About the User Guide

Thank-you for purchasing this product.

Before Using This Product

Read "Safety Precautions" thoroughly beforehand for proper usage.

Accessible services may be limited by subscription contract conditions.

Descriptions in the User Guide

In the User Guide, most operation descriptions are based on handset at time of purchase.

Unless noted otherwise, descriptions are for Home Screen. "Confirmation" refers to a window that appears after operation, such as authentication prompt window, selection window or caution window.

Some operation descriptions may be omitted.

Screenshots & Key Labels

Screenshots in the User Guide may differ in appearance with actual Display. Key labels in the User Guide are simplified for description purposes and differ with actual Display.

Other Notations

In the User Guide, the product is referred to as "handset." microSD™/microSDHC™/microSDXC™ Card is referred to as "SD Card."

"606SH" here refers to this mobile phone "AQUOS ea."

Accessing Instructions on Handset

4 External Connection Jack	Connect AC Adaptor or Micro USB Cable here.
5 Mic/ Recorder Mic	Talk to the other party here. Also use while recording videos or when talking to emopa. Make sure not to cover Mic/Recorder Mic.
6 Camera	Shoot photos or videos.
7 Card Slot	Insert/remove SD Card and USIM Card.
8 Speaker	Listen to music, video sound, TV, etc.

Handset Keys

USIM Card

USIM Card is an IC card containing phone number and other customer information.

Handling USIM Card

- · See instructions included with USIM Card for handling.
- \cdot Avoid applying labels. May damage USIM Card.
- \cdot USIM is replaceable (at cost) in case of loss/damage.
- \cdot Wipe clean with a dry, soft cloth.

1 IC (gold) chip

USIM Card Cautions

About USIM Card

Observe the following when using USIM Card.

- Always follow emergency procedures to suspend service if your USIM Card or handset (USIM Card inserted) is lost/ stolen. For details, contact Customer Service.
- Customer is responsible for any damage caused by inserting USIM Card in an other-brand IC card reader, etc. SoftBank Corp. is not responsible in such case.
- It is recommended that you back up information that is saved on USIM Card. SoftBank Corp. is not responsible for damages from saved information that is lost.
- Always power off handset before inserting/removing USIM Card.
- Note that USIM Card specifications and performance may change without notice.
- Return USIM Card to SoftBank Corp. when canceling subscription.
- USIM Card is the property of SoftBank Corp.
- Returned USIM Cards are recycled for environmental purposes.

About IMEI Sheet

IMEI Sheet (1) can be found when Card Slot Cap is open. Do not pull out IMEI Sheet.

Inserting USIM Card

Always power off beforehand.

• Set USIM Card in USIM Tray beforehand. Do not insert USIM Card without setting it in USIM Tray.

1

Open Card Slot Cap

Pull away toward you by notch (where circled O) with finger (1), and turn open in direction shown (2).

2

Pull out USIM Tray

 Do not pull USIM Tray forcefully or at an angle; damage may result. Gently pull it out horizontally by hooking a finger on it.

3

Set USIM Card in USIM Tray

- Place gently, noting orientation of USIM Card (notch/IC (gold) chip facing up).
- \cdot Make sure USIM Card is in USIM Tray. Inserting USIM Tray with USIM Card on its edge may cause damage.

4

Insert USIM Tray into USIM Card Slot (right opening)

- Insert gently all the way horizontally, noting orientation of USIM Tray.
- \cdot Do not insert USIM Tray upside down.

5

Close Card Slot Cap

- Lift Card Slot Cap in direction 1, reinsert hinge (2), fit Card Slot Cap so that there is no gap between it and handset, and then push along in direction shown (3).
- To close, push firmly by sliding with finger from circled
- area (O) toward hinge (4).

Removing USIM Card

Always power off beforehand.

1

Open Card Slot Cap

 \cdot Pull away toward you by notch (where circled \bigcirc) with finger (**1**), and turn open in direction shown (**2**).

2

Pull out USIM Tray

 \cdot Do not pull USIM Tray forcefully or at an angle; damage may result. Gently pull it out horizontally by hooking a finger on it.

3

Remove USIM Card

4

Insert USIM Tray into USIM Card Slot (right opening)

- Do not insert USIM Tray at an angle; damage may result. Insert gently all the way horizontally, noting orientation of USIM Tray.
- · Do not insert USIM Tray upside down.

5

Close Card Slot Cap

- Lift Card Slot Cap in direction 1, reinsert hinge (2), fit Card Slot Cap so that there is no gap between it and handset, and then push along in direction shown (3).
- · To close, push firmly by sliding with finger from circled area (\bigcirc) toward hinge (4).

SIM-Unlocking Handset

Handset can be SIM-unlocked. SIM-unlocking handset allows other-carrier SIM cards to be used with it.

- Some services, functions, etc. may have restrictions when an other-carrier SIM card is used. SoftBank Corp. does not guarantee operation whatsoever.
- · For details on SIM unlocking, see SoftBank Website.

Getting Started

Internal Storage and SD Card

Handset supports SD Card up to 256 GB. Some SD Cards may not operate properly.

Internal storage can be used for saving data including system data, applications, and video and photos taken with Camera.

Internal Storage/SD Card Cautions

Data on Internal Storage/SD Card

Data on internal storage/SD Card may be lost/altered due to accidents, malfunctions, repairs, handset upgrade/ replacement, mishandling, etc. Back up important data regularly. SoftBank Corp. is not liable for any damages resulting from loss/alteration of data.

- · Do not insert or remove SD Card forcefully.
- \cdot Do not touch terminals or expose them to metal objects.
- Never power off while reading or writing data.
- · Make sure not to erase or overwrite data accidentally.

microSDXC Card

Handset supports microSDXC Cards (SDXC-compatible SD Cards). microSDXC Cards are supported by SDXC-compatible devices only.

Exchanging Data with Non-SDXC-Compatible Devices

To exchange data between handset and non-SDXCcompatible devices, use SD Cards (microSD/microSDHC Cards) supported by handset and those devices. Inserting a microSDXC Card used on handset in a non-SDXC-compatible device may corrupt card data. In such cases, do not format the microSDXC Card on that device even if prompted to do so.

Formatting deletes all microSDXC Card data and changes the file system. The original storage capacity may be unavailable after formatting. To use a corrupted microSDXC Card, format it on an SDXC-compatible device.

Save Location

By default, data, including photos and videos taken with handset, is saved in internal storage. Even with downloaded commercially-available applications described as saving data on SD Card, data is saved in internal storage.

• To save photos and videos taken with handset on SD Card, insert SD Card before using Camera, then change save location as follows.

 In Home Screen, Flick Hot Sheet up

 microSD

About IMEI Sheet

IMEI Sheet (1) can be found when Card Slot Cap is open. Do not pull out IMEI Sheet.

SD Card Caution

Keep SD Card away from infants; may cause choking if swallowed.

Inserting SD Card

Open Card Slot Cap

 \cdot Pull away toward you by notch (where circled \bigcirc) with finger (1), and turn open in direction shown (2).

Insert SD Card into SD Card Slot (left opening)

 Insert SD Card with terminals facing down gently all the way horizontally.

Close Card Slot Cap

- Lift Card Slot Cap in direction 1, reinsert hinge (2), fit Card Slot Cap so that there is no gap between it and handset, and then push along in direction shown (3).
- · To close, push firmly by sliding with finger from circled area (\bigcirc) toward hinge (**4**).

Formatting SD Card

When using a new SD Card for the first time, always format it on handset.

- \cdot Formatting erases all data on SD Card. Format SD Card with caution.
- When formatting, keep handset charged or charge it adequately beforehand.
- Insert SD Card beforehand. See "Inserting SD Card" for details.

Removing SD Card

Always unmount SD Card beforehand.

1

Open Card Slot Cap

 \cdot Pull away toward you by notch (where circled \bigcirc) with finger (1), and turn open in direction shown (2).

Remove SD Card

 Press in on SD Card slightly and release finger; SD Card pops out. Pull out gently horizontally.

3

Close Card Slot Cap

- Lift Card Slot Cap in direction 1, reinsert hinge (2), fit Card Slot Cap so that there is no gap between it and handset, and then push along in direction shown (3).
- · To close, push firmly by sliding with finger from circled area (\bigcirc) toward hinge (**4**).

Charging Handset

Battery is built into handset.

Internal Battery

A lithium-ion battery is built into handset; it is not removable.

🖉 Recycling

This product requires a lithium-ion battery. Lithiumion batteries are recyclable. To recycle a used lithiumion battery, take it to any shop displaying the recycling symbol.

Battery Cautions

Storage

To help maintain performance and life of Internal Battery, do not store in the following conditions (battery level should be at approximately 40% for optimal storage).

- Full (immediately after charging is complete)
- \cdot Exhausted (too low to power on handset)

Bulges of Internal Battery

Depending on use, bulges may appear near end of battery life; this does not affect safety.

Internal Battery Replacement

Internal Battery is a consumable item; may need to be replaced if operating time shortens noticeably. Internal Battery is not user replaceable; its replacement incurs fees and requires handset submission to a SoftBank Shop or other appropriate servicer. For details, contact a SoftBank Shop or SoftBank Customer Support, General Information.

About Charging

The following charging options are available.

Charging Option	Description
AC Adaptor	Connect handset and AC Adaptor (sold separately) directly.
USB charging	Connect handset and a PC with Micro USB Cable (optional accessory).

🖉 Charging/Notification Lamp

Charging/Notification Lamp illuminates red while charging; illuminates green when charge is almost full.

 Charging/Notification Lamp goes out when charge is full.
 If Charging/Notification Lamp is blinking, charging is not working properly. Make sure that you are using Charger and products specified by SoftBank Corp. If you are using specified products only, contact a SoftBank Shop or SoftBank Customer Support, General Information.

Charging Cautions

Water Resistance

AC Adaptor (sold separately) and Micro USB Cable (optional accessory) are not waterproof. Never connect Micro USB plug while handset or Charger is wet.

Handset is water resistant; however, if Micro USB plug is inserted while it is wet, liquid (tap water, beverage, sea water, pet urine, etc.) or a foreign object adhered to handset or Micro USB plug may cause overheating, burnout, fire, malfunction, burns, etc. due to electric shock, shortcircuiting, etc.

Handling Cords

Do not pull, bend, or twist cord; may damage the cord.

About Charging Abroad

SoftBank Corp. is not liable for problems resulting from charging handset abroad.

Getting Started

Charging with AC Adaptor

Purchase and use ZSDBA4 (Micro USB Quick Charge™ 2.0 AC Adaptor)¹ or ZSDBA6 (Micro USB 1.0 A AC Adaptor)². For information on other peripheral devices, see SoftBank Website.

The following explains how to charge handset using ZSDBA4 (Micro USB Quick Charge[™] 2.0 AC Adaptor).

1 SB-AC12-HDQC (SoftBank SELECTION Qualcomm[®] Quick Charge[™] 2.0 AC Adaptor for smartphones)

2 SB-AC13-HDMU (SoftBank SELECTION Micro USB 1.0 A AC Adaptor for smartphones)

1

Insert Micro USB plug of AC Adaptor into External Connection Jack

 Insert Micro USB plug in correct orientation; otherwise, External Connection Jack may be damaged. Check contours and orientation of Micro USB plug, then insert it with tabs
 (○) facing down.

2

Raise plug on AC Adaptor and plug into household AC outlet

Charging/Notification Lamp illuminates once charging starts.

· Charging/Notification Lamp goes out when charge is full.

3

After charging, remove Micro USB plug from External Connection Jack, then unplug AC Adaptor and lower plug

Charging by PC

Connect handset to a PC with Micro USB Cable (SHDDL1; optional accessory).

- Make sure that PC is turned on.
- Charging may not be possible/take a long time depending on connection and PC conditions.
- Never connect Micro USB plug while handset or Micro USB Cable is wet.

1

Insert Micro USB plug of Micro USB Cable into External Connection Jack

 Insert Micro USB plug in correct orientation; otherwise, External Connection Jack may be damaged. Check contours and orientation of Micro USB plug, then insert it with tabs (O) facing down.

2

Insert USB plug of Micro USB Cable into USB port on PC

Charging/Notification Lamp illuminates once charging starts.

· Charging/Notification Lamp goes out when charge is full.

After charging, remove Micro USB Cable from handset and PC

Power On/Off

Powering On

1

Long Press (U) until SHARP logo appears

Handset powers on, and lock screen appears after a while.

