Introduction

Thank you for purchasing DIGNO® F.

Before You Begin

- \cdot DIGNO® F is referred to as "handset" in this guide.
- \cdot Read "Safety Precautions" and this guide thoroughly beforehand for proper usage.
- \cdot Accessible services may be limited by contract conditions.
- \cdot Unauthorized copying of any part of this guide is prohibited.
- \cdot Guide content subject to change without prior notice.
- $\cdot \ \mathsf{Contact} \ \mathsf{SoftBank} \ \mathsf{Customer} \ \mathsf{Support}, \ \mathsf{General} \ \mathsf{Information} \ \mathsf{if}$ you find inaccuracies.

Guide Usage Notes

- \cdot Most operation descriptions are based on default settings.
- · Unless noted otherwise, descriptions are for Home Screen.
- $\boldsymbol{\cdot}$ Some operation descriptions may be omitted.
- · In this guide and on handset, "abroad" means "outside Japan" with regard to handset/service usage.
- · In this guide, microSD™/microSDHC™/microSDXC™ Card is referred to as "SD Card."

Screenshots & Key Labels

Screenshots and Key labels are provided for reference only. Actual handset windows, menus, etc. may differ in appearance.

Accessing Guide on Handset

Access this Guide on handset via Guide icon in Apps Menu or via Guide indicator on Status Bar.

Guide indicator is hidden on Status Bar by default. Follow these steps to show Guide indicator:

Access Guide () Indicator () on () BACK

Getting Started

| Package Contents |
|------------------------------|
| Parts & Functions6 |
| USIM Card |
| Internal Storage & SD Card10 |
| Charging Battery13 |
| Power On/Off14 |
| Usina Touchscreen15 |

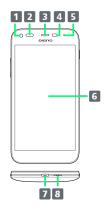

Package Contents

Package Contents

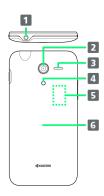

- · Handset (DIGNO® F) (Battery is built in)
- ・クイックスタート (Japanese)
- ・お願いとご注意 (Japanese)
- · Warranty (Japanese)
- · microSDHC[™] memory card (16 GB)(complimentary sample)

Parts & Functions

Handset

| Part | Description |
|---------------------------------|---|
| 1 Front Camera | Take still images or videos of yourself, etc. |
| 2 Infrared Port | Transfer by infrared |
| 3 Earpiece | Hear the other party's voice here |
| 4 Light/ Proximity Sensor | Detects surrounding brightness/prevents Touchscreen misoperation during call |
| 5 Incoming/ Charging LED | Lights/flashes while charging or for arriving calls/mail |
| 6 Display | Touchscreen-type display, operate with your fingers on Display |
| 7 External Device Port | Connect AC Charger (commercially available) or Micro USB cable (commercially available) |
| 8 Mic | Speak here |

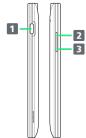

| Part | Description |
|------------------------------|--|
| 1 3.5mm Headphone Port | Connect headphones |
| 2 Camera | Capture images |
| 3 Speaker | Ringer and Speakerphone sound from here |
| 4 Light | Use as camera flash/flashlight |
| 5 Card Slot | Open Back Cover to install USIM card and SD card |
| 6 Back Cover | Open to insert/remove USIM Card or SD Card |

Cautions

Handset is airtight to maintain water resistance (IPX7). Pressing handset forcefully may produce sound around Earpiece, but this is not a function or performance abnormality.

Keys

Down Key

| Key | Description |
|--------------------|---|
| 1 Power Key | Turn Display on/off Long Press for power on/off and settings such as reboot and Airplane mode |
| 2 Volume Up Key | Increase the volume |
| 3 Volume | Decrease the volume |

Long Press to turn Silent mode on

USIM Card

USIM Card is an IC card containing phone number and other customer information.

Inserting USIM Card

Always power off beforehand.

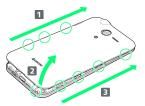

Lift Back Cover

- \cdot Lift gently from notch in direction shown.
- \cdot Avoid overflexing Back Cover; may damage Back Cover.

Remove Back Cover

 \cdot Release tabs in order shown while lifting Back Cover.

Open Card Slot Cap

 \cdot Lift gently in direction shown from notch to open.

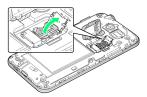

Unlock USIM Card Slot Cover

 \cdot Press and slide USIM Card Slot Cover in direction shown with pad of finger until it clicks.

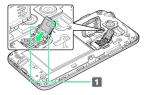

Lift USIM Card Slot Cover in direction shown

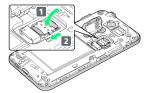

Slide USIM Card in direction shown to insert in USIM Card Slot Cover

- · Note location of notch.
- · Slide underneath 1 on USIM Card Slot Cover.

Lock USIM Card Slot Cover

Lower USIM Card Slot Cover in direction 1, and then slide in direction 2 with pad of finger until it clicks.

Close Card Slot Cap

- \cdot Lower Card Slot Cap in direction shown.
- \cdot Close firmly ensuring Card Slot Cap is not raised.

Place Back Cover on main unit, and then press firmly where shown to attach completely

 \cdot Close firmly making sure there are no gaps to prevent water intrusion.

Removing USIM Card

Always power off beforehand.

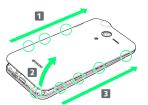

Lift Back Cover

- · Lift gently from notch in direction shown.
- \cdot Avoid overflexing Back Cover; may damage Back Cover.

Remove Back Cover

 \cdot Release tabs in order shown while lifting Back Cover.

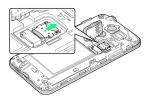

Open Card Slot Cap

 \cdot Lift gently in direction shown from notch to open.

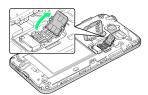

Unlock USIM Card Slot Cover

 \cdot Press and slide USIM Card Slot Cover in direction shown with pad of finger until it clicks.

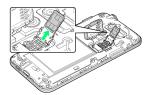

Lift USIM Card Slot Cover in direction shown

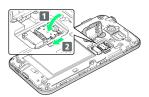

Slide USIM Card in direction shown to remove

Lock USIM Card Slot Cover

Lower USIM Card Slot Cover in direction 1, and then slide in direction 2 with pad of finger until it clicks.

Close Card Slot Cap

- · Lower Card Slot Cap in direction shown.
- · Close firmly ensuring Card Slot Cap is not raised.

Place Back Cover on main unit, and then press firmly where shown to attach completely

 \cdot Close firmly making sure there are no gaps to prevent water intrusion.

Card Slot Cap

Card Slot Cap is designed to be easy to remove. If it becomes removed, reattach as follows.

Hook Card Slot Cap as shown \bigcirc Turn Card Slot Cap in direction shown

SIM-Unlocking Handset

Handset can be SIM-unlocked. SIM-unlocking handset allows other-carrier SIM cards to be used with it.

- · Some services, functions, etc. may have restrictions when an other-carrier SIM card is used. SoftBank Corp. does not guarantee operation whatsoever.
- · For details, see SoftBank Website.

Internal Storage & SD Card

Handset supports SD Cards up to 200 GB. Some SD Cards may not operate properly.

Complimentary sample SD Card

Complimentary sample SD Card is not covered by warranty.

SD Card Cautions

Data

Information stored on SD Card can become lost or changed accidently or as a result of damage. It is recommended that you keep a separate copy of important data. SoftBank Corp. is not responsible for damages from data that is lost or changed.

Reading/Writing Data

Never power off handset while it is reading/writing to SD $\mbox{\sc Card.}$

Battery Level

A low battery charge may prevent reading/writing to SD $\ensuremath{\mathsf{Card}}$

Handling SD Card

Use/store SD Cards away from the reach of infants. May cause choking if swallowed.

Storage

Two storage areas are available with handset, internal storage and SD Card. They function as follows.

| Туре | Function |
|---------------------|---|
| Internal storage | Captured still images/videos, mail attachments, etc. are saved here. Connect with a PC to exchange files. |
| SD Card | Use for transferring files. Save image, music, and other files to SD Card for use on handset. |

Inserting SD Card

Always power off beforehand.

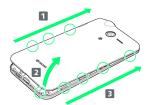

Lift Back Cover

- · Lift gently from notch in direction shown.
- · Avoid overflexing Back Cover; may damage Back Cover.

Remove Back Cover

· Release tabs in order shown while lifting Back Cover.

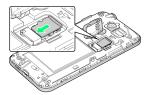

Open Card Slot Cap

· Lift gently in direction shown from notch to open.

Place SD Card as shown and slide in direction shown to insert

- \cdot Insert SD Card all the way gently without bending and with terminals facing down.
- · Insert only SD Cards.

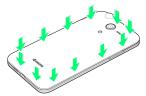

Close Card Slot Cap

- · Lower Card Slot Cap in direction shown.
- \cdot Close firmly ensuring Card Slot Cap is not raised.

Place Back Cover on main unit, and then press firmly where shown to attach completely

 \cdot Close firmly making sure there are no gaps to prevent water intrusion.

Removing SD Card

Always unmount SD Card and then power off beforehand.

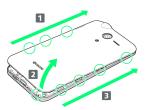

Lift Back Cover

- · Lift gently from notch in direction shown.
- · Avoid overflexing Back Cover; may damage Back Cover.

Remove Back Cover

 \cdot Release tabs in order shown while lifting Back Cover.

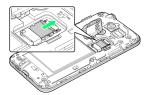

Open Card Slot Cap

 \cdot Lift gently in direction shown from notch to open.

Slide SD Card in direction shown to remove

 \cdot Remove gently without bending.

