About the User Guide

Thank-you for purchasing this product.

Before You Begin

Read "Safety Precautions" thoroughly beforehand for proper usage.
Accessible services may be limited by contract conditions.

Guide Usage Notes

In the User Guide, most operation descriptions are based on handset at time of purchase.
Unless noted otherwise, descriptions are from Standby.
"Confirmation" refers to a window that appears after operation, such as authentication prompt window, selection window or caution window.
Some operation descriptions may be omitted.

Screenshots & Key Labels

Screenshots in the User Guide may differ in appearance with actual Display. Key labels in the User Guide are simplified for description purposes and differ with actual Display.

Other Notations

In the User Guide, the product is referred to as "handset."
microSD™/microSDHC™ Card is referred to as "SD Card."

Parts & Functions

Handset Parts

Name	Description
1 Earpiece/ Speaker	Hear other party's voice as well as audio such as music, video and TV through this.
2 Display	Screens appear here.
3 Air Vent	Upkeeps handset performance. Avoid placing stickers.
4 Mic	Talk to other party through this and use to record audio.
5 External Device Port	Connect AC Charger or Micro USB Cable here.

Name	Description
1 Notification Lamp	Illuminates while charging or for incoming calls/messages and notifications.
2 Sub-display	Clock and Notification Indicators for new calls, mail, etc. appear.
3 Strap Hole	Attach a strap.
4 Charging Terminals (for Desktop Holder)	Connect to Desktop Holder during charging.
5 Internal Communications Antennas	Used for calling, Internetting, etc. Avoid covering with stickers or fingers.
6 Camera	Shoot photos or videos.
7 Infrared Port	Use for infrared transmission.
8 Back Cover	Remove to access SIM Card, SD Card, and Battery.

💡 Attaching a Strap

Remove Back Cover, pass strap through Strap Hole, hook strap inside and pull out of handset. Reattach Back Cover.

· For details on attaching/removing Back Cover, see "Inserting SIM Card."

⚠ Earpiece/Speaker Cautions

Do not hold Earpiece close to ear other than when calling or playing back messages. Earpiece is also handset Speaker, and sudden ringtones, alarm, can affect hearing. After switching to the speakerphone during a call or after ending a call, sound will gradually increase to the set volume to prevent a large volume of sound from the speaker at your ear.

Handset Keys
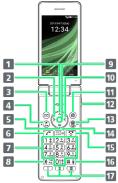

Key (Key Name)	Description
1 ⬆ (Multi Selector (up))	Show item selection cursor in Standby.
2 ◄ (Multi Selector (left))	Show outgoing call history.
3 ✉ (Mail Key)	Open mail menu. Long Press to open S! Mail composition window.
4 (Favorites/文字Key)	Show Favorites list.
5 ⬇ (Multi Selector (down))	Open Address Book.
6 📞 (Start Key)	Show Rakutomo Links.
7 0 - 9 (Dial Keys)	Enter numbers.
8 ✳ (✳ Key)	Enter ✳. Long Press to toggle app activation restriction on/off.
9 ● (Center Key)	Open Main Menu.
10 ► (Multi Selector (right))	Show incoming call history.
11 🌐 (Internet Key)	Show website set as homepage. Long Press for Internet menu.
12 ▬ (Side Key)	Long Press to activate/cancel Manner mode.
13 📷 (Camera/TV Key)	Activate Camera. Long Press to activate TV.
14 クリア/バック (Clear/Back Key)	Show Answer Phone message list. Long Press to set Answer Phone.
15 ⏻ (Power/End Key)	Show/hide content in Standby. Long Press to power on/off, reboot, or access Airplane mode and other settings.
16 # (# Key)	Enter #. Long Press to activate/cancel Manner mode.
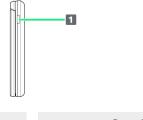

17 Ⅰ / Ⅱ / Ⅲ (Quick start key)	Activate a preregistered function. Long Press Ⅰ to view history, Ⅱ to toggle VeilView on/off, and Ⅲ to toggle Wi-Fi on/off.

💡 Multi Selector

In this User Guide, Multi Selector operations are indicated as follows:

· Press ⬆ or ⬇: ⬍

· Press ◄ or ►: ◄►

· Press ⬆, ⬇, ◄, or ►: ✛
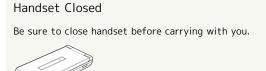

Buttons When Handset Closed

Button	Description
1 ▬ (Side Key)	Light Sub-display. Long Press to toggle Manner mode.

💡 Handset Opens and Closes

Handset Closed

Be sure to close handset before carrying with you.

Handset Opened

Open handset to operate keys or call.

Notification Lamp

Lights/flashes while charging or for missed calls, new SMS/S! Mail, etc.

Lamp color and illumination	Indication
Red, lit	Charging (Battery level less than about 94%)
Green, lit	Charging (Battery level more than about 95%)
Green, flashing	Missed call[1]/call arriving
Blue, flashing	New SMS/S! Mail arriving
White, flashing	Notifications (new SMS/S! Mail/etc.)[1]
Light blue, flashing	Alarm ringing

1 Flashes when Display turned off or handset closed.

SIM Card Installation

SIM Card is an IC card containing customer and authentication information, including handset number.

Handling SIM Card

Check the following regarding SIM Card handling.

| 1 | IC chip (metal) |

· For SIM Card handling, see SoftBank Website. https://www.softbank.jp/mobile/support/protect/usim/ (Japanese)
· Avoid applying labels. May damage SIM Card.
· SIM is replaceable (at cost) in case of loss/damage.
· Wipe clean with a dry, soft cloth.
· Always keep the IC chip (metal) clean.

SIM Card Usage Notes

Observe the following when using SIM Card.
· Always follow emergency procedures to suspend service if your SIM Card or handset (SIM Card inserted) is lost/stolen. For details, contact Customer Service.
· Customer is responsible for any damage caused by inserting SIM Card in an other-brand IC card reader, etc. SoftBank Corp. is not responsible in such case.
· It is recommended that you back up information that is saved on SIM Card. SoftBank Corp. is not responsible for damages from saved information that is lost.
· Always power off handset before inserting/removing SIM Card.
· Note that SIM Card specifications and performance may change without notice.
· Return SIM Card to SoftBank Corp. when canceling subscription.
· SIM Card is the property of SoftBank Corp.
· Returned SIM Cards are recycled for environmental purposes.

Inserting SIM Card

Always power off beforehand.

1

Remove Back Cover

- Holding Back Cover at its center (**1**), pull by notch (○) in direction shown (**2**).
- If difficult to remove, start at notch and slide finger around handset to gradually make gap with Back Cover.

2

Remove Battery

- Lift Battery in direction shown by tab (○).

3

Open SIM Card Slot Cover

- Unlock SIM Card Slot Cover (**1**) and lift (**2**).
- Slide Cover in direction shown until it clicks.

4

Insert SIM Card

- Note orientation of SIM Card (notch/IC chip (metal) facing down), and place in SIM Card Slot.

5

Close SIM Card Slot Cover

- Close SIM Card Slot Cover (**1**) and slide to lock (**2**).
- Slide Cover in direction shown until it clicks.
- Caution:Lock firmly.
  If unlocked, bumping may cause SIM Card to become dislodged and cause handset to restart.

6

Insert Battery

- Align front of Battery and slide in direction shown.

7

Replace Back Cover

SIM Card is inserted.

- Fit on handset, press firmly where circled (○) ensuring no gaps.
- Check that Back Cover is completely attached. Dirt particles, etc. caught on the seal contact surfaces can allow water and dust to enter.

Removing SIM Card

Always power off beforehand.

1

Remove Back Cover

· Holding Back Cover at its center (**1**), pull by notch (○) in direction shown (**2**).
· If difficult to remove, start at notch and slide finger around handset to gradually make gap with Back Cover.

2

Remove Battery

· Lift Battery in direction shown by tab (○).

3

Open SIM Card Slot Cover

· Unlock SIM Card Slot Cover (**1**) and lift (**2**).
· Slide Cover in direction shown until it clicks.

4
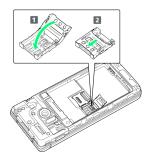

Remove SIM Card

· Be careful not to lose SIM Card.

5

Close SIM Card Slot Cover

· Close SIM Card Slot Cover (**1**) and slide to lock (**2**).
· Slide Cover in direction shown until it clicks.

6

Insert Battery

· Align front of Battery and slide in direction shown.

7

Replace Back Cover

🏁 SIM Card is removed.

· Fit on handset, press firmly where circled (○) ensuring no gaps.
· Check that Back Cover is completely attached. Dirt particles, etc. caught on the seal contact surfaces can allow water and dust to enter.

SIM Unlocking

Handset supports SIM unlocking. After SIM-unlocking handset, other companies' SIM cards can also be used on handset.

· When using another company's SIM card on handset, accessible services/functions, etc. may be limited. SoftBank Corp. makes no guarantees whatsoever regarding the proper operation of handset.
· For details on SIM unlocking, see SoftBank Website.

Internal Storage/SD Card

Handset supports SD Card up to 32 GB. Some SD Cards may not operate properly.
System data and functions as well as shot photos and videos can be saved to internal storage.

⚠ Internal Storage/SD Card Cautions

Content Saved to Internal Storage/SD Card Files

Content in internal storage/SD Card may be lost/altered due to accidents, malfunctions, repairs, handset upgrade/replacement, or other handling. Back up important content regularly. SoftBank Corp. is not liable for any damages resulting from loss/alteration of content.
· Do not forcefully install or remove SD Card.
· Do not touch terminals with hands or metal.
· Never power off while files are being accessed.
· Be careful that data does not become erased or overwritten.

microSDHC Cards

Handset supports SDHC SD cards (microSDHC cards). microSDHC cards can only be used with SDHC devices.

Save Location

By default, files, including photos and videos shot with handset, are saved in internal storage.
· To save photos and videos taken with handset on SD Card, insert SD Card before using Camera, then change save location as follows.
🎮 ➡ ✉ (Settings) ➡ Detail Settings ➡ Save To ➡ SD card

🚫 SD Card Precaution

Keep SD Card away from infants; may cause choking if swallowed.

Inserting SD Card

Always power off beforehand.

1

Remove Back Cover

· Holding Back Cover at its center (**1**), pull by notch (○) in direction shown (**2**).
· If difficult to remove, start at notch and slide finger around handset to gradually make gap with Back Cover.

2

Remove Battery

· Lift Battery in direction shown by tab (○).

3

Open SD Card Slot Cover

· Unlock SD Card Slot Cover (**1**) and lift (**2**).
· Slide Cover in direction shown until it clicks.

4
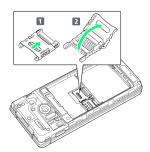

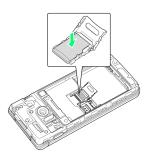

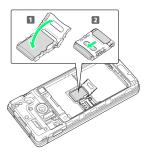

Insert SD Card

· Note orientation of SD Card (terminals facing down), and place in SD Card Slot.

5

Close SD Card Slot Cover

· Close SD Card Slot Cover (1) and slide to lock (2).
· Slide Cover in direction shown until it clicks.

6

Insert Battery

· Align front of Battery and slide in direction shown.

7
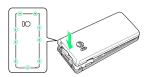

Replace Back Cover

🏁 SD Card is inserted.

· Fit on handset, press firmly where circled (○) ensuring no gaps.
· Check that Back Cover is completely attached. Dirt particles, etc. caught on the seal contact surfaces can allow water and dust to enter.

Removing SD Card

Always power off beforehand.

1

Remove Back Cover

· Holding Back Cover at its center (1), pull by notch (○) in direction shown (2).
· If difficult to remove, start at notch and slide finger around handset to gradually make gap with Back Cover.

2

Remove Battery

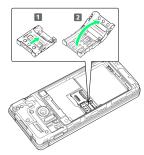

· Lift Battery in direction shown by tab (○).

3

Open SD Card Slot Cover

· Unlock SD Card Slot Cover (1) and lift (2).
· Slide Cover in direction shown until it clicks.
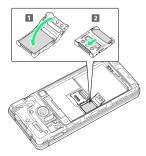

4
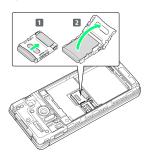

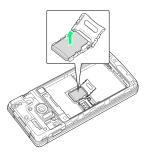

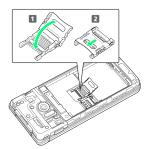

Remove SD Card

· Be careful not to lose removed SD Card.

5

Close SD Card Slot Cover

· Close SD Card Slot Cover (**1**) and slide to lock (**2**).
· Slide Cover in direction shown until it clicks.

6

Insert Battery

· Align front of Battery and slide in direction shown.

7
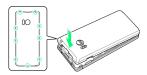

Replace Back Cover

SD Card is removed.

· Fit on handset, press firmly where circled (○) ensuring no gaps.
· Check that Back Cover is completely attached. Dirt particles, etc. caught on the seal contact surfaces can allow water and dust to enter.

Formatting SD Card

When using a new SD Card for the first time, always format (initialize) it on handset.

· Formatting deletes all SD Card files. Format SD Card with caution.
· When formatting, keep handset charged or charge it adequately beforehand.
· Insert SD Card beforehand. See "Inserting SD Card" for details.

Inserting/Removing Battery

About Battery

Handset uses a lithium-ion battery.

💡 Recycling

Lithium-ion batteries are recyclable precious resources. Batteries can be taken to a nearby shop where the Mobile Recycle Network mark is displayed.

Li-ion00

モバイル・リサイクル・ネットワーク
携帯電話・PHSのリサイクルにご協力を。

⚠ Battery Cautions

Storage

To help maintain performance and life of Battery, do not store in the following conditions (battery level should be at approximately 40% for optimal storage).
・Full (immediately after charging is complete)
・Exhausted (too low to power on handset)

Battery Bulging

Depending on usage, bulges may appear near end of battery life; this does not affect safety.
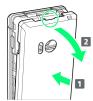

Replacement

Battery is a consumable item; it needs to be replaced if operating time shortens noticeably even after charging.

Inserting

1

Remove Back Cover

- Holding Back Cover at its center (**1**), pull by notch (○) in direction shown (**2**).
- If difficult to remove, start at notch and slide finger around handset to gradually make gap with Back Cover.
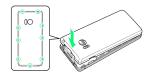

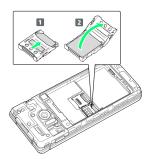

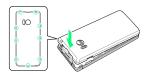

2

Insert Battery

- Align front of Battery and slide in direction shown.

3

Replace Back Cover

Battery is inserted.
- Fit on handset, press firmly where circled (○) ensuring no gaps.
- Check that Back Cover is completely attached. Dirt particles, etc. caught on the seal contact surfaces can allow water and dust to enter.

Removing

Always power off beforehand.

1

Remove Back Cover

- Holding Back Cover at its center (**1**), pull by notch (○) in direction shown (**2**).
- If difficult to remove, start at notch and slide finger around handset to gradually make gap with Back Cover.

2

Remove Battery

- Lift Battery in direction shown by tab (○).

3

Replace Back Cover

Battery is removed.
- Fit on handset, press firmly where circled (○) ensuring no gaps.
- Check that Back Cover is completely attached. Dirt particles, etc. caught on the seal contact surfaces can allow water and dust to enter.

Charging Battery

Charge Battery inserted in handset.

💡 Notification Lamp

Notification Lamp illuminates red while charging;
illuminates green when charge is almost full.
· If Notification Lamp is blinking, charging is not working
  properly (Battery abnormality or end of service life).
  Make sure that you are using AC Charger and products
  specified by SoftBank Corp. If you are using specified
  products only, contact a SoftBank Shop or SoftBank
  Customer Support.

❗ Charging Cautions

Water Resistance

Desktop Holder, AC Charger (optional accessory), and Micro
USB Cable for PC are not waterproof. Never connect Micro
USB plug while handset or AC Charger is wet.
Handset is water resistant; however, if Micro USB plug
is inserted while it is wet, liquid (tap water, beverage,
sea water, pet urine, etc.) or a foreign object adhered to
handset or Micro USB plug may cause overheating, burnout,
fire, malfunction, burns, etc. due to electric shock, short-
circuiting, etc.

Handling Cables

Do not pull, bend, or twist cables; may damage the cables.

Charging Abroad
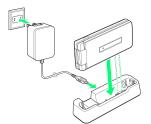

SoftBank Corp. is not liable for problems resulting from
charging handset abroad.

Charging with Desktop Holder

Charge using Desktop Holder [SHEHA1] and AC Charger (Micro
USB 1.0A) [ZSDBAF][1] or AC Charger (with Micro USB Quick
Charge™ 2.0 capability) [ZSDBA4][2] , sold separately.
Charging with AC Charger (Micro USB 1.0A) [ZSDBAF] is
described as an example.
1 SoftBank SELECTION Micro USB recharging AC Charger 1.0A
[SB-AC18-MIMU]
2 SoftBank SELECTION AC Charger for smartphones with
Qualcomm® Quick Charge™ 2.0 capability [SB-AC12-HDQC]
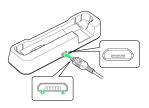

· See instructions included with AC Charger.
· Never connect Micro USB plug while handset, Desktop
  Holder, or AC Charger is wet.

1

Insert Micro USB plug of AC Charger in Desktop Holder

· Insert Micro USB plug in correct orientation; otherwise,
  Desktop Holder port may be damaged. Check contours and
  orientation of Micro USB plug, then insert it with tabs (○)
  facing down.

2
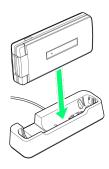

Extend blades and plug AC Charger into AC outlet

3

Place handset in Desktop Holder

🏁 Charging starts and Notification Lamp illuminates.

· Push down handset until it clicks into place.
· Battery is charged when Notification Lamp goes out.

4

After charging, remove handset from Desktop Holder, and then
disconnect AC Charger Micro USB plug

5

Unplug AC Charger from outlet, and retract plug
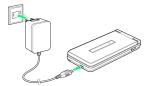

🏁 Charging ends.

AC Charger

Use AC Charger (Micro USB 1.0A) [ZSDBAF][1] or AC Charger (with Micro USB Quick Charge™ 2.0 capability) [ZSDBA4][2], sold separately.
Charging with AC Charger (Micro USB 1.0A) [ZSDBAF] is described as an example.
1 SoftBank SELECTION Micro USB recharging AC Charger 1.0A [SB-AC18-MIMU]
2 SoftBank SELECTION AC Charger for smartphones with Qualcomm® Quick Charge™ 2.0 capability [SB-AC12-HDQC]
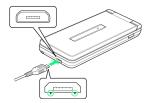

· See instructions included with your AC Charger.
· Never connect Micro USB plug while handset or AC Charger is wet.

1
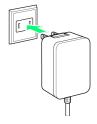

Insert Micro USB plug of AC Charger into External Device Port

· Insert Micro USB plug in correct orientation; otherwise, External Device Port may be damaged. Check contours and orientation of Micro USB plug, then insert it with tabs (○) facing down.

2

Extend blades and plug AC Charger into AC outlet

🏁 Charging starts and Notification Lamp illuminates.

· Battery is charged when Notification Lamp goes out.

3

After charging, remove Micro USB plug, then unplug AC Charger from outlet, and retract plug

🏁 Charging ends.

Charging by PC
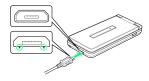

Connect handset to a PC with Micro USB Cable (SHDDL1; optional accessory).

· Make sure that PC is turned on.
· Handset may not charge or charge slowly depending on connection/PC status.
· Never connect Micro USB plug while handset or Micro USB Cable is wet.

1

Insert Micro USB plug of Micro USB Cable into External Device Port

· Insert Micro USB plug in correct orientation; otherwise, External Device Port may be damaged. Check contours and orientation of Micro USB plug, then insert it with tabs (○) facing down.

2

Insert USB plug of Micro USB Cable into PC USB port

🏁 Charging starts and Notification Lamp illuminates.

· Battery is charged when Notification Lamp goes out.

3

After charging, remove Micro USB Cable from handset and PC

🏁 Charging ends.

Power On/Off

Power On

1

Long Press ⚏ until SoftBank logo appears

🏁 Handset powers on, and Standby appears after a while.

· Initial settings window may appear the first time handset is powered on. For details on initial settings, see "Making Initial Settings."

Power Off

1

⚏ (Long Press)

2

Power off

🏁 Handset shuts down.

Making Initial Settings

When powering on the first time, an initial settings window appears. Make function link and text size settings.

Making Initial Settings

1

一括許可する (Set together)
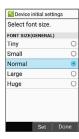

· Normally, select to 一括許可する (Set together) and permit function linkage.
If function linkage is not permitted, functions may not operate correctly.

· To not permit function linkage, select 許可しない (Do not permit) ➡ Yes .

· To view details of function linkage, Press ✉ (詳細説明 (Details)).