- · If confirmation appears, follow onscreen prompts.
- An initial settings wizard may appear the first time handset is powered on. For details on initial settings, see "Handset Initial Settings."

2
Drag 🗊 or 💼 up
12:34 0 0
🏁 Home Screen appears.

Powering Off

1

し (Long Press)

2

🏁 Handset powers off.

15

Using Touchscreen

Handset uses a touchscreen-type Display. Operate with your fingers on Display.

🝯 About Touchscreen

In Case of Unintended Operation

If handset initiates operation without Touchscreen (Display) being operated or does not respond after Touchscreen being operated, Press 🕐 to turn off Display, Press 🕑 again to turn on Display and then operate handset.

Touchscreen Usage Notes

Touchscreen may not respond in these situations:

- \cdot Use with gloves/long fingernails
- \cdot Use of pens, pencils or sharp objects
- \cdot Use with objects on/against Display
- \cdot Use while wet

Touchscreen Usage Cautions

To prevent malfunctions, do not:

- \cdot Touch Display with wet fingers
- Use if Display is wet If Display is wet, wipe it with a soft cloth.
- Subject Display to force/pressure
- Place a sticker or shield (commercially-available protective film, privacy protector shield, etc.) on Display

Тар

Contact Display lightly and briefly.

Touch & Hold

Contact Display lightly; release finger when screen changes.

Drag

Touch icon or other item lightly, move it where desired, and release finger.

Flick

Contact Display lightly, then brush screen up/down or left/ right.

Pinch/Spread

Contact Display lightly, then move fingers toward each other (Pinch) or away from each other (Spread).

Handset Initial Settings

When powering on the first time, an initial settings wizard appears for optionally making Wi-Fi, Google[™] account, and other settings. Follow onscreen instructions to set items. Insert USIM Card before powering on handset.

Making Initial Settings

Depending on your environment, screen content, setting items and steps may differ.

Follow onscreen prompts on your handset.

- To place an emergency call, Tap EMERGENCY .
- To set visual assistance, Tap VISION SETTINGS . See "Accessibility Settings" for details.

2

Set up as new

• Tap Keep your apps & data to copy data from another mobile. Follow onscreen prompts.

3

Set Wi-Fi items

- · Follow onscreen prompts.
- To skip Wi-Fi settings, select Use cellular network for setup / Don't use any network for setup). Continue by following onscreen prompts.

4

Set up a Google Account

See "Google Account" for details on a Google Account.
To skip Google Account setup, Tap SKIP.

Set up My SoftBank

Initial settings are complete.

• To skip My SoftBank setup, Tap Later .

6

Not now ラ SKIP ANYWAY

• To set up Screen lock option, select Pattern , Lock No. or Password . See "Lock & Security Settings" for details.

7

Set up later

🏁 Handset restarts.

Importing Data from Other **Mobiles**

Import data from other mobiles, etc. using Bluetooth® or SD Card.

Enabling Bluetooth® Function

1

Troubleshooting

- O. Cannot use Bluetooth®
- A. Handset may be in Airplane mode. If in Airplane mode, Bluetooth® function is disabled. Bluetooth® function can be enabled again after placing handset in Airplane mode.

Bluetooth[®] Cautions

Connection

Bluetooth® connection may not be possible with some Bluetooth® devices. In addition, noise may interfere with wireless or handsfree conversations.

File Transfer

Files may not appear correctly on recipient devices.

Getting Started

Pairing Bluetooth[®] Devices

Search for and pair nearby Bluetooth® devices. Paired Bluetooth® devices can be connected easily.

• Enable Bluetooth® on handset and set target devices to be discoverable first.

1

In Home Screen, Flick Hot Sheet up 🔿 🌼 (Settings) ᅌ Bluetooth

Bluetooth[®] menu opens; found Bluetooth[®] devices appear in Available devices field.

2

Tap target device \bigcirc Follow onscreen prompts for authentication

Pairing completes; handset connects to some devices (e.g., handsfree devices) automatically.

- Authentication procedure varies by device. Passkey entry may be required.
- Passkey is a 1 to 16-digit number or a set of characters/ symbols required for authentication between handset and other devices.
- · Paired devices appear in Paired devices field.

Pairing Operations

Connecting to Bluetooth® Devices by Service

In Bluetooth® menu, ✿ for target device ⊖ Tap item → OK

- Available when Bluetooth® is enabled.
- Available when handset is paired with a device that supports corresponding service.

Basic Operations

Lock Screen

After a period of inactivity, Display turns off to save battery power (Screen lock active).

Press 0 to open lock screen; screen can be unlocked.

 \cdot Lock screen also appears at power on.

To unlock screen and use handset, Drag 💼 or 💼 up. For details on lock screen, see "Lock Screen Basics."

Home Screen & App List

Most handset operations start in Home Screen or in app list. In Home Screen, Flick Hot Sheet up for app list and activate applications, change handset settings, etc. (To change Home Screen, switch to another home screen app.) See "Home Screen Basics" for details.

• To return to Home Screen, Tap O at Display bottom.

Navigation Bar

Tap icons on Navigation Bar (Display bottom) for the following functions/operations.

Name	Description
(Back key)	Return to the previous screen. Appears as 🔽 for onscreen keyboard; Tap to close keyboard.
O (Home key)	Return to Home Screen.
(Recents key)	Open a list of recently used applications to activate or remove them from the list.
(Keyboard key)	Change keyboard/input method. Appears when keyboard is open.
i (Menu key)	Open menu. Appears for some applications.

Selecting Options and Navigating Screens

Tap items, icons, onscreen keys, etc. to open assigned items.

• To return to the previous screen, Tap 🛛 .

Menu Operations

Tap i at Display top or bottom for available settings and items.

• Screens may also have settings and items that are available by Touching & Holding Display.

Handset Settings and Making Settings

In Home Screen, Flick Hot Sheet up 😔 🌼 (Settings) to customize operation of handset functions.

Checkbox (✓ / □) or switch (< / ●) appears for some options. Tap to enable (✓ / <) or disable (□ / ●) option.

• Drag/Flick slider, spinner, etc. to adjust some settings. If available, Tap 🔅 for additional settings.

Portrait Orientation & Landscape Orientation

The screen changes to landscape orientation when handset is rotated sideways.

• Depending on the current screen, the orientation may not change even by changing handset orientation.

Multi-Window

Split screen to view and operate two applications. Activate the two applications beforehand. Viewing and operating (Address Book) and 📞 (Phone) is described as an example.

• Viewing in Multi-Window is not available for some applications.

28

🏁 Recent apps window opens.

2

Touch & Hold application to operate ⊖ Drag to top of Display

Multi-Window opens, and Dragged application opens at top of Display.

• Alternatively, Touch & Hold
while viewing application to operate.

3

From application history at bottom of Multi-Window, Tap next application

Mapped application opens at bottom of Multi-Window.

Multi-Window Operations

Switching between Applications

😑 ଚ Tap application

 \cdot Activate application beforehand.

Exiting Multi-Window

Touch & Hold 😑 or Flick pane bar (💶) up/down

Basic Operations

One-Handed Operation (ShrinkScreen)

Shrink screen for easier one-handed operation.

Enlarging Part of Screen (Magnifier)

Enlarge part of the screen.

Recent apps window opens.

🍳 (Magnifier)

🏁 Magnifier activates; part of the screen is enlarged (enlarged area).

· Drag enlarged area to target position.

About Magnifier

User interface items in enlarged area are selectable; selecting an item exits Magnifier.

Exiting Magnifier

Tap enlarged area or perform 1 and 2

Using Screen Search Touch & Hold O for information related to onscreen

Touch & Hold **O** for information related to onscreen content.

- \cdot Sign in to a Google Account beforehand.
- When launching for the first time, follow onscreen prompts to enable Screen search.

In Home Screen, Flick Hot Sheet up ⇒ Google ⇒ Google ⇒ Search ⇒ Screen search · If Screen search is disabled, ⇒ (Google) activates when Touching & Holding ● .

Capturing Screenshots

Long Press () and Volume Down Key at the same time to capture a screenshot of the current screen.

- \cdot May be unavailable for some applications.
- View captured screenshots in 🔁 (Album), etc.
- Alternatively, use Clip Now and slide your finger along the edge of Display to capture a screenshot. See "Capturing Screenshots (Clip Now)" for details.

Confirmation when First Activating Applications

Set the operation of applications when activating for the first time.

The type and content of a confirmation differ with the application. The following explains two types of confirmation: First things first and Battery optimization.

Setting Required Permissions for Applications

Permit applications to use data on handset, Camera, etc. Activating [] (Album) for the first time is described as an example.

• An application may not function correctly if permission to use it is not set.

1

In Home Screen, Flick Hot Sheet up ଚ 📙 (Album)

In First things first confirmation, NEXT

DENY / ALLOW

Setting is complete.

· Normally, select ALLOW to permit usage of the function.

 \cdot For several functions, continue in the same way.

Other Ways to Set Required Permissions for Applications

Setting Functions to Use by Application

• Tap function to toggle on (🚺)/off (💭).

Follow onscreen prompts

A description for each item appears.

Security Codes

Main Security Codes

The following are main security codes required for handset use.

Туре	Description
Operation Password	A code required for using some functions. See "Operation Password and Center Access Code" for details.
Center Access Code	A four-digit code set in subscription contract. See "Operation Password and Center Access Code" for details.
PIN	A code for USIM Card. See "USIM PIN" for details.
Lock No.	A code for unlocking screen. See "Lock & Security Settings" for details.

Operation Password and Center Access Code

Center Access Code is a four-digit code set in subscription contract; necessary to use optional services from landlines, etc.

- Do not forget Center Access Code. If you forget the code, contact us for recovery. For details, contact SoftBank Customer Support, General Information.
- Be careful not to reveal security codes to others. If misused by others, SoftBank Corp. is not liable for any resulting damages.

USIM PIN and USIM Card Lock

When USIM card lock is enabled, PIN (a code for USIM Card) is required for handset use each time handset is powered on; helps prevent unauthorized use by others.

- \cdot Enable USIM card lock by enabling PIN.
- PIN is 9999 by default.

PIN Entry Cautions

PIN entry is required when changing PIN, when powering handset on with USIM card lock enabled, etc.

- · Entering incorrect PIN three consecutive times activates PIN Lock. To cancel, Personal Unblocking Key (PUK) is required; contact SoftBank Customer Support, General Information.
- · Entering incorrect PUK ten consecutive times activates PUK Lock, disabling handset. For recovery, USIM Card must be reissued at a SoftBank Shop (fees apply).

Enabling USIM PIN

When PIN (a code for USIM Card) is enabled, PIN entry is required for handset use each time handset is powered on with USIM Card installed.

In Home Screen, Flick Hot Sheet up 😔 🌼 (Settings) 😔 Lock & Security

Turning Off Display (Screen Lock)

Screen Lock

After a period of inactivity, Display turns off to save battery power (Screen lock active). Screen lock prevents accidental Touchscreen operation.

• To activate Screen lock manually, Press 🕖 when Display is turned on.

If Screen Lock Activates while Playing Music

Music continues to play. For operation, Press 🕖 to open lock screen and use operation panel (operations may vary depending on application).

Unlocking Screen

When Display is turned off (Screen lock active),

Lock screen appears.

2

In lock screen, Drag 💼 or 🔒 up

Screen is unlocked.

 \cdot For enhanced security, set handset to require pattern drawing or Lock No./password entry for unlocking screen as needed. See "Lock & Security Settings" for details.

ģ

Another Way to Turn On Display

Set Display to turn on when handset is picked up and held still (Turn screen on by holding). See "On/Off with Motion Settings" for details.

Updating Software

Software Updates

At specified time, handset automatically checks for/downloads firmware updates as required.

- Software Update cannot be performed if application or function is in use.
- \cdot Alternatively, update firmware manually.

Software Update Cautions

Applications

Applications may be updated or newly added, or names, icons, operations and user interfaces of applications may be changed.

During Update

Handset cannot be used until Software Update completes; it may take some time to complete.

Data Backup

Saved data may be lost depending on condition of handset (malfunctioning, damaged, water seepage, etc.). It is recommended that you back up important data before updating software. SoftBank Corp. is not responsible for damages from loss of data.

Updating Software Manually

Operate handset where signal reception is good and without changing location. Also operate with adequate battery charge. Signal becoming weak or Battery becoming low during an update may cause an update failure.

