Communication while abroad	Set handset to not permit data while using handset abroad. See "Changing Roaming Setting" for details.

Setting a Limit on Mobile Data Usage

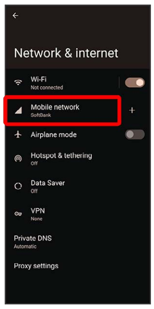
1

In Home Screen, ⚙ (Settings) → **Network & internet**



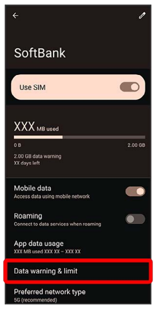
2

Mobile network



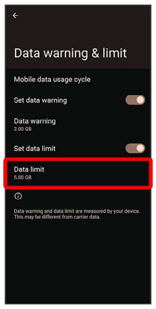
3

Data warning & limit



4

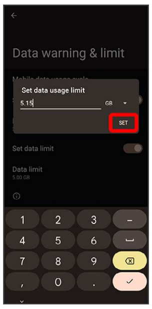
Data limit



- Available when **Set data limit** is enabled.

5

Enter amount for limit → **SET**



🏁 Limit on data is set.

- Tap ▽ to change the unit (MB or GB).
- Data usages are approximate, and may differ from the actual data usage.

Restrict Background Mobile Data

1

In Home Screen, ⚙ (Settings) → Network & internet

Sound Settings

Set ringtone, notification sound, etc.

Sound Settings

Settable items are the following.

Item	Description
Media volume	Set volume for music, videos, etc.
Call volume	Set volume for calls.
Ring & notification volume	Set ringtones for incoming calls, etc. and volume for notifications.
Alarm volume	Set volume for Alarm.
Surround Plus	Set whether to enable the surround sound effect of music and video that can be heard from front, back, left, and right, when handset is held horizontally.
Equalizer	Adjust quality of music and video.
Do Not Disturb	Make detailed Manner mode settings.
Phone ringtone	Set ringtone.
Media[1]	Set whether to continue showing media player in Quick Settings after deleting controller in Notifications Window, etc.
Vibrate for calls	Make vibration settings for incoming calls.
Shortcut to prevent ringing	Set whether Manner mode is activated by Pressing Power Key and Volume Up Key, etc.
Default notification sound	Set default notification sound.
Default alarm sound	Set default alarm sound.
Dial pad tones	Enable/Disable dial pad tones when Tapping dialpad.
Screen locking sound	Enable/Disable tone when Locking/ Unlocking Screen.
Charging sounds and vibration	Set whether tone sounds and handset vibrates when starting charging.
Touch sounds	Enable/Disable confirmation tones when tapping a Menu, etc..
Touch vibration	Enable/Disable vibration when tapping and pressing keys.

1 Uses only for compatible applications.

Sound Operations

Setting Volume for Calls

In Home Screen, ⚙ (Settings) → Sound → Drag "Call volume" bar to adjust

- Sound plays at set volume when releasing finger from ● .

Setting Whether to Enable the Surround Sound Effect of Music and Video that Can be Heard from Front, Back, Left, and Right, When Handset is Held Horizontally

In Home Screen, ⚙ (Settings) → Sound → Surround Plus

- Tap Surround Plus to toggle on (●)/off (●).

Adjusting Quality of Music and Video

In Home Screen, ⚙ (Settings) → Sound → Equalizer → ● for "Equalizer" (●) → Follow onscreen prompts

- Tap ● to toggle On (●), ● to toggle Off (●).

Activating/Canceling Do Not Disturb

In Home Screen, ⚙ (Settings) → Sound → Do Not Disturb → TURN ON NOW / TURN OFF NOW

Setting Action for Conversations, Calls, and Messages When Do Not Disturb Is Set

In Home Screen, ⚙ (Settings) → Sound → Do Not Disturb → People → Set each item

Making Application Interruption Settings

In Home Screen, ⚙ (Settings) → Sound → Do Not Disturb → Apps → Add apps → Follow onscreen prompts

Setting Whether to Allow Alarm/Media Sounds/ Touch Sounds/Reminders/Calendar events when Do Not Disturb is Set

In Home Screen, ⚙ (Settings) → Sound → Do Not Disturb → Alarms & other interruptions → Alarms / Media sounds / Touch sounds / Reminders / Calendar events

- Tap Alarms / Media sounds / Touch sounds / Reminders / Calendar events to toggle on (●)/off (●).

Setting Specific Hours or Events to Activate Do Not Disturb

In Home Screen, ⚙ (Settings) → Sound → Do Not Disturb → Schedules → Sleeping / Event → Set each item

- To add an item, Tap Add more .
- Tap an item to toggle on (✓)/off (■).
- Tap ⚙ on right of item to edit item.
- Tap ⚙ on right of item → DELETE → DELETE to delete item.

Setting Period until Do Not Disturb Is Canceled

In Home Screen, ⚙ (Settings) → Sound → Do Not Disturb → Duration for Quick Settings → Until you turn off / For 1 hour / Ask every time → OK

- In For 1 hour , Tap - / + to change time until Do Not Disturb is canceled.

Setting Notification Action when Do Not Disturb Is Set

In Home Screen, ⚙ (Settings) → Sound → Do Not Disturb → Display options for hidden notifications → No sound from notifications / No visuals or sound from notifications / Custom

- After Tapping Custom , follow onscreen prompts.

Setting Whether to Continue Showing Media Player in Quick Settings after Deleting Controller in Notifications Window

In Home Screen, ⚙ (Settings) → Sound → Media → Pin media player

- Tap Pin media player to toggle on (●)/off (○).

Setting Whether Manner Mode Is Activated by Pressing Power Key and Volume Up Key

In Home Screen, ⚙ (Settings) → Sound → ● / ○ for "Shortcut to prevent ringing"

- Tap ○ to toggle On (●), ● to toggle Off (○).
- Disable Press and hold power button . See "System Settings" for details.

Setting Manner Mode That Is Activated by Pressing Power Key and Volume Up Key

In Home Screen, ⚙ (Settings) → Sound → Shortcut to prevent ringing → Vibrate / Mute

- Available when Using prevent ringing is enabled.

Setting Sound for Notifications

In Home Screen, ⚙ (Settings) → Sound → Default notification sound → Follow onscreen prompts

Setting Default Alarm Sound

In Home Screen, ⚙ (Settings) → Sound → Default alarm sound → Follow onscreen prompts

Setting Whether Dialpad Tones Sound

In Home Screen, ⚙ (Settings) → Sound → Dial pad tones

- Tap Dial pad tones to toggle on (●)/off (○).
- Disable Dial pad tones to save battery power.

Setting Whether Tone Sounds when Locking/Unlocking Screen

In Home Screen, ⚙ (Settings) → Sound → Screen locking sound

- Tap Screen locking sound to toggle on (●)/off (○).
- Disable Screen locking sound to save battery power.

glove mode	Set whether to enable tap operation even with gloves on.
Screen saver	Set screen saver images and timing for activating screen saver.

Display Operations

Setting Display Brightness

In Home Screen, ⚙ (Settings) → Display → Brightness level → Drag bar to adjust brightness

Setting Whether to Automatically Adjust Display Brightness for Surroundings

In Home Screen, ⚙ (Settings) → Display → ● / ○ for "Adaptive brightness"

- Tap ○ to toggle On (●), ● to toggle Off (○).

Setting Whether to Show Notifications in Lock Screen

In Home Screen, ⚙ (Settings) → Display → Lock screen → Privacy → Show all notification content / Show sensitive content only when unlocked / Don't show notifications at all

- Show sensitive content only when unlocked appears when unlock method is setting other than None or Swipe .

Setting Whether to Hide Notification Viewed in Lock Screen so New Notifications Are Easier to View

In Home Screen, ⚙ (Settings) → Display → Lock screen → Organize notifications on the lock screen

- Tap Organize notifications on the lock screen to toggle on (●)/off (○).
- Notifications that cannot be deleted still appear even when Organize notifications on the lock screen is on.
- Notification Indicators on Status Bar are not hidden.

Showing Text in Lock Screen

In Home Screen, ⚙ (Settings) → Display → Lock screen → Add text on lock screen → Enter message → SAVE

- Set when unlock method is setting other than None .

Setting Whether to Display Wallet Without Unlocking Screen

In Home Screen, ⚙ (Settings) → Display → Lock screen → Show wallet

- Tap Show wallet to toggle on (●)/off (○).
- Set when unlock method is setting other than None or Swipe .

Setting Whether to Display Controls of Device Connected to Handset on Lock Screen

In Home Screen, ⚙ (Settings) → Display → Lock screen → Show device controls

- Tap Show device controls to toggle on (●)/off (○).
- Set when unlock method is setting other than None or Swipe .

Setting Whether Clock and Notification Indicators Appear after Set Time while Display Is Turned Off (Screen Lock)

In Home Screen, ⚙ (Settings) → Display → Lock screen → Show time and info

- Tap Show time and info to toggle on (●)/off (○).

Setting Whether Clock and Notification Indicators Appear by Tapping Screen while Screen is Turned Off (Screen Lock)

In Home Screen, ⚙ (Settings) → Display → Lock screen → Tap to display clock → Tap to display clock

- Tap Tap to display clock to toggle on (●)/off (○).

Setting Whether Lock Screen Appears When Notifications Arrive While Screen is Turned Off (Screen Lock)

In Home Screen, ⚙ (Settings) → Display → Lock screen → Wake screen for notifications

- Tap Wake screen for notifications to toggle on (●)/off (○).

Setting Whether Battery Level, etc. Appears When Charging while Screen is Turned Off (Screen Lock)

In Home Screen, ⚙ (Settings) → Display → Charging indicator when the screen is off

- Tap Charging indicator when the screen is off to toggle on (●)/off (○).

Setting Whether to Enable Dark Theme

In Home Screen, ⚙ (Settings) → Display → ● / ○ for "Dark theme"

- Tap ○ to toggle On (●), ● to toggle Off (○).

Setting Time for Dark Theme

In Home Screen, ⚙ (Settings) → Display → Dark theme → Schedule → Turns on at custom time → Start time → Specify time → OK → End time → Specify time → OK

- Tap Turns on from sunset to sunrise to enable Dark Theme from nightfall until morning.

Setting Whether to Change the Color of Icons and Widgets to Match Wallpaper

In Home Screen, ⚙ (Settings) → Display → Color settings to match the wallpaper

- Tap Color settings to match the wallpaper to toggle on (●)/off (○).

Setting Text Font

In Home Screen, ⚙ (Settings) → Display → Font Settings → Text font → Tap font → APPLY AFTER REBOOT

- Tap SEARCH DOWNLOAD FONT to search for fonts on Google Play.
- Depending on the application, changing the font may prevent text from being shown correctly. Reset to the preset font.

Setting Whether to Show Content Beside Front Camera

In Home Screen, ⚙ (Settings) → Display → Content display settings

- Tap Content display settings to toggle on (●)/off (○).

Setting Image Quality

In Home Screen, ⚙ (Settings) → Display → Basic settings → Recommended / Standard quality / Dynamic / Natural

Setting Whether to Use HDR Video-like Rendering for Standard Video

In Home Screen, ⚙ (Settings) → Display → Virtual HDR

- Tap Virtual HDR to toggle on (●)/off (○).

Enabling Relax View for Eye-friendly Image Quality

In Home Screen, ⚙ (Settings) → Display → Relax View → Use Relax View

- Tap Use Relax View to toggle on (●)/off (○).

Setting Brightness for Relax View

In Home Screen, ⚙ (Settings) ➔ Display ➔ Relax View ➔ Drag "Intensity" slider to adjust

- Available when Use Relax View is enabled.

Setting Time for Relax View

In Home Screen, ⚙ (Settings) ➔ Display ➔ Relax View ➔ Schedule ➔ Turns on at custom time ➔ Start time ➔ Specify time ➔ OK ➔ End time ➔ Specify time ➔ OK

- Tap Turns on from sunset to sunrise to enable Relax View from nightfall until morning.

Setting Whether Screen is Easier to See in Bright Sunlight

In Home Screen, ⚙ (Settings) ➔ Display ➔ Outdoor view

- Tap Outdoor view to toggle on (◉)/off (●).

Adjusting Screen Color Temperature

In Home Screen, ⚙ (Settings) ➔ Display ➔ Screen color temperature ➔ Drag "Customize Color Temperature" slider to adjust

Setting Whether to Enable Hakkiri View, More Suitable Resolution for Middle-Age/Senior Users

In Home Screen, ⚙ (Settings) ➔ Display ➔ Hakkiri View

- Tap Hakkiri View to toggle on (◉)/off (●).

Setting Whether to Rotate Display with Handset Orientation Automatically

In Home Screen, ⚙ (Settings) ➔ Display ➔ Auto-rotate screen

- Tap Auto-rotate screen to toggle on (◉)/off (●).
- Disable Auto-rotate screen to save battery power.
- The feature may not follow the setting with certain applications.

Setting Whether to Enable Touch Operation Even with Gloves On

In Home Screen, ⚙ (Settings) ➔ Display ➔ glove mode

- Tap glove mode to toggle on (◉)/off (●).

Setting Screen Saver Images and Display Options

In Home Screen, ⚙ (Settings) ➔ Display ➔ Screen saver ➔ Current screen saver ➔ Clock / Colors / Photos

- After Tapping Clock / Photos , next Tap ⚙ for "Current screen saver" and follow onscreen prompts.
- To check set screen saver, Tap Use screen saver . Check when When to start is setting other than Never .

Setting Timing for Activating Screen Saver

In Home Screen, ⚙ (Settings) ➔ Display ➔ Screen saver ➔ When to start ➔ Tap item

! Glove Mode Cautions

Observe the following when using glove mode.

- Touch operation may not be possible depending on materials of your gloves.
- Disable glove mode (●) when not wearing gloves or when using handset in a bathroom.

- If confirmation appears, follow onscreen prompts.

Bright Keep Settings

Set Display on or off by handling handset. Settable items are the following.

Item	Description
Turn screen on by holding	Set whether to turn on Display when handset is picked up (e.g., from a desk) and held still.
Keeps the display while held in hand	Set whether to keep Display from turning off while handset is held.
In the home screen, let's darken early	Set whether to darken Home Screen quickly when handset is put down (e.g., on a desk) while Home Screen is displayed.
Keep display outside of home screen	Set whether to keep Display from turning off when handset is put down (e.g., on a desk) while Display other than Home Screen is turned on.

Bright Keep Operations

Setting Whether to Turn on Display when Handset Is Picked Up (E.G., from a Desk) and Held Still.

In Home Screen, ⚙ (Settings) → AQUOS Tricks → Bright Keep → Turn screen on by holding

- Tap Turn screen on by holding to toggle on (●)/off (○).
- Whether handset is picked up is determined from handset angle or vibration. Holding handset upright or moving while holding it may affect the determination.

Setting Whether to Keep Display On while Holding Handset

In Home Screen, ⚙ (Settings) → AQUOS Tricks → Bright Keep → Keeps the display while held in hand

- Tap Keeps the display while held in hand to toggle on (●)/off (○).
- Hand-held state is determined from handset angle or vibration. Usage status may affect determination of hand-held state.

Setting Whether to Darken Home Screen Quickly when Handset is Put Down (E.G., on a Desk) while Home Screen is Displayed

In Home Screen, ⚙ (Settings) → AQUOS Tricks → Bright Keep → In the home screen, let's darken early

- Tap In the home screen, let's darken early to toggle on (●)/off (○).

Setting Whether to Keep Display from Turning Off when Handset is Put Down (E.G., on a Desk) while Display Other Than Home Screen is Turned On

In Home Screen, ⚙ (Settings) → AQUOS Tricks → Bright Keep → Keep display outside of home screen

- Tap Keep display outside of home screen to toggle on (●)/off (○).

Security Settings

Make security settings including screen lock and face authentication.

Security Settings

Settable items are the following.

Item	Description
Google Play Protect	Set whether to scan handset for security issues.
Find My Device	Set whether location is shown if handset is lost.
Security update	Check whether system updates are required via the network, and update manually as required. See "Updating the System" for details.
Screen lock	Set a screen lock.
Face authentication	When face data is saved, handset authenticates with face when Display is on, and screen unlocks.
Fingerprint	Save fingerprints. See "Using Fingerprint Authentication Function" for details.
Smart Lock	Enable handset to check whether it is being carried or for trusted place or device and unlock screen.
Device admin apps	Set whether to enable applications managing handset.
SIM card lock	Change lock and SIM PIN for SIM Card.
Encryption & credentials	Make settings for encryption and credentials.
Trust agents	Show/hide trusted agents.
App pinning	Set screen of only specified applications to be in view.
Confirm SIM deletion	Set whether to perform screen unlock operation before erasing eSIM.

Security Operations

Setting Screen Not to Lock

In Home Screen, ⚙ (Settings) → Security → Screen lock → None

- If method for unlocking screen is setting other than None or Swipe before changing setting, first Tap Screen lock and unlock screen.
- If confirmation appears, follow onscreen prompts.

Setting Whether Traced Pattern is Visible when Unlocking Screen

In Home Screen, ⚙ (Settings) → Security → ⚙ for "Screen lock" → Make pattern visible

- Tap Make pattern visible to toggle on (●)/off (○).
- Set when unlock method is Pattern .

Setting Time after Display Off until Screen Locks

In Home Screen, ⚙ (Settings) → Security → ⚙ for "Screen lock" → Lock after screen timeout → Tap item

- Set when unlock method is setting other than None or Swipe .

Setting Whether Pressing Power Key Immediately Locks Screen

In Home Screen, ⚙ (Settings) → Security → ⚙ for "Screen lock" → Power button instantly locks

- Tap Power button instantly locks to toggle on (●)/off (○).
- Set when unlock method is setting other than None or Swipe .

Setting Screen to Remain Unlocked while Being Carried

In Home Screen, ⚙ (Settings) → Security → Smart Lock → Enter pattern / lock no. (PIN) / password → On-body detection → Use On-body detection → CONTINUE

- Set pattern / lock no. (PIN) / password for unlocking screen beforehand.
- Tap Use On-body detection to toggle on (●)/off (○).
- If confirmation appears, follow onscreen prompts.

Setting Screen to Remain Unlocked while in Specific Place

In Home Screen, ⚙ (Settings) → Security → Smart Lock → Enter pattern / lock no. (PIN) / password → Trusted places → Home / Add trusted place → Follow onscreen prompts

- Set pattern / lock no. (PIN) / password for unlocking screen beforehand.
- To select Home , log in to a Google account beforehand.
- If confirmation appears, follow onscreen prompts.

Deleting Places Added as Trusted Places

In Home Screen, ⚙ (Settings) → Security → Smart Lock → Enter pattern / lock no. (PIN) / password → Trusted places → Tap place → Delete

- If confirmation appears, follow onscreen prompts.