· To set function links individually, Press ⊚ (個別設定(Set individually)), and follow onscreen prompts.

2

Select text size ➡ ⊙

🏁 Initial settings are completed, and Standby appears.

· To not change text size, Press ⊚ (Done).

Display

Standby

Standby appears as follows.

1 Status Bar

2 Date/time

3 Quick start key

Functions registered to a Quick start key are shown.

4 Pedometer

Information Window

Appears in Standby for missed calls, new mail, etc.

· Type of Information (e.g., "New mail") and number are shown.Select information ➡ ⦿ to view.

Display Saving

Display goes completely dark after a certain period of no operation to save power.

· Press any key (except 🕻 during a call) to reilluminate Display.

🔅 Backlight

Before Display goes completely dark, Backlight turns off and Display darkens.

· Press any key to illuminate Backlight. Key press also activates assigned function.

Display-Top (Status Bar) Indicators

Indicators (new message notification, handset status, etc.) appear on Status Bar.

Status Bar Layout

1 Notifications, warnings, etc. appear here. (Notification Indicators)

2 Handset status and other information appear here. (Status Indicators)

Notification Indicators

Notification Indicators appear on the left.

Security Codes

Main Security Codes

The following are main security codes required for handset use.

Code	Description
Operation Password	A code required for using some functions. See "Operation Password and Center Access Code" for details.
Center Access Code	A four-digit code set in subscription contract. See "Operation Password and Center Access Code" for details.
SIM PIN	A code for SIM Card. For details, see "SIM PIN."
Lock No. (PIN)	A code for unlocking screen.

💡 Using Handset without an Operation Password

To use functions requiring Operation Password, prompt to save Operation Password appears.

Operation Password and Center Access Code

Center Access Code is a four-digit code set in subscription contract; necessary to use optional services from landlines, etc.

· Do not forget Center Access Code. If you forget the code, contact us for recovery. For details, contact Customer Service.
· Be careful not to reveal security codes to others. If misused by others, SoftBank Corp. is not liable for any resulting damages.

Setting Operation Password

Set a four- to eight-alphanumeric code.

1

⦿ ➡ Settings ➡ Security ➡ Operation password setting

2

OK ➡ Enter Operation Password to set ➡ ⦿

3

Re-enter Operation Password ➡ ⦿ ➡ OK
🏁 Operation Password is set.

💡 Operation Password

Changing Operation Password

Refer to the steps for setting Operation Password. (Current Operation Password is required to proceed.) Alternatively, in window for entering Operation Password, Password change ➡ OK .

Resetting Operation Password

In window for entering Operation Password, Password Reset ➡ OK ➡ Follow onscreen prompts.
· My SoftBank authentication is required to reset Operation Password. Set My SoftBank authentication from My SoftBank homepage.

SIM PIN

SIM PIN and SIM Card Lock

When SIM card lock is enabled, PIN (a code for SIM Card) is required for handset use each time handset is powered on; helps prevent unauthorized use by others.

· Enable SIM card lock by enabling PIN.
· PIN is 9999 by default.

⚠ PIN Entry Cautions

PIN entry is required when changing PIN, when powering handset on with SIM card lock enabled, etc.
· Entering incorrect PIN three consecutive times activates PIN Lock. To cancel, Personal Unblocking Key (PUK) is required; contact SoftBank Customer Support.
· Entering incorrect PUK ten consecutive times activates PUK Lock, disabling handset. For recovery, SIM Card must be reissued at a SoftBank Shop (fees apply).

Enabling SIM PIN

When PIN (a code for SIM Card) is enabled, PIN entry is required for handset use each time handset is powered on with SIM Card installed.

1

◉ ➡ [Settings] ➡ [Security] ➡ [Advanced settings] ➡ [Set up SIM card lock]

🏁 SIM card lock settings open.

2

[Lock SIM card] ➡ Enter PIN ➡ ◉ (Accept) (✅)

🏁 PIN is enabled and SIM Card is locked.

➕ Disabling SIM Card Lock

In SIM card lock settings, [Lock SIM card] ➡ Enter PIN ➡ ◉ (Accept) (☐)

Operation at Power On

When SIM card lock is enabled, PIN entry window appears each time handset is powered on. To use handset:

1

Enter PIN
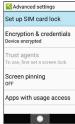

🏁 Handset is usable.

Changing SIM PIN

Lock SIM Card to change PIN. See "Enabling SIM PIN" for details.

1

◉ ➡ [Settings] ➡ [Security] ➡ [Advanced settings] ➡ [Set up USIM card lock]

🏁 SIM card lock settings open.

2

[Change SIM PIN] ➡ Enter current PIN ➡ ◉ (Accept) ➡ Enter new PIN ➡ ◉ (Accept) ➡ Re-enter new PIN ➡ ◉ (Accept)

🏁 PIN is changed.

Importing Files from Other Mobiles

Receiving One File at a Time by Infrared

With handset and other device close together, align their infrared ports in a straight line.

· Operation may differ depending on the type of file being received.

1

⊙ ➡ Tools ➡ Infrared

Tools
1 Notepad
2 TV
3 Timer
4 StopWatch
5 World clock
6 Voice Recorder
7 Infrared
8 Pedometer

Infrared window opens.

2

Receive one item ➡ Align infrared ports on handset and sending device ➡ OK

Infrared
communication

Set infrared port to
other phone.

☐ Don't show again

OK

Ready screen appears.

3

Commence sending on other device

File is received.

· If confirmation appears, follow onscreen prompts.

Receiving All Files Together by Infrared

With handset and other device close together, align their infrared ports in a straight line.

· Operation may differ depending on the type of files being received.

1

⊙ ➡ Tools ➡ Infrared

Tools
1 Notepad
2 TV
3 Timer
4 StopWatch
5 World clock
6 Voice Recorder
7 Infrared
8 Pedometer

Infrared window opens.

2

Receive all

Infrared
Receive one item
Receive all
Send one item

3

Enter an authentication code ➡ ⊚ (OK) ➡ Align infrared ports on handset and other device ➡ OK

Infrared
communication

Set infrared port to
other phone.

☐ Don't show again

OK

Ready screen appears.

· Authentication code allows handset to verify transmission with correct device. Enter same code (4 digits) on both devices (code can be anything and is used for only the one transmission).

4

Enter authentication code on other device and commence sending files

5

Enter Operation Password ➡ ⦿

· Follow onscreen prompts to save Operation Password if not saved.

6

Add registration

🏁 Files are saved.

· To delete files on handset before saving new files, select Delete and register . Follow onscreen prompts.
· If confirmation appears, follow onscreen prompts.

Enabling Bluetooth®

1

⦿ ➡ Settings ➡ Bluetooth

🏁 Bluetooth® window opens.

2

Bluetooth (ON)
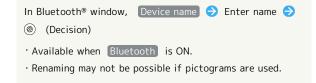

🏁 Bluetooth® is enabled.

· To disable Bluetooth®, select Bluetooth (OFF).

➕ Renaming Handset Name that Appears on Other Devices

In Bluetooth® window, Device name ➡ Enter name ➡ ⊚ (Decision)

· Available when Bluetooth is ON.
· Renaming may not be possible if pictograms are used.

❓ Troubleshooting

Q. Cannot use Bluetooth®

A. Is handset in Airplane mode? Activating Airplane mode disables Bluetooth®.

Pairing with Other Bluetooth® Devices

Pair nearby Bluetooth® devices with handset to transfer files, for handsfree conversations, or to listen to music.

· Enable Bluetooth® on handset and set target devices to be discoverable first.

1

⊙ ➔ Settings ➔ Bluetooth ➔ Pair new device

```
Bluetooth
Bluetooth                          ON
Visible as "NP805SH" to other
devices
PAIRED DEVICES
 +   Pair new device
Device name
NP805SH
Received files
Bluetooth address:
```

🏁 Nearby Bluetooth® devices appear in "AVAILABLE DEVICES."

2

Select device ➔ ⊙ ➔ Follow onscreen prompts for authentication

🏁 Bluetooth® device is paired (handset can connect to some devices (e.g., handsfree devices) again automatically after pairing).

· Authentication procedure varies by device. Passkey entry may be required.
· An authentication passkey is a 1- to 16-character code required between handset and other devices. Passkey can be any combination of digits, characters, and symbols.
· If prompt appears to check that same passkey is shown, check that same passkey is shown on connecting Bluetooth® device.
· Paired devices appear in "PAIRED DEVICES" in Bluetooth® window.

➕ Pairing Operations

Renaming Paired Devices

In Bluetooth® window, select paired device ➔ ◎ (Advanced) ➔ Enter name ➔ ◎ (OK)

· Available when Bluetooth is ON.
· Renaming may not be possible if pictograms are used.

Unpairing Devices

In Bluetooth® window, select paired device ➔ ◎ (Advanced) ➔ ✉ (FORGET)

· Available when Bluetooth is ON.

Connecting to Bluetooth® Devices by Service

In Bluetooth® window, select paired device ➔ ◎ (Advanced) ➔ Select item in "Use for " (☑) ➔ ⊙

· Available when Bluetooth is ON.
· Available when handset is paired with compatible devices.

Connecting Paired Bluetooth® Devices

1

⊙ ➔ Settings ➔ Bluetooth

```
Settings
1  Wallpaper/display
2  Font Settings
3  Sound/vibration
4  Energy saving/battery
5  Wi-Fi
6  Bluetooth
7  Location
8  Quick start key
9  Security
0  Data transfer/reset
```

🏁 Bluetooth® window opens.

· Paired Bluetooth® devices appear in Paired devices field.

2

Select device ➔ ⊙

🏁 Handset connects to the device.

💡 **Accepting Connection Requests**

Handset automatically accepts connection requests from paired devices. For unpaired devices, set handset to be discoverable first; when connection request arrives, follow onscreen prompts.
· If confirmation appears, follow onscreen prompts.

➕ **Disconnecting Devices (e.g., Handsfree Devices)**

In Bluetooth® window, select connected device ➔ ⊙ ➔ OK

Receiving Files (e.g., Address Book)

When file receive request arrives, Bluetooth® arrived file notification appears. To receive files:

1

Bluetooth® arrived file notification appears ➔ ⦿

2

ACCEPT

3

After files are received, in Standby, ⟳ ➔ Select Status Bar ➔ ⦿ ➔ Select share notification ➔ ⦿

· Alternatively, in Standby, view from Information.

4

Select file ➔ ⦿ ➔ Follow onscreen prompts

🏁 File is saved.

· If confirmation appears, follow onscreen prompts.

Opening Files Received by Bluetooth® Transfer

In Bluetooth® window, Received files ➔ Select file ➔ ⦿ ➔ Follow onscreen prompts

Basic Operations

Key Operation

Softkeys

Function/operation labels appear at bottom of Display; see key assignments below.

· Some key assignments may vary with window content.

Main Menu

Using Main Menu

The following functions and services appear in Main Menu.

Item	Description
Mail	Exchange S! Mail, SMS, and PC Mail.
Internet	Access the Internet.
Calendar	Check calendar and manage events.
Alarm	Use alarms.
Camera	Shoot photos or videos, or scan bar codes (QR codes and JAN codes). See "Capturing Photos/Recording Videos" for details.
Calc	Use arithmetic (add, subtract, mulitply, divide) and percent operations.
Tools	Use convenient tools such as Notepad and Timer.
Data	Check photos, videos, music, and other files saved to internal storage/SD Card from Data folder. See "Handling Files (Data Folder)" for details.
Service	Access あんしんバックアップ (Anshin Backup), Urgent News, and other services.
Phone	Address Book, play Answer Phone messages, use Speed Dial, etc.
Profile	Check or edit profile.
Settings	Customize or check handset settings.

1

◉

Main Menu opens.

2

Select item ➡ ⦿

🏁 Function activates/opens.

· Alternatively, Press corresponding Dial Keys (0 わ を ん - 9 ら wxyz , ✱ - @ Aa , # ゛ ゜) to activate/open functions.

· Press クリア バック 回 to go back one screen.

➕ Switching from Tile Display to List Display

⦿ ➡ ⊛ (Change) ➡ List display
Accessing Functions

Different methods are available for accessing functions. Use as convenient.

▎Quick Start Key

Save frequently used phone numbers and favorite functions to a Quick start key for quick access from any screen.

1

Ⅰ / Ⅱ / Ⅲ

🏁 The saved function is activated.

· If no function is saved to Ⅰ / Ⅱ / Ⅲ , prompt to save function appears.
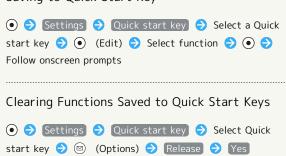

➕ Quick Start Key Operations

Saving to Quick Start Key

⦿ ➡ Settings ➡ Quick start key ➡ Select a Quick start key ➡ ⦿ (Edit) ➡ Select function ➡ ⦿ ➡ Follow onscreen prompts

Clearing Functions Saved to Quick Start Keys

⦿ ➡ Settings ➡ Quick start key ➡ Select Quick start key ➡ ✉ (Options) ➡ Release ➡ Yes

Quick Operation

1

Enter number with Dial Keys (⓪ - ⑨)

🏁 Function corresponding to number opens.

2

Press key shown for function

🏁 Function is activated.

Favorites

Open list of functions saved as favorites.

1

🏁 Favorites window opens.

2

Select function ➡ ⦿

🏁 Function is activated.

➕ Favorites Operations

Saving/Changing Saved Favorites

In Favorites window, select number ➡ ✉ (Options) ➡ Register ➡ Select function ➡ ⦿

· Alternatively, if number appears as "Not registered", select number ➡ ⦿ to save favorite.
· Depending on selected function, options to select appear.

Deleting Functions from Favorites

In Favorites window, select number ➡ ✉ (Options) ➡ Remove ➡ Yes

From Current Function

Open used functions history to access a function. Also toggle Wi-Fi and Bluetooth® on/off.

1

⌷I⌷ (Long Press)

🏁 History opens.

2

Select function ➡ ⊙

🏁 Function opens.

➕ History Operations

Turning Wi-Fi On

In History, 🛜 (🛜)

· 🛜 to turn Wi-Fi off (🛜).

Turning Bluetooth® On

In History, ⚹ (⚹)

· Select ⚹ to turn Bluetooth® off (⚹).

Using Function in App List

In History, ⊚ (App list) ➡ Select function ➡ ⊙

Exiting One Current Function

Select function in History ➡ ✉ (Options) ➡ Delete one

Exiting All Current Functions

In History, ✉ (Options) ➡ Delete all

Pinning Screen

In History, select function to pin ➡ ✉ (Options) ➡ Screen pinning ➡ YES, PLEASE

· Settable when Screen pinning is enabled.

Using Manner Mode

Mute ringtones and other handset sounds to avoid disturbing others around you.

Manner Mode Options

Settable items are the following.

Mode	Description
Standard	Ringtones and other handset sounds are muted; handset vibrates for incoming calls/messages, etc. Sound for music and videos plays back. Answer Phone is enabled when Answer phone setting is Mannermode
Drive	Ringtones and other handset sounds are muted; handset does not vibrate for incoming calls/messages, etc. Answer Phone is enabled, and Answering message setting operates according to Drive .
Silent	Ringtones and other handset sounds are muted; handset does not vibrate for incoming calls/messages, etc. Answer Phone is enabled when Answer phone setting is Mannermode

⚠ Manner Mode Cautions

Behavior during Manner mode is the following.
· Camera shutter sound, video recording tones, etc. still play even in Manner mode.
· Mute alarm from alarm settings.
· Ringtones do not sound from earphones while in Manner mode.

Activating Manner Mode

1

#️⃣ (Long Press)
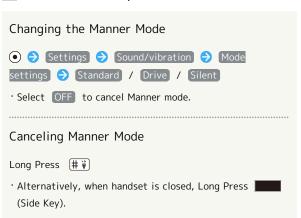

🏁 Manner mode activates.

· When handset is closed, Long Press ▬ (Side Key).
· Standard Manner mode is set by default.

➕ Manner Mode Operations

Changing the Manner Mode

◉ ➜ Settings ➜ Sound/vibration ➜ Mode settings ➜ Standard / Drive / Silent

· Select OFF to cancel Manner mode.

Canceling Manner Mode

Long Press #️⃣

· Alternatively, when handset is closed, Long Press ▬ (Side Key).

Using Airplane Mode

Leaving power on, suspend signal-transmitting functions.

Activating Airplane Mode

1

⏻ (Long Press)

2

Airplane mode

🏁 Airplane mode activates.

➕ Canceling Airplane Mode

Long Press ⏻ ➡ Airplane mode

⚠ Airplane Mode Caution

Activating Airplane mode disables Wi-Fi and Bluetooth®, turning off corresponding transmissions.
Wi-Fi and Bluetooth® connections can be used even in Airplane mode by turning on Wi-Fi and Bluetooth® after activating Airplane mode; make sure that such connection/transmission is allowed in your current location before use.

Other Basic Operations

Checking Your Phone Number

1

⊙ ➡ Profile

🏁 Profile window opens.

· Handset number appears in Own phone number field.

➕ Profile Operations

Editing Profile

In Profile window, ⊚ (Edit) ➡ Select item ➡ ⊙ ➡ Edit information ➡ ⊙ ➡ ⊚ (Save)

· To delete items, select item ➡ ✉ (Delete item) ➡ Yes .
Some items are undeletable.

Sending Profile

In Profile window, ✉ (Options) ➡ Send ➡ Infrared / Bluetooth / Mail ➡ Follow onscreen prompts

Add Prefix to Saved Number and Make Call

In Profile window, ✉ (Options) ➡ Call added special number ➡ Select prefix ➡ ⊙ ➡ 📞

Delete Saved Information

In Profile window, ✉ (Options) ➡ Delete ➡ Yes

· Pre-saved information cannot be deleted.

Capturing Screenshots

Long Press ⏻ and Ⅱ at the same time to capture a screenshot of the current screen.

· May be unavailable for some functions.
· Open captured screenshots from Picture , etc. in Data folder.

Select character type (input mode) ➔
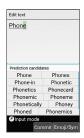

🏁 Character type (input mode) changes.

· Indicator for the character type (input mode) being used appears in Status Bar.

Entering Letters

In 12-key Keyboard, to enter Phone:

· Entry in Half Alphabet is described.

1

In a text entry window, 7₍ₚQRS₎ (once:P) ➔ 4₍GHI₎ (twice:h) ➔ 6₍MNO₎ (three times:o) ➔ ⊙ ➔ 6₍MNO₎ (twice:n) ➔ 3₍DEF₎ (twice:e) ➔ ⊙

🏁 Phone is entered.

Address Book

Save phone numbers and email addresses.
In addition, save birthdays, nicknames and other information.
Set ringtones for incoming calls/messages for each contact.
⚠ Address Book Caution

Contacts may be altered/lost if handset is left uncharged or without a Battery, or due to accidents, malfunctions, repairs, handset upgrade/replacement, mishandling, etc. Back up important contacts and other data regularly. SoftBank Corp. is not liable for any damages resulting from loss/alteration of contacts.

▌ Adding New Contacts

Saving a contact's name, number, email address, and group is described.

1

🔈 ➔ ◉ (Add contact)

🏁 Window for saving new contact opens.

2

Family name / Given name ➔ Enter last/first names

🏁 Reading is entered automatically.

3

Phone number ➔ Enter number

4

Mail ➔ Enter email address

5

Group setting ➔ Select group ➔ ◉ (✓) ➔ ◎ (OK)

· If no group is saved, confirmation appears for adding group. Here, select Yes for window to add group. Enter group name and Press ◎ (Save).

6

◎ (Save)

🏁 Contact is saved.

➕ Operations when Saving Contacts

Saving Type of Number, Email Address, Etc.

In window for saving contact, select type (📞 , etc.) ➔ ◉ ➔ Select type ➔ ◉

Saving Photo

In window for saving contact, face image ➔ Select method ➔ ◉ ➔ Follow onscreen prompts

Setting Phone Ringtone

In window for saving contact, `Ring Set` ➡ `Ringtone`
➡ `Melody` ➡ Select application ➡ ⊙ ➡ Select
ringtone ➡ ⊚ (Set) ➡ ⊚ (Save)

· Select `SHSHOWからダウンロード` (Download from
  SHSHOW) to download ringtones from Sharp's "SHSHOW"
  site. Continue by following onscreen prompts.
· Select ringtone ➡ ⊙ (ON) to play ringtone. Press ⊙
  (OFF) to stop.
· When selecting ringtone, Press ⊙ to toggle preset
  ringtone and ringtone saved in internal storage/SD Card.
· When selecting ringtone, ✉ (Options) ➡ `Sort` to
  change order.
· Setting of ringtone not required if `Default` selected.
  Ringtone sounds according to `Sound/vibration` setting.
· Ringtone sounds for any setting other than `OFF` .