- Remove Micro USB Cable (optional accessory) from handset beforehand; otherwise, Software Update may not complete properly.
- \cdot An update failure may disable handset.

1

In Home Screen, Flick Hot Sheet up ⊖ ‡ (Settings) ⊖ About phone

2

Software update

Software update menu opens.

Software update 🔿 YES ラ Follow onscreen prompts

🟁 Software Update starts.

Software Update Operations

🏁 Handset dials the number.

 \cdot Call begins when other party answers.

4
To end call, [End call]
Image: Constraint of the second se
Emergency Location Report
 Making emergency calls (110, 119 or 118) automatically reports handset location to corresponding agency (police, etc.). This system is referred to as Emergency Location Report, and notifies location based on positioning from base stations. Location Report does not incur registration/transmission fees. Location/signal conditions affect positioning accuracy. Always provide location and call purpose. Hiding Caller ID (using 184, etc.) cancels Location Report. However, corresponding agency may obtain location information in life threatening situations. Location Report is not sent for calls made while outside
Japan.
After Making an Emergency Call with Reject Call Enabled
Reject call is disabled for about two hours to receive calls from corresponding agency. To manually enable Reject call again after making an emergency call: Drag Status Bar down → Unblock all calls for emergency calls. → RESTORE PREVIOUS SETTINGS TO BLOCK CALLS. → YES
Troubleshooting
Q. Call does not connectA. Did you dial all digits for the number? Dial all digits for numbers starting with a "O" area code, etc.A. Is the signal weak? Change locations and call again.
Emergency Call Cautions
Areas Where Usable

 $\label{eq:Emergency calls from handset can be made only in SoftBank$ service areas.

Airplane Mode

Note that emergency calls cannot be made in Airplane mode. Drag Status Bar down with two fingers and cancel it.

Answering Calls

1

When a call arrives, Drag Answer down

🟁 Call connects.

' When screen is unlocked, Tap Answer at Display top.

2

To end call, End call

🏁 Call ends.

🍯 Missed Calls

For unanswered calls, notification appears in lock screen.

Notification

 \cdot Tap notification twice to check missed call records and call back as needed.

When screen is unlocked, Appears on Status Bar.
 Drag Status Bar down for Notifications Window, then
 Tap notification. When CALL and SMS appear below
 notification, Tap to call back or send SMS.

Phone

Call Window Layout/In-Call Operation

? Troubleshooting

- Q. Difficulty with call
- It may be difficult to make a call in a location with noise.
- A. Check the call volume when using Speakerphone. It may be difficult to make a call with a raised call volume.
- Q. The other party cannot hear me
- A. Are you covering Mic/Recorder Mic on the bottom surface of handset with your finger, etc.? Make sure not to cover Mic/Recorder Mic.
- Q. Sound experiences popping during a call
- A. Are you moving location during a call? Popping may occur when switching areas for a better signal. This is not a malfunction.

Using VoLTE

VoLTE (Voice over LTE) is a system enabling voice calls over LTE networks. Compared to voice calls over conventional 3G connections, high-sound quality calls and reduced time until ringtones sound are possible (requires separate subscription).

- Available when the counterpart model is a VoLTE-compatible model from SoftBank/Y!mobile. In addition, it is necessary for both handset and the counterpart model to be within the SoftBank 4G LTE (FDD LTE) service area, with "VoLTE voice call" and "Use 4G" enabled.
- \cdot VoLTE is unavailable during international roaming.

Disabling VoLTE

In Home Screen, Flick Hot Sheet up ラ 🌼 (Settings) 🤤	>
More ラ VoLTE voice call (🔵 appears)	
• Tap VoLTE voice call to toggle on ()/off ().	

VoLTE Caution

VoLTE uses 4G network service, and is unavailable when 4G network service is disabled on handset. If VoLTE is unavailable, follow the steps below to check whether 4G network service is enabled (✓ appears). In Home Screen, Flick Hot Sheet up Э 🔅 (Settings) Э

- More 🔶 Cellular networks 🔶 Use 4G
- · If disabled (🔲), Tap Use 4G to enable it (🗹).

Using HD Voice

HD Voice supports a wide range of audio tones for clearer, more natural-quality voice calls.

- Available when the counterpart model is an HD Voicecompatible model from SoftBank/Y!mobile.
- HD Voice is compatible with VoLTE and 3G network. Use HD Voice with VoLTE for voice calls of even higher quality.

Optional Services

Use these optional services for voice calls:

Optional Services

The following optional services are available.

Service	Description
Call Forwarding	Divert all/unanswered calls to a preset number.
Voicemail	Divert all/unanswered calls to Voicemail Center; access messages via handset/ touchtone phones.
Call Waiting ¹	Answer calls during a call.
Group Calling ¹	Merge multiple calls.
Notify Caller ID	Send or hide your number when placing calls.
Call Barring	Restrict incoming/outgoing calls by conditions.

1 Requires separate subscription.

• For No answer , Tap WAIT TIME and select ring time as needed.

Using Email

Send/receive email using 🖄 (Email), an email-only application.

Setting an Account

Set up an email account to use email. When activating 🚔 (Email) for the first time, account setup menu appears; complete setup.

• Information such as username (ID), password, and server name is required.

In Home Screen, Flick Hot Sheet up \bigcirc \bigoplus (Tools) \bigcirc 🖄 (Email)

🏁 Account setup menu opens at first activation.

Follow onscreen prompts to set up account

Account setup is complete.

84

Syncing Accounts Manually

In message list, Drag down

• Sync sent and received messages manually at any time regardless of the automatic sync settings.

Using the Internet (Chrome)

Use Chrome simply by entering words to search for or URLs.

Ö TLS

TLS (Transport Layer Security) is a protocol for encrypting sent/received data. While in a screen connected by TLS, data is encrypted to safely send/receive private information, credit card numbers, corporate secrets, etc., and provide protection against online threats (eavesdropping, falsification, impersonation, etc.).

I TLS Caution

When opening a secured page, users must decide as their responsibility whether or not to open the page with use of TLS. SoftBank Corp. and the Certification Authorities Symantec Website Security G.K. and Cybertrust make no guarantees whatsoever to users regarding security of TLS.

Camera

Capturing Photos/Videos

By default, photos and videos taken with handset are saved to handset (internal storage).

To save them on SD Card, insert SD Card before using Camera, then change save location as follows.

In Home Screen, Flick Hot Sheet up ラ 💼 (SHCamera)

♦ ♦ COMMON → Save To → microSD

Camera Cautions

General Use

Mind etiquette when using Camera.

Test Camera before shooting special moments. Do not use Camera in places where shooting is prohibited. Shot images may not be used/transferred without copyright holder (photographer) permission, except for personal use.

If Lens Becomes Dirty

Fingerprints/smudges on lens prevent capturing of clear images. Wipe lens with a soft cloth beforehand.

Avoid Exposure to Direct Sunlight

Be careful not to expose lens to direct sunlight for long periods. May discolor color filter and affect color of images.

Continuous Recording Time

Recording capacity is 2 GB per file (recording stops when exceeded). To continue recording, start another session.

🔕 Mobile Light Warning

Do not turn on Mobile Light close to eyes, look directly at Mobile Light when on, or shine Mobile Light in eyes; may affect eyesight or cause other problems.

Capturing Photos

In Home Screen, Flick Hot Sheet up ラ 📷 (SHCamera)

2

Aim Back Camera at subject

- \cdot Drag up/down to adjust brightness.
- Drag left/right or Pinch/Spread to adjust zoom.
- \cdot Tap subject for focus lock.
- To cancel focus lock, Tap area outside the focus mark.

• / Volume Up/Down Key

- 🏁 Shutter sound plays; photo is saved to internal storage.
- If focus is locked, alternatively, Tap the focus mark to capture photo.
- To capture photos continuously, Press () / Volume Up/ Down Key for 1+ seconds.

Viewfinder Layout

Switch between Front Camera and Back Camera. Change Mobile Light setting. Access various Camera settings. Change shooting mode.

7 Album/thumbnail

Open Album, or view immediately captured photo/video.

· Indicators shown in Viewfinder and available functions/ settings vary depending on Camera type and shooting mode.

Troubleshooting

- Q. Cannot open Camera/Camera exits suddenly
- A. Camera does not open if battery level is low. Charge handset adequately before using Camera.
- A. Continuing to use Camera while handset is warm causes warning to appear, after which Camera saves captured image data and exits.
- A. Camera exits automatically after a period of inactivity.
- Q. Images are dark/grainy
- A. Is there a strong light near the subject, or a strong light source in the screen? Avoid letting a strong light source (the sun, light, etc.) in the screen. Leaving handset in a warm place for a long time or where Camera is in direct sunlight for a long time may affect image quality.
- Q. Images captured with Mobile Light appear whitish
- A. A finger or cover near the lens can reflect light from Mobile Light and cause captured images to appear whitish.

Music & Images

Listening to Music (Play Music)	94
Viewing & Managing	Photos/Videos (Album)	96

Listening to Music (Play Music)

Playing Music

Supported file formats:

Connectivity

Connecting by Wi-Fi	100
Using Tethering	103
Using Bluetooth [®] Function	104

Connecting by Wi-Fi

Handset supports Wi-Fi (wireless LAN). Access the Internet via household Wi-Fi networks.

About Wi-Fi

Available in the following environments.

Environment	Description
At home	Connect handset to your Wi-Fi home network. If you have a broadband connection at home but do not have a Wi- Fi router, consider using a Wi-Fi router by FON offered by SoftBank Corp. If you are using a Wi-Fi router by FON, refer to the "Fonルーターかんたん設定ガイド (http:// mb.softbank.jp/mb/special/network/pdf/ wifi_howto_01.pdf) (Fon Router Easy Settings Guide)" (Japanese).
On the go	SoftBank Wi-Fi spots offered by SoftBank Corp. are available.

Automatic Updates for Optimizing Wi-Fi Connection

While using Wi-Fi, updates for optimizing connection may be received or applied automatically.

Enabling Wi-Fi

· If confirmation appears, follow onscreen prompts.

Using Bluetooth® Function

Connect handset to other Bluetooth® devices (e.g., headset) for handsfree conversations, or connect to other Bluetooth®capable mobile phones, etc. to exchange data.

Bluetooth[®] Function

The Bluetooth® function is a technology that enables wireless connection with PCs, Bluetooth® devices with handsfree functionality, etc. such as the following.

Function	Description
Sound output	Listen to music, audio, etc. wirelessly.
Handsfree	Use Bluetooth [®] devices (e.g., headsets) for
conversation	handsfree conversations.
Data exchange	Exchange data with Bluetooth® devices.

Bluetooth[®] Function Cautions

Connection

Bluetooth[®] connection may not be possible with some Bluetooth[®] devices. In addition, noise may interfere with wireless or handsfree conversations.

Data Exchange

Data may not appear correctly on recipient devices.

Receiving Data via Bluetooth®

See "Enabling Bluetooth® Function," "Pairing Bluetooth® Devices," "Connecting to Paired Bluetooth® Devices" and "Receiving Data via Bluetooth® (e.g., Address Book)" for details.

Storage Operations Checking Data Saved in Internal Storage In Storage menu, Internal shared storage Explore Encrypting/Decrypting SD Card Data In Storage menu, microSD Storage settings Encrypt / Release encryption Storage settings Enter Operation Password Storage screen beforehand. Set Lock No./password for unlocking screen beforehand.

Cautions for SD Card Encryption/ Decryption

Observe the following when encrypting/decrypting SD Card data.

- Charge handset adequately beforehand, and keep handset charged during the process.
- · Set Lock No./password for unlocking screen beforehand.
- Encryption/decryption is not available if there is not enough free space on SD Card.
- Encrypted SD Card cannot be used on any device other than the one used for encrypting the SD Card.
- To use encrypted SD Card normally, decrypt the SD Card.
- If you perform Reset all with SD Card encrypted, data on the SD Card becomes unusable. Disable encryption before performing Reset all.
- An unencrypted SD Card becomes read-only when installed in a device that has been used for encrypting another SD Card.
- · To write to read-only SD Card, encrypt it.
- SD Card encryption/decryption may take some time. Do not stop charging or remove SD Card during the process. If the process is interrupted, SD Card data may be lost.

Lock & Security Settings

Lock & Security Settings

Make security settings including Screen lock and security codes. Settable items are the following.