Setting Screen to Unlock by Using Trusted Device

In Home Screen, ⚙ (Settings) → Security → Smart Lock → Enter pattern / lock no. (PIN) / password → Trusted devices → Add trusted device → Tap device → Follow onscreen prompts

- Set pattern / lock no. (PIN) / password for unlocking screen beforehand.
- Turn "Bluetooth" On and pair with a Bluetooth® device beforehand.
- If confirmation appears, follow onscreen prompts.

Deleting Devices Added as Trusted Devices

In Home Screen, ⚙ (Settings) → Security → Smart Lock → Enter pattern / lock no. (PIN) / password → Trusted devices → Tap name of device → REMOVE

Setting Whether to Enable Device Administration Applications

In Home Screen, ⚙ (Settings) → Security → Device admin apps → Tap device admin application name → Follow onscreen prompts

Setting Whether to Allow Applications Access to Trusted Certificates and Other Credentials

In Home Screen, ⚙ (Settings) → Security → Encryption & credentials → Trusted credentials → SYSTEM / USER → Tap certificate → DISABLE / ENABLE / UNINSTALL

Viewing Details of Credentials Installed by User

In Home Screen, ⚙ (Settings) → Security → Encryption & credentials → User credentials → Tap certificate

Deleting Credentials Installed by User

In Home Screen, ⚙ (Settings) → Security → Encryption & credentials → User credentials → Tap certificate → UNINSTALL

Installing Encrypted Certificates

In Home Screen, ⚙ (Settings) → Security → Encryption & credentials → Install a certificate → Follow onscreen prompts

- If method for unlocking screen before change is setting other than None or Swipe , first unlock screen.
- Credentials may be required when configuring a Wi-Fi network. How to obtain credentials varies by the issuer.

Deleting All Credentials and Resetting Credential Storage Password

In Home Screen, ⚙ (Settings) → Security → Encryption & credentials → Clear credentials → OK

- Clearing credential storage also deletes all VPN settings.
- If method for unlocking screen is setting other than None or Swipe , first Tap OK and unlock screen.

Setting Whether to Show/Hide Trusted Agents

In Home Screen, ⚙ (Settings) → Security → Trust agents → Tap agent name

- Set pattern / lock no. (PIN) / password for unlocking screen beforehand.
- Tap agent name to toggle on (◉)/off (●).

Setting Screen of Only Specified Application to Be Kept in View

In Home Screen, ⚙ (Settings) → Security → App pinning → Use app pinning (◉) → Activate application to pin → Drag bottom of Display up → Tap icon of application in history → Pin → GOT IT

- Tap Use app pinning to toggle on (◉)/off (●).
- To unpin, wait while Dragging bottom of Display up.
- If confirmation appears, follow onscreen prompts.

Requiring Screen to Be Unlocked after Screen of Only Specified Application No Longer Kept in View

In Home Screen, ⚙ (Settings) → Security → App pinning → Lock device when unpinning (◉) → Pattern / PIN / Password → Set pattern / lock no. (PIN) / password

- Set "App pinning" to On beforehand.
- If pattern / lock no. (PIN) / password for unlocking screen is set beforehand, Tap App pinning to show Ask for unlock pattern before unpinning / Ask for PIN before unpinning / Ask for password before unpinning . Tap Ask for unlock pattern before unpinning / Ask for PIN before unpinning / Ask for password before unpinning to toggle on (◉)/off (●).

Setting Whether to Perform Screen Unlock Operation Before Erasing eSIM

In Home Screen, ⚙ (Settings) → Security → Confirm SIM deletion

- Set pattern / lock no. (PIN) / password for unlocking screen beforehand.
- Tap Confirm SIM deletion to toggle on (●)/off (●).
- If confirmation appears, follow onscreen prompts.

Screen Lock Cautions

Make sure to make a note of and not forget pattern / lock no. (PIN) / password set for unlocking screen. If you forget the code, visit your nearest SoftBank Shop for recovery. Note that saved files and settings will be lost.

Main Security Codes

The following are main security codes required for handset use.

Code	Description
Center Access Code	A four-digit code set in subscription contract. See "Center Access Code" for details.
SIM PIN	A code for SIM Card/eSIM. SIM PIN is 9999 by default (change as needed). See "Enabling SIM PIN" for details.
Lock No. (PIN)	A code for unlocking screen. See "Requiring Lock No. (PIN) Entry for Unlocking Screen" for details.

Center Access Code

Center Access Code is a four-digit code set in subscription contract; necessary to use optional services from landlines, etc.

- Do not forget Center Access Code. If you forget the code, contact us for recovery. For details, contact Customer Service.
- Be careful not to reveal security codes to others. If misused by others, SoftBank Corp. is not liable for any resulting damages.

Enabling SIM PIN

When SIM PIN is enabled, PIN entry is required for handset use each time handset is powered on with SIM Card installed/eSIM enabled. It is effective for preventing unauthorized use by others.

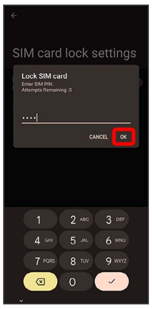
Lock SIM card → Enter SIM PIN → OK (●)



SIM card lock is enabled.

Disabling SIM Card Lock

In Security menu, SIM card lock → Lock SIM card → Enter SIM PIN → OK (●)

SIM PIN Entry Cautions

SIM PIN entry is required when changing SIM PIN, when powering handset on with SIM card lock enabled, etc.

- Entering incorrect SIM PIN three consecutive times activates PIN Lock. To cancel, Personal Unblocking Key (PUK) is required; contact Customer Service.
- Entering incorrect PUK ten consecutive times activates PUK Lock, disabling handset. For recovery, SIM Card/eSIM must be reissued at a SoftBank Shop (fees apply).

Changing SIM PIN

Enable SIM card lock first. See "Enabling SIM PIN" for details.

2

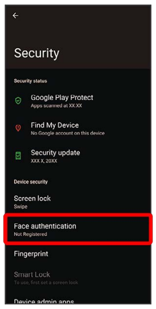
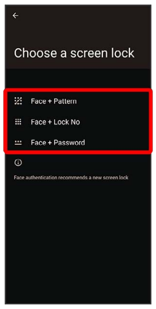
Face authentication



3

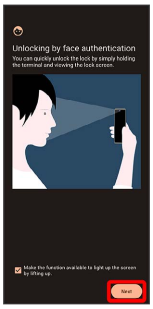
Follow onscreen prompts and set pattern / lock no. (PIN) / password for unlocking screen



- This is a backup method for unlocking the screen if unable to authenticate with your face.
- Unlocks screen when unlock method is setting other than None or Swipe .
- See "Setting Screen to Unlock by Tracing Pattern," "Requiring Lock No. (PIN) Entry for Unlocking Screen," and "Setting Screen to Unlock with Password" for details on setting a method for unlocking screen.

4

Next



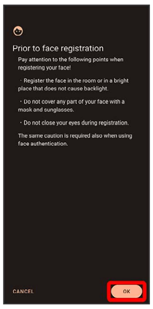
Unlocking by face authentication

You can quickly unlock the lock by simply holding the terminal and viewing the lock screen.

☑ Make the function available to light up the screen by lifting up.

5

OK



Prior to face registration

Pay attention to the following points when registering your face!

・Register the face in the room or in a bright place that does not cause backlight.

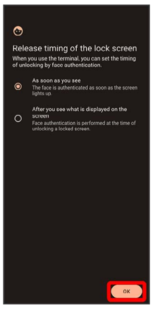
・Do not cover any part of your face with a mask and sunglasses.

・Do not close your eyes during registration.

The same caution is required also when using face authentication.

6

Align face with onscreen guides → ACTIVATE / SKIP → Tap when to unlock screen → OK



Release timing of the lock screen

When you use the terminal, you can set the timing of unlocking by face authentication.

● As soon as you see
The face is authenticated as soon as the screen lights up.

○ After you see what is displayed on the screen
Face authentication is performed at the time of unlocking a locked screen.

Face data is saved.

Face Authentication Operations

Deleting Face Data

In Security menu, Face authentication → Enter pattern / lock no. (PIN) / password → Deletion of face data → Yes

Setting Whether to Use Face Authentication Even When Wearing Mask

In Security menu, Face authentication → Enter pattern / lock no. (PIN) / password → Face recognition even when you are wearing a mask (●)

- Tap Face recognition even when you are wearing a mask to toggle on (●)/off (○).
- If confirmation appears, follow onscreen prompts.

Changing When to Unlock Screen after Saving Face Data

In Security menu, Face authentication → Enter pattern / lock no. (PIN) / password → Tap when to unlock screen

Checking Overview and Precautions for Face Authentication after Saving Face Data

In Security menu, Face authentication → Enter pattern / lock no. (PIN) / password → ⋮ → Face authentication / Precautions

Face Authentication Cautions

Cautions for Saving Face Data

Access permission for camera is required when saving face data. To permit access, Tap WHILE USING THE APP .

- When Tapping ONLY THIS TIME / DON'T ALLOW , the face authentication may not operate normally.

Cautions for Screen Unlock Using Face Authentication

When 4 hours or longer passed after Display is turned off, the screen cannot be unlocked with face authentication. To unlock screen, use unlock method (Pattern/Lock No.(PIN)/Password). After unlocked, the screen can be unlocked with face authentication.

Privacy Settings

Make settings for Google activity, application feature access history and permissions.

Privacy Settings

Settable items are the following.

Item	Description
Privacy dashboard	Check applications that used location, camera, microphone, etc. in past 24 hours.
Permission manager	Set applications with permitted usage by function. See "Setting Required Permissions for Applications" for details.
Camera access	Set whether camera is accessible for all applications and services.
Microphone access	Set whether microphone is accessible for all applications and services.
Show passwords	Set whether characters remain visible for a short time as password is entered.
Notifications on lock screen	Set whether to show notifications in lock screen. See "Display Settings" for details.
Android System Intelligence	Check Android System Intelligence functions and delete stored data.
App content	Set whether to allow applications to send contents to Android System.
Show clipboard access	Set whether to display notifications when copied text, images, etc. on clipboard are used in application.
Autofill service from Google	Use Google autofill service.
Google location history	Set Google location history.
Activity controls	Manage Google activity.
Ads	Set Ads.
Usage & diagnostics	Set whether to send usage status and diagnosis information to Google automatically.

Privacy Operations

Checking Applications that Used Location, Camera, Microphone, etc. in Past 24 hours

In Home Screen, ⚙ (Settings) → Privacy → Privacy dashboard → Location / Camera / Microphone

- Tap application to check/change access permissions for functions it is using.
- Tap See other permissions to display other functions. Tap displayed function to check/change access permissions for application functions.

Setting Whether Camera is Accessible for All Applications and Services

In Home Screen, ⚙ (Settings) → Privacy → Camera access

- Tap Camera access to toggle on (◯)/off (●).

Setting Whether Microphone is Accessible for All Applications and Services

In Home Screen, ⚙ (Settings) → Privacy → Microphone access

- Tap Microphone access to toggle on (◯)/off (●).

Setting Whether Characters Remain Visible for a Short Time when Password is Entered

In Home Screen, ⚙ (Settings) → Privacy → Show passwords

- Tap Show passwords to toggle on (◯)/off (●).

Checking Android System Intelligence Functions

In Home Screen, ⚙ (Settings) → Privacy → Android System Intelligence → Device learning

Setting Whether to Display Suggestions for Reply, etc., on Keyboard Suggestion Bar

In Home Screen, ⚙ (Settings) → Privacy → Android System Intelligence → Keyboard → ◯ / ●

- Tap ● to toggle On (◯), ◯ to toggle Off (●).

Deleting Data Stored by Android System Intelligence

In Home Screen, ⚙ (Settings) → Privacy → Android System Intelligence → Clear data → Tap item → Clear data

Setting Whether to Allow Applications to Send Contents to Android System

In Home Screen, ⚙ (Settings) → Privacy → App content

- Tap App content to toggle on (◉)/off (●).

Setting Whether to Display Notifications When Copied Text, Images, etc. on Clipboard are Used in Applications

In Home Screen, ⚙ (Settings) → Privacy → Show clipboard access

- Tap Show clipboard access to toggle on (◉)/off (●).

Using Google Autofill Service

In Home Screen, ⚙ (Settings) → Privacy → Autofill service from Google → Follow onscreen prompts

- Log in to a Google account beforehand.

Setting Google Location History

In Home Screen, ⚙ (Settings) → Privacy → Google location history → Follow onscreen prompts

- Log in to a Google account beforehand.

Setting Google Activity Controls

In Home Screen, ⚙ (Settings) → Privacy → Activity controls → Follow onscreen prompts

- Log in to a Google account beforehand.

Setting Ads

In Home Screen, ⚙ (Settings) → Privacy → Ads → Follow onscreen prompts

Setting Whether to Send Usage Status and Diagnosis Information to Google Automatically

In Home Screen, ⚙ (Settings) → Privacy → Usage & diagnostics → Usage & diagnostics

- Tap Usage & diagnostics to toggle on (◉)/off (●).

Location Settings

Make settings for location information.

Location Settings

Settable items are the following.

Item	Description
Use location	Set whether to use location information.
App location permissions	Check applications' permission to access location, and set permission, permission or not only while in use, and one-time-only permission.
Location services	Making Settings for Google Location History, Emergency Location Service, etc. For details on Google location history, see "Privacy Settings."

Location Operations

Setting Whether to Use Location Information

In Home Screen, ⚙ (Settings) → Location → Use location

- Tap Use location to toggle on (◉)/off (●).

Showing Applications that Recently Used Location

In Home Screen, ⚙ (Settings) → Location

- Applications that recently used location appear below "Recent access."

Setting Whether to Permit Use of Location per Each Application

In Home Screen, ⚙ (Settings) → Location → App location permissions → Tap application name → Allow all the time / Allow only while using the app / Ask every time / Don't allow

- If confirmation appears, follow onscreen prompts.
- Allow all the time does not appear for some applications.

Setting Whether to Send Location in Emergency

In Home Screen, ⚙ (Settings) → Location → Location services → Emergency Location Service → Use Emergency Location Service

- Tap Use Emergency Location Service to toggle on (◉)/off (●).

Setting Whether to Improve Location Accuracy

In Home Screen, ⚙ (Settings) → Location → Location services → Google Location Accuracy → Improve Location Accuracy

- Tap Improve Location Accuracy to toggle on (●)/ off (●).

Managing Location Share Setting

In Home Screen, ⚙ (Settings) → Location → Location services → Google Location Sharing → Follow onscreen prompts

- Log in to a Google account beforehand.

Setting Whether to Use Wi-Fi Scanning to Increase Accuracy of Location

In Home Screen, ⚙ (Settings) → Location → Location services → Wi-Fi scanning → Wi-Fi scanning

- Tap Wi-Fi scanning to toggle on (●)/off (●).

Setting Whether to Use Bluetooth® Scanning to Increase Accuracy of Location

In Home Screen, ⚙ (Settings) → Location → Location services → Bluetooth scanning → Bluetooth scanning

- Tap Bluetooth scanning to toggle on (●)/off (●).

System Settings

Make settings for language and input, date and time, backup, reset, etc.

System Settings

Settable items are the following.

Item	Description
Languages & input	Make settings for display language and text entry.
Gestures	Set whether to activate camera by pressing Power Key twice, or to activate Manner Mode by pressing Power Key and Volume Up Key simultaneously, etc.
Date & time	Make settings for date and time.
Backup	Make settings such as whether to back up application data, Wi-Fi passwords, etc. to Google One.
System update	Check whether system updates are required via the network, and update manually as required. See "Updating the System" for details.
Data transfer	Import data from other mobiles, etc. using Bluetooth® or SD Card. See "Importing Contacts via Bluetooth® (Data Transfer)" and "Importing Data from SD Card (Data Transfer)" for details.
Reset options	Reset network and application settings, all data on handset, etc.
Hardware Feedback	Set whether to send feedback on hardware.
Power menu	Open Power menu.

System Operations

Accessing Developer Options

In Home Screen, ⚙ (Settings) → About phone → Build number seven times → ← → System → Developer options

🏁 Developer options open.

- If method for unlocking screen is setting other than None or Swipe , first Tap Build number 7 times and unlock screen.

Adding Languages Shown on Display

In Home Screen, ⚙ (Settings) → System → Languages & input → Languages → Add a language → Tap language

Setting Language Shown on Display

In Home Screen, ⚙ (Settings) → System → Languages & input → Languages → Drag ≡ for language to top

- Add languages beforehand.

Deleting Added Languages

In Home Screen, ⚙ (Settings) → System → Languages & input → Languages → ⋮ → Remove → Tap languages (✓) → 🗑 → REMOVE

Setting Input Method

In Home Screen, ⚙ (Settings) → System → Languages & input → On-screen keyboard → Tap input method → Follow onscreen prompts

- To add/delete input method, Tap Manage on-screen keyboards , then follow onscreen prompts.

Setting Whether to Block Offensive Words Using Google Voice Typing (Legacy)

In Home Screen, ⚙ (Settings) → System → Languages & input → On-screen keyboard → Google Voice Typing [Legacy] → Block offensive words

- Tap Block offensive words to toggle on (●)/off (○).

Setting Language for Google Voice Typing (Legacy)

In Home Screen, ⚙ (Settings) → System → Languages & input → On-screen keyboard → Google Voice Typing [Legacy] → Languages → Tap languages → OK

- Touch & Hold language to set it as the primary language, and follow onscreen prompts.

Setting Main Language for Voice Input by Goggle Voice Typing (Legacy)

In Home Screen, ⚙ (Settings) → System → Languages & input → On-screen keyboard → Google Voice Typing [Legacy] → Primary language → Tap language

- Available when two or more languages are selected during Voice Input language settings.

Showing Virtual Keyboard when Using Physical Keyboard

In Home Screen, ⚙ (Settings) → System → Languages & input → Physical keyboard → Use on-screen keyboard (●)

- Tap Use on-screen keyboard to toggle on (●)/off (○).

Showing Shortcuts List when Using Physical Keyboard

In Home Screen, ⚙ (Settings) → System → Languages & input → Physical keyboard → Keyboard shortcuts

Setting Whether to Check Spelling During Entry

In Home Screen, ⚙ (Settings) → System → Languages & input → Spell checker → Use spell checker

- Tap Use spell checker to toggle on (●)/off (○).
- Tap Languages to set languages to check spelling.
- Tap ⚙ for "Default spell checker" to set spelling check operation.

Adding Words to Personal Dictionary

In Home Screen, ⚙ (Settings) → System → Languages & input → Personal dictionary → + → Tap entry field → Enter words → ⇥ → Enter shortcut → ✓ → ←

Deleting Words from Personal Dictionary

In Home Screen, ⚙ (Settings) → System → Languages & input → Personal dictionary → Tap word (s) → 🗑

Setting Speed of Pointer for Mouse/Trackpad

In Home Screen, ⚙ (Settings) → System → Languages & input → Pointer speed → Drag bar to adjust speed → OK

- The longer the bar, the faster the speed.

Setting Speech Synthesis Engine for Text-to-Speech

In Home Screen, ⚙ (Settings) → System → Languages & input → Text-to-speech output → Preferred engine → Tap engine

- Tap ⚙ for "Preferred engine" to set operation of speech synthesis engine.