Close Card Slot Cap

- \cdot Lower Card Slot Cap in direction shown.
- \cdot Close firmly ensuring Card Slot Cap is not raised.

6

Place Back Cover on main unit, and then press firmly where shown to attach completely

 \cdot Close firmly making sure there are no gaps to prevent water intrusion.

Formatting SD Card

When using a new SD Card for the first time, always format it on handset.

- \cdot Formatting erases all data on SD Card. Carefully check any SD Card that was used on another device before formatting.
- \cdot Charge Battery while formatting, or format with adequate battery charge.

In Home Screen, ⊕ (Apps) → ☑ (Settings)

2

3

SD card

4

5

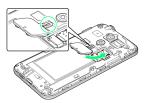

Card Slot Cap

Card Slot Cap is designed to be easy to remove. If it becomes removed, reattach as follows.

Hook Card Slot Cap as shown → Turn Card Slot Cap in direction shown

Charging Battery

Charging with AC Charger

See SoftBank Website for information on AC Charger and other peripherals. The following explains how to charge handset using SB-AC12-HDQC.

- \cdot See User Guide for your AC Charger.
- · Never connect Micro USB plug while handset or AC Charger is wet.

Connect AC Charger

 \cdot Grasp Micro USB plug and insert as shown.

Plug AC Charger into household AC outlet

3

After charging, remove AC Charger

 \cdot Unplug from outlet and disconnect handset.

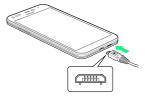

Charging by PC

Battery can be charged by Micro USB Cable.

- · Always turn on PC beforehand.
- \cdot Battery may not charge depending on type of connection to the PC.

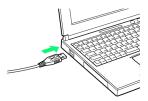

Insert Micro USB plug into External Device Port

 \cdot Grasp Micro USB plug and insert as shown.

Insert USB plug into PC

After charging, remove Micro USB Cable from PC and handset

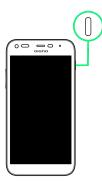

Power On/Off

Power On

- Start Screen appears.
- · To exit from Sleep mode, see "Exiting Sleep to Access Start Screen."
- \cdot Startup wizard appears the first time handset is powered on

Power Off

2

Handset powers off.

Using Touchscreen

Handset uses a touchscreen-type Display. Operate with your fingers on Display.

Тар

Contact Display lightly and briefly.

Touch & Hold

Contact Display lightly; release finger when screen changes.

Drag

Touch icon or other item lightly, move it where desired, and release finger.

Swipe/Flick

Contact Display lightly, then brush screen up/down or left/right.

Pinch/Spread

Contact Display lightly, then close/widen fingers.

Basic Operations

| Basic Operations | Πδ |
|------------------------|----|
| Phone Number | 20 |
| Silent Mode | 20 |
| Airplane Mode | 21 |
| Text Entry | 21 |
| Using a Google Account | 22 |
| Google Play | 23 |
| Security Codes | 25 |
| USIM PIN | 26 |
| Entering Sleep Mode | 27 |
| Undating Software | 27 |

Basic Operations

Home Screen & Apps Menu

Most handset operations start in Home Screen (appears at power on) or in Apps Menu.

Navigation Bar

Tap icons on Navigation Bar (Display bottom) for the following functions/operations.

(Keyboard)

| Icon | Description |
|---------------|---|
| (Back) | Return to previous screen. Appears as for onscreen keyboard; Tap to close keyboard. |
| O (Home) | Return to Home Screen. |
| (Recent apps) | Open listing of recently used applications and activate or delete applications. |
| | |

Change keyboards.

Selecting Options and Navigating Screens

Tap menu items, icons, onscreen key, etc. to open assigned items.

· Press 🗖 to go back or escape.

Action Bar

Current application/settings window title appears on Action Bar (Display top). Tap onscreen key or icons at right of Action Bar to turn function off/on or access available functions.

- \cdot lcons for available functions may also appear at the bottom of Display.
- \cdot Touch & Hold icon for function name.

Menu Operations

Tap : in Action Bar, etc. for settings and options of available functions currently in Display.

Touching & Holding Display may also access settings and options that are available.

Handset Settings and Making Settings

In Home Screen, Tap ⊕ (Apps) then ② (Settings) to customize the operation of handset functions.

Portrait Orientation & Landscape Orientation

The screen changes to portrait orientation when handset is rotated sideways.

· Depending on the current screen, the orientation may not change even by changing handset orientation.

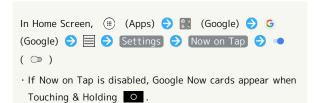

Using Google Now on Tap

Touch & Hold of for information related to onscreen content.

· When launching for the first time, follow onscreen instructions to enable Now on Tap.

Disabling Now on Tap

Capturing Screenshots

Long Press and Volume Down Key at the same time.

- · Alternatively, (Long Press) 🗦 Screenshot .
- · View captured screenshots in 🔼 (Gallery), etc.
- · Screenshot capture may not work depending on the application or function.

Phone Number

Checking Your Phone Number

1

In Home Screen, ⊕ (Apps) → 🔯 (Settings)

2

[Profile]

Mark phone number.

Silent Mode

Using Silent Mode

Set ringtone, operation sounds, etc. not to sound to avoid disturbing others around you.

 \cdot Camera shutter, video start/stop tones, etc. sound even in Silent mode.

Volume Down Key (Long Press)

🏁 Handset is in Silent mode.

 \cdot Press Volume Up Key twice to exit Silent mode.

Airplane Mode

Using Airplane Mode

Disable all functions that emit signals. Handset remains powered on.

2

Airplane mode

- Handset is in Airplane mode.
- · Tap again while in Airplane mode to cancel.

Text Entry

Keyboards

Use onscreen keyboards for text entry. In 10-key keyboard, several characters are assigned to each key. In QWERTY keyboard, one letter is assigned to each key. In 50-key keyboard, kana are assigned to each key in 50-syllable order (goju-onjun). Also use Keitai Input for entering with a mobile phone-type keyboard.

- In any keyboard, Tap then Keyboard type then 10-key keyboard, QWERTY keyboard, or 50-key keyboard for 10-key, QWERTY, or 50-key keyboard. Alternatively, in any keyboard, Touch & Hold and Tap Keyboard type then 10-key keyboard, QWERTY keyboard, or 50-key keyboard.
- · In any keyboard, Tap 🏚 then Keitai Input for Keitai Input.
- · To hide keyboard, Tap ▽ .

QWERTY Keyboard Layout

- 1 Enter characters
- 2 Toggle uppercase/lowercase or symbols
- 3 Toggle entry modes; Touch & Hold to set entry mode
- 4 Current character type
- 5 Delete character to left of cursor
- 6 Insert line break; confirm current characters
- 7 Move cursor left
- 8 Switch to voice typing
- 9 Set entry mode
- 10 Enter space
- 11 Move cursor right

Switching Character Types

1

In a text entry window,

2

Input mode changes.

Using a Google Account

Use a Google account and get more convenience with Google services. A Google account is required to use some services or fully use some applications.

Google Account Cautions

The ID and password for your Google account are also used for other setting and synchronize functions; be sure to keep a record of them.

Creating a Google Account

1

In Home Screen, (Ⅲ) (Apps) (Settings)

2

3

Google

Window for adding a Google account opens.

4

Follow onscreen instructions

A Google account is added.

Logging In with a Google Account

If an application is activated that requires a Google account, a window for adding a Google account opens. Sign in with a Google account you have so you can use the application.

1

In window for adding Google account, enter mail address 🗦

2

Enter password
NEXT

3

Follow onscreen instructions

You are logged in to your Google account.

Google Play

Download a variety of applications (free/paid) from Google Play. Change the setting of downloaded applications to enable manual or automatic updates. Log in to your Google account beforehand.

Installing Applications

Many different kinds of applications can be installed on handset from Google Play (provided by Google Inc.). SoftBank Corp. is not responsible in any way for userinstalled applications (quality, reliability, legality, fitness for a purpose, credibility, accuracy, etc.) or resulting malfunctions (viruses, etc.).

Installing Free Applications

In Home Screen, (III) (Apps) (Play Store)

🔯 Google Play appears.

· If confirmation appears, follow onscreen instructions.

Tap free application

INSTALL

Purchasing Paid Applications

In Home Screen, (III) (Apps) (Play Store)

Google Play appears.

· If confirmation appears, follow onscreen instructions.

2

Tap paid application
Tap amount Follow onscreen instructions

Application is downloaded and installed.

Purchased Applications

Payment

Pay only once. Redownloads of uninstalled applications are free of charge.

On Other Android Devices

Install an application on any Android device under the same Google account for free.

Requesting Refunds

Refund is possible within a limited time. By requesting a refund, the application is deleted and the charge is cancelled. A refund request is valid only once per one application.

In Google Play, 🗏 🗦 My apps & games 🗦 Tap application (>) REFUND

Purchasing Applications

Purchase applications at your own risk. SoftBank Corp. is not responsible for any disadvantage resulting for user or third parties.

Updating Applications

In Home Screen, (III) (Apps) (Play Store)

Google Play appears.

· If confirmation appears, follow onscreen instructions.

2

The application is downloaded and installed.

· If confirmation appears, follow onscreen instructions.

Setting Application Updates

Setting Automatic Updates for Individual Applications

application → I → Auto-update (✓)

 \cdot Automatic updates are unavailable for some applications.

Uninstalling Applications

Applications installed from Google Play can also be uninstalled.

In Home Screen, ⊕ (Apps) → (Play Store)

- Google Play appears.
- \cdot If confirmation appears, follow onscreen instructions.