Setting Vibration Pattern for Arriving Call

In window for saving contact, `Ring Set` ➡ `Vibrator`
`Pattern` ➡ Select pattern ➡ ⊚ (Accept) ➡ ⊚
(Save)

· When selecting pattern, Press ⊙ (Check) to make
  handset vibrate.
· When selecting pattern, select `Default` to make
  handset vibrate according to `Sound/vibration` setting.
· Handset vibrates for any setting other than `OFF` .

Setting Pattern/Color of Lamp Blinking for
Arriving Call

In window for saving contact, `Ring Set` ➡ `Illumi`
`pattern/color` ➡ `pattern/color Setting` ➡ Select
pattern ➡ ⊚ (Accept) ➡ Select color ➡ ⊚
(Accept) ➡ ⊚ (Save)

· When selecting pattern/color, Press ⊙ (Check) to make
  Notification Lamp blink.
· Setting of pattern/color not required if `Follow to`
  `settings` selected. Lamp blinks according to `Sound/`
  `vibration` setting.

Saving Birthday

In window for saving contact, select birthday item ➡
⊙ ➡ Select month, day, year ➡ ⊚ (Accept)

Saving Home Address

In window for saving contact, `Postcode` , `Country` ,
`Region` , `City` , and `Street` in Residence field ➡
Enter details

Saving Nickname

In window for saving contact, `Nickname` ➡ Enter
nickname

Saving Place of Work

In window for saving contact, `Company` , `Part` , and
`Post` in Organization field ➡ Enter details

Saving Website

In window for saving contact, `Website` ➡ Enter URL

Saving Memo

In window for saving contact, `Memo` ➡ Enter details

Opening from Other Functions

Entering a recipient from Address Book when sending a message is described.

1

📧 (Long Press) ➡ Select Destination field ➡ ⊙ ➡ Address Book

🏁 Address Book opens.

2

Select contact ➡ ⊙

3

Select mail destination ➡ ⊙

🏁 Destination is entered.

· If only one of either number/mail address is saved for a contact, a selection window does not appear.

Phone

Calling

How to dial directly to make a call and answer a call, as well as options when a call is arriving/during a call are described. (Handset does not support Video Call.)

🏅 VoLTE Compatibility

Handset is compatible with VoLTE and HD Voice for higher-quality voice calls. See "Using VoLTE" and "Using HD Voice" for details.

Answering Calls

1

When call arrives, 📞 / ⦿ (Answer)

🏁 Proceed with call.

2

To end call, ☎

🏁 Call ends.

✚ Arriving Call Operations

Placing Call on Hold

As call is arriving, ☎

· Caller incurs call charges while on hold.
· To answer call, Press 📞 / ⦿ (Answer).
· To end call, Press ☎ .
· Alternatively, as call is arriving, ✉ (Options) ➡ Answer Holding .

Stopping Ringtone, Vibration and Notification Lamp

As call is arriving, ◉ (Silent)

Rejecting Call and Sending SMS Message

As call is arriving, ✉ (Options) ➡ QuickReply ➡ Select message ➡ ⦿

Answering with Answer Phone

As call is arriving, ✉ (Options) ➡ Absence Memo

· To answer phone while Answer Phone message is playing back/being recorded, Press 📞 / ⦿ (Answer).
· While Answer Phone message is being recorded, Press ◉ (Rcv. ON/Rcv. OFF) to switch between the message being audible or not as it is recorded.

Rejecting Call

As call is arriving, ✉ (Options) ➡ Reject

Forwarding Call

As call is arriving, ✉ (Options) ➡ Forwarding

· Set a destination to forward calls to beforehand. See "Call Forwarding" for details.

Placing Calls

1

Dial number

Number is shown (dial window).

· Include area code for landline numbers.
· To correct number, Press [クリア/バック] to delete digit(s), then enter correct number.

2

[📞]

Handset dials the number.

· Call begins when other party answers.
· Alternatively, ⦿ (Call etc) ➡ Call to place call.

3

To end call, [☎]

Call ends.

Emergency Calls

Emergency Location Report

Making emergency calls (110, 119 or 118) automatically reports handset location to corresponding agency (police, etc.). This system is referred to as Emergency Location Report, and notifies location based on positioning from base stations.

· Location Report does not incur registration/transmission fees.
· Location/signal conditions affect positioning accuracy. Always provide location and call purpose.
· Hiding Caller ID (using 184, etc.) cancels Location Report. However, corresponding agency may obtain location information in life threatening situations.
· Location Report is not sent for calls made while outside Japan.

When Making an Emergency Call and Call Barring Is Set

To allow calls to be received from the responding agency, call barring is automatically canceled. After making en emergency call, to reset the canceled call barring setting: ⦿ ➡ Phone ➡ Call settings ➡ Reject call ➡ RESTORE PREVIOUS SETTINGS TO BLOCK CALLS. ➡ Yes

Calling Operations

Showing Address Book

In dial window, ⦿ (Addr.book)

Saving Dialed Number to Address Book

Dial number ➡ ✉ (Menu) ➡ Register to Address Book ➡ Create new contact / Add to existing contact

Window for saving contact appears.
· If Add to existing contact is selected, select contact from Address Book.

Viewing History

In dial window, ✉ (Menu) ➡ Quote to Call log

· Press ⊙ to change between outgoing/incoming call histories.

Appending Number before Dialing

Dial number ➡ ◉ (Call etc) ➡ Add Prefix ➡ Select prefix / Add 2-sec pause / Add wait / International call ➡ Select number to append ➡ 📞

· Select prefix ➡ 非通知 (no caller ID) / 通知 (caller ID) / プラス (plus) to append the respective number.
· Select Add 2-sec pause / Add wait to add a "," (soft pause (2 seconds) / ";" (hard pause).
· International call ➡ Select country calling to ➡ ◉ to append country code.
· Alternatively, dial number ➡ ✉ (Menu) ➡ Add Prefix .

Opening Window for Creating SMS with Dialed Number in Recipient Field

Dial number ➡ ◉ (Call etc) ➡ Create SMS

🏁 Window for creating SMS opens.
· Alternatively, dial number ➡ ✉ (Menu) ➡ Create SMS
.

❓ Troubleshooting

Q. Cannot dial

A. Is the screen locked? Unlock the screen.

A. Is the handset in Airplane mode? Exit Airplane mode.

Q. Call does not connect

A. Did you dial all digits for the number? Dial all digits for numbers starting with a "0" area code, etc.

A. Is the signal weak? Change locations and call again.

⚠ Emergency Call Cautions

Areas Where Usable

Emergency calls can only be made within the SoftBank service area.

Airplane Mode

Emergency calls cannot be placed when handset is in Airplane mode. 📵 (Long Press) ➡ Airplane mode to exit Airplane mode.

▌Dialing from Address Book

1

📞 ➡ 🔘 to change tab searched ➡ Select contact ➡ ◉

🏁 Contact opens.

2

Select number ➡ 📞

🏁 Handset dials number. Call begins when other party answers.

· Alternatively, select number ➡ ◉ (Call etc) ➡ Call to dial. Select Edit and call to edit number before calling.

3

To end call, 📵

🏁 Call ends.

Placing a Call from Rakutomo Links

Save frequently called contacts to Rakutomo Links for quick access.

· Save frequently called contacts to Rakutomo Links beforehand.

1

📱 Rakutomo Link window opens.

2

Select contact number with 💿 ➡ 📞

📱 Handset dials the number.

· Alternatively, Press 1 / 2 / 3 / 4 to select contact number.
· Alternatively, Call to dial number.
· Call begins when other party answers.

3

To end call, 📴
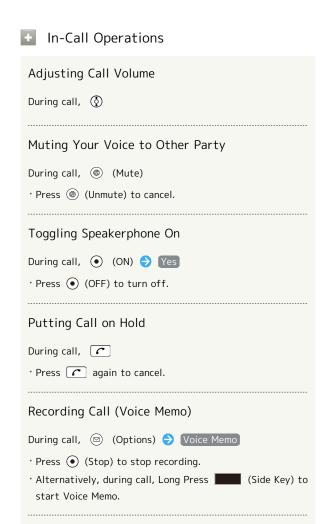

📱 Call ends.

Call Window Layout/In-Call Operation
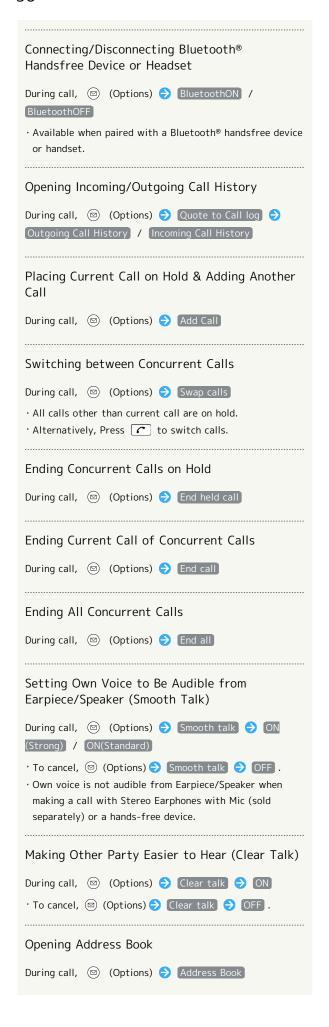

1	Other party name/number
2	Other party photo

Ending Current Call of Concurrent Calls

During call, ✉ (Options) ➡ End call

Ending All Concurrent Calls

During call, ✉ (Options) ➡ End all

Setting Own Voice to Be Audible from Earpiece/Speaker (Smooth Talk)

During call, ✉ (Options) ➡ Smooth talk ➡ ON(Strong) / ON(Standard)

· To cancel, ✉ (Options) ➡ Smooth talk ➡ OFF .
· Own voice is not audible from Earpiece/Speaker when making a call with Stereo Earphones with Mic (sold separately) or a hands-free device.

Making Other Party Easier to Hear (Clear Talk)

During call, ✉ (Options) ➡ Clear talk ➡ ON

· To cancel, ✉ (Options) ➡ Clear talk ➡ OFF .

Opening Address Book

During call, ✉ (Options) ➡ Address Book

Viewing Profile

During call, ✉ (Options) ➡ Quote from profile

Troubleshooting

Q. Difficulty with call
A. It may be difficult to make a call in a location with noise.
A. Check the call volume when using Speakerphone. It may be difficult to make a call with a raised call volume.

Q. The other party cannot hear me
A. Are you covering Mic with your fingers, etc.? Make sure not to cover Mic.
A. Have you muted handset? The other party cannot hear you if handset is muted.

Q. Sound experiences popping during a call
A. Are you moving location during a call? Popping may occur when switching areas for a better signal. This is not a malfunction.

Using VoLTE

VoLTE (Voice over LTE) is a system enabling voice calls over LTE networks. Compared to voice calls over conventional 3G connections, higher-quality voice calls and reduced time until ringtones sound are possible.

- Available when the counterpart model is a VoLTE-compatible model from SoftBank Corp./Y!mobile.
  In addition, it is necessary for both handset and the counterpart model to be within the SoftBank 4G LTE (FDD LTE) service area, with "VoLTE voice call" and "Use 4G" enabled.
- For countries and regions supporting VoLTE international roaming, see "サービスページ (https://www.softbank.jp/mobile/service/global/overseas/volte/)" (Japanese).

🔹 Disabling VoLTE

⊙ ➡ Settings ➡ Network ➡ Mobile network ➡ Enhanced 4G Mode (☐)
- Enhanced 4G Mode to toggle on (✅)/off (☐).

⚠ VoLTE Caution

VoLTE uses 4G network service, and is unavailable when 4G network service is disabled on handset. If VoLTE is unavailable, follow the steps below to check whether 4G network service is enabled (✅).

⊙ ➡ Settings ➡ Network ➡ Mobile network ➡ Preferred network type
- If disabled (◯), select 4G(recommended) to enable (◉).

Using HD Voice

Handset is HD Voice-compatible. HD Voice supports a wide range of audio tones for clearer, more natural-quality voice calls.

- Available when the counterpart model is an HD Voice-compatible model from SoftBank Corp/Y!mobile.
- HD Voice is compatible with VoLTE and 3G network. Use HD Voice with VoLTE for voice calls of even higher quality.

Placing International Calls

Calling to Countries Outside Japan

1

Dial number

2

⊙ (Call etc) ➡ Add Prefix

3

International call

🏁 Country code list opens.

4

Select other-party country ➡ ⊙

- Select Enter code to enter country code manually and place call.

5

📳 Handset dials the number.

6

To end call, 📱

📳 Call ends.
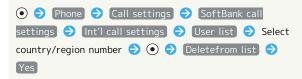

➕ **Operations when Making International Calls**

Entering Country Code Directly to Call

[0わを] (Long Press) (+) ➡ Enter country code ➡ Enter number (excluding initial "0") ➡ 📞

· To call landline phone in Italy, dial the initial "0".
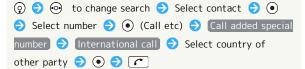

Changing/Adding to Country Code List by Entering Number Directly

⦿ ➡ Phone ➡ Call settings ➡ SoftBank call settings ➡ Int'l call settings ➡ User list ➡ Select country, region, or <Empty> ➡ ⦿ ➡ Entry direct ➡ Enter country name, country code ➡ ⚙ (Accept)

Deleting from Country Code List

⦿ ➡ Phone ➡ Call settings ➡ SoftBank call settings ➡ Int'l call settings ➡ User list ➡ Select country/region number ➡ ⦿ ➡ Delete from list ➡ Yes

Placing an International Call from Address Book

📇 ➡ 📇 to change search ➡ Select contact ➡ ⦿ ➡ Select number ➡ ⦿ (Call etc) ➡ Call added special number ➡ International call ➡ Select country of other party ➡ ⦿ ➡ 📞

Barring Calls

Reject calls from numbers specified beforehand and non-identifying callers, or play a message to reject calls.

Barring Calls from Specified Numbers

1

⦿ ➡ Phone ➡ Call settings ➡ Reject call
2

Specified numbers

📳 Specified number list opens.

3

[Add new] ➡ Use address book / Direct entry
· Direct entry :Enter number.

4

Select contact ➡ ⦿

5

Select number ➡ ⦿
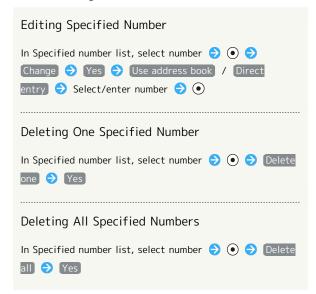

🏁 Number to bar is saved.

➕ Operations when Setting Barring on Incoming Calls

Editing Specified Number

In Specified number list, select number ➡ ⦿ ➡ Change ➡ Yes ➡ Use address book / Direct entry ➡ Select/enter number ➡ ⦿

Deleting One Specified Number

In Specified number list, select number ➡ ⦿ ➡ Delete one ➡ Yes

Deleting All Specified Numbers

In Specified number list, select number ➡ ⦿ ➡ Delete all ➡ Yes

---

Playing Message to Reject Suspicious Calls

1

As call is arriving, 📵

🏁 Message plays for caller. After message plays, caller message is recorded.

· Caller can be heard during recording.
· Press 📞 to hang up. If confirmation appears, follow onscreen prompts.

➕ Operations while Message Playing

Answering Call while Message Playing

While message is playing, 📞

🏁 Call begins.
· Call recording continues. Press ⦿ (Stop) to stop recording during call.
· Recording data is saved in Voice Memo List .

Rejecting Call

While message is playing, 📵

🏁 Call reject message plays for caller, and call ends.

Restricting Calling Destinations

Restrict calls so calls can only be made to contacts saved in Address Book and preset numbers.

Restricting Only to Calls from Address Book

1

⦿ ➔ Phone ➔ Call settings ➔ SoftBank call settings ➔ Call barring

2

Restrict destinations

3

Enter Operation Password ➔ ⦿

· Follow onscreen prompts to save Operation Password if not saved.
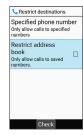

4

Restrict address book (✓)

Restriction is set on calling destinations.

· Restrict address book to toggle on (✓)/off (☐).

Restricting Only to Specified Numbers

1

⊙ ➡ Phone ➡ Call settings ➡ SoftBank call settings ➡ Call barring

2

Restrict destinations

3

Enter Operation Password ➡ ⊙

· Follow onscreen prompts to save Operation Password if not saved.

4

Specified phone number

🏁 Specified phone number window opens.

5

Call permitted list

🏁 Call permitted list opens.

6

<Empty>

7

Enter number ➡ ⊛ (Accept)

🏁 Number is saved to Call permitted list.

· Alternatively, select From address book to enter number from Address Book.

8

[クリア/バック☒] ➡ Switch on/off (☑)
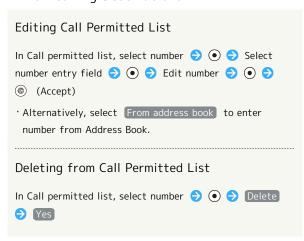

🏁 Restriction is set on calling destinations.

· Switch on/off to toggle on (☑)/off (☐).

➕ Operations when Setting Restrictions on Calling Destinations

Editing Call Permitted List

In Call permitted list, select number ➡ ⊙ ➡ Select number entry field ➡ ⊙ ➡ Edit number ➡ ⊙ ➡ ◉ (Accept)

· Alternatively, select From address book to enter number from Address Book.

Deleting from Call Permitted List

In Call permitted list, select number ➡ ⊙ ➡ Delete ➡ Yes

Optional Services

Optional Services

Use these SoftBank Optional Services:

· Call Forwarding and Voicemail cannot be used at the same time.

Service	Description
Call Forwarding	Divert all/unanswered calls to a preset number.
Voicemail	Divert all/unanswered calls to Voicemail Center; access messages via handset/ touchtone phones.
Call Waiting[1]	Answer calls during a call.
Group Calling[1]	Merge multiple calls.
Notify Caller ID	Send or hide your number when placing calls.
Call Barring	Restrict incoming/outgoing calls by conditions.

1 Requires separate subscription.

Call Forwarding

1

⊙ ➡ Phone ➡ Call settings ➡ Call forwarding

```
Call settings

```

🏁 Notify Caller ID is set.

Call Barring

Restrict outgoing/incoming calls and SMS messages.

· When attempting to place/send a call/SMS while calling is restricted, a message appears. Message may take time to appear in some areas.

Restriction	Description
All outgoing calls	Restrict all outgoing calls.
Bar int'l call	Restrict international calls; while outside Japan, calls within current country are allowed.
Local & home only	Restrict international calls; while outside Japan, calls within current country and to Japan are allowed.
Restrict all incomings	Reject all calls.
Bar if abroad	Reject calls while outside Japan.

1

⊙ ➔ Phone ➔ Call settings ➔ SoftBank call settings ➔ Call barring

🏁 Call barring window opens.

2

Bar outgoing calls / Bar incoming calls ➔ Select restriction ➔ ⊙

3

Restrict

🏁 Call Barring is set.

➕ Canceling All Outgoing/Incoming Call Restrictions

In Call barring window, Bar outgoing calls / Bar incoming calls ➔ Stop all outgoing calls / Stop all incoming calls ➔ Yes

❓ Troubleshooting

Q. Calling is not barred.

A. Are you using Call Forwarding or Voicemail? Calling may not be barred even if All outgoing calls and Restrict all incomings are set.

Global Services

Handset is Global Roaming Service eligible. Use the same handset number outside Japan.

Calling Japan

Abroad Assistant is installed on handset. While outside Japan, follow onscreen prompts to place calls easily according to the country the other party is in.

· Print out roaming area/rate information to carry while traveling abroad as needed.

1

Dial number

· To call landline, enter starting with area code.

2

[📞]

3

Call to Japan

🏁 Handset dials number.

· Call begins when other party answers.

4

To end call, [📞]

🏁 Call ends.

💡 Calling while Outside Japan

Operation depends on wireless signal and current mobile phone settings, and call connections with all countries and regions is not guaranteed.
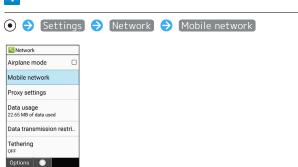

➕ Operations when Calling while Outside Japan

Calls to Landline/Mobile Phone within Country of Stay

Dial number, [📞] ➡ Call to This Number

·······

Disabling Abroad Assistant

◉ ➡ Phone ➡ Call settings ➡ SoftBank call settings ➡ Int'l call settings ➡ Abroad assistant (☐)

· Abroad assistant ➡ ◉ to toggle on (☑)/off (☐).
· If toggled off, all other calls while abroad will be made with the number as dialed.
· Alternatively, dial the number, [📞] ➡ Never ask again (☑).

Phone

Setting a Cellular Provider

Handset connects to appropriate carrier in country of stay automatically by default. To use a specific carrier:

Setting Whether Dial Keys Answer Call

In Call settings, `Any-key answer`

・`Any-key answer` to toggle on (☑)/off (☐).