Setting Language for Text-to-Speech

In Home Screen, ⚙ (Settings) → System → Languages & input → Text-to-speech output → Language → Tap language

Setting Speed for Text-to-Speech

In Home Screen, ⚙ (Settings) → System → Languages & input → Text-to-speech output → Drag "Speech rate" bar to adjust speed

Setting Pitch for Text-to-Speech

In Home Screen, ⚙ (Settings) → System → Languages & input → Text-to-speech output → Drag "Pitch" bar to adjust pitch height

Playing Sample

In Home Screen, ⚙ (Settings) → System → Languages & input → Text-to-speech output → PLAY

Resetting Speed/Pitch for Text-to-Speech

In Home Screen, ⚙ (Settings) → System → Languages & input → Text-to-speech output → RESET

Setting Whether to Activate Camera by Pressing Power Key Twice

In Home Screen, ⚙ (Settings) → System → Gestures → Quickly open camera → Quickly open camera

- Tap Quickly open camera to toggle on (●)/off (○).

Setting Whether to List Recently Used Applications by Dragging Bottom of Display Up or Tapping □

In Home Screen, ⚙ (Settings) → System → Gestures → System navigation → Gesture navigation / 3-button navigation

- After selecting 3-button navigation , □ appears on Navigation Bar.

Setting Whether to Use One-handed Mode

In Home Screen, ⚙ (Settings) → System → Gestures → One-handed mode → Use one-handed mode

- Tap Use one-handed mode to toggle on (●)/off (○).

Setting Gestures for One-handed Mode

In Home Screen, ⚙ (Settings) → System → Gestures → One-handed mode → Pull screen into reach / Show notifications

- Select Pull screen into reach to shift screen to lower half of display by flicking navigation bar down.
- Select Show notifications to flick down navigation bar to display notification panel.
- Available when Use one-handed mode is enabled.

Setting Whether to Use One-handed Mode by Using Shortcut

In Home Screen, ⚙ (Settings) → System → Gestures → One-handed mode → ● / ○ for "One-handed mode shortcut"

- Tap ○ to toggle On (●), ● to toggle Off (○).
- Tap One-handed mode shortcut to set shortcut type. Follow onscreen prompts.

Setting Whether Fingerprint Sensor and Clock Appear by Tapping Screen while Screen is Turned Off (Screen Lock)

In Home Screen, ⚙ (Settings) → System → Gestures → Tap to display clock → Tap to display clock

- Tap Tap to display clock to toggle on (●)/off (○).

Setting Whether Long Pressing Power Key Starts Application

In Home Screen, ⚙ (Settings) → System → Gestures → ● / ○ for "Press and hold power button"

- Tap ○ to toggle On (●), ● to toggle Off (○).
- Tap Press and hold power button → Select application to set type of application to start.

Setting Whether Manner Mode Is Activated by Pressing Power Key and Volume Up Key

In Home Screen, ⚙ (Settings) → System → Gestures → ● / ○ for "Prevent ringing"

- Tap ○ to toggle On (●), ● to toggle Off (○).
- Available when Press and hold power button is disabled.

Setting Manner Mode That Is Activated by Pressing Power Key and Volume Up Key

In Home Screen, ⚙ (Settings) ➔ System ➔ Gestures ➔ Prevent ringing ➔ Vibrate / Mute

- Available when Use prevent ringing is enabled.

Setting Whether to Use Date Information from Network

In Home Screen, ⚙ (Settings) ➔ System ➔ Date & time ➔ Set time automatically

- Tap Set time automatically to toggle on (◉)/off (●).

Setting Date and Time Manually

In Home Screen, ⚙ (Settings) ➔ System ➔ Date & time ➔ Date / Time ➔ Specify date/time ➔ OK

- Available when Set time automatically is disabled.

Setting Whether to Use Time Zone Information from Network

In Home Screen, ⚙ (Settings) ➔ System ➔ Date & time ➔ Set time zone automatically

- Tap Set time zone automatically to toggle on (◉)/ off (●).

Setting Whether to Update Time Zone Based On Location

In Home Screen, ⚙ (Settings) ➔ System ➔ Date & time ➔ Use location to set time zone

- Tap Use location to set time zone to toggle on (◉)/off (●).

Setting Backup to Google One

In Home Screen, ⚙ (Settings) ➔ System ➔ Backup

- Log in to a Google account beforehand. Backup by Google One will be enabled (◉) automatically.
- Tap Backup by Google One to disable (●) and remove data from the cloud. Follow onscreen prompts. To enable (◉) again, Tap Turn on .
- Tap Back up now to manually backup to Google One.

Setting Backup Account

In Home Screen, ⚙ (Settings) ➔ System ➔ Backup ➔ Account storage ➔ Tap Google account ➔ Turn on

- Make settings when logged in to multiple Google accounts.
- To add account, Tap Add account , then follow onscreen prompts.

Managing Storage of Backed Up Data

In Home Screen, ⚙ (Settings) ➔ System ➔ Backup ➔ Manage storage ➔ Follow onscreen prompts

Checking Details of Backed Up Data

In Home Screen, ⚙ (Settings) ➔ System ➔ Backup

- Details of backed up data are shown below "Backup details."
- For some items, Tap to check for more details. Follow onscreen prompts.

Setting Whether to Back Up Using Mobile Data

In Home Screen, ⚙ (Settings) ➔ System ➔ Backup ➔ Back up using mobile or metered Wi-Fi data

- Tap Back up using mobile or metered Wi-Fi data to toggle on (◉)/off (●).

Resetting Network Settings

In Home Screen, ⚙ (Settings) ➔ System ➔ Reset options ➔ Reset Wi-Fi, mobile & Bluetooth ➔ RESET SETTINGS ➔ RESET SETTINGS

- To also erase downloaded eSIM, Tap Erase downloaded SIMs (☑).
- To use eSIM again after eSIM is deleted, QR code to download eSIM must be reissued.
- Even if eSIM is deleted, contract has not been canceled.
- If method for unlocking screen is setting other than None or Swipe , first Tap RESET SETTINGS and unlock screen.

Resetting Application Settings

In Home Screen, ⚙ (Settings) ➔ System ➔ Reset options ➔ Reset app preferences ➔ RESET APPS

Deleting eSIM

In Home Screen, ⚙ (Settings) ➔ System ➔ Reset options ➔ Erase downloaded SIMs ➔ ERASE

- To use eSIM again after eSIM is deleted, QR code to download eSIM must be reissued.
- Even if eSIM is deleted, contract has not been canceled.

Setting Whether to Send Feedback on Hardware

In Home Screen, ⚙ (Settings) ➔ System ➔ Hardware Feedback ➔ ☑ / ■

Opening Power Menu

In Home Screen, ⚙ (Settings) ➔ System ➔ Power menu

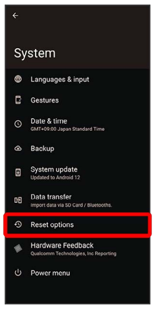
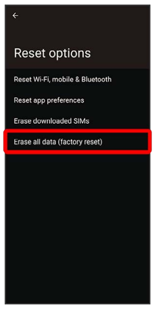
Reset options



4

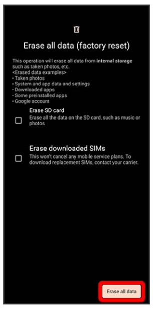
Erase all data (factory reset)



Reset options
Reset Wi-Fi, mobile & Bluetooth
Reset app preferences
Erase downloaded SIMs
Erase all data (factory reset)

5

Erase all data



Erase all data (factory reset)

This operation will erase all data from **internal storage** such as taken photos, etc.
<Erased data examples>
- Taken photos
- System and app data and settings
- Downloaded apps
- Some preinstalled apps
- Google account

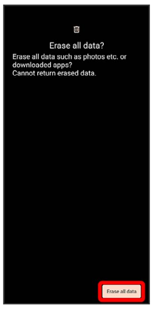
☐ Erase SD card
Erase all the data on the SD card, such as music or photos

☐ Erase downloaded SIMs
This won't cancel any mobile service plans. To download replacement SIMs, contact your carrier.

- To also erase SD Card data, Tap Erase SD card (✓).
- To also erase downloaded eSIM, Tap Erase downloaded SIMs (✓).
- To use eSIM again after eSIM is deleted, QR code to download eSIM must be reissued.
- Even if eSIM is deleted, contract has not been canceled.
- Unlocks screen when unlock method is setting other than None or Swipe .

6

Erase all data



Erase all data?

Erase all data such as photos etc. or downloaded apps?
Cannot return erased data.

Handset is reset.

Cautions when Erasing All Data (Factory Reset)

Observe the following when erasing all data (factory reset).

- Erasing all data (factory reset) deletes all data in internal storage irreversibly. Back up important data beforehand.
- Deleted content cannot be restored. Reset with caution.

Other Handset Settings

Phone Number

See "Checking Your Phone Number" for details on phone number.

Network & Internet

Make network and Internet settings for Wi-Fi, mobile network, hotspot tethering, etc. Settable items are the following.

Item	Description
Wi-Fi	Enable Wi-Fi connection. See "Connecting by Wi-Fi" for details.
Mobile network	Configure mobile network settings. See "Global Roaming" for details on roaming, automatic network selection, and network selection. See "Data Usage Settings" for details on application data usage as well as data usage alert and limit.
Airplane mode	Set whether to stop signal-transmitting functions
Hotspot & tethering	Make tethering settings. See "Using Tethering" for details.
Data Saver	Make settings for Data Saver.
VPN	Add VPN destinations.
Private DNS	Set private DNS.
Proxy settings	Make proxy settings.

Network & Internet Operations

Setting Whether to Enable All Communications over Mobile Network

In Home Screen, ⚙ (Settings) ➔ Network & internet ➔ Mobile network ➔ Use SIM

- Tap Use SIM to toggle on (●)/off (●).
- If confirmation appears, follow onscreen prompts.

Setting Whether to Use Mobile Data

In Home Screen, ⚙ (Settings) ➔ Network & internet ➔ Mobile network ➔ Mobile data

- Tap Mobile data to toggle on (●)/off (●).

Setting Whether to Send/Receive MMS Messages When Mobile Network is Off

In Home Screen, ⚙ (Settings) ➔ Network & internet ➔ Mobile network ➔ MMS messages

- Tap MMS messages to toggle on (●)/off (●).
- Available when Mobile data is disabled.

Using 5G/4G LTE/4G/3G Network

In Home Screen, ⚙ (Settings) ➔ Network & internet ➔ Mobile network ➔ Preferred network type ➔ 5G (recommended) / 4G / 3G (◉)

Adding Access Points

In Home Screen, ⚙ (Settings) ➔ Network & internet ➔ Mobile network ➔ Access Point Names ➔ + ➔ Tap item ➔ Set/enter each item ➔ ⋮ ➔ Save

Deleting Added Access Points

In Home Screen, ⚙ (Settings) ➔ Network & internet ➔ Mobile network ➔ Access Point Names ➔ ⋮ ➔ Reset to default

Setting Whether to Stop Signal-Transmitting Functions

In Home Screen, ⚙ (Settings) ➔ Network & internet ➔ Airplane mode

- Tap Airplane mode to toggle on (●)/off (●).

Setting Data Saver

In Home Screen, ⚙ (Settings) ➔ Network & internet ➔ Data Saver ➔ Use Data Saver

- Tap Use Data Saver to toggle on (●)/off (●).

Setting Whether to Exclude Application(s) from Data Saver

In Home Screen, ⚙ (Settings) ➔ Network & internet ➔ Data Saver ➔ Unrestricted data ➔ Tap application name

- Tap application name to toggle on (●)/off (●).

Adding VPN Destinations

In Home Screen, ⚙ (Settings) ➔ Network & internet ➔ VPN ➔ + ➔ Set/enter details ➔ SAVE

- Tap an added VPN to connect/disconnect it. Tap ⚙ to edit/delete it.

Setting Private DNS

In Home Screen, ⚙ (Settings) ➔ Network & internet ➔ Private DNS ➔ Tap item ➔ SAVE

- After Tapping Private DNS provider hostname , enter hostname.

Setting Proxy

In Home Screen, ⚙ (Settings) ➔ Network & internet ➔ Proxy settings ➔ Proxy/port/exclusion list ➔ Tap item ➔ OK

Connecting to Network via Set Proxy

In Home Screen, ⚙ (Settings) → Network & internet → Proxy settings → Enable proxy → YES (●)

- Tap Enable proxy to toggle on (●)/off (○).

Connected Devices

Make Bluetooth® and other device connection settings.
Settable items are the following.

- Names and status of devices connected by Bluetooth® and USB appear at top of Display.

Item	Description
Pair new device	Search for and pair nearby Bluetooth® devices. See "Pairing Bluetooth® Devices" for details.
Connection preferences	Make settings for Bluetooth® connection, NFC/Osaifu-Keitai® operation, etc. For details on Bluetooth®, see "Using Bluetooth® Function." For details on NFC/Osaifu-Keitai®, see "NFC／おサイフケータイ®を利用する (https://www.softbank.jp/mobile/support/manual/smartphone/aquos-sense7-plus/detail/64210/)" (Japanese). For details on files received with Bluetooth®, see "Receiving Data via Bluetooth® (e.g., Address Book)."
Codec preferences	Set codec for Bluetooth® connection.

Connected Device Operations

Viewing Handset Screen on Other Device

In Home Screen, ⚙ (Settings) → Connected devices → Connection preferences → Cast → Tap target device → START NOW

Making Printing Settings

In Home Screen, ⚙ (Settings) → Connected devices → Connection preferences → Printing → Follow onscreen prompts

Making Chromebook™ Settings

In Home Screen, ⚙ (Settings) → Connected devices → Connection preferences → Chromebook → Follow onscreen prompts

Making Nearby Share Settings

In Home Screen, ⚙ (Settings) → Connected devices → Connection preferences → Nearby Share → Follow onscreen prompts

Making Android Auto™ Settings

In Home Screen, ⚙ (Settings) ➔ Connected devices ➔ Connection preferences ➔ Android Auto ➔ Follow onscreen prompts

Setting Codec for Bluetooth® Connection

In Home Screen, ⚙ (Settings) ➔ Connected devices ➔ Codec preferences ➔ Follow onscreen prompts

! Cautions for Using Cast

Connection with Miracast® device is not supported.

Apps

Make application settings. Settable items are the following.

- Any recently used applications appear in "Recently opened apps."

Item	Description
See all XX apps	Check and make settings for installed applications.
Default apps	Set applications used as default.
Screen time	Check history of total duration of handset use. Also restrict usage of individual applications. See "Digital Wellbeing & Parental Controls" for details.
Unused apps	Open unused applications.
Special app access	Make settings for special application access.

Application Operations

Making Application Settings

In Home Screen, ⚙ (Settings) ➔ Apps ➔ See all XX apps ➔ Tap application name ➔ Set each item

View System Applications

In Home Screen, ⚙ (Settings) ➔ Apps ➔ See all XX apps ➔ ⋮ ➔ Show system

Resetting Application Settings

In Home Screen, ⚙ (Settings) ➔ Apps ➔ See all XX apps ➔ ⋮ ➔ Reset app preferences ➔ RESET APPS

Setting Digital assistant Applications

In Home Screen, ⚙ (Settings) ➔ Apps ➔ Default apps ➔ Digital assistant app ➔ Follow onscreen prompts

Setting Default Applications for Browser, Home Screen, Phone, Caller ID/Spam Applications, SMS, etc.

In Home Screen, ⚙ (Settings) ➔ Apps ➔ Default apps ➔ Browser app / Call redirecting app / Caller ID & spam app / Digital assistant app / Home app / Phone app / SMS app ➔ Tap application name

- Tap ⚙ for "Home app" to set Home Screen application.

Setting Integration with Other Applications, Etc.

In Home Screen, ⚙ (Settings) → Apps → Default apps → Opening links → Follow onscreen prompts

Checking Unused Applications

In Home Screen, ⚙ (Settings) → Apps → Unused apps

Make Settings for Special Application Access

In Home Screen, ⚙ (Settings) → Apps → Special app access → Set each item

Notifications

Make notification settings. Settable items are the following.

Item	Description
App settings	Manage notifications per application.
Notification history	Set whether to show history of recent notifications and notifications set to snoozing.
Conversations	Check conversations set as high priority or with their settings changed.
Bubbles	Set whether to allow applications to show bubbles.
Organize notifications on the lock screen	Set whether to hide notification viewed in lock screen so new notifications are easier to view.
Device & app notifications	Manage notification access permissions for devices and applications.
Notifications on lock screen	Set type of notifications to show in lock screen.
Sensitive notifications	Set whether to show sensitive notification.
Do Not Disturb	Make settings for silent mode. See "Sound Settings" for details on Do Not Disturb.
Wireless emergency alerts	Make settings for Urgent News. See "緊急速報メールを利用する (https://www.softbank.jp/mobile/support/manual/smartphone/aquos-sense7-plus/menu/22461/)" (Japanese) for details on emergency broadcasts.
Hide silent notifications in status bar	Set whether to hide silent notification on status bar.
Allow notification snoozing	Set whether to allow notification snoozing.
Notification dot on app icon	Set whether to show notification dot on application icon.
Enhanced notifications	Set whether notifications are reduced or silenced depending on type and usage of application that sent notifications.

Bubble Function

Bubble function is available only for compatible applications.

Notification Operations

Setting Whether to Use Notifications for Each Application

In Home Screen, ⚙ (Settings) → Notifications → App settings → ● / ○ for apps

- Tap ○ to toggle On (●), ● to toggle Off (○).
- Tap application names to set whether to use notifications for each notification type.

Setting Whether to Show History of Recent Notifications and Notifications Set to Snoozing

In Home Screen, ⚙ (Settings) → Notifications → Notification history

- Tap Use notification history to toggle show (●)/ hide (○).
- Notifications received after Use notification history is enabled are shown.

Checking Conversations Set as High Priority or Changed their Settings

In Home Screen, ⚙ (Settings) → Notifications → Conversations

Setting Whether to Allow Applications to Show Bubbles

In Home Screen, ⚙ (Settings) → Notifications → Bubbles → Allow apps to show bubbles

- Tap Allow apps to show bubbles to toggle show (●)/hide (○).

Setting Whether to Hide Notification Viewed in Lock Screen so New Notifications Are Easier to View

In Home Screen, ⚙ (Settings) → Notifications → Organize notifications on the lock screen

- Tap Organize notifications on the lock screen to toggle on (●)/off (○).
- Notifications that cannot be deleted still appear even when Organize notifications on the lock screen is on.
- Notification Indicators on Status Bar are not hidden.

Managing Notification Access Permissions for Devices and Applications

In Home Screen, ⚙ (Settings) → Notifications → Device & app notifications → Follow onscreen prompts

Setting Type of Notifications to Show in Lock Screen

In Home Screen, ⚙ (Settings) → Notifications → Notifications on lock screen → Show conversations, default, and silent / Hide silent conversations and notifications / Don't show any notifications

Setting Whether to Show Sensitive Notifications in Lock Screen

In Home Screen, ⚙ (Settings) → Notifications → Sensitive notifications

- Tap Sensitive notifications to toggle show (●)/ hide (○).
- Sensitive notifications appears when unlock method is setting other than None or Swipe .