Item	Description
Operation password setting	Set Operation Password to use or change some functions. See "Setting Operation Password" for details.
Screen lock	Set screen unlock option.
Smart Lock	Set whether to unlock screen automatically by identifying a trusted device, place, face, or voice.
Set up USIM card lock	Set whether to require PIN entry for handset use when powering on. See "USIM PIN" for details.
Encrypt phone	Shows that handset is encrypted.
Visible passwords	Show/hide entered password characters.
Device administrators	Enable/disable handset management functions.
Unknown sources	Enable/disable installation of non-Google Play applications.
Storage type	Check storage type.
Trusted credentials	Enable/disable access by applications to secure certificates and other credentials.
User credentials	Manage user-installed credentials.
Install certificates	Install encrypted credentials.
Clear	Delete all credentials and reset
credentials	credentials storage password.
Trust agents	Show/hide trusted agents.
Screen pinning	Make only specified application accessible on handset.
Apps with usage access	Manage applications that can access application usage history data.

1

In Home Screen, Flick Hot Sheet up 😔 🄹 (Settings)

In Lock & Security menu, Install certificates 🔶 Follow onscreen prompts

- · Set pattern/Lock No./password for unlocking screen beforehand.
- · Credentials may be required when setting a Wi-Fi network. How to obtain credentials depends on issuer.

Deleting All Credentials and Resetting Credentials Storage Password

In Lock & Security menu, Clear credentials 🔿 OK

- · By erasing credentials storage, all VPN settings are also erased.
- · If method for unlocking screen is setting other than None or Swipe , first Tap OK and unlock screen.

Showing/Hiding Trusted Agents

In Lock & Security menu, Trust agents 🔿 Tap agent name

- · Set pattern/Lock No./password for unlocking screen beforehand.
- Tap agent name to toggle on (🛑)/off (💭).

Using Screen Pinning (Making Only Specified Application Accessible)

In Lock & Security menu, Screen pinning 🔿 Off 🗩 (🖸 📢 appears) ラ Activate target application 🔿 🔲 🔿 🚺 🔿 GOT IT

 \cdot To cancel screen pinning, Touch & Hold \checkmark .

Follow onscreen prompts

Screen Lock Cautions

Observe the following when locking screen.

- \cdot Do not forget pattern, Lock No. or password set for unlocking screen (write it down if necessary). If you forget it, visit a nearest SoftBank Shop for recovery procedure. Note that your data and settings are lost during the recovery process.
- · If pattern, Lock No. or password is set as screen unlock option and corresponding action is set as requirement for starting handset, it is necessary to draw the pattern, enter the Lock No. or enter the password when starting handset. In this case, after 10 and 20 consecutive failed entry attempts, handset must be restarted for retry. Note that handset is initialized after 30 consecutive failed attempts.

🏁 Backup & reset menu opens.

Set each item

Setting is complete.

🚹 Backup & Reset Operations

Setting Whether to Back Up Application Data, Wi-Fi Password, Etc. to Google Server

- In Backup & reset menu, Back up my data
 → On
 → Off
- Tap Off D to toggle On , On to toggle Off D.
- · If confirmation appears, follow onscreen prompts.

Setting Account for Backup

In Backup & reset menu, Backup account \supseteq Select account

 \cdot Available when "Back up my data" is enabled.

Enabling/Disabling Automatic Restore

In Backup & reset menu, Automatic restore

- Tap Automatic restore to toggle on ()/off ().
- · Available when "Back up my data" is enabled.

Resetting All Network-related Settings

In Backup & reset menu, Network settings reset → RESET SETTINGS → RESET SETTINGS

 When screen unlock option other than None or Swipe is set, after Tapping RESET SETTINGS, unlock screen to proceed.

Performing Reset All

In Backup & reset menu, Reset all → Enter Operation Password → OK → Read message → RESET PHONE → ERASE EVERYTHING

To delete all SD Card data simultaneously, Tap Delete
 data in microSD as well. (v appears).

Reset All Cautions

Observe the following when performing Reset all.

- Reset all deletes all data in internal storage irreversibly.
 Back up important data beforehand.
- · Deleted content cannot be restored. Reset with caution.

Importing Data from SD Card

Import data (Address Book, Mail, Schedule (Calendar), Notepad, User/Learning dictionary, emopa) saved to SD Card on other mobiles or handset to handset.

• See "Importing Data from SD Card (Data Transfer)" for details.

Importing Contacts via Bluetooth®

Import contacts from other mobiles using Bluetooth[®]. See "Importing Contacts via Bluetooth[®] (Data Transfer)" for details.

Saving Data to SD Card

Save data (Address Book, Mail, Schedule (Calendar), Notepad, User/Learning dictionary, emopa) on handset to SD Card.

- Insert SD Card beforehand. See "Inserting SD Card" for details.
- Depending on target device, data saved on handset may not be imported correctly.

1

In Home Screen, Flick Hot Sheet up 😔 🌼 (Settings)

2

3

Save data to microSD

• Tap Function information to view a video tutorial (Japanese) on Sharp Website.

Enter Operation Password 🔿 🛛

5

Tap item(s) to save

• When saving Address Book data (contacts), confirmation for saving face image appears. Follow onscreen prompts.

🏁 Saving starts.

 When saving only Mail messages, Tapping Save activates あんしんバックアップ (Anshin Backup). When saving data of other categories at the same time, data other than Mail messages is saved first; Tap Start backing up mails to proceed (あんしんバックアップ activates). Follow onscreen prompts. See "あんしんバックアップを利用する (http:// help.mb.softbank.jp/aquos-ea/pc/09-06.html)" (Japanese) for details.

Complete

Saving is complete.

Caution for Saving Data

Saving data requires at least 11 MB of free space in internal storage. Process stops if Battery runs low. Operate with adequate battery charge whenever possible.

File Storage

File Save Location

Save data to internal storage or SD Card. Default save location is internal storage; save location when creating data may be changed depending on application. Main file types and save locations are the following.

File Type	Description
Contacts, Bookmark, Calendar, Mail, TV programs	Created files are saved to internal storage. Save locations cannot be changed.
Still images (photos), videos	Created files are saved to internal storage.

 \cdot See "Internal Storage and SD Card" for more about SD Cards including insertion/removal procedure.

Backup & Restore

Backup/Restore Options

Backup and restore options are the following.

Option	Description
あんしんバック アップ (Anshin Backup)	Use あんしんバックアップ (Anshin Backup) application to back up handset data to a server in the network or to SD Card inserted in handset, and restore to handset as needed. See "あんしんバックアップを利用する (http://help.mb.softbank.jp/aquos-ea/ pc/09-06.html)" (Japanese) for details.
Corresponding applications	Depending on application, backup/restore settings can be changed.
Data transfer	Use Data transfer to import data on other mobiles or SD Card data saved on handset, or save (back up) handset data to SD Card. See "Backup & Reset" for details.
Transfer to other devices (e.g., PCs)	Connect handset to a PC or other device with Micro USB Cable and exchange data.

Changing Automatic Data Communication & Sync Settings

Change settings to automatically lower amount of data communication.

Settable items are the following.

Item	Description
Location	Disable use of location information. See "Location Settings" for details.
Auto sync	Disable automatic sync of applications and data set in your account. See "Accounts Settings" for details.
Background data communication	Restrict background data. See "Data Usage Settings" for details.
Communication outside Japan	Set handset to not permit data while using handset outside Japan. See "Call Barring" for details.

Troubleshooting

Check Here First

If symptoms continue even after checking, contact a nearby SoftBank Shop or Customer Service.

Troubleshooting

- Q. Handset does not power on
- A. Are you Long Pressing (1)? Press (1) until the logo appears.
- A. Is handset recharged? Recharge handset if not charged.
- A. Did you continue to use handset while warm before it powered off? Try powering handset on after it cools down.
- Q. Handset suddenly powers off/does not power on
- A. If handset continues to be used at high internal temperature, warning appears and handset powers off after approximately 3 minutes. Exit all applications and turn off Display to let handset cool down.

Q. Handset freezes/operation is unstable

- A. If handset stops operating or no longer accepts input, force-shut down handset.
 - (Long Press for at least 8 seconds)
 - \cdot Release 0 once handset vibrates; handset powers off.
- Q. Operation is unstable after a new application was installed
- A. The newly installed application may be the cause. Uninstall the application in Safe mode. See "Uninstalling Applications." To power on handset in Safe mode:
 - (Long Press) → Touch & Hold Power off → Check message, then OK
 - \cdot While in Safe mode, "Safe mode" appears at lower left.
 - After restarting in Safe mode, handset can be powered on as usual.
 - By powering on handset in Safe mode, added widgets may be deleted.
 - · Before powering on handset in Safe mode, it is recommended that you back up important data.
- Q. Handset initiates operation without Touchscreen being operated / Handset does not respond after Touchscreen being operated
- A. Press (1) to turn off screen, Press (1) again to turn on screen and then operate handset.

Permissions 🔿 Tap items whose permissions are

turned off

Q. Application/widget screens are not refreshed Setting Data saver to On may affect behavior of some applications, widgets and services, such as Yahoo! JAPANウィジェット. Set it to Off as follows and check if the problem is solved. In Home Screen, Flick Hot Sheet up 😔 🌼 (Settings) ⇒ Data usage ⇒ Data saver ⇒ On (Off) appears) Q. Display suddenly dims Display dims automatically when handset becomes warm. Display returns to original brightness once handset cools down. Q. Cannot unlock screen A. If handset stops operating or no longer accepts input, force-shut down handset. (Long Press for at least 8 seconds) · Release 🖉 once handset vibrates; handset powers off. Q. Cannot charge / Charging takes time Is Micro USB plug on AC Adaptor firmly inserted in handset? Remove and then reinsert firmly. A. Is AC Adaptor firmly plugged into a household AC outlet? Unplug and plug in again firmly. A. Are you using a non-specified AC Adaptor? Always use a specified product. Using an unspecified product not only prevents charging, but may also affect Internal Batterv. A. Is Charging/Notification Lamp blinking? In this case, handset is not being charged. Use a specified charger and charge handset. If charging is still not possible, contact Customer Service or a SoftBank Shop. A. Is Micro USB plug on AC Adaptor soiled? Clean terminals with a clean, dry cotton swab, etc. before charging. A. Are you recharging by USB? Recharging by USB takes longer than with AC Adaptor. You may also not be able to recharge depending on the connection environment. Q. Recharging stops / Recharging does not start Recharging stops automatically if handset becomes warm. Recharging starts again once handset cools down.

- A. Is USIM Card installed properly? Is it installed in the right location and orientation? Turn off handset, check whether USIM Card is installed properly, and then turn handset on again. If this does not remedy the problem, USIM Card may be damaged.
- A. Are there any fingerprints, etc. or other soiling on the IC (gold) chip on USIM Card? Remove USIM Card, wipe with a clean, dry cloth, and install it again properly.
- A. Is wrong USIM Card installed? An unusable USIM Card may be installed. Make sure that the right USIM Card is installed.
- Q. Cannot recharge by USB
- A. Is the computer turned on? You cannot recharge if the computer is not turned on.
- A. Are you using a USB hub? You may not be able to recharge if using a USB hub. Connect the optional Micro USB Cable to the computer.
- Q. Cannot make a call / Calls do not connect
- A. Is Airplane mode set? If 🛧 appears on Status Bar, to cancel Airplane mode :

Drag Status Bar down with two fingers \Rightarrow Airplane mode

- A. Did you dial all digits for the number? Dial all digits for numbers starting with a "O" area code, etc.
- Are you where handset receives a signal? Check signal, Α. change locations and call again.
- Q. Cannot hear the other party
- A. Is the call volume low? To turn the call volume up, Press Volume Up Key during a call.

Specifications

Handset

Handset specifications are as follows.

- · Times in the table vary with location, status, settings, etc.
- · Display employs precision technology; however, some pixels may remain on/off.