Setting Whether Other Party Picture Is Shown While Dialing / Call Is Arriving / In Call

In Call settings, `Call display settings` ➔ `Picture of Address Book`

・`Picture of Address Book` to toggle on (☑)/off (☐).

Messaging

Types of Mail

S! Mail

Exchange messages with S! Mail-compatible SoftBank handsets and email compatible devices (other mobiles, PCs, etc.) beyond SMS character entry limit; attach media files.

SMS

Exchange short messages with handset numbers as addresses. By default, send up to 670 double-byte characters to SoftBank/Y!mobile handsets, and up to 70 double-byte characters to other-carrier handsets.
In SMS settings, change Character Encoding Settings
to English(1530char) and send up to 1530 single-byte characters to SoftBank/Y!mobile handsets, and up to 160 single-byte characters to other-carrier handsets.

PC Mail

Use email (POP3 / IMAP4 / Exchange) on handset.

· Set up a PC mail account beforehand.
· Sending/receiving PC mail on handset syncs handset and mail server; sent/received messages (in the POP protocol, received messages only) are also accessible from PCs.

Customizing Handset Address

Changing Address

1

✉ ➔ Settings

2

Mail/address settings

🏁 Handset accesses My SoftBank.

· Follow onscreen prompts.

Saving Address

When handset address is changed, SoftBank Corp. sends new address confirmation to handset.
To save handset address to handset (profile):

· Handset address can be used without saving it to handset.

1

New mail

🏁 Handset address is saved to profile.

Sending S! Mail

Sending S! Mail

1

📧 (Long Press)

🏁 Window for creating S! Mail opens.

2

Select Recipient field ➔ ⦿ (Edit) ➔ `Address Book` / `Send/Receive history` / `Mail Group` / `Profile` / `Direct entry`

· Select `Address Book` / `Send/Receive history` to select a recipient from Address Book/Call History.
· Select `Mail Group` and then a mail group to set all members of the group as recipients.
· Select `Profile` to select a recipient from the profile.
· Select `Direct entry` to enter a recipient manually.

3

Select/enter recipient ➔ ⦿

· To add recipients, select Recipient field ➔ ⦿ ➔ `<Enter destination>` .
· To set a recipient to Cc or Bcc, select Recipient field ➔ ⦿ ➔ Select recipient ➔ 📧 (Options) ➔ `Change to Cc` / `Change to Bcc` . To return a recipient to To, select `Change to To` .
· To delete a recipient, select Recipient field ➔ ⦿ (Edit) ➔ Select recipient ➔ 📧 (Options) ➔ `Delete` ➔ `Yes` .

4

Select Subject field ➔ Enter subject

5

Select Message field ➔ Enter message

· Select Attachment field ➔ ⦿ (Edit) to attach a file. See "Attaching Files" for details.

6

🌐 (Send)
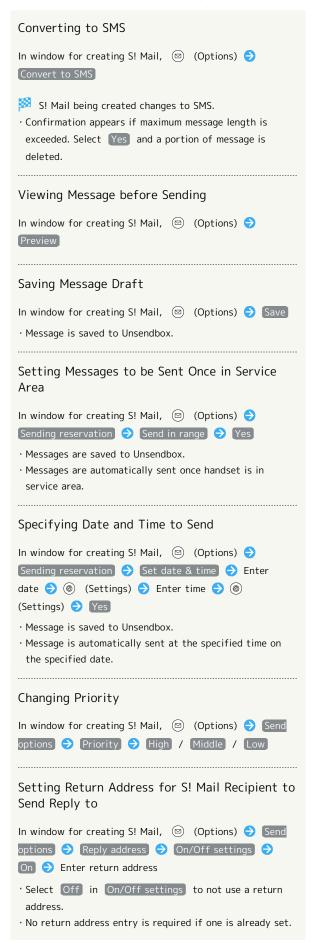

🏁 S! Mail is sent.

· Press ⦿ (Cancel) while message is being sent to stop message from being sent.
· If message could not be sent, it is saved to `Unsendbox` as an unsent message.

💡 Drafts

To save an S! Mail being edited as a draft, クリア/バック ➔ `Yes` while creating the S! Mail.
Drafts are saved to `Unsendbox` . Open an S! Mail draft to continue editing.

⊞ Operations when Creating S! Mail

Converting to SMS

In window for creating S! Mail, ✉ (Options) ➡ `Convert to SMS`

🏁 S! Mail being created changes to SMS.
· Confirmation appears if maximum message length is exceeded. Select `Yes` and a portion of message is deleted.

Viewing Message before Sending

In window for creating S! Mail, ✉ (Options) ➡ `Preview`

Saving Message Draft

In window for creating S! Mail, ✉ (Options) ➡ `Save`
· Message is saved to Unsendbox.

Setting Messages to be Sent Once in Service Area

In window for creating S! Mail, ✉ (Options) ➡ `Sending reservation` ➡ `Send in range` ➡ `Yes`

· Messages are saved to Unsendbox.
· Messages are automatically sent once handset is in service area.

Specifying Date and Time to Send

In window for creating S! Mail, ✉ (Options) ➡ `Sending reservation` ➡ `Set date & time` ➡ Enter date ➡ ⊚ (Settings) ➡ Enter time ➡ ⊚ (Settings) ➡ `Yes`

· Message is saved to Unsendbox.
· Message is automatically sent at the specified time on the specified date.

Changing Priority

In window for creating S! Mail, ✉ (Options) ➡ `Send options` ➡ `Priority` ➡ `High` / `Middle` / `Low`

Setting Return Address for S! Mail Recipient to Send Reply to

In window for creating S! Mail, ✉ (Options) ➡ `Send options` ➡ `Reply address` ➡ `On/Off settings` ➡ `On` ➡ Enter return address

· Select `Off` in `On/Off settings` to not use a return address.
· No return address entry is required if one is already set.

Editing Return Address for S! Mail Recipient to Send Reply to

In window for creating S! Mail, ✉ (Options) ➡ `Send options` ➡ `Reply address` ➡ `Edit address` ➡ Edit address

· Address can be edited if `On/Off settings` is set to `On`.

Setting Whether to Prompt for Delivery Confirmation

In window for creating S! Mail, ✉ (Options) ➡ `Send options` ➡ `Delivery report` ➡ `On` / `Off`

Changing Text Size of Message

In window for creating S! Mail, ✉ (Options) ➡ `Set font size` ➡ `Tiny` / `Small` / `Normal` / `Large` / `Huge`

Viewing Help for How to Copy Text, Etc.

In window for creating S! Mail, ✉ (Options) ➡ `Help (How to copy etc)`

Entering Useful Phrase in Message

In window for creating S! Mail, select Message field ➡ ⊙ ➡ ✉ (Options) ➡ `Phrase` ➡ Select category ➡ ⊙ ➡ Select useful phrase ➡ ⊙

Attaching Files

How to attach an image to S! Mail is described.

・Recipient may not receive attachment depending on recipient's model.

1

⊠ (Long Press) ➔ Select Attachment field ➔ ⦿ (Edit) ➔ Datafolder

・Select Camera to shoot a photo/video with Camera and attach.
・Select User data to attach information from profile, Address Book, or Notepad.
・Select Other to attach recently used information or information from any function.

2

Photo / Picture

3

Select image ➔ ⦿

🏁 File is attached.

4

Enter recipient, subject, and message ➔ ⦿ (Send)
🏁 S! Mail is sent.

・The "(1)" in "Attachment file (1)" in Attachment field indicates the number of attachments.

🔆 Automatic Reduction when Attaching Images

When attaching an image, it may be automatically reduced depending on its size.

➕ Attachment Operations

Viewing Attachment List

After attaching files in window for creating mail, select Attachment field ➔ ⦿

🏁 Attachment list opens.
・Select file in list ➔ ⦿ to view file details.

Adding More Attachments

In attachment list, ⦿ (Add) ➔ Select attachment

Deleting One Attachment

In attachment list, select file ➔ ⊠ (Options) ➔ Delete ➔ Yes

Selecting and Deleting Files

In attachment list, ⊠ (Options) ➔ Delete selected ➔ Select file ➔ ⦿ (✓) ➔ ⦿ (Delete) ➔ Yes
・Select file ➔ ⦿ to toggle select (✓)/cancel (☐).
・With files to delete selected, ⊠ (Options) ➔ Check all / Uncheck all to select (✓)/cancel (☐) all files.

Sending S! Mail from Rakutomo Links

Save frequently sent-to contacts to Rakutomo Links for quick access.

· Save frequently sent-to contacts to Rakutomo Links beforehand.

1

📞

Rakutomo Link window opens.

2

Select contact number with 🔘 ➡ Send mail

· Alternatively, Press 1 / 2 / 3 / 4 to select contact number.

3

Enter subject and message ➡ 🌐 (Send)

S! Mail is sent.

· Select file attachment field ➡ 🔘 (Edit) to attach file. For details, see "Attaching Files."

Sending SMS

⚠ Cautions when Setting Several Destinations

Observe the following when sending SMS to several destinations.
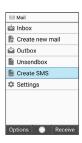

· Destinations cannot be set to To / Cc / Bcc. Note that a charge is incurred per each destination.
· Sent SMS is separated and saved in the Outbox for each destination.
· Any SMS not able to be sent are saved in the Unsendbox for each unsendable destination.
· Other destinations are not visible to receiving parties. Receiving parties cannot view or reply to all other destinations.

Sending SMS

1

✉ ➡ Create SMS
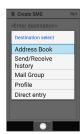

Window for creating SMS opens.

2

Select Recipient field ➡ 🔘 (Edit) ➡ Address Book / Send/Receive history / Mail Groop / Profile / Direct entry

· Select Address Book / Send/Receive history to select a recipient from Address Book/Call History.
· Select Mail Group and then a mail group to set all members of the group as recipients.
· Select Profile to select a recipient from the profile.
· Select Direct entry to enter a recipient manually.

3

Select/enter recipient ➔ ⊙

· To add recipients, select Recipient field ➔ ⊙ ➔ <Enter destination> .

· To delete a recipient, select Recipient field ➔ ⊙ ➔ Select recipient ➔ ✉ (Options) ➔ Delete ➔ Yes .

4

Select Message field ➔ Enter message

5

⊚ (Send)

🏁 SMS is sent.
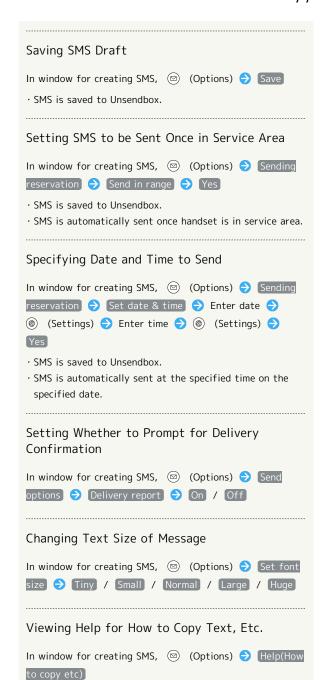

· Any SMS not able to be sent are saved in the Unsendbox as unsent mail.

💡 **If Maximum Sendable SMS Length is Exceeded**

Confirmation appears for converting to S! Mail. To convert, select Yes .

✚ **Operations when Sending SMS**

Converting to S! Mail

In window for creating SMS, ✉ (Options) ➔ Convert to S!Mail

· SMS being created converts to S! Mail.

Saving SMS Draft

In window for creating SMS, ✉ (Options) ➔ Save

· SMS is saved to Unsendbox.

Setting SMS to be Sent Once in Service Area

In window for creating SMS, ✉ (Options) ➔ Sending reservation ➔ Send in range ➔ Yes

· SMS is saved to Unsendbox.
· SMS is automatically sent once handset is in service area.

Specifying Date and Time to Send

In window for creating SMS, ✉ (Options) ➔ Sending reservation ➔ Set date & time ➔ Enter date ➔ ⊚ (Settings) ➔ Enter time ➔ ⊚ (Settings) ➔ Yes

· SMS is saved to Unsendbox.
· SMS is automatically sent at the specified time on the specified date.

Setting Whether to Prompt for Delivery Confirmation

In window for creating SMS, ✉ (Options) ➔ Send options ➔ Delivery report ➔ On / Off

Changing Text Size of Message

In window for creating SMS, ✉ (Options) ➔ Set font size ➔ Tiny / Small / Normal / Large / Huge

Viewing Help for How to Copy Text, Etc.

In window for creating SMS, ✉ (Options) ➔ Help(How to copy etc)

Entering Useful Phrases in Message

In window for creating SMS, select Message field ➔ ⊙ ➔ ✉ (Options) ➔ Phrase ➔ Select category ➔ ⊙ ➔ Select useful phrase ➔ ⊙

Sending SMS from Rakutomo Links

Save frequently sent-to contacts to Rakutomo Links for quick access.

· Save frequently sent-to contacts to Rakutomo Links beforehand.

1

[📞]

Rakutomo Link window opens.

2

Select contact number with ⊙ ➔ Create SMS

· Alternatively, Press [1] / [2] / [3] / [4] to select contact number.

3

Enter message ➔ ⊛ (Send)

SMS is sent.

· Any SMS not able to be sent are saved in the Unsendbox as unsent mail.

Checking/Replying to Mail (S! Mail/SMS)

Handset receives S! Mail/SMS messages automatically by default. Optionally, retrieve messages manually, and also retrieve all messages saved on the server.

💡 S! Mail Reception Cautions

Entire message including attachments are received automatically for mail up to about 3 MB in size (same domestic/abroad). Fees are incurred according to your subscription contract.

· Communication fees may be high while abroad.
· To receive only message previews, and receive entire text only when required, set Mail reception method to Receive-all (only for specific conditions) .

Opening New Messages

S! Mail and SMS are received automatically, and Information and a Notification Indicator appear.

1

New mail

Message opens.

· To view from Notification Indicator, open Notifications Window, and select notification ➔ ⊙ to open message.
· For 2 or more new messages, Message List opens.

➕ Spam

By setting spam mail sorting, mail from senders not in Address Book is saved to Spam mail folder and new mail notification does not appear. To view messages in Spam mail folder:

✉ ➔ Inbox ➔ Spam mail

Opening Messages

1

✉ ➡ Inbox / Outbox

🏁 Inbox/Outbox opens.

2

Select folder ➡ ◉

🏁 Message list opens.

3

Select message ➡ ◉

🏁 Message opens.

Replying to Mail

1

In opened message, ⊛ (Reply)

🏁 Window for creating message opens.

· To reply to a message with several recipients, select Reply to sender / Reply to all .

2

Enter message ➡ ⊛ (Send)

🏁 Mail is sent.

Syncing Accounts Manually

In Message List, ⊛ (Receive)

· Alternatively, in PC Mail window, ✉ (Options) ➡ Receive .

· Sync messages manually at any time regardless of the automatic sync settings.

Internet Services

Using the Internet

Enter search words or a URL to use the Internet.

💡 TLS

TLS (Transport Layer Security) is a protocol for encrypting sent/received data. While in a screen connected by TLS, data is encrypted to safely send/receive private information, credit card numbers, corporate secrets, etc., and provide protection against online threats (eavesdropping, falsification, impersonation, etc.).

❗ TLS Cautions

When opening a secured page, users must decide as their responsibility whether or not to open the page with use of TLS. SoftBank Corp. and the Certification Authorities Symantec Website Security G.K. and Cybertrust make no guarantees whatsoever to users regarding security of TLS.

Accessing Websites

1

⊚

🏁 Show website set to "Homepage."

· If confirmation appears, follow onscreen prompts.

· Alternatively, ⊚ (Long Press) ➡ `Homepage` .

Using Internet Menu

Access the Internet, check browsing history and downloaded data, and make settings from Internet Menu. Internet Menu contains the following items.

Item	Description
Homepage	Show set websites. Set to Yahoo! JAPAN by default.
My SoftBank	Members portal for viewing billing, changing plans and subscription options, changing mail address, setting spam filtering, etc. Also, subscribe/unsubscribe to services, check limited SoftBank bargain campaigns, etc.
Bookmark	Access websites from bookmarks.
URL input/ Web search	Enter URL or search terms to access websites.
History	Access website from browsing history.
Downloads	View information downloaded from websites.
Settings	Make browser settings.

1

⊚ (Long Press)

🏁 Internet Menu opens.

Accessing My SoftBank

1

⊚ (Long Press) ➡ `My SoftBank`

🏁 My SoftBank Website opens.

· If confirmation appears, follow onscreen prompts.

Using History

1

(Long Press) ➡ History

History opens.

2

Select history category ➡ ⦿ ➡ Select history item ➡ ⦿

Browser opens.
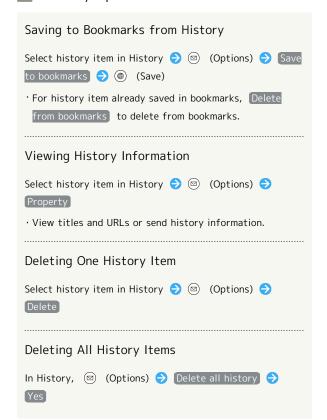

· If confirmation appears, follow onscreen prompts.

History Operations

Saving to Bookmarks from History

Select history item in History ➡ ✉ (Options) ➡ Save to bookmarks ➡ ⦿ (Save)

· For history item already saved in bookmarks, Delete from bookmarks to delete from bookmarks.

Viewing History Information

Select history item in History ➡ ✉ (Options) ➡ Property

· View titles and URLs or send history information.

Deleting One History Item

Select history item in History ➡ ✉ (Options) ➡ Delete

Deleting All History Items

In History, ✉ (Options) ➡ Delete all history ➡ Yes

Entering URLs Directly / Web Search

1

(Long Press) ➡ URL input/Web search

2

Enter URL of website/search words

TV

TV

View One Seg service for mobiles (only in Japan).

⚠ Viewing Environment

Viewing may not be possible where signal reception is poor, such as indoors, underground, and in tunnels. Viewing may be interrupted when moving to where signal reception is poor.
Signal reception depends on where handset is used; viewing may not be possible in some regions. Use where good reception is available.

🚫 Do Not Use while Driving or Walking

Do not use TV while riding a bicycle or motor cycle, driving a car, or while walking.

TV Antenna

TV Antenna is located in the portion of handset with Display. To view TV, open and orient handset in direction with best reception while checking with the onscreen Antenna Indicator.

· Reception is more favorable as more bars appear in the Antenna Indicator.

Widescreen

TV is viewable in widescreen.
Note that key operations change.

Setting Channels (Initial Use)

1

📱 (Long Press)

🏁 Window for creating channel list opens.

· If confirmation appears, follow onscreen prompts.

2

Create by selecting the area

🏁 Area selection window opens.

3

Select area ➡ ⊙ ➡ Select prefecture ➡ ⊙ ➡ Select locality ➡ ⊙

🏁 Channel scan starts. When completed, confirmation appears.

4

◎ (Set)

🏁 Channels are set.

➕ Searching for and Setting Channels

In window for creating channel list, Create by searching channels ➡ ⊚ (Set)

Watching TV

▌ Watching TV

Viewing is described for handset after channels have been set.

1

🔘 (Long Press)

🏁 TV screen (vertical) appears.

2

Press ⓪ to ⑨ , ✳ , # to select channel

🏁 Screen for selected channel appears.

· Press ◉ to switch channels. Long Press ◉ to automatically select a channel with good reception.

➕ Ending TV Viewing

In TV screen, 🔘 ➡ Yes

· Alternatively, in TV screen, ✉ (Options) ➡ Exit TV .

❓ Troubleshooting

Q. Cannot activate TV

A. TV cannot activate on low battery charge. Charge Battery adequately.

Q. Cannot view TV

A. Are reception conditions good? Move to location with good reception.

Data Broadcast (Japanese)

Data broadcast with program information appears at bottom of Display in TV screen (vertical).
Not available in widescreen TV.

Data Broadcast (Japanese)

1

⊠ (Long Press)

2

3

⊙ to select information, ⦿

🏁 Data broadcast information appears.

· If confirmation appears, follow onscreen prompts.

💡 Data Broadcast Fees

Data broadcast information viewing is free; using ensuing Internet services incurs connection fees.

➕ Data Broadcast Operations

Returning to TV Operation

While in data broadcast operation, ⊚ (TV mode)

Refreshing Data Broadcast

While in data broadcast operation, ⊠ (Options) ➡ Reload data broadcasting

Camera/Image Editing

Capturing Photos/Recording Videos

Capture photos and videos in portrait or landscape views. Unless described otherwise, capture in portrait view is described for photos, and in landscape view for videos.

⚠️ Camera Cautions

When Using Camera

Mind etiquette when using Camera.
Before capturing an important scene, take some test shots and view results to ensure the scene will be captured properly.
Do not use Camera where prohibited.
Images taken with camera are intended for personal use, and may not be used or forwarded without the permission of the copyright holder (photo subject), etc.