Setting Whether to Hide Silent Notification on Status Bar

In Home Screen, ⚙ (Settings) → Notifications → Hide silent notifications in status bar

- Tap Hide silent notifications in status bar to toggle show (●)/hide (○).

Setting Whether to Allow Notification Snoozing

In Home Screen, ⚙ (Settings) → Notifications → Allow notification snoozing

- Tap Allow notification snoozing to toggle show (●)/hide (○).

Setting Whether to Show Notification Dot on Application Icon

In Home Screen, ⚙ (Settings) → Notifications → Notification dot on app icon

- Tap Notification dot on app icon to toggle show (●)/hide (○).

Setting Whether Notifications are Reduced or Silenced Depending on Type and Usage of Application that Sent Notifications

In Home Screen, ⚙ (Settings) → Notifications → Enhanced notifications

- Tap Enhanced notifications to toggle on (●)/off (○).

Storage

Check memory space of internal storage, SD Card and USB drive, mount or unmount SD Card, erase data on SD Card, etc. Settable items are the following.

- Available items vary depending on SD Card and USB drive status.

Item	Description
THIS DEVICE	View information on internal storage usage.
SD CARD	Check data saved on SD Card. Mount or unmount SD Card, etc. For details on mounting/unmounting SD Card, see "Internal Storage and SD Card."
(USB drive name)[1]	Check data saved on USB drive.

[1] Appears when the USB host function is in use. See "USBホスト機能を利用する (https://www.softbank.jp/mobile/support/manual/smartphone/aquos-sense7-plus/menu/22483/)" (Japanese) for details.

Checking Data Saved in Internal Storage

In Home Screen, ⚙ (Settings) → Storage → Documents & other / Audio / Videos / Images → ≡ → AQUOS sense7 plus

- If confirmation appears, follow onscreen prompts.

Wallpaper

See "Changing Wallpaper" for details.

Home Applications

Change the home application. You can change to a home application installed via Google Play.

Item	Description
AQUOS Home	Change home application to AQUOS Home.
AQUOS Kantan Home	Change home application to AQUOS Kantan Home.

Accessibility

Set captions, magnification gestures, and other useful accessibility functions. Settable items are the following.

Item	Description
Accessibility Menu	Set whether to use Accessibility Menu to adjust volume, brightness, etc. by using shortcuts.
Select to Speak	Set whether to read out tapped text on screen, etc. by using shortcuts.
Smart Security	Set whether to use (Smart Security), etc.
Switch Access	Set whether to operate handset using switches (Switch Access) instead of touchscreen.
TalkBack	Set whether to use text to speech in order to use handset without looking at screen.
詐欺ウォール	Set whether to use (詐欺ウォール).
Text and display	Set size and color of text, images, and icons on Display. See "Setting Font Size" for details on Font Size. See "Setting Size of Images and Icons" for details on Size of Images and Icons.
Extra dim	Set whether to dim screen darker than minimum screen brightness.
Dark theme	Set whether to enable Dark theme and time for using Dark theme. See "Display Settings" for details.
Magnification	Set whether to enable enlarged view by using a shortcut, etc.
Timing controls	Set time to hold down screen for Touch & Hold, to display messages for a short time, etc.
System controls	Set navigation bar, whether to end call when power key is pressed during call, and whether to automatically rotate screen according to handset orientation. See "Quick Operation Settings" and "System Settings" for details on Navigation Bar. See "Display Settings" for details on Auto-rotate Screen. See "System Settings" for details on One-handed Mode.
Vibration & haptic strength	Set whether handset vibrates for arriving calls and messages.
Caption preferences	Make settings for captions.
Audio adjustment	Set whether audio playback is monaural, and left/right balance of audio.
Accessibility shortcuts	Set size of shortcut button which opens Accessibility Menu and whether to enable shortcut from lock screen, etc.

Text-to-speech output	Make detailed voice-to-text settings. See "System Settings" for details.

Accessibility Operations

Setting Whether to Use Accessibility Menu to Adjust Volume, Brightness, etc. by Using Shortcuts

In Home Screen, ⚙ (Settings) → Accessibility → Accessibility Menu → ● / ○ for "Accessibility Menu shortcut"

- If confirmation appears, follow onscreen prompts.
- Tap ○ to toggle on (●), ● to toggle off (○).
- Tap Accessibility Menu shortcut to set shortcut type. Follow onscreen prompts.
- Tap Settings to set size of button for Accessibility Menu. Follow onscreen prompts.

Setting Whether to Read Out Tapped Text on Screen by Using Shortcut

In Home Screen, ⚙ (Settings) → Accessibility → Select to Speak → ● / ○ for "Select to Speak shortcut"

- If confirmation appears, follow onscreen prompts.
- Tap ○ to toggle on (●), ● to toggle off (○).
- Tap Select to Speak shortcut to set shortcut type. Follow onscreen prompts.
- Tap Settings to set speed and pitch of sound, etc. Follow onscreen prompts.

Setting Whether to Use (Smart Security)

In Home Screen, ⚙ (Settings) → Accessibility → Smart Security → Use Smart Security

- If confirmation appears, follow onscreen prompts.
- Tap Use Smart Security to toggle on (●)/off (○).

Setting Whether to Use (Smart Security) by Using Shortcut

In Home Screen, ⚙ (Settings) → Accessibility → Smart Security → ● / ○ for "Smart Security shortcut"

- If confirmation appears, follow onscreen prompts.
- Tap ○ to toggle on (●), ● to toggle off (○).
- Tap Smart Security shortcut to set shortcut type. Follow onscreen prompts.

Setting Whether to Operate Handset Using Switches (Switch Access) instead of Touchscreen

In Home Screen, ⚙ (Settings) → Accessibility → Switch Access → Use Switch Access → Follow onscreen prompts

- If confirmation appears, follow onscreen prompts.
- Tap Use Switch Access to toggle on (●)/off (○).
- Tap Settings to set switch assignments, behavior, etc. Follow onscreen prompts.

Setting Whether to Use "Switch Access" by Using Shortcut

In Home Screen, ⚙ (Settings) → Accessibility → Switch Access → ● / ○ for "Switch Access shortcut"

- If confirmation appears, follow onscreen prompts.
- Tap ○ to toggle on (●), ● to toggle off (○).
- Tap Switch Access shortcut to set shortcut type. Follow onscreen prompts.

Setting Whether to Use Text to Speech in Order to Use Handset Without Looking at Screen

In Home Screen, ⚙ (Settings) → Accessibility → TalkBack → Use TalkBack

- When "TalkBack" is initially activated, instruction screen for using "TalkBack" will be displayed. Follow onscreen prompts.
- Tap Use TalkBack to toggle on (●)/off (○).
- Tap Settings to set speed and pitch of sound, etc. Follow onscreen prompts.

Setting Whether to Read Out Items On Screen by Using Shortcut

In Home Screen, ⚙ (Settings) → Accessibility → TalkBack → ● / ○ for "TalkBack shortcut"

- If confirmation appears, follow onscreen prompts.
- Tap ○ to toggle on (●), ● to toggle off (○).
- Tap TalkBack shortcut to set shortcut type. Follow onscreen prompts.

Setting Whether to Use (詐欺ウォール)

In Home Screen, ⚙ (Settings) → Accessibility → 詐欺ウォール → Use 詐欺ウォール

- If confirmation appears, follow onscreen prompts.
- Tap Use 詐欺ウォール to toggle on (●)/off (○).

Setting Whether to Use (詐欺ウォール) by Using Shortcut

In Home Screen, (Settings) → **Accessibility** → **詐欺ウォール** → ● / ○ for "詐欺ウォール shortcut"

- If confirmation appears, follow onscreen prompts.
- Tap ○ to toggle on (●), ● to toggle off (○).
- Tap **詐欺ウォール shortcut** to set shortcut type. Follow onscreen prompts.

Setting Whether to Make Screen Text Bold

In Home Screen, (Settings) → **Accessibility** → **Text and display** → **Bold text**

- Tap **Bold text** to toggle on (●)/off (○).

Setting Whether to Correct Colors when Red and Green Are Indistinguishable

In Home Screen, (Settings) → **Accessibility** → **Text and display** → **Color correction** → **Use color correction**

- Tap **Use color correction** to toggle on (●)/off (○).
- Tap **Deuteranomaly** / **Protanomaly** / **Tritanomaly** / **Grayscale** to select a mode.

Setting Whether to Correct Color by Using Shortcut

In Home Screen, (Settings) → **Accessibility** → **Text and display** → **Color correction** → ● / ○ for "Color correction shortcut"

- If confirmation appears, follow onscreen prompts.
- Tap ○ to toggle on (●), ● to toggle off (○).
- Tap **Color correction shortcut** to set shortcut type. Follow onscreen prompts.

Setting Whether to Invert Display Colors

In Home Screen, (Settings) → **Accessibility** → **Text and display** → **Color inversion** → **Use color inversion**

- Tap **Use color inversion** to toggle on (●)/off (○).

Setting Whether to Invert Display Color by Using shortcut

In Home Screen, (Settings) → **Accessibility** → **Text and display** → **Color inversion** → ● / ○ for "Color inversion shortcut"

- If confirmation appears, follow onscreen prompts.
- Tap ○ to toggle on (●), ● to toggle off (○).
- Tap **Color inversion shortcut** to set shortcut type. Follow onscreen prompts.

Setting Whether Not to Show Animation when Tapping Setting Switch (● / ○)

In Home Screen, (Settings) → **Accessibility** → **Text and display** → **Remove animations**

- Tap **Remove animations** to toggle on (●)/off (○).

Setting Whether to Use a Large Pointer

In Home Screen, (Settings) → **Accessibility** → **Text and display** → **Large mouse pointer**

- Tap **Large mouse pointer** to toggle on (●)/off (○).

Making Text Easier to See by Adding Outline, Etc.

In Home Screen, (Settings) → **Accessibility** → **Text and display** → **High contrast text**

- Tap **High contrast text** to toggle on (●)/off (○).

Setting Whether to Dim Screen Darker than Minimum Screen Brightness

In Home Screen, (Settings) → **Accessibility** → ● / ○ for "Extra dim"

- Tap ○ to toggle on (●), ● to toggle off (○).

Setting Screen Brightness

In Home Screen, (Settings) → **Accessibility** → **Extra dim** → Drag "Intensity" bar to adjust intensity

- Available when **Make screen extra dim** is enabled.

Setting Whether to Keep Screen Dim when Handset Restarts

In Home Screen, ⚙ (Settings) → Accessibility → Extra dim → Keep on after device restarts

- Available when Make screen extra dim is enabled.
- Tap Keep on after device restarts to toggle on (●)/off (○).

Setting Whether to Further Reduce Screen Brightness by Using Shortcut

In Home Screen, ⚙ (Settings) → Accessibility → Extra dim → ● / ○ for "Extra dim shortcut"

- If confirmation appears, follow onscreen prompts.
- Tap ○ to toggle on (●), ● to toggle off (○).
- Tap Extra dim shortcut to set shortcut type. Follow onscreen prompts.

Setting Whether to Enable Enlarged View by Using Shortcut

In Home Screen, ⚙ (Settings) → Accessibility → Magnification → ● / ○ for "Magnification shortcut"

- If confirmation appears, follow onscreen prompts.
- Tap ○ to toggle on (●), ● to toggle off (○).
- Tap Magnification shortcut to set shortcut type. Follow onscreen prompts.
- Tap Magnification type to set magnification method. Follow onscreen prompts.

Setting Time to Press Display for Touch & Hold

In Home Screen, ⚙ (Settings) → Accessibility → Timing controls → Touch & hold delay → Tap item

Setting Time to Show Messages Visible Temporarily

In Home Screen, ⚙ (Settings) → Accessibility → Timing controls → Time to take action (Accessibility timeout) → Tap time

When Using Mouse/Trackpad, Setting Time until Clicking when Pointer Is Stopped

In Home Screen, ⚙ (Settings) → Accessibility → Timing controls → Autoclick (dwell timing) → Off / Short / Medium / Long / Custom

- If Custom is selected, drag bar to adjust time until clicking.

Setting Whether to End Call by Pressing Power Key during Call

In Home Screen, ⚙ (Settings) → Accessibility → System controls → Power button ends call

- Tap Power button ends call to toggle on (●)/off (○).

Setting Whether Handset Vibrates for Incoming Calls, Etc.

In Home Screen, ⚙ (Settings) → Accessibility → Vibration & haptic strength → Ring vibration → On / Off

Setting Whether Handset Vibrates when Receiving Messages

In Home Screen, ⚙ (Settings) → Accessibility → Vibration & haptic strength → Notification vibration → On / Off

Setting Whether Handset Vibrates when Tapping Dialpad, Keyboard, Etc.

In Home Screen, ⚙ (Settings) → Accessibility → Vibration & haptic strength → Touch feedback → On / Off

Setting Whether to Show Captions

In Home Screen, ⚙ (Settings) → Accessibility → Caption preferences → Show captions

- Tap Show captions to toggle on (●)/off (○).

Setting How Captions Shown

In Home Screen, ⚙ (Settings) → Accessibility → Caption preferences → Caption size and style → Text size / Caption style → Tap item

Setting Caption Language

In Home Screen, ⚙ (Settings) → Accessibility → Caption preferences → More options → Language → Tap language

Setting Whether to Use Monaural Audio Playback

In Home Screen, ⚙ (Settings) → Accessibility → Audio adjustment → Mono audio

- Tap Mono audio to toggle on (●)/off (○).

Setting Left/Right Balance of Audio

In Home Screen, ⚙ (Settings) → Accessibility → Audio adjustment → Drag "Audio balance" bar to adjust left/right balance

Setting Size and Transparency of Shortcut Button That Opens Accessibility Menu

In Home Screen, ⚙ (Settings) → Accessibility → Accessibility shortcuts → Accessibility button → Set each item

Setting Whether to Enable Preset Accessibility Functions by Long Pressing Volume Up/Down Keys Simultaneously in Lock Screen

In Home Screen, ⚙ (Settings) → Accessibility → Accessibility shortcuts → Shortcut from lock screen

- Tap Shortcut from lock screen to toggle on (●)/ off (●)
- Make sure to set shortcuts to Accessibility functions to be enabled in Hold volume keys beforehand.

Safety & Emergency

Make settings for emergency information and emergency calls. Settable items are the following.

Item	Description
OPEN EMERGENCY INFORMATION	Check and edit emergency information.
Emergency information	Check and edit emergency information.
Emergency SOS	Set whether to make an emergency call when Power Key is quickly pressed five or more times.
Emergency Location Service	Set whether to send location in an emergency. See "Location Settings" for details.
Wireless emergency alerts	Make settings for Urgent News. See "緊急速報メールを利用する (https://www.softbank.jp/mobile/support/manual/smartphone/aquos-sense7-plus/menu/22461/)" (Japanese) for details on emergency broadcasts.

Emergency Information and Emergency Call Operation

Editing Emergency Information

Save your own medical information (name, address, blood type, allergies, etc.) to handset as emergency information.

In Home Screen, ⚙ (Settings) → Safety & emergency → OPEN EMERGENCY INFORMATION / Emergency information → Add information → Set/enter each item

- OPEN EMERGENCY INFORMATION is erased when medical information or emergency contact information is entered.

Adding Emergency Contact

In Home Screen, ⚙ (Settings) → Safety & emergency → Emergency information → Add contact → Tap contact

Deleting Emergency Contacts

In Home Screen, ⚙ (Settings) → Safety & emergency → Emergency information → ✕ for contact → REMOVE

Erasing All Emergency Information

In Home Screen, ⚙ (Settings) → Safety & emergency → Emergency information → ⋮ → Clear all → CLEAR

Checking Emergency Information

In lock screen, Flick up → **Emergency call** → **EMERGENCY INFORMATION** twice

- Use if method for unlocking screen is setting other than **None** or **Swipe** . See "Setting Screen to Unlock by Tracing Pattern," "Requiring Lock No. (PIN) Entry for Unlocking Screen," and "Setting Screen to Unlock with Password" for details on setting a method for unlocking screen.

Setting Whether to Make an Emergency Call when Power Key is Quickly Pressed Five or More Times

In Home Screen, ⚙ (Settings) → **Safety & emergency** → **Emergency SOS** → **Use Emergency SOS**

Tap **Use Emergency SOS** to toggle on (●)/off (○)

Setting Whether to Sound Alarm when Emergency SOS is Initiated

In Home Screen, ⚙ (Settings) → **Safety & emergency** → **Emergency SOS** → **Play countdown alarm**

Tap **Play countdown alarm** to toggle on (●)/off (○)

Setting Phone Number for Emergency Calls

In Home Screen, ⚙ (Settings) → **Safety & emergency** → **Emergency SOS** → **Call for help** → Tap Number field → Enter the number → **SAVE**

Passwords & Accounts

Make settings for password management and Google Autofill. Also, make settings to create/add accounts, sync accounts. Settable items are the following.

Item	Description
Passwords	Check passwords stored in Android, Chrome, etc.
Autofill service	Set whether to use Google Autofill and what to enter.
Add account	Create or add accounts.
Automatically sync app data	Set whether to automatically sync data.

Password & Accounts Operations

Checking Passwords Stored in Android, Chrome, etc.

In Home Screen, ⚙ (Settings) → **Passwords & accounts** → **Google** below "Passwords" → Follow onscreen prompts

- Log in to a Google account beforehand.

Using Google Autofill Service

In Home Screen, ⚙ (Settings) → **Passwords & accounts** → **Google** below "Autofill service" → **None** / **Google**

- Log in to a Google account beforehand.
- Tap **Add service** to add Autofill service. Follow onscreen prompts.

Setting Whether to Use Google Autofill Feature

In Home Screen, ⚙ (Settings) → **Passwords & accounts** → ⚙ below "Autofill service" → **Use Autofill with Google**

- Log in to a Google account beforehand.
- Tap **Use Autofill with Google** to toggle on (●)/off (○).

Setting Content of Google Autofill

In Home Screen, ⚙ (Settings) → **Passwords & accounts** → ⚙ below "Autofill service" → Set each item

Adding an Account

In Home Screen, ⚙ (Settings) → **Passwords & accounts** → **Add account** → Tap type of account to add → Follow onscreen prompts

Managing Account Information, Privacy, Security, etc.

In Home Screen, ⚙ (Settings) → Passwords & accounts → Tap account → Google Account → Set each item

- Log in to a Google account beforehand.

Setting Applications to Sync for Each Account

In Home Screen, ⚙ (Settings) → Passwords & accounts → Tap account → Account sync → Tap applications and data to sync

- Log in to a Google account beforehand.
- Tap sync item to toggle on (●)/off (●).

Setting Whether to Automatically Sync Data

In Home Screen, ⚙ (Settings) → Passwords & accounts → Automatically sync app data → OK

- Tap Automatically sync app data → OK to toggle on (●)/off (●).