How to Use Google Play

1

🏁 The Web browser will take you to the Google Play Help Web page.

Follow onscreen instructions

A description for each item appears.

Security Codes

Code Types

Some functions/services require these codes for use.

- \cdot Do not reveal Security Codes. SoftBank Corp. is not liable for misuse or damages.
- · If you forget Security Codes, contact us for recovery. For more information, see SoftBank Website (http:// www.softbank.jp/en/mobile/).

| Types | Details |
|-----------------------|---|
| PIN/Password | Use Screen unlock functions Not set by default |
| Center Access Code | 4-digit code in service contract Change services; use Optional Services via landlines |

USIM PIN

USIM PIN is a code for USIM Card. It is used to prevent unauthorized use by others. PIN is 9999 by default.

Enabling USIM PIN

When PIN is enabled, a window for entering PIN appears to allow handset use each time handset is powered on with $\ensuremath{\mathsf{USIM}}$ Card installed.

In Home Screen, (Ⅲ) (Apps) (Settings)

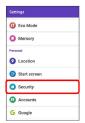

2

[Security]

3

[OK]

PIN is enabled.

PIN Cautions

Entering incorrect PIN three consecutive times activates PIN Lock. To cancel, Personal Unblocking Key (PUK) is required; contact Customer Service. Entering incorrect PUK ten consecutive times locks USIM Card, disabling handset. For recovery, USIM Card must be reissued at a SoftBank Shop (fees apply).

Changing USIM PIN

First enable USIM PIN to change PIN.

1

In Home Screen, (Ⅲ) (Apps) (Settings)

2

[Security]

3

PIN is changed.

Entering Sleep Mode

After a period of no operation, Display goes out and handset enters Sleep mode. Alternatively, Press _____ to enter Sleep mode. This saves battery power and prevents accidental Touchscreen operation.

Exiting Sleep to Access Start Screen

1

In Sleep mode, (

Start Screen appears.

Accessing Home Screen from Start Screen

In Start Screen, Drag/Flick

- Home Screen or the screen before entering Sleep appears.
- · Set a security lock for the Start Screen. For details, see "Start Screen Settings."
- · In Start Screen, Drag/Flick 🗸 / 🧿 to quickly activate Phone/Camera.

Updating Software

Before Updating Software

Saved data may be lost depending on condition of handset (malfunctioning, damaged, water seepage, etc.). It is recommended that you back up important data before updating software. SoftBank Corp. is not responsible for damages from loss of data.

Software Update Cautions

During Update

Handset cannot be used until software is updated. It may take time to update software.

Signal during Update

Operate handset where signal reception is good and without changing location. Also operate with adequate battery charge. Signal becoming weak or Battery becoming low during an update may cause an update failure. An update failure may disable handset.

If Using Other Functions

Other functions cannot be operated during a software update.

Updating Software

Handset checks at a preset time whether an update is required, and automatically updates the software if required. Follow these steps to update software manually.

In Home Screen, (Ⅲ (Apps) → 🔯 (Settings)

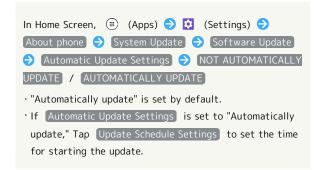

About phone

- Software updates.
- \cdot If confirmation appears, follow onscreen instructions.
- Setting Whether to Update Automatically

Handset Interface

| Home Screen Basics3 | 80 |
|----------------------------|----|
| Status Bar3 | 30 |
| Using Notifications Window | 32 |

Home Screen Basics

Most handset operations are done from Home Screen. Customize Home Screen with application shortcuts, widgets, and folders.

Home Screen Layout

| Area | Description |
|------------------------|---|
| 1 Status Bar | Drag/Flick down for Notifications Window. |
| 2 Customize Area | Place application shortcuts, folders, widgets freely. |
| 3 Quick launch area | Tap icons to activate applications and functions. Place up to 4 shortcuts to applications. Also place folders here. |
| 4 Navigation | Tap icons to access functions. |

Toggling Home Screen Sheets

Flick Home Screen left/right to toggle sheets.

• In any Home Screen sheet, Tap O to return to Home Screen top sheet.

Status Bar

Status Bar appears at the top of Display. Notification Indicators for new mail, etc. and Status Indicators for handset appear here.

Status Bar Layout

- 1 Notification Indicators
- 2 Status Indicators

Main Notification Indicators

Notification Indicators appearing in Status Bar include the following.

 $\boldsymbol{\cdot}$ Other Notification Indicators also appear depending on the application.

| ତ | Alarm Set |

1 Handset supports FDD-LTE (SoftBank 4G LTE) and SoftBank 4G (AXGP); indicator appears when handset is connected to either. Handset connects to SoftBank 4G first.

Using Notifications Window

Open notifications (missed call, etc.), check handset status or change various settings.

Opening Notifications Window

Drag/Flick Status Bar down

Notifications Window appears.

Closing Notifications Window

Touch Display bottom and Drag/Flick up

- \cdot If notifications or running functions are shown, Drag/ Flick upward from the bottom of Display to close.
- · Alternatively, Tap <

Phone

| Placing/Answering Calls | 534 |
|-------------------------|-----|
| Optional Services | 35 |
| Using Contacts | 40 |

Placing/Answering Calls

How to dial directly to make a call and answer a call, as well as options when a call is arriving/during a call are described.

Phone Function

Emergency Location Report

Making emergency calls (110, 119 or 118) from SoftBank handset (3G) automatically reports handset location to corresponding agency (police, etc.). This system is referred to as Emergency Location Report, and notifies location based on positioning from base stations.

- · Location Report does not incur registration/transmission
- · Location/signal conditions affect positioning accuracy. Always provide location and call purpose.
- \cdot Hiding Caller ID (using 184, etc.) cancels Location Report. However, corresponding agency may obtain location information in life threatening situations.
- · Location Report is not sent for calls made while outside Japan.

VoLTE and HD Voice

Handset supports VoLTE and HD Voice for higher voice call quality.

Placing Calls

In Home Screen, (⊞) (Apps) → 🔽 (Phone)

Phone opens.

Call window opens.

3

Tap dialpad to enter the other party's number

· Enter area code first for calling landline numbers.

🏁 Handset dials number. Call begins when other party answers.

5

To end call,

Call ends.

Answering Calls

When call arrives, Tap ANSWER

- \cdot If not in Sleep mode or Start Screen when call arrives, popup for incoming call appears.
- \cdot Tap caller indication for incoming call window.

To end call,

Optional Services

This handset is compatible with SoftBank Optional Services.

Optional Services

The following optional services are available.

| Description |
|---|
| Divert calls to a preset number when out |
| of service area or unable to answer. |
| Divert calls to a Voicemail Center to take |
| messages when out of service area or |
| unable to answer. |
| Answer calls during a call. |
| Merge multiple calls. |
| Send or hide your number when placing |
| calls. |
| Restrict incoming/outgoing calls by conditions. |
| |

1 Requires separate subscription

Using Call Forwarding

1

In Home Screen, ((Apps) → (Phone)

2

⋮ → Call settings

Call settings open.

3

Call service settings

4

Voicemail/Call forwarding

5

Always forward / When Busy / When unanswered / When unreachable

Settings for the service appear.

In settings for service, Always forward / When Busy / When unanswered / When unreachable

The forwarding window opens.

[Forwarding]

Call Forwarding is enabled.

Number \Rightarrow Enter number \Rightarrow ADD

The forwarding number is set.

9

 $[\mathsf{OK}]$

Call Forwarding is set.

Using Voicemail

In Home Screen, ⊞ (Apps) → 【 (Phone)

2

Call settings open.

3

Call service settings

4

Voicemail/Call forwarding

Settings for the service appear.

In settings for service, (Always forward) / (When Busy) / (When unanswered) / (When unreachable)

The forwarding window opens.

7

[Voicemail]

8

OK

Voicemail is set.

 $\dot{\,}$ $\,$ $\,$ appears in Status Bar for new message. Dial "1416" then follow voice guidance.

Changing Call Waiting Settings

Requires separate subscription.

In Home Screen, (Apps) (Phone)

2

Call settings open.

3

Call service settings

4

Call waiting (OFF)

Call Waiting is turned off.

- · Tap Call waiting to toggle on (\bigcirc N)/off (\bigcirc FF).
- When call arrives during another call, tone sounds. Drag sounds to right to begin call.

Using Group Calling

Requires separate subscription.

1

During a call, 😧 🗦 Add call

2

Enter number 🗦 🔼

3

When call connects, 😧 🗦 Conference call

Group Calling starts.

Changing Caller ID Notification Settings

| Sending S! Mail/SMS | 12 |
| Using Gmail | 13 |
| Usina Chrome2 | 14 |

Messaging

S! Mail

Exchange messages with S! Mail-compatible SoftBank handsets and email compatible devices (other mobiles, PCs, etc.) beyond SMS character entry limit; attach media files.

SMS

Exchange short messages (up to 160 single-byte characters) using handset numbers as addresses.

Gmail

 $\label{lem:condition} \mbox{Gmail is Google's webmail service. Handset automatically syncs with \mbox{Gmail}.}$

Sending S! Mail/SMS

Sending S! Mail/SMS

1

2

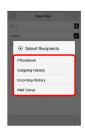

· Alternatively, enter phone numbers or email addresses in Recipient field directly.

3

- Tap Phonebook , Outgoing History , or Incoming History to select recipients from Phonebook, Outgoing History, or Incoming History.
- Tap Mail Group to select a mail group and set all the members on the list as recipients.