If Lens Becomes Dirty

Fingerprints/smudges may hinder handset imaging. Clean Lens with a soft cloth beforehand.

Avoid Direct Sunlight Exposure

Do not expose Lens area to direct sunlight for extended periods; may damage color filter, altering images.

Maximum Continuous Shooting Time

Up to 2 GB can be captured continuously for one file. Shooting stops once this size is exceeded. To continue shooting, commence shooting again.

Capturing Photos

1

📷

🏁 Photo Viewfinder opens.

2

Aim Camera at subject

· Press 🔘 to adjust brightness.
· Press 🔘 to zoom in or out.
· Press 🔘 (Focus) to lock focus.
· Press 🔘 (Video) to switch to video capture.

3

🔘 (Shutter)

🏁 Shutter clicks and photo is saved.

➕ Showing/Hiding Settings Icons

In Photo Viewfinder, ✳️
· Press ✳️ to toggle show/hide.

❓ Troubleshooting

Q. Cannot activate Camera / Camera exits suddenly

A. Camera cannot activate on low battery charge. Charge Battery adequately.

A. If handset has reached a high temperature with use, Camera exits automatically after showing an alert and saving captured data.

A. Camera exits automatically after a period of inactivity.

Q. Images are dark/grainy

A. Is there a strong light near the subject, or a strong light source in the screen? Avoid letting a strong light source (the sun, light, etc.) in the screen. Leaving handset in a warm place for a long time or where Camera is in direct sunlight for a long time may affect image quality.

Recording Videos

1

▣ ➡ ▣ (Video)

🏁 Video Viewfinder opens.

2

Aim Camera at subject ➡ ⊙ (Start)

🏁 Tone sounds and recording starts.

· Press ⊙ to adjust brightness.
· Press ⊙ to zoom in or out.
· Press ▣ (StillCam) to switch to photo capture.
· Press ✉ (Shutter) during video recording to capture a photo.

3

⊙ (Stop)

🏁 Tone sounds and video is saved.

➕ Showing/Hiding Settings Icons

In Video Viewfinder, ✳

· Press ✳ to toggle show/hide.

？ Troubleshooting

Q. Cannot activate Camera / Camera exits suddenly

A. Camera cannot activate on low battery charge. Charge Battery adequately.

A. If handset has reached a high temperature with use, Camera exits automatically after showing an alert and saving captured data.

A. Camera exits automatically after a period of inactivity.

Handling Files

Handling Files (Data Folder)

Handset files are managed in Data folder. Files created with functions or received with mail or from the Internet are automatically saved to the appropriate folder.

Data Folder

The following folder types appear in Data folder.

Folder type	Files contained
Photo	Photos captured with handset Camera.
Picture	Pictograms and other image files.
Music	Music and effects sounds. See "Music Files" for details on playing back music.
Movie	Videos recorded with handset Camera and other video files. See "Viewing Videos" for details on playing back videos.
Doc.	Text and other document files.
Others	Other types of files. Address Book, Notepad, and other files received with Bluetooth®, etc.
User Folder	User folders.

Checking Files

1

⦿ ➡ Data

🏁 Data folder opens.

2

Select folder type ➡ ⦿

🏁 File list opens.

· When User Folder is selected, continue by selecting folder ➡ ⦿ (Open).

3

Select file ➡ ⦿ (View)

🏁 File opens (plays back).

· If confirmation appears, follow onscreen prompts.

➕ Data Folder Operations

Deleting User Folders

In Datafolder window, User Folder ➔ Select user

folder ➔ ✉ (Options) ➔ Delete folder ➔ Yes

· Files in user folder are also deleted.

Connectivity & File Backup

Using Infrared Transmission

Exchange files (contacts, Notepad, profile, photos, videos, music, etc.) with mobile phones and other devices by infrared.

💡 Infrared Transmission Version

Handset infrared transmission conforms to IrMC version 1.1.

❓ Troubleshooting

Q. Cannot exchange files

A. Are the infrared ports aligned? Make sure there are no objects between the ports while transmitting. Do not move the ports until files are received.

⚠️ Infrared Transmission Notes

It may not be possible to use infrared transmission or to transmit properly depending on the other device or on the files. Another function activating during transmission will also cause transmission to end.

🚫 Do Not Point Infrared Port at Eyes

Do not point infrared port at eyes while transmitting. May affect vision.

Receiving Files

See "Receiving One File at a Time by Infrared" and "Receiving All Files Together by Infrared" for details.

Sending Profile (Phone Number, Etc.)

With handset and other device close together, align their infrared ports in a straight line.

· Also send image and music files (operation may differ depending on the type of file being received).

Using Bluetooth®

Connect handset to other Bluetooth® devices (e.g., headset) for handsfree conversations, or connect to other Bluetooth®-capable mobile phones, etc. to exchange files.

Bluetooth®

The Bluetooth® function is a technology that enables wireless connection with Bluetooth®-compatible PCs, handsfree devices, etc. Bluetooth® enables the following.

Function	Description
Sound output	Listen to music, etc. wirelessly.
Handsfree conversations	Use Bluetooth® devices (e.g., headsets) for handsfree conversations.
File transfer	Transfer files between handset and Bluetooth® devices.

Bluetooth® Cautions

Connection

Bluetooth® connection may not be possible with some Bluetooth® devices. In addition, noise may interfere with wireless or handsfree conversations.

File Transfer

Files may not appear correctly on recipient devices.

Receiving Files by Bluetooth®

See "Enabling Bluetooth®," "Pairing with Other Bluetooth® Devices," "Connecting Paired Bluetooth® Devices," and "Receiving Files (e.g., Address Book)" for details.

Connecting by Wi-Fi

Handset supports Wi-Fi (wireless LAN). Access the Internet via household Wi-Fi networks.

Wi-Fi

Available in the following environments.

Environment	Description
At home	Connect handset to your Wi-Fi home network. If you have a broadband connection at home but do not have a Wi-Fi router, consider using a Wi-Fi router by FON offered by SoftBank Corp.For Wi-Fi router (manufactured by FON) users, see SoftBank Website for details. https://www.softbank.jp/mobile/support/fon/ (Japanese)
On the go	SoftBank Wi-Fi spots offered by SoftBank Corp. are available.

💡 **Automatic Updates for Optimizing Wi-Fi Connection**

While using Wi-Fi, updates for optimizing connection may be received or applied automatically.
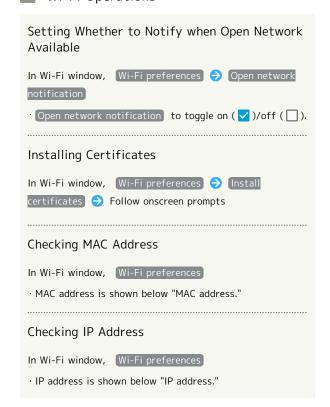

Selecting and Connecting to an Access Point

Enable handset Wi-Fi settings first.

1

⊙ ➔ Settings ➔ Wi-Fi

```
Settings
1 Wallpaper/display
2 Font Settings
3 Sound/vibration
4 Energy saving/battery
5 Wi-Fi
6 Bluetooth
7 Location
8 Quick start key

0 Data transfer/reset
```

🏁 Wi-Fi window opens.

2

Select access point ➔ ⊙

```
Wi-Fi
Wi-Fi                    ON
▼ XXXXXXXXXX          🔒
▽ XXXXXXXXXX          🔒
▽ XXXXXXXXXX          🔒
+ Add network
Wi-Fi preferences
```

3

Enter password ➔ ⊙ ➔ Connect

```
Wi-Fi
Wi-Fi                    ON
XXXXXXXXXX
Password
••••••••
☐ Show password
Advanced options
        Connect
Wi-Fi preferences
```

🏁 Handset connects to access point.

· Password (indicated by WEP, WPA, KEY, etc.) may be found on a label on your Wi-Fi router. For details, contact the vendor of the router. For public wireless LAN services, check the password with your ISP.
· Depending on access point, password entry may not be required.

➕ Wi-Fi Connection Operations

Connecting Access Points Manually

In Wi-Fi window, Add network ➔ Enter network SSID ➔ Select Security field ➔ ⊙ ➔ Select security protocol ➔ ⊙ ➔ Select Password field ➔ ⊙ ➔ Enter password ➔ Save

· Available when Wi-Fi settings are enabled.
· Depending on security protocol, other fields may also need to be completed.

Connecting Using WPS

In Wi-Fi window, Wi-Fi preferences ➔ WPS Push Button ➔ Follow onscreen prompts

· Available when Wi-Fi settings are enabled.
· To connect using the PIN method, in Wi-Fi window, Wi-Fi preferences ➔ WPS Pin Entry , then follow onscreen prompts.

❓ Troubleshooting

Q. Cannot detect access points

A. There may be multiple access points using neighboring channels. In this instance, handset may not detect access points correctly.

Disconnecting Wi-Fi

1

⊙ ➔ Settings ➔ Wi-Fi

❖ Wi-Fi window opens.

2

Select connected access point ➔ ⊙ ➔ Forget settings

❖ Wi-Fi is disconnected.

· Password entry may be required to reconnect to access point.

Using Wi-Fi Direct

Use Wi-Fi Direct to establish a Wi-Fi connection with other Wi-Fi Direct-compatible devices with no need for an access point or Internet connection.

· Enable handset Wi-Fi settings first.

1

⊙ ➔ Settings ➔ Wi-Fi

❖ Wi-Fi window opens.

2

Wi-Fi preferences ➔ Wi-Fi Direct

❖ Found Wi-Fi Direct-compatible devices appear in Peer devices field.

· If target device does not appear, select ✉ (Options) ➔ Searching... to try searching again.

3

Select target device ➔ ⊙ ➔ Follow onscreen prompts for authentication

❖ Handset connects to device.

· If connection is not accepted after certain period, connection request is canceled.
· To stop connection, select connected device ➔ ⊙ ➔ OK .

Using the Tethering Function

Tethering Function

Tethering makes handset act as an external modem (like a Wi-Fi router).
Use tethering to connect a PC or game device to the Internet through handset.

· Requires separate subscription.
· Use after confirming that handset is updated to the latest software.

Setting Tethering

When using tethering, several methods are available for connecting handset with other devices.
Make settings according to connection method and status of target device beforehand.
Settable items are the following.

Item	Description
USB tethering	Set whether to enable tethering via Micro USB Cable.
Wi-Fi tethering	Set whether to enable tethering via Wi-Fi.
Set up Wi-Fi hotspot	Set information such as network name and security for Wi-Fi tethering.
Bluetooth tethering	Set whether to enable tethering via Bluetooth®.

1

⊙ ➡ Service ➡ Tethering

🏁 Tethering window opens.

2

Set each item

🏁 Setting is complete.

· If confirmation appears, follow onscreen prompts.

Backup

Basics

Available backup methods are the following.

Method	Description
Data transfer	Import SD Card files saved with another device or with handset, or save (back up) handset files to SD Card. See "Using Data Transfer" for details.
あんしんバックアップ (Anshin Backup)	Using a dedicated function, save (back up) handset files to a networked server or to SD Card, and reimport them.
Connection with a PC, etc.	Connect handset with a PC, etc. via Micro USB Cable (optional accessory) to transfer files.

Using Data Transfer

⚠ Data Transfer Cautions

Importing Files

File import requires adequate space in internal storage. Process stops if Battery runs low. Charge adequately before transferring files.

Saving Files

Internal storage requires at least 11 MB of free space. Process stops if Battery runs low. Charge adequately before saving files.

Importing Files from SD Card

Import SD Card files saved with another device or with handset (contacts, messages, schedule, Notepad, User/Learning dictionary).

- Insert SD Card containing backup file beforehand.
- Contacts may not be imported correctly depending on the device used for saving them.

1

`⦿` ➔ `Settings` ➔ `Data transfer/reset` ➔ `Data transfer`

🏁 Data transfer/Save window opens.

- In Data transfer/Save window, `Preparation to import` to check how to prepare for transfer on the old device.

2

`Start` ➔ `Other mobile phone` / `From smartphone`

3

`SD card` ➔ `⦿` (Start)

4

`Select items` ➔ `⦿` (✓) ➔ `Select files` ➔ `⦿` ➔ `◉` (Add)

5

`Yes`
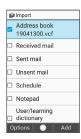

🏁 Import starts.

- If confirmation appears, follow onscreen prompts.

6

`⦿`

🏁 Files are imported.

⚠ User Dictionary/Learning Dictionary Import Caution

When importing User/Learning dictionary (SH Input), existing User/Learning dictionary (SH Input) files in internal storage will be deleted.

Importing by Infrared

With handset and other device close together, align their infrared ports in a straight line.

· Operation may differ depending on the type of files being received.

1

⊙ ➡ Settings ➡ Data transfer/reset ➡ Data transfer

🏁 Data transfer/Save window opens.

· In Data transfer/Save window, Preparation to import to check how to prepare for transfer on the old device.

2

Start ➡ Other mobile phone

3

Infrared ➡ ⊙ (Start)

4

Enter an authentication code ➡ ⊛ (OK) ➡ Align infrared ports on handset and sending device ➡ OK

🏁 Ready screen appears.

· Authentication code allows handset to verify transmission with correct device. Enter same code (4 digits) on both devices (code can be anything and is used for only the one transmission).

5

Enter authentication code on other device and commence sending files

6

Enter Operation Password ➡ ⊙

· Follow onscreen prompts to save Operation Password if not saved.

7

Add registration

🏁 Files are saved.
· To delete files on handset before saving new files, Delete and register . Follow onscreen prompts.
· If confirmation appears, follow onscreen prompts.

Importing Contacts via Bluetooth®

1

⊙ ➡ Settings ➡ Data transfer/reset ➡ Data transfer

🏁 Data transfer/Save window opens.

· In Data transfer/Save window, Preparation to import to check how to prepare for transfer on the old device.

2

Start ➡ From smartphone

3

Via Bluetooth ➡ ⊙ (Next) ➡ ⊙ (Next) ➡ Select device to import from ➡ ⊙

4

⊙ (Start)

🏁 Address Book import begins.

· If pairing request appears, follow onscreen prompts.

5

⊙ (Next)

6

Add registration

🏁 Contacts are saved.

· To delete files on handset before saving new files, Delete before registration . Follow onscreen prompts.
· If confirmation appears, follow onscreen prompts.

Connectivity & File Backup

AQUOS ケータイ3

Saving Files to SD Card

Save contacts, mail, schedule, Notepad, or User/Learning dictionary items saved to handset to SD Card.
· Insert SD Card beforehand. See "Inserting SD Card" for details.

1

⊙ ➡ Settings ➡ Data transfer/reset ➡ Data transfer

🏁 Data transfer/Save window opens.

· In Data transfer/Save window, Preparation to import to check how to prepare for transfer on the old device.

2

Start ➡ Save data

🏁

3

Select files ➡ ⊙ (☑) ➡ ⊛ (Save)
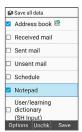

· Select data ➡ ⊙ to toggle select (☑)/cancel (☐).
· ✉ (Options) ➡ Check all / Uncheck all to select (☑)/ deselect (☐) all data.
· To select same items as previous backup, ✉ (Options) ➡ Check items selected last time .
· If confirmation appears, follow onscreen prompts.

4

Yes

🏁 Save starts.

5

⊙

🏁 Files are saved.

Security Settings

▍ Security Settings
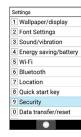

Make security settings including Screen lock and security codes. Settable items are the following.

Item	Description
Operation password setting	Set Operation Password for using functions. See "Setting Operation Password" for details.
Screen lock	Set method for unlocking screen.
Restrict launching apps	Set whether to restrict use on some functions.
Function Control[1]	Check which functions have usage restricted.
Advanced settings	Set whether to require PIN when handset powered on to allow operation, and make settings for credential storage. For details on SIM card lock settings, see "Enabling SIM PIN."

1 Service for corporate customers. Requires separate subscription.

1

⦿ ➔ `Settings` ➔ `Security`

🏁 Security window opens.

2

Set each item
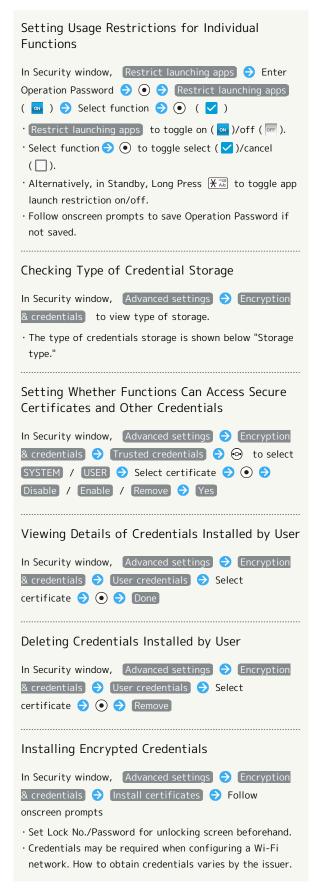

🏁 Setting is complete.

⊞ Security Operations

Setting Usage Restrictions for Individual Functions

In Security window, `Restrict launching apps` ➜ Enter Operation Password ➜ ⊙ ➜ `Restrict launching apps` (`ON`) ➜ Select function ➜ ⊙ (☑)

· `Restrict launching apps` to toggle on (`ON`)/off (`OFF`).
· Select function ➜ ⊙ to toggle select (☑)/cancel (☐).
· Alternatively, in Standby, Long Press `✳️` to toggle app launch restriction on/off.
· Follow onscreen prompts to save Operation Password if not saved.

Checking Type of Credential Storage

In Security window, `Advanced settings` ➜ `Encryption & credentials` to view type of storage.

· The type of credentials storage is shown below "Storage type."

Setting Whether Functions Can Access Secure Certificates and Other Credentials

In Security window, `Advanced settings` ➜ `Encryption & credentials` ➜ `Trusted credentials` ➜ ⊙ to select `SYSTEM` / `USER` ➜ Select certificate ➜ ⊙ ➜ `Disable` / `Enable` / `Remove` ➜ `Yes`

Viewing Details of Credentials Installed by User

In Security window, `Advanced settings` ➜ `Encryption & credentials` ➜ `User credentials` ➜ Select certificate ➜ ⊙ ➜ `Done`

Deleting Credentials Installed by User

In Security window, `Advanced settings` ➜ `Encryption & credentials` ➜ `User credentials` ➜ Select certificate ➜ ⊙ ➜ `Remove`

Installing Encrypted Credentials

In Security window, `Advanced settings` ➜ `Encryption & credentials` ➜ `Install certificates` ➜ Follow onscreen prompts

· Set Lock No./Password for unlocking screen beforehand.
· Credentials may be required when configuring a Wi-Fi network. How to obtain credentials varies by the issuer.

Deleting All Credentials and Resetting Password for Credential Storage

In Security window, `Advanced settings` ➜ `Encryption & credentials` ➜ `Clear credentials` ➜ `Yes`

· Clearing credential storage also deletes all VPN settings.
· If method for unlocking screen is `Lock No.` or `Password` , first Tap `Yes` and unlock screen.

Setting Restriction so That Only Specified Functions Can Be Used

In Security window, `Advanced settings` ➜ `Screen pinning` ➜ `Screen pinning` (`ON`) ➜ Activate function to allow ➜ `I` (Long Press) ➜ ✉ (Options) ➜ `Screen pinning` ➜ `YES, PLEASE`

· Checkmark `Authentication when unpinning` (☑) to require entry of lock no./password to unlock screen.
· Long Press `クリア/バック🔒` and `II` at same time to unlock screen.

Requiring Screen to Be Unlocked after Screen of Only Specified Application No Longer Kept in View

In Security window, `Advanced settings` ➜ `Screen pinning` ➜ `Authentication when unpinning` (☑) ➜ `Lock No.` / `Password` ➜ Set Lock No./Password

· Set "Screen pinning" to ON beforehand.
· `Authentication when unpinning` to toggle on (☑)/off (☐).

Setting Which Functions Can Access Function History Information

In Security window, `Advanced settings` ➜ `Apps with usage access` ➜ Follow onscreen prompts

Data Transfer/Reset Settings

Data Transfer/Reset Settings

Settable items are the following.

➕ Data Usage Operations

Setting Data Saver

In Data usage window, `Data saver` ➡ `Data saver` (🔛)

· `Data saver` to toggle on (🔛)/off (OFF).

Setting Whether to Exclude Application(s) from Data Saver

In Data usage window, `Data saver` ➡ `Unrestricted data` ➡ Select application name ➡ ◉

· Select application name ➡ ◉ to toggle select (☑)/ cancel (☐).

Setting Whether to Use Mobile Data

In Data usage window, `Mobile data`

· `Mobile data` to toggle on (☑)/off (☐).

· If confirmation appears, follow onscreen prompts.