Digital Wellbeing & Parental Controls

Prevent excessive handset use by setting timers for each application or showing number of notifications received and frequency of screen unlocking, etc. Settable items are the following.

Item	Description
XX minutes/ XX hr, XX min	View total duration of handset use today.
Dashboard	Check history of total duration of handset use. Also restrict usage of individual applications.
Bedtime mode	Activate Bedtime Mode at specified time.
Focus mode	Pause applications that might be a distraction. Also specify day and time.
Manage notifications	Manage application notifications. See "Notifications" for details.
Do Not Disturb	Make Do Not Disturb settings. See "Sound Settings" for details.
Heads Up	Set whether to alert to be aware of surroundings when using handset while walking.
Show icon in the app list	Set whether to show Digital Wellbeing as application in app list.
Set up parental controls	Set controls on usage as a parent/ guardian.

Digital Wellbeing & Parental Controls Operations

Checking Handset Use Time, Frequency of Notifications, and Frequency of Screen Unlocking

In Home Screen, ⚙ (Settings) → Digital Wellbeing & parental controls → Dashboard → Screen time → Screen time / Notifications received / Times opened

Checking Handset Use Time, Frequency of Notifications, and Number of Activations for Each Application

In Home Screen, ⚙ (Settings) → Digital Wellbeing & parental controls → Dashboard → Show all XX apps → Tap application name → Screen time → Screen time / Notifications received / Times opened

- Tap Daily / Hourly to check use time, frequency of notifications, and number of activations per day or per hour.

Setting Limit on Daily Use Time for Each Application

In Home Screen, ⚙ (Settings) → Digital Wellbeing & parental controls → Dashboard → Show all XX apps → Tap application name → App timer → Set hours/minutes → OK

- As set limits are then reached, icons for the applications turn gray and applications cannot be used until next day.
- May not be usable with some applications.

Removing Set Limit on Use

In Home Screen, ⚙ (Settings) → Digital Wellbeing & parental controls → Dashboard → Tap application name → 🗑 for "App timer"

Setting Bedtime Mode

In Home Screen, ⚙ (Settings) → Digital Wellbeing & parental controls → Bedtime mode → Based on schedule / While charging at bedtime → Follow onscreen prompts

- An initial settings screen opens at first activation. Follow onscreen prompts.
- To cancel the setting, Tap Off .

Setting Whether to Activate Do Not Disturb while Bedtime Mode is Activated

In Home Screen, ⚙ (Settings) → Digital Wellbeing & parental controls → Bedtime mode → Customize → ● / ● for "Do Not Disturb for Bedtime mode"

- Tap ● to toggle on (●), ● to toggle off (●).
- Tap Do Not Disturb for Bedtime mode for favorite contacts to allow calls from while in Bedtime mode.

Setting Whether to Hide Screen Colors while Bedtime Mode is Activated

In Home Screen, ⚙ (Settings) → Digital Wellbeing & parental controls → Bedtime mode → Customize → Grayscale

- Tap Grayscale to toggle on (●)/off (●).

Setting Whether Screen Remains Dark while Bedtime Mode is Activated

In Home Screen, ⚙ (Settings) → Digital Wellbeing & parental controls → Bedtime mode → Customize → Keep the screen dark

- Tap Keep the screen dark to toggle on (●)/off (●).

Setting Whether to End Bedtime Mode at Set Alarm Time

In Home Screen, ⚙ (Settings) → Digital Wellbeing & parental controls → Bedtime mode → Customize → Turn off Bedtime mode at next alarm

- Tap Turn off Bedtime mode at next alarm to toggle on (●)/off (●).

Setting Days to Activate Focus Mode

In Home Screen, ⚙ (Settings) → Digital Wellbeing & parental controls → Focus mode → Show all XX apps → Select applications → Set a schedule → Tap days → SET

Setting Time to Activate Focus Mode

In Home Screen, ⚙ (Settings) → Digital Wellbeing & parental controls → Focus mode → Show all XX apps → Select application → Set a schedule → Start → Specify time → OK → End → Specify time → OK → SET

Deleting Schedule Set for Focus Mode

In Home Screen, ⚙ (Settings) → Digital Wellbeing & parental controls → Focus mode → 🗑 for "schedule"

Enabling Focus Mode

In Home Screen, ⚙ (Settings) → Digital Wellbeing & parental controls → Focus mode → Show all XX apps → Select applications → TURN ON NOW

- To cancel the setting, Tap TURN OFF NOW .
- Tap TAKE A BREAK → and the end time to temporarily turn off Focus Mode.

Setting Whether to Alert to be Aware of Surroundings When Using Handset while Walking

In Home Screen, ⚙ (Settings) → Digital Wellbeing & parental controls → Heads Up → Use Heads Up

- An initial settings screen opens at first activation. Follow onscreen prompts.
- Tap Use Heads Up to toggle on (●)/off (●).

Setting Whether to Show Digital Wellbeing as Application in App List

In Home Screen, ⚙ (Settings) → Digital Wellbeing & parental controls → Show icon in the app list

- Tap Show icon in the app list to toggle on (●)/off (●).

Setting Parental Controls

In Home Screen, ⚙ (Settings) → Digital Wellbeing & parental controls → Set up parental controls → Follow onscreen prompts

Google

Make settings for Google services. Settable items are the following.

- Log in to a Google account beforehand.

Item	Description
Manage your Google Account	Make settings for a Google account.
Ads	Make settings for your advertising ID.
Autofill	Set whether to autofill information saved to your Google account such as password, or your SMS verification code, etc.
Backup	Make backup settings.
Devices & sharing	Set to whether to control directly from Notifications Window when playing media on TV or speaker equipped with Chromecast, etc. on the same Wi-Fi network, to set notifications about device near Handset, or to share files using Nearby Share, etc.
Find My Device	Set whether location is shown if handset is lost.
Mobile data & messaging	Set a phone number to allow you to reset your Google account.
Parental controls	Set controls on usage as a parent/ guardian.
Personal Safety	Set whether to silence notifications while driving.
Personalize using shared data	Set whether to allow use of shared data.
Set up & restore	Make settings for work profile and nearby devices, and restore contacts from a backup.
Settings for Google apps	Make settings for recording walking and running activity, managing your weight, etc. with services such as Google Fit™ and Google Play Instant.

About Phone

Check and make settings for handset information. Items that can be set/checked are the following.

Item	Description
Device name	Change handset name.
Phone number (sim slot 1)	Check phone number.
Phone number (sim slot 2)	Check phone number.
Legal information	Check third-party licenses, Google terms of service, etc.
Regulatory labels	Check information on Technical Conformance Certification or Checking VCCI Information.
Battery status	Check depletion of Battery.
SIM status (sim slot 1)	Check SIM Card status.
SIM status (sim slot 2)	Check SIM Card status.
Model	Check model name, serial number, etc.
IMEI (sim slot 1)	Check IMEI barcode.
IMEI (sim slot 2)	Check IMEI barcode.
Android version	Check the Android version, etc.
IP address	Check the IP address.
Wi-Fi MAC address	Check the MAC address.
Device Wi-Fi MAC address	Check the Wi-Fi MAC address of the device.
Bluetooth address	Check the Bluetooth® address.
Up time	Check handset operation time.
Build number	Check the build number.

About Phone Operations

Changing Handset Name

In Home Screen, ⚙ (Settings) → About phone → Device name → Enter handset name → OK → OK

Your Phone Number, Checking Battery Level, and Other Handset Status

In Home Screen, ⚙ (Settings) → About phone

- Next, Battery status to check battery depletion.
- Next, IMEI (sim slot 1) / IMEI (sim slot 2) to check IMEI barcode.

Checking Third-Party Licenses, Google Terms of Service, Etc.

In Home Screen, ⚙ (Settings) → About phone → Legal information → Follow onscreen prompts

Checking Technical Conformance Certification

Handset conforms to technical standards under the Radio Law and Telecommunications Business Law.

In Home Screen, ⚙ (Settings) → About phone → Regulatory labels

Checking VCCI Information

Handset conforms to technical standards under the VCCI regulations, and is indicated by the conformance mark on handset electronic nameplate.

In Home Screen, ⚙ (Settings) → About phone → Regulatory labels

Troubleshooting

Check FAQ on Sharp Website and do a self-check.

Item	Description
FAQ	Check FAQ on Sharp Website.
Search for settings	Search for items in settings menu.
Proficient use guide	Activate ● (My AQUOS) to view information on getting the most out of your AQUOS smartphone/tablet.
Self check	Perform a self-check.
Power menu	Open Power menu. See "System Settings" for details.

Troubleshooting Operations

Checking FAQ on Sharp Website

In Home Screen, ⚙ (Settings) → Troubleshooting → FAQ

Searching for Items in Settings Menu

In Home Screen, ⚙ (Settings) → Troubleshooting → Search for settings → Enter search text → 🔍

🏁 Search results appear.

Activating ● (My AQUOS) to View Information on Getting the Most Out of Your AQUOS Smartphone/Tablet

In Home Screen, ⚙ (Settings) → Troubleshooting → Proficient use guide

Performing Self-Check

In Home Screen, ⚙ (Settings) → Troubleshooting → Self check → DIAGNOSE → CHOOSE FROM THE SYMPTOMS. / CHOOSE THE PLACE THAT YOU WANT TO DIAGNOSE. → Follow onscreen prompts

🏁 Diagnosis results appear.

- Tap Secure storage to delete cache used by the application.
- Tap Frequently Asked Questions to check FAQ on Sharp Website.
- Tap diagnosis result for detailed result screen.
- Use Power Key + Volume Up Key → Think if it might be a malfunction? → CHOOSE FROM THE SYMPTOMS. / CHOOSE THE PLACE THAT YOU WANT TO DIAGNOSE.

Checking Memory Usage

In Home Screen, ⚙ (Settings) → **Troubleshooting** → **Self check** → ⋮ → **Memory(RAM) usage**

Restarting Handset in Safe Mode

In Home Screen, ⚙ (Settings) → **Troubleshooting** → **Self check** → ⋮ → **Reboot with safe mode** → **OK**

- Handset restarts in a state near to its state at time of purchase.

Exiting Safe Mode and Restarting Handset

In Home Screen, ⚙ (Settings) → **Troubleshooting** → **Self check** → ⋮ → **Reboot to cancel safe mode** → **OK**

- While in Safe mode, handset enters Airplane mode. Note that after exiting Safe mode, handset remains in Airplane mode.

Viewing Advice Related to Temperature Rise in Handset

In Home Screen, ⚙ (Settings) → **Troubleshooting** → **Self check** → ⋮ → **How to manage device overheating** → Follow onscreen prompts

Viewing Self Check Diagnostic History

In Home Screen, ⚙ (Settings) → **Troubleshooting** → **Self check** → Tap the diagnostic history to view → Follow onscreen prompts

Global Services

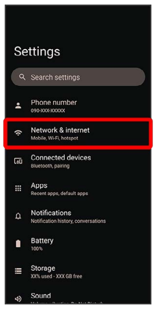
Global Roaming

Handset is Global Roaming Service eligible. Use the same handset number outside Japan.
Handset connects to an appropriate cellular provider automatically by default.
A specific carrier can also be selected manually.
Change carrier and roaming settings.

Setting a Cellular Provider

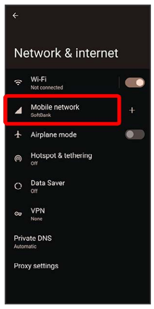
1

In Home Screen, ⚙ (Settings) ➔ Network & internet



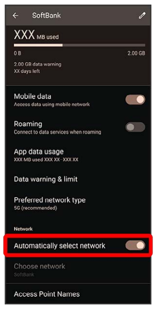
2

Mobile network



3

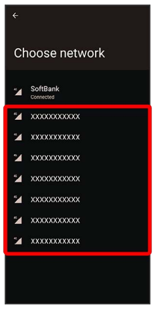
Automatically select network



🏁 Handset searches for all available networks.

4

Tap provider



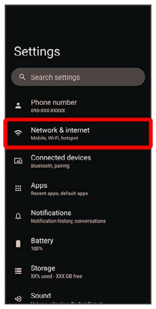
🏁 Cellular provider is set.

- To set an appropriate cellular provider automatically, Tap Automatically select network (●).

Changing Roaming Setting

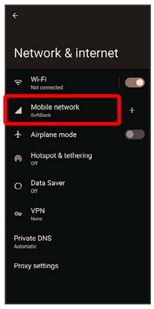
1

In Home Screen, ⚙ (Settings) → **Network & internet**



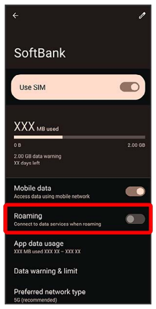
2

Mobile network



3

Roaming (●)



Roaming is enabled.

- Tap **Roaming** to toggle on (●)/off (○).
- If confirmation appears, follow onscreen prompts.

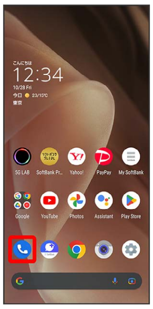
Calling from Outside Japan

See SoftBank Website to learn about roaming areas/rates, etc.
http://mb.softbank.jp/en/global_services/
Print out roaming area/rate information to carry while traveling abroad as needed.

International Calls to Japan and Other Countries from Abroad

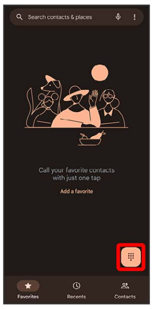
1

In Home Screen, ☎ (Phone)



2

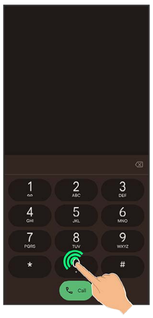
⠿



Dialpad window opens.

3

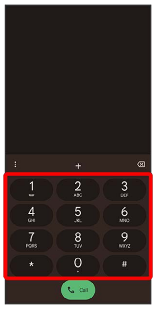
Touch & Hold **0**



"+" appears.

4

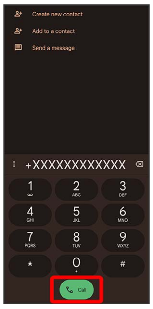
Enter country code then other party number (omit first 0)



- Do not omit first 0 from phone numbers when dialing Italy (39).

5

Call



🏁 Handset dials number. Call begins when other party answers.

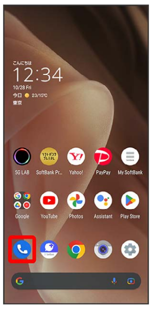
Calling Landlines & Mobiles within Current Country

Place calls the same way you would within Japan.

- Do not enter country code or omit first 0 from phone numbers.

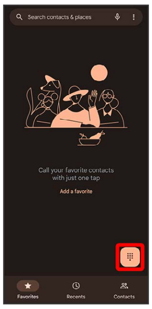
1

In Home Screen, ☎ (Phone)



2

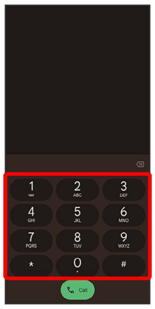
⠿



🏁 Dialpad window opens.

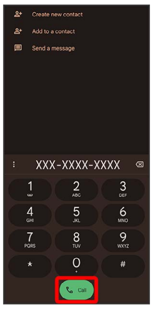
3

Use onscreen dialpad to enter number



4

Call



Handset dials number. Call begins when other party answers.

For Assistance

Handset Powers Off

While Using Certain Applications

The application may be the cause.
Update the application if not the latest version.
If problem persists, delete the application, and check if same problem occurs again.
See "Updating Installed Applications" for details on updating applications.
See "Uninstalling Applications" for details on deleting applications.

After Installing a New Application

The new application may be the cause.
Delete the application in Safe mode.
See "セーフモードで起動する (https://www.softbank.jp/mobile/support/manual/smartphone/aquos-sense7-plus/detail/63892/)" (Japanese) for details on activating Safe mode.
See "Uninstalling Applications" for details on deleting applications.

Handset Interior Is Hot

Continuing to use handset while warm may cause handset to power off as a safety precaution.
Let handset cool before powering on handset.

Handset Does Not Power On

Handset Interior Is Hot

Did handset remain powered on after continuing to use handset while handset was warm? Let handset cool before powering on handset.

No Battery Charge

Was handset charged? Charge handset.

Other

Are you Long Pressing Power Key? Continue Pressing Power Key until logo appears.

Cannot Charge / Charging Stops / Charging Is Slow

Charging Does Not Start

Check the following if charging does not start.

- Is the USB Type-C plug on AC Adaptor firmly connected to handset? Unplug and plug in again firmly.
- Is the plug on AC Adaptor firmly connected to an outlet? Unplug and plug in again firmly.
- Are you using an unspecified AC Adaptor or other product? Always use specified products. In addition to being unable to charge, using an unspecified product may deteriorate Internal Battery.
- Is the USB Type-C plug on AC Adaptor soiled? Clean terminals with a clean, dry cotton swab, etc. and charge again.

Charging Stops

- Charging stops automatically if handset becomes warm. Let handset cool and start charging handset again.
- Is Change maximum charge enabled? To check whether Change maximum charge is disabled:
  In Home Screen, ⚙ (Settings) → Battery → Intelligent Charge → Change maximum charge (●)
- Is Charge only when screen is off enabled? To check whether Charge only when screen is off is disabled:
  In Home Screen, ⚙ (Settings) → Battery → Intelligent Charge → Charge only when screen is off (●)

Charging Time Long Depending on AC Adaptor

Charging may be slower when using AC Adaptor other than for rapid charging.
For information on AC Adaptor for rapid charging specified by SoftBank, see SoftBank Website.

Battery Runs Out Quickly

Battery Runs Out Quickly Even With No Operation

Some applications may use data communication even if not being operated.
Changing the setting may remedy this. Refer to "Restrict Background Mobile Data."

Battery Runs Out Quickly in Certain Location

Are you where signal is weak or have been out of service area for a long period? Calling where signal is weak or being out of service area uses a lot of Battery.

Setting Handset to Save Battery Power

Frequently illuminating Mobile Light, frequently using functions that emit sound or communicate with external devices, using a bright display, or setting a long Display-on time shorten the time that handset can be used. Use Battery Saver to avoid wasting battery. See "Using Battery Saver" for details.

Display Turns Off Suddenly

While Using Certain Applications

The application may be the cause.
Update the application if not the latest version.
If problem persists, delete the application, and check if same problem occurs again.
See "Updating Installed Applications" for details on updating applications.
See "Uninstalling Applications" for details on deleting applications.

After Installing a New Application

The new application may be the cause.
Delete the application in Safe mode.
See "セーフモードで起動する (https://www.softbank.jp/mobile/support/manual/smartphone/aquos-sense7-plus/detail/63892/)" (Japanese) for details on activating Safe mode.
See "Uninstalling Applications" for details on deleting applications.

Screen Freezes / Operation Is Unstable

While Using Certain Applications

The application may be the cause.
Update the application if not the latest version.
If problem persists, delete the application, and check if same problem occurs again.
See "Updating Installed Applications" for details on updating applications.
See "Uninstalling Applications" for details on deleting applications.