Select recipients 🔵 OK

- Tap [Phonebook] / Outgoing History] / Incoming History] / Mail Group to change recipient lists.
- · After setting recipients, Tap 1 0000 to check recipients' phone numbers/email addresses or set them to Cc/Bcc.
- · If recipients are set to Cc/Bcc, the mail is sent as S! Mail.
- To delete a recipient, Tap $1 \circ \circ \circ$ and then $\times \circ \circ \circ$.

 Alternatively, Tap $1 \circ \circ \circ \circ$ and then Delete recipient.

5

Tap Subject field/text entry field 🔵 Enter subject/text

- · Tap 🖉 to attach a file.
- \cdot If a subject is entered or a file is attached, the mail is sent as S! Mail.

6

[Send]

- S! Mail/SMS is sent.
- · Failed S! Mail/SMS messages are saved as drafts.

Using Gmail

Creating/Sending Gmail

In Home Screen, (iii) (Apps) (Google) (Google) (Gmail)

- Mail list opens.
- 2
- **2**

- Mail composition window opens.
- 3

Enter recipient/subject/mail text 🔵 🔀

Mail is sent.

Using Chrome

Use Chrome to browse the Internet.

ÿ TLS

TLS (Transport Layer Security) is a protocol for encrypting sent/received data. While in a screen connected by TLS, data is encrypted to safely send/receive private information, credit card numbers, corporate secrets, etc., and provide protection against online threats (eavesdropping, falsification, impersonation, etc.).

TLS Cautions

When opening a secured page, users must decide as their responsibility whether or not to open the page with use of TLS. SoftBank Corp. and the Certification Authorities Symantec Website Security G.K. and Cybertrust make no guarantees whatsoever to users regarding security of TLS.

Using Chrome

In Home Screen, ⊞ (Apps) → ■ (Google) → (Chrome)

- Chrome opens.
- · If confirmation appears, follow onscreen instructions.
- Tapping Web links within text messages automatically opens Chrome. If it does not open automatically, follow onscreen instructions.

|-----------------------------|----|
| Using Bluetooth® Function | 53 |
| Exchanging Data by Infrared | 53 |

Connecting by Wi-Fi

Handset supports Wi-Fi (wireless LAN). Access the Internet via a household Wi-Fi connection environment. For Wi-Fi router (manufactured by FON) users, see "Fonルーターかんたん 設定ガイド (http://mb.softbank.jp/mb/special/network/pdf/ wifi_howto_01.pdf)" for details.

Connecting to Access Points

Select a scanned access point (Wi-Fi network) and connect.

In Home Screen, (Ⅲ) (Apps) → 🔯 (Settings)

2

Wi-Fi

Wi-Fi settings open.

OFF

₩ Wi-Fi is enabled (👀).

· To disable Wi-Fi, Tap ON (OFF).

Tap access point

◆ Enter password

◆ CONNECT

- · The password, for a household wireless LAN router, is sometimes found on a sticker on the router (WEP, WPA, KEY, etc.). Contact the router manufacturer for information. For password for a public wireless LAN, check with user's service provider.
- · Entering a password is not required if an access point is not security protected.

Using Bluetooth® Function

Connect to a Bluetooth®-capable wireless phone, etc. for calls or to a hands-free device such as a headset.

Enabling Bluetooth® Function

- · Wireless connection to all Bluetooth® functions is not guaranteed for handset.
- \cdot Handset may not connect properly depending on the other
- \cdot Noise may be experienced in some situations while listening to music, etc. wirelessly or talking in a hands-free call.

[Bluetooth]

Bluetooth® settings open.

3

(OFF)

- Bluetooth® function is enabled (ON).
- $^{\cdot}$ To disable Bluetooth® function, Tap $^{\mbox{\scriptsize ON}}$ ($^{\mbox{\scriptsize OFF}}$).

Exchanging Data by Infrared

Exchange data with a mobile phone or other device by infrared.

Receiving Data

- Infrared window opens.
- · If confirmation appears, follow onscreen instructions.

Receive

Commence sending on other device
OK

· If a contact etc. is received, confirmation to save appears.

Sending Selected Data

Gallery is described.

Safety Precautions

For proper handset use, carefully read Safety Precautions beforehand. Keep this guide for future reference. Observe these safety precautions to prevent injury or damage to property.

Labels

Risks of injury or damage from improper use are categorized by levels.

| Mark | Descriptions |
|-------------------------|--|
| ⚠ DANGER | Great risk of death or serious injury ¹ from improper use |
| <u>∧</u> WARNING | Risk of death or serious injury¹ from improper use |
| ⚠ CAUTION | Risk of injury ² or damage to property ³ from improper use |

- 1 Serious injury includes: Loss of eyesight, physical injury, high temperature burns, low temperature burns, electric shock, fractures, poisoning and other conditions having side effects or requiring hospitalization or long-term treatment.
- 2 Injury includes: Physical injury, high-temperature burns, low-temperature burns, electric shock, and other conditions not requiring hospitalization or long-term treatment.
- 3 Damage to property includes: Incidental damage to structures and household property and/or to pets and livestock.

Symbols

| Mark | Descriptions |
|------------------------------|------------------------------------|
| Prohibited | Action prohibited |
| Do Not Disassemble | Disassembly prohibited |
| Avoid Liquids Or Moisture | Exposure to liquids prohibited |
| Do Not Use Wet Hands | Handling with wet hands prohibited |
| Compulsory | Action compulsory |
| Disconnect | Unplug power cord |

Handset, USIM Card, AC Charger (Commercially Available), Micro USB Cable (Commercially Available) (Common)

Do not use, store, or leave handset or related hardware in places subject to high temperatures or where heat collects (near an open flame or heating equipment, under a kotatsu or blanket, in direct sunlight, or inside a car on a hot day).

May cause fire, burns, injury, electric shock, etc.

Do not place handset or related hardware in or near a microwave oven, induction cooktop, etc. or pressure cooker.

May cause fire, burns, injury, electric shock, etc.

Do not place handset or related hardware directly on or get soiled with sand, dirt or mud. Do not touch if hands are dirty with sand, etc.

May cause fire, burns, injury, electric shock, etc.
For details on water and dust resistance, see "Water/Dust/
Shock Resistance."

Do not charge if wet with water or other liquid (beverage, sweat, seawater, pet urine, etc.).

May cause fire, burns, injury, electric shock, etc. For details on water resistance, see "Water/Dust/Shock Resistance."

Do not disassemble or modify.

May cause fire, burns, injury, electric shock, etc.

Do not get wet with water or other liquid (beverage, sweat, seawater, pet urine, etc.).

May cause fire, burns, injury, electric shock, etc.
For details on water resistance, see "Water/Dust/Shock Resistance."

Do not allow water or other liquid (beverage, sweat, seawater, pet urine, etc.) to enter 3.5mm Headphone Port or External Device Port.

May cause fire, burns, injury, electric shock, etc. For details on water resistance, see "Water/Dust/Shock Resistance."

Use only SoftBank-designated optional accessories.

May cause fire, burns, injury, electric shock, etc.

⚠ WARNING

Do not drop, step on, throw, or otherwise subject to strong force or impact, or to vibration.

May cause fire, burns, injury, electric shock, etc.

Do not allow conductive materials (anything metal, pencil lead, etc.) to contact or dust to enter 3.5mm Headphone Port or External Device Port.

May cause fire, burns, injury, electric shock, etc.

Do not cover or wrap with a blanket, etc. during use or while charging.

May cause fire, burns, etc.

If charging does not complete even after specified charging time, stop charging.

Overcharging or other conditions may cause fire, burns, injury, etc.

Always turn off handset as well as stop charging before entering gas stations or other places where flammable gases or fine particulates generate.

Using handset in presence of flammable gases may cause explosion, fire, etc.

If you notice an unusual odor, unusual sound, smoke, overheating, discoloration, deformation, etc. while using, charging or storing handset, do the following.

- Unplug from outlet.
- Turn handset power off.

Not doing the above may cause fire, burns, injury, electric shock, etc.

CAUTION

Do not use damaged.

May cause fire, burns, injury, etc.

Do not place on an uneven or unstable surface. Be particularly careful while vibrator is activated.

May fall, leading to injury, etc.

Do not store in a humid or dusty location or any place that reaches a high temperature.

May cause fire, burns, electric shock, etc.
For details on water and dust resistance, see "Water/Dust/
Shock Resistance."

Before a child uses handset or related hardware, a parent/guardian should provide instruction and ensure proper usage.

Failing to do so may cause injury, etc.

Keep out of reach of infants.

Failing to do so may result in small parts being accidentally swallowed or may cause injury, electric shock, etc.

Handset may become hot with extended use or while charging. Also be careful not to unintentionally be in contact with handset for a long time (falling asleep, etc.).

If using applications, calling, transferring data, watching videos, etc. or charging for an extended period, handset, AC Charger/Micro USB Cable may become hot. Long contact with hot parts may cause redness, itchiness, rash, low-temperature burns, etc. depending on the individual.

Handset

⚠ DANGER

Do not throw in fire or heat.

May cause Battery to ignite, rupture, overheat, or leak, resulting in fire, burns, injury, etc.

Do not pierce, hammer, step on, or otherwise subject to excessive force.

May cause Battery to ignite, rupture, overheat, or leak, resulting in fire, burns, injury, etc.

If matter from inside Internal Battery gets in eyes, do not rub, immediately rinse with clean water, and promptly seek medical attention.

Internal Battery matter can cause blindness or illness.

If matter from inside Display gets in eyes or mouth, do not rub, immediately rinse with clean water, and promptly seek medical attention.

Matter inside Display may cause blindness or illness.

⚠ WARNING

Do not look into Infrared Port when sending data by infrared.