Setting Whether to Permit Restriction on Use of Data when Data Saver Set

In Data usage window, `Mobile data usage` ➡ Select application name ➡ ◉ ➡ `Unrestricted data usage`

· `Unrestricted data usage` to toggle on (☑)/off (☐).

Setting Whether to Alert User when Mobile Data Usage Reaches Alert Amount

In Data usage window, `Billing cycle` ➡ `Set data warning`

· `Set data warning` to toggle on (☑)/off (☐).

· When data usage reaches the alert amount, ⚠ appears on Status Bar.

Enabling/Disabling Restriction on Use of Mobile Data

In Data usage window, `Billing cycle` ➡ `Set data limit`

· `Set data limit` to toggle on (☑)/off (☐).

· If confirmation appears, follow onscreen prompts.

· When data usage reaches the upper limit, notification indicating that mobile data communication is disabled appears. Follow onscreen prompts.

Viewing Data Usage with Wi-Fi

In Data usage window, `Wi-Fi data usage`

Setting Restriction on Metered Wi-Fi Network

In Data usage window, `Network restrictions` ➡ Select item ➡ ◉ ➡ `Automatic` / `Metered` / `Not metered`

· ✉ (Options) ➔ Check all / Uncheck all to select (☑)/deselect (☐) all items.

Settings in Common

AQUOS ケータイ3

5

Follow onscreen prompts

🏁 Diagnostic results appears.

· Select result ➡ ⦿ to open result window.

➕ **Self Check Operations**

Opening Self Check Diagnostic History

In Self check window, select history event ➡ ⦿ ➡ Follow onscreen prompts

Selecting and Deleting Self Check History Events

In Self check window, ✉ (Options) ➡ Delete history ➡ Select history event ➡ ⦿ (✅) ➡ ◎ (Delete) ➡ Yes

· Select history event ➡ ⦿ to toggle select (✅)/cancel (☐).

· When selecting history event, ✉ (Delete history) ➡ Check all / Uncheck all to select (✅)/deselect (☐) all events.

Rebooting in Safe Mode

In Self check window, ✉ (Options) ➡ Safe mode ➡ OK

· Handset reboots in state close to its default state.

Exiting Safe Mode and Restarting Handset

In Self check window, ✉ (Options) ➡ Reboot ➡ OK

Showing Advice regarding Increase in Handset Temperature

In Self check window, ✉ (Options) ➡ Temperature advice ➡ Follow onscreen prompts

Checking Version of Self Check Application

In Self check window, ✉ (Options) ➡ Application info

▌ **Storage Settings**

Check internal storage and SD Card memory space, mount or unmount SD Card, erase SD Card files, and use other options. Settable items are the following.

· Items appearing depend on state of SD Card.

Item	Description
Internal shared storage	View information on internal storage usage.
SD card	Check data saved on SD Card. Mount or unmount SD Card, encrypt SD Card, etc. For details on erasing SD Card data, see "Formatting SD Card."

1

⦿ ➡ Settings ➡ Other settings

🏁 Other settings open.

2

Storage

🏁 Storage window opens.

3

Set each item

🏁 Setting is complete.

⊞ Storage Operations

Unmounting SD Card

In Storage window, `SD card` ➡ `SD card` ➡ ✉ (Options) ➡ `Storage settings` ➡ `Eject` ➡ `Yes`

Mounting SD Card

In Storage window, `SD card` ➡ `Mount`

Encrypting/Decrypting Files on SD Card

In Storage window, `SD card` ➡ `SD card` ➡ ✉ (Options) ➡ `Storage settings` ➡ `Encrypt` / `Release` ➡ `Confirm` ➡ Enter Operation Password ➡ ⊙ ➡ `Start`

· Set lock no./password for unlocking screen beforehand.
· Follow onscreen prompts to save Operation Password if not saved.

⚠ SD Card Encryption/Decryption Cautions

Observe the following when encrypting/decrypting SD Card files.
· Charge handset adequately beforehand, and keep handset charged during the process.
· Set lock no./password for unlocking screen beforehand.
· Encryption/decryption is not possible if there is not enough free space on SD Card.
· Encrypted SD Card cannot be used on any device other than the one used for encrypting the SD Card.
· To use encrypted SD Card normally, decrypt SD Card.
· If you perform Reset All with SD Card encrypted, files on the SD Card will be unusable. Decrypt files before performing Reset All.
· SD Card installed in a device that has been used for encrypting another unencrypted SD Card is handled as a read-only card.
· To write to a read-only SD Card, first encrypt it.
· SD Card encryption/decryption may take some time. Do not stop charging during the process. If the process is interrupted, SD Card files may be lost.

Appendix

Updating Software

Software Updates

At specified time, handset automatically checks for and downloads firmware updates as required.

· Software Update cannot be performed if other applications are in use.
· Alternatively, update software manually.

⚠ Software Update Cautions

Applications

New applications may be updated or added, or names, icons, operation, and user interfaces may be changed.

During Update

Handset cannot be used until Software Update completes; it may take some time to complete.

Data Backup

Saved data may be lost depending on condition of handset (malfunctioning, damaged, water exposure, etc.). It is recommended that you back up important data before updating software. SoftBank Corp. is not responsible for damages from loss of data.

Updating Software Manually

Operate handset where signal reception is good and without changing location. Also operate with adequate battery charge. Signal becoming weak or Battery becoming low during an update may cause an update failure.

· Remove Micro USB Cable (optional accessory) from handset beforehand; otherwise, Software Update may not complete properly.
· An update failure may disable handset.

1

◉ ➔ Settings ➔ Other settings ➔ About phone

2

Software update

🏁 Software update window opens.

3

Software update ➔ Yes ➔ Follow onscreen prompts

🏁 Software Update starts.

➕ Software Update Operations

Setting Whether to Update Software Automatically

· Automatically update to toggle on (ON)/off (OFF).

Changing Start Time for Automatic Update

In software update window, Update Schedule Settings ➔ Select time ➔ ◎ (Done) ➔ OK

Troubleshooting

▌ Check Here First

If symptoms continue even after checking, contact a nearby SoftBank Shop or SoftBank Customer Support.

? Troubleshooting

Q. Handset does not power on

A. Are you Long Pressing [⏻] ? Press [⏻] until the logo appears.

A. Is handset recharged? Recharge handset if not charged.

A. Did you continue to use handset while warm before it powered off? Try powering handset on after it cools down.

Q. Handset suddenly powers off / does not power on

A. If handset continues to be used while warm, an alert appears and handset powers off after approximately 3 minutes. Exit all functions and turn Display off to cool handset.

Q. Handset freezes / operation is unstable

A. If handset stops operating or no longer accepts input, force-shut down handset.

　[⏻] (Long Press for at least 8 seconds)

　・Release finger within 2 seconds after handset vibrates and handset powers off.

Q. Cannot use Phone, mail, or Internet

A. Check whether you are where signal is weak or are out of service area. If problem persists, power on handset again.

A. Is handset in Airplane mode? ✈ appears in Status Bar. To exit Airplane mode:

　[⏻] (Long Press) ➡ Airplane mode

A. Is Mobile data disabled? To check whether Mobile data is enabled:

　◉ ➡ Settings ➡ Network ➡ Mobile network ➡ Mobile data (☑)

A. Is a disabled access point set? To return to initial settings:

　◉ ➡ Settings ➡ Network ➡ Mobile network ➡ Access Point Names ➡ ✉ (Options) ➡ Reset to default

Q. Battery level goes down quickly

A. Are you where signal is weak or have been out of service area for a long period? Calling where signal is weak or being out of service area uses a lot of battery.

A. The following shorten handset usage time:sound-emitting functions/ operations, frequent communication, brightening Display, setting a long Display-on time. Use Energy saving settings to reduce unneeded battery consumption. See "Energy Saving and Battery Settings" for details.

Q. Cannot charge / charging takes time

A. Is Micro USB plug on AC Charger firmly inserted in handset? Remove and then reinsert firmly.

A. Is AC Charger firmly plugged into an outlet? Unplug and plug in again firmly.

A. Are you using a non-specified AC Charger? Always use a specified product. Using an unspecified product not only prevents charging, but may also affect Battery.

A. Is Notification Lamp blinking? If blinking, handset is not being charged. Use a specified charger and charge handset.
If charging is still not possible, contact SoftBank Customer Support or a SoftBank Shop.

A. Is Micro USB plug on AC Charger soiled? Clean terminals with a clean, dry cotton swab, etc. before charging.

A. Are you recharging by USB? Recharging by USB takes longer than with AC Charger. You may also not be able to recharge depending on the connection environment.

Q. Recharging stops

A. Recharging stops automatically if handset becomes warm. Recharging starts again once handset cools down.

Q. SIM Card is not recognized

A. Is SIM Card installed properly? Is it installed in the right location and orientation? Turn off handset, check whether SIM Card is installed properly, and then turn handset on again. If this does not remedy the problem, SIM Card may be damaged.

A. Are there any finger prints, etc. or other soiling on the (gold) IC chip on SIM Card? Remove SIM Card, wipe with a clean, dry cloth, and install it again properly.

A. Is wrong SIM card installed? An unusable SIM Card may be installed. Make sure that the right SIM Card is installed.

Q. Cannot recharge by USB

A. Is the computer turned on? You cannot recharge if the computer is not turned on.

A. Are you using a USB hub? You may not be able to recharge if using a USB hub. Connect the optional Micro USB Cable to the computer.

Appendix

AQUOS ケータイ3

Q. Cannot make a call / calls do not connect

A. Is Airplane mode set? ✈ appears in Status Bar. To exit Airplane mode:

☎ (Long Press) ➡ Airplane mode

A. Did you dial all digits for the number? Dial all digits for numbers starting with a "0" area code, etc.

A. Are you where handset receives a signal? Check signal, change locations and call again.

Q. Cannot hear the other party

A. Is the call volume low? To turn the call volume up, Press ⓐ during a call.

Specifications

AQUOS ケータイ(Keitai) 3

Handset specifications are as follows.

· Times in the table vary with location, status, settings, etc.
· Display employs precision technology; however, some pixels may remain on/off.

Item	Description
Dimensions (W × H × D)	Approx. 51 × 115 × 17 mm (handset closed, without protruding parts)
Weight	Handset:Approx. 92 g Battery installed:Approx. 123 g
Maximum Output	3G:0.25 W GSM (900 MHz): 2 W GSM (1800 MHz,1900 MHz): 1 W 4G:0.2 W
Continuous Talk Time[1]	3G:Approx. 870 minutes GSM:Approx. 480 minutes VoLTE[2]:Approx. 750 minutes
Continuous Standby Time[3]	3G:Approx. 750 hours GSM:Approx. 640 hours 4G (FDD-LTE): Approx. 630 hours (handset closed)
TV (One Seg) Continuous Viewing Time[4]	Approx. 6 hours 30 minutes
Charging Time (powered off)	AC Charger (Micro USB 1.0A) [ZSDBAF][5]:Approx. 130 minutes AC Charger (Micro USB Quick Charge™ 2.0 capability) [ZSDBA4][6]:Approx. 120 minutes
Data speed[7]	SoftBank 4G LTE:Max. downlink 112.5 Mbps[8]/max. uplink 37.5 Mbps[9]

1 Average measured with handset fully charged, in strong signal conditions at rest.
2 Voice over LTE. Enables voice calling on LTE network.
3 Average measured with handset fully charged, without calls or operations, in strong signal conditions at rest, and with data communication and Urgent News disabled. May very with battery strength, ambient temperature, settings, etc.
4 Calculated starting with handset fully charged, in full widescreen, Display brightness set to "Brightness : 3", with Stereo Earphones with Mic (sold separately), volume at maximum, and continuing until 10% remaining battery charge. Usable time may vary with signal conditions and the content played.
5 SoftBank SELECTION Micro USB recharging AC Charger 1.0A for smartphones [SB-AC18-MIMU]
6 SoftBank SELECTION AC Charger for smartphones with Qualcomm® Quick Charge™ 2.0 capability [SB-AC12-HDQC]
7 Provided on a best-effort basis; transmission speed may decrease or transmission may become unavailable due to traffic conditions, network environment, etc.
8 Provided in major cities nationwide.

9 With UDC (Uplink Data Compression). Data transfer possible at communication speed above that given with conditions of use due to improved uplink transfer efficiency.

☼ Voluntary Control of Radio Interference

Handset conforms to technical regulations pursuant to the Rules for Voluntary Control Measures of the VCCI. The conformity mark appears on the nameplate sticker.

▌ Battery

Item	Description
Voltage	3.8 V
Battery	Lithium-ion
Capacity	1680 mAh
Dimensions (W × H × D)	Approx. 42.3 × 64.7 × 5.2 mm (without protruding parts)

▌ Desktop Holder

Item	Description
Input Voltage/Input Current	DC5.0V / 1.8A
Output Voltage/ Output Current	DC5.0V / 1.8A
Charging Temperature Range	5℃ – 35℃
Dimensions (W x H x D)	Approx. 129.7 x 24.8 x 41.4 mm

▌ Materials (AQUOS ケータイ(Keitai) 3)

Parts	Materials Used/Surface Finish
Display side	Acrylic resin + PC resin/Hard coating
Sub display side/Camera panel	Acrylic resin/Hard coating
Operation Key surface	PET resin/UV cured resin
External plastic portion (Display surface sides, Operation Key surface sides)	PA resin (with glass)/Coating, hard coating
Exterior (hinge cover)	PC+ABS resin/Coating, hard coating
Exterior (antenna)	PC+ABS resin (with glass)/Nickel plating + coating
Back Cover	PC resin (with glass)/Coating, hard coating
Back Cover Seal	Silicone rubber
Battery compartment spacer/ battery compartment charging terminal sticker	PET resin
Back Cover spacer (top)	PC resin
Back Cover spacer (middle, bottom)	Urethane resin
Side Key	PC resin/Coating, hard coating
Charging terminal (metal portion)	Stainless steel/Gold plating
Charging terminal (resin portion)	ABS resin
External connector terminal (resin portion)	PA resin
External connector terminal (metal portion)	Stainless steel + copper alloy /Tin plating, gold plating
Infrared port	Acrylic resin

SD Card slot cover/SIM card slot cover/screws	Stainless steel
SD Card slot (metal portion)/ SIM card slot (metal portion)/ Battery terminal (metal portion)	Copper alloy/Gold plating
SD Card slot (resin portion)/ SIM card slot (resin portion)	LCP resin
Battery terminal (resin portion)	Nylon
Exterior (battery compartment)	PA resin (with glass)
Exterior (battery compartment bottom)	PC+ABS resin
Battery compartment metal	Nickel silver
Battery compartment caution sticker/spec label	PET rarin/Printing
Water wet determination seal	Paper/Printing
Back Cover caution sticker	PET resin/PP resin laminating
Base board	Epoxy resin + soldering

Materials (Battery)

Parts	Materials Used/Surface Finish
Battery pack	PC resin
Terminal section	Copper alloy/Gold plating
Water wet determination seal	High quality paper/PET resin
Label	PET resin/Printing

Materials (Desktop Holder)

Parts	Materials Used/Surface Finish
Desktop Holder (upper casing/lower casing)	ABS resin
Installation label	Polyester resin/Printing + PET resin
Charging terminal lever/lock lever	POM resin
Charging terminal	Copper alloy/Gold plating
Connection terminal (metal part)	Stainless steel + copper alloy/Tin plating, gold plating
Screws	Iron/Plating
Rubber feet	Urethane resin
Production lot label	Paper/Printing + PET resin

Warranty & After-Sales Service

Warranty

· The warranty period is 1 year from the date of newly purchase.
· Repairs will be done based on terms of free repair service. Terms of free repair service is reffred to SoftBank website. https://cdn.softbank.jp/mobile/set/common/pdf/legal/spguide/common/warranty.pdf (Japanese)
· Warranty covers only handset. Accessories such as cables are not covered by terms of free repair service.

⚠ Cautions

Damages

SoftBank Corp. is not responsible for any damages for user or third party resulting from lost opportunities to make a call, etc. due to breakage, malfunction, or trouble of product.

Accidents/Repairs

Files and settings may be lost or altered due to accidents or repairs. Keep a copy of important files, etc. SoftBank Corp. is not liable for damages resulting from loss or alteration of files (contacts/images/sound etc.) or settings due to accident or repair.

Disassembly/Modification

Disassembly/modification of handset is prohibited under the Radio Law. Note that handset cannot be accepted for repairs if modified.

After-Sales Service

To request repairs, contact SoftBank Customer Support or a nearby SoftBank Shop. Have details of symptoms ready.

· During the warranty period, repairs are made under the terms of free repair service.
· After the warranty period, if handset can be repaired, repairs will be made at cost. The functional parts necessary to repair the handset will be available for 4 years generally after the manufacture is discotinued. Repair may not be possible because of a shortage of repair parts even during the warranty period.

Customer Service

If you encounter any difficulties or are unsure of anything, contact customer service.

SoftBank Customer Support

· From a SoftBank handset, dial toll free at 157
· From a landline/IP phone, dial toll free at 0800-919-0157
· Business hours : 9:00am - 8:00pm

Smartphone Technical Support Center

· From a SoftBank handset, dial toll free at 151
· From a landline/IP phone, dial toll free at 0800-1700-151
· Business hours : Weekdays 9:00am - 8:00pm / Sat., Sun. and holidays 9:00am - 5:00pm

Safety Precautions

Safety Precautions

Read Safety Precautions before using handset.
Observe precautions to avoid injury to self or others, or damage to property.

Safety Precautions

These labels show degree of risk from improper use.

Label	Description
⚠ **DANGER**	Great risk of death or serious injury[1]
⚠ **WARNING**	Risk of death or serious injury[1]
⚠ **CAUTION**	Risk of minor injury[2] or property damage[3]

1 Serious injury:This refers to loss of sight, injury, burns (high- and low-temperature), electric shock, broken bones, injuries with residual aftereffects from poisoning, etc., and injuries requiring hospital admission for treatment or long-term hospital attendance as an outpatient.
2 Minor injury:This refers to injuries, burns (high- and low-temperature), electric shock, etc. that do not require hospital admission for treatment or long-term hospital attendance as an outpatient.
3 Property damage:This refers to extended damage to buildings, furniture, livestock, pets, etc.

These symbols signify prohibited/compulsory actions.

Symbol	Description
🚫 Prohibited	Prohibited actions
🚫 Do Not Disassemble	Disassembly prohibited
🚫 Avoid Liquids Or Moisture	Exposure to liquids prohibited
🚫 Do Not Use Wet Hands	Use with wet hands prohibited
❗ Compulsory	Compulsory actions
🔌 Disconnect Power Source	Unplug from outlet

Handset, Battery, SIM Card, Desktop Holder, AC Charger (Sold Separately) (Common)

⚠ DANGER

🚫 Prohibited

Do not use, store, or leave in extreme heat or where heat collects, such as fire, heat sources, under a kotatsu (blanketed warming table) or blanket, direct sunlight, inside vehicles in the hot sun, etc.

May cause fire, burns, injury, electric shock, etc.

🚫 Prohibited

Keep away from cooking appliances (microwave ovens, induction stoves, etc.) and pressure vessels (e.g., pressure cookers).

May cause fire, burns, injury, electric shock, etc.

🚫 Prohibited

Do not subject to or place directly on sand, soil, or mud. Do not touch with dirty hands.

May cause fire, burns, injury, electric shock, etc.
For details on water and dust resistance, see "Water, Dust, & Shock Resistance."

🚫 Prohibited

Do not charge handset while it is wet with water or other liquids (drinking water, sweat, sea water, pet urine, etc.).
Do not charge handset where exposed to water (bathroom, etc.).

May cause fire, burns, injury, electric shock, etc.
For details on water resistance, see "Water, Dust, & Shock Resistance."

🚫 Prohibited

Do not apply excessive force to or break handset. Particularly when carrying handset in your clothes pocket, do not bump it or place it between objects.

Battery breakage may cause fire, burns, injury, etc.
* Examples of where to be careful
・Sitting or squatting with handset in your pants or skirt pocket
・Handset becoming caught in a sliding door or vehicle door when in a jacket pocket
・Stepping on handset when it is on something soft such as a sofa, bed, or futon or on the floor

🚫
Do Not
Disassemble

Do not disassemble or modify.

May cause fire, burns, injury, electric shock, etc.

🚫
Avoid Liquids
Or Moisture

Do not wet with water or other liquids (drinking water, sweat, sea water, pet urine, etc.).

May cause fire, burns, injury, electric shock, etc.
For details on water resistance, see "Water, Dust, & Shock Resistance."

🚫
Avoid Liquids
Or Moisture

Do not let water or other liquids (drinking water, sweat, sea water, pet urine, etc.) enter Charging Terminals or External Device Port.

May cause fire, burns, injury, electric shock, etc.
For details on water resistance, see "Water, Dust, & Shock Resistance."