After Installing a New Application

The new application may be the cause.
Delete the application in Safe mode.
See "セーフモードで起動する (https://www.softbank.jp/mobile/support/manual/smartphone/aquos-sense7-plus/detail/63892/)" (Japanese) for details on activating Safe mode.
See "Uninstalling Applications" for details on deleting applications.

Handset Operates on Own Without Touching Display / No Response to Touch Operation

Press Power Key to turn off Display, Press Power Key again to turn on Display, and then operate handset.

SIM Card Not Recognized

SIM Card Not Recognized

Check the following if handset does not recognize SIM Card.

- Is SIM Card inserted correctly? Is SIM Card inserted in the correct location and in the correct orientation? Power off handset, check that SIM Card is inserted correctly, and then power on handset again. If problem persists, SIM Card may be damaged.
- Is the IC (metal) portion of SIM Card smudged (fingerprints, etc.)? Remove SIM Card, wipe soiling with a clean, dry cloth, and insert correctly.
- Is a different SIM Card inserted? An unusable SIM Card may be inserted. Check that it is the correct SIM Card.

Cannot Use SD Card

While Using Certain Applications

The application may be the cause.
Update the application if not the latest version.
If problem persists, delete the application, and check if same problem occurs again.
See "Updating Installed Applications" for details on updating applications.
See "Uninstalling Applications" for details on deleting applications.

After Installing a New Application

The new application may be the cause.
Delete the application in Safe mode.
See "セーフモードで起動する (https://www.softbank.jp/mobile/support/manual/smartphone/aquos-sense7-plus/detail/63892/)" (Japanese) for details on activating Safe mode.
See "Uninstalling Applications" for details on deleting applications.

Cannot Send/Receive Mail

Airplane Mode Set

Is handset in Airplane mode? ✈ appears in Status Bar when in Airplane mode. To cancel Airplane mode:

In Quick Settings Window, Airplane mode On (Off)

"5G"/"4G" Not Shown with Signal Strength Indicator

Is Mobile data disabled? To check that Mobile data is enabled:

In Home Screen, ⚙ (Settings) → Network & internet → Mobile network → Mobile data (●)

Cannot Send with Attachment

The maximum size of files that can be attached to +Message is 100 MB.

To share large files, use Google Drive, etc.

Cannot Receive Mail from Certain Sender

Spam filter settings may be blocking delivery.

Check spam filter settings.

Disabled Access Point Is Set

Is a disabled access point set? To reset to initial settings:

In Home Screen, ⚙ (Settings) → Network & internet → Mobile network → Access Point Names → ⋮ → Reset to default

In Location Where Signal Is Weak or Have Been Out of Service Area for a Long Period

Check whether you are where signal is weak or out of service area.

If problem persists, power handset off and then on again.

Cannot Connect to Internet

Airplane Mode Set

Is handset in Airplane mode? ✈ appears in Status Bar when in Airplane mode. To cancel Airplane mode:

In Quick Settings Window, Airplane mode On (Off)

"5G"/"4G" Not Shown with Signal Strength Indicator

Is Mobile data disabled? To check that Mobile data is enabled:

In Home Screen, ⚙ (Settings) → Network & internet → Mobile network → Mobile data (●)

Cannot Connect while Using Browser

The browser may have become temporarily unstable.

Clearing the browser cache may remedy this.

See "閲覧履歴を削除する (https://www.softbank.jp/mobile/support/manual/smartphone/aquos-sense7-plus/detail/64099/)" (Japanese) for details on clearing the browser cache.

Cannot Connect to Internet Only When Connected by Wi-Fi

There may be a problem with the Wi-Fi connection.

Check whether connection to the Internet is possible with the Wi-Fi connection disabled.

See "Deleting Saved Access Points" for details on disabling the Wi-Fi connection.

Disabled Access Point Is Set

Is a disabled access point set? To reset to initial settings:

In Home Screen, ⚙ (Settings) → Network & internet → Mobile network → Access Point Names → ⋮ → Reset to default

In Location Where Signal Is Weak or Have Been Out of Service Area for a Long Period

Check whether you are where signal is weak or out of service area.

If problem persists, power handset off and then on again.

Cannot Talk on Phone / Cannot Hear Other Party

Cannot Make or Receive Calls

Is handset in Airplane mode? ✈ appears in Status Bar when in Airplane mode. To cancel Airplane mode:

In Quick Settings Window, Airplane mode On (Off)

Is handset where signals reach? Change locations while checking the signal indication and call again.

Cannot Receive Calls

If Call Forwarding or Voicemail is set, calls may be forwarded or sent to Voicemail before being answered.

See "Call Forwarding" and "Voicemail" for details.

Cannot Make Calls

Did you dial all digits for the number? Dial all digits for numbers starting with a "0" area code, etc.

Cannot Hear Other Party

Is the call volume low? Press Volume Up Key during call to increase volume.

In Location Where Signal Is Weak or Have Been Out of Service Area for a Long Period

Check whether you are where signal is weak or out of service area.

If problem persists, power handset off and then on again.

Cannot Use Applications

Cannot Install New Application

Is there only a little free space in internal storage? To check free space:

In Home Screen, ⚙ (Settings) → Storage

Applications not supported by handset cannot be installed.

Cannot Activate Applications

Did you set access privileges when first activating the application? Applications cannot be activated if access is not permitted. To change settings:

In Home Screen, ⚙ (Settings) → Apps → See all XX apps → Tap application name → Permissions → Tap function → Allow

- Allow all the time / Allow only while using the app / Ask every time / Allow management of all files / Allow access to media only appears for some functions.

Warranty/Specifications/Customer Service

Warranty & After-Sales Service

Warranty

- Handset warranty is for 1 year from date of purchase.
- Repair may be made free of charge under the terms of repair service. See SoftBank Website for terms of repair service.
  https://cdn.softbank.jp/mobile/set/common/pdf/legal/spguide/common/warranty.pdf (Japanese)
- Warranty covers handset. Cables and complimentary sample accessories are not covered by warranty.

Cautions

Damages

SoftBank Corp. is not responsible for any damages for user or third party resulting from lost opportunities to make a call, etc. due to breakage or trouble of product.

Malfunction/Repairs

Information/settings on handset may be lost/changed due to malfunction or repairs. It is recommended that you keep a separate copy of contacts and other important information. SoftBank Corp. is not responsible for loss/change of data (contacts, images, sound, etc.) or settings due to damage or repairs.

Disassembly/Modification

Disassembly/modification of handset is prohibited under the Radio Law. Note that handset cannot be accepted for repairs if modified.

After-Sales Service

To request repairs, contact Customer Service or a nearby SoftBank Shop. Have details of symptoms ready.

- During the warranty period, repairs are made under the terms of repair service.
- After the warranty period, if handset can be repaired, repairs will be made at cost.
  Repair parts (for maintaining product performance) are stocked for approximately 4 years after end of production. However, repair may not be possible even at cost within this period due to stock conditions.

Further inquiries

For more information on after-sales service, contact a nearby SoftBank Shop or Customer Service.

Specifications

Some information may differ due to specification changes.

Handset

Handset specifications are as follows.

- Times in the table vary with location, status, settings, etc.
- OEL Display employs precision technology; however, some pixels may remain on/off.
- Please note that the temperature of handset may increase due to processing during continuous use or when operating under high loads.

Item	Description
Dimensions (W x H x D)	Approx. 76 mm x 160 mm x 8.2 mm (without protruding parts)
Weight	Approx. 172 g
Maximum Output	0.2W (4G) 0.2W (5G)
Internal Battery Capacity	5,050 mAh
Continuous Talk Time[1]	4G LTE:Approx. 3,540 minutes
Continuous Standby Time[2]	4G:Approx. 870 hours 4G LTE:Approx. 880 hours 5G:Approx. 740 hours[3]
Charging Time[4]	AC Adaptor (USB Type-C® quick charge AC Adaptor for USB PD-PPS [ZSDBAV] (SBAC22-TCPD)): Approx. 155 minutes

1 Average measured with handset fully charged, in strong signal conditions at rest.
2 Average measured with handset fully charged, without calls or operations, in strong signal conditions at rest, and with data communication and Urgent News disabled. May vary with battery strength, ambient temperature, settings, etc.
3 This is the approximate time in a standalone environment.
4 Measured when charging with handset powered off.

Quick Switch Adapter

Item	Description
Length	Approx. 32 mm
Weight	Approx. 4.6 g

Materials (Handset)

Parts	Materials Used/Surface Finish
Display Surface, Camera Panel, Wide-Angle Camera Panel	Tempered glass/AF coating
Outer Casing (Metal Part), Power Key, Volume Key (Up/Down), Card Tray (Exterior)	Aluminum/anodizing
Outer Casing (Opening for Earphones-Microphone Jack Part, Opening for External Connection Jack)	PBT resin (containing glass)
Fingerprint Sensor	Epoxy resin/hard coating
Camera Ornament	ABS resin, PC resin
Mobile Light Panel, Earpiece Ornament	PC resin
Card Tray	POM resin
Card Tray Gasket	Silicone rubber

Materials (Quick Switch Adapter)

Parts	Materials Used/Surface Finish
USB Type-C plug (Metal part)	Stainless steel/nickel plating
USB Type-C plug (Resin part)/USB Type-A plug (Resin part)	LCP resin
USB Type-A plug (Metal part)	SPCC/nickel plating
Handset (Metal part)	Aluminum alloy/anodizing
Handset (Resin part)	PBT resin

Customer Service

If you encounter any difficulties or are unsure of anything, contact customer service.

Safety Precautions

Safety Precautions

Read Safety Precautions before using handset.
Observe precautions to avoid injury to self or others, or damage to property.

Safety Precautions

These labels show degree of risk from improper use.

Label	Description
⚠**DANGER**	Great risk of death or serious injury[1]
⚠**WARNING**	Risk of death or serious injury[1]
⚠**CAUTION**	Risk of minor injury[2] or property damage[3]

1 Serious injury:This refers to loss of sight, injury, burns (high- and low-temperature), electric shock, broken bones, injuries with residual aftereffects from poisoning, etc., and injuries requiring hospital admission for treatment or long-term hospital attendance as an outpatient.
2 Minor injury:This refers to injuries, burns (high- and low-temperature), electric shock, etc. that do not require hospital admission for treatment or long-term hospital attendance as an outpatient.
3 Property damage:This refers to extended damage to buildings, furniture, livestock, pets, etc.

These symbols signify prohibited/compulsory actions.

Symbol	Description
⊘ Prohibited	Prohibited actions
⊘ Do Not Disassemble	Disassembly prohibited
⊘ Avoid Liquids Or Moisture	Exposure to liquids prohibited
⊘ Do Not Use Wet Hands	Use with wet hands prohibited
❗ Compulsory	Compulsory actions
Disconnect Power Source	Unplug from outlet

Handset, SIM Card, Quick Switch Adapter, AC Adaptor (Optional Accessory), (Common)

⚠DANGER

⊘ Prohibited

Do not use, store, or leave in extreme heat or where heat collects, such as fire, heat sources, under a kotatsu (blanketed warming table) or blanket, direct sunlight, inside vehicles in the hot sun, etc.

May cause fire, burns, injury, electric shock, etc.

⊘ Prohibited

Keep away from cooking appliances (microwave ovens, induction stoves, etc.) and pressure vessels (e.g., pressure cookers).

May cause fire, burns, injury, electric shock, etc.

⊘ Prohibited

Do not subject to or place directly on sand, soil, or mud. Do not touch with dirty hands.

May cause fire, burns, injury, electric shock, etc.
For details on water and dust resistance, see "Water, Dust, & Shock Resistance"

⊘ Prohibited

Do not charge handset while it is wet with water or other liquids (drinking water, sweat, sea water, pet urine, etc.).

Do not charge handset near water (in the bathroom, near a humidifier, etc.).

May cause fire, burns, injury, electric shock, etc.
For details on water resistance, see "Water, Dust, & Shock Resistance"

Prohibited

Do not apply excessive force to or break handset. Particularly when carrying handset in your clothes pocket, do not bump it or place it between objects.

Internal Battery breakage may cause fire, burns, injury, etc.

* Examples of where to be careful

・Sitting or squatting with handset in your pants or skirt pocket

・Handset becoming caught in a sliding door or vehicle door when in a jacket pocket

・Stepping on handset when it is on something soft such as a sofa, bed, or futon or on the floor

・Handset becoming caught in a seat on a train or bus

Do Not Disassemble

Do not disassemble or modify.

May cause fire, burns, injury, electric shock, etc.

Prohibited

Do not try to remove Internal Battery from handset.

May cause fire, burns, injury, etc.

Prohibited

Handset Back Cover cannot be removed. Do not try to remove.

May cause fire, burns, injury, etc.

Avoid Liquids Or Moisture

Do not wet with water or other liquids (drinking water, sweat, sea water, pet urine, etc.).

May cause fire, burns, injury, electric shock, etc.

For details on water resistance, see "Water, Dust, & Shock Resistance"

Avoid Liquids Or Moisture

Do not let water or other liquids (drinking water, sweat, sea water, pet urine, etc.) enter charging terminals or External Connection Jack.

May cause fire, burns, injury, electric shock, etc.

For details on water resistance, see "Water, Dust, & Shock Resistance"

Compulsory

Use optional accessories specified by SoftBank Corp.

Using third party accessories or those whose manufacturer, distributor, or specifications are unclear may result in fire, burns, injury, electric shock, etc.

⚠ WARNING

Prohibited

Do not drop, stomp, throw or subject to excessive force or strong impact/vibration.

May cause fire, burns, injury, electric shock, etc.

Prohibited

Keep conductive materials (metal strip, pencil lead, etc.) away from charging terminals and External Connection Jack. Do not let dust enter them.

May cause fire, burns, injury, electric shock, etc.

Prohibited

Do not cover/wrap with a blanket, etc. while using or charging.

May cause fire, burns, etc.

Avoid Liquids Or Moisture

When caring for equipment, ensure that no disinfectant or water enters gaps, Charging Terminal, External Connection Jack, Earphones-Microphone Jack, Earpiece/Speaker, Mic/Recorder Mic, Mic, or Speaker.

Handset breakage may cause electric shock, etc.

Compulsory

If charging continues even after specified Charging Time, stop charging.

Failure to do so may cause fire, burns, injury, etc. due to overcharge or for other reasons.

Compulsory

When entering very dusty locations or locations where flammable gases are generated, be sure to power off handset beforehand and stop any charging in progress.

May ignite flammable gases, etc. and cause explosion, fire, etc.

Compulsory

Use in facilities such as gas stations should be in accordance with the facility guidelines.

Do not charge handset in facilities such as gas stations.
Take care not to drop handset in facilities such as gas stations and in particular do not use while refueling.
May ignite flammable gases, etc. and cause explosion, fire, etc.

Compulsory

If there is abnormal odor/sound, smoke, overheating, discoloration, distortion, or other abnormalities during use, charging, or storage, do the following while exercising caution.

- Unplug from the outlet.
- Power off handset.

Failure to follow the above steps may cause fire, burns, injury, electric shock, etc.

⚠ CAUTION

⊘ Prohibited

Do not use if broken.

May cause fire, burns, injury, etc.

⊘ Prohibited

Do not place on unstable surfaces; take added care when vibration is set.

Handset or related hardware may fall, resulting in injury, etc.

⊘ Prohibited

Do not use or store in a location that is subject to excessive dust, high humidity, or high temperatures.

May cause fire, burns, electric shock, etc.
For details on water and dust resistance, see "Water, Dust, & Shock Resistance"

⊘ Prohibited

For use by a child, explain instructions and supervise use.

May cause accidental swallowing, injury, electric shock, etc.

⊘ Prohibited

Do not leave within the reach of small children or pets.

Take particular care with storage locations for small parts such as Card Tray and Quick Switch Adapter.

May cause accidental swallowing, injury, electric shock, etc.

❗ Compulsory

Use handset with caution, as it may become hot with continued use or while charging. Be careful not to place handset in clothes pocket, etc. and fall asleep, allowing unintentional continued contact.

Handset or AC Adaptor may become hot after continued use of applications, call functions, data communication and video viewing functions, etc. or while charging. Continuous direct contact with hot surfaces may cause skin redness, itching, rash, or low-temperature burns depending on your individual physical condition. Be careful when putting it in a clothing pocket or sleeping.

Handset

⚠ DANGER

⊘ Prohibited

Do not throw into a fire or apply heat.

May cause fire, burns, injury, etc.

⊘ Prohibited

Do not pierce with a sharp object (nail, etc.), hit with a hard object (hammer, etc.), step on, or otherwise subject to excessive force.

May cause fire, burns, injury, etc.

❗ Compulsory

If substance in handset gets in eyes, mouth, etc., rinse with clean water and consult a doctor immediately.

Substances in handset may cause loss of sight or other physical harm.

⚠ WARNING

Prohibited

Do not shine Mobile Light close to eyes. Maintain a safe distance, especially from small children.

May cause visual impairment or other problems; may temporarily affect eyesight or startle, leading to injury or other accident.

Prohibited

Do not point Mobile Light at drivers when it is turned on.

May hinder driving performance, leading to an accident.

Prohibited

Do not stare at Display for a long period when it is flickering.

May cause spasms, loss of consciousness, etc.

Prohibited

Do not let water or other liquids (drinking water, sweat, sea water, pet urine, etc.) or a foreign object (metal strip, flammable material, etc.) enter SIM/SD Card Slot.

In addition, insert SIM Card and SD Card into correct openings in correct orientation.

May cause fire, burns, injury, electric shock, etc.

Prohibited

Do not expose Camera lens to direct sunlight for an extended period.

May cause fire, burns, injury, etc. due to light-collecting mechanism of the lens.

Prohibited

Do not look into Proximity Sensor.

May temporarily affect eyesight, leading to accidents.

EN60825-1:2014

CLASS 1
LASER Product

Compulsory

Power off handset or activate Airplane mode before boarding an airplane.

Handset use on airplanes is restricted; follow the instructions given by the respective airlines.
Radio waves may adversely affect an airplane's electronic devices.
If you engage in a prohibited activity while using handset on an airplane, you may be punished by law.

Compulsory

Regarding handset use in a hospital, follow the instructions given by the respective medical institution.

Power off handset where handset use is prohibited.
Radio waves may adversely affect an airplane's electronic devices or electronic medical devices.

Compulsory

When you are on a handsfree call, while ringtone is playing loudly, when in standby, etc., be sure to keep handset at a safe distance from your ears.

When you attach earphones-microphone to handset and play games, videos, or music, adjust the volume to a comfortable level beforehand.

When making a handsfree call, handset emits sound loudly.
Even in standby, the ringtone or alarm may ring suddenly.
Listening to loud sound continuously for a long time may cause hearing impairment or other difficulty.
In addition, not being able to hear surroundings may cause an accident.

Compulsory

If you have a weak heart, adjust ringtone vibration and volume as needed.