Item	Description
Dimensions (W x H x D)	Approx. 71 mm x 142 mm x 8.8 mm (without protruding parts)
Weight	Approx. 135 g
Maximum Output	3G: 0.25 W GSM (850 MHz, 900 MHz): 2 W GSM (1800 MHz, 1900 MHz): 1 W 4G: 0.2 W
Internal Battery Capacity	3,010 mAh
Continuous Talk Time¹	3G: Approx.1220 minutes GSM: Approx. 910 minutes VoLTE: Approx. 1220 minutes
Continuous Standby Time²	3G: Approx. 875 hoursGSM: Approx. 795 hours4G (AXGP Network): Approx. 695 hours4G (FDD-LTE Network): Approx. 745 hours
TV Continuous Viewing Time ³	Approx. 11 hours
Charging Time ⁴	ZSDBA4 (Micro USB Quick Charge [™] 2.0 AC Adaptor) ⁵ : Approx. 140 minutes ZSDBA6 (Micro USB 1.0 A AC Adaptor) ⁶ : Approx. 210 minutes
Maximum Transmission Speed ⁷	SoftBank 4G LTE: 187.5 Mbps ⁸ in downlink, 37.5 Mbps in uplink SoftBank 4G: 165 Mbps in downlink, 10 Mbps in uplink SoftBank 3G: 21 Mbps in downlink, 5.7 Mbps in uplink
signal condition	red with handset fully charged, in strong ns at rest. red with handset fully charged, without

- calls or operations, in strong signal conditions at rest, and
- with data communication and Urgent News disabled. May vary with battery strength, ambient temperature, settings, etc.
- 3 Calculated in full-screen landscape mode, with Automatic brightness in Brightness level disabled (and with the default Brightness settings), with Earphones with Mic (sold separately), and volume at maximum, starting from handset fully-charged and continuing until 10% remaining battery charge.

Usable time may vary with radio signal conditions and the content played.

- 4 Measured with power off using AC Adaptor.
- 5 SB-AC12-HDQC (SoftBank SELECTION Qualcomm® Quick Charge[™] 2.0 AC Adaptor for smartphones)

QUOS ea

- 6 SB-AC13-HDMU (SoftBank SELECTION Micro USB 1.0 A AC Adaptor for smartphones)
- 7 Provided on a best-effort basis; transmission speed may decrease or transmission may become unavailable due to traffic conditions, network environment, etc.
- 8 Downlink max. 187.5 Mbps service areas provided in major cities nationwide.

TV Antenna Cable

Item	Description
Cable Length	Approx. 136 mm (including plug and jack)
Weight	Approx. 5 g
4-Pole Mini-	Round type, diameter 3.5 mm, 4-pole
Plug	nound cype, and necel bib hinty i pore

Materials (Handset)

Parts	Materials Used/Surface Finish
Display Surface	Tempered glass/AF coating
Back Surface	PC resin/hard coating
Exterior	PC resin + ABS resin/coating, hard coating, printing
Exterior (periphery ornament)	PA resin (containing glass)/coating, hard coating
Power Key	PC resin/coating, hard coating
Volume Up/ Down Key	PC resin/coating, hard coating
Camera Panel	Acrylic resin + PC resin/AF coating + AR coating
Camera Ornament	Aluminum/anodizing
Earpiece Screen	Polyester resin/water-repellent treatment
External Connection Jack (metal part)	SUS + copper alloy/tin plating, gold plating
External Connection Jack (resin part)	PA resin
Card Slot Cap	PC resin/coating, hard coating
Card Slot Cap Hinge	Elastomer resin
Card Slot Cap Gasket	EPDM
USIM Card Slot	SUS
SD Card Slot	SUS/nickel plating
USIM Tray	POM resin
IMEI Sheet	PET resin

Materials (TV Antenna Cable)

Parts	Materials Used/Surface Finish
Earphones- Microphone Jack (resin part)	Elastomer resin
Earphones- Microphone Jack (metal part)	Nickel base, brass/gold plating
Cord	Elastomer resin
Plug (resin part)	Elastomer resin, PP resin, POM resin
Plug (metal part)	Nickel base, brass/gold plating

Warranty & After-Sales Service

Warranty

Handset purchase includes warranty.

- \cdot Check shop name and purchase date.
- \cdot Read warranty and keep in a safe place.
- \cdot Warranty period is given in warranty.

Cautions

Damages

SoftBank Corp. is not responsible for any damages for user or third party resulting from lost opportunities to make a call, etc. due to breakage, malfunction, or trouble of product.

Malfunction/Repairs

Information/settings on handset may be lost/changed due to malfunction or repairs. It is recommended that you keep a copy of Address Book contacts and other important information. SoftBank Corp. is not responsible for loss/ change of data (contacts, images, sound, etc.) or settings due to malfunction, repairs, change of model, or any other handling.

Disassembly/Modification

Disassembly/modification of handset is prohibited under the Radio Law. Note that handset cannot be accepted for repairs if modified.

Adhering stickers, etc. on Display or Keys or adhering decorations with glue, etc. may be deemed to be modifications, and prevent acceptance of handset for repairs.

After-Sales Service

To request repairs, contact Customer Service or a nearby SoftBank Shop. Have details of symptoms ready.

- During the warranty period, repairs are made under the terms and conditions of the warranty.
- After the warranty period, if handset can be repaired, repairs will be made at cost.

🖉 Further inquiries

For more information on after-sales service, contact a nearby SoftBank Shop or Customer Service.

Customer Service

For SoftBank handset or service information, call General Information. For repairs, call Customer Assistance.

SoftBank Customer Support

🖉 General Information

From a SoftBank handset, dial toll free at 157 From a landline/IP phone, dial toll free at 0800-919-0157

Customer Assistance (Repairs/Lost Handsets)

From a SoftBank handset, dial toll free at 113 From a landline/IP phone, dial toll free at 0800-919-0113 If you cannot reach a toll free number, use the number (charges apply) below for your service area: Hokkaido Area, Tohoku Area, Hokuriku Area, Kanto & Koshinetsu Area: 022-380-4380 Kansai Area: 06-7669-0180 Chugoku Area, Shikoku Area, Kyushu & Okinawa Area: 092-687-0010

Smartphone Technical Support Center

From a SoftBank handset, dial toll free at 151 From a landline/IP phone, dial toll free at 0800-1700-151

SoftBank Global Call Center

From outside Japan, dial +81-92-687-0025 (toll free from SoftBank handsets)

If handset is lost/stolen, call this number immediately (international charges apply)

Safety Precautions

Read Safety Precautions before using handset. Observe precautions to avoid injury to self or others, or damage to property.

Safety Precautions

These labels show degree of risk from improper use.

Label	Description
	Great risk of death or serious injury ¹
	Risk of death or serious injury ¹
	Risk of minor injury ² or property damage ³

1 Serious injury: This refers to loss of sight, injury, burns (high- and low-temperature), electric shock, broken bones, injuries with residual aftereffects from poisoning, etc., and injuries requiring hospital admission for treatment or longterm hospital attendance as an outpatient.

2 Minor injury: This refers to injuries, burns (high- and lowtemperature), electric shock, etc. that do not require hospital admission for treatment or long-term hospital attendance as an outpatient.

3 Property damage: This refers to extended damage to buildings, furniture, livestock, pets, etc.

These symbols signify prohibited/compulsory actions.

Symbol	Description
Prohibited	Prohibited actions
Do Not Disassemble	Disassembly prohibited
Avoid Liquids Or Moisture	Exposure to liquids prohibited
Do Not Use Wet Hands	Use with wet hands prohibited
Compulsory	Compulsory actions
Disconnect Power Source	Unplug from outlet

Handset, USIM Card, TV Antenna Cable, AC Adaptor (Sold Separately), Micro USB Cable (Optional Accessory) (Common)

A DANGER

Do not use, store, or leave in extreme heat or where heat collects, such as fire, heat sources, under a kotatsu (blanketed warming table) or blanket, direct sunlight, inside vehicles in the hot sun, etc.

May cause fire, burns, injury, electric shock, etc.

Keep away from cooking appliances (microwave ovens, induction stoves, etc.) and pressure vessels (e.g., pressure cookers).

May cause fire, burns, injury, electric shock, etc.

Do not subject to or place directly on sand, soil, or mud. Do not touch with dirty hands.

May cause fire, burns, injury, electric shock, etc. For details on water and dust resistance, see "Water & Dust Resistance."

Prohibited

Do not charge handset while it is wet with water or other liquids (drinking water, sweat, sea water, pet urine, etc.).

May cause fire, burns, injury, electric shock, etc. For details on water resistance, see "Water & Dust Resistance."

Do not apply excessive force to or break handset. Particularly when carrying handset in your clothes pocket, do not bump it or place it between objects.

Internal Battery may ignite, burst, overheat, or leak, causing fire, burns, injury, etc.

* Examples of where to be careful

 \cdot Sitting or squatting with handset in your pants or skirt pocket

 \cdot Handset becoming caught in a sliding door or vehicle door when in a jacket pocket

 \cdot Stepping on handset when it is on something soft such as a sofa, bed, or futon or on the floor

Do Not Disassemble

Do not disassemble or modify.

May cause fire, burns, injury, electric shock, etc.

Avoid Liquids Or Moisture

Do not wet with water or other liquids (drinking water, sweat, sea water, pet urine, etc.).

May cause fire, burns, injury, electric shock, etc. For details on water resistance, see "Water & Dust Resistance."

Do not let water or other liquids (drinking water, sweat, sea water, pet urine, etc.) enter charging terminals or External Connection Jack.

May cause fire, burns, injury, electric shock, etc. For details on water resistance, see "Water & Dust Resistance."

Compulsory

Use optional accessories specified by SoftBank Corp.

Using unspecified accessories may cause fire, burns, injury, electric shock, etc.

Prohibited

Do not drop, stomp, throw or subject to excessive force or strong impact/vibration.

May cause fire, burns, injury, electric shock, etc.

Keep conductive materials (metal strip, pencil lead, etc.) away from charging terminals and External Connection Jack. Do not let dust enter them.

May cause fire, burns, injury, electric shock, etc.

Do not cover/wrap with a blanket, etc. while using or charging.

May cause fire, burns, etc.

Compulsor

If charging continues even after specified Charging Time, stop charging.

Failure to do so may cause fire, burns, injury, etc. due to overcharge or for other reasons.

Before entering an area with a risk of flammable gas generation (e.g., a gas station) or where dust is generated, be sure to power off handset and stop charging.

Failure to do so may cause explosion, fire, etc. When using Osaifu-Keitai® at a gas station or similar facility, be sure to power off handset beforehand. (If NFC/ Osaifu-Keitai lock is set, disable it before powering off.)

Compulsory

If there is abnormal odor/sound, smoke, overheating, discoloration, distortion, or other abnormalities, follow these steps.

- \cdot Unplug from the outlet.
- \cdot Power off handset.

Failure to follow the above steps may cause fire, burns, injury, electric shock, etc.

Do not use if broken.

May cause fire, burns, injury, etc.

Do not place on unstable surfaces; take added care when vibration is set.

Handset or related hardware may fall, resulting in injury, etc.

Do not use or store in a location that is subject to excessive dust, high humidity, or high temperatures.

May cause fire, burns, electric shock, etc. For details on water and dust resistance, see "Water & Dust Resistance."

For use by a child, explain instructions and supervise use.

Failure to do so may cause injury, etc.

Do not leave within the reach of small children.

May cause accidental swallowing, injury, electric shock, etc.

Compulsor

Handset may become hot if used continuously for an extended period or while charging. Be careful of prolonged contact even by accident such as falling asleep.

Handset or AC Adaptor may become hot after prolonged use of applications, call functions, data communication, TV/video viewing functions, etc. or while charging. Prolonged direct contact with hot parts may cause skin irritation, itchiness, rashes, low-temperature burns, etc. depending on your physical condition. Handset

🕂 DANGER

Do not throw into a fire or apply heat.

May cause fire, burns, injury, etc.

Do not apply excessive force; do not puncture with a nail or other sharp-pointed object, hit with a hammer or other hard object, or stomp.

May cause fire, burns, injury, etc.

If substances in handset get in eyes or mouth, rinse with clean water and consult a doctor immediately.

Substances in handset may cause loss of sight or other physical harm.

Do not shine Mobile Light close to eyes. Maintain a safe distance, especially from small children.

May cause visual impairment or other problems; may temporarily affect eyesight or startle, leading to injury or other accident.

Do not point Mobile Light at drivers when it is turned on.

May hinder driving performance, leading to an accident.

Do not stare at Display for a long period when it is flickering.

May cause spasms, loss of consciousness, etc.

Do not let water or other liquids (drinking water, sweat, sea water, pet urine, etc.) or a foreign object (metal strip, flammable material, etc.) enter USIM/SD Card Slot.

In addition, insert USIM Card and SD Card into correct openings in correct orientation.