❗
Compulsory

Use optional accessories specified by SoftBank Corp.

Using unspecified accessories may cause fire, burns, injury, electric shock, etc.

⚠ WARNING

🚫
Prohibited

Do not drop, stomp, throw or subject to excessive force or strong impact/vibration.

May cause fire, burns, injury, electric shock, etc.

🚫
Prohibited

Keep conductive materials (metal strip, pencil lead, etc.) away from Charging Terminals and External Device Port. Do not let dust enter them.

May cause fire, burns, injury, electric shock, etc.

🚫
Prohibited

Do not cover/wrap with a blanket, etc. while using or charging.

May cause fire, burns, etc.

❗
Compulsory

If charging continues even after specified Charging Time, stop charging.

Failure to do so may cause fire, burns, injury, etc. due to overcharge or for other reasons.

❗
Compulsory

Before entering an area with a risk of flammable gas generation (e.g., a gas station) or where dust is generated, be sure to power off handset and stop charging.

Failure to do so may cause explosion, fire, etc.

❗
Compulsory

Follow instructions of any facility before use at a gas station, etc.

Do not charge at a gas station, etc.
If using at a gas station, etc., take care not to drop equipment, and in particular do not use while refueling.
Ignition of flammable gas may cause explosion, fire, etc.

Safety Precautions

AQUOS ケータイ3

⊕ Compulsory

If there is abnormal odor/sound, smoke, overheating, discoloration, distortion, or other abnormalities, follow these steps.

· Unplug from the outlet.
· Power off handset.
· Remove battery from handset.
Failure to follow the above steps may cause fire, burns, injury, electric shock, etc.

⚠ CAUTION

⊘ Prohibited

Do not use if broken.

May cause fire, burns, injury, etc.

⊘ Prohibited

Do not place on unstable surfaces; take added care when vibration is set.

Handset or related hardware may fall, resulting in injury, etc.

⊘ Prohibited

Do not use or store in a location that is subject to excessive dust, high humidity, or high temperatures.

May cause fire, burns, electric shock, etc.
For details on water and dust resistance, see "Water, Dust, & Shock Resistance."

⊘ Prohibited

For use by a child, explain instructions and supervise use.

Failure to do so may cause injury, etc.

⊘ Prohibited

Do not leave within the reach of small children.

May cause accidental swallowing, injury, electric shock, etc.

⊕ Compulsory

For any skin abnormalities associated with handset use, discontinue use and consult a doctor immediately.

Handset use may cause itchiness, skin irritation, rashes, etc. depending on your physical condition.
For details on materials used for handset parts, see "Materials."

Compulsory

Use handset with caution, as it may become hot with continued use or while charging. Be careful not to place handset in clothes pocket, etc. and fall asleep, allowing unintentional continued contact.

Handset, Battery, or AC Adaptor may become hot after continued use of call functions, data communication, TV/video viewing functions, etc. or while charging. Continued and direct contact with hot portions of handset may cause skin redness, itchiness, skin irritation, low-temperature burns, etc.
depending on your physical condition.

Handset

⚠ DANGER

Prohibited

Do not throw into a fire or apply heat.

May cause fire, burns, injury, etc.

Prohibited

Do not pierce with a sharp object (nail, etc.), hit with a hard object (hammer, etc.), step on, or otherwise subject to excessive force.

May cause fire, burns, injury, etc.

Compulsory

If substance in handset gets in eyes, mouth, etc., rinse with clean water and consult a doctor immediately.

Substances in handset may cause loss of sight or other physical harm.

⚠ WARNING

Prohibited

Do not point Infrared Port at eyes when sending by infrared.

May affect vision, etc.

Prohibited

Do not point Infrared Port at electronic appliance, etc. with an infrared component when sending by infrared.

May interfere with the operation of infrared components and cause an accident, etc.

Prohibited

Do not stare at Display for a long period when it is flickering.

May cause spasms, loss of consciousness, etc.

Prohibited

Do not let water or other liquids (drinking water, sweat, sea water, pet urine, etc.) or a foreign object (metal strip, flammable material, etc.) enter SIM Card Slot or SD Card Slot.

In addition, insert SIM Card and SD Card into correct openings in correct orientation.

May cause fire, burns, injury, electric shock, etc.

Prohibited

Do not expose Camera lens to direct sunlight for an extended period.

May cause fire, burns, injury, etc. due to light-collecting mechanism of the lens.

Compulsory

Power off handset or activate Airplane mode before boarding an airplane.

Handset use on airplanes is restricted; follow the instructions given by the respective airlines.
Radio waves may adversely affect an airplane's electronic devices.
If you engage in a prohibited activity while using handset on an airplane, you may be punished by law.

! Compulsory

Regarding handset use in a hospital, follow the instructions given by the respective medical institution.

Power off handset where handset use is prohibited.
Radio waves may adversely affect an airplane's electronic devices or electronic medical devices.

! Compulsory

When you are on a handsfree call, while ringtone is playing loudly, when in standby, etc., be sure to keep handset at a safe distance from your ears.

When you attach earphones-microphone to handset and play videos or music, adjust the volume to a comfortable level beforehand.

When making a handsfree call, handset emits sound loudly.
Even in standby, the ringtone or alarm may ring suddenly.
Listening to loud sound continuously for a long time may cause hearing impairment or other difficulty.
In addition, not being able to hear surroundings may cause an accident.

! Compulsory

If you have a weak heart, adjust ringtone vibration and volume as needed.

Handset suddenly vibrating and ringing for a new call may startle you and adversely affect your heart.

! Compulsory

If you are using an electronic medical device, check with its manufacturer or vendor on radio wave effects before using handset.

Radio waves may adversely affect electronic medical devices, etc.

! Compulsory

Power off handset near electronic devices that employ high precision control systems or weak signals.

Radio waves may cause electronic devices to malfunction or may adversely affect the operation.
Take added care near these devices:Hearing aids, implanted pacemakers/defibrillators and other electronic medical devices; other automatic control devices. If you are using an electronic medical device such as an implanted pacemaker/defibrillator, check with its manufacturer or vendor on radio wave effects.

! Compulsory

If Display or Camera lens breaks, be careful with shards of broken glass and exposed handset parts.

Touching the broken or exposed parts may cause burns, injury, electric shock, etc.

! Compulsory

Do not let your pet bite handset.

Internal Battery may ignite, burst, overheat, or leak, causing fire, burns, injury, etc.

⚠ **CAUTION**

🚫 Prohibited

Do not swing handset grasping strap.

Failure to do so may cause injury or other accident.

🚫 Prohibited

When using the motion sensor, make sure of the safety around you and hold handset firmly; do not swing with excessive force.

Failure to do so may cause injury or other accident.

🚫 Prohibited

If Display breaks and internal substances leak, do not let them come into contact with skin (face, hands, etc.) or clothes.

May harm sight, skin, etc.
If substance in handset gets in eyes, mouth, etc. or on your skin or clothes, immediately rinse with clean water.
If substance in handset gets in eyes, mouth, etc., rinse and consult a doctor immediately.

🚫 Prohibited

Do not use more force than necessary to remove the Back Cover.

May break the Back Cover and cause injury, etc.

🚫 Prohibited

Do not pinch yourself (fingers, etc.) when attaching the Back Cover.

May cause injury, etc.

🚫 Prohibited

Do not use with the Back Cover removed.

May cause burns, injury, electric shock, etc.

❗ Compulsory

Before using handset in a vehicle, check with the manufacturer or dealer of the vehicle on radio wave effects.

In rare cases, radio waves may adversely affect operation of on-vehicle electronic devices, depending on the type of vehicle. If this occurs, discontinue use immediately.

❗ Compulsory

Keep fingers, etc. outside when opening/closing handset.

Fingers, etc. getting pinched in gap may cause injury, etc.

❗ Compulsory

Earpiece/Speaker and Camera have magnetic parts; make sure that no metal strip (craft knife blade, staple, etc.) is adhered.

Metal strip on handset may cause injury, etc.

❗ Compulsory

See Display in a sufficiently bright place at a reasonable distance.

Seeing in a dark place or at a close distance may deteriorate vision or cause other problems.

Safety Precautions

AQUOS ケータイ3

Battery

⚠ DANGER

🚫
Prohibited

Do not touch connection terminals with anything metal or conductive (necklaces, hairpins, etc.). In addition, do not carry or store Battery with such objects.

May cause fire, burns, injury, etc.

🚫
Prohibited

If Battery is difficult to fit in handset, do not use excessive pressure to force Battery into place. If Battery is difficult to remove from handset, do not use excessive pressure to remove Battery.

May cause fire, burns, injury, etc.
For details on attaching/removing Battery, see "Inserting/Removing Battery."

🚫
Prohibited

Do not throw Battery into a fire or apply heat.

May cause fire, burns, injury, etc.

🚫
Prohibited

Do not pierce with a sharp object (nail, etc.), hit with a hard object (hammer, etc.), step on, or otherwise subject to excessive force.

May cause fire, burns, injury, etc.

❗
Compulsory

Check the orientation of Battery before installing it in handset.

Installing in the wrong orientation may cause Battery to ignite, burst, overheat, or leak, causing fire, burns, injury, etc. For details on attaching Battery, see "Inserting."

❗
Compulsory

If substances in Battery get in eyes, do not rub; rinse with clean water and consult a doctor immediately.

Eye contact with substances in Battery may cause loss of sight or other physical harm.

⚠ WARNING

🚫
Prohibited

If any trouble such as odor, overheating, discoloration, deformation, etc. is found, do not use it.

May cause fire, burns, injury, etc.

❗
Compulsory

If substances in Battery leak or an odor is emitted, immediately discontinue use and keep away from flames.

Battery fluid is flammable and could ignite, burst, etc.

❗
Compulsory

Prevent pet, etc. from biting Battery.

Battery may ignite, burst, overheat, or leak, causing fire, burns, injury, etc.

⚠ CAUTION

🚫
Prohibited

If substance in Battery leaks, do not let it get on your skin (face, hands, etc.) or clothes.

May harm sight, skin, etc.
If substance in handset gets in eyes, mouth, etc. or on your skin or clothes, immediately rinse with clean water.
If substance in handset gets in eyes, mouth, etc., rinse and consult a doctor immediately.

🚫
Prohibited

Do not dispose of Battery with ordinary refuse.

May cause fire, burns, injury, etc. May also adversely affect the environment. Insulate
Battery by taping over terminals before disposal. Take Battery to a SoftBank Shop, or follow local collection regulations.

🚫
Prohibited

Do not use or charge a wet Battery.

May cause fire, burns, injury, etc.

Desktop Holder and AC Charger (Sold Separately)

⚠ WARNING

🚫 Prohibited

Do not use AC Charger if the cord is damaged.

May cause fire, burns, electric shock, etc.

🚫 Prohibited

Do not touch AC Charger if thunder is audible.

May cause electric shock, etc.

🚫 Prohibited

Do not short-circuit Charging Terminals when AC Charger is plugged into the outlet. In addition, keep your hands and other body parts away from Charging Terminals.

May cause fire, burns, electric shock, etc.

🚫 Prohibited

Do not place a heavy object on top of AC Charger cord; do not apply excessive force by pulling, etc.

May cause fire, burns, electric shock, etc.

🚫 Prohibited

When plugging/unplugging AC Charger into/ from the outlet, keep metal objects (e.g., metal straps) away.

Failure to do so may cause fire, burns, electric shock, etc.

🚫 Prohibited

Do not use AC Charger with a voltage converter designed for overseas travel.

May cause ignition, overheating, electric shock, etc.

🚫 Prohibited

When AC Charger is connected to handset, do not apply excessive force to the connection.

May cause fire, burns, injury, electric shock, etc.

🚫 Do Not Use Wet Hands

Do not touch AC Charger cord, Charging Terminals, power plug, or Desktop Holder with wet hands.

May cause fire, burns, electric shock, etc.

❗ Compulsory

Use at the specified power supply voltage.

When charging handset overseas, use AC Charger designed for overseas use.

Use at other power supply voltages may cause fire, burns, electric shock, etc.
AC Charger:AC 100 V (connect to a household AC outlet only)
AC Charger designed for overseas use:AC 100 V - 240 V (connect to a household AC outlet only)

❗ Compulsory

Clean off dust on power plug.

Using AC Charger when dust is on plug may cause fire, burns, electric shock, etc.

❗ Compulsory

Plug AC Charger into the outlet firmly.

Failure to do so may cause fire, burns, electric shock, etc.

❗ Compulsory

When unplugging from the outlet, grasp AC Charger and pull, without forcefully pulling cord.

Pulling the AC Charger cord may damage the cord, causing fire, burns, electric shock, etc.

❗ Compulsory

When inserting/removing Micro USB plug into/ from handset, insert/remove it straight into/ from Jack, without forcefully pulling cord.

Inserting/removing in an incorrect orientation may cause fire, burns, injury, electric shock, etc.

Compulsory

If Charging Terminals become bent or deformed, discontinue use immediately. In addition, do not use AC Charger by restoring the terminals to their original state.

May cause fire, burns, injury, electric shock, etc. due to short-circuiting of Charging Terminals.

Disconnect Power Source

Unplug from the outlet when not in use.

Leaving it plugged in may cause fire, burns, injury, electric shock, etc.

Disconnect Power Source

If water or other liquids (drinking water, sweat, sea water, pet urine, etc.) get on equipment, unplug from the outlet immediately.

Short-circuiting from water or other liquids on equipmetn can cause fire, burns, electric shock, etc.

Disconnect Power Source

Before cleaning, unplug AC Charger from the outlet.

Cleaning AC Charger without unplugging it may cause fire, burns, electric shock, etc.

⚠ CAUTION

Prohibited

Do not touch AC Charger continuously when it is plugged into the outlet.

May cause burns, etc.

SIM Card

⚠ CAUTION

Compulsory

When handling SIM Card, be careful with cut edges so as not to damage your hands or other body parts.

Cut edges may be sharp and cause injury.

Handset Use & Electronic Medical Devices

⚠ WARNING

Compulsory

If you are using an electronic medical device (implanted pacemaker, implanted defibrillator, etc.), carry or use handset at least 15 cm away from where the device is.

Radio waves may adversely affect operation of electronic medical devices.

Compulsory

Before using an electronic medical device other than an implanted pacemaker or implanted defibrillator outside a medical institution (for home treatment, etc.), check with its manufacturer on radio wave effects.

Radio waves may adversely affect operation of electronic medical devices.

Compulsory

In a situation where you may not be able to maintain a distance of at least 15 cm from other persons, such as when your movement is restricted, disable radio wave emission by activating Airplane mode, powering off handset, etc.

There may be persons with an electronic medical device (implanted pacemaker, implanted defibrillator, etc.) nearby. Radio waves may adversely affect operation of electronic medical devices.

Compulsory

Regarding handset use in a medical institution, follow the instructions given by the medical institution.

Radio waves may adversely affect operation of electronic medical devices.

Important Product Information

General Use

· If your SIM Card or handset (with SIM Card inserted) is lost or stolen, suspend your service immediately. For details, contact your nearest SoftBank Shop.
· Handset transmissions may be disrupted inside buildings, tunnels or underground, or when moving into/out of such places; may affect calls.
· Use handset without disturbing others.
· Handsets are radios as stipulated by the Radio Law. Under the Radio Law, handsets must be submitted for inspection upon request.
· Handset use near landlines, TVs or radios may cause interference.
· Beware of eavesdropping.
 Because this service is completely digital, the possibility of signal interception is greatly reduced. However, some transmissions may be overheard.
  · Eavesdropping
 Deliberate/accidental interception of communications constitutes eavesdropping.
· Beware of harmful/malicious websites. Take added care when posting personal information.
· Display uses liquid crystal.
 When wearing polarized sunglasses and depending on the angle, the screen may appear dark or distorted.
· An export license may be required to carry handset into other countries if it is to be used by or transferred to another person. However, no such license is required when taking handset abroad for personal use on a vacation or business trip and then bringing it back.
 Export control regulations in the United States provide that an export license granted by the US government is required to carry handset into Cuba, Iran, North Korea, Sudan or Syria.

Heat from Handset Use

· Handset internal temperature may increase depending on usage or environment, causing housing to heat up. (Handset may stop charging and Display brightness may adjust for safety.)
 After a period of handset use under such conditions, warning appears and handset shuts down after approximately 3 minutes. To lower handset internal temperature and prevent automatic shutdown, exit all applications and turn off Display.
· After a period of Camera use at high internal temperature, warning appears and handset automatically shuts down. (Shot image is saved.)

Camera

· Mind etiquette when using Camera.
· Test Camera before shooting special moments.
· Do not use Camera in places where shooting is prohibited.
· Shot images may not be used/transferred without permission of a copyright holder (photographer), etc., except for personal use.

Manner Mode

· Even in Manner mode, Camera shutter, video record start/stop sounds, etc. still play.

TV

· TV reception may be disrupted inside buildings, tunnels or underground, or when moving into/out of such places; may affect TV viewing.
· As TV reception differs according to where used, TV viewing may not be possible in some areas. View in a location with good reception.

Internal Storage Cautions

· By default, photos and videos shot with Camera are saved to internal storage.

Urgent News (Application)

· Urgent News is enabled by default (can also be disabled).
· If Use full volume is disabled, alarm does not sound in Manner mode. To disable:
 ⊙ ➔ Service ➔ Emergency alerts ➔ ✉ (Options) ➔ Settings ➔ Use full volume (☐)
 Handset vibrates regardless of Use full volume setting or Manner mode setting. To disable handset vibration:
· ⊙ ➔ Service ➔ Emergency alerts ➔ ✉ (Options) ➔ Settings ➔ Vibrate (☐)
· Alerts are not received during calls/transmissions or in poor signal conditions. (Alerts can be received during voice calls over VoLTE.)
· Depending on usage/situation, handset may receive alerts for other areas or no alerts.
· Standby Time may decrease when Urgent News is enabled.
· SoftBank Corp. cannot be held liable for any damages associated with this service, including accidents resulting from received information, reception timing or reception failure.

Technical Regulations Conformity Certification

Handset conforms to technical regulations pursuant to the Radio Law and the Telecommunications Business Law. To check technical regulations conformity certification information (e.g., ⊜):

⊙ ➡ Settings ➡ Other settings ➡ About phone ➡ Authentication

Handset & Hardware Care

Handset & Hardware Care

· Leaving handset with Battery removed for a long period or without any charge may result in saved data and settings being erased or altered. SoftBank Corp. cannot be held liable for any resulting damages.
· Use handset within 5ºC - 35ºC and 35% - 90% humidity.
· Avoid extreme temperature and direct sunlight.
· Handset/Battery may become warm during operation or while charging. This is normal.
· Warranty does not cover malfunctions resulting from misuse.
· Camera exposure to direct sunlight for a prolonged period may affect color filter and discolor images.
· Soiled terminals can cause poor connection and affect charging. Clean soiling with a dry cloth or cotton swab.
· When cleaning terminals on Desktop Holder, avoid bending/ touching.
· Clean handset with a soft dry cloth. Alcohol, thinner, benzine, etc. use may fade color/print.
· Avoid scratching Display.
· Avoid excessive pressure. May cause malfunction or injury.
  · Do not sit on handset in back pants pocket.
  · Do not place heavy objects on handset inside handbags, packs, etc.
· Connect only specified products to External Device Port. Other devices may malfunction or cause damage.
· Do not power off while SD Card is being accessed; may result in data loss or malfunction.
· When walking outside, moderate handset volume to avoid accidents.
· Do not use if thunder is audible outside. May attract lightning or cause electric shock.
· When holding handset, do not block Earpiece/Speaker or Mic.

Back Cover

· Back Cover must be installed properly to guarantee water/ dust/shock resistance.
· Excessive pressure on Back Cover can cause breakage.
· Replace Back Cover if damaged. Water can enter, causing electric shock or malfunction due to battery corrosion, etc.

Battery

· Always power off before removing Battery.
 Do not remove Battery while saving data, sending mail, etc.
 May result in loss, alteration, or corruption of data.
· To reduce battery consumption:
 ⊙ ➡ Settings ➡ Energy saving/battery ➡ Energy
 saving ➡ Energy saving (ON)
· To help maintain performance and life of Battery, do not
 store in the following conditions
  · Full (immediately after charging is complete)
  · Exhausted (too low to power on handset)
· Battery level should be at approximately 40% for optimal
 storage.
· Depending on usage, bulges may appear near end of battery
 life; this does not affect safety.
· Battery is a consumable item; will need to be replaced if
 operating time shortens noticeably even after charging.
 Purchase new Battery.
· If Battery or Charging Terminals become soiled, clean with
 a clean, dry cotton swab, etc. If left soiled, poor connection
 may prevent charging.
· Battery is not water/dust/shock resistant.

Lithium-Ion Batteries

· Handset uses a lithium-ion battery. Lithium-ion batteries
 are valuable recyclable resources. Recycling is carried out
 where the Mobile Recycle Network mark is displayed.