May affect eyesight.

When using infrared transfer, do not point Infrared Port at an appliance or other apparatus having infrared capability.

May cause appliance, etc. to misoperate and cause an accident, etc.

Do not shine Light near or photograph with Light close to someone's eyes. Especially, do not photograph infants up close.

May affect eyesight, etc. May also temporarily affect eyesight or startle, leading to injury or other accident.

Do not shine Light at or use Light to photograph the driver of a vehicle, etc.

May interfere with driving, leading to accident, etc.

Do not look at a repeatedly flickering screen for a long period.

May cause convulsions, loss of consciousness, etc.

Do not allow water or other liquids (beverage, sweat, seawater, pet urine, etc.) or foreign objects such as anything metal, flammable material, etc. to enter handset USIM Card/SD Card Slot (from Card Slot Cap).

Do not mistake USIM Card and SD Card Slots.

May cause fire, burns, injury, electric shock, etc.

Do not expose Camera lens to direct sunlight for extended period.

Concentration of light by lens may cause fire, burns, injury, etc.

Before boarding an aircraft, power off handset or place handset in Airplane mode.

Restrictions are in place for use aboard aircraft; follow airline instructions.

May affect aircraft instrumentation.

Prohibited use aboard an aircraft may be punishable by law.

Follow instructions of each medical institution for use in a hospital.

Power off handset where use is prohibited. May affect electronic devices and electric medical equipment.

Always power off handset when using handsfree calling, the ringtone is sounding, or when waiting for a call.

If an earphone-microphone, etc. is attached for gaming or video/music playback, adjust to a moderate volume.

Too loud a volume or use for a long period may affect hearing.

Inability to hear surrounding sound may also cause an accident.

Individuals with a weak heart should take care with handset vibration and ringtone settings for new calls/mail.

May affect heart.

Individuals with an electric medical device should consult with the device manufacturer or distributor regarding any effects from electronic signals before using handset.

May affect the electric medical device.

Keep handset power off near high precision electronic devices or devices using weak signals.

May cause devices to misoperate, etc.

Devices that may be affected:

Hearing aids, implanted cardiac pacemakers and implanted defibrillators, other electric medical equipment, other automatically controlled equipment, etc. Individuals using an implanted cardiac pacemaker, implanted defibrillator, or other electric medical equipment should consult with the device manufacturer or distributor regarding any effects from electronic signals.

If Display or Camera lens becomes damaged, be careful with shattered glass and exposed handset interior.

Touching broken portions or exposed components may cause burns, injury, electric shock, etc.

If Internal Battery leaks or emits odor, immediately discontinue use and keep away from flames.

Leaking fluid can catch fire and ignite, rupture, etc.

Do not allow pets, etc. to bite handset.

Internal Battery may ignite, rupture, overheat, or leak, resulting in fire, burns, injury, etc.

⚠ CAUTION

If Display becomes damaged and internal matter leaks, do not allow it to get on skin (face, hands, etc.), clothing, etc.

May cause blindness, harm to your skin, etc. If internal matter should get in your eyes or mouth or on your skin or clothing, immediately rinse with clean water. If in your eyes or mouth, immediately seek medical attention after rinsing.

To open Back Cover, use only as much strength as necessary.

Back Cover may break, causing injury, etc.

Avoid pinching fingers when attaching Back Cover.

May cause injury, etc.

Do not use handset without Back Cover attached.

May cause burns, injury, electric shock, etc.

Do not dispose of with ordinary waste.

May cause ignition, resulting in fire, burns, injury, etc. May also degrade the environment. Bring old handsets to a SoftBank Shop or other location accepting handsets, or dispose of in accordance with local collection regulations.

If matter from inside Internal Battery leaks, do not let it get on skin (face, hands, etc.), clothing, etc.

May cause blindness, harm skin, etc.

If matter gets in eyes/mouth or on skin/clothing, immediately rinse with clean water.

If matter gets in eyes/mouth, first rinse and then

promptly seek medical attention.

Before using handset in a vehicle, consult with the vehicle manufacturer or distributor regarding any effects from electronic signals.

Although rarely, some makes of car may have onboard electronic devices that can be affected. Immediately discontinue use if such devices are onboard.

If any skin abnormality occurs with use of handset, immediately discontinue use and seek medical attention. May cause itchiness, rash, etc. depending on the individual.

For details on materials used in handset, see "DIGNO® F."

Handset Speaker uses magnetic components. Make sure that nothing metal (cutter blades, staples, etc.) have become attached to it.

Attached objects may cause injury, etc.

When viewing Display, view in a sufficiently bright place with Display at an adequate distance.

Viewing in a dark place too closely may affect vision, etc.

Internal Battery

Internal Battery is the following type.

Symbol on Label

Battery Type

Li-ion00

Lithium-ion

⚠ DANGER

Do not throw Internal Battery (handset) in fire or heat Internal Battery (handset).

Internal Battery igniting, rupturing, overheating, or leaking may cause fire, burns, injury, etc.

Do not pierce, hammer, step on, or otherwise subject to excessive force.

Internal Battery igniting, rupturing, overheating, or leaking may cause fire, burns, injury, etc.

If matter from inside Internal Battery gets in eyes, do not rub, immediately rinse with clean water, and promptly seek medical attention.

Internal Battery matter can cause blindness or illness.

⚠ WARNING

If you notice an unusual odor, overheating, discoloration, deformation, etc., do not use Internal Battery (handset).

Internal Battery igniting, rupturing, overheating, or leaking may cause fire, burns, injury, etc.

If Internal Battery leaks or emits odor, immediately discontinue use and keep away from flames.

Leaking fluid may ignite, causing ignition, rupturing, etc.

Do not allow pets, etc. to bite handset.

Internal Battery igniting, rupturing, overheating, or leaking may cause fire, burns, injury, etc.

! CAUTION

If Internal Battery matter leaks, do not allow it to get on skin (face, hands, etc.), clothing, etc.

May cause blindness, harm to your skin, etc.

If internal matter should get in your eyes or mouth or on your skin or clothing, immediately rinse with clean water. If in your eyes or mouth, immediately seek medical attention after rinsing.

AC Charger (Commercially Available), Micro USB Cable (Commercially Available)

MARNING

Do not use AC Charger or Micro USB Cable if damaged.

May cause fire, burns, electric shock, etc.

Do not use AC Charger or Micro USB Cable in bath room or other humid location.

May cause fire, burns, electric shock, etc.

If thunder is audible, do not touch AC Charger or Micro USB Cable.

May cause electric shock.

Do not short-circuit Charging Terminals while plugged in. Do not touch Charging Terminals with hands, fingers, etc.

May cause fire, burns, electric shock, etc.

Do not place heavy objects on, pull, or otherwise subject AC Charger or Micro USB Cable to excessive force.

May cause fire, burns, electric shock, etc.

When plugging in/unplugging AC Charger, do not allow anything metal (metal strap, etc.) to come in contact.

May cause fire, burns, electric shock, etc.

Do not use a travel converter with AC Charger.

May cause ignition, overheating, electric shock, etc.

If AC Charger is connected to handset, do not place excessive force where they are connected.

May cause fire, burns, injury, electric shock, etc.

Do not touch AC Charger cord or Micro USB Cable, Charging Terminals, or power plug with wet hands.

May cause fire, burns, electric shock, etc.

Use with the specified power source at the specified voltage.

If charging while abroad, charge with an AC Charger compatible with use abroad.

Use with an incorrect power source or voltage may cause fire, burns, electric shock, etc.

AC Charger: 100 V AC (household AC outlet only)

AC Chargers compatible with use abroad: 100 V to 240 V $\,$

AC (be sure to connect only to household AC outlet)

Wipe away dust on power plug.

Using with dust on plug may cause fire, burns, electric shock, etc.

When plugging in AC Charger, plug in firmly.

Failing to do so may cause fire, burns, electric shock, etc.

Hold AC Charger by body to unplug and do not pull forcefully by cord.

Pulling by cord can damage cord, causing fire, burns, electric shock, etc.

When connecting/disconnecting AC Charger from handset, insert/remove straight from terminal without bending, and without pulling by cord or otherwise subjecting to excessive force.

Failing to do so may cause fire, burns, injury, electric shock, etc.

If Charging Terminals are bent or otherwise deformed, immediately discontinue use. Do not try to return to original shape and resume use.

Short-circuiting of Charging Terminals may cause fire, burns, injury, electric shock, etc.

If not using AC Charger, unplug from outlet.

Leaving plugged in may cause fire, burns, injury, electric shock, etc.

If water or other liquid (beverage, sweat, seawater, pet urine, etc.) enters, immediately unplug from outlet.

May cause fire, burns, electric shock, etc.

Before caring for equipment, unplug from outlet.

Failing to do so may cause fire, burns, electric shock, etc.

⚠ CAUTION

Do not be touching AC Charger for a long period while plugged in.

May cause burns, etc.

USIM Card

⚠ CAUTION

When handling USIM Card, be careful not to scratch fingers, etc. on notch.

May cause injury, etc.

Handset Use & Electronic Medical Equipment

MARNING

When carrying handset, keep a minimum of 15 cm from implanted cardiac pacemaker, implanted defibrillator, etc.

Radio waves may interfere with the operation of electric medical devices.

When using electronic medical equipment (other than implanted cardiac pacemaker/defibrillator) outside of medical institutions, consult device manufacturer about the influence of radio waves.

Radio waves may interfere with the operation of electric medical equipment.

Set handset to not emit radio waves (power off or place in Airplane mode) if you will be in a packed location and cannot maintain a distance of 15 cm from those around you.