May cause fire, burns, injury, electric shock, etc.

Do not expose Camera lens to direct sunlight for an extended period.

May cause fire, burns, injury, etc. due to light-collecting mechanism of the lens.

Compulsory

Power off handset or activate Airplane mode before boarding an airplane.

Handset use on airplanes is restricted; follow the instructions given by the respective airlines. Radio waves may adversely affect an airplane's electronic devices.

If you engage in a prohibited activity while using handset on an airplane, you may be punished by law.

Regarding handset use in a hospital, follow the instructions given by the respective medical institution.

Power off handset where handset use is prohibited. Radio waves may adversely affect an airplane's electronic devices or electronic medical devices.

When you are on a handsfree call, while ringtone is playing loudly, when in standby, etc., be sure to keep handset at a safe distance from your ears.

When you attach earphones-microphone to handset and play games, videos, or music, adjust the volume to a comfortable level beforehand.

When making a handsfree call, handset emits sound loudly. Even in standby, the ringtone or alarm may ring suddenly. Listening to loud sound continuously for a long time may cause hearing impairment or other difficulty.

In addition, not being able to hear surroundings may cause an accident.

If you have a weak heart, adjust ringtone vibration and volume as needed.

Handset suddenly vibrating and ringing for a new call may startle you and adversely affect your heart.

If you are using an electronic medical device, check with its manufacturer or vendor on radio wave effects before using handset.

Radio waves may adversely affect electronic medical devices, etc.

Power off handset near electronic devices that employ high precision control systems or weak signals.

Radio waves may cause electronic devices to malfunction or may adversely affect the operation.

Take added care near these devices: Hearing aids, implanted pacemakers/defibrillators and other electronic medical devices; other automatic control devices. If you are using an electronic medical device such as an implanted pacemaker/defibrillator, check with its manufacturer or vendor on radio wave effects.

Compulsor

If Display or Camera lens breaks, be careful with shards of broken tempered glass and exposed handset parts.

Touching the broken or exposed parts may cause burns, injury, electric shock, etc.

Compulso

If Internal Battery leaks or there is abnormal odor, discontinue use immediately and keep sources of flame away.

Leaked fluid may catch fire, causing the battery to ignite, burst, etc.

Compulsor

Do not let your pet bite handset.

Internal Battery may ignite, burst, overheat, or leak, causing fire, burns, injury, etc.

When using the motion sensor and electromagnetic sensor, make sure of the safety around you and hold handset firmly; do not swing with excessive force.

Failure to do so may cause injury or other accident.

If Display breaks and internal substances leak, do not let them come into contact with skin (face, hands, etc.) or clothes.

May harm sight, skin, etc.

If internal substances get in eyes or mouth or if they come into contact with skin or clothes, rinse with clean water immediately.

In case of contact with eyes or mouth, consult a doctor immediately after rinsing.

Do not dispose of handset with regular trash.

May cause fire, burns, injury, etc. May also adversely affect the environment. When handset is no longer needed, take it to a SoftBank shop, or follow the local regulations regarding handset collection.

If substances in Internal Battery leak, do not let them come into contact with skin (face, hands, etc.) or clothes.

May harm sight, skin, etc.

If internal substances get in eyes or mouth or if they come into contact with skin or clothes, rinse with clean water immediately.

In case of contact with eyes or mouth, consult a doctor immediately after rinsing.

Compulso

Before using handset in a vehicle, check with the manufacturer or dealer of the vehicle on radio wave effects.

In rare cases, radio waves may adversely affect operation of on-vehicle electronic devices, depending on the type of vehicle. If this occurs, discontinue use immediately.

Compulsor

For any skin abnormalities associated with handset use, discontinue use and consult a doctor immediately.

Handset use may cause itchiness, skin irritation, rashes, etc. depending on your physical condition.

For details on materials used for handset parts, see "Materials (Handset)."

Compulsory

Earpiece, Speaker, and Camera have magnetic parts; make sure that no metal strip (a craft knife blade, staple, etc.) is adhered.

Metal strip on handset may cause injury, etc.

Compulsory

See Display in a sufficiently bright place at a reasonable distance.

Seeing in a dark place or at a close distance may deteriorate vision or cause other problems.

AC Adaptor (Sold Separately)

Prohibited

Do not use AC Adaptor if the cord is damaged.

May cause fire, burns, electric shock, etc.

Prohibited

Do not use AC Adaptor in high humidity (e.g., in bathrooms).

May cause fire, burns, electric shock, etc.

Do not touch AC Adaptor if thunder is audible.

May cause electric shock, etc.

Do not short-circuit charging terminals when AC Adaptor is plugged into the outlet. In addition, keep your hands and other body parts away from charging terminals.

May cause fire, burns, electric shock, etc.

Do not place a heavy object on top of AC Adaptor cord; do not apply excessive force by pulling, etc.

May cause fire, burns, electric shock, etc.

When plugging/unplugging AC Adaptor into/ from the outlet, keep metal objects (e.g., metal straps) away.

Failure to do so may cause fire, burns, electric shock, etc.

Do not use AC Adaptor with a voltage converter designed for overseas travel.

May cause ignition, overheating, electric shock, etc.

When AC Adaptor is connected to handset, do not apply excessive force to the connection.

May cause fire, burns, injury, electric shock, etc.

Do Not Use Wet Hands

Do not touch AC Adaptor cord, charging terminals, or power plug with wet hands.

May cause fire, burns, electric shock, etc.

Compulsor

Use at the specified power supply voltage.

When charging handset overseas, use AC Adaptor designed for overseas use.

Use at other power supply voltages may cause fire, burns, electric shock, etc.

AC Adaptor: AC 100 V (connect to a household AC outlet only)

AC Adaptor designed for overseas use: AC 100 V - 240 V (connect to a household AC outlet only)

Compulso

Clean off dust on plug.

Using Charger when dust is on plug may cause fire, burns, electric shock, etc.

Compulsor

Plug AC Adaptor into the outlet firmly.

Failure to do so may cause fire, burns, electric shock, etc.

Compulsor

When unplugging from the outlet, grasp AC Adaptor and pull, without forcefully pulling cord.

Pulling the AC Adaptor cord may damage the cord, causing fire, burns, electric shock, etc.

Compulso

When inserting/removing Micro USB plug into/ from handset, insert/remove it straight into/ from Jack, without forcefully pulling cord.

Inserting/removing in an incorrect orientation may cause fire, burns, injury, electric shock, etc.

If charging terminals become bent or deformed, discontinue use immediately. In addition, do not use AC Adaptor by restoring the terminals to their original state.

May cause fire, burns, injury, electric shock, etc. due to short-circuiting of charging terminals.

Unplug AC Adaptor from the outlet when not in use.

Leaving it plugged in may cause fire, burns, injury, electric shock, etc.

If splashed with water or other liquids (drinking water, sweat, sea water, pet urine, etc.), unplug from the outlet immediately.

Splashing can cause short-circuiting, causing fire, burns, electric shock, etc.

Before cleaning, unplug AC Adaptor from the outlet.

Cleaning AC Adaptor without unplugging it may cause fire, burns, electric shock, etc.

Do not touch AC Adaptor for long periods when it is plugged into the outlet.

May cause burns, etc.

USIM Card

When handling USIM Card, be careful with cut edges so as not to damage your hands or other body parts.

Cut edges may be sharp and cause injury.

Compulsor

If there is abnormal odor/sound, smoke, overheating, discoloration, distortion, or other abnormalities, disconnect TV Antenna Cable.

Failure to do so may cause fire, burns, injury, electric shock, etc.

Compulsory

When disconnecting TV Antenna Cable from handset, grasp plug and pull, without forcefully pulling cord.

Pulling the cord may damage the cord, causing fire, burns, electric shock, etc.

Do not touch TV Antenna Cable if thunder is audible.

May cause electric shock, etc.

Do not place a heavy object on top of TV Antenna Cable; do not apply excessive force by pulling, etc.

May cause fire, burns, electric shock, etc.

When connecting/disconnecting TV Antenna Cable to/from handset, keep metal objects (e.g., metal straps) away.

Failure to do so may cause fire, burns, electric shock, etc.

Do Not Use Wet Hands

Do not touch TV Antenna Cable with wet hands.

May cause fire, burns, electric shock, etc.

TV Antenna Cable is not water or dust proof.

Do not use or store in a location that is subject to excessive dust, high humidity, or high temperatures.

May cause fire, burns, electric shock, etc.

If you are using an electronic medical device (implanted pacemaker, implanted defibrillator, etc.), carry or use handset at least 15 cm away from where the device is.

Radio waves may adversely affect operation of electronic medical devices.

Before using an electronic medical device other than an implanted pacemaker or implanted defibrillator outside a medical institution (for home treatment, etc.), check with its manufacturer on radio wave effects.

Radio waves may adversely affect operation of electronic medical devices.

In a situation where you may not be able to maintain a distance of at least 15 cm from other persons, such as when your movement is restricted, disable radio wave emission by activating Airplane mode, powering off handset, etc.

There may be persons with an electronic medical device (implanted pacemaker, implanted defibrillator, etc.) nearby. Radio waves may adversely affect operation of electronic medical devices.

Regarding handset use in a medical institution, follow the instructions given by the medical institution.

Radio waves may adversely affect operation of electronic medical devices.

Important Product Information

General Use

- If your USIM Card or handset (with USIM Card inserted) is lost or stolen, suspend your service immediately. For details, contact SoftBank Customer Support, General Information.
- Handset transmissions may be disrupted inside buildings, tunnels or underground, or when moving into/out of such places; may affect calls.
- · Use handset without disturbing others.
- Handsets are radios as stipulated by the Radio Law. Under the Radio Law, handsets must be submitted for inspection upon request.
- Charging by USB takes longer than by household AC outlet. Charging may not be possible/take a long time depending on connection and computer conditions.
- Handset use near landlines, TVs or radios may cause interference.
- · Beware of eavesdropping.

Because this service is completely digital, the possibility of signal interception is greatly reduced. However, some transmissions may be overheard.

Eavesdropping

Deliberate/accidental interception of communications constitutes eavesdropping.

- \cdot Beware of harmful/malicious websites. Take added care when posting personal information.
- Display uses liquid crystal.

When wearing polarized sunglasses and depending on the angle, the screen may appear dark or distorted.

 An export license may be required to carry handset into other countries if it is to be used by or transferred to another person. However, no such license is required when taking handset abroad for personal use on a vacation or business trip and then bringing it back.

Export control regulations in the United States provide that an export license granted by the US government is required to carry handset into Cuba, Iran, North Korea, Sudan or Syria.

Heat from Handset Use

 Handset internal temperature may increase depending on usage or environment, causing handset to become warm.
 (Handset may stop charging or Display brightness may be adjusted for safety.)

If handset continues to be used while warm, warning appears and handset powers off after approximately 3 minutes. Exit all applications and turn off Display to let handset cool down.

• Continuing to use Camera while handset is warm causes warning to appear, after which Camera saves captured image data and exits.

Camera

- Mind etiquette when using Camera.
- \cdot Test Camera before shooting special moments.
- \cdot Do not use Camera in places where shooting is prohibited.
- Shot images may not be used/transferred without copyright holder (photographer) permission, except for personal use.

ΤV

failure.

- Handset transmissions may be disrupted inside buildings, tunnels or underground, or when moving into/out of such places; may affect TV viewing.
- As handset transmissions differ according to where used, TV viewing may not be possible in some areas. View in a location with good handset transmission.