Li-ion00

モバイル・リサイクル・ネットワーク
携帯電話・PHSのリサイクルにご協力を。

· If Notification Lamp is blinking, handset is not charged.
 Charge with a AC Charger. If charging is still not possible,
 contact your nearest SoftBank Shop.
· SoftBank Corp. cannot be held liable for trouble arising
 from charging handset while abroad.

Earphones-Microphone Port

Some earphones-microphones may not work properly.

· Do not subject External Device Port to strong impact while
 using earphones-microphone; water resistance may be
 affected.

Self Check

If handset is unstable, initiate diagnostic as follows.
⊙ ➡ Settings ➡ Other settings ➡ Self check
➡ Follow onscreen prompts

Forcing Power Off

If handset has stopped processing or won't respond to
operation, power off forcibly as follows.
📵 (Long Press for at least 8 seconds)
· Release finger within 2 seconds after handset vibrates and
 handset powers off.

Reset All

Reset All deletes all internal storage files. Back up important
data before performing Reset All.
Deleted content cannot be restored. Reset with caution.
⊙ ➡ Settings ➡ Data transfer/reset ➡ Reset ➡
Reset all ➡ Enter Operation Password ➡ ⊙ ➡ Reset
phone ➡ Erase everything

· To also delete files saved to SD Card, checkmark Delete
 data in SD card as well. before performing Reset All.

Bluetooth® Function

SoftBank Corp. is not liable for any damages resulting from data/information leakage due to use of handset Bluetooth® function.

Precautions

The frequency band utilized by handset Bluetooth® function is shared with industrial, scientific or medical equipment such as household microwave ovens, in-house radio stations such as production lines, amateur radio stations, etc. (hereafter "other radio stations").
1. Before using Bluetooth®, visually check that no other radio stations sharing the same frequency band are in use nearby.
2. Should interference occur between handset and other radio stations, move it to a different location or cancel Bluetooth® function immediately.
3. For additional information and support, contact SoftBank Customer Support:From a SoftBank handset, call toll free at 157. To call toll free from a landline/IP phone, see "Customer Service."

· Frequency Band
This radio device utilizes 2.4 GHz band.
FH4 indicates FHSS modulation with maximum transmission radius of 40 meters.
XX8 indicates a different modulation scheme with maximum transmission radius of 80 meters.
It is not possible for the radio device to avoid using the frequency band of a mobile unit identification apparatus.

2.4FH4/XX8

Wi-Fi (Wireless LAN)

Wireless LAN (hereafter "Wi-Fi") uses radio waves to enable communication between compatible devices within range. However, it is advisable for the user to configure security settings to avoid risk of data interception.
- Do not use Wi-Fi near electrical appliances, audiovisual equipment or office automation equipment; may affect Wi-Fi transmission speed, availability, clarity, etc. (Especially when a microwave oven is in use.)
- If there are multiple access points nearby, handset may not detect access points correctly.

Precautions

The frequency band utilized by handset Wi-Fi is shared with industrial, scientific or medical equipment, including household microwave ovens, and used by radio stations, amateur radio stations, etc. (hereafter "other radio stations").
1. Before using Wi-Fi, visually check that no other radio stations sharing the same frequency band are in use nearby.
2. Should interference occur between handset and other radio stations, move it to a different location or disable Wi-Fi immediately.
3. For additional information and support, contact SoftBank Customer Support:From a SoftBank handset, call toll free at 157. To call toll free from a landline/IP phone, see "Customer Service."

· Frequency Band
This radio station utilizes 2.4 GHz band with DSSS-OFDM modulation. Maximum transmission radius is 40 meters.

2.4DS/OF4

■Simultaneous Use with Bluetooth®
Wi-Fi (IEEE 802.11b/g/n) and Bluetooth® transmit on the 2.4 GHz band. Enabling handset Bluetooth® or using Bluetooth® devices near handset may affect Wi-Fi transmission speed, availability and clarity. Should interference occur, cancel handset Bluetooth® or discontinue Bluetooth® device use.

· Handset supports Wi-Fi channels 1 - 13. Handset does not connect to access points set to other channels.
· Available channels vary by country.
· For use of Wi-Fi aboard aircraft, check with airline beforehand.
· In some countries/regions, there are restrictions on the use of Wi-Fi. Check the local laws and regulations before using Wi-Fi on handset abroad.

General Notes

"805SH" here refers to this mobile phone "AQUOS ケータイ (Keitai) 3."

Portrait Rights

Portrait rights protect individuals' right to refuse to be photographed or to refuse unauthorized publication/use of their photographs. Portrait rights consist of the right to privacy, which is applicable to all persons, and the right to publicity, which protects the interests of celebrities. Therefore, photographing others including celebrities and publicizing/distributing their photographs without permission is illegal; use Camera responsibly.

Copyrights

Copyright laws protect sound, images, computer programs, databases, other materials and copyright holders. Duplicated material is limited to private use only. Use of materials beyond this limit or without copyright holder permission (copying (including converting formats), altering, giving away copies, distributing by Internet, etc.) may constitute copyright or moral right infringement, and require restitution of damages or be subject to criminal punishment. Comply with copyright laws when using images shot with Camera.

The software contained in handset is copyrighted material; copyright, moral right and other related rights are protected by copyright laws. Do not copy, modify, alter, reverse-assemble, decompile or reverse-engineer the software or separate it from the hardware, in whole or part, and do not allow third parties to do same.

Open Source Software

· Handset contains software based on GNU General Public License (GPL), GNU Lesser General Public License (LGPL), and other licenses.
To check details of relevant software licenses:
⊙ ➡ Settings ➡ Other settings ➡ About phone ➡ Legal information ➡ Open source licenses
· The source code of software based on GPL, LGPL, and Mozilla Public License (MPL) is provided on the following website free of charge.
http://k-tai.sharp.co.jp/support/developers/oss/ (Japanese)

Regulatory Information

Hereby, SHARP CORPORATION declares that the radio equipment type 805SH is in compliance with Directive 2014/53/EU.
The full text of the EU declaration of conformity is available at the following internet address:
http://www.sharp.co.jp/k-tai/

Manufacturer's Address:
SHARP CORPORATION,
1 Takumi-cho, Sakai-ku, Sakai-shi,
Osaka 590-8522, Japan

Description of Accessories

Item	Description
Battery Pack	3.8V 1,680mAh
Headset, Handsfree	Bluetooth
USB cable	For charging, peripherals, etc.
microSD Card	microSD/microSDHC
SIM card	SoftBank SIM card/non-SoftBank SIM cards. Non-SoftBank SIM cards can be used after SIM-unlocking the handset.
Cradle	For charging, peripherals, etc.

Frequency Range of Supported Bands in EU

Item	Description
GSM 900	Tx 880.2 to 914.8 MHz / Rx 925.2 to 959.8 MHz
DCS 1800	Tx 1710.2 to 1784.8 MHz / Rx 1805.2 to 1879.8 MHz
WCDMA FDD I	Tx 1922.4 to 1977.6 MHz / Rx 2112.4 to 2167.6 MHz
WCDMA FDD VIII	Tx 882.4 to 912.6 MHz / Rx 927.4 to 957.6 MHz
LTE Band 1	Tx 1922.5 to 1977.5 MHz / Rx 2112.5 to 2167.5 MHz
LTE Band 3	Tx 1710.7 to 1784.3 MHz / Rx 1805.7 to 1879.3 MHz
LTE Band 8	Tx 880.7 to 914.3 MHz / Rx 925.7 to 959.3 MHz
Bluetooth	Tx 2402 to 2480 MHz / Rx 2402 to 2480 MHz
WLAN 2.4 GHz	Tx/Rx 2412 to 2472 MHz (BW:20 MHz only)
GNSS	GPS:Rx L1 (1575.42 MHz) / GLONASS:Rx G1 (1598.0625 to 1605.375 MHz)

Maximum Transmit Power

Item	Description
GSM 900	+33 dBm (Power Class4)
DCS 1800	+30 dBm (Power Class1)
WCDMA FDD I	+24 dBm (Power Class3)
WCDMA FDD VIII	+24 dBm (Power Class3)
LTE Band 1	+23 dBm (Power Class3)
LTE Band 3	+23 dBm (Power Class3)
LTE Band 8	+23 dBm (Power Class3)
Bluetooth	+11.5 dBm (Power Class1)
WLAN 2.4 GHz	+15.0 dBm

Battery Cautions

Use specified Battery or Charger only.
Non-specified equipment use may cause malfunctions, electric shock or fire due to battery leakage, overheating or bursting.

Do not dispose of an exhausted Battery with ordinary refuse; always tape over Battery terminals before disposal.
Take Battery to a SoftBank Shop, or follow the local disposal regulations.

Charge Battery in ambient temperature 5ºC - 35ºC; Battery may leak/overheat and performance may deteriorate outside this range.

Volume Level Caution

To prevent possible hearing damage, do not listen at high volume levels for long periods.

■Headphone Signal Level
The maximum output voltage for Music Player function, measured in accordance with EN 50332-2, is 120.0 mV.

Stand-by Mark

⏻ :This symbol means the stand-by on/off.

FCC Notice

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

■FCC Information to User
This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules.
These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation; if this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
1. Reorient/relocate the receiving antenna.
2. Increase the separation between the equipment and receiver.
3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
4. Consult the dealer or an experienced radio/TV technician for help.

Radio Wave Exposure and Specific Absorption Rate (SAR) Information

【805SH】 here refers to this mobile phone 【AQUOS ケータイ (Keitai) 3】.

Specific Absorption Rate (SAR) for This Product (for Japan)

This mobile phone 【805SH】 meets the Japanese technical regulations* and international guidelines for exposure to radio waves.
The Japanese technical regulations for exposure to radio frequency energy established permitted levels of radio frequency energy, based on standards developed by independent scientific organizations through periodic and thorough evaluation of scientific studies.
The regulation employs a unit of measurement known as the Specific Absorption Rate, or SAR.
The SAR limit is 2 watts/kilogram (W/kg) averaged over ten grams of tissue.
The limit includes a substantial safety margin designed to assure the safety of all persons, regardless of age and health.
The value of the limit is equal to the value given in international guidelines recommended by ICNIRP**, which is in collaboration with the World Health Organization (WHO).
The highest SAR value for this mobile phone is 0.596 W/kg*** when tested for use at the ear, and 0.641 W/kg*** when worn on the body in the below manner****.
While there may be differences between the SAR levels of various phones and at various positions, all phones meet the Japanese technical regulations.
Although the SAR is determined at the highest certified power level, the actual SAR of the phone during operation can be well below the maximum value.

* The technical regulation is provided in Article 14-2 of the Ministry Ordinance Regulating Radio Equipment.
** International Commission on Non-Ionizing Radiation Protection
*** The value is under simultaneous transmission use conditions.
**** Use at positions other than at the ear
This mobile phone may be used at positions other than at the ear. By using an accessory such as a belt clip holster that maintains a 1.5 cm separation with no metal (parts) between the body and the mobile phone, this mobile phone will comply with international guidelines for radio wave protection.

The World Health Organization has announced that "A large number of studies have been performed over the last two decades to assess whether mobile phones pose a potential health risk. To date, no adverse health effects have been established as being caused by mobile phone use." They note that if you want to reduce your exposure then you can do so by limiting the length of calls or using a hands-free device to keep the mobile phone away from the head and body.

For more information about SAR, see the following websites:
Ministry of Internal Affairs and Communications (MIC)
http://www.tele.soumu.go.jp/e/sys/ele/body/index.htm
Association of Radio Industries and Businesses (ARIB)

http://www.arib-emf.org/01denpa/denpa02-02.html
(Japanese)
World Health Organization
http://www.who.int/emf
List of Specific Absorption Rates (SAR) for radio waves by smartphone/3G model
https://www.softbank.jp/mobile/support/sar/ (Japanese)

European RF Exposure Information

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health. The guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2.0 W/kg and the highest SAR value for this device when tested at the ear is 0.450 W/kg*.
As mobile devices offer a range of functions, they can be used in other positions, such as on the body. In this case, the highest tested SAR value is 1.270 W/kg* at the separation distance of 0.5 cm from the body.
For electronic safety, maintain the separation distance with accessories containing no metal, that position handset a minimum of the above distance. Use of other accessories may not ensure compliance with RF exposure guidelines.

* The tests are carried out in accordance with international guidelines for testing.

Simplified Declaration of Conformity for 【805SH】
Hereby, SHARP CORPORATION declares that the radio equipment type 【805SH】 is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the
following internet address:http://www.sharp.co.jp/k-tai/.

FCC RF Exposure Information

Your handset is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.
The guidelines are based on standards that were developed by independent scientific organization through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health.
The exposure standard for wireless handsets employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg. The tests are performed in positions and locations (e.g. at the ear and worn on the body) as required by the FCC for each model.
The highest SAR value for this model handset as reported to the FCC when tested for use at the ear is 0.80 W/kg, and when worn on the body in a holder or carry case, is 0.98 W/kg.
Body-worn Operation; This device was tested for typical body-worn operations with the handset kept 1.0 cm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 1.0 cm separation distance between the user's body and the handset. The use of beltclips, holsters and similar accessories should not contain metallic components in its assembly.
The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided. The FCC has granted an Equipment Authorization for this model handset with all reported SAR levels evaluated as in compliance with the FCC RF emission guidelines. SAR information on this model handset is on file with the FCC and can be found under the Display Grant section of http://www.fcc.gov/oet/ea/ after searching on FCC ID APYHRO00269.
Additional information on Specific Absorption Rates (SAR) can be found on the FCC website at https://www.fcc.gov/general/radio-frequency-safety-0.

FCC ID Location
The device FCC ID appears on the spec label.

Water, Dust, & Shock Resistance

Handset Water, Dust, & Shock Resistance

Handset complies with IPX5[1] and IPX8[2]-equivalent water protection standards and IP5X[3]-equivalent dust protection standards, with Back Cover closed.
Handset also complies with MIL standards for shock resistance[4].

1 IPX5 indicates that a handset continues to function as a phone after being subjected to water jets (approximately 12.5 L/min.) discharged from nozzles (inner diameter:6.3 mm), from all directions (approximately 3 m from handset) for at least 3 minutes.
2 IPX8 indicates that a handset continues to function as a phone after being gently submerged to a depth of 1.5 m in still tap water at room temperature, left there for approximately 30 minutes, then removed from it.
3 IP5X indicates that a handset continues to function as a phone and maintain safety after being placed in a test apparatus containing particles less than 75 μm in diameter, agitated for 8 hours, and then removed.
4 Compliance with MIL standards
Product has been tested by dropping it from a height of 1.22 m onto plywood (lauan) in 26 directions as per guidelines complying with MIL-STD-810G Method 516.7:Shock-Procedure IV as established by the US Department of Defense.

· Operation is not guaranteed for all conditions in actual use. Warranty does not cover malfunctions resulting from misuse.
· Handset is compliant with IPX5 and IPX8 water protection standards and IP5X dust protection standards. However, ingress of dust, sand, mud, metal particles, crumbs, beverage, sea water, etc. may cause malfunction.

■Handset Care

· Close Back Cover firmly. Any debris (a hair, grain of sand, a small fiber, etc.) trapped between gasket and handset body may allow ingress of liquid or dust.
· If handset is exposed to liquid with Back Cover open, it may enter handset and cause electric shock or malfunction. Discontinue use and power off.
· If handset is wet, wipe it with a dry cloth.
· Never open/close Back Cover with wet hands or while handset is wet or has a foreign object adhered to it.
· Do not use External Device Port while it is wet or obstructed by sand/dirt; water and dust resistance may be affected, or electric shock or malfunction, burns or fire may result due to short-circuiting, etc.
· Handset is only water resistant against fresh/tap water between 5ºC - 35ºC.

Precautions

· Do not subject handset to soap, detergent, bath powder/oil, sea/pool water, spa/hot water, etc.
· Rinse off sea/pool water, beverage, dirt, sand, mud, etc. immediately with fresh/tap water between 5ºC - 35ºC; residue may cause malfunction if allowed to dry.
· Sand, mud, etc. allowed to harden on handset may cause scratching or breakage.
· Do not soak handset in bath or pool; never use it in water (including opening/closing and key operation).
· Handset is not resistant to water pressure. Avoid high-pressure water/shower (over 6 L/min.) and water immersion.
· Do not expose handset to high humidity for long periods; avoid prolonged use in bath/shower rooms.
· Do not use in a sauna. Do not heat with a dryer.
· Use handset within a temperature range of 5°C - 35°C and humidity of 35% - 90%.
· Do not leave in extreme temperatures (next to a stove or in a refrigerator).
· Volume may be low when Mic, Earpiece, or Speaker is wet; dry handset before use (see "Drying Handset").
· Battery, Desktop Holder, AC Charger, and other optional accessories are not waterproof or dustproof. Do not use in high humidity or near water (outdoors, in bathrooms, shower rooms, sinks, etc.); may cause fire, electric shock or malfunction. Do not bring into these locations also when not using.
· Do not poke Earpiece, Speaker, Mic, etc. with a pointed object. May affect water and dust resistance.
· Avoid placing handset directly on sand. Sand may penetrate Earpiece, Speaker, etc., resulting in low volume.
· Sand, etc. getting caught in hinges may prevent handset from opening/closing smoothly and sound gritty.
· To prevent condensation, warm handset to room temperature before bringing it from a cold place into a warm place such as a bathroom. If condensation occurs, leave handset at room temperature until it is dry.
· Handset does not float on water.
· Keep handset out of heavy rain.
· Deteriorated or damaged Back Cover prevents water, dust, and shock resistance from being maintained. Bring handset to a SoftBank Shop.

Charging Cautions

· Never connect Micro USB plug while handset or AC Charger/Desktop Holder are wet.
Handset is water resistant; however, if Micro USB plug is inserted while it is wet, liquid (tap water, beverage, sea water, pet urine, etc.) or foreign matter on handset or Micro USB plug may cause electric shock or overheating, burnout, fire, malfunction, burns, etc. due to short-circuiting, etc.
· Do not touch AC Charger/Desktop Holder with wet hands. May cause electric shock.
· Do not use AC Charger/Desktop Holder where water is regularly in use (kitchens, bathrooms, shower rooms, etc.); may cause fire or electric shock.

Care & Maintenance

· Proper care of rubber gasket around Battery (on Back Cover) is crucial for continued handset water/dust resistance. Observe the following:
 · Do not remove or damage gasket. Keep it clean.
 · Do not insert a sharp object into Back Cover gap. May scratch rubber gasket and allow water/dust to enter.
 · If rubber gasket around Battery (on Back Cover) is damaged or deformed, contact a SoftBank Shop for replacement.
· To maintain water/dust resistance, it is recommended to replace parts every 2 years regardless of their condition. Customer-requested replacement incurs fees and requires handset be submitted for servicing. For details, contact a SoftBank Shop or SoftBank Customer Support.

Washing Handset

Wipe off dirt, sand, beverage, etc., gently with a cloth. Then hold handset approximately 10 cm below faucet or shower head and wash with low-pressure tap water (6 L/min. or lower) at room temperature (5ºC - 35ºC). Wash with your hands, taking care not to open Back Cover; do not use a brush or sponge. Dry handset before use; power on after drying it well.

· Before washing handset, make sure that Back Cover is closed firmly.
· Do not use a washing machine or ultrasonic cleaner.
· External Device Port can accumulate dust, sand, etc. easily; rinse well and check completely that handset is dry before use. Any sand or water left may cause malfunction, burns or fire.
· Do not put a cotton swab, cloth, etc. into External Device Port when washing; water resistance may be affected causing malfunction.
· Never place in a microwave oven to dry. May cause Battery to leak, overheat, burst, or ignite. May also cause handset to overheat, emit smoke, or ignite, or damage circuitry.
· Do not heat with a dryer or leave in a high-temperature environment to dry. May warp or discolor handset, cause malfunction, etc.

Drying Handset

After handset has been exposed to water, be sure to dry hinges, Air Vent, Earpiece/Speaker, Mic, and External Device Port.

**1**

Wipe handset surface with dry cloth

2

Holding handset firmly at its hinges, shake it about 20 times

- Hold firmly so as not to drop it.
- Shake with circled ○ portion downward to drain water from all holes and gaps.

3

Pat against dry cloth to remove moisture from openings and grooves

- Water may be trapped in openings; pat against a dry cloth to remove it.

4

Leave handset on dry cloth for approximately 2 - 3 hours at room temperature

Handset is dried.

Cautions

When Removing Moisture

Do not put a cotton swab, cloth, etc. into openings; water/ dust resistance may be affected.

After Drying

Do not use handset while still wet.
- May affect calling, or may wet clothes, bag, etc.
- May short-circuit External Device Port.
- In cold regions, may freeze and cause malfunction.