Persons with an implanted pacemaker, defibrillator, etc. may be around you. Radio waves may affect operation of electric medical devices.

Follow instructions of each medical institution for use of handset in a hospital.

May affect electric medical equipment.

General Notes

Observe the following for optimal performance. Please use handset after reading carefully.

[503KC] here refers to this mobile phone [DIGNO $^{\circ}$ F] .

Usage Basics

- · Content saved on handset (Address Book, mail, music, photos, videos, etc.) may be altered or erased due to accident, malfunction/repair, or other handling. Keep a copy of important content. SoftBank Corp. is not liable for any damages or lost profit resulting from alteration or loss of content.
- · Do not use in places with much dust or vibration.
- · Use of handset near a landline phone, TV, or radio may affect the image and sound quality of the equipment.
- Depending on conditions of use (in call, using Internet or mail, charging, etc.), handset and USIM Card may become warm. This is not a defect or malfunction.
- Be sure to charge Internal Battery before using handset for the first time or if handset has not been used for a long time. (During charging, Internal Battery may become warm. This is not a defect or malfunction.)
- Depending on usage, bulges may appear on Internal Battery near end of battery life. This is normal for lithium-ion batteries and does not affect safety.
- Sticker on handset with serial number (visible when Back Cover removed) is certification that your SoftBank handset is licensed under the Radio Law and Telecommunications Business Law. Do not remove.
- Mail saved on handset, downloaded content (whether paid for or free), etc. cannot be transferred to an exchange
 SoftBank handset (replacing old handset, submitting handset for repairs, etc.).
- When using handset in public places, take care not to annoy other people around you.
- Wearing polarized sunglasses may cause Display to appear dark or distorted at certain angles.
- Be sure to center Earpiece over ear to hear Earpiece sound.
 Your ear may block Earpiece (sound hole) and prevent clear sound.
- Trying to use keys during content playback may cause content to stop or other abnormal operation.
- Surrounding brightness is detected by Brightness Sensor.
 Avoid covering Sensor.
- Keeping Viewfinder open or shooting videos, operating Browser, etc. repeatedly for a continuous and extended period causes handset to become warm. Skin contact for extended period when handset is warm may cause lowtemperature burns.
- · Handset may become warm depending on usage and where used, and some functions (charging, etc.) will stop as a precaution. Handset powers off if use is continued while warm.
- · If a message appears indicating error due to temperature while External Device Port is in use, immediately disconnect
- \cdot SD Card may be warm after extended use. This is normal.
- Do not use or store SD Card in locations prone to static electricity or electrical noise.

- · Back up SD Card data to a PC or other media. SoftBank Corp. is not liable for any damages resulting from loss of saved data due to damage, etc. of SD Card.
- · Be careful not to forget PIN/Password for unlocking Start Screen if set. If forgotten, you will be required to visit your nearest SoftBank Shop for assistance. Saved information and settings will be lost.
- · A variety of applications can be installed to handset from "Google Play™" provided by Google Inc. SoftBank Corp. makes no guarantee whatsoever with regard to the nature (quality, reliability, legality, suitability for a purpose, validity of information, accuracy, etc.) of these applications that you yourself have installed, or with regard to any problems (viruses, etc.) resulting from them.
- \cdot A Google account is required for use of Google services such as Google Play.
- Your Google account is used by other setting functions and synchronization functions; be sure to keep a written record of account information.
- Never modify handset. Use of modified handset is a violation of the Radio Law and Telecommunications Business Law.

Handset has received certification of compliance with technical standards as a specific wireless device based on the Radio Law as well as compliance with technical standards as a device based on the Telecommunications Business Law, indicated by the "technical conformity mark \(\epsilon \)" on its nameplate sticker.

Removing screws and modifying handset interior voids technical conformity certification. Using handset with its technical conformity certification voided infringes on the Radio Law and Telecommunications Business Law, and handset should never be used in this condition.

Precautions

- Excess weight on handset may damage Display or internal parts, resulting in malfunction. Do not sit with handset in pocket or place at bottom of bag with other heavy objects. Even without exterior damage, it will not be covered under warranty.
- \cdot Do not use the following items in extreme temperatures or high humidity (use in temperatures between 5°C 35°C and humidity within 35% 85%).
- -AC Charger (commercially available)
- -Micro USB Cable (commercially available)
- · Do not use the following items in extreme temperatures or high humidity. Use in temperatures between $5^{\circ}\text{C}-35^{\circ}\text{C}$ and humidity within 35%-90% (limited use in temperatures between $36^{\circ}\text{C}-40^{\circ}\text{C}$).
- -DIGNO® F unit
- Clean External Device Port and 3.5mm Headphone Port with a cotton swab occasionally. If dirty, may cause poor connection. Do not apply force and deform or scratch terminals.
- To clean handset, wipe it with a dry, soft cloth. Do not use benzene, thinner, alcohol, soap, or other solvents. Doing so may discolor or remove exterior features or print.
- Usable battery time decreases in extreme temperature conditions (left in car with closed windows on a hot day, etc.). Battery life also shortens. Using handset at room temperature is recommended.
- Before extended period of disuse, store handset away from high temperature and humidity. Note that not energizing handset for extended period may cause content in handset to be erased.
- Internal Battery is near end of its life when charging no longer restores handset functionality or bulges appear.
 Replace Internal Battery. For replacement, visit a SoftBank Shop or contact SoftBank Customer Support. Life depends on conditions of usage.
- Do not dispose of handset with other waste. For environmental and recycling reasons, please take old handset to a SoftBank Shop, etc., where Internal Battery can be recycled.

- \cdot Handset Display pixels may be missing or remain lit. This is not a defect or malfunction.
- · Do not subject Display to strong shock such pressing forcefully or hitting it. May cause scratches or breakage.
- Display uses high-transparency glass, and can appear dirty due to smudging, dust, etc. To clean, wipe with a dry, soft cloth.
- Do not let a hard object rub against and scratch Display or Camera Lens.
- · When placing handset in a pocket or bag, ensure that metal or other hard materials do not contact Display.
- Water forms inside handset (called condensation) if moved from a cold to hot place (outdoors to indoors) or used in high humidity. May cause malfunction.
- Do not leave near air conditioning vent. Condensation from sudden temperature changes may corrosion of handset interior and malfunction.
- · A strong magnet nearby may cause malfunction.

- \cdot Be careful not to drop handset and scratch surface finish. Remaining water, etc. may cause surface finish to peel.
- Display may be difficult to view in bright conditions (outdoors, under fluorescent lighting, etc.). This is not a defect or malfunction.
- · If not using AC Charger (commercially available), unplug from outlet.
- · Do not wrap cable of AC Charger (commercially available) around plug. May cause electric shock, ignition, or fire.
- · USIM Card remains the property of SoftBank Corp. If lost or damaged, it is replaced at cost. If it seems to be malfunctioning or if lost/stolen, visit a SoftBank Shop or contact SoftBank Customer Support. Take old USIM Card (after subscription cancelation, etc.) to a SoftBank Shop.
- · Do not use excessive force to insert/remove USIM Card.
- · Malfunction due to inserting USIM Card in another IC Card reader/writer, etc. is at your own risk.
- · Keep IC (metal) portion clean for use.
- · Do not adhere labels, etc. on USIM Card.
- Do not disassemble or modify USIM Card. May cause content to be erased or malfunction.
- Install SD Card correctly. SD Card can only be used if installed correctly.

Touchscreen

- Operate handset with fingers for touch operation. Do not operate with a pen, pencil, or other pointed object.
 In addition to not operating correctly, it may scratch or damage Display.
- Adhering stickers or sheets (commercially available protective films, privacy protectors, etc.) may cause Touchscreen misoperation.
- · Soiling on Display may cause misoperation. Wipe with a dry, soft cloth.
- If carrying in pocket or bag, metal or other conductive objects that are close to Touchscreen may cause it to misoperate.
- While touch operation is possible while wearing gloves, glove thickness/material may prevent optimal operation.
- \cdot If gloves have any water on them and operation is not possible, wipe away water.
- · If operation with gloves on is not possible after having operated Touchscreen with bare hands, place handset in Sleep mode and then wake it.
- · If glove fingers do not fit and operation is not possible, use pads of fingers to operate.

Camera

- Do not leave Camera Lens under direct sunlight. May burn or fade colors of elements.
- Shooting photos or storing handset in a warm place for extended period may affect image quality.
- · Camera is high-precision, including pixels which always appear bright or dark. Blue, red, white, etc. dots will appear when shooting in extremely dark conditions.
- · When shooting indoors under fluorescent lighting, flickering (extremely faint and not visible) may appear as stripes in image. This is not a defect or malfunction.
- Camera may make sound during operation, such as when being activated. This is not a defect or malfunction.
- Keeping Viewfinder open or shooting videos, operating Browser, etc. repeatedly for a continuous and extended period causes handset to become warm. Skin contact for extended period when handset is warm may cause lowtemperature burns.
- · Observe proper etiquette when using Camera.
- · Creating a public nuisance with Camera may be punishable by law.
- Practice taking and previewing pictures, videos, and audio before using Camera on important occasions like wedding ceremonies
- Photo files (below, content) may be altered or erased due to repairs or other handling. SoftBank Corp. is not liable for any damages or lost profit resulting from content alteration/erasure or its restoration.
- \cdot Do not use Camera in locations where shooting photos or videos is prohibited.