Urgent News (Application)

- · Urgent News is enabled by default (can also be disabled).
- \cdot Alert tones are muted in Manner mode.
- Alerts are not received during calls/transmissions or in poor signal conditions.
- (Alerts can be received during voice calls over VoLTE.)
- Depending on usage/situation, handset may receive alerts for other areas or no alerts.
- \cdot Standby Time may decrease when Urgent News is enabled.
- SoftBank Corp. cannot be held liable for any damages associated with this service, including accidents resulting from received information, reception timing or reception

Technical Regulations Conformity Certification

Handset conforms to technical regulations pursuant to the Radio Law and the Telecommunications Business Law. To check technical regulations conformity certification information (e.g., \bigoplus):

Voluntary Control of Radio Interference

Handset & Hardware Care

- Use handset within 5°C 35°C and 35% 90% humidity. For use in bathrooms, see "Cautions for Use in a Bathroom."
- · Avoid extreme temperature or direct sunlight.
- \cdot Handset/Internal Battery may become warm during operation or while charging. This is normal.
- \cdot Warranty does not cover malfunctions resulting from misuse.
- Clean handset with a soft dry cloth. Alcohol/solvent use may fade color/print.
- \cdot Avoid scratching Display.
- Avoid heavy objects or excessive pressure. May cause malfunction or injury.
- Do not sit on handset in back pants pocket.
- \cdot Do not place heavy objects on handset inside handbags, packs, etc.
- Handset back cover is not removable. Do not try to remove it; may cause damage or malfunction, or affect water and dust resistance.
- Connect only specified products to Jacks. Other devices may malfunction or cause damage.
- \cdot Do not power off while using SD Card; may result in data loss or malfunction.
- When walking outside, moderate handset volume to avoid accidents.
- If thunder is audible while outdoors, discontinue use; there is a risk of lightning strike or electric shock.
- When holding handset, do not block Earpiece, Mic, Speaker, or Recorder Mic.
- Proximity Sensor prevents Touchscreen misoperation during calls. Do not cover or place a sticker/label over Proximity Sensor; Display may remain off during calls, disabling handset operation.
- If your hair is between Earpiece and your ear during calls, Proximity Sensor may not function properly.
 Display may remain on; touching Display accidentally may end the call.
- Do not cover Light Sensor or place a sticker/label over it; may hinder ambient light detection, resulting in malfunction of Light Sensor.
- Handset Earpiece is located at the center of Display upper end. If other party's voice is hard to hear during calls, hold handset so that Earpiece is next to your earhole for better audibility.

USIM/SD Card Insertion/Removal

1

Open Card Slot Cap by hooking a finger on notch

2

Insert/remove USIM/SD Card

- Insert USIM Card and SD Card into correct openings in correct orientation.
- · USIM Card Insertion/Removal
- · Always power off before insertion/removal.
- \cdot Set USIM Card in USIM Tray beforehand. Do not insert
- USIM Card without setting it in USIM Tray.

 \cdot Place USIM Card in USIM Tray, noting its orientation; align notches with IC (gold) chip facing up.

- \cdot Make sure USIM Card is in USIM Tray. Inserting USIM Tray
- with USIM Card on its edge may cause damage.
- \cdot Do not insert USIM Tray upside down.

 \cdot When removing USIM Tray, do not pull it forcefully or at an angle; damage may result. Gently pull it out horizontally from the edge.

 \cdot When inserting empty USIM Tray, do not insert it at an angle; damage may result. Check orientation of USIM Tray, then gently insert it all the way horizontally.

- \cdot SD Card Insertion/Removal
 - \cdot Unmount SD Card beforehand.

 \cdot When removing SD Card, lightly push it in and release finger (SD Card pops out slightly); gently pull it out horizontally.

3

Close Card Slot Cap

Lift Card Slot Cap in direction 1, reinsert hinge (2), fit Card Slot Cap so that there is no gap between it and handset, and then push along in direction shown (3). To close, push firmly by sliding with finger from circled area (O) toward hinge (4).

Display (Touchscreen)

Handset Display is Touchscreen.

If Display is wet, wipe it with a soft cloth.

- \cdot Touchscreen may not respond in these situations:
 - \cdot Use with gloves/long fingernails
 - \cdot Use of pens, pencils or sharp objects
 - \cdot Use with objects on/against Display
 - \cdot Use while wet
- \cdot To prevent malfunctions, do not:
- \cdot Touch Display with wet fingers
- \cdot Use if Display is wet
- \cdot Subject Display to force/pressure
- \cdot Place a sticker or shield (commercially-available protective film, privacy protector shield, etc.) on Display
- In the following cases, Press (b) to turn off Display,
 Press (c) again to turn on Display and then operate handset.
- \cdot Handset operates automatically without touch input
- \cdot Handset does not respond to touch input

TV Antenna Cable

To view or record TV, connect TV Antenna Cable to Earphones-Microphone Jack.

- To use earphones while using TV Antenna Cable, connect Stereo Earphones with Mic (sold separately) to earphonesmicrophone jack on TV Antenna Cable.
- Insert plug firmly. If plug is not inserted all the way, broadcasts may not be received or audio may not be heard.
- As connection may be poor if Jack is dirty, clean with a dry cotton swab, etc. Avoid damaging Jack when cleaning.
- Do not deform TV Antenna Cable plug or Earphones-Microphone Jack. Deforming may cause malfunction.
- Bringing earphone cord, etc. close to handset may result in noise.

TV Antenna Cable

Earphones-Microphone

Some earphones-microphones may not work properly.

• Do not subject Earphones-Microphone Jack to strong impact while using earphones-microphone; may affect water and dust resistance.

Self Check

If handset is unstable, diagnose the cause as follows. In Home Screen, Flick Hot Sheet up → ‡ (Settings) → Useful → Self check → Follow onscreen prompts

Forcing Power Off

If handset has stopped processing or won't respond to operation, power off forcibly as follows.

・ (U) (Long Press for at least 8 seconds) Release finger after vibration; handset powers off.

Bluetooth® Function

SoftBank Corp. is not liable for any damages resulting from data/information leakage due to use of handset Bluetooth[®] function.

Precautions

The frequency band utilized by handset Bluetooth® function is shared with industrial, scientific or medical equipment, including household microwave ovens, and used by radio stations, amateur radio stations, etc. (hereafter "other radio stations").

 Before using Bluetooth®, visually check that no other radio stations sharing the same frequency band are in use nearby.
 Should interference occur between handset and other radio stations, move it to a different location or cancel Bluetooth® function immediately.

3. For additional information and support, contact SoftBank Customer Support, General Information: From a SoftBank handset, call toll free at 157. To call toll free from a landline/IP phone, see "Customer Service."

· Frequency Band

This radio station utilizes 2.4 GHz band.

FH1 indicates FHSS modulation with maximum transmission radius of 10 meters.

XX4 indicates a different modulation scheme with maximum transmission radius of 40 meters.

It is not possible for the radio station to avoid using the frequency band of a mobile unit identification apparatus.

Wi-Fi (Wireless LAN)

Wireless LAN (hereafter "Wi-Fi") uses radio waves to enable communication between compatible devices within range. However, it is advisable for the user to configure security settings to avoid risk of data interception.

- Do not use Wi-Fi near electrical appliances, audiovisual equipment or office automation equipment; may affect Wi-Fi transmission speed, availability, clarity, etc. (Especially when a microwave oven is in use.)
- If there are multiple access points nearby, handset may not detect access points correctly.

Precautions

The frequency band utilized by handset Wi-Fi is shared with industrial, scientific or medical equipment, including household microwave ovens, and used by radio stations, amateur radio stations, etc. (hereafter "other radio stations").

 Before using Wi-Fi, visually check that no other radio stations sharing the same frequency band are in use nearby.
 Should interference occur between handset and other radio stations, move it to a different location or disable Wi-Fi immediately.

3. For additional information and support, contact SoftBank Customer Support, General Information: From a SoftBank handset, call toll free at 157. To call toll free from a landline/IP phone, see "Customer Service."

· Frequency Band

This radio station utilizes 2.4 GHz band. Maximum transmission radius is 40 meters.

■Simultaneous Use with Bluetooth®

Wi-Fi (IEEE 802.11b/g/n) and Bluetooth® transmit on the 2.4 GHz band. Enabling handset Bluetooth® or using Bluetooth® devices near handset may affect Wi-Fi transmission speed, availability and clarity. Should interference occur, cancel handset Bluetooth® or discontinue Bluetooth® device use.

- Handset supports Wi-Fi channels 1 13. Handset does not connect to access points set to other channels.
- · Available channels vary by country.
- For use of Wi-Fi aboard aircraft, check with airline beforehand.
- In some countries/regions, there are restrictions on the use of Wi-Fi. Check the local laws and regulations before using Wi-Fi on handset abroad.

General Notes

"606SH" here refers to this mobile phone "AQUOS ea."

Portrait Rights

Portrait rights protect individuals' right to refuse to be photographed or to refuse unauthorized publication/use of their photographs. Portrait rights consist of the right to privacy, which is applicable to all persons, and the right to publicity, which protects the interests of celebrities. Therefore, photographing others including celebrities and publicizing/distributing their photographs without permission is illegal; use Camera responsively.

Copyrights

Copyright laws protect sounds, images, computer programs, databases, other materials and copyright holders. Duplicated material is limited to private use only. Use of materials beyond this limit or without copyright holder permission may constitute copyright infringement, and be subject to criminal punishment. Comply with copyright laws when using images shot with Camera.

The software contained in handset is copyrighted material; copyright, moral right and other related rights are protected by copyright laws. Do not copy, modify, alter, disassemble, decompile or reverse-engineer the software; do not separate it from hardware in whole or part.

Open Source Software

• Handset contains software based on GNU General Public License (GPL), GNU Lesser General Public License (LGPL), and other licenses.

To check details of relevant software licenses:

• The source code of software based on GPL, LGPL, and Mozilla Public License (MPL) is provided on the following website free of charge.

http://k-tai.sharp.co.jp/support/developers/oss/ (Japanese)

Regulatory Information

Hereby, SHARP CORPORATION declares that the radio equipment type 606SH is in compliance with Directive 2014/53/EU.

The full text of the EU declaration of conformity is available at the following internet address: http://www.sharp.co.jp/k-tai/

Manufacturer's Address: SHARP CORPORATION, 1 Takumi-cho, Sakai-ku, Sakai-shi, Osaka 590-8522, Japan

Description of Accessories

Item	Description
Headset, Handsfree	ø3.5 audio jack, Bluetooth.
Micro USB cable	For charging, peripherals, etc.
microSD Card	microSD / microSDHC / microSDXC
	SoftBank USIM card / non-SoftBank USIM
nano USIM	cards
card	Non-SoftBank USIM cards can be used
	after SIM-unlocking the handset.

Frequency Range of Supported Bands in EU

Item	Description
GSM 900	Tx 880.2 to 914.8 MHz Rx 925.2 to 959.8 MHz
DCS 1800	Tx 1710.2 to 1784.8 MHz Rx 1805.2 to 1879.8 MHz
WCDMA FDD I	Tx 1922.4 to 1977.6 MHz Rx 2112.4 to 2167.6 MHz
WCDMA FDD VIII	Tx 882.4 to 912.6 MHz Rx 927.4 to 957.6 MHz
LTE Band 1	Tx 1922.5 to 1977.5 MHz Rx 2112.5 to 2167.5 MHz
LTE Band 3	Tx 1710.7 to 1784.3 MHz Rx 1805.7 to 1879.3 MHz
Bluetooth	Tx 2402 to 2480 MHz Rx 2402 to 2480 MHz
WLAN 2.4 GHz	Tx/Rx 2412 to 2472 MHz (BW: 20 MHz only)
NFC	Tx/Rx 13.56 MHz
GNSS	GPS:Rx L1 (1575.42 MHz) GLONASS:Rx G1 (1598.0625 to 1605.375 MHz)

Maximum Transmit Power

Item	Description
GSM 900	+33 dBm (Power Class 4)
DCS 1800	+30 dBm (Power Class 1)
WCDMA FDD I	+24 dBm (Power Class 3)
WCDMA FDD	+24 dBm (Power Class 3)
VIII	
LTE Band 1	+23 dBm (Power Class 3)
LTE Band 3	+23 dBm (Power Class 3)
Bluetooth	+9.0 dBm (Power Class 1)
WLAN 2.4 GHz	+14.5 dBm
NFC	-10 dBµA/m at 10 m

Battery Cautions

Use specified Charger only.

Non-specified equipment use may cause Internal Battery to leak, overheat, burst or ignite, and may cause Charger to overheat, ignite, malfunction, etc.

Battery is built into handset. Do not dispose of handset with ordinary refuse; take it to a SoftBank Shop for appropriate disposal.

Charge handset in ambient temperature 5°C - 35°C; Internal Battery may leak/overheat and performance may deteriorate outside this range.

Volume Level Caution

To prevent possible hearing damage, do not listen at high volume levels for long periods.

49

■Headphone Signal Level

The maximum output voltage for Music Player function, measured in accordance with EN 50332-2, is 116 mV.

Stand-by Mark

(U) : This symbol means the stand-by on/off.

FCC Notice

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user's authority to operate the equipment.

■FCC Information to User

This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation; if this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. Reorient/relocate the receiving antenna.