Handset suddenly vibrating and ringing for a new call may startle you and adversely affect your heart.

Compulsory

If you are using an electronic medical device, check with its manufacturer or vendor on radio wave effects before using handset.

Radio waves may adversely affect electronic medical devices, etc.

Compulsory

Power off handset near electronic devices that employ high precision control systems or weak signals.

Radio waves may cause electronic devices to malfunction or may adversely affect the operation.
Take added care near these devices:Hearing aids, implanted pacemakers/defibrillators and other electronic medical devices; other automatic control devices. If you are using an implanted pacemaker, implanted defibrillator, or other electronic medical device, check with its manufacturer or the vendor on radio wave effects.

Compulsory

If Display or Camera lens breaks, be careful with broken parts and exposed handset parts.

Touching the broken or exposed parts may cause burns, injury, electric shock, etc.

Compulsory

If Internal Battery leaks or there is abnormal odor, discontinue use immediately and keep sources of flame away.

Leaked fluid may catch fire, causing the battery to ignite, burst, etc.

Compulsory

Do not let your pet bite handset.

May cause Internal Battery to ignite, burst, overheat, or leak, causing fire, burns, injury, etc.

⚠ CAUTION

Prohibited

When using the motion sensor and electromagnetic sensor, make sure of the safety around you and hold handset firmly; do not swing with excessive force.

Failure to do so may cause injury or other accident.

Prohibited

If Display breaks and substance in handset leaks, do not let it get on your skin (face, hands, etc.) or clothes.

May harm sight, skin, etc.
If substance in handset gets in eyes, mouth, etc. or on your skin or clothes, immediately rinse with clean water.
If substance in handset gets in eyes, mouth, etc., rinse and consult a doctor immediately.

Prohibited

Do not dispose of handset with regular trash.

May cause fire, burns, injury, etc. May also adversely affect the environment. When handset is no longer needed, take it to a SoftBank shop, or follow the local regulations regarding handset collection.

Prohibited

If substance in Internal Battery leaks, do not let it get on your skin (face, hands, etc.) or clothes.

May harm sight, skin, etc.
If substance in handset gets in eyes, mouth, etc. or on your skin or clothes, immediately rinse with clean water.
If substance in handset gets in eyes, mouth, etc., rinse and consult a doctor immediately.

Compulsory

Before using handset in a vehicle, check with the manufacturer or dealer of the vehicle on radio wave effects.

In rare cases, radio waves may adversely affect operation of on-vehicle electronic devices, depending on the type of vehicle. If this occurs, discontinue use immediately.

Compulsory

For any skin abnormalities associated with handset use, discontinue use and consult a doctor immediately.

Handset use may cause itchiness, skin irritation, rashes, etc. depending on your physical condition.
For details on materials used for handset parts, see "Materials (Handset)."

Compulsory

Earpiece/Speaker, Speaker, Camera, and Vibrator use magnetic parts; check that nothing metal (cutter blades, staples, etc.) is adhering.

Metal strip on handset may cause injury, etc.

Compulsory

See Display in a sufficiently bright place at a reasonable distance.

Seeing in a dark place or at a close distance may deteriorate vision or cause other problems.

AC Adaptor (Optional Accessory)

⚠ WARNING

Prohibited

Do not use AC Adaptor if the cord is damaged.

May cause fire, burns, electric shock, etc.

Prohibited

Do not touch AC Adaptor if thunder is audible.

May cause electric shock, etc.

Prohibited

Do not short-circuit charging terminals when AC Adaptor is plugged into the outlet. In addition, keep your hands and other body parts away from charging terminals.

May cause fire, burns, electric shock, etc.

Prohibited

Do not place a heavy object on top of AC Adaptor cord; do not apply excessive force by pulling, etc.

May cause fire, burns, electric shock, etc.

Prohibited

When plugging/unplugging AC Adaptor, keep metal objects away.

Failure to do so may cause fire, burns, electric shock, etc.

Prohibited

Do not use a voltage converter (travel converter for overseas use, etc.) when charging with AC Charger.

May cause ignition, overheating, electric shock, etc.

Prohibited

When AC Adaptor is connected to handset, do not apply excessive force to the connection.

May cause fire, burns, injury, electric shock, etc.

Do Not Use Wet Hands

Do not touch AC Adaptor cord, charging terminals, or power plug with wet hands.

May cause fire, burns, electric shock, etc.

Compulsory

Use at the specified power supply voltage.

When charging handset overseas, use AC Adaptor designed for overseas use.

Use at other power supply voltages may cause fire, burns, electric shock, etc.
AC Adaptor:AC 100 V (connect to a household AC outlet only)
AC Adaptor designed for overseas use:AC 100 V - 240 V (connect to a household AC outlet only)

Compulsory

Wipe off any dust on the power plug.

Using Charger when dust is on plug may cause fire, burns, electric shock, etc.

Compulsory

Plug AC Adaptor into the outlet firmly.

Failure to do so may cause fire, burns, electric shock, etc.

Compulsory

When unplugging from the outlet, grasp AC Adaptor and pull, without forcefully pulling cord.

Pulling the AC Adaptor cord may damage the cord, causing fire, burns, electric shock, etc.

Compulsory

When inserting/removing USB Type-C plug into/from handset, insert/remove it straight into/from Jack, without forcefully pulling cord.

Inserting/removing in an incorrect orientation may cause fire, burns, injury, electric shock, etc.

Compulsory

If charging terminals become bent or deformed, discontinue use immediately. In addition, do not use AC Adaptor by restoring the terminals to their original state.

May cause fire, burns, injury, electric shock, etc. due to short-circuiting of charging terminals.

Disconnect Power Source

When not using AC Adaptor, unplug it from the outlet.

Leaving it plugged in may cause fire, burns, injury, electric shock, etc.

Disconnect Power Source

If splashed with water or other liquids (drinking water, sweat, sea water, pet urine, etc.), unplug from the outlet immediately.

Splashing can cause short-circuiting, causing fire, burns, electric shock, etc.

Disconnect Power Source

Before cleaning, unplug AC Adaptor from the outlet.

Cleaning AC Adaptor without unplugging it may cause fire, burns, electric shock, etc.

⚠CAUTION

Prohibited

Do not touch AC Adaptor for long periods when it is plugged into the outlet.

May cause burns, etc.

SIM Card

⚠CAUTION

Compulsory

When handling SIM Card, be careful with cut edges so as not to damage your hands or other body parts.

Cut edges may be sharp and cause injury.

Quick Switch Adapter

⚠ WARNING

⊘ Prohibited

Do not short-circuit terminals while connected to handset. Do not touch terminals with hands, fingers or any part of body.

May cause fire, burns, electric shock, etc.

⊘ Prohibited

When connecting/disconnecting Quick Switch Adapter to/from handset, keep metal objects away.

May cause fire, burns, electric shock, etc.

⊘ Prohibited

Do not apply excessive force to terminals while Quick Switch Adapter is connected to handset.

May cause fire, burns, injury, electric shock, etc.

⊘ Do Not Use Wet Hands

Do not touch Quick Switch Adapter with wet hands.

May cause fire, burns, electric shock, etc.

❗ Compulsory

Wipe off any dust on terminals.

Using the adapter with dust may cause fire, burns, electric shock, etc.

❗ Compulsory

Insert Quick Switch Adapter into handset firmly.

Failure to do so may cause fire, burns, electric shock, etc.

❗ Compulsory

If terminal is deformed or bent, discontinue use immediately. Also, do not use handset by restoring the deformed terminal.

Short circuit of the terminals may cause fire, burns, injury, or electric shock.

⚠ CAUTION

⊘ Prohibited

Do not touch Quick Switch Adapter continuously while it is plugged into handset.

May cause burns, etc.

❗ Compulsory

For any skin abnormalities associated with handset use, discontinue use and consult a doctor immediately.

Handset use may cause itchiness, skin irritation, rashes, etc. depending on your physical condition.
For details on materials used for handset parts, see "Materials (Handset)."

Handset Use & Electronic Medical Devices

⚠ WARNING

Compulsory

If you are using an electronic medical device (implanted pacemaker, implanted defibrillator, etc.), carry or use handset at least 15 cm away from where the device is.

Radio waves may adversely affect operation of electronic medical devices.

Compulsory

Before using an electronic medical device other than an implanted pacemaker or implanted defibrillator outside a medical institution (for home treatment, etc.), check with its manufacturer on radio wave effects.

Radio waves may adversely affect operation of electronic medical devices.

Compulsory

In a situation where you may not be able to maintain a distance of at least 15 cm from other persons, such as when your movement is restricted, disable radio wave emission by activating Airplane mode, powering off handset, etc.

There may be persons with an electronic medical device (implanted pacemaker, implanted defibrillator, etc.) nearby. Radio waves may adversely affect operation of electronic medical devices.

Compulsory

Regarding handset use in a medical institution, follow the instructions given by the medical institution.

Radio waves may adversely affect operation of electronic medical devices.

Important Product Information

General Use

- If your SIM Card or handset (with SIM Card inserted) is lost or stolen, suspend your service immediately. For details, contact Customer Service.
- Handset transmissions may be disrupted inside buildings, tunnels or underground, or when moving into/out of such places; may affect calls.
- Use handset without disturbing others.
- Handsets are radios as stipulated by the Radio Law. Under the Radio Law, handsets must be submitted for inspection upon request.
- Handset use near landlines, TVs or radios may cause interference.
- Beware of eavesdropping.
  Because this service is completely digital, the possibility of signal interception is greatly reduced. However, some transmissions may be overheard.
  - Eavesdropping
  Deliberate/accidental interception of communications constitutes eavesdropping.
- Beware of harmful/malicious websites. Take added care when posting personal information.
- Handset uses an OEL display.
  The same image shown continuously and at a high brightness setting may burn into Display. It is recommended that you lower Display brightness/shorten time until Display turns off (sleep). Colors on an OEL display may also appear differently when viewed at an angle.
- An export license may be required to carry handset into other countries if it is to be used by or transferred to another person. However, no such license is required when taking handset abroad for personal use on a vacation or business trip and then bringing it back.
  Export control regulations in the United States provide that an export license granted by the US government is required to carry handset into Cuba, Iran, North Korea, Sudan or Syria.
- Many different kinds of applications can be installed on handset from Google Play (provided by Google LLC). SoftBank Corp. is not responsible in any way for user-installed applications (quality, reliability, legality, fitness for a purpose, credibility, accuracy, etc.) or resulting malfunctions (viruses, etc.).

Heat from Handset Use

- Depending on how or where used, interior of handset may become hot. Handset may then power off as a safety precaution.
  Let handset cool before powering on handset.

Camera

- Mind etiquette when using Camera.
- Test Camera before shooting special moments.
- Do not use Camera in places where shooting is prohibited.
- Shot images may not be used/transferred without copyright holder (photographer) permission, except for personal use.

Urgent News (Application)

- When Urgent News is received, handset notifies user via message, alert, and by vibrating.
  - Urgent News is enabled by default (can also be disabled).
  - By default, Alert sounds at maximum volume even when Manner mode is set, and vibration is enabled regardless of Manner mode setting (can be changed).
  - See "緊急速報メールを利用する (https://www.softbank.jp/mobile/support/manual/smartphone/aquos-sense7-plus/menu/22461/)" (Japanese) for details on Urgent News settings.
- Alerts are not received during calls/transmissions or in poor signal conditions.
  (Alerts can be received during voice calls over VoLTE.)
- Depending on usage/situation, handset may receive alerts for other areas or no alerts.
- SoftBank Corp. cannot be held liable for any damages associated with this service, including accidents resulting from received information, reception timing or reception failure.

Technical Regulations Conformity Certification

Handset conforms to technical regulations pursuant to the Radio Law and the Telecommunications Business Law. To check technical regulations conformity certification information (e.g., 〶):

In Home Screen, ⚙ (Settings) → About phone → Regulatory labels

Voluntary Control of Radio Interference

Handset conforms to technical regulations pursuant to the Rules for Voluntary Control Measures of VCCI; the corresponding conformity mark is shown on electronic rating plate on handset. To check the electronic rating plate:

In Home Screen, ⚙ (Settings) → About phone → Regulatory labels

Handset & Hardware Care

Handset & Hardware Care

- Use handset within 5°C - 35°C and 35% - 85% humidity.
  For use in bathrooms, see "Cautions for Use in a Bathroom."
- Avoid extreme temperature or direct sunlight.
- Handset/Internal Battery may become warm during operation or while charging. This is normal.
- Warranty does not cover malfunctions resulting from misuse.
- Wipe clean with a dry, soft cloth (such as for eye glasses).
  - Wiping forcefully may scratch Display.
  - Allowing moisture or smudges to remain on Display may leave blemishes.
  - Wiping with alcohol, thinner, benzine, detergent, etc. may remove print or fade colors.
- Avoid scratching Display.
- Avoid heavy objects or excessive pressure. May cause malfunction or injury.
  - Do not sit or squat with handset in your pants or skirt pocket. Be careful in particular when wearing heavy clothing.
  - Do not place heavy objects on handset inside handbags, packs, etc.
- Handset back cover is not removable. Do not try to remove it; may cause damage or malfunction, or affect water and dust resistance.
- Connect only specified products to Jacks. Other devices may malfunction or cause damage.
- Do not power off while using SD Card; may result in data loss or malfunction.
- When walking outside, moderate handset volume to avoid accidents.
- If thunder is audible while outdoors, discontinue use; there is a risk of lightning strike or electric shock.
- When holding handset, do not block Earpiece, Mic, Speaker, or Recorder Mic.
- Proximity Sensor prevents Touchscreen misoperation during calls. Do not cover or place a sticker/label over Proximity Sensor; Display may remain off during calls, disabling handset operation.
- If your hair is between Earpiece and your ear during calls, Proximity Sensor may not function properly.
  Display may remain on; touching Display accidentally may end the call.
- Do not cover Light Sensor or place a sticker/label over it; may hinder ambient light detection, resulting in malfunction of Light Sensor.
- Handset Earpiece is located at the center of Display upper end. If other party's voice is hard to hear during calls, hold handset so that Earpiece is next to your earhole for better audibility.

Display (Touchscreen)

- Touchscreen is designed to be touched lightly with fingers. Do not press Display strongly with fingers or press on it with sharp objects (fingernails, ballpoint pens, pins, etc.).
- Touchscreen may not respond even if touched in these situations. Operating the display as follows may cause it to malfunction:
  - Use with gloves[1]
  - Use with long fingernails
  - Use with objects on/against Display
  - Use by sticking protective film or sticker, etc. on Display
  - Use while wet
  - Use when your fingers are wet or sweaty
  - Use underwater
- When using handset with gloves on, enable glove mode. To set:
  In Home Screen, ⚙ (Settings) → Display → glove mode (●)

Quick Switch Adapter

- Keep Quick Switch Adapter free of water or other liquids (drinking water, sweat, sea water, pet urine, etc.) or a foreign object such as dust.
  Quick Switch Adapter is not water and dust resistant.
  Do not use in high humidity (e.g., bathroom) or in rain, etc. With the adapter put on your body, the moisture from perspiration may corrode the inside and cause it to malfunction.
- Clean the terminals, etc. from time to time to maintain them in clean condition.
  Use in a soiled condition may prevent normal use.
  Avoid damaging terminal when cleaning.
- Do not drop or subject to impact. May cause malfunction or damage.
- Do not subject to strong impact. Do not deform the terminal. May cause malfunction.

Earphones-Microphone

Some earphones-microphones may not work properly.

- Do not subject Earphones-Microphone Jack to strong impact while using earphones-microphone; may affect water and dust resistance.

Forcing Power Off

If handset has stopped processing or won't respond to operation, power off forcibly as follows.
Press and hold Power key and Volume Up key simultaneously for at least 8 seconds.

- Display goes out and handset powers off.

Bluetooth® Function

SoftBank Corp. is not liable for any damages resulting from data/information leakage due to use of handset Bluetooth® function.

■Precautions
The frequency band utilized by handset Bluetooth® function is shared with industrial, scientific or medical equipment, including household microwave ovens, and used by radio stations, amateur radio stations, etc. (hereafter "other radio stations").
1. Before using Bluetooth®, visually check that no other radio stations sharing the same frequency band are in use nearby.
2. Should interference occur between handset and other radio stations, move it to a different location or cancel Bluetooth® function immediately.
3. For additional information and support, contact Customer Service.

- Frequency Band

This radio station utilizes 2.4 GHz band.
FH:FH-SS modulation, with a maximum interference range of about 80 m.
XX:Other modulation, with a maximum interference range of about 40 m.
It is not possible for the radio station to avoid using the frequency band of a mobile unit identification apparatus.

2.4FH4/XX8

Wi-Fi (Wireless LAN)

Wireless LAN (hereafter "Wi-Fi") uses radio waves to enable communication between compatible devices within range. However, it is advisable for the user to configure security settings to avoid risk of data interception.

- Do not use Wi-Fi near electrical appliances, audiovisual equipment or office automation equipment; may affect Wi-Fi transmission speed, availability, clarity, etc. (Especially when a microwave oven is in use.)
- If there are multiple access points nearby, handset may not detect access points correctly.

■Precautions

The frequency band utilized by handset Wi-Fi is shared with industrial, scientific or medical equipment, including household microwave ovens, and used by radio stations, amateur radio stations, etc. (hereafter "other radio stations").

1. Before using Wi-Fi, visually check that no other radio stations sharing the same frequency band are in use nearby.
2. Should interference occur between handset and other radio stations, move it to a different location or disable Wi-Fi immediately.
3. For additional information and support, contact Customer Service.

- Frequency Band

This radio station utilizes 2.4 GHz and 5 GHz bands.

- 2.4 GHz band

DSSS-OFDM modulation, with a maximum interference range of 40 m.

2.4DS/OF4

Handset supports Wi-Fi channels 1 - 13. Handset does not connect to access points set to other channels.

- Channels in 5 GHz band

Three bands are available within 5 GHz frequency band:5.2 GHz, 5.3 GHz, and 5.6 GHz (W52, W53, and W56).

- W52 (5.2 GHz band; channels 36, 40, 44, 48)
- W53 (5.3 GHz band; channels 52, 56, 60, 64)
- W56 (5.6 GHz band; channels 100, 104, 108, 112, 116, 120, 124, 128, 132, 136, 140, 144)

Use of 5.2 GHz or 5.3 GHz band wireless LAN for outdoor communication is prohibited by law (excluding communication with the access points and relay stations of high-output data communications systems operating in the 5.2 GHz band).
Although 5.8 GHz band wireless LAN (W58/149, 153, 157, 161, 165 ch) is also available in the 5 GHz frequency band, you cannot use in Japan under the law.

■Simultaneous Use with Bluetooth®

Wi-Fi (IEEE 802.11b/g/n) and Bluetooth® transmit on the 2.4 GHz band. Enabling handset Bluetooth® or using Bluetooth® devices near handset may affect Wi-Fi transmission speed, availability and clarity. Should interference occur, cancel handset Bluetooth® or discontinue Bluetooth® device use.