Music/Videos

- Do not listen to music or watch videos while driving a vehicle or riding a scooter/bicycle. Such use of a mobile phone is prohibited by law (use while riding a bicycle may also be punishable). Also be alert while walking; if surroundings are difficult to hear or attention is on Display, a traffic accident may result. Be careful especially at railway crossings, on station platforms, and at intersections.
- Listening at loud volume for an extended period may affect hearing.
- Take care not to disturb those around you (on train, etc.) with earphone or other noise.

Urgent News (Application)

- · Receive setting is enabled by default.
- Alert sounds when Urgent News is received, even in Silent mode. When set to Total Silence, handset vibrates only without alert sound.
- Alerts are not received during calls/transmissions or in poor signal conditions.
- Depending on usage/situation, handset may receive alerts for other areas or no alerts.
- · When receive setting is enabled, handset standby time becomes shorter.
- SoftBank Corp. cannot be held liable for any damages associated with this service, including accidents resulting from received information, reception timing or reception failure.

Bluetooth®

· Frequencies

Handset Bluetooth® function uses 2.402 GHz – 2.480 GHz frequencies in the 2.4 GHz band.

2.4FH1/XX1: Uses 2.4 GHz band, FH-SS and other modulation, with a maximum interference range of 10 m.

: Utilizes 2.402 GHz – 2.480 GHz band without mobile device bandwidth differentiation.

- · Bluetooth® Cautions
- · Handset Bluetooth® function is certified as conforming to Japanese domestic and FCC standards. Use is restricted in some countries/regions. Confirm local laws before use abroad.
- The 2.4 GHz band used by handset Bluetooth® function is shared by other devices. Handset Bluetooth® function tries to minimize effects of other devices using the same bandwidth, but connection speed and distance may be reduced or function may be disconnected.
- \cdot Connection speed and distance vary depending on distance between connected devices, obstacles, and Bluetooth® devices.
- · Before Using Bluetooth®

 Bluetooth® operating frequency band is used by industrial, scientific, consumer and medical equipment including microwave ovens, other similar radio stations, premises radio stations for identifying mobile units used in manufacturing lines (radio stations requiring a license), specified low power radio stations (radio stations requiring no license) and amateur radio stations (hereafter, "other radio stations").
- 1. Before handset use, be sure "other radio stations" are not in use nearby.
- 2. If handset radio waves interfere with "other radio stations," promptly move or power off.
- 3. For further information, visit a SoftBank Shop or contact SoftBank Customer Support.
- \cdot All handset operations when connected with a Bluetooth®-compatible device are not verified and therefore not quaranteed.
- · Handset supports the Bluetooth®-standard security function for secure radio communication. However, be careful when using Bluetooth®, as security may be insufficient depending on conditions of usage or settings.
- · SoftBank Corp. accepts no liability for data/information leaks during communication using Bluetooth®.

Wi-Fi (Wireless LAN)

Frequencies

Handset Wi-Fi function uses 2.402 GHz – 2.480 GHz frequencies in the 2.4 GHz band.

Uses 2.4 GHz band, DS-SS/OFDM modulation, with a maximum interference range of 40 m.

:Utilizes 2.402 GHz – 2.480 GHz band with mobile device bandwidth differentiation.

2.4DS4/OF4

- · Wi-Fi Cautions
- · Handset wireless LAN function is certified as conforming to Japanese domestic and FCC standards/EC Directives. Use is restricted in some countries/regions including France. Confirm local laws before use abroad.
- · The 2.4 GHz band used by handset Wi-Fi function is shared by other devices. Handset Wi-Fi function tries to minimize effects of other devices using the same bandwidth, but connection speed and distance may be reduced or function may be disconnected.
- \cdot Connection speed and distance vary depending on distance between connected devices, obstacles, and Wi-Fi devices.
- · Before Using Wi-Fi
- Wi-Fi operating frequency band is used by industrial, scientific, consumer and medical equipment including microwave ovens, other similar radio stations, premises radio stations for identifying mobile units used in manufacturing lines (radio stations requiring a license), specified low power radio stations (radio stations requiring no license) and amateur radio stations (hereafter, "other radio stations").
- 1. Before handset use, be sure "other radio stations" are not in use nearby.
- 2. If handset radio waves interfere with "other radio stations," promptly move or power off.
- 3. For further information, visit a SoftBank Shop or contact SoftBank Customer Support.
- All handset operations when connected with a Wi-Ficompatible device are not verified and therefore not guaranteed.
- \cdot Handset supports the Wi-Fi-standard security function for secure radio communication. However, be careful when using Wi-Fi, as security may be insufficient depending on conditions of usage or settings.
- · SoftBank Corp. accepts no liability for data/information leaks during communication using Wi-Fi.

CE Declaration of Conformity

C € 1177

In some countries/regions, such as France, there are restrictions on the use of Wi-Fi. If you intend to use Wi-Fi on the handset abroad, check the local laws and regulations beforehand.

KYOCERA Corporation hereby declares that 503KC is in compliance with the essential requirements and other relevant provisions of Directive 1999/5/EC.

A copy of the original declaration of conformity for each model can be found at the following Internet address: http://www.kyocera.co.jp/prdct/telecom/consumer/ce/

Specific Absorption Rate (SAR) for This Product (for Japan)

This mobile phone [503KC] meets Japanese technical regulations* and international guidelines for exposure to radio waves.

The Japanese technical regulations for exposure to radio frequency energy established permitted levels of radio frequency energy, based on standards developed by independent scientific organizations through periodic and thorough evaluation of scientific studies.

The regulations employ a unit of measurement known as the Specific Absorption Rate, or SAR.

The SAR limit is 2 watts/kilogram (W/kg) averaged over ten grams of tissue.

The limit includes a substantial safety margin designed to assure the safety of all persons, regardless of age and health. The value of the limit is equal to the value given in international guidelines recommended by ICNIRP**, which is in collaboration with the World Health Organization (WHO). The highest SAR value for this mobile phone is 0.565 W/kg*** when tested for use at the ear, and 0.354 W/kg*** when worn on the body in the below manner****.

While there may be differences between the SAR levels of various phones and at various positions, all phones meet the Japanese technical regulations.

Although the SAR is determined at the highest certified power level, the actual SAR of the phone during operation can be well below the maximum value.

Use at positions other than at the ear****

This mobile phone may be used at positions other than at the ear. By using an accessory such as a belt clip holster that maintains a 1.5 cm separation with no metal (parts) between it and the body and the mobile phone, this mobile phone will comply with international guidelines for radio wave protection.

- * The technical regulations are provided in Article 14-2 of the Ministry Ordinance Regulating Radio Equipment.
- ** International Commission on Non-Ionizing Radiation Protection
- *** The value is under simultaneous transmission use conditions.

The World Health Organization has announced that "A large number of studies have been performed over the last two decades to assess whether mobile phones pose a potential health risk. To date, no adverse health effects have been established as being caused by mobile phone use."

For more information about SAR, see the following websites: Ministry of Internal Affairs and Communications (MIC) http://www.tele.soumu.go.jp/e/sys/ele/body/index.htm Association of Radio Industries and Businesses (ARIB) http://www.arib-emf.org/01denpa/denpa02-02.html (Japanese)

Safety Information

To prevent possible hearing damage, do not listen at high volume levels for long periods.

This mobile phone [503KC] is confirmed to comply with guidelines relating to effects of radio wave exposure as set forth by the Council of Europe (CE) and the Federal Communications Commission (FCC). Refer to the following.

European RF Exposure Information

Your mobile device is a radio transmitter and receiver. It is designed not to exceed the limits for exposure to radio waves recommended by international guidelines. These guidelines were developed by the independent scientific organization ICNIRP and include safety margins designed to assure the protection of all persons, regardless of age and health.

The guidelines use a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit for mobile devices is 2.0 W/kg and the highest SAR value for this device when tested at the ear is 0.458 W/kg*. As mobile devices offer a range of functions, they can be used in other positions, such as on the body. In this case, the highest tested SAR value is 1.342 W/kg* at the separation distance of 0.5 cm from the body. For electronic safety, maintain the separation distance with accessories containing no metal, that position handset a minimum of the above distance. Use of other accessories may not ensure compliance with RF exposure guidelines.

* The tests are carried out in accordance with international quidelines for testing.

The World Health Organization has stated that present scientific information does not indicate the need for any special precautions for the use of mobile devices. They note that if you want to reduce your exposure then you can do so by limiting the length of calls or using a hands-free device to keep the mobile phone away from the head and body.

World Health Organization

List of Specific Absorption Rates (SAR) for radio waves by smartphone/3G model $\,$

http://www.softbank.jp/mobile/support/sar/ (Japanese)

FCC RF Exposure Information

Your handset is a radio transmitter and receiver. It is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government. The guidelines are based on standards that were developed by independent scientific organization through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons, regardless of age and health. The exposure standard for wireless handsets employs a unit of measurement known as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6 W/kg. The tests are performed in positions and locations (e.g. at the ear and worn on the body) as required by the FCC for each model. The highest SAR value for this model handset as reported to the FCC when tested for use at the ear is 0.376 W/kg, and when worn on the body in a holder or carry case, is 0.717 W/

Body-worn Operation; This device was tested for typical body-worn operations with the handset kept 1 cm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 1 cm separation distance between the user's body and the handset. The use of beltclips, holsters and similar accessories should not contain metallic components in its assembly.

The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided. The FCC has granted an Equipment Authorization for this model handset with all reported SAR levels evaluated as in compliance with the FCC RF emission guidelines. SAR information on this model handset is on file with the FCC and can be found under the Display Grant section of (http://www.fcc.gov/oet/ea/) after searching on FCC ID JOYYKCAO4.

Additional information on Specific Absorption Rates (SAR) can be found on the FCC website at (https://www.fcc.gov/general/radio-frequency-safety-0).