2. Increase the separation between the equipment and receiver.

3. Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

4. Consult the dealer or an experienced radio/TV technician for help.

Radio Wave Exposure and Specific Absorption Rate (SAR) Information

[606SH] here refers to this mobile phone 【AQUOS ea】.

Specific Absorption Rate (SAR) for This Product (for Japan)

This mobile phone [606SH] meets the Japanese technical regulations* and international guidelines for exposure to radio waves.

The Japanese technical regulations for exposure to radio frequency energy established permitted levels of radio frequency energy, based on standards developed by independent scientific organizations through periodic and thorough evaluation of scientific studies.

The regulation employs a unit of measurement known as the Specific Absorption Rate, or SAR.

The SAR limit is 2 watts/kilogram (W/kg) averaged over ten grams of tissue.

The limit includes a substantial safety margin designed to assure the safety of all persons, regardless of age and health. The value of the limit is equal to the value given in international guidelines recommended by ICNIRP**, which is in collaboration with the World Health Organization (WHO). The highest SAR value for this mobile phone is 0.717 W/kg*** when tested for use at the ear, and 0.530 W/kg*** when worn on the body in the below manner****.

While there may be differences between the SAR levels of various phones and at various positions, all phones meet the Japanese technical regulations.

Although the SAR is determined at the highest certified power level, the actual SAR of the phone during operation can be well below the maximum value.

Use at positions other than at the ear****

This mobile phone may be used at positions other than at the ear. By using an accessory such as a belt clip holster that maintains a 1.5 cm separation with no metal (parts) between the body and the mobile phone, this mobile phone will comply with international guidelines for radio wave protection.

* The technical regulation is provided in Article 14-2 of the Ministry Ordinance Regulating Radio Equipment.

** International Commission on Non-Ionizing Radiation Protection

*** The value is under simultaneous transmission use conditions.

The World Health Organization has announced that "A large number of studies have been performed over the last two decades to assess whether mobile phones pose a potential health risk. To date, no adverse health effects have been established as being caused by mobile phone use."

For more information about SAR, see the following websites: Ministry of Internal Affairs and Communications (MIC) http://www.tele.soumu.go.jp/e/sys/ele/body/index.htm Association of Radio Industries and Businesses (ARIB) http://www.arib-emf.org/01denpa/denpa02-02.html (Japanese)

European RF Exposure Information/FCC RF Exposure Information

This mobile phone [606SH] is confirmed to comply with guidelines relating to effects of radio wave exposure as set forth by the Council of Europe (CE) and the Federal Communications Commission (FCC). Refer to the following.

■European RF Exposure Information

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health. The guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2.0 W/kg and the highest SAR value for this device when tested at the ear is 0.552 W/kg*. As mobile devices offer a range of functions, they can be used in other positions, such as on the body. In this case, the highest tested SAR value is 1.201 W/kg* at the separation distance of 0.5 cm from the body. For electronic safety, maintain the separation distance with accessories containing no metal, that position handset a minimum of the above distance. Use of other accessories may not ensure compliance with RF exposure guidelines.

* The tests are carried out in accordance with international guidelines for testing.

Simplified Declaration of Conformity for [606SH] Hereby, SHARP CORPORATION declares that the radio equipment type [606SH] is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address: http://www.sharp.co.jp/k-tai/.

■FCC RF Exposure Information

Your handset is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government. The guidelines are based on standards that were developed by independent scientific organization through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health. The exposure standard for wireless handsets employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg. The tests are performed in positions and locations (e.g. at the ear and worn on the body) as required by the FCC for each model. The highest SAR value for this model handset as reported to the FCC when tested for use at the ear is 0.51 W/kg, and when worn on the body in a holder or carry case, is 0.46 W/kg. Body-worn Operation; This device was tested for typical body-worn operations with the handset kept 1.0 cm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 1.0 cm separation distance between the user's body and the handset. The use of beltclips, holsters and similar accessories should not contain metallic components in its assembly.

The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided. The FCC has granted an Equipment Authorization for this model handset with all reported SAR levels evaluated as in compliance with the FCC RF emission guidelines. SAR information on this model handset is on file with the FCC and can be found under the Display Grant section of http://www.fcc.gov/oet/ea/ after searching on FCC ID APYHRO00250.

Additional information on Specific Absorption Rates (SAR) can be found on the FCC website at https://www.fcc.gov/general/ radio-frequency-safety-0.

FCC ID Location

The device is electronically labeled and the FCC ID can be displayed from the home screen as follows: Flick Hot Sheet up \ominus \Leftrightarrow (Settings) \ominus (About phone \ominus Authentication .

The World Health Organization has stated that present scientific information does not indicate the need for any special precautions for the use of mobile devices. They note that if you want to reduce your exposure then you can do so by limiting the length of calls or using a hands-free device to keep the mobile phone away from the head and body.

World Health Organization

http://www.who.int/emf

List of Specific Absorption Rates (SAR) for radio waves by smartphone/3G model http://www.softbank.jp/mobile/support/sar/ (Japanese)

Water & Dust Resistance

Handset Water & Dust Resistance

Handset complies with IPX5¹ and IPX8² water protection standards as well as IP5X³ dust protection standard, with Card Slot Cap closed firmly.

1 IPX5 compliant means that a handset continues to function as a phone after being subjected to a water jet (approximately 12.5 liters/min.) discharged from a nozzle (inner diameter: 6.3 mm), from all directions (approximately 3 m from handset) for at least 3 minutes.

2 IPX8 compliant means that a handset continues to function as a phone after being gently submerged to the depth of 1.5 m in still tap water at room temperature, left there for approximately 30 minutes, then removed from it. 3 IP5X indicates the level of protection and means that a handset continues to function as a phone and maintains its safety after being agitated in a test device with 75 μm or smaller particles for 8 hours.

- Water and dust resistance may be affected under some circumstances. Warranty does not cover malfunctions resulting from misuse.
- Handset is compliant with IPX5 and IPX8 water protection standards as well as IP5X dust protection standard.
 However, ingress of dirt, sand, mud, metal powder, food, beverage, sea water, etc. may cause malfunction.

■Handset Care

- Close Card Slot Cap firmly. Debris (hair, sand, fibers, etc.) trapped between gasket and Card Slot may allow ingress of liquid/dust.
- If handset is exposed to liquids with Card Slot Cap open, they may enter handset and cause electric shock or malfunction. Discontinue use and power off.
- · If handset is wet, wipe it with a dry cloth.
- Never open/close Card Slot Cap with wet hands or while handset is wet or has a foreign object adhered to it.
- Do not use Earphones-Microphone Jack or External Connection Jack while it is wet or obstructed by sand/ dirt; may affect water and dust resistance or may cause malfunction, burns or fire due to electric shock, shortcircuiting, etc.
- · Handset is only water resistant against fresh/tap water between 5℃ 35℃.

Precautions

- Do not subject handset to soap, detergent, bath powder/oil, sea/pool/spa water, hot water, etc.
- Rinse off sea/pool water, beverage, dirt, sand, mud, etc. immediately with fresh/tap water between 5°C - 35°C; residue may cause malfunction if allowed to dry.
- Do not soak handset in bath or pool; never use it in water (including key operation).
- Handset is not resistant to water pressure. Avoid highpressure water/shower (over 6 liters/min.) and water immersion.
- Do not expose handset to high humidity for long periods; avoid prolonged use in bath/shower rooms.
- Volume may be low when an opening such as Mic, Recorder Mic, Earpiece or Speaker is wet; dry handset before use (see "Drying Handset").
- AC Adaptor (sold separately) and optional accessories are not water or dust proof. Do not use in high humidity or near water (outdoors, in bathrooms, shower rooms, etc.); may cause fire, electric shock or malfunction.
- Do not subject handset to strong impact (e.g., from a fall); do not poke Mic, Earpiece, Speaker, Recorder Mic, etc. with a sharp object; may affect water and dust resistance.
- Avoid placing handset directly on sand. Sand may penetrate Earpiece, Speaker, etc., resulting in low volume.
- To prevent condensation, warm handset to room temperature before bringing it from a cold place into a warm place such as a bathroom. If condensation occurs, leave handset at room temperature until it is dry.
- \cdot Handset does not float on water.
- \cdot Keep handset out of heavy rain.

Cautions for Use in a Bathroom

- Do not let handset get wet with liquids other than tap water at room temperature (spa water, soapy water, detergent solutions, bubble bath water, etc.); do not submerge it in a bathtub. May cause malfunction.
 If handset gets exposed to liquids other than tap water or falls in a bathtub, wash it in the specified way.
- \cdot Use handset at 5°C 40°C with humidity of 99% or less, for up to 2 hours.
- Note that this does not guarantee continuous operation of all functions.
- After exposing handset to water, be sure to remove moisture and let it dry naturally in the way specified in "Drying Handset."
- Let handset dry naturally after using it in a bathroom or when condensation occurs inside Camera lens, etc.
- \cdot Be careful not to splash hot water on handset.
- Extreme temperature changes may cause condensation.
 Wait until handset reaches room temperature before bringing it from a cold place into a warm bathroom.
 In addition, do not splash cold water on handset when it is warm in a bathroom.
 - May cause malfunction.
- \cdot Never charge handset in a bathroom.
- Depending on the layout and condition of a bathroom, handset may not receive a signal (call functions and data communication may be unavailable).
- If operated with wet hands, handset may not respond or may malfunction.
- · Do not use handset with earphones, TV Antenna Cable, or an external device connected.

Charging Cautions

- \cdot Never connect Micro USB plug while handset or AC Adaptor is wet.
- Handset is water resistant; however, if Micro USB plug is inserted while it is wet, liquid (tap water, beverage, sea water, pet urine, etc.) or a foreign object adhered to handset or Micro USB plug may cause overheating, burnout, fire, malfunction, burns, etc. due to electric shock, shortcircuiting, etc.
- Do not use AC Adaptor where water is regularly in use (kitchens, bathrooms, shower rooms, etc.); may cause fire or electric shock.

Care & Maintenance

- Proper care of Card Slot Cap gasket is crucial for continued handset water and dust resistance. Observe the following:
 - · Do not remove or damage gasket. Keep it clean.
- \cdot If Card Slot Cap is damaged or deformed, contact a SoftBank Shop.
- Do not insert a sharp object into Card Slot Cap gap,
 Earphones-Microphone Jack or External Connection Jack.
- To maintain water and dust resistance, it is recommended to replace Card Slot Cap every 2 years regardless of its condition. Customer-requested Card Slot Cap replacement incurs fees and requires handset submission. For details, contact a SoftBank Shop or SoftBank Customer Support, General Information.

Washing Handset

Wipe off dirt, sand, beverage, etc., gently with a cloth. Then hold handset approximately 10 cm below faucet or shower head and wash with low-pressure tap water (6 liters/min. or lower) at room temperature (5°C - 35°C). Wash with your hands, taking care not to open Card Slot Cap; do not use a brush or sponge. Dry handset before use; after drying it well, power on.

- Before washing handset, make sure that Card Slot Cap is closed firmly.
- \cdot Do not use a washing machine or ultrasonic cleaner.
- Earphones-Microphone Jack and External Connection Jack tend to accumulate dust, sand, etc.; rinse and dry them completely before use. Any residue may cause malfunction, burns or fire.
- Do not put a cotton swab, cloth, etc. into Earphones-Microphone Jack or External Connection Jack; may affect water resistance, causing malfunction.

Drying Handset

After exposing handset to water, be sure to dry Earpiece/ Speakerphone Mic, Volume Up/Down Key, Power Key, Mic/ Recorder Mic, External Connection Jack, Speaker, and Earphones-Microphone Jack.

1

Wipe handset surface with dry cloth

2

Holding handset firmly by its sides, shake it about 20 times

 \cdot When shaking handset, hold it firmly so as not to drop it.

3

Pat against dry cloth to remove moisture from openings and grooves

• Water may be trapped in openings; pat against a dry cloth to remove it.

4

Leave handset on dry cloth for approximately 2 - 3 hours at room temperature

Cautions

When Removing Moisture

Do not put a cotton swab, cloth, etc. into openings; may affect water and dust resistance.

After Drying Procedure

- Do not use handset in wet conditions.
- Calls may fail, or moisture may transfer to clothes, bag, etc.
- Moisture may short-circuit Earphones-Microphone Jack, External Connection Jack or other parts.
- Exposure to cold may freeze moisture and cause malfunction.