- Available channels vary by country.
- For use of Wi-Fi aboard aircraft, check with airline beforehand.
- In some countries/regions, there are restrictions on the use of Wi-Fi. Check the local laws and regulations before using Wi-Fi on handset abroad.

FeliCa and NFC Reader/Writer

- FeliCa and NFC Reader/Writer of handset is designated as inductive reading-and-writing communication equipment under the Radio Law.
- It uses the 13.56 MHz frequency band. If other FeliCa and NFC reader/writers are used nearby, keep an adequate distance from them.
  Also, make sure that other radio wireless stations using the same frequency bands are not nearby.
- Before using aboard an aircraft, check with the airline beforehand. Use may be restricted depending on the country.
  Be sure to check laws and other conditions of the country/region.
- Designation can be checked as follows.
  In Home Screen, ⚙ (Settings) → About phone → Regulatory labels

General Notes

"A208SH" here refers to this mobile phone "AQUOS sense7 plus."

Portrait Rights

Portrait rights protect individuals' right to refuse to be photographed or to refuse unauthorized publication/use of their photographs. Portrait rights consist of the right to privacy, which is applicable to all persons, and the right to publicity, which protects the interests of celebrities. Therefore, photographing others including celebrities and publicizing/distributing their photographs without permission is illegal; use Camera responsively.

Copyrights

Copyright laws protect sounds, images, computer programs, databases, other materials and copyright holders. Duplicated material is limited to private use only. Use of materials beyond this limit or without copyright holder permission may constitute copyright infringement, and be subject to criminal punishment. Comply with copyright laws when using images shot with Camera.

The software contained in handset is copyrighted material; copyright, moral right and other related rights are protected by copyright laws. Do not copy, modify, alter, disassemble, decompile or reverse-engineer the software; do not separate it from hardware in whole or part.

Open Source Software

- Handset contains software based on GNU General Public License (GPL), GNU Lesser General Public License (LGPL), and other licenses.
  To check details of relevant software licenses:
  In Home Screen, ⚙ (Settings) ➔ About phone ➔ Legal information ➔ Third-party licenses
- The source code of software based on GPL, LGPL, and Mozilla Public License (MPL) is provided on the following website free of charge.
  http://k-tai.sharp.co.jp/support/developers/oss/ (Japanese)

Regulatory Information

In some countries/regions including Europe*1, there are restrictions on the use of 5GHz WLAN that may limit the use to indoors only.
Please check the local laws and regulations beforehand.

*1 Belgium [BE], Bulgaria [BG], Czech Republic [CZ], Denmark [DK], Germany [DE], Estonia [EE], Ireland [IE], Greece [EL], Spain [ES], France [FR], Croatia [HR], Italy [IT], Cyprus [CY], Latvia [LV], Lithuania [LT], Luxembourg [LU], Hungary [HU], Malta [MT], Netherlands [NL], Austria [AT], Poland [PL], Portugal [PT], Romania [RO], Slovenia [SI], Slovakia [SK], Finland [FI], Sweden [SE], United Kingdom (Northern Ireland) [UK(NI)], Switzerland [CH], Liechtenstein [LI], Iceland [IS] and Norway [NO].

Norway:Use of this radio equipment is not allowed in the geographical area within a radius of 20 km from the centre of Ny-Alesund, Svalbard.

Hereby, SHARP CORPORATION declares that the radio equipment type A208SH is in compliance with Directive 2014/53/EU.
The full text of the EU declaration of conformity is available at the following internet address:
https://jp.sharp/k-tai/

Manufacturer's Address:
SHARP CORPORATION,
1 Takumi-cho, Sakai-ku, Sakai-shi,
Osaka 590-8522, Japan

Frequency Range of Supported Bands in EU

Item	Description
GSM 900	Tx 880.2 to 914.8 MHz Rx 925.2 to 959.8 MHz
DCS 1800	Tx 1710.2 to 1784.8 MHz Rx 1805.2 to 1879.8 MHz
WCDMA FDD I	Tx 1922.4 to 1977.6 MHz Rx 2112.4 to 2167.6 MHz
WCDMA FDD VIII	Tx 882.4 to 912.6 MHz Rx 927.4 to 957.6 MHz
LTE Band 1	Tx 1922.5 to 1977.5 MHz Rx 2112.5 to 2167.5 MHz
LTE Band 3	Tx 1710.7 to 1784.3 MHz Rx 1805.7 to 1879.3 MHz
LTE Band 8	Tx 880.7 to 914.3 MHz Rx 925.7 to 959.3 MHz
LTE Band 38	Tx 2572.5 to 2617.5 MHz Rx 2572.5 to 2617.5 MHz
Bluetooth	Tx 2402 to 2480 MHz Rx 2402 to 2480 MHz

Maximum Transmit Power

Item	Description
GSM 900	+33 dBm (Power Class 4)
DCS 1800	+30 dBm (Power Class 1)
WCDMA FDD I	+24 dBm (Power Class 3)
WCDMA FDD VIII	+24 dBm (Power Class 3)
LTE Band 1	+23 dBm (Power Class 3)
LTE Band 3	+23 dBm (Power Class 3)
LTE Band 8	+23 dBm (Power Class 3)
LTE Band 38	+23 dBm (Power Class 3)
Bluetooth	+12.0 dBm (Power Class 1)
WLAN 2.4 GHz	+15.0 dBm
WLAN 5 GHz	+12.0 dBm
NFC	0 dBµA/m at 10m

Battery Cautions

Use specified Charger only.
Non-specified equipment use may cause Internal Battery to leak, overheat, burst or ignite, and may cause Charger to overheat, ignite, malfunction, etc.

Battery is built into handset. Do not dispose of handset with ordinary refuse; take it to a SoftBank Shop for appropriate disposal.

Charge handset in ambient temperature 5°C - 35°C; Internal Battery may leak/overheat and performance may deteriorate outside this range.

Mobile Light

Do not shine Mobile Light in eyes.
May temporarily affect eyesight or startle, leading to accidents.

Volume Level Caution

To prevent possible hearing damage, do not listen at high volume levels for long periods.

FCC Notice

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

■FCC Information to User
This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules.
These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation; if this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
1. Reorient/relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

Radio Wave Exposure and Specific Absorption Rate (SAR) Information

【A208SH】 here refers to this mobile phone 【AQUOS sense7 plus】.

Specific Absorption Rate (SAR) for This Product (for Japan)

This mobile phone 【A208SH】 is compliant with the Japanese technical regulations* and international guidelines for exposure to radio waves.
The Japanese technical regulations on human exposure to radio frequency energy have established permitted levels of radio frequency energy, based on the standards developed by independent scientific organizations through periodic and thorough evaluation of scientific studies.
The regulations employ a unit of measurement known as the Specific Absorption Rate, or SAR.
The SAR limit is 2 watts/kilogram (W/kg) averaged over ten grams of tissue.
The limit includes a substantial safety margin designed to assure the safety of all persons, regardless of age and health.
The value of the limit is equal to the value stipulated in the international guideline recommended by ICNIRP**, which is in collaboration with the World Health Organization (WHO).
The highest SAR value for this mobile phone is 1.386 W/kg*** when tested for use at the ear, and 0.397 W/kg*** when worn on the body in the below manner****.
While there may be differences between the SAR levels of various phones and at various positions, all phones meet the Japanese technical regulations.
Although the SAR is determined at the highest certified power level, the actual SAR of the phone during operation can be well below the maximum value.

* The technical regulations are provided in the Article 14-2 of the Ministry Ordinance Regulating Radio Equipment.
** International Commission on Non-Ionizing Radiation Protection
*** The value is under simultaneous transmission use conditions.
**** Use at positions other than at the ear
This mobile phone may be used at positions other than at the ear. By using an accessory such as a belt clip holster that maintains a 1.5 cm separation with no metal (parts) between it and the body and the mobile phone, this mobile phone will comply with international guidelines for radio wave protection.

The WHO has announced that "A large number of studies have been performed over the last two decades to assess whether mobile phones pose a potential health risk. To date, no adverse health effects have been established as being caused by mobile phone use."

For more information about SAR, see the following websites:
Ministry of Internal Affairs and Communications (MIC)
https://www.tele.soumu.go.jp/e/sys/ele/body/index.htm
Association of Radio Industries and Businesses (ARIB)
https://www.arib-emf.org/01denpa/denpa02-02.html
(Japanese)

World Health Organization
https://www.who.int/news-room/fact-sheets/detail/electromagnetic-fields-and-public-health-mobile-phones
List of Specific Absorption Rates (SAR) for radio waves by smartphone/3G model
https://www.softbank.jp/mobile/support/sar/ (Japanese)

European RF Exposure Information

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health. The guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2.0 W/kg and the highest SAR value for this device when tested at the ear is 0.24 W/kg*. As mobile devices offer a range of functions, they can be used in other positions, such as on the body. In this case, the highest tested SAR value is 0.81 W/kg* at the separation distance of 0.5 cm from the body. For electronic safety, maintain the separation distance with accessories containing no metal, that position handset a minimum of the above distance. Use of other accessories may not ensure compliance with RF exposure guidelines.

* The tests are carried out in accordance with international guidelines for testing.

Simplified Declaration of Conformity for 【A208SH】
Hereby, SHARP CORPORATION declares that the radio equipment type 【A208SH】 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address:https://jp.sharp/k-tai/.

FCC RF Exposure Information

Your handset is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.
The guidelines are based on standards that were developed by independent scientific organization through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.
The exposure standard for wireless handsets employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg. The tests are performed in positions and locations (e.g. at the ear and worn on the body) as required by the FCC for each model.
The highest SAR value for this model handset as reported to the FCC when tested for use at the ear is 0.48 W/kg, and when worn on the body in a holder or carry case, is 0.52 W/kg.
Body-worn Operation; This device was tested for typical body-worn operations with the handset kept 1.0 cm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 1.0 cm separation distance between the user's body and the handset. The use of beltclips, holsters and similar accessories should not contain metallic components in its assembly.
The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided. The FCC has granted an Equipment Authorization for this model handset with all reported SAR levels evaluated as in compliance with the FCC RF emission guidelines. SAR information on this model handset is on file with the FCC and can be found under the Display Grant section of http://www.fcc.gov/oet/ea/ after searching on FCC ID APYHRO00317.
Additional information on Specific Absorption Rates (SAR) can be found on the FCC website at https://www.fcc.gov/general/radio-frequency-safety-0.

FCC ID Location
The device is electronically labeled and the FCC ID can be displayed from Home Screen as follows: In Home Screen, ⚙ (Settings) → About phone → Regulatory labels .

Water, Dust, & Shock Resistance

Handset Water, Dust, & Shock Resistance

Handset has IPX5[1]-, IPX8[2]-equivalent water protection and IP6X[3]-equivalent dust protection with Card Tray closed firmly leaving no gap between handset and Card Tray. Handset also complies with MIL standards for shock resistance[4].

1 IPX5 compliant means that a handset continues to function as a phone after being subjected to a water jet (approximately 12.5 liters/min.) discharged from a nozzle (inner diameter:6.3 mm), from all directions (approximately 3 m from handset) for at least 3 minutes.
2 IPX8 compliant means that a handset continues to function as a phone after being gently submerged to the depth of 1.5 m in still tap water at room temperature, left there for approximately 30 minutes, then removed from it.
3 IP6X compliant means that a handset continues to function as a phone and its safety is maintained after being agitated in a device containing dust of 75 μm or smaller in diameter for 8 hours and then removed from the device.
4 MIL Standards
Handset has been independently tested as per guidelines complying with MIL-STD-810H (MILSTD-810G for drop impact resistance) as established by the U.S. Department of Defense. For details about the test, see the following website.
(https://jp.sharp/products/aquos-sense7-plus/) (Japanese)

- Water and dust resistance may be affected under some circumstances. Warranty does not cover malfunctions resulting from misuse.
- Handset is compliant with IPX5 and IPX8 water protection standards as well as IP6X dust protection standard. However, ingress of dirt, sand, mud, metal powder, food, beverage, sea water, etc. may cause malfunction.

■Handset Care

- Close Card Tray firmly leaving no gap between handset and Card Tray. Any debris (single hair, grain of sand, minute fiber, etc.) trapped between gasket and contacting surface may allow ingress of water/dust.
- If handset is exposed to liquids with Card Tray open, they may enter handset and cause electric shock or malfunction. Discontinue use and power off.
- If handset is wet, wipe it with a dry cloth.
- Never open/close Card Tray with wet hands or while handset is wet or has a foreign object adhered to it.
- Do not use Earphones-Microphone Jack or External Connection Jack while it is wet or obstructed by sand/dirt; may affect water and dust resistance or may cause malfunction, burns or fire due to electric shock, short-circuiting, etc.
- Handset is only water resistant against fresh/tap water between 5°C - 35°C.

Precautions

- Do not subject handset to soap, detergent, bath powder/oil, sea/pool/spa water, hot water, etc.
- Rinse off sea/pool water, beverage, dirt, sand, mud, etc. immediately with fresh/tap water between 5°C - 35°C; residue may cause malfunction if allowed to dry.
- Do not soak handset in bath or pool; never use it in water (including key operation).
- Handset is not resistant to water pressure. Avoid high-pressure water/shower (over 6 liters/min.) and water immersion.
- Do not expose handset to high humidity for long periods; avoid prolonged use in bath/shower rooms.
- Volume may be low when an opening such as Mic, Recorder Mic, Earpiece or Speaker is wet; dry handset before use (see "Drying Handset").
- AC Adaptor and other optional accessories are not waterproof or dustproof. Do not use in high humidity or where exposed to water (e.g., outdoors, in bathrooms, at sinks, etc.). May cause fire, electric shock, or malfunction.
- Do not subject handset to strong impact (e.g., from a fall); do not poke Mic, Earpiece, Speaker, Recorder Mic, etc. with a sharp object; may affect water and dust resistance.
- Avoid placing handset directly on sand. Sand may penetrate Earpiece, Speaker, etc., resulting in low volume.
- To prevent condensation, warm handset to room temperature before bringing it from a cold place into a warm place such as a bathroom. If condensation occurs, leave handset at room temperature until it is dry.
- Handset does not float on water.
- Keep handset out of heavy rain.

Cautions for Use in a Bathroom

- Do not let handset get wet with liquids other than tap water at room temperature (spa water, soapy water, detergent solutions, bubble bath water, etc.); do not submerge it in a bathtub.
  May cause malfunction.
  If handset gets exposed to liquids other than tap water or falls in a bathtub, wash it in the specified way.
- Use handset at 5°C - 40°C with humidity of 99% or less, for up to 2 hours.
  Note that this does not guarantee continuous operation of all functions.
- After exposing handset to water, be sure to remove moisture and let it dry naturally in the way specified in "Drying Handset."
  Let handset dry naturally after using it in a bathroom or when condensation occurs inside Camera lens, etc.
- Be careful not to splash hot water on handset.
- Extreme temperature changes may cause condensation.
  Wait until handset reaches room temperature before bringing it from a cold place into a warm bathroom.
  In addition, do not splash cold water on handset when it is warm in a bathroom.
  May cause malfunction.
- Never charge handset in a bathroom.
- Depending on the layout and condition of a bathroom, handset may not receive a signal (call functions and data communication may be unavailable).
- If operated with wet hands, handset may not respond or may malfunction.
- Do not use in a bath room with earphones or other external device connected.
- Disable glove mode beforehand as follows.
  In Home Screen, ⚙ (Settings) → Display → glove mode (●)

Charging Cautions

- Never connect a USB Type-C plug while handset or AC Adaptor is wet.
  Handset is water resistant; however, if a USB Type-C plug is inserted while it is wet, liquid (tap water, beverage, sea water, pet urine, etc.) or a foreign object adhered to handset or a USB Type-C plug may cause overheating, burnout, fire, malfunction, burns, etc. due to electric shock, short-circuiting, etc.
- Do not use AC Adaptor where water is regularly in use (kitchens, bathrooms, shower rooms, etc.); may cause fire or electric shock.

Care & Maintenance

- Proper care of Card Tray gasket is crucial for continued handset water and dust resistance. Observe the following:
  - Do not remove or damage gasket.
  Keep it clean.
  - If Card Tray is damaged or deformed, contact a SoftBank Shop.
- Do not insert a sharp object into Card Tray gap, Earphones-Microphone Jack or External Connection Jack.
- To maintain water and dust resistance, it is recommended to replace Card Tray every 2 years regardless of its condition. Customer-requested Card Tray replacement incurs fees and requires handset submission. For details, contact a SoftBank Shop or Customer Service.

Washing Handset

Wipe off dirt, sand, beverage, etc., gently with a cloth. Then hold handset approximately 10 cm below faucet or shower head and wash with low-pressure tap water (6 liters/min. or lower) at room temperature (5°C - 35°C). Wash with your hands, holding Card Tray so it makes no gap with handset; do not use a brush or sponge. Dry handset before use; after drying it well, power on.

- Before washing handset, make sure that Card Tray is closed firmly leaving no gap between handset and Card Tray.
- Do not use a washing machine or ultrasonic cleaner.
- Earphones-Microphone Jack and External Connection Jack tend to accumulate dust, sand, etc.; rinse and dry them completely before use. Any residue may cause malfunction, burns or fire.
- Do not put a cotton swab, cloth, etc. into Earphones-Microphone Jack or External Connection Jack; may affect water resistance, causing malfunction.

Drying Handset

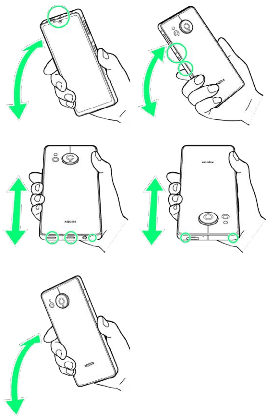
After exposing handset to water, be sure to dry Earpiece/ Speaker, Volume Keys, Power Key, Speaker, External Connection Jack, Mic/Recorder Mic, Earphones-Microphone Jack, Mic, Camera Ornament, and Mobile Light Periphery.

1

Wipe handset surface with dry cloth

2

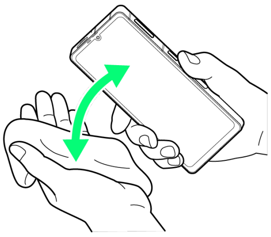
Holding handset firmly by its sides, shake it about 20 times



- When shaking handset, hold it firmly so as not to drop it.
- Shake with circled ○ portion downward to drain water from all holes and gaps.

3

Pat against dry cloth to remove moisture from openings and grooves



- Water may be trapped in openings; pat against a dry cloth to remove it.

4

Leave handset on dry cloth for approximately 2 - 3 hours at room temperature

Handset is dried.

Cautions

When Removing Moisture

Do not put a cotton swab, cloth, etc. into openings; may affect water and dust resistance.

After Drying Procedure

Do not use handset in wet conditions.

- Calls may fail, or moisture may transfer to clothes, bag, etc.
- Moisture may short-circuit Earphones-Microphone Jack, External Connection Jack or other parts.
- Exposure to cold may freeze moisture and cause malfunction.