The World Health Organization has stated that present scientific information does not indicate the need for any special precautions for the use of mobile devices. They note that if you want to reduce your exposure then you can do so by limiting the length of calls or using a hands-free device to keep the mobile phone away from the head and body. World Health Organization

FCC Notice

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help and for additional suggestions.

Warning

The user is cautioned that changes or modifications not expressly approved by the manufacturer could void the user's authority to operate the equipment.

FCC Compliance Information

The product is certified by Federal Communications Commission (FCC).

The FCC ID of this product is JOYYKCA04.

Or you can check as follows.

How to check:

Display "Apps" on the Home screen → [Settings] → [About phone] → [Technical regulations conformity certification]

Water/Dust/Shock Resistance

Handset has waterproof ratings equivalent to IPX5 and IPX7 and dustproof rating equivalent to IP5X (Back Cover and Card Slot Cap completely secure). Handset is also provided with shock resistance complying with military standards (SoftBank testing). Specifically, handset can be used in rain (less than 20 mm per hour) without an umbrella. Handset can also be used in bathrooms, kitchens, at poolside, and other places with water.

* For details, see "In Various Environments."

However, failure to observe precautions given here may allow water, sand, foreign particles, etc. to enter handset and may cause overheating, ignition, electric shock, scratches, malfunction, etc. For safe handset use, first read precautions here.

IPX5 equivalent

Handset continues to function as a phone after being sprayed from all directions with 12.5 L of water per minute from a 6.3 mm diameter nozzle for at least 3 minutes, from a distance of approximately 3 m.

IPX7 equivalent

Handset continues to function as a phone without water intrusion after being slowly immersed in still tap water of room temperature to a depth of 1 m, and left there for approximately 30 minutes before being removed again.

IP5X equivalent

Handset will maintain a certain level of functionality and safety even after particulates in dustproof testing (dia. 75 μ m or less) have entered handset.

Compliance with Military Standards

Although drop testing in compliance with MIL-STD-810G Method 516.7:Shock-Procedure IV as stipulated by the US Department of Defense (product dropped in 26 directions onto plywood (lauan) from a height of 1.22 m), this is not a guarantee with regard to all types of shock.

* As handset is designed with shock resistance in everyday usage, handset may break if subjected to excessive impact such as being thrown against something. Dropping may produce scratches, etc. even if handset performance is unaffected.

Before Use

 \cdot Close Card Slot Cap securely and attach Back Cover firmly to prevent water intrusion.

Confirm that Cap and Cover are completely secure so that there are no gaps.

- Particles (lint, a single hair, grain of sand/dirt, etc.) lodged between joining surfaces may allow water intrusion.
- DO NOT open/close Card Slot Cap or attach/remove Back Cover if hands/handset is wet.
- Do not place handset directly on beach sand, etc. Exposing Mic/Earpiece/Speaker/3.5mm Headphone Port/External Device Port, etc. to sand may reduce volume.
- · Do not use submersed (including key operation).
- Do not expose to or immerse in liquid other than room temperature fresh water or tap water (soap/detergent/bath salt water, hot spring water, hot water, muddy water, sea water, pool water, alcohol, etc.).

In Various Environments

- · Rain
- · Do not use in heavy rain (20 mm or more per hour).
- * Water remaining on Display may cause Touchscreen to malfunction.
- \cdot DO NOT open/close Back Cover/Card Slot Cap while exposed to rain or if hands are wet. May cause malfunction, etc.
- · Bath room
- · Do not immerse or drop in bathtub. Do not use submersed.
- * Water remaining on Display may cause Touchscreen to malfunction.
- \cdot Do not immerse in soap/detergent/bath salt water or hot spring water.
- \cdot Do not expose directly to warm shower.
- · Do not expose to hot water.
- · Avoid prolonged use in bath room.
- · Use handset in temperatures between 5°C 35°C and humidity within 35% 90% (limited use in temperatures between 36°C 40°C).
- · Kitchen
- \cdot Do not expose to or immerse in liquid other than fresh water or tap water (water with soap/detergent or spices, or beverage).
- \cdot Do not expose to or immerse in hot water or in chilled water.
- Do not leave handset in extremely hot/cold locations, (e.g., near ovens/stoves or in refrigerators).
- \cdot Do not subject handset to strong water pressure (more than 6 L per minute).
- · Poolside
- \cdot Do not immerse or drop in pool water. Do not use submersed.
- \cdot Pool water is chlorinated. If wetted with pool water, promptly wash off with room temperature tap water. Do not use a brush.
- * Somewhat low water pressure (6 L or less per minute)

Shared Precautions

- · Close Card Slot Cap firmly after confirming rubber seal is correct location. Also attach Back Cover firmly. Lodged particles, no matter how small (lint, a single hair, grain of sand, etc.), may allow water intrusion.
- Do not insert pointed object between Card Slot Cover and handset. May scratch seal and allow water to enter.
- Do not open or close Card Slot Cover while wearing gloves.
 Lodged particles (lint, hair, sand, etc.) from glove may allow water intrusion.
- · Check handset and hands for moisture, sand, grime, etc. before opening or closing Card Slot Cap or attaching/ removing Back Cover. May enter handset or become lodged in Cap or Cover, resulting in malfunction or water intrusion. If moisture, sand, grime, etc. is visible, no matter how small, first wipe handset and hands with lint-free clean, dry cloth before handling.
- · Do not leave handset wetted. Water may enter from gaps. May also reduce volume. If wetted, shake handset, and promptly remove as much water as possible with a lint-free clean, dry cloth. In cold regions, handset may freeze and cause malfunction.
- · Handset is waterproof for only for fresh water/tap water. Not waterproof for hot water, salt water, soap water, chemicals, sweat, etc. If exposed to other types of moisture or sand/mud/etc., promptly wash off with room temperature tap water. Wash using hands (do not use brush) and hold Back Cover/Card Slot Cap secured.
- * Somewhat low water pressure (6 L or less per minute)
- Do not expose to strong water pressure (e.g., tap/shower water that hurts) above rating (IPX5, IPX7) or immerse for extended period.
- Do not wash in a washing machine, ultra-sonic washing machine, etc.
- · Do not subject to strong shock while submersed (e.g., drop into basin, toilet, washing machine with water).
- Do not insert pointed objects in holes of Mic, Earpiece,
 Speaker, 3.5mm Headphone Port, or External Device Port.
- Rubber seal on back of Card Slot Cap is vital to waterproofing/dustproofing. Observe the following.
- · Do not remove or scratch.
- \cdot Do not allow particles to adhere. Lodged particles (lint, hair, sand, etc.) may allow water intrusion. Always remove.
- · Remaining liquid other than fresh water or tap water (hot water, salt water, detergent water, chemicals, sweat, etc.) may degrade waterproofing.
- · Be careful rubber seal is not pinched when securing Card Slot Cap. Forcing Cap closed with rubber seal pinched can scratch seal and may degrade waterproofing/dustproofing.
- · Replace components for water, dust, and shock resistance every two years regardless of appearance. Replacement can be provided at cost while handset is retained. Visit a SoftBank Shop or contact SoftBank Customer Support.
- \cdot Do not drop or otherwise subject handset to strong shock. May degrade water, dust, or shock resistance.
- Handset is airtight to maintain water resistance (IPX7).
 Pressing handset forcefully may produce sound around
 Earpiece, but this is not a function or performance abnormality.
- · Handset will not float.
- Do not immerse in hot water, use in a sauna, or subject to hot air from a hair dryer, etc.

- · Use handset in temperatures between $5^{\circ}\text{C} 35^{\circ}\text{C}$ and humidity within 35% 90% (limited use in temperatures between $36^{\circ}\text{C} 40^{\circ}\text{C}$). Use in extremes beyond these ranges may degrade water, dust, and shock resistance.
- Sudden temperature change results in condensation. Let handset reach room temperature before moving from cold to hot places (e.g., shower/bath) to prevent condensation. Handset has no anti-condensation features.
- * If condensation forms inside Display, leave at room temperature until condensation dries.
- · Do not run tap water directly on External Device Port.
- Do not leave handset with any water drops on it. May short-circuit External Device Port.
- · Do not leave any water on External Device Port.
- Before using External Device Port, check that there is no foreign matter in Port.
- · Handset fulfills performance requirements for assumed usage. However, handset is not guaranteed for any and all conditions of actual usage. Malfunction determined to be due to mishandling is not covered under warranty.

If Exposed to Water

Using a wet handset allows water to collect in Mic, Earpiece, Speaker, 3.5mm Headphone Port, or External Device Port. This may affect call quality or wet your clothing, bag, etc. Follow steps below to drain water.

Wipe handset with a lint-free clean, dry cloth

2

Shake handset as shown until there is no more wetting

Press a lint-free clean, dry cloth into gaps (Mic, Earpiece, Speaker, 3.5mm Headphone Port, External Device Port, etc.) to remove any water

4

After removing as much water as possible, leave handset at room temperature for at least 1 hour

· Some water may still remain in handset. Do not leave handset beside/in items that you do not want to get wet (clothing, bag, etc.).

When Charging

Check the following before and after charging.

- \cdot Never charge while handset is wet. Charging while wet may result in malfunction, overheating, etc.
- Do not touch AC Charger (commercially available) or Micro USB Cable (commercially available) with wet hands. May cause electric shock.
- · Use AC Charger (commercially available) or Micro USB Cable (commercially available) where not exposed to water. May cause fire or electric shock.
- Do not use AC Charger (commercially available) or Micro USB Cable (commercially available) near water sources (bath room/shower, sinks/basins, etc.). May cause fire or electric shock.
